BEFORE THE TENNESSEE REGULATORY AUTHORITY NASHVILLE, TENNESSEE

IN RE:)		
PETITION OF INTEGRATED RESOURCE MANAGEMENT, INC. d/b/a IRM UTILITY, INC.)))	Docket No.	11-00059
TO AMEND ITS CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY TO SERVE)		
AN AREA IN WILLIAMSON COUNTY, TENNESSEE)		
KNOWN AS ARRINGTON VINEYARDS)		

PETITION TO AMEND CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY

Integrated Resource Management, Inc. d/b/a IRM Utility, Inc. ("IRM Utility"), by and through its undersigned counsel, hereby petitions the Tennessee Regulatory Authority (the "Authority") to amend its Certificate of Public Convenience and Necessity to expand its service area to include a portion of Williamson County, Tennessee known as Arrington Vineyards.

In support of its Petition, IRM Utility submits the following:

- 1. Maps of the proposed service area, located at 6211 Patton Road in Williamson County, Tennessee, are attached hereto collectively as **Exhibit A**. The proposed service area includes a total of 92.69 acres.
- 2. The Utility Services Agreement entered between IRM Utility and Arrington Vineyards Real Estate, LLC (the "Developer"), is attached hereto as **Exhibit B**.
- 3. A Letter of Intent, from the Developer to IRM Utility is also attached hereto as **Exhibit C**.

- 4. A letter from Mr. Rogers Anderson, Mayor of Williamson County, Tennessee, assuring the Authority that Williamson County does not plan to provide sewer to the proposed service area at the present time or in the future, is attached hereto collectively as **Exhibit D**.
- 5. The proposed service by IRM Utility is a special contract service with commercial applications. Arrington Vineyards was founded in 2005 and currently operates as a winery, recreational area and retail store. Therefore, IRM will bill a monthly minimum amount, based on the design capacity.

IRM's prescribed Implementation Plan over the next five (5) years is attached hereto as **Exhibit E**.

- 6. IRM's proposed Tariffs are attached hereto as **Exhibit F**.
- 7. The Williamson County Department of Sewage Disposal Management issued Permit Numbers 27011A and 27011B to the Developer on October 17, 2006, for Construction of the Subsurface Sewage Disposal System located at the proposed service area. Said permits are provided to the Authority for additional information and attached hereto collectively as **Exhibit G**.
- 8. The Subsurface Sewage Disposal System Agreement, entered between Williamson County, Tennessee and the Developer, is provided to the Authority for additional information and is attached hereto as **Exhibit H**. Said agreement concludes that neither a conventional nor an alternative subsurface sewage disposal system, currently accepted by Williamson County, is proper, but rather Williamson County desires to use an experimental Quanics Bio-COIR media filter pretreatment system with MLPP subsurface disposal exclusively for the proposed surface area.

9. A copy of IRM's Certificate of Formation and Filing Information, on file with the

Secretary of State for the State of Tennessee, is attached hereto collectively as **Exhibit I**.

10. An Irrevocable Letter of Credit on behalf of IRM, on file with the Authority, is

attached hereto as Exhibit J.

11. A copy of IRM's most recent Financial Statement, its 2009 Annual Report, on file

with the Authority, is attached hereto as **Exhibit K**.

12. The Pre-filed Direct Testimony of Jeffrey W. Cox, Sr., President of IRM, is

attached hereto as **Exhibit L**.

The system has been installed and is currently in use by Arrington Vineyards. The

estimated value of the contribution in aid of construction of the wastewater system is

approximately \$ 165,000.00.

WHEREFORE, PREMISES CONSIDERED Integrated Resource Management. Inc.

d/b/a IRM Utility, Inc. respectfully requests that the Tennessee Regulatory Authority grant its

Petition to amend its Certificate of Public Convenience and Necessity to serve an area in

Williamson County, Tennessee known as Arrington Vineyards.

Respectfully submitted,

UTILITY SERVICES AGREEMENT

Recitals:

- **1.** Developer is the record owner of Arrington Vineyards (the "Development") as shown in Book _____, and Page ____, in the Williamson County, Tennessee Register of Deeds Office;
- 2. Developer is constructing and installing a sewage collection, treatment, and disposal system (the "System") in the Development and now the Developer desires to convey and deliver the System to the Utility for the purpose of providing wastewater services to the Development upon completion of the construction and installation; and
- 3. Developer and Utility enter into this Agreement to establish the terms and conditions for the conveyance, operation, and maintenance of the System.
- NOW, THEREFORE, in consideration of the mutual promises and covenants contained herein and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Parties hereby agree as follows:

SECTION 1. ACKNOWLEDGEMENT

The Parties acknowledge and agree that the recitals set forth herein are true and correct and are incorporated herein by this reference describing specifically the understandings and intentions of the respective Parties. The Parties further

acknowledge that no Party hereto nor any agent or attorney of such Party has made any promise, representation or warrant, express or implied not contained herein to induce them to execute this Agreement. The Parties also acknowledge that they are not executing this Agreement in reliance upon any promise, representation, or warranty not contained herein.

SECTION 2. DEFINITIONS

When used in this Agreement, the following terms shall have the meanings set forth next to the same as follows:

- 2.1 "CCN" means a Certificate of Public Convenience and Necessity.
- 2.2 "Services" means wastewater services delivered to the Development by the Utility through the System.
- 2.3 "TDEC" means the Tennessee Department of Environment and Conservation.
- 2.4 "TRA" means the Tennessee Regulatory Authority.

SECTION 3. CERTIFICATION

The Utility, for a fee of \$1,800.00 payable by the Developer to the Utility, shall petition the TRA for a CCN for the Development. In the event that a CCN is not issued by the TRA to the Utility, the Developer agrees to release, indemnify and hold the Utility harmless from any and all obligations associated with the Development. The Developer obtained a Permit for Construction of Subsurface Sewage Disposal System ("Construction Permit") from the Williamson County Department of Sewage Management for the Development. A copy of the Construction Permit is attached hereto as **Exhibit A**.

SECTION 4. REPAIRS

The Developer shall have the duty, at its sole cost and expense, to immediately repair, all breaks, leaks, or defects in the System of any type which occur after the System is accepted by the Utility. In the event that the Developer shall fail to make such immediate repairs, then the Utility shall be authorized to make such repairs at the sole cost and expense of the Developer. If Developer fails to reimburse Utility for any costs associated with these repairs within thirty (30) days of receipt of a written demand for payment, Utility will also be entitled to recover any attorneys' fees, court costs, and any other expenses incurred to recover costs and expenses associated with repair of the System.

SECTION 5. RESERVATION OF RIGHTS

Nothing contained herein shall be construed so as to restrict the Utility's right to increase the capacity or to extend the System as it may, in its sole discretion, deem appropriate, including, without limitation, extending the System for the purpose of providing wastewater sewer service to customers outside of the Development.

SECTION 6. REPRESENTATIONS AND WARRANTIES

The Developer hereby represents and warrants that all materials and labor attributable to the System shall be paid in full at the time of the completion of the construction and installation of the System and the System shall be free from any and all liens and encumbrances. Such representation shall survive the conveyance of the System by the Developer to the Utility, as required by Section 7 of this Agreement.

SECTION 7. CONVEYANCE

Upon the Utility's acceptance of the System, the Developer shall convey all right, title and interest in and to the System to the Utility. The Developer shall, upon request of the Utility, execute and deliver any and all documents necessary to convey the System and to grant the Utility an easement in and to the real property surrounding the System to such extent necessary for access to inspect, repair, replace and maintain the System.

SECTION 8. NOTICES

Any notices under this Agreement shall be in writing and shall be deemed delivered on the date of delivery if delivered by personal service, telecopy (and confirmed by first class mail), or recognized commercial courier service with postage or charges prepaid, and on the third day following dispatch if sent only by registered or certified mail with postage or charges prepaid. Unless subsequently notified in writing in accordance with this Section by a Party, any notice or communication hereunder shall be addressed:

If to the Utility, as follows

Jeffrey W. Cox, Sr., President IRM Utility, Inc. 3444 Saint Andrews Drive White Pine, Tennessee 37890

If to the Developer, as follows:

Richard K. Summers, General Manager

Arrington Vineyards Real Estate, LLC 6211 Patton Road Arrington, Tennessee 37014

SECTION 9. INDEMNIFICATION

Developer agrees to indemnify and hold Utility harmless from any and all claims, costs, or expenses, including reasonable attorneys' fees, arising from the performance or construction of the System necessary to provide the services contemplated by this Agreement. All upgrades needed to conform the System with the rules and regulations of the State of Tennessee or Williamson County will be at the sold cost and expense of the Developer.

SECTION 10. CHOICE OF LAW; REMEDIES AND JURISDICTION

The terms and conditions of this Agreement and the performance thereof shall be interpreted in accordance with and governed by the laws of the State of Tennessee, irrespective of it conflicts of law principles. Any claim, dispute, or other matter in question arising out of or relating to this Agreement or the breach thereof, except for claims which have been waived pursuant to this Agreement, shall be governed by the laws of Tennessee and all actions shall be instituted and litigated in the State of Tennessee in the Davidson County courts, and the Parties hereto submit to the jurisdiction of said courts. In any litigation, the prevailing party shall be entitled to recover its reasonable attorneys' fees from the losing party.

SECTION 11. SEVERABILITY

If any part of this Agreement for any reason shall be declared invalid or unenforceable, such decision shall not affect the validity or enforceability of any remaining portion, which shall remain in full force and effect; provided, however, that in the event a part of this Agreement is declared invalid and the invalidity or enforceability of such part has the effect of materially altering the obligations of any party under this Agreement, the Parties agree, promptly upon such declarations being made, to negotiate in good faith to amend this Agreement so as to put such Party in a position substantially similar to the position such party was in prior to such declaration.

SECTION 12. ASSIGNMENT

No Party shall have any right to assign this Agreement or any of their respective rights or obligations under this Agreement to any third party except by operation of law or with the prior written consent of the other Party; such consent shall not be unreasonably delayed, conditioned, or withheld. The Utility shall have no right to assign, transfer, convey, pledge, or hypothecate the permits or certificates or any interest thereto without any necessary approval of the applicable issuing

authority, and the prior written agreement of the purchaser or assignor to be bound by the terms and conditions of this Agreement.

SECTION 13. COUNTERPARTS

This Agreement may be executed in multiple counterparts and so executed shall constitute an agreement binding on all Parties notwithstanding that all the Parties are not signatories to the original or same counterpart.

SECTION 14. HEADINGS

The headings of the sections of this Agreement are for the purpose of convenience only and shall not be deemed to expand or limit the provisions contained in such sections.

SECTION 15. ENTIRE AGREEMENT

This Agreement constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes all prior oral or written agreements or understandings of the parties with regard to the subject matter hereof. No interpretation, change, termination, or waiver of any provision hereof shall be binding upon a party unless in writing and executed by the other party. No modification, waiver, termination, recession, discharge, or cancellation of any right or claim under this Agreement shall affect the right of any party hereto to enforce any other claim or right hereunder.

SECTION 16. AMENDMENT

This Agreement shall not be amended or modified except in writing signed by the parties hereto.

[SIGNATURE PAGE FOLLOWS]

IN WITNESS WHEREOF, the Parties hereto, by their duly authorized officers, have caused this Agreement to be executed and their corporate seals to be affixed hereto, effective as of the day of year first above written.

RE: Wastewater Treatment Service – Letter of Intent Arrington Vineyards – Williamson County, Tennessee

Dear Mr. Cox,

As the managing partner of Arrington Vineyards Real Estate, LLC (the "Vineyard"), I would like to provide notice that the Vineyard has the intention of having Integrated Resource Management, Inc. d/b/a IRM Utility, Inc. own and operate the wastewater system at our development called Arrington Vineyards, located at 6211 Patton Road in Williamson County, Tennessee, as contracted on April 5, 2007.

The Vineyard acknowledges the need for IRM Utility, Inc. to amend its Certificate of Public Convenience and Necessity to include the Vineyard as part of their service territory. We are aware that these efforts do not guarantee that a CCN will be offered for this territory, but we request that you sincerely consider this in a favorable manner.

Thank you.

Sincerely,

Richard K. Summers General Manager

Arrington Vineyards Real Estate, LLC

Mr. Jeffrey W. Cox, Sr. Integrated Resource Management, Inc P.O. Box 642 White Pine, TN 37890

Dear Mr. Cox:

In response to your letter inquiring whether sanitary sewer service is available for Arrington Vineyards, 6211 Patton Road, please refer to the enclosed memorandum from Brian Corwin, Assistant Director of the Williamson County Department of Sewage Disposal Management. Mr. Corwin's memorandum correctly states that neither the County nor any nearby utility districts provide sewer service to that location at this time, and they have no plans to do so in the future.

I hope this provides the information you need. If you need anything further, do not hesitate to contact me.

Sincerely,

Rogers Anderson County Mayor

Re:

IRM Utility, Inc. ~~~ Arrington Vineyards

I am in receipt of the February 8, 2007 letter you forwarded from IRM Utility, Inc. requesting sewer availability information for Arxington Vineyards. As you may recall, the Williamson County Board of Health, at its August 15, 2006 meeting, approved an experimental subsurface sewage disposal system for Arrington Vineyards at 6211 Patton Road. This particular experimental system involved the unlization of an advanced treatment media filter(Quanics Bio-COIR) due to the high strength of the wastewater (much greater than residential wastewater). As with all experimental systems approved by the Board of Health, a detailed legal agreement was prepared, signed, executed and recorded against the deed of the property. One component of the legal agreement required that the experimental system have perpetual operation and maintenance (i.e., O&M) service performed on a regular basis by a service provider approved by the system's manufacturer. IRM Utility, Inc. is the only service provider in Tennessee approved to service the Quanics Bio-COIR system. Thus, Arrington Vineyards has contracted with them to provide the O&M for their system. IRM Utility, Inc. is regulated by the Tennessee Regulatory Authority (TRA) and as such must provide them with information about the wastewater systems they manage. Hence, Mr. Cox's letter to you requesting information regarding potential sewer availability within the proximity of the winery.

As you well know, the County is not in the sewer business and thus, could not make sewer available to this particular property, now or in the future. This property lies close to the border between Milcrofton Utility District and Nolensville - College Grove Utility District. To the best of my knowledge neither of these entities provide sewer service in their districts at all. Thus, they too would not be planning to make sewer available to this property now or in the future. As such, the only wastewater service available to this property is via an on-site septic system. This information should be sufficient for Mr. Cox to pass along to the TRA.

Please let me know if you need additional information.

[★] These Service Territories contain a mix of both commercial and residential properties. Accordingly, these areas will be reflected in both the residential and commercial tariffs.

COMMERCIAL RATE (WITHOUT FOOD SERVICE)

The sewer bill will be charged on a monthly basis. The customer will provide a system that has an expected design flow and quality characteristics. Special conditions such as high treatment requirement or high flows may make other systems than addressed in this initial petition necessary. IRM Utility, Inc. will need to petition for rates on a case by case basis for such systems.

A minimum service charge will be \$75.00 per month for the first 300 gallons per day of design flow expected. For each additional 100 gallons per day, up to 1,000 gallons per day, an additional charge of \$15.00 per month per 100 gallons will be charged. For design flows expected over 1,000 gallons per day, up to 3,000 gallons per day, the following additional monthly charges per 1,000 gallons of daily flow will apply:

Treatment Sub-	rge Off-Site		
Sand, Gravel, Media Filters	\$140.00	\$165.00	-
Lagoon	\$116.00	\$140.00	-
Off-site	-	-	Pass-through & \$73.00

For design daily flows over 3,000 gallons, the monthly charge on all system configurations will be \$116.00 per 1000 gallons of daily flow.

Additional surcharges will apply when customers exceed their expected design flows. For any month that a customer's water meter reading exceeds the expected design flow, the following surcharges will apply:

Excess Water Usage	Surcharge
1 gallon to 1,000 gallons above expected design flow	\$175.00
1,001 gallons to 2,000 gallons above expected design flow	\$200.00
Over 2,000 gallons above expected design flow	\$200.00/1000 gals

If the water meter readings exceed the design flow or analysis indicates that effluent characteristics are not as indicated by the customer's design engineer, the monthly charge will be revised to reflect the increased usage and any capital costs associated with increasing the capacity of the system or upgrading the treatment for the greater loading will be paid by the customer.

Effective October 22, 2007, 29% of the billed rate from all Commercial customers, including special contract customers, will be placed in the Company's escrow account.

Fees: Nonpayment – 5% Disconnection - \$10.00 Reconnection - \$15.00 Returned Check - \$35.00.

Issued: July 15, 2008 Effective: August 1, 2008

COMMERCIAL RATE (WITH FOOD SERVICE)

The sewer bill will be charged on a monthly basis. The customer will provide a system that has an expected design flow and quality characteristics. Special conditions such as high treatment requirement or high flows may make other systems than addressed in this initial petition necessary. IRM Utility, Inc. will need to petition for rates on a case by case basis for such systems.

A minimum service charge will be \$100.00 per month for the first 300 gallons per day of design flow expected. For each additional 100 gallons, up to a total of 1,000 gallons per day, an additional charge of \$18.00 per month per 100 gallons will be charged. For design flows expected over 1,000 gallons per day, up to 3,000 gallons per day, the following additional monthly charges per 1,000 gallons of daily flow will apply:

Treatment Sub-	Treatment Disposal Sub-surface Drip Irrigation Point Discharge Off-Site						
Sand, Gravel, Media Filters	\$170.00	\$192.00	-				
Lagoon	\$142.00	\$163.00	-				
Off-site	-	-	Pass Through & \$94.00				

For design daily flows over 3,000 gallons, the monthly charge on all system configurations will be \$142.00 per 1000 gallons of daily flow.

Additional surcharges will apply when customers exceed their expected design flows. For any month that a customer's water meter reading exceeds the expected design flow, the following surcharges will apply:

Excess Water Usage Surcharge	
1 gallon to 1,000 gallons above expected design flow	\$210.00
1,001 gallons to 2,000 gallons above expected design flow	\$220.00
Over 2,000 gallons above expected design flow	\$220.00/1000 gals

If the water meter readings exceed the design flow or analysis indicates that effluent characteristics are not as indicated by the customer's design engineer, the monthly charge will be revised to reflect the increased usage and any capital costs associated with increasing the capacity of the system or upgrading the treatment for the greater loading will be paid by the customer.

Effective October 22, 2007, 29% of the billed rate from all Commercial customers, including special contract customers, will be placed in the Company's escrow account.

Fees: Nonpayment – 5% Disconnection - \$10.00 Reconnection - \$15.00 Returned Check - \$35.00.

SUBSURFACE SEWAGE DISPOSAL SYSTEM AGREEMENT

WITNESSETH

WHEREAS, Owner has acquired a property located at Map 136, Parcel No. 6.01, and Map 114, Parcel 37, commonly known as 6211 Patton Road, Arrington, Tennessee (the "property"), which has an existing residence on the property with an existing subsurface sewage disposal system that is properly functioning;

WHEREAS, Owner desires to abandon the existing subsurface sewage disposal system for the existing house;

WHEREAS, the existing house will be remodeled into a reception and office area and will be served by a new subsurface sewage disposal system, strictly limited to domestic wastewater, which will also serve the bathroom facilities of the winery production facility building;

WHEREAS, Owner also desires to construct a vineyard and winery production facility building on the property known as Arrington Vineyards Real Estate, LLC;

WHEREAS, Owner understands and agrees that the vineyard and winery operation is restricted to a maximum annual wine production of 50,000 gallons;

WHEREAS, the winery production facility produces a high strength wastewater which must be disposed of utilizing a subsurface sewage disposal system separate from the domestic wastewater subsurface sewage disposal system;

WHEREAS, Owner understands that due to the unusual nature and high strength of the winery process wastewater, multiple settling tanks & pretreatment must be utilized before

WHEREAS, Owner understands and agrees that the vineyard and winery operation is restricted to a maximum total daily flow of 640 gallons per day of domestic wastewater and a maximum total daily flow of 1250 gallons per day of winery process wastewater;

WHEREAS, the Department of Sewage Disposal Management (the "Department") has conducted extensive research into the proper method for disposal of the winery process wastewater;

WHEREAS, neither a conventional nor an alternative subsurface sewage disposal system currently accepted by Williamson County is designed to handle such high-strength wastewater:

WHEREAS, Owner desires to utilize a Bio-COIR media filter treatment system manufactured by Quanics on an experimental basis for the purpose of determining whether said Bio-COIR media filter treatment system could be used in this instance;

WHEREAS, the proposed Quanics Bio-COIR media filter system has been extensively studied and successfully utilized in other areas and has been certified to NSF/ANSI Standard 40 by the National Sanitation Foundation;

WHEREAS, the Williamson County Board of Health has approved the experimental use of the Quanics Bio-COIR media filter pretreatment system for this property; however, the use of such a system is restricted and limited to the real property served thereby;

WHEREAS, the Williamson County Board of Health requires that the Quanics Bio-COIR media filter pretreatment system must be installed, operated, monitored and maintained in accordance with the directives of the Department and Quanics;

WHEREAS, the Quanics Bio-COIR media filter pretreatment component of the system has been sized according to Quanics and the modified low pressure pipe (MLPP) disposal portion of the system has been designed by Tim Turner, P.E., an engineer licensed by the State of Tennessee;

WHEREAS, the Quanics Bio-COIR media filter pretreatment system and the MLPP disposal system have been approved by the Williamson County Department of Sewage Disposal Management;

WHEREAS, the Tennessee Department of Environment and Conservation, Division of Water Supply, has issued a Class V Injection Well Permit on June 6, 2006, for the winery facility which must be separately complied with above and beyond the provisions of this agreement;

WHEREAS, Owner understands and agrees that any and all special events held on the premises will be restricted to a maximum of 150 attendees; Owner further understands and agrees to comply with all other restrictions and regulations of all other Williamson County departments;

WHEREAS, Owner understands and agrees that there will be no food service, for commercial purposes, on the premises; Owner further understands and agrees that any and all special events held on the premises require that all food be catered (i.e., prepared and imported from off-site) to the facility;

WHEREAS, Owner understands and agrees to provide portable restroom facilities to be made available to the general public during any and all special events held on the premises and to maintain such facilities under a regular servicing agreement with a provider of portable restroom facilities;

NOW, THEREFORE, for and in consideration of the mutual covenants and stipulations set forth below and the provisions above, the parties agree as follows:

SECTION ONE

The experimental Quanics Bio-COIR media filter pretreatment system with MLPP subsurface disposal herein described will be expressly restricted and limited to Owner's property as described in Deed Book 4046, Page 600-604, Register of Deeds Office of Williamson County, Tennessee, located in Williamson County, Tennessee.

SECTION TWO

Owner hereby releases the County, the State of Tennessee and all agents, officers and employees of the County or the State of Tennessee, from any and all liability connected in any way with the operation, maintenance, repair or removal of the Quanics Bio-COIR media filter pretreatment system with MLPP disposal.

SECTION THREE

Owner understands that the Quanics Bio-COIR media filter pretreatment system with MLPP disposal to be installed is experimental and agrees that the installation must be conducted only under the direct oversight and supervision of the Department and Quanics and that no installation will occur without representatives from both the Department and Quanics on site at all times. Owner agrees that the installation of the system must be in accordance with the site plans and floor plans on file with Department and in accordance with the plat drawing approved by the Department and recorded with the Williamson County Register of Deeds. Owner agrees to

ensure that engineering oversight is provided in accordance with Section 19(F) of the Regulations Governing On-Site Disposal Systems of the Williamson County Department of Sewage Disposal Management. Owner agrees that the installer of the system must be approved in advance by Quanics and that Quanics reserves the right to refuse the utilization of an installer that does not meet with Quanic's approval. Owner further agrees that the system will be installed in conformance with the approved design plans and the construction permit as issued by the Department and that no deviations from said design plans and permit will be allowed absent written approval from the Department, the design engineer and Quanics. Owner further agrees that the system will be installed, operated, monitored and maintained in accordance with any and all requirements set forth by Quanics and the Department.

SECTION FOUR

Owner agrees to install and maintain landscaping materials around the perimeter of the Bio-COIR treatment units and tanks.

SECTION FIVE

Owner will allow entry onto said property at reasonable times and places by agents, officers and employees of the Department and Quanics for the purpose of monitoring the Quanics Bio-COIR media filter pretreatment system with MLPP disposal.

SECTION SIX

This document will be promptly recorded in the Register of Deeds Office of Williamson County, Tennessee, and any fees will be assessed to Owner.

SECTION SEVEN

If it is determined by the Department at any future date that the Quanics Bio-COIR media filter pretreatment system with MLPP disposal failed where failure is defined as a violation of Tennessee Code Annotated Section 68-221-406 or also defined as a violation of the provisions of Section Eight herein as determined by the Department after a reasonable attempt to bring the system into compliance with the provisions of this agreement and the regulations, or caused damage or injury to a third party, or, the Owner, the heirs, assigns, executors, administrators and successors of Owner will, at the request of the Department, repair or replace said system within ninety (90) days, which repair or replacement shall meet or exceed the Department's standards existing at the time of failure, or the Owner, the heirs, assigns, executors, administrators and successors of Owner will, at the request of the Department, vacate the property within thirty (30) days until such requirements can be met.

SECTION EIGHT

Owner hereby agrees that the Quanics Bio-COIR media filter pretreatment system shall be operated and maintained in a safe and environmentally sound manner which shall include, but not be limited to, the following duties:

- 1. Operate, monitor and maintain the system in accordance with any and all requirements set forth by Quanics and the Department including the implementation of a formal maintenance contract with a responsible management entity approved by Quanics for their system. This entity should be a service provider or utility that could take responsibility for emergency calls, should they occur. This maintenance contract shall be in place for the life of the system and a valid current copy provided to the Department. A maintenance report shall be submitted to the Department on a semi-annual basis detailing the inspection, the findings and any work performed. Said maintenance contract shall outline the schedule and frequency of the exact duties to be performed in accordance with Quanics's "Service Inspection Checklist" form included in the approved design plans. It shall, at a minimum, include the following:
 - Regular maintenance of the media filters at a minimum of every six months as prescribed by Quanics;
 - Routine monitoring and pumping, as needed, of the lees settling tanks, especially during the wine processing season;
 - Routine monitoring and pumping, as needed, of all other tanks (i.e., septic tank, pump tanks, and recirculation tank);
 - Inspection of the effluent filters in the tanks and cleaning as necessary;
 - Inspection of all pumps and alarms to ensure proper operation;
 - Check of the dosing pressure settings of the Bio-COIR treatment modules and adjustment as necessary;
 - Visual inspection of the surface of the coir media for evidence of effluent ponding;
- 2. A Monitoring Plan shall be implemented to ensure continued acceptable performance of the Quanics Bio-COIR media filter pretreatment system. The Monitoring Plan shall outline the exact testing methodologies, sampling techniques, sampling location, sampling frequency, constituents to be tested for, acceptable and unacceptable limits of each and the qualifications of the laboratory and laboratory personnel. Said laboratory shall be independent of Owner and any of Owner's contractors, subcontractors, agents, employees or assigns, including but not limited to, those persons or entities associated with the design and installation of the Boi-COIR media filter system.

The monitoring plan, and all future plans, if any, must contain the following minimum parameters:

- all sampling and analysis must be performed by a laboratory qualified for wastewater testing and by laboratory personnel trained and qualified for wastewater testing; proof of such shall be provided;
- all testing methodologies shall conform to 40 C.F.R. § 136;
- during each and every sampling period, grab samples shall be obtained of the effluent
 entering the recirculation tank from the last lees settling tank and of the effluent
 entering the MLPP pump tank from the recirculation tank;
- the sampling frequency shall be as follows:
 - quarterly for the life of the system or until determined by the Department;
 - in the event that testing reveals potential malfunctions or irregularities in the system, the Department reserves the right to require more frequent sampling and analysis.

- results of all testing shall be reported to the Department on a regular basis as it is conducted;
- the following constituents shall be tested for:
 - biochemical oxygen demand (BOD)
 - total suspended solids (TSS)
- after the first month of operation, the effluent exiting the Quanics Bio-COIR media filters must meet or be below the following maximum limits, excepting the TSS limits which may take up to one year to conform to the requirements:
 - BOD < 15 mg/L
 - TSS < 15 mg/L

Three years after the recording of this Agreement in the Williamson County Register of Deeds office, the Owner may propose that the testing protocol be adjusted. After a thorough review and evaluation of all the collected data, the Department may, at any time, determine if adjustments are necessary regarding the constituents tested, how often samples are collected and where the samples are collected.

SECTION NINE

The variance and necessity for this Agreement was approved by the Williamson County Board of Health on August 15, 2006.

SECTION TEN

Owner agrees that any change to the use of the property or additions or alterations to the property must be approved in advance by the Department and Owner will comply with any directives of the Department;

SECTION ELEVEN

This Agreement shall inure to the benefit of and be binding upon the heirs, executors, administrators, assigns and successors of the respective parties.

IN WITNESS WHEREOF, the parties have executed this agreement the day and year first above written.

LETTER OF CREDIT

Tennessee Regulatory Authority 460 James Robertson Parkway Nashville, Tennessee 37243-0505

REFERENCE: Name of Company authorized by TRA: Integrated Resource Management, Inc.

Company ID as assigned by the TRA: #128825 Irrevocable Letter of Credit # 243722 Effective Date: September 23, 2009

Sir/Madam:

You have requested of Central Bank that we establish an irrevocable letter of credit which will remain available on behalf of Integrated Resource Management, Inc. d/b/a IRM Utility, Inc. who has applied to the Tennessee Regulatory Authority (the "Authority") for authority to provide public wastewater services in the State of Tennessee. The purpose of this letter of credit is to secure payment of any monetary obligation imposed against the Company, its representatives, successors or assigns, in any contested case proceeding brought under Tenn. Comp. R. & Regs. Chapter 1220-4-13 by or on behalf of the Authority.

We hereby establish and issue, in favor of the Authority, an irrevocable letter of credit in the amount of Ninety-Five Thousand Dollars (\$95,000.00) lawful money of the United States of America. Upon entry of an Order that finds a monetary obligation pursuant to Chapter 1220-4-13, the Authority may draw upon this letter of credit, at any time and from time to time, by delivering a Letter of Credit Notice, substantially in the form set forth below ("Notice"), which Notice shall specify the amount (the "Draw Amount") to be drawn and the account (the "Bank Account") to which the Draw Amount should be delivered and shall be assigned by an official designated and duly authorized by the Authority, to Lender at the address listed below, or to such other address as the Lender shall notify the Authority in writing by certified mail. Promptly after the delivery of each Notice, the Lender hereby covenants and agrees to deliver, by wire transfer of immediately available funds, the Draw Amount to the Bank Account.

This letter of credit shall be deemed automatically renewed without amendment of successive one-year periods and may be cancelled by the Lender by giving (30) days advanced written notice by certified mail of such cancellation to the Authority and the Company, it being understood that the Lender shall not be relieved of liability that may have accrued under this letter of credit prior to the date of cancellation.

Failure to renew this letter of credit shall allow the Authority to draw upon it without the necessity of the Authority being required to hold a hearing concerning the Principal's operation or Certificate of Public Convenience and Necessity. In such an event and upon a directive from the Authority, the Lender hereby covenants and agrees to deliver by wire transfer of immediately available funds the maximum

sum of this letter of credit to the Bank Account to enable the continued operation of the public wastewater utility.

The Lender hereby represents and warrants that it is qualified and authorized to issue this letter of credit and is a bank designated by the Treasurer of the State of Tennessee as an authorized depository bank for the deposit of state funds.

Except as otherwise expressly stated, this letter of credit is subject to the Uniform Customs and Practice for Documentary Credit (1993 Revision) International Chamber of Commerce Publication No. 500, or any revisions thereto.

Very Truly Yours, Central Bank Chris Jerrolds President & CEO 485 Wayne Road

Savannah, Tennessee 38372

APPROVAL AND ENDORSEMENT

This is to certify that I had and in conformity to la State of Tennessee, thi	w and that the	same has bee	en filed v	with the Te	d found the same innessee Regulate	to be sufficient bry Authority,

RE: 2010 Annual Report Submittal and UD 20 with payment

Dear Mr. Foster,

Please accept the enclosed Annual Report for 2010 for Integrated Resource Management. Inc. ("IRM Utility, Inc."). Also enclosed are the completed UD-20 Form and a payment for \$279.00 with check #2683. Would you be so kind to get this envelope to Ms. Laura Foreman or other appropriate TRA personnel?

Please call if you have any questions. Thank you.

Respectfully submitted.

Jeffrey W. Cox Sr. President IRM Utility, Inc.

Price changes for the U.S. Bank Business Checking, Savings, and Treasury Management Services will be effective on January 1, 2011. Please view the revised pricing (only those prices that changed) at this secure website: https://www2.usbank.com/tmpricing beginning on December 1, 2010 using the account number (omitting leading zeroes and dashes) and five-digit zip code on your statement. If you are unable to access the Internet for this information, please contact your local branch or call U.S. Bank 24-Hour Business Solutions at 1-800-673-3555.

Effective February 14, 2011, non-U.S. Bank ATM transaction fees will increase. A fee of \$2.50 will be assessed for each ATM transaction that occurs at a non-U.S. Bank ATM*, including withdrawals, balance inquiries, funds transfers, denied transactions, and deposits.

*ATMs not identified as *U.S. Bank* ATMs may assess an additional access fee. Other ATM owners may assess different surcharge fees unless the ATM it is owned by a member of the MoneyPass® ATM Network member. To find MoneyPass ATM locations, please visit www.moneypass.com.

INFORMATION YOU SHOULD KNOW

Effective February 27, 2010 certain sections of U.S. Bank's Funds Availability Policy were updated to reflect changes related to checks no longer being classified as nonlocal checks. The following sections were updated: Longer Delays May Apply - Case by Case Delays, in some cases, we may not make all of the funds available to you; funds may not be available until the second business day after the day of your deposit, instead of what was previously noted as the fifth business day after the day of deposit. Longer Delays May Apply - Safeguard Exceptions, funds you deposited by check may be delayed for a longer period of time, they will generally be available no later than the seventh business day after the day of your deposits, instead of what was previously noted as the ninth business day after the day of deposit.

Effective June 14, 2010, the daily Continuous Overdraft Fee will be replaced with a weekly Extended Overdraft Fee. The Extended Overdraft Fee will be assessed if the available balance remains below zero for seven or more calendar days. You will be charged \$25 per week (beginning on the 8th calendar day) and each week thereafter if the available balance remains below zero.

INFORMATION YOU SHOULD KNOW

Effective August 15, 2010, U.S. Bank will change the cost of Overdraft Items Paid and Overdraft Items Returned (NSF). The overdraft cost will be based upon the item amount of each Overdraft Item Paid and/or Overdraft Item Returned which results in insufficient funds to cover an item as defined in Your Deposit Account Agreement. We will charge a \$10 fee for each overdraft item we pay or return on your behalf that is less than or equal to \$20. We will charge a \$33 fee for each overdraft item we pay or return on your behalf that is greater than \$20. Previously overdraft fees were assessed based on the number of overdraft occasions in a 12 month period, beginning at \$19 per item for the first occasion with a maximum of \$37.50 per item.

We have completed our periodic update of the "Your Deposit Account Agreement" booklet. The changes are effective immediately and in some cases you may have received advance notice indicating an effective date either via statement messaging or statement insert. Please review the revised booklet carefully. Most of the changes are technical in nature, but may affect your rights. In particular, updates to note in the deposit account agreement include the addition of an "ATM and Check Card Overdraft Coverage" section within Insufficient Funds and Overdrafts, the addition of the "S.T.A.R.T. Program" section, updates to the local check definition under the "Funds Availability Policy" and revisions to format under the "Reserve Line Agreement" section. You may pick up a copy at your local branch, view the updated agreements at usbank.com, or call 1-800-USBANKS (1-800-872-2657) for a copy.

Exhibit L

BEFORE THE TENNESSEE REGULATORY AUTHORITY

NASHVILLE, TENNESSEE

April 9, 2011

IN R	E:)
MAN CER AND WIL	ITION OF INTEGRATED RESOURCE NAGEMENT, INC. TO AMEND ITS TIFICATE OF PUBLIC CONVENIENCE NECESSITY TO SERVE AN AREA IN LIAMSON COUNTY, TENNESSEE OWN AS THE ARRINGTON WINERY
	PRE-FILED DIRECT TESTIMONY OF JEFFREY W. COX, SR.
Q.	Please state your name for the record and your position with the Petitioner, Integrated Resource Management, Inc. ("IRM").
A.	Jeffrey W. Cox, Sr. I am the President of IRM.
Q:	Are you presenting testimony on behalf of IRM?
A:	Yes.
Q:	Did you assist and cause to be filed the Petition in this proceeding requesting an expansion of service area and an extension of authority for IRM to provide wastewater sewer services in Williamson County, Tennessee to a commercial business known as The Arrington Winery?
A:	Yes.
Q:	Can you describe the service you will be providing?
A:	Yes, the service will be the same as we have petitioned for in the past. We will be operating an onsite wastewater treatment facility that beneficially reuses the water in subsurface drip irrigation systems.
Q:	How many customers will be served by the proposed system?

- A: There will be the one commercial customer. We will be treating the commercial wastewater from the wine making processes and activities of the winery such as domestic waste from restroom facilities.
- Q: Do you operate any systems in this area?
- A: I personally have been the Tennessee State Licensed Operator in charge of the system since September 1, 2007. Therefore, I am very familiar with the system operation and maintenance.
- Q. When did the company receive its first Certificate of Public Convenience and Necessity ("CCN") from the Tennessee Regulatory Authority ("Authority") to operate a sewer system in Tennessee?
- A. After a hearing in October 2003, in Docket 03-00467 and pursuant to this Authority's final order dated March 16, 2004, IRM was grated a CCN.
- Q. Does IRM have the managerial, technical, and financial ability to provide wastewater service in the area referred to in the Petition?
- A. Yes.
- Q: Have you contacted other potential utility service providers in the area to determine whether they might have any plans to service the area?
- A: Yes. The Williamson County Mayor and the Williamson County, Department of Sewage Disposal Management has provided a letter confirming that the county or other municipalities do not intend to provide wastewater service. This letter is included in the Petition.
- Q: Is there a public need for wastewater service to this area?
- A: Yes.
- Q: Is all of the information in the Petition accurate to the best of your knowledge, information, and belief?
- A: Yes, it is.
- Q: Have you submitted plans to the Tennessee Department of Environment and Conservation ("TDEC") for approval?
- A: Yes, there is a local approval from the Williamson County, Department of Sewage Management, ID# 27011A.

- Q: What is the estimated timeframe for construction of the system including estimated date construction will begin and the date it is estimated to end.
- A: The system construction is completed. Modifications may be needed as individual bathrooms are added.
- Q: What is the estimated amount of contributed capital to IRM once the system is transferred to IRM?
- A: Materials and Labor; Approximately \$150,000.00
- Q: What is the size of The Arrington Vineyard?
- A: The size of the service area is approximately 60 acres.
- Q: Does IRM intend on complying with all Authority rules, statutes, and orders pertaining to the provision of wastewater services in Tennessee?
- A: Yes.
- Q: Does this conclude your testimony?
- A: Yes.
