PETITION OF TENNESSEE AMERICAN WATER COMPANY TO CHANGE AND INCREASE CERTAIN RATES AND CHARGES SO AS TO PERMIT IT TO EARN A FAIR AND ADEQUATE RATE OF RETURN ON ITS PROPERTY USED AND USEFUL IN FURNISHING WATER SERVICE TO ITS CUSTOMERS	)	**Docket No. 10-00189**

TENNESSEE AMERICAN WATER COMPANY'S FIRST SUPPLEMENTAL RESPONSES TO THE FIRST DISCOVERY REQUEST AND FIRST RESPONSES TO THE SUPPLEMENTAL DISCOVERY REQUEST OF THE CONSUMER ADVOCATE AND PROTECTION DIVISION TO TENNESSEE AMERICAN WATER COMPANY

The Tennessee American Water Company ("TAWC") hereby responds as follows to the remaining requests contained in the First Discovery Request of the Consumer Advocate and Protection Division ("CAPD") to TAWC and to all requests contained in the Supplemental Discovery Request of the CAPD to Tennessee American Water Company:

GENERAL OBJECTIONS

(1) TAWC objects to all requests that seek information protected by the attorney-client privilege, the work product doctrine and/or any other applicable privilege or restriction on disclosure.

(2) TAWC objects to the definitions and instructions accompanying the requests to the extent the definitions and instructions contradict, are inconsistent with, or impose any obligations beyond those required by applicable provisions of the Tennessee Rules of Civil Procedure or the rules, regulations or orders of the Tennessee Regulatory Authority.

(3) TAWC objects to the definitions of the words "communication," "you," "person," "persons," "identity," "identify," and "document" that accompany the data requests because such definitions are overbroad and unduly burdensome.

(4) The specific responses set forth below are based upon information now available to TAWC, and TAWC reserves the right at any time to revise, correct, add to or clarify the objections or responses and supplement the information and/or documents produced.

(5) TAWC is providing its responses herein without wavier of, or prejudice to, its right at any later time to raise objections to: (a) the competence, relevance, materiality, privilege, or admissibility of the response, or the subject matter thereof; and (b) the use of any response, or subject matter thereof, in any subsequent proceedings.

(6) TAWC objects to each request to the extent that it is unreasonably cumulative or duplicative, or seeks information obtainable from some other source that is more convenient, less burdensome or less expensive.

(7) TAWC objects to each request to the extent it seeks information outside TAWC's custody or control.

(8) TAWC objects to requests that call upon TAWC to create, categorize, manipulate, customize or otherwise organize data regarding time periods outside of TAWC's historical test year. TAWC objects to all such requests because they are unduly burdensome, seek to have TAWC create work product and seek information that is not relevant to this rate case.

(9) TAWC's specific objections to each request are in addition to the General Objections set forth in this section. These General Objections form a part of each discovery response, and they are set forth here to avoid the duplication and repetition of restating them for each discovery response. The absence of a reference to a General Objection in response to a

particular request does not constitute a waiver of any General Objection with respect to that discovery request. All responses are made subject to and without waiver of TAWC's general and specific objections.

Respectfully submitted,

GENERAL REQUIREMENTS

The law governing gas, water, electric power and light companies states that:

(a) (1) Each person engaged in the business of furnishing or distributing gas, water, or electric current, whether to a dealer, consumer, municipality or other customer, shall, for the privilege of doing such business, pay to the state for state purposes an amount equal to the tax rate specified on the front of the return multiplied by the gross receipts derived from intrastate business in the state.

(2) Persons engaged in the business of manufacturing gas or of distributing manufactured gas or natural gas shall, in lieu of the foregoing, pay an amount equal to the tax rate specified on the front of the return multiplied by the gross receipts derived from intrastate business in this state, which payment shall be subject to the same provisions, restrictions and credits hereinafter provided in T.C.A. §67-4-405.

(b) This tax does not apply to cities or other political subdivisions of the state owning and operating gas companies, water companies or power plants, nor does it apply to any governmental agency of the United States.

(c) The gross receipts tax is levied for the privilege of engaging in intrastate commerce carried on wholly within this state and not a part of interstate commerce.

(d) A credit is allowed against the gross receipts tax for the franchise and excise taxes paid by gas, water, and electric companies during the calendar year in which the gross receipts tax becomes due.

(e) The tax hereby imposed shall be administered and collected in accordance with T.C.A. §67-4-301 et seq.

(f) Each person engaged in the business of furnishing or distributing electric current or water shall be exempt from the above tax upon gross receipts up to the amount of five thousand dollars ($5,000).

DELINQUENT FILING - (PENALTY AND INTEREST)

Unless this return and tax are mailed to the Department of Revenue on or before August 1 or the 10th day of the following month (if filing monthly), penalty & interest will be assessed as required by §67-1-804 T.C.A.

INSTRUCTIONS

Lines 8 & 9 - Total credit cannot exceed line 7. A credit is allowed for franchise and excise taxes paid when final reports of both gross receipts taxes and franchise and excise taxes have been filed covering the corresponding tax base period. Additional instructions for these lines are available upon request.

Line 15 - Taxpayers who file the return and make the first quarterly payment on or before August 1st have the option of paying the balance in three equal additional installments: Nov. 1, Feb. 1, and May 1. However, such quarterly payments made after August 1st shall bear interest on each such payment at the effective rate per annum from August 1 to date of payment. Anyone who elects the above option will receive quarterly installment coupons by a separate mailing.

NOTICE TO TAXPAYER

If quarterly installments are not paid by the due date, penalty will be assessed for late payment at the rate of 5% of the installment for each 30 days (or portion thereof) that the installment remains unpaid subsequent to the due date, up to a maximum of 25%.

This return shall be accompanied by schedule listing of total gross receipts derived from interstate business, intrastate business, sale of appliances, water taps, pole rentals, and other sources fully identified.

Electricity and water: Gross receipts from the furnishing or distributing of electric current or water of $5,000 or less are exempt from tax. All gross receipts in excess of that amount are taxable. [Tenn. Code Ann. §67-4-405(f) .]

Authority to tax. The state constitution authorizes the state to levy taxes on the privilege of conducting business within the state. [Tenn. Constitution §28 .] Municipalities and counties cannot impose any utilities tax similar to the state gross receipts tax. [Tenn. Code Ann. §67-4-401 .] Gross receipts taxes on public utilities are administered by the Department of Revenue. [Tenn. Code Ann. §301(2) .]

Basis and rate of tax. Tax is imposed at a rate of 3% on the gross receipts of each person engaged in the business of furnishing or distributing gas, water, or electric current, whether to a dealer, consumer, municipality or other customer from intrastate business in the state. [Tenn. Code Ann. §67-4-405(a)(1) .] A separate gross receipts tax is imposed at a 3% rate on the gross receipts of persons engaged in providing other public utility services. [Tenn. Code Ann. §67-4-406 .] Gross receipts tax is imposed at the rate of 1.5% on persons engaged in the business of manufacturing gas or distributing manufactured gas or natural gas. [Tenn. Code Ann. §67-4-405(a)(2) .]

"Gross receipts" are the total receipts derived by the utility from the utility business, before any deductions are taken. "Gross receipts" do not include receipts from any incidental business, when the incidental business, if carried on separately, would not be subject to the gross receipts tax. An "incidental business" is a business carried on separately, that is not a part of the business subject to privilege taxation. [Tenn. Code Ann. §67-4-301(5) .]

Also excluded from gross receipts are state and local sales and other taxes collected from customers and remitted to taxing authorities by the utilities. [Tenn. Code Ann. §67-4-301(3) .]

Credits against tax. For all gas, water, and electric companies that are subject to the gross receipts tax on the utility services provided, a credit is allowed against the corporate excise and franchise tax liability of the utility. The credit is applied against the utility's tax liability for the year in which the gross receipts tax levied becomes due. [Tenn. Code Ann. §67-4-405(d) .] The same credit against excise and franchise taxes applies to miscellaneous public utilities that are subject to the gross receipts tax. [Tenn. Code Ann. §67-4-406(b) .]

Collection and remittance of tax. *Annual report:* All utilities subject to gross receipts tax must file a report with the Department of Revenue by August 1 each year. The report must provide, as of July 1 of the same calendar year, the utility's total gross receipts for the most recently completed fiscal year from business both within and outside the state; total gross receipts for the same period from business solely within the state; and, any other information deemed necessary for the assessment of taxes.

[Tenn. Code Ann. §67-4-302 .]

Payment of tax: The gross receipts tax is imposed on gross receipts from the provision of utility services in the state for the period July 1 through June 30 each year. Tax is due to the state on these gross receipts on the following August 1. [Tenn. Code Ann. §67-4-306(a) .]

However, utilities can elect to pay the gross receipts tax in quarterly installments, on November 1, March 1, May 1, and August 1. [Tenn. Code Ann. §67-4-308 .]

Transfers of business: If a business making quarterly installment payments is transferred during the taxable year, the transferee becomes liable for the installment payments, as well as any penalties on unpaid installments. [Tenn. Code Ann. §67-4-308 .]

Persons in business for less than a year: Any person engaged in business for less than a full year on July 1, must pay, in the ensuing year, as follows:

- The measure of tax is determined by multiplying the person's gross receipts by the ratio that the person has engaged in business bears to the whole year; and
- The person must report to the Department of Revenue, at the conclusion of each month, gross receipts for that month and must pay the appropriate tax on those gross receipts. The tax must be paid not later than the 10th day of the following month. On August 1, following the date that the business began, the person pays the annual tax for the year commencing the next prior July 1, computed in the normal course. The person will not be responsible for monthly payments at that point. [Tenn. Code Ann. §67-4-309 .]

Penalties and interest. If a tax is not paid within 30 days of its due date, the payment is considered to be delinquent. The Commissioner can waive penalties imposed for failures to file or pay the gross receipts tax. [Tenn. Code Ann. §67-4-206 .]

Any person who exercises the privileges of engaging in business without complying with the filing and payment provisions is liable for penalties. It is unlawful for any person to willfully refuse, fail, or neglect to make out, file, or deliver any required reports or to knowingly give false responses to any relevant questions. Any violation of these provisions is a Class C misdemeanor. [Tenn. Code Ann. §67-4-220 .]

If a quarterly payor fails to timely make an installment payment, a penalty is imposed in the amount of 5% of the installment for each 30-day period that the installment remains unpaid after the due date, up to a maximum of 25%. [Tenn. Code Ann. §67-4-308 .]

Prorated refund: A business that ceases operating during the taxable year can obtain a prorated refund for that portion of the year that it was not engaging in business. The

refund amount must, however, exceed $10. The refund is available only if the business ceases during the year; it is not available if the business is transferred to another person. [Tenn. Code Ann. §67-4-306 .]

State & Local Taxes

¶ 48,220. Utility Gross Receipts Tax.—

Generally. For the privilege of conducting business within the state, gas, water, and electric utilities are subject to a gross receipts tax on receipts from the conduct of intrastate commerce carried on wholly within the state. [Tenn. Code Ann. §67-4-405(c); Tenn. Code Ann. §67-4-406.] Receipts from interstate commerce are specifically exempt from the tax. [Tenn. Code Ann. §67-4-405(c).]

Each person engaged in the business of furnishing or distributing gas, water, or electric current, whether to a dealer, consumer, municipality or other customer must pay this privilege tax. [Tenn. Code Ann. §67-4-405(a).]

Note that the tax is imposed in addition to the ad valorem tax. [Tenn. Code Ann. §67-4-304.]

The tax is also imposed on public utilities, other than gas, water, or electric companies. [Tenn. Code Ann. §67-4-406.] The Tennessee Department of Revenue has interpreted this statute as applicable to businesses providing some essential commodity or service to the general public. A taxpayer not making services generally available to the general public, but rather to a single purchaser pursuant to a private contract, is not a "public utility" under Tenn. Code Ann. §67-4-406(a) (see, for example, Tennessee Letter Ruling 99-10, 03/24/1999.) Note, however, that the state currently subjects only those entities providing or distributing gas, water or electric current to tax. Telecommunications companies, oil companies, and other "public utilities" are not required to pay the tax.

Exemptions. *Government entities:* The tax does not apply to cities or other political subdivisions of the state owning and operating gas companies, water companies or power plants, nor does it apply to persons meeting the criteria of "exempt wholesale generators" or "FERC certified wholesale power marketers" under the Federal Power Act of 1992, nor does it apply to any governmental agency of the United States. [Tenn. Code Ann. §67-4-405(b).]

(2) Persons engaged in the business of manufacturing gas or of distributing manufactured gas or natural gas shall, in lieu of the foregoing, pay an amount equal to the tax rate specified on the front of the return multiplied by the gross receipts derived from intrastate business in this state, which payment shall be subject to the same provisions, restrictions and credits hereinafter provided in T.C.A. §67-4-405.

(b) This tax does not apply to cities or other political subdivisions of the state owning and operating gas companies, water companies or power plants, nor does it apply to any governmental agency of the United States.

(c) The gross receipts tax is levied for the privilege of engaging in intrastate commerce carried on wholly within this state and not a part of interstate commerce.

(d) A credit is allowed against the gross receipts tax for the franchise and excise taxes paid by gas, water, and electric companies during the calendar year in which the gross receipts tax becomes due.

(e) The tax hereby imposed shall be administered and collected in accordance with T.C.A. §67-4-301 et seq.

(f) Each person engaged in the business of furnishing or distributing electric current or water shall be exempt from the above tax upon gross receipts up to the amount of five thousand dollars ($5,000).

GENERAL REQUIREMENTS

The law governing gas, water, electric power and light companies states that:

(a) (1) Each person engaged in the business of furnishing or distributing gas, water, or electric current, whether to a dealer, consumer, municipality or other customer, shall, for the privilege of doing such business, pay to the state for state purposes an amount equal to the tax rate specified on the front of the return multiplied by the gross receipts derived from intrastate business in the state.

(2) Persons engaged in the business of manufacturing gas or of distributing manufactured gas or natural gas shall, in lieu of the foregoing, pay an amount equal to the tax rate specified on the front of the return multiplied by the gross receipts derived from intrastate business in this state, which payment shall be subject to the same provisions, restrictions and credits hereinafter provided in T.C.A. §67-4-405.

(b) This tax does not apply to cities or other political subdivisions of the state owning and operating gas companies, water companies or power plants, nor does it apply to any governmental agency of the United States.

(c) The gross receipts tax is levied for the privilege of engaging in intrastate commerce carried on wholly within this state and not a part of interstate commerce.

(d) A credit is allowed against the gross receipts tax for the franchise and excise taxes paid by gas, water, and electric companies during the calendar year in which the gross receipts tax becomes due.

(e) The tax hereby imposed shall be administered and collected in accordance with T.C.A. §67-4-301 et seq.

(f) Each person engaged in the business of furnishing or distributing electric current or water shall be exempt from the above tax upon gross receipts up to the amount of five thousand dollars ($5,000).

DELINQUENT FILING - (PENALTY AND INTEREST)

Unless this return and tax are mailed to the Department of Revenue on or before August 1 or the 10th day of the following month (if filing monthly), penalty & interest will be assessed as required by §67-1-804 T.C.A.

INSTRUCTIONS

Lines 8 & 9 - Total credit cannot exceed line 7. A credit is allowed for franchise and excise taxes paid when final reports of both gross receipts taxes and franchise and excise taxes have been filed covering the corresponding tax base period. Additional instructions for these lines are available upon request.

Line 15 - Taxpayers who file the return and make the first quarterly payment on or before August 1st have the option of paying the balance in three equal additional installments: Nov. 1, Feb. 1, and May 1. However, such quarterly payments made after August 1st shall bear interest on each such payment at the effective rate per annum from August 1 to date of payment. Anyone who elects the above option will receive quarterly installment coupons by a separate mailing.

NOTICE TO TAXPAYER

If quarterly installments are not paid by the due date, penalty will be assessed for late payment at the rate of 5% of the installment for each 30 days (or portion thereof) that the installment remains unpaid subsequent to the due date, up to a maximum of 25%.

This return shall be accompanied by schedule listing of total gross receipts derived from interstate business, intrastate business, sale of appliances, water taps, pole rentals, and other sources fully identified.

Electricity and water: Gross receipts from the furnishing or distributing of electric current or water of $5,000 or less are exempt from tax. All gross receipts in excess of that amount are taxable. [Tenn. Code Ann. §67-4-405(f) .]

Authority to tax. The state constitution authorizes the state to levy taxes on the privilege of conducting business within the state. [Tenn. Constitution §28 .] Municipalities and counties cannot impose any utilities tax similar to the state gross receipts tax. [Tenn. Code Ann. §67-4-401 .] Gross receipts taxes on public utilities are administered by the Department of Revenue. [Tenn. Code Ann. §301(2) .]

Basis and rate of tax. Tax is imposed at a rate of 3% on the gross receipts of each person engaged in the business of furnishing or distributing gas, water, or electric current, whether to a dealer, consumer, municipality or other customer from intrastate business in the state. [Tenn. Code Ann. §67-4-405(a)(1) .] A separate gross receipts tax is imposed at a 3% rate on the gross receipts of persons engaged in providing other public utility services. [Tenn. Code Ann. §67-4-406 .] Gross receipts tax is imposed at the rate of 1.5% on persons engaged in the business of manufacturing gas or distributing manufactured gas or natural gas. [Tenn. Code Ann. §67-4-405(a)(2) .]

"Gross receipts" are the total receipts derived by the utility from the utility business, before any deductions are taken. "Gross receipts" do not include receipts from any incidental business, when the incidental business, if carried on separately, would not be subject to the gross receipts tax. An "incidental business" is a business carried on separately, that is not a part of the business subject to privilege taxation. [Tenn. Code Ann. §67-4-301(5) .]

Also excluded from gross receipts are state and local sales and other taxes collected from customers and remitted to taxing authorities by the utilities. [Tenn. Code Ann. §67-4-301(3) .]

Credits against tax. For all gas, water, and electric companies that are subject to the gross receipts tax on the utility services provided, a credit is allowed against the corporate excise and franchise tax liability of the utility. The credit is applied against the utility's tax liability for the year in which the gross receipts tax levied becomes due. [Tenn. Code Ann. §67-4-405(d) .] The same credit against excise and franchise taxes applies to miscellaneous public utilities that are subject to the gross receipts tax. [Tenn. Code Ann. §67-4-406(b) .]

Collection and remittance of tax. *Annual report:* All utilities subject to gross receipts tax must file a report with the Department of Revenue by August 1 each year. The report must provide, as of July 1 of the same calendar year, the utility's total gross receipts for the most recently completed fiscal year from business both within and outside the state; total gross receipts for the same period from business solely within the state; and, any other information deemed necessary for the assessment of taxes.

[Tenn. Code Ann. §67-4-302 .]

Payment of tax: The gross receipts tax is imposed on gross receipts from the provision of utility services in the state for the period July 1 through June 30 each year. Tax is due to the state on these gross receipts on the following August 1. [Tenn. Code Ann. §67-4-306(a) .]

However, utilities can elect to pay the gross receipts tax in quarterly installments, on November 1, March 1, May 1, and August 1. [Tenn. Code Ann. §67-4-308 .]

Transfers of business: If a business making quarterly installment payments is transferred during the taxable year, the transferee becomes liable for the installment payments, as well as any penalties on unpaid installments. [Tenn. Code Ann. §67-4-308 .]

Persons in business for less than a year: Any person engaged in business for less than a full year on July 1, must pay, in the ensuing year, as follows:

- The measure of tax is determined by multiplying the person's gross receipts by the ratio that the person has engaged in business bears to the whole year; and
- The person must report to the Department of Revenue, at the conclusion of each month, gross receipts for that month and must pay the appropriate tax on those gross receipts. The tax must be paid not later than the 10th day of the following month. On August 1, following the date that the business began, the person pays the annual tax for the year commencing the next prior July 1, computed in the normal course. The person will not be responsible for monthly payments at that point. [Tenn. Code Ann. §67-4-309 .]

Penalties and interest. If a tax is not paid within 30 days of its due date, the payment is considered to be delinquent. The Commissioner can waive penalties imposed for failures to file or pay the gross receipts tax. [Tenn. Code Ann. §67-4-206 .]

Any person who exercises the privileges of engaging in business without complying with the filing and payment provisions is liable for penalties. It is unlawful for any person to willfully refuse, fail, or neglect to make out, file, or deliver any required reports or to knowingly give false responses to any relevant questions. Any violation of these provisions is a Class C misdemeanor. [Tenn. Code Ann. §67-4-220 .]

If a quarterly payor fails to timely make an installment payment, a penalty is imposed in the amount of 5% of the installment for each 30-day period that the installment remains unpaid after the due date, up to a maximum of 25%. [Tenn. Code Ann. §67-4-308 .]

Prorated refund: A business that ceases operating during the taxable year can obtain a prorated refund for that portion of the year that it was not engaging in business. The

refund amount must, however, exceed $10. The refund is available only if the business ceases during the year; it is not available if the business is transferred to another person. [Tenn. Code Ann. §67-4-306 .]

¶ 48,220. Utility Gross Receipts Tax.—

Generally. For the privilege of conducting business within the state, gas, water, and electric utilities are subject to a gross receipts tax on receipts from the conduct of intrastate commerce carried on wholly within the state. [Tenn. Code Ann. §67-4-405 (c) ; Tenn. Code Ann. §67-4-406 .] Receipts from interstate commerce are specifically exempt from the tax. [Tenn. Code Ann. §67-4-405(c) .]

Each person engaged in the business of furnishing or distributing gas, water, or electric current, whether to a dealer, consumer, municipality or other customer must pay this privilege tax. [Tenn. Code Ann. §67-4-405(a) .]

Note that the tax is imposed in addition to the ad valorem tax. [Tenn. Code Ann. §67-4-304 .]

The tax is also imposed on public utilities, other than gas, water, or electric companies. [Tenn. Code Ann. §67-4-406 .] The Tennessee Department of Revenue has interpreted this statute as applicable to businesses providing some essential commodity or service to the general public. A taxpayer not making services generally available to the general public, but rather to a single purchaser pursuant to a private contract, is not a "public utility" under Tenn. Code Ann. §67-4-406(a) (see, for example, Tennessee Letter Ruling 99-10, 03/24/1999 .) Note, however, that the state currently subjects only those entities providing or distributing gas, water or electric current to tax. Telecommunications companies, oil companies, and other "public utilities" are not required to pay the tax.

Exemptions. *Government entities:* The tax does not apply to cities or other political subdivisions of the state owning and operating gas companies, water companies or power plants, nor does it apply to persons meeting the criteria of "exempt wholesale generators" or "FERC certified wholesale power marketers" under the Federal Power Act of 1992, nor does it apply to any governmental agency of the United States. [Tenn. Code Ann. §67-4-405(b) .]

Who Must File

Corporations that, at any time during the tax year, had assets in or operated a business in a foreign country or a U.S. possession may have to file Schedule N. If the corporation answers "Yes" to any of the questions above, attach Schedule N and the applicable forms and schedules to the corporation's income tax return.

Question 1a

Check the "Yes" box if the corporation is the "tax owner" (defined below) of a foreign disregarded entity (FDE) or it is required to file Form 5471 or Form 8865 with respect to a CFC or a CFP that is the tax owner of an FDE.

Tax owner of an FDE. The tax owner of an FDE is the person that is treated as owning the assets and liabilities of the FDE for purposes of U.S. income tax law.

A corporation that is the tax owner of an FDE is generally required to attach Form 8858 to its return. However, if the **Exception** below applies, the corporation should attach a statement (described below) in lieu of Form 8858.

Exception. In certain cases where a corporation owns an FDE indirectly or constructively through a foreign entity, the corporation may not be required to attach Form 8858. See **Who Must File** on page 1 of the instructions for Form 8858.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

What's New

The alternative incremental credit terminated for tax years beginning after December 31, 2008.

Purpose of Form

Use Form 6765 to figure and claim the credit for increasing research activities.

Who Must File

An individual, estate, trust, organization, or corporation claiming a credit for increasing research activities; or any S corporation, partnership, estate, or trust that allocates the credit to its shareholders, partners, or beneficiaries must complete this form and attach it to its income tax return. If you are a taxpayer that is not a partnership or S corporation, and your only source of this credit is from a partnership, S corporation, estate, or trust, you are not required to complete or file this form, with the following exception: you are a taxpayer that is an estate or trust and the credit can be allocated to beneficiaries. For more details, see the Instructions for Form 1041, Schedule K-1, box 13.

Note. Corporations filing an amended return to claim a credit or refund of the research credit, see Notice 2008-39, I.R.B. 2008-13 684, available at *http://www.irs.gov/irb/2008-13_IRB/index.html* for information on where to file.

Qualified Research

The research credit is generally allowed for expenditures paid or incurred for qualified research. *Qualified research* means research for which expenditures may be treated as section 174 expenses. This research must be undertaken for discovering information that is technological in nature, and its application must be intended for use in developing a new or improved business component of the taxpayer. In addition, substantially all of the activities of the research must be elements of a process of experimentation relating to a new or improved function, performance, reliability, or quality. The research credit generally is not allowed for the following types of activities.

- Research conducted after the beginning of commercial production.
- Research adapting an existing product or process to a particular customer's need.
- Duplication of an existing product or process.
- Surveys or studies.
- Research relating to certain internal-use computer software.
- Research conducted outside the United States, Puerto Rico, or a U.S. possession.
- Research in the social sciences, arts, or humanities.
- Research funded by another person (or governmental entity).

If you incur qualified clinical testing expenses relating to drugs for certain rare diseases, you can elect to claim the orphan drug credit for these expenses instead of the research credit. See Form 8820, Orphan Drug Credit.

See section 41 and Regulations sections 1.41-2 and 1.41-4 for other definitions and special rules.

Special Rules

See section 41(f) and Regulations sections 1.41-6, 1.41-6T, and 1.41-7 for special rules related to:

- Aggregation of expenditures for members of controlled groups and businesses under common control;
- Allocation of the credit by partnerships, estates, and trusts;
- Adjustments, if a major portion of a business is acquired or disposed of; and
- Short tax years.

For special rules concerning the allocation and apportionment of research and experimental expenditures between U.S. and foreign source income, see sections 861 through 864.

Member of Controlled Group or Business Under Common Control

Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

What's New

The election to claim a refundable credit for certain unused minimum tax credits in lieu of the special depreciation allowance for qualified property has been extended to certain property placed in service in 2009 and 2010. See the instructions for line 7b.

Purpose of Form

Corporations use Form 8827 to figure the minimum tax credit, if any, for AMT incurred in prior tax years and to figure any minimum tax credit carryforward.

Who Should File

Form 8827 should be filed by corporations that had:

- An AMT liability in 2008,
- A minimum tax credit carryforward from 2008 to 2009, or
- A qualified electric vehicle credit not allowed for 2008 (see the instructions for line 3).

Line 3

Enter any qualified electric vehicle credit not allowed for 2008 solely because of tentative minimum tax limitations.

Line 5

Enter the corporation's 2009 regular income tax liability (as defined in section 26(b)) minus any credits allowed under Chapter 1, Subchapter A, Part IV, subparts B, D, E, and F of the Internal Revenue Code (for example, if you are filing Form 1120, subtract any credits on Schedule J, lines 5a through 5c, from the amount on Schedule J, line 2).

Line 6

See the 2009 Instructions for Form 4626 to find out if the corporation is treated as a small corporation" exempt from the AMT for 2009. If the corporation is a "small corporation" exempt from the AMT, see section 38(c)(5) before completing line 6 for special rules that apply to controlled corporate groups, regulated investment companies, and real estate investment trusts.

Line 7b

A corporation can elect (under section 168(k)(4)) to accelerate its use of unused minimum tax credit carryforwards from tax years beginning before 2006 and obtain a refundable credit in lieu of any special depreciation allowance for eligible qualified property and extension property (defined later). If the election is made, the corporation must do the following.

- Forgo the special depreciation allowance for the eligible property, and
- Use the straight-line method of depreciation of such property.

If the corporation made an election to increase the research credit or minimum tax credit limitations for its first tax year ending after March 31, 2008, the corporation can choose not to have the election apply to extension property. Otherwise, the original election continues to apply to both eligible qualified property and extension property. In this case, separate bonus depreciation amounts, maximum increase amounts, and maximum amounts must be computed for eligible qualified property and for extension property.

Note. If the corporation did not make the election for its first tax year ending after March 31, 2008, it can make the election **only** for extension property for its first tax year ending after December 31, 2008.

Eligible qualified property. Generally, eligible qualified property is qualified property under section 168(k)(2) that is acquired after March 31, 2008, and placed in service before January 1, 2009, and long production period property or certain aircraft (described in sections 168(k)(2)(B) and (C)) that is placed in service in 2009. If a binding contract to acquire the property existed before April 1, 2008, the property does not qualify. See section 168(k)(4)(G)(iii) for special rules for written binding contracts involving certain passenger aircraft.

FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: **Sheila Miller/Michael A. Miller**

PART III: RATE BASE

Question:

58. Provide all amounts as shown on Exhibit No. 1, Schedule 2, Page 1 of 3 and Exhibit No. 1, Schedule 3, Page 1 of 6, Lines 7-15 by month for the nine months ended 9/30/10.

Response:

The Company objects to this request on the grounds that it is overly broad, unduly burdensome and seeks information that is neither relevant nor reasonably calculated to lead to the discovery of admissible evidence. Without waiving these objections, see attached schedules identified as TN-CAPD-01-PART III-Q58-ATTACHMENT. The Company has not attempted to recalculate working cash and ADIT's (which are calculations specific to the rate making process and the attrition year) on a monthly basis due to the burdensomeness and extreme cost to generate that data. Please see Notes 1 and 2 on the attached schedules for further clarification on working cash and ADIT's.

Note 1: Working cash is based upon a lead-lag study performed and applied to the attrition year cost of service elements specific to this case. The Company has not recalculated working cash for each month requested due to the tremendous amount of work this would require.

Note 2: The Company's books and records reflect deferred income taxes calculated under SFAS 109 as required by GAAP. In the Company's 2008 rate case the Commission rejected SFAS 109 accounting for income taxes. The Company's filing in this case determined ADIT only on the book/tax depreciation timing differences which are required to be normalized by IRS regulation and the ADIT related to capitalized repairs covered in the testimony of Mr. Michael A. Miller. The Company has not recalculated ADIT's for each month requested due to the tremendous amount of work this would require.

PART III: RATE BASE

Question:

61. Provide the actual and or forecasted CIAC, salvage, and costs of removal by JDE account, by month from January 2010 through December 2011.

Response:

See attached document labeled as TN-CAPD-01-PART III-Q61-ATTACHMENT that provides the requested information. The Company did not include any cost of removal or salvage in the attrition year as separate items because the net negative salvage is embedded in the book depreciation rates and appropriately lowers the rate base through the additional book depreciation recorded to accumulated depreciation through the end of the attrition year.

TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 10-00189
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: **John Watson/Michael A. Miller**

PART III: RATE BASE

Question:

62. Provide the actual, plant additions, plant retirements, salvage, costs of removal by JDE account, by month for the period of January 2008 though August 2009. Include in your response an explanation for any variance from actual plant activity to TAWC forecasted plant activity included in TRA Docket #08-00039.

Response:

The Company objects to this request on the grounds that it is overly broad, unduly burdensome and seeks information that is neither relevant nor reasonably calculated to lead to the discovery of admissible evidence. Without waiving these objections, the Company does not maintain the information and schedules requested in the ordinary course of business. However, the attached document labeled as TN-CAPD-01-PART III-Q62-ATTACHMENT provides the actual plant additions for the period requested which should be sufficient for the CAPD to perform the analysis requested if they choose to do so. The Company was forced to defer certain anticipated capital projects after the TRA's order in the 2008 rate case, which affected the Company's ability to attract the capital necessary to undertake these capital projects. In addition, for annual numbers responsive to this request, see the Company's response to TN-CMA-01-Q30.

PART III: RATE BASE

Question:

65. Provide the amount of FAS 71 regulatory assets and liabilities and the amount of FAS 109 regulatory assets and liabilities at September 30, 2010, by JDE account for TAWC.

Response:

The Company objects to this request on the grounds that it is overly broad, unduly burdensome and seeks information that is neither relevant nor reasonably calculated to lead to the discovery of admissible evidence. Without waiving these objections, the CAPD argued and the TRA's 2008 rate case order rejected SFAS 109's approach to taxes - specifically refusing to recognize amortization of the SFAS regulatory assets. Accordingly, in this case the Company only included items in accumulated deferred income taxes ("ADIT") that require normalization by the IRS or are in the customers' best interest to normalize. The table below sets forth the Company's ADITs as recorded on the Company's books using SFAS 109, but do not form the basis for the Company's ADITs used in this rate case.

Question:

66. Provide the amount of FAS 109 assets written-off by the Company since the TRA Order in Docket #08-00039. (Mr. Mike Miller, Rebuttal Testimony, Page 88, Lines 4-10).

Response:

The Company has not written-off the SFAS 109 regulatory assets and does not believe that will be necessary given the Company's approach to ADIT in this case.

PART III: RATE BASE

Question:

68. Provide the basis for all allocated amounts from Accumulated Deferred Tax liabilities and assets to TAWC at September 30, 2010, and for the attrition year ended December 31, 2011.

Response:

The Company objects to this request on the grounds that it is vague and ambiguous. Without waiving these objections, based on the Company's interpretation of this request, there are no allocated amounts of ADIT's either on the Company's books or for the ADIT's in the Company's attrition year filing. The ADIT's for TAWC are related to assets owned by TAWC.

PART III: OTHER

Question:

69. Provide the total number of TAWC customer calls received by the 24/7 call center from January 2009 through September 2010; provide the total number of TAWC customer calls received by the 24/7 call center between the hours of 5 PM to 8 AM Monday through Friday from January 2009 through September 2010; and provide the total number of TAWC customer calls received by the 24/7 call center on Saturday and Sunday from January 2009 through September 2010. Identify in each response the number of customer call by call center, Alton, Illinois and Pensacola, Florida.

Response:

The Company objects to this request on the grounds that it is overly broad and unduly burdensome. Without waiving these objections, the Company does not possess the information in the requested format. However, the following table below provides the number of calls received by call center for TAWC from January 2009 to September 2010. The Company notes that it does not specifically track calls routed to Alton and Pensacola; data by interval is not available after a 30 day time frame; and the raw data is based on how many calls come into the customer service center from the designated 800 numbers for TAWC.

XV. APPENDIX B: GLOSSARY 539

Table of Findings

Volume I

I. INTRODUCTION AND REPORT SUMMARY 1

II. EXECUTIVE MANAGEMENT, EXTERNAL RELATIONS, AND HUMAN RESOURCES 19

Finding II-1 In general the American Water/PAWC organization adequately supports current ratepayer and corporate objectives. 27
Finding II-2 Organizational planning and development at American Water/PAWC is largely informal and could be improved. 27
Finding II-3 Management communications and control are adequate. 28
Finding II-4 Administrative procedures and controls are appropriate. 28
Finding II-5 American Water and PAWC lack a formal, systematic strategic-planning process. 29
Finding II-6 American Water's external relations function has been recently strengthened and is well positioned to support corporate objectives and regional/state efforts; however, the role of the Southeast Regional Director should be better defined. 34
Finding II-7 American Water has recently developed a number of strategic external-relations programs; however, these programs have not yet been rolled out, and there are no regional or state-specific operational plans. 35
Finding II-8 AWWSC Human Resources has no direct accountability to PAWC. 44
Finding II-9 PAWC does not have a service level agreement with AWWSC that specifies the level of HR support to be provided. 45
Finding II-10 Human Resources does not have standard metrics and does not make regular reports of its contribution. 45
Finding II-11 Data integrity problems in the JD Edwards human resources information system makes for additional manual effort, creates opportunity for errors, and limits PAWC HR's ability to measure its effectiveness. 46
Finding II-12 American Water Works Service Company and regional/local HR have extremely limited training and development capacity to support of the strategic HR needs of PAWC. 46
Finding II-13 Pennsylvania training and development is focused on technical training and has not aligned to the broader strategic HR needs of PAWC. 47
Finding II-14 PAWC's Human Resources and executive management have recognized the loss of human capital and the potential for a large number of retirements in coming years but has not developed a plan to respond to these needs 49
Finding II-15 PAWC does not have effective position control. 51

Table of Findings (continued)

Finding II-16 A lack of reliable information on employee capabilities (bench strength) hinders PAWC's ability to respond effectively to current demands and plan for future growth. 52
Finding II-17 PAWC has not met its goal to reduce time-to-hire by 10%. 53
Finding II-18 PAWC uses a time and attendance system with limited functionality that was developed in-house 53
Finding II-19 American Water/PAWC does not have a formal management development process. 54
Finding II-20 PAWC does not have a learning management system 55

III. FINANCIAL MANAGEMENT 59

Finding III-1 PAWC cash is managed in an efficient and cost-effective manner by corporate cash management functions 82
Finding III-2 Long-term debt is obtained at favorable rates. 83
Finding III-3 The consolidated managerial reporting, accounting, and control functions serving PAWC are efficient and closely monitored. 83
Finding III-4 American Water's general ledger system is not current and has not recently been updated to add needed functionality. 83
Finding III-5 The AWWSC's Shared Services Center provides an extensive amount of employee training. 84
Finding III-6 The function of reporting actual financial results compared to budgets is managed and controlled effectively. 84
Finding III-7 Several key PAWC financial statistics have been deteriorating in recent years. .. 85
Finding III-8 The Internal Audit Department is not sufficiently isolated from the Financial Management organization. 86
Finding III-9 The number of internal audits conducted has declined significantly during the past five years 86

IV. SUPPORT SERVICES 91

Finding IV-1 American Water's long-range IT planning activities have been on hold since SOX compliance efforts began in 2006 following RWE's December 2005 decision to divest of American Water. 118
Finding IV-2 ITS has made little progress in recent years with regard to addressing the technology needs of American Water's business units, including those impacting PAWC operations. 118
Finding IV-3 The PMO has developed project-management documentation that is extensive in scope; however, materials to help employees effectively apply these standards has not yet been included as part of such documentation. 120

Table of Findings (continued)

Finding IV-4	The ITS organization is not placing adequate emphasis on certain staff's achievement and maintenance of project-management certifications.	121
Finding IV-5	The ability of the Client Services & Support group to electronically deploy software upgrades to workstations is hindered by American Water's network, which results in additional costs to ITS customers, such as PAWC	121
Finding IV-6	ITS management is not appropriately focusing its employee-training and development efforts through the use of a skills inventory for individual employees.	121
Finding IV-7	The ITS organization does not have sufficient client-satisfaction information and data with which to evaluate its ability to serve AWWSC or PAWC departments.	122
Finding IV-8	The ITS organization has not developed service-level agreements with its client groups.	122
Finding IV-9	ITS' performance versus its targets show varying, and in some cases, poor results.	123
Finding IV-10	Although ITS backup/restoration and security/protection plans and activities are generally reasonable, its disaster recovery plan is inadequate and appropriate testing activities are not being performed, despite its recent Chapter 101 sell-certification reports that PAWC has met all required elements.	124
Finding IV-11	The IT security function is not part of the ITS organization, which is atypical of industry practices.	126
Finding IV-12	The data center space has recently been expanded in large part as a result of American Water not effectively performing a consolidation of its servers.	126
Finding IV-13	The current American Water employee vehicle assignment policy does not include a provision for an annual review of the requirements of employees for vehicles and, therefore, it does not address changes in employee job titles and positions.	148
Finding IV-14	A regularly scheduled physical inventory of vehicles leased from ARI is not performed.	149
Finding IV-15	There is an exception report for multiple fuel transactions in one day but not for apparently excessive fuel usage over a period of time (i.e., weekly or monthly).	149
Finding IV-16	Neither the ARI contract nor the resultant invoices have been audited by the AWWSC Internal Auditing group	149
Finding IV-17	Continued use of the two PAWC mechanics in the Pittsburgh District goes against the recommended policies of American Water and may not be cost-effective.	149
Finding IV-18	The improper reporting of taxable benefits relating to employer-provided vehicles that was identified in the internal audit conducted in November 2005 has yet to be addressed in a satisfactory manner.	150

Table of Findings (continued)

Finding IV-19 There are no standardized reports or data collected on the status of state inspections for vehicles in the PAWC fleet. 150

Finding IV-20 There is no integrated Facilities and Property Management group at either American Water or at PAWC. 157

Finding IV-21 There are no formal policies and procedures to guide the performance of the facilities and properties management function at PAWC or at American Water. 157

Finding IV-22 The current procurement module of the ERP system is 12 years old and lacks significant amounts of capability that would be expected from a state-of-the-art current application. 172

Finding IV-23 The use of preferred suppliers under national contracts is not mandated and likely is having a negative financial implications for the operating companies as a result of not maximizing the use of suppliers that have been subjected to a bidding and negotiation process. 173

Finding IV-24 The lack of PAWC-specific data that is collected in relation to the procurement function renders it difficult for the PAWC management to evaluate and assess the effectiveness of that function's performance at PAWC. 174

Finding IV-25 Based on the numerous inventory procedures and systems deficiencies that were identified during the course of this audit, it appears that the inventory data and calculations that are produced by PAWC are inaccurate to some extent. 183

Finding IV-26 The inventory management computer systems that are currently in use are very out of date and the data that is collected is by no means sufficient to maintain proper control of inventory. 187

Finding IV-27 There is no centralization or leadership in the materials management function at American Water operating companies, including PAWC. 188

Finding IV-28 No standardized, comprehensive inventory-management policies and procedures exist for either American Water in general or for PAWC. 189

Finding IV-29 Insufficient inventory-skills training is provided to storeroom personnel. 189

Finding IV-30 There is currently no standardization of part numbers across the PAWC storerooms or American Water operating companies in general, although this situation is being reviewed at the current time. 189

Finding IV-31 There are no inventory grid systems in the PAWC storerooms, making the location of parts difficult and time consuming for those who are not familiar with the inventory layout at that particular storeroom. 190

Table of Findings (continued)

Finding IV-32 There is no standardized, formal cycle-counting program in place. 190
Finding IV-33 PAWC does not have a mechanism to identify and report on material that is obsolete or held in excessive quantities 190
Finding IV-34 Maintenance items are not inventoried and therefore can only be reordered based on visual inspections. 191
Finding IV-35 The strategic parts inventory could be reduced for PAWC by consolidating them into a few strategic inventory locations 191
Finding IV-36 Inventory maintenance and control is inconsistent across the PAWC storerooms and the control of inventory was observed to cover the range from inadequate to sufficient 191
Finding IV-37 The vast majority of the storerooms that were visited by Schumaker & Company consultants did not have a computer terminal in the storeroom area; rather, data entry and lookup were the responsibility of an administrative person in the each of the service center front offices 192
Finding IV-38 Under the current procedures, rolling stock (that being the inventory that is carried on the field operations trucks) is tracked as part of the on-hand balance of parts.192
Finding IV-39 A formal enterprise risk management program was established in 2003 when RWE acquired American Water, but this program must now evolve as American Water (and therefore PAWC) changes it focus to SEC/SOX compliance 210
Finding IV-40 When looking to outside legal organizations for help in addressing PAWC's legal needs, the Southeast Region Legal organization does not rely on competitive bidding to develop a master list of pre-qualified legal firms. 219
Finding IV-41 The AWWSC Legal organization has not evaluated the use of standard legal management software across its various entities; therefore, the Southeast Region (and ultimately PAWC) may not be benefiting from processes associated with the use of a "best in class" system 220

V. WATER OPERATIONS 223

Finding V-1 PAWC production facilities are well operated. 228
Finding V-2 PAWC uses state-of-the-art, computerized supervisor control and data acquisition (SCADA) systems to continuously monitor critical pumping and treatment processes, as well as distribution system hydraulic conditions, at most of its treatment plants and associated remote facilities. 236
Finding V-3 Best practices are not necessarily shared or implemented by the various water districts.238

Table of Findings
(continued)

Finding V-4	Although PAWC has built a good SCADA system for operating the plants and distribution network, its implementation of technology for managing the day-to-day monitoring and reporting on various aspects of the business processes within network needs significant improvement.	238
Finding V-5	The number of reported leaks/breaks by water district indicates that certain water districts are up to 10 times worse than others.	239
Finding V-6	Maintenance and capital budgets do not appear to consistently take an analysis of leak/break historical data into consideration shown in *Exhibit V-24*	243
Finding V-7	PAWC has implemented a good proactive production equipment maintenance program.	249
Finding V-8	Although PAWC has implemented a good proactive production equipment maintenance program, it has failed to implement a computerized maintenance management program at the production facilities.	252
Finding V-9	The Engineering Department generally conducts formal, comprehensive planning studies on a periodic basis for each water district.	254
Finding V-10	With the most recent budgeting process (2008 Budget Year), the Engineering Department has implemented a more analytical main replacement decision-making methodology.	256

VI. CORPORATE GOVERNANCE XIII

Finding VI-1 The review, selection, and compensation of American Water's Board are appropriate 258
Finding VI-2 American Water has adopted a substantive Code of Ethics document; however, the Code does not explicitly apply to all contractors and vendors who do business with American Water. 260
Finding VI-3 Board compensation appears to be appropriate; however, American Water has not recently reviewed Board compensation and has delayed the recruitment of new independent directors. 261
Finding VI-4 The American Water Board maintains adequate oversight and is taking further steps to increase its role in ensuring proper controls. 262
Finding VI-5 American Water is taking steps to strengthen oversight through the Audit and Corporate Governance Committees. 263
Finding VI-6 The Board exercises appropriate control over the external auditors; however, a process has not been established to ensure that cost comparisons for external audit services are performed on a periodic basis. 264
Finding VI-7 The Internal Audit Department has adequate interaction with the American Water Board Audit Committee, but its reporting relationship to the American Water Board Audit Committee and American Water management is unclear. 265
Finding VI-8 American Water is taking substantive steps to comply with SOX/NYSE requirements for internal controls. 265

VII. CORPORATE CULTURE, MANAGEMENT STRUCTURE, AND STAFFING LEVELS 269

Finding VII-1 PAWC's culture under RWE could best be defined as *insular.* 274
Finding VII-2 PAWC, like American Water, operates various systems with substantial differences in how each entity is run with respect to certain fundamental business processes. 274
Finding VII-3 Divestiture from RWE presents a significant opportunity to refocus American Water and to strengthen PAWC by leveraging best practices across the enterprise 275
Finding VII-4 PAWC has not surveyed its employees since 2003 and has no current data on employee attitudes, management practices, and other key elements of corporate culture.276

Table of Findings
(continued)

Finding VII-5 PAWC does not a have a management development process. 276
Finding VII-6 Human Resources does not have the capacity to support the change management requirements of PAWC. 278
Finding VII-7 PAWC does not have any enterprise-wide improvement initiatives that fully engage employees at all levels. 279
Finding VII-8 PAWC has limited management succession planning and workforce management capability, thereby making it difficult to assess the adequacy of staffing levels. 279
Finding VII-9 American Water's ethics policies and practices have been substantially communicated to all employees. 279
Finding VII-10 Ethics allegations are properly recorded and promptly investigated. 281

VIII. AFFILIATE INTERESTS 283

Finding VIII-1 Cost allocation documentation was disjointed and poorly organized, which required Schumaker & Company auditors to meet with multiple individuals and to review multiple documents in order to understand how affiliate relationships and cost allocations are handled at American Water. 304
Finding VIII-2 The cost-allocation methodologies impacting PAWC are generally reasonable, although the use of number of customers for allocating AWWSC costs among regulated utilities is essentially a simplification mechanism that is not based on cost causative factors. 305
Finding VIII-3 Although American Water engaged an independent consultant in 2006 and 2007 to perform cost-to-market comparisons for AWWSC charges to three of its regulated utilities, it does not perform these comparisons on a regular basis. 307
Finding VIII-4 The AWWSC/PAWC affiliate agreement is not up to date and a new version has not been provided to the PaPUC for review and approval. 309
Finding VIII-5 Ongoing training updates to AWWSC employees on timekeeping procedures, which could potentially impact affiliate charges, is not being provided. 310
Finding VIII-6 Affiliate charges from RWE/Thames have been appropriately handled. 310
Finding VIII-7 Most activities undertaken for monitoring and ensuring the appropriate implementation of cost-allocation processes are reasonable; however, internal audits of affiliate transactions and the systems that are used for creating affiliate charges are not regularly performed. 311

Table of Findings
(continued)

IX. DIVERSITY/EEO 315

Finding IX-1 The American Water/PAWC diversity program is primarily policy and affirmative-action-compliance oriented. 327
Finding IX-2 Employee location data used for EEO-1 reporting from American Water's JD Edwards human resources information system (HRIS) are often incorrect, thereby causing the company to conduct a manual verification process. 329
Finding IX-3 PAWC and American Water do not have standard processes and use inconsistent methods for preparing affirmative action utilization and EEO-1 reports, which leads to reporting errors. 329
Finding IX-4 No senior executive or officer of American Water reviews and approves the EEO-1 report prior to submittal to the federal government. 331
Finding IX-5 American Water has developed a comprehensive diversity plan but has failed to effectively implement it. 331
Finding IX-6 PAWC has a fully compliant affirmative action plan, but could be more aggressive in setting affirmative action hiring goals and attracting women and minority job candidates 335
Finding IX-7 The supplier diversity program is informally conducted. 337
Finding IX-8 Over the 2003 to 2007 time period, PAWC has neither consistently submitted or fully complied with the filing guideline requirements for diversity reports submitted to the PaPUC 338

X. CUSTOMER SERVICE 343

Finding X-1 American Water call centers have failed to meet industry standard service levels. 370
Finding X-2 Customer service representatives are taking longer to complete calls and follow-up work.373
Finding X-3 The Pensacola CSC CSR turnover rate exceeds industry standards. 374
Finding X-4 American Water has made no effort and has no plans to implement initiatives aimed at reducing employee turnover. 375
Finding X-5 More than one in four newly hired CSRs leave prior to completing all initial training and close monitoring. 376
Finding X-6 After several years of a decreasing number of CSRs, American Water now plans to hire additional CSRs. 377
Finding X-7 Despite the company's unfavorable service levels, PAWC customers appear to be generally satisfied with the contact they have with the company. 377

Table of Findings
(continued)

Finding X-8	The Help Queue has proven effective in improving consistency of answers to customers and allowing supervisors to focus more of their time on CSR coaching and development.	378
Finding X-9	Neither American Water nor PAWC have a customer accessible website to provide basic customer self assistance.	378
Finding X-10	Neither American Water nor PAWC supports electronic billing at this time.	378
Finding X-11	American Water has very limited customer self-serve options available on its IVR system.	378
Finding X-12	The trends in various types of complaints (informal, mediation, executive, and formal) are generally increasing.	379
Finding X-13	The number of disputes has increased significantly since 2004.	383
Finding X-14	There is a significant amount of over estimating in the billing process.	384
Finding X-15	A business case has been developed for an upgrade to the Advantex software used in FRCC operations.	385

XI. OPERATIONAL PERFORMANCE 391

Finding XI-1	PAWC is unable to provide a complete and extensive third-party line-hit damage history for the last five years because of lack of good business processes.	392
Finding XI-2	PAWC's recently developed third party line hit standardized reporting form has inherent deficiencies and is not integrated with other key business processes or systems to effectively manage this function.	393
Finding XI-3	The latest Chapter 101 self-certifications indicate that PAWC has met all required elements.	396
Finding XI-4	PAWC maintains a physical security plan for each of its operating plant facilities.	396
Finding XI-5	Business-continuity planning is less complete than our experience with other utilities.	396
Finding XI-6	Emergency-preparedness planning has been tested via tabletop exercises.	397
Finding XI-7	The systems used for maintaining the operations and maintenance plans for each facility are labor intensive, subject to potential inaccuracies, and not as clearly defined as we have seen elsewhere in the utility industry.	398
Finding XI-8	Unaccounted-for-water on a system-wide basis has improved as reported to the PaPUC since 2004; however, individual districts are experiencing high levels of unaccounted-for-water.	403

Table of Findings
(continued)

Finding XI-9	PAWC has developed a fairly extensive spreadsheet for reporting and monitoring non-revenue water and unaccounted-for water.	405
Finding XI-10	The linked Excel spreadsheets are a good prototype for building an improved NRW and UFW reporting and monitoring program, but the database platform would be a better technology upon which to build the tool.	405
Finding XI-11	PAWC has implemented an allowance for unavoidable real losses using an AWWA methodology (still under development) in reporting its unaccounted-for-water numbers to the PaPUC on an annual basis.	406
Finding XI-12	PAWC was unable to provide an engineering justification for the 100 psi pressure used in its calculation at this time.	409
Finding XI-13	PAWC is in the process of metering water usage within various parts of a water district as another indicator of possible leakage.	410
Finding XI-14	The collection of complete operating statistical data on production and network operations is complicated by a lack of standard data-collection and reporting systems.	415
Finding XI-15	Production field force staffing levels appear to be inadequate as overtime hours are increasing.	415
Finding XI-16	Valve operations and maintenance programs are not completely implemented across the PAWC distribution network.	419

Table of Findings (continued)

XII. PHASE III – WATER OPERATIONS – DISTRIBUTION BUSINESS SYSTEMS 421

Finding XII-1 There is no common leak tracking system used throughout PAWC. 423
Finding XII-2 None of the current Access databases are scalable for a state-wide or enterprise-wide application. 424
Finding XII-3 Distribution operations personnel are very knowledgeable of their current leak tracking database. 424
Finding XII-4 PAWC's current plans are to develop the leak tracking database as a part of CMMS; however, several key requirements may have been overlooked. 424
Finding XII-5 The main replacement prioritization process that PAWC implemented in 2008 is a reasonable algorithm for prioritization and is similar to methods used in the natural gas industry; however, it has not been developed to the point of having automatic interfaces to PAWC performance reporting systems. 425
Finding XII-6 The CMMS being implemented is a commercial product that allows significant user customization. 426
Finding XII-7 Valve operation tracking and reporting and hydrant flushing tracking and reporting are being appropriately integrated into CMMS. 431
Finding XII-8 Based on Schumaker & Company's review, it is not clear that CMMS will provide the work management capabilities needed for managing PAWC's distribution workforce. 431
Finding XII-9 The parts and inventory portion of CMMS is not being fully implemented at this time. 432
Finding XII-10 Incorporating the leak tracking and reporting system into CMMS may not be the best approach. 433
Finding XII-11 It may be more appropriate to integrate the leak tracking and reporting application with an enterprise GIS instead of CMMS. 434
Finding XII-12 There are currently no plans to integrate the NRW tracking and reporting with the leak tracking and reporting databases nor are there plans to integrate pavement tracking and reporting, permit tracking and reporting, or hit facilities tracking and reporting with a leak tracking and reporting system. 434

XIII. PHASE III HUMAN RESOURCES 447

Finding XIII-1 The models and plans developed as part of this Phase III project provide clear direction for HR's efforts to assist PAWC management in meeting its strategic priorities. Substantial work remains to implement these projects..... 458

Finding XIII-2 PAWC HR does not have all the resources necessary to implement the projects defined in the Phase III effort..... 458

I. Introduction and Report Summary

This chapter represents a summary introduction and results of the stratified management and operations audit of Pennsylvania-American Water Company (PAWC) completed by Schumaker & Company in 2008 for the Pennsylvania Public Utility Commission (PaPUC). It includes a synopsis of the objectives and scope of our work, a functional evaluation summary, and several exhibits, for amplification purposes, that encapsulate the recommendations and estimated benefits associated with these improvement opportunities.

These management and operational reviews, which are required of certain companies pursuant to 66 Pa. C.S. § 516 (a) and (c), come under the PaPUC's general administrative power and authority to supervise and regulate all public utilities in the Commonwealth, 66 Pa. C.S. § 501(b). More specifically, the PaPUC can investigate and examine the condition and management of any public utility, as stated in 66 PA C.S. §331(a). More specifically, the objectives of this management audit include the determination of what improvements, if any, can be accomplished in the utility's management and operations pursuant to Public Utility Code 66 Pa. C.S. §522(b). Specifically, it is intended that the management audit encourage economies, efficiencies, or improvements that benefit PAWC and its ratepayers and identify which, if any, cost saving measures can be instituted. The ultimate purpose is to explore economically practical opportunities for giving ratepayers lower rates and/or better service.

The remaining report chapters contain a discussion of our findings, conclusions, and recommendations for each discrete area of review within the scope of the audit. They include:

- Chapter II – Executive Management, External Relations, & Human Resources
- Chapter III – Financial Management
- Chapter IV – Support Services
- Chapter V – Water Operations
- Chapter VI – Corporate Governance
- Chapter VII – Corporate Culture, Management Structure, & Staffing Levels
- Chapter VIII – Affiliated Interests
- Chapter X – Customer Service
- Chapter XI – Operational Performance
- Chapter XII – Phase III Water Operations – Distribution Business Systems
- Chapter XIII – Phase III Human Resources
- Appendix A – Data & Statistics
- Appendix B – Glossary

These chapters provide the detailed facts and analyses that support, and provide context for, the recommendations we have made. Following the report body are two appendices – one (*Appendix A*) provides supporting financial and operating data and statistics, while the other (*Appendix B*) provides a glossary of terms.

The findings and recommendations contained in this audit report are the findings and recommendations of the consultant only and are not necessarily agreed to by PAWC or the PaPUC.

A. Objectives and Scope

The objectives of the stratified management and operations audit were established by the PaPUC in its request for proposal (RFP). The objectives of this audit were threefold:

- To provide the PaPUC, PAWC management, and the public with an assessment of the economy, efficiency, and effectiveness of PAWC's operations, management methods, organization, practices, and procedures.
- To identify opportunities for improvement and develop recommendations for improvement or further action.
- To provide an information base for future regulatory and other inquiries into PAWC's management and operations.

In essence, the PaPUC sought to determine what improvements, if any, could be accomplished in the management and operations of PAWC. Restated, the purpose was to explore and identify practical opportunities for PAWC to achieve improvements for efficient and effective operations, quality services, and cost savings, thus providing PAWC ratepayers the lowest possible rates consistent with above-average service delivery. Our assessment included PAWC's human, physical, and capital resources, its management decisions, compliance with regulatory requirements, and ability to effectively manage outside constraints and events. Given such breadth of scope, the audit encompassed virtually all of PAWC's management and operating functions as well as those American Water Works Company, Inc. (American Water) affiliates supporting PAWC management and operations. Each review was in sufficient detail to facilitate identifying defensible recommendations for cost savings and service quality improvements that were supported by benefit analyses to the extent they were quantifiable. This report provides details of our findings, conclusions, and recommendations for each specified area within the scope of the audit.

The stratified approach and work elements included three phases: 1) an assessment of the condition of major functional areas, 2) a more detailed examination of a number of pre-identified issues, and 3) a focused analysis of issues identified during the diagnostic review. The first stage of the audit consisted of a broad overview of major functional areas and it is referred to as *Phase I – Diagnostic Review.* The second stage of the audit encompassed a detailed review and analysis of six pre-identified issues as set forth in the RFP. This stage is referred to as *Phase II – Pre-Identified Issues Review.* The third stage of the audit consisted of a focused analysis of two (2) issues identified during *Phase I* activities. This stage is referred to as *Phase III – Focused Area Analysis.* Each of these phases concluded with the development of a report that presented our overall findings, conclusions, and recommendations. The actual field work for *Phase I* and *Phase II* began on July 13, 2007 and continued through December 31, 2007. The actual field work for *Phase III* began on February 4, 2008 and continued through April 30, 2008.

During conduct of the review, our consultants allocated considerable time to interviewing PAWC, American Water/American Water Works Service Company (AWWSC), and PaPUC personnel, reviewing reports and documentation, analyzing work flow processes, and assessing any changes being planned by PAWC management. The consultant team focused on identifying areas for improvement, rather than areas where operations performed well. Although some recommendations were associated with areas that had been identified prior to the review as improvement opportunities, we endeavored to formulate more detailed action steps in our recommendations.

This review was performed in accordance with generally accepted auditing standards (GAAS), as contained in the United States General Accounting Office's "Standards for Audit of Government Organizations, Programs, Activities, and Functions," related to issues of management economy, efficiency, and effectiveness as applicable to public utilities ("Yellow Book"), and in accordance with the standards as defined in the RFP and set forth in the National Association of Regulatory Utility Commissioners' "Consultant Standards and Ethics for Performance of Management Analysis."

B. Functional Evaluation Summary

Because the bulk of a management audit is focused on opportunities for improvement, it may give the reader the impression that the utility is seriously deficient. This is not necessarily so, because many of the findings may be of a relatively minor nature. Therefore, it is necessary to put each functional area or issue in perspective to provide the PaPUC, PAWC, and the public with an objective evaluation. The RFP established a set of evaluative criteria for summarizing the results of this audit. The rating is an evaluation of each area's or issue's operating or performance level relative to its optimum as of the time of the audit. The evaluation takes into account PAWC's resources, requirements, constraints, and operating environment. In some areas comparative data is useful and can be used. For the most part, however, each rating is utility specific; i.e., the rating of PAWC cannot be directly compared with that of another utility. Schumaker & Company's overall assessment of each work plan area is presented in the *Functional Evaluation Summary* shown in *Exhibit I-1*, *Exhibit I-2*, and *Exhibit I-3*, with the specific criteria used as follows:

- *Optimum* – The area is functioning more than adequately and no recommendations were made.
- *Minor improvement necessary* – The area is generally functioning adequately, but minor improvements are recommended.
- *Moderate improvement necessary* – The area is generally functioning adequately, but some substantial opportunities for improvement were recommended.
- *Significant improvement necessary* – The areas is not functioning adequately and many recommendations, requiring considerable effort, need to be implemented to achieve adequate performance.
- *Major improvement necessary* – The area is not functioning effectively or efficiently and many recommendations need to be implemented to achieve adequate performance. Implementation of these recommendations will have a major effect on cost levels and performance for PAWC.

C. Summary of Estimated Benefits

The audit produced 114 recommendations, which are contained in this report. A summary of the number of priority items, and estimated benefits, is grouped by phase. Following is a brief explanation of these categories of information.

Priority

To assist PAWC management in developing implementation plans, each recommendation has been assigned a priority of "high," "medium," or "low" according to the following criteria:

- *High* – Designated recommendations are high priority because of their importance and urgency. These represent significant benefit potential, major improvements to service, or substantial improvements to methods or procedures.
- *Medium* – Designated recommendations are of medium priority. In some instances, the implementation of these recommendations is expected to provide moderate improvements in profitability of operations, or management methods and performance. In other instances, implementation may provide significant longer-term benefits which are less predictable.
- *Low* – Designated recommendations reflect a lower priority. In many instances, they should be studied further or implemented sometime during the next few years. Potential benefits are perceived to be either modest or difficult to measure.

Exhibit I-4 summarizes the priority totals for each phase of the audit.

Exhibit I-4
Summary of Priority Totals

	High	Medium	Low
Phase I	26	35	3
Phase II	18	18	2
Phase III	8	3	1
Total	**52**	**56**	**6**

Benefits

The audit identified quantifiable cost savings that range from approximately $400,000 in one-time savings and $898,000 to $1,142,600 in annual savings. Some of these savings could be considered an actual reduction in costs, where the majority of those savings would occur through better deployment and/or use of existing resources. Nonetheless, all of these opportunities should be pursued by PAWC. An overall summary of the one-time and annual costs savings is shown in *Exhibit I-5*.

Exhibit I-5
Summary of Benefits

	One-time Savings	Annual Savings*
Electronic deployment of software updates	N/A	$100,000 to $200,000
Server consolidation and increased archiving of data	N/A	$223,000 to $267,600
Reduction in inventory levels	$400,000	$100,000
Billing overestimates	N/A	$300,000 to $400,000
Damage prevention program	N/A	$100,000
Reduction in Production Department overtime	N/A	$75,000
Total	**$400,000**	**$898,000 to $1,142,600**

* Includes cost savings and/or cost avoidance amounts

In many recommendations, it is not possible or practical at this time to measure "quantitative" benefits. The benefits associated with these recommendations fall primarily into four categories:

- Reduction in actual costs of operations within a PAWC or American Water area
- Increase in a revenue source within a PAWC area
- Change in work flow processes used in the provision of services to PAWC customers on a more effective or efficient basis
- Change in other processes resulting in good business practices being implemented

Particularly in instances where a new management practice or procedure is recommended (where one either did not exist or was not fully implemented), it may be difficult to estimate the actual benefit to be derived. It is believed, however, that the overall benefit will be improved effectiveness and efficiency of the specified PAWC or American Water area. Additionally, qualitative benefits may occur that cannot be easily quantified. They could include improved effectiveness and efficiency in operations, increased customer satisfaction, additional cost savings, increased revenues, etc. It should also be noted that, because it is not possible in all instances to estimate expected benefits prior to implementation, any implementation plan should include a reliable measurement tool to track benefits after implementation.

Quantifiable benefits (increased revenues or additional cost savings) have been provided where they could be estimated. This quantification is subject to some judgment and would require additional effort beyond the scope of this review to refine the estimates. The actual benefits from these recommendations are, therefore, subject to a degree of uncertainty. For other recommendations the benefits to be derived are of a more qualitative nature or, simply stated, the expectations of prudent management. Those areas where major quantifiable benefits have been identified in the report are described on the following pages.

As PAWC will have varying ways to implement recommendations, Schumaker & Company did not estimate the impact of implementing audit recommendations on PAWC's expense. However, the short-term impact could be considerable. Additionally, implementation of recommendations often requires a phase-in period before benefits can be achieved.

D. Summary of Recommendations

We have also indicated the recommendation number, page number in the report, priority, estimated time-frame to initiate implementation efforts, and estimated benefits following implementation. II. Executive Management, External Relations, and Human Resources

This chapter will review executive management functions of Pennsylvania-American Water Company (PAWC), which include organizational structure and planning, management communications and control, administrative procedures and control, strategic planning and external relations, and human resources.

A. Executive Management

Background & Perspective

Organization Structure and Planning

PAWC is a wholly owned subsidiary company of American Water Works Company, Inc. (American Water). PAWC is a regulated public utility that is organized and existing under the laws of the Commonwealth of Pennsylvania. It serves over 640,000 customers throughout 35 counties in Pennsylvania. PAWC owns and operates distribution systems for the purpose of furnishing potable water for residential, commercial, industrial, and government users in its service territory. PAWC also owns, operates, and maintains collection, pumping, and treatment systems for furnishing wastewater service to residential, commercial, industrial, and government users in its service territory.[1]

American Water is a corporation that is located in New Jersey but organized and existing under the laws of the State of Delaware. American Water owns 18 regulated operating subsidiaries (including PAWC) in 18 states. American Water is currently wholly owned by RWE Aktiengesellschaft (RWE), a foreign corporation that is organized and existing under the laws of the Federal Republic of Germany.[2] As of 2007, RWE was planning on divesting all or part of its ownership in American Water through a public common-stock offering (to be listed on the New York Stock Exchange), although the timing of that offering has not been determined.[3]

The American Water organization as of December 31, 2007 is shown in *Exhibit II-1*.[4]

Acronyms at top of each box represent the employee's company affiliation. Although most employees are AWWSC employees, some are actually American Water Works Company (AWWC) employees or American Water Enterprises (AWE) employees.

Reporting to the Chief Executive Officer (CEO) and President are Senior Vice Presidents (SVPs) for Finance (also Chief Financial Officer), Sales and Business Development, Regulatory Programs, Human Resources, Communications & External Affairs, and Legal, General Counsel & Secretary. Also reporting to the CEO is the Chief Operating Officer (COO), who is responsible for division and regional companies that are headed by regional and company presidents (including PAWC in the Eastern Division), as well as Vice Presidents (VPs) for Customer Services, Operational Services, and Process Performance. The AWE President also reports to the CEO.[5]

The last major organizational restructuring (completed) took place in November 2003, after RWE acquired American Water. That reorganization resulted in the consolidation of seven regions into four, with PAWC as one of six regulated subsidiaries that became part of the Southeast Region. Functional groups (e.g., service delivery, finance, human resources, and external affairs) were placed under regional leadership, with staff deployed into states as needed.[6] The organization review that resulted in these

changes was part of an overall Vision and Strategy process that was carried out to develop a business model for enhancing customer service, accelerating business growth, and increasing efficiencies.[7]

Most employees at the corporate level are employees of the American Water Works Service Company (AWWSC), with the President/Chief Executive Officer and Senior Vice President/Chief Financial Officer (and their executive assistants) being the only employees of the parent company.[8]

In 2007 American Water began moving away from a regional structure to align key support functions on a national basis. The aim of this migration is to achieve economies of scale and best practices while focusing operational and state-specific functions on a state level. In late 2007 the Northeast and Southeast regions were combined into an Eastern Division (includes Pennsylvania-American Water Company), with the Central and Western regions combining in 2008 into a Western Division (also with state presidents). *Exhibit II-2* shows the first phase of this reorganization (Central and Western regions will realign after the Eastern Division is formed).[9]

Exhibit II-3 shows the Pennsylvania state organization, with production, operations, engineering, and other state-specific functions reporting directly to the state president. Meanwhile, support functions (e.g., law, finance, human resources) are provided from the corporate level to all divisions/states.[10]

The above organizational changes in *Exhibit II-2* and *Exhibit II-3* have come about through informal management discussions, not a formal process where minutes were kept of meetings. The process was driven by the CEO, based in large part on what he heard from employees, customers, and other stakeholders. No organizational measurement or assessment tools have been used. The PAWC President had no input to higher-level organization changes, but she is tasked with making necessary changes to the PAWC organization.[11]

No written department nor division descriptions, which include goals and objectives for each department, exist.[12] In early 2008 PAWC began a process of developing goals and objectives.[13]

Management and Administrative Communications and Controls

PAWC uses a number of avenues to communicate with its employees, including:

- *Splash* – a regional employee newsletter on current events as well as important activities and employee accomplishments. Splash is distributed to all employees via hard copy and is available on the intranet.
- *Talking Splash Points* – a bi-weekly e-mail communiqué to all employees on company activities and initiatives. The purpose is to develop two-way dialogue between employees and management.
- *Change Partner Network* (CPN) – a group of employees representing all levels at American Water that facilitates discussion with others (through meetings) on various issues and questions. Network members participate in meetings via conference calls (bi-monthly) (including representation by PAWC) and then have follow-up meetings with their colleagues.
- *In The News* – a daily communiqué that is sent to management and supervisors highlighting news articles that pertain to PAWC and other pertinent utility-industry news.
- *News You Need To Know* – a daily e-mail broadcast of recent news, announcements, policy revisions, and other current items of interest. Employees can gain additional information on any topic through PAWC's intranet.
- *Internal Announcements* – American Water-wide e-mail communications from senior management about important PAWC announcements.

Also, individual managers and supervisors conduct "tool box" talks with their direct reports.[14]

PAWC uses a number of management reports, including:[15]

- *Environmental Management and Compliance* – a monthly regional summary report to management on important environmental events and key statistics.
- *Network Reports* – PAWC superintendents provide key operating information to management (monthly).
- *External Affairs* – two monthly reports on activities in each state and summaries of issues that have the potential to negatively impact PAWC's business.
- *Business Development Reports* – include pipeline report (transactions under development) and Critical Tasks memo (to closing of advanced transactions under agreement/offer outstanding/ offer pending in ninety days).
- *Finance Reporting* and *Business Performance Reporting* (monthly) packages.

- *Capital Investment Management* (CIM) *Program Progress Report* (monthly) that tracks capital expenditures.
- *Reforecast Reports* (quarterly) on the Strategic Capital Expenditure Plan.

American Water creates and updates its policies via a process called the Policies, Strategies, and Practices process. A policy panel was established in August 2006 to guide and support this process. Key Governance templates were developed for American Water to define policies, practices, and strategies. American Water defines policies as pertaining to essential mandates that are basically non-negotiable, with few, if any, exceptions. Strategies describe what American Water strives to be or do and provide direction or guidance to management decisions that take into account appropriate service levels, costs and operating efficiencies, and business risks. Practices provide the details and steps for how the business should operate.[16] Practices include guidelines, standards, procedures, processes/workflows, and tools (models, checklists, references, etc.). All policies are approved by the American Water Board, the AWWSC Board, and/or the Business Center Functional Executives (CFO, COO, etc.). Strategies and Practices are approved by Functional Managers (Business Centers and Regions). The intranet is used as the primary means of distributing policies, strategies, and practices throughout the organization. This effort is coordinated by the Policy Panel, which is made up of 17 managers representing all areas of the American Water system.[17]

Strategic Planning

American Water's corporate strategy, as described in its recent S-1 filing with the Securities & Exchange Commission (SEC), is to consistently provide customers with safe, high-quality drinking water as well as reliable water and wastewater services. American Water intends to implement this goal by:[18]

- Prudently investing in regulated water and wastewater infrastructure projects
- Earning an appropriate rate of return on investments from state public utility commissions
- Growing regulated businesses through acquisitions
- Pursuing public and private partnerships, including operations and maintenance (O&M), military contracts and services, and other non-regulated businesses that are complementary to its regulated businesses

The strategic-planning process for PAWC is initiated and directed by American Water, its parent company.[19] Overall, American Water develops a strategy that then feeds down into business-unit strategies. These strategies, in turn, are used to develop business plans.[20] At the American Water level, a process calendar is developed that includes process deliverables and timeframes for process completion. PAWC supports this effort by identifying key assumptions and assigning responsibilities for task completion. These initiatives are then reflected in supporting plans that are developed at the Southeast Regional level. Quarterly financial planning and analysis meetings are held to update expectations (e.g., deadlines and approaches), key assumptions (e.g., capital expenditures), and future planning activities (e.g., tasks, owners, and due dates) for the business plans.[21]

For 2007, American Water targets were established in the areas of:[22]

- *Finance* – meeting business-plan financial commitments, processing rate cases effectively, and securing regulatory approval for transfer of ownership (public offering).
- *Customer* – enhancing customer satisfaction, delivering reliable and high-quality service, further developing business growth, and enhancing brand equity through an integrated and coordinated company-wide communications approach.
- *Process* – enhancing operational performance by achieving Sarbanes-Oxley (SOX) compliance (enhanced internal controls and responsibility) and delivering on the capital program; executing a company-wide diversity plan.
- *Employee* – enhancing employee strength and capabilities as well as employee engagement and satisfaction.
