RE: United Telephone Company's State Franchise Certificate Application  
Williamson County PEG Information (Docket No. 11-00208)

Dear Mr. Hutton:

Our office represents Williamson County regarding franchise agreements and state certificate requests. This correspondence is in response to the notification letter you sent to Williamson County dated September 3, 2019, requesting information concerning Williamson County's Public, Educational, and Governmental access channels (PEG).

Williamson County currently has more than one incumbent cable provider within the unincorporated area of Williamson County. As required by the Competitive Cable and Video Services Act, we will be referencing Comcast's<sup>1</sup> current PEG obligations. The following is the information you have requested:

1. Williamson County has one PEG channel activated.
2. The Franchise Agreement with Comcast provides the reservation of one PEG channel.
3. Williamson County does not receive any fee or other payment for PEG access support. Williamson County does receive a franchise fee of 5% of the gross sales of Comcast that is not earmarked as a PEG access support fee.

The information provided only concerns Williamson County and does not reflect any PEG channels or access that other jurisdictions may have with any incumbent cable providers. Please feel free to contact me should you have any questions.

Very truly yours,

**BUERGER, MOSELEY & CARSON, PLC**

Robert Cook
