**RE: PETITION of Frontier Communications of America, Inc.
for Expedited Review of Thousand Number Block Denials;
Docket No. 10-00100**

Dear Ms. Dillon:

Please find enclosed for filing the original and 12 copies of the above-referenced PETITION by which Frontier Communications of America, Inc. requests the Authority to review and overrule the denial of the Number Pooling Administrator of Frontier's applications for additional thousand number blocks necessary for Frontier to offer a new and innovative wireless service in Sparta, McMinnville, Monterey and Crossville, Tennessee. Also enclosed is our \$25 check for the filing fee.

Very truly yours,

Gregg C. Sayre
Assistant Secretary

GCS/hmj
Encl. (original + 12 copies, filing fee)

**BEFORE THE TENNESSEE REGULATORY AUTHORITY
NASHVILLE, TENNESSEE**

IN RE: PETITION FOR EXPEDITED)	
REVIEW OF GROWTH THOUSAND)	
BLOCKS BY THE NUMBER POOLING)	DOCKET NO. 10-_____
ADMINISTRATION RELATING TO)	
NEW WIRELESS SERVICE)	

**PETITION OF FRONTIER COMMUNICATIONS OF AMERICA, INC.
FOR EXPEDITED REVIEW OF THOUSAND NUMBER BLOCK DENIALS**

Frontier Communications of America, Inc. ("Frontier"), pursuant to rules adopted by the Federal Communications Commission for challenging determination of the Number Pooling Administrator ("Neustar"), petitions the Tennessee Regulatory Authority for an expedited review of NeuStar's denial of Frontier's application for the assignment of thousand number blocks in the 931 area code in the following rate centers:

Sparta: 931/256/9x

McMinnville: 931/259/3x

Monterey: 931/584/3x

Crossville: 931/210/2x - (Note: Frontier has determined that this block is contaminated. If this petition is approved, when Frontier re-submits it will apply for a new NXX, 931/336/3x)

1. Frontier is a competitive local exchange carrier providing telecommunications services in Tennessee under the jurisdiction of the Tennessee Regulatory Authority. Frontier uses its existing assigned numbers to provide landline services. Frontier is in the process of introducing innovative wireless services in Tennessee, initially within the footprint of its affiliated Incumbent Local Exchange Carriers.
2. NeuStar is an independent, non-government entity that is responsible for administering and managing numbering resources in pooling areas. *See* 47 C.F.R. § 52.13 (a) and (b).

3. On March 31, 2000, the Federal Communications Commission issued a Report and Order and Further Notice of Proposed Rule Making relating to numbering resource optimization (“FCC 00-104” or the “March Order”). On December 29, 2000, the FCC issued its Second Report and Order, Order on Reconsideration in CC Docket No. 96-98 and CC Docket No. 99-200, and Second Further Notice of Proposed Rulemaking in CC Docket No. 99-200 (“FCC 00-249” or the “December Order”). These FCC orders addressed issues and strategies relating to the efficient use of numbering resources.
4. In FCC 00-104 and FCC 00-249, the FCC announced rules and sought comments in an effort to implement uniform standards governing requests for telephone numbering resources in order to increase efficiency in the use of the existing telephone numbers and to slow further exhaustion of existing numbers under the North American Numbering Plan.
5. Among other things, FCC 00-104 adopted a revised standard for assessing a carrier’s need for numbering resources by requiring carriers to report rate center based utilization to NeuStar. The FCC further required that to qualify for access to new numbering resources, applications must establish that existing inventory within the applicant’s rate center will be exhausted within six months of the application.
6. In addition to the months-to-exhaust (“MTE”) requirement described above, the FCC’s rules also require carriers to meet a rate center utilization threshold of 60 percent to receive additional numbering resources in a given rate center. FCC 00-249 at ¶22; FCC 01-362 ¶¶50-52. The utilization threshold increases by five percent per year until it reaches a maximum 75 percent. Based on the FCC’s orders, carriers must meet both the six-month MTE requirement and the utilization threshold on a rate center basis to obtain additional number resources. Id. ¶29.

7. On May 10, 2010, Frontier submitted four National Pooling Requests for a thousand block (1,000 numbers) in each of the following four rate centers: Sparta, McMinnville, Monterey and Crossville (*Exhibit A*). Exhibit A also includes Frontier's MTE calculations.
8. Frontier requires a "clean" uncontaminated thousand block in each rate center to provide new and innovative mobile wireless services. Frontier will port the numbers in question to a third party vendor, which will handle number assignments for Frontier. The numbers will be served out of a third party's switch that will use a new Local Routing Number (LRN) that is unique to Frontier's mobile wireless service. Without a clean thousand block in each rate center, Frontier will be unable to obtain a dedicated LRN for this service. Absence of a dedicated LRN would make call routing and number assignment extraordinarily difficult if not impossible for Frontier's planned services. Frontier is unable to fulfill its customers' needs by assigning additional numbers in its existing thousand blocks in these rate centers, because its existing thousand blocks are contaminated and therefore cannot support a dedicated new LRN.
9. Frontier's proposed wireless service will provide customers with functionality and savings not available with traditional cellular services and plans. The wireless phones supplied by Frontier will automatically switch from cellular to Wi-Fi broadband service when Wi-Fi service is available, allowing customers to make and receive calls without using cellular minutes, and without paying any additional charges for incoming or nationwide outgoing calls. The phones will be capable of using the broadband wireless routers that Frontier includes with its residential landline High-Speed Internet services, Frontier Wi-Fi hotspots, Frontier municipal broadband Wi-Fi networks and third party Wi-Fi hot spots and networks. The phones will operate as ordinary cellular phones when a Wi-Fi network is not available.

10. On May 10, 2010, Frontier's requests were denied on the grounds that Frontier did not meet the utilization threshold required in the Central Office Code (NXX) Guidelines. These decisions are attached hereto as ***Exhibit B***.
11. As results of the denial of Frontier's requests for additional numbering resources, Frontier is unable to provide the telecommunications services requested and required by its customers in Tennessee.
12. Under previous procedures used by the North American Numbering Plan Administration ("NANPA"), waivers or exceptions were typically granted in any case where customer hardships could be demonstrated or where the service provider's inventory did not have a block of sequential numbers large enough to meet the customer's specific request. Under existing procedures, however, NeuStar looks at the MTE criteria and utilization threshold for the rate center and allows no exceptions. By refusing to consider the circumstances of each case, NeuStar's procedure may result in decisions contrary to the public interest and decisions that do not necessarily preserve the efficient use of telephone numbers or postpone dates of exhaust.
13. Attached as ***Exhibit C*** is a breakdown of the central office codes in the four rate centers in question, showing the utilization percentage for each thousand number block.
14. Both the FCC Order and NeuStar's Central Office Code (NXX) Guidelines provide that state regulatory authorities have the power and authority to review NeuStar's decision to deny a request for numbering resources. *See* 47 C.F.R. §52.15 (g)(4).
15. This Authority has previously received similar requests from BellSouth Telecommunications, Inc. in which BellSouth asked the Authority to overrule a decision of NANPA and NeuStar. *See* Docket 03-00482 and Docket 03-00591.

In both cases, the Authority granted BellSouth's request. State commissions in North Carolina, Florida, and Louisiana have also granted such request from BellSouth and from US LEC. The Authority also granted previous Frontier ILEC requests, filed by Citizens Telecommunications Company of Tennessee, for central office codes to serve St. Mary's Hospital in Powell. See Docket 04-00254, Docket 06-00257 and Docket 08-00096.

16. Frontier seeks the Authority's review of NeuStar's decisions to withhold numbering resources from it on the grounds that the CO Code Administration database denial (1) violates the rules and orders of the FCC which grant carriers access to numbering resources to meet specific customer demands upon a sufficient showing of need and (2) interferes with Frontier's ability to serve its customers within Tennessee. As the FCC has stated, "Under no circumstances should consumers be precluded from receiving telecommunications services of their choice from providers of their choice for want of numbering resources" FCC 00-429 at ¶61. By refusing to grant numbering resources sufficient to meet the Frontier's needs for a new LRN to provide a new and innovative wireless service, the decision is preventing Frontier's customers from receiving adequate service.

Relief Sought

For these reasons, Frontier requests that the Authority review the decision of NeuStar to deny Frontier's request for additional numbering resources and direct NeuStar to provide one uncontaminated thousand block to Frontier in each of the Sparta, McMinnville, Monterey and Crossville rate centers.

Respectfully submitted,

Frontier Communications of America, Inc.

Title Date

Instructions for filling out each Section of the Part 1A form:

Section 1.1 Contact information requires that Service Providers supply under "Block Applicant" the company name, company headquarters address, a contact within the company, an address where the contact person may be reached, in addition to the correct phone, fax, and e-mail address. The Pooling Administrator section also requires the Service Provider to fill in the Pooling Administrator's name, address, phone, fax and e-mail.

Section 1.2 Service Providers who need a thousands-block assignment or for an Location Routing Number (LRN) are required to fill in this section. If needed for an LRN, a CO Code Application needs to also be submitted to the PA. The Service Provider should supply the Numbering Plan Area (NPA); the Local Access Transport

Area (LATA), which is a three-digit number that can be found in the TelcordiaTM LERGTM Routing Guide. The Operating Company Number (OCN) assigned to the service provider and the OCN its parent company. An OCN is a four-character alphanumeric assigned by TelcordiaTM Routing Administration (TRA). In addition, the number of thousands-blocks requested should be supplied. The Switch Identification as well as the city or wire center name, rate center, rate center sub zone, homing tandem and CLLITM tandem of the facilities based provider^{xi}. Explanations of these terms may be found in the footnotes.

Section 1.3 The date the Service Provider completes the application should be entered in this section, as well as the Effective Date of the requested thousands-block.

Section 1.4 Service Providers should indicate their type, e.g., local exchange carrier, competitive local exchange carrier, interexchange carrier, CMRS. They also indicate the primary type of business in which the numbering resource is to be used. Service Providers also may indicate their preference for a particular thousands-block, e.g., 321-9XXX, or indicate any thousands-blocks that may be undesirable, e.g., 321-6XXX.

Section 1.5 Service Providers indicate the type of request. Initial requests are for first applications for thousands-blocks in a rate center, growth for additional thousands-blocks in a rate center in which the applicant already has numbering resources, and provide the required evidence as ordered by the FCC.

Section 1.6 Service Providers must indicate the updated/current information in regards to contaminated TNs on the block they are returning to the pool. Blocks with over 10% contamination (101 TNs or more) shall not be returned to the pool unless they meet criteria outlined in section 9.1.2 of these Guidelines. If the block being returned is over 10% contaminated the PA shall seek a new block holder. If question c and/or d have a response of No, the request for return shall be denied. The thousands-block applicant certifies veracity of this form by signing their name, and providing their title and date.

Foot Notes :

ⁱ Identify the type of change(s) in Section 1.5.

ⁱⁱ The Pool Administrator is available to assist in completing these forms.

ⁱⁱⁱ A CO Code application will also need to be submitted to the PA.

^{iv} Operating Company Number (OCN) assignments must uniquely identify the applicant. Relative to CO Code assignments, NECA-assigned Company Codes may be used as OCNs. Companies with no prior CO Code or Company Code assignments should contact NECA (800 524-1020) to be assigned a Company Code(s). Since multiple OCNs and/or Company Codes may be associated with a given company, companies with prior assignments should direct questions regarding appropriate OCN usage to (TRA) (732-699-6700).

^v This is an eleven-character descriptor of the switch provided by the owning entity for the purpose of routing calls. This is the 11 character CLLITM code of the switch /POI.

^{vi} Rate Center name must be a tariffed Rate Center.

^{vii} Acknowledgment and indication of disposition of this application will be provided to applicant within seven calendar days from the date of receipt of this application. An incomplete form may result in delays in processing this request.

^{viii} Please ensure that the NPA-NXX of the LRN to be associated with this block(s) is/will be active in the network prior to the effective date of the block(s).

^{ix} Select if you are the current Block Holder.

^x Select if you are not the current Block Holder

^{xi} Telcordia, LERG Routing Guide, and CLLI are trademarks of Telcordia Technologies, Inc.

Explanation: _____

¹A copy of this worksheet is required to be submitted to the Pooling Administrator when requesting additional numbering resources in a rate center. For auditing purposes, the applicant must retain a copy of this document.

²Quantity of numbers activated in the past 90 days is based on blocks and/or codes received from the administrator and shall be reported in increments of 1,000 or 10,000 TNs (e. g.: 2 blocks received=2,000 and 1 code received =10,000).

³Net change in TNs no longer available for assignment in each previous month, starting with the most distant month as Month #1, and Month #6 as the current month.

⁴Forecast of TNs needed in each following month, starting with the most recent month as Month #1.

⁵To be assigned an additional thousands-block (NXX-X) for growth, "Months to Exhaust" must be less than or equal to 6 months. (FCC 00-104, section 52.15 (g) (3) (iii)).

⁶Newly acquired numbers may be excluded from the Utilization calculation (FCC 00104, section 52.15 (g)(3)(ii))

ⁱⁱⁱ A CO Code application will also need to be submitted to the PA.

^{iv} Operating Company Number (OCN) assignments must uniquely identify the applicant. Relative to CO Code assignments, NECA-assigned Company Codes may be used as OCNs. Companies with no prior CO Code or Company Code assignments should contact NECA (800 524-1020) to be assigned a Company Code(s). Since multiple OCNs and/or Company Codes may be associated with a given company, companies with prior assignments should direct questions regarding appropriate OCN usage to (TRA) (732-699-6700).

^v This is an eleven-character descriptor of the switch provided by the owning entity for the purpose of routing calls. This is the 11 character CLLITM code of the switch /POI.

^{vi} Rate Center name must be a tariffed Rate Center.

^{vii} Acknowledgment and indication of disposition of this application will be provided to applicant within seven calendar days from the date of receipt of this application. An incomplete form may result in delays in processing this request.

^{viii} Please ensure that the NPA-NXX of the LRN to be associated with this block(s) is/will be active in the network prior to the effective date of the block(s).

^{ix} Select if you are the current Block Holder.

^x Select if you are not the current Block Holder

1.2 General Information:

Check one : No LRN needed ☒ LRN needed ⁱⁱⁱ ☐

NPA: 931 LATA: 470 OCN: ^{iv} 866C Parent Company's OCN 2473

Number of Thousands-Blocks Requested : 1

Switching Identification(Switch Entity/POI) : ^v

CKVLTNXARS3

City or Wire Center Name : _____ Rate Center: ^{vi} MONTEREY

Rate Center Sub Zone: _____

1.3 Dates:

Date of Application: ^{vii} 05/11/2010 Requested Block Effective Date: ^{viii} 06/11/2010

☒ By selecting this checkbox, I acknowledge that I am requesting the earliest possible effective date the Administrator can grant. Please note that this only applies to a reduction in the Administrator's processing time, however the request will still be processed in the order received.

Request Expedited Treatment? (See Section 8.6) Yes _____ No ☒

1.4 Type of Service Provider Requesting the Thousands-Block :

- a) Type of Service Provider : CAP OR CLEC (LEC, IXC, CMRS, Other)
- b) Primary type of service Blocks to be used for : Wireline
- c) Thousands-Block(s) (NXX-X) assignment Preference (Optional) 931-584-3X
- d) Thousands-Block(s) (NXX-X) that are undesirable for this assignment , if any _____
- e) If requesting a code for LRN purposes, indicate which block(s) you will be keeping(the remainder of the blocks will be given to the pool) _____

1.5 Type of Request:

Initial block for rate center : Yes _____ If Yes , attach evidence of authorization and proof of capability to provide service within 60 days.

Growth block for rate center : Yes ☒ If Yes , attach months to exhaust worksheet

☐ By selecting this checkbox, I acknowledge that I am willing to accept a block in red and explicitly understand that the underlying CO code may not yet be activated in the PSTN and loaded in the NPAC on the block effective date.

Type of change(Mark **all** that apply)

☐ OCN:Intra-company ^{ix} ☐ Switching Id ☐ Part 1B

☐ OCN:Inter-company ^x ☐ Effective Date

Change block : Yes _____ If Yes , list NPA-NXX-X _____

1.6 Block Return :

- a) Is this block Contaminated Yes _____ No _____
- b) If Yes how many TNs are NOT available for assignment : _____
- c) Have all new Intra SP ports been completed in the NPAC Yes _____ No _____
- d) Has this block been protected from further assignment Yes _____ No _____

Disconnect block : Yes _____ If Yes , list NPA-NXX-X _____

Remarks:

I hereby certify that the above information requesting an NXX-X block is true and accurate to the best of my knowledge and that this application has been prepared in accordance with the Thousands-Block (NXX-X) Pooling Administration Guidelines (ATIS-0300066) available on the ATIS web site (<http://www.atis.org/inc>) or by contacting inc@atis.org as of the date of this application.

Stephen Bonno

Signature of Block Applicant

Number
Planning**

Title

05/11/2010

Date

Instructions for filling out each Section of the Part 1A form:

Section 1.1 Contact information requires that Service Providers supply under "Block Applicant" the company name, company headquarters address, a contact within the company, an address where the contact person may be reached, in addition to the correct phone, fax, and e-mail address. The Pooling Administrator section also requires the Service Provider to fill in the Pooling Administrator's name, address, phone, fax and e-mail.

Section 1.2 Service Providers who need a thousands-block assignment or for an Location Routing Number (LRN) are required to fill in this section. If needed for an LRN, a CO Code Application needs to also be submitted to the PA. The Service Provider should supply the Numbering Plan Area (NPA); the Local Access Transport

Area (LATA), which is a three-digit number that can be found in the TelcordiaTM LERGTM Routing Guide. The Operating Company Number (OCN) assigned to the service provider and the OCN its parent company. An OCN is a four-character alphanumeric assigned by TelcordiaTM Routing Administration (TRA). In addition, the number of thousands-blocks requested should be supplied. The Switch Identification as well as the city or wire center name, rate center, rate center sub zone, homing tandem and CLLITM tandem of the facilities based provider^{xi}. Explanations of these terms may be found in the footnotes.

Section 1.3 The date the Service Provider completes the application should be entered in this section, as well as the Effective Date of the requested thousands-block.

Section 1.4 Service Providers should indicate their type, e.g., local exchange carrier, competitive local exchange carrier, interexchange carrier, CMRS. They also indicate the primary type of business in which the numbering resource is to be used. Service Providers also may indicate their preference for a particular thousands-block, e.g., 321-9XXX, or indicate any thousands-blocks that may be undesirable, e.g., 321-6XXX.

Section 1.5 Service Providers indicate the type of request. Initial requests are for first applications for thousands-blocks in a rate center, growth for additional thousands-blocks in a rate center in which the applicant already has numbering resources, and provide the required evidence as ordered by the FCC.

Section 1.6 Service Providers must indicate the updated/current information in regards to contaminated TNs on the block they are returning to the pool. Blocks with over 10% contamination (101 TNs or more) shall not be returned to the pool unless they meet criteria outlined in section 9.1.2 of these Guidelines. If the block being returned is over 10% contaminated the PA shall seek a new block holder. If question c and/or d have a response of No, the request for return shall be denied. The thousands-block applicant certifies veracity of this form by signing their name, and providing their title and date.

Foot Notes :

ⁱ Identify the type of change(s) in Section 1.5.

ⁱⁱ The Pool Administrator is available to assist in completing these forms.

ⁱⁱⁱ A CO Code application will also need to be submitted to the PA.

^{iv} Operating Company Number (OCN) assignments must uniquely identify the applicant. Relative to CO Code assignments, NECA-assigned Company Codes may be used as OCNs. Companies with no prior CO Code or Company Code assignments should contact NECA (800 524-1020) to be assigned a Company Code(s). Since multiple OCNs and/or Company Codes may be associated with a given company, companies with prior assignments should direct questions regarding appropriate OCN usage to (TRA) (732-699-6700).

^v This is an eleven-character descriptor of the switch provided by the owning entity for the purpose of routing calls. This is the 11 character CLLITM code of the switch /POI.

^{vi} Rate Center name must be a tariffed Rate Center.

^{vii} Acknowledgment and indication of disposition of this application will be provided to applicant within seven calendar days from the date of receipt of this application. An incomplete form may result in delays in processing this request.

^{viii} Please ensure that the NPA-NXX of the LRN to be associated with this block(s) is/will be active in the network prior to the effective date of the block(s).

^{ix} Select if you are the current Block Holder.

^x Select if you are not the current Block Holder

Utilization⁶

$$= \frac{\text{Assigned Numbers(B)} - \text{Excluded Numbers (D)}}{\text{Total Numbering Resources(C)-Excluded Numbers(D)}} \times 100 = \underline{2.4}$$

Total Numbering Resources(C)-Excluded
Numbers(D)

Explanation: _____

¹A copy of this worksheet is required to be submitted to the Pooling Administrator when requesting additional numbering resources in a rate center. For auditing purposes, the applicant must retain a copy of this document.

²Quantity of numbers activated in the past 90 days is based on blocks and/or codes received from the administrator and shall be reported in increments of 1,000 or 10,000 TNs (e. g.: 2 blocks received=2,000 and 1 code received =10,000).

³Net change in TNs no longer available for assignment in each previous month, starting with the most distant month as Month #1, and Month #6 as the current month.

⁴Forecast of TNs needed in each following month, starting with the most recent month as Month #1.

⁵To be assigned an additional thousands-block (NXX-X) for growth, "Months to Exhaust" must be less than or equal to 6 months. (FCC 00-104, section 52.15 (g) (3) (iii)).

⁶Newly acquired numbers may be excluded from the Utilization calculation (FCC 00104, section 52.15 (g)(3)(ii))

☒**Form Complete, request denied.**

Explanation:

DR-57: You do not meet the MTE and/or Utilization requirements, therefore this request for a new block is denied. You may proceed with requesting a State Waiver from the appropriate state commission using this Part 3 denial. If you are in disagreement with the disposition of this request, please refer to the Thousands-Block Number (NXX-X) Pooling Administration Guidelines for the appeals process.

☐ **Request withdrawn.**

Explanation:

☐ **Assignment activity suspended by the administrator.**

Explanation:

Remarks:

¹ This is an eleven-character descriptor provided by the owning entity for the purpose of routing calls. This must be the CLLI™ Location Identification code of the switching entity/POI shown on the Part 1A form (Telcordia, LERG ROUTING Guide and CLLI are trademarks of Telcordia Technologies, Inc.)
