Ms. Kyle,

I am writing to sincerely ask for your assistance in the approval of the CCN for the Stonebridge development.

We purchased Lot #91 three years ago with the legal understanding that we would receive a sewer system; however, as you know, there have been difficulties regarding the system since that time. My husband and I researched our purchase and put a lot of time and thought into buying the property. We knew we would soon be starting a family (we have a 5 month old daughter now), so purchasing the land was a serious and weighty decision.

We approve of entering into an agreement with Aqua Green to complete the sewer, and we would sincerely appreciate your approval of the CCN so the project can move forward.

Thank you so much for your time, assistance, and consideration.

Sincerely,  
Megan and Oliver Pankiewicz
