8. Applicant Has the Managerial, Financial, and Technical Qualifications to Provide Cable Service (Tenn. Code Ann. § 7-59-305(c)(6) and (d)(2))

As recognized in TPUC Docket 11-00208, Applicant has the managerial, financial and technical qualifications to provide cable or video service as required by Tenn. Code Ann. § 7-59-305(c)(6) and (d)(2). United Telephone Company is a certificated provider in the State of Tennessee. Accordingly, the TPUC has determined that Applicant has the managerial, financial, and technical qualifications to provide local telephone service. In addition, United Communications, Inc., f/k/a UTC Video Concepts, LLC was granted a State-Issued Certificate of Franchise Authority in 2012, and has been providing cable and video services pursuant to that Certificate, and therefore the TPUC has determined that Applicant has the managerial, financial, and technical qualifications to provide cable and video services. That determination was reaffirmed in 2019 when the TPUC granted Applicant an Amendment to its State-Issued Certificate of Franchise Authority. Based on Applicant's experience and success providing telecommunications services and cable and video services, United Telephone Company and its wholly-owned subsidiary United Communications, Inc., f/k/a UTC Video Concepts, LLC have the managerial, financial, and technical qualifications to provide similar cable and video services.

1. Managerial Qualifications: Applicant has been providing telecommunications services in Tennessee since 1947, and video and cable services since 2012, primarily to Tennesseans in the seven (7) Tennessee counties serviced by Applicant, namely Bedford, Davidson, Franklin, Marshall, Moore, Rutherford and Williamson Counties. As a result of over seventy years of providing local service, Applicant knows its customers well and has the valuable experience as a telecommunications and cable service provider necessary for the renewal of its Certificate and to begin providing video and cable services in additional service areas.

United Telephone Company maintains its headquarters in Chapel Hill, Tennessee, and already operates experienced local customer service and installer/repair departments that provide exceptional customer experiences in delivering advanced broadband, communications, and cable and video services. Further, Applicant's employees already utilize coordinated back office systems necessary that are being used in the certificated service areas and can easily be expanded to add video and cable services to the product portfolio in the new service areas. Accordingly, Applicant's employees are already trained and experienced on the back office systems necessary to provide video and cable services in the existing and proposed new service areas, resolve service and repair issues, and handle billing inquiries in an efficient and timely manner.

Applicant is managerially qualified to provide cable and video services in its existing and proposed service areas. Applicant is currently managed by William H. Bradford, President & CEO, and he is supported by highly qualified and competent directors and staff. Attached hereto as Exhibit B is a list of the names of Applicant's principal company officers and staff and a description of each officer's and staff member's background and experience. As shown in Exhibit B, Applicant's staff has substantial managerial experience in the areas of utility operations, utility customer service and utility marketing. Further, all members of the management team have prior experience in the video and cable services sector.

2. Financial Qualifications: Applicant has been meeting the requirements of a financially stable regulated utility in the state of Tennessee for over seventy years. Throughout this time Applicant has filed annual financial and operating reports reflecting its ability to continue to invest in its network, pay-off debt, and build cash, which are all important aspects of a healthy

company. Applicant's annual reports are on file with the TPUC. Accordingly, Applicant has a proven history of being financially qualified to provide cable and video services.

3. Technical Qualifications: Based in part on its experience since 1947 as a telecommunications services provider, and its experience since 2012 of providing cable and video services, coupled with its demonstrated managerial experience, Applicant possesses the necessary technical qualifications to provide cable and video services in its existing and the proposed new service areas. As noted earlier herein, Applicant has successfully serviced its telecommunications customers since 1947, and its cable and video customers since 2012. Employees of United Communications, Inc., are also employees of United Telephone Company. United Telephone Company has been providing broadband services for over 20 years; therefore, the technical staff and senior management team have extensive broadband experience.

Information concerning the technical expertise of Applicant's senior management team is included in Exhibit B. This experience provides Applicant with the foundation necessary to provide the proposed cable and video services. While Applicant believes that it has sufficient technical expertise to provide these and other broadband services, Applicant also has access to various technical consultants on whom it may call if the need arises.

9. Customer Service Complaint Handling Process (Tenn. Code Ann. § 7-59-305(c)(7))

Applicant has a staff of over forty dedicated local employees and has provided service and quality customer care for over 70 years. As such, subscribers in the new service areas who have

questions or complaints regarding their subscriptions to Applicant's services will have access to Applicant by writing to United Telephone, 120 Taylor Street, P.O. 13. Minority Owned Business Participation Plan (Tenn. Code Ann. § 7-59-305(c)(11))

Exhibit D to this Application is Applicant's Minority Owned Business Participation Plan and Applicant agrees to comply with the provisions of the Plan in accordance with Tenn. Code Ann. § 7-59-313 and is incorporated by reference into this Affidavit.

14. Acquisition and Notice of Termination of Certificate of Franchise Authority Issued to Crystal Clear Technologies, LLC (Tenn. Code Ann. § 7-59-305(h))

In addition, this Application acknowledges that Applicant acquired the cable assets of Crystal Clear as of May 1, 2021, including the State-Issued Certificate of Franchise Authority previously certificated to Crystal Clear in Docket No. 16-00009. At the time of the acquisition, Crystal Clear was not providing any cable or video services pursuant to that Certificate. Applicant is not providing, nor does it intend to provide, such services in those territories.

Accordingly, pursuant to Tenn. Code Ann. § 7-59-305(h) Applicant **hereby gives written notice to the Tennessee Public Utility Commission of the termination of that Certificate**, and will provide a copy to the governing authority of the affected municipality of Thompson Station. Further, there are no existing customers to whom notice of this termination may be provided. The former Crystal Clear service areas are delineated in Exhibit E.²
