

**TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 12-00049
SECOND DISCOVERY REQUEST OF THE
CITY OF CHATTANOOGA**

Responsible Witness: Linda C. Bridwell

Other Participating Employees: None

Question:

1. Please ***Identify*** each person who was involved in preparing the responses to these Requests, specifying the Request(s) for which each such person was involved and the nature of the information provided by her or him.

Response:

TAW has identified the responsible witness under whose direction each discovery response is prepared. That person is ultimately responsible for each of his/her responses and will also be available for cross-examination about his/her responses at the evidentiary hearing of this matter

**TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 12-00049
SECOND DISCOVERY REQUEST OF THE
CITY OF CHATTANOOGA**

Responsible Witness: Linda C. Bridwell

Other Participating Employees: AW Support Services

Question:

2. Please refer to Petitioner's Exhibit RB-9-Deferred Taxes-LCB, from the direct testimony of TAWC witness Linda C. Bridwell.
 - a. For each regulatory asset, regulatory liability and amortization, provide a detailed explanation of how the amount was calculated, the circumstances that required recognition of the balance and the reason(s) why it is appropriate to recognize these balances in the determination of rate base and revenue requirement.
 - b. **Identify** which balance(s) include FIN 48 amounts.
 - c. For each FIN 48 item, provide the amount, an explanation of the circumstances that required the amount appearing on the Exhibit to be recognized and an explanation regarding any change(s) in these circumstances and the effect on the Exhibit amount.
 - d. Please **Identify** and **Explain** whether TAWC was able to record bonus depreciation in 2011 and 2012, and if so, how did this impact its accumulated deferred income tax balance?

Response:

- a. Please see the attached file for the calculation of the amortization of the regulated assets and liabilities.

Upon adoption of FAS 109, deferred tax assets and liabilities were required to be created for all temporary differences. FAS 109 is a balance sheet approach to calculating taxes as opposed to an income statement approach done previously. For regulated companies, a regulatory asset or liability was set up, as offset to the deferred taxes, for example, for items previously flowed through to customers. These regulatory assets and liabilities are then amortized to tax expense over the life of the underlying assets in order to recognize recovery through future rate revenues. Accounting for these items

has been recorded so that annual income tax expense is unchanged from what it would have been had FAS 109 not been adopted.

In addition to items previously flowed through to customers, regulatory assets and liabilities are also created for changes in tax rates and AFUDC. Deferred taxes need to be shown at the tax rate they will turn around. Any excess or deficit deferred taxes need to be returned to or recovered from the customer. FAS 109 requires recognition of a deferred tax liability for the equity component of the allowance for funds used during construction (AFUDC) which had been a permanent item.

The rate base treatment of regulatory assets and liabilities recorded must be consistent with the treatment in rate base of the associated deferred tax liabilities and deferred tax assets. Either both are included or both are excluded. The regulatory assets and liabilities are not included in rate base for TAW and therefore should not be included in the deferred tax portion of rate base.

- b. Account numbers 253301 (Def FIT-Other) and 253701 (Def SIT-Other) include a FIN 48 offset to the repairs deduction taken on the tax returns.
- c. The FIN 48 deferred tax asset provided in the Exhibit under accounts 253301 and 253701 is \$691,657.

The FIN 48 balance in the Exhibit is related to the repairs deduction taken on the 2008-2010 tax returns. In 2008, the Company changed its tax method of accounting for repairs from a capitalization method to an expense method. FIN 48 requires the Company to analyze its tax positions on the tax returns and determine if any of it is uncertain, in other words, more likely than not to be rejected by the IRS. It was determined that a piece of the repairs deduction taken on the tax returns is uncertain, so a FIN 48 liability was established.

Since the time the rate case was filed, the FIN 48 amount related to tax years 2008-2010 has been tried up and an estimate has been booked in the ledger for 2011 and up to June 2012. The updated FIN 48 deferred tax asset at 12/31/11 is \$1,134,928. The FIN 48 deferred tax asset at 06/30/12 is \$1,334,143.

- d. The tax law allows a company to take bonus depreciation in 2011 and 2012. For 2011, though, the Company is opting out of taking the bonus depreciation. The Company will be taking the 2012 bonus depreciation.

Taking bonus depreciation would increase ADIT in the year it is taken. For 2012, TAW will take 50% bonus depreciation.

As time goes on, the ADIT will decrease because book depreciation will be higher than tax depreciation. For those assets where bonus depreciation was taken, this reversal will begin in year 2 of the life of the assets.

**TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 12-00049
SECOND DISCOVERY REQUEST OF THE
CITY OF CHATTANOOGA**

Responsible Witness: Gary M. VerDouw

Other Participating Employees: None

Question:

3. Please refer to Petitioner's Exhibit BT-1-Business Transformation Summary Costs-GMV, Schedule BT-1.1, pages 1-4, and the implementation dates on page 34 of the direct testimony of TAWC witness Gary M. VerDouw.
 - a. Provide any available updates of the amounts shown on each page of the Exhibit and an explanation for the change.
 - b. Provide TAWC's most current expected implementation date for each system.

Response:

- a. There are no updates for the budgeted amounts shown on each page of the Exhibit.
- b. The most current expected TAWC implementation dates for each system is as follows:
 - a. ERP – August 1, 2012 (go live occurred as planned)
 - b. EAM – May, 2013
 - c. CIS – May, 2013
 - d. Kronos Time management (October, 2013).

**TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 12-00049
SUPPLEMENTAL DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION**

Responsible Witness: Linda C. Bridwell

Question:

100. Refer to the Rate Base Summary on Exhibit RB-1-Summary. Specifically refer to the Utility Plant Acquisition Adjustment of \$39,920 on line 27. Explain the source, nature and purpose of this Amount. Also, provide a copy of the accounting entry recording the acquisition along with the determination and approval for its amortization.

Response:

The source of the Utility Plant Acquisition Adjustment of \$39,920 on line 27 of the Company's Exhibit RB-1-Summary is the 13-month average for the balance of account 186702 DSN – Asset Premium, as forecasted on Schedule EXP-17.1. (Please see Schedule EXP-17.1, in the file "Exhibit Support – TN Capital through 3-31-13.xlsx", tab "EXP-17.1 Amort Activ & Balances").

The nature of this entry is related to the premium paid for certain properties in Suck Creek. Please refer to the attachment for the accounting entry.

Determination of the amortization followed Docket 08-00039 at the TRA. On page 7 of the motion by TRA Director Roberson in that docket dated 9/18/2008, and on page 46 of the TRA's final order in that docket, the TRA recognized the utility plant acquisition adjustment as a rate base reduction, with an amortization reflected in the future balance. The amortization is at a 10-year rate, and was calculated commencing in October 2008.

Tennessee-American Water
Suck Creek Acquisition
For the period ending December 31, 2006

**TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 12-00049
SUPPLMENTAL DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION**

Responsible Witness: Donald J. Petry

Question:

101. Refer to the Excel Workbook "TN Trial Bal and Rate Base per Books 123111.xls" that was provided along with the Company's filing. Please provide this same trial balance (with accompanying tabs) for the Company's trial balance at December 31, 2006, 2007, 2008, 2009, and 2010.

Response:

Please refer to the attached files. Because the response to this request represents over 1000 pages, it has only been provided in electronic format.

**TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 12-00049
SUPPLMENTAL DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION**

Responsible Witness: Linda C. Bridwell

Question:

102. Refer to the Company's response to MFR #52 regarding the deployment of special (investment) projects from January 2012 through November 2013. Provide the source and support for the Company's monthly special project additions. For example, in August 2012, the Company's response indicates that \$3,001,730 will be added for Business Transformation – provide the source and support for this amount.

Response:

The deployment or in-service timing of the Company's investment projects was determined through the estimates of the Company's professional engineers.

The deployment timing of the company's Business Transformation software assets was determined by the Business Transformation project managers.

Please refer to the attachment.

SUPPLEMENTAL DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION**

Responsible Witness: Linda C. Bridwell

Question:

105. Refer to Company Exhibit RB-1-Summary-LCB. We are unable to locate Exhibit RB-4-Capital Lease-LCB, Exhibit RB-7-Accum Amort of Cap Lease-LCB, Exhibit RB-12-Unamort ITC-LCB, and Exhibit RB-13-UPAA-LCB that are shown in the Schedule Reference column. Please provide a copy of these exhibits or provide their location in the Company's filing.

Response:

Please refer to the attachment for a cross-reference table indicating the location of the items.

Tennessee American Water

SUPPLEMENTAL DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE PROTECTION DIVISION**

Responsible Witness: Gary M. VerDouw

Question:

106. Please provide all documentation regarding the estimate of savings for regulated and non-regulated American Water Works affiliates from the Business Transformation project as disclosed to the Board of Directors of American Water Works in May, 2010. See page 63 of the Order of the Public Utilities Commission of California for California American Water Company, Application 10-07-007/Application 11-09-016, June 14, 2012. For ease of reference an excerpt of the Order is attached.

Response:

Please refer to the confidential attachment. **This CONFIDENTIAL INFORMATION is being submitted UNDER SEAL.** Please note that the preliminary analysis in the referenced attachment speaks of costs and benefits – not costs and savings. The documents were intended to be directional, preliminary assessments to assist American Water management in identifying potential benefit opportunities that could be enabled by the BT program. The document was not intended to quantify expected BT savings and, thus, is of very limited predictive value.

Moreover, please look to the other slides of the May 2010 presentation to understand how preliminary the projections were at that time. For example, page 2 shows that the software vendor had just been chosen and that the system implementer had not yet been chosen at that time. Page 11 shows that work on the ERP system was not even scheduled to begin until September 2010 and would run for 24 months beyond that. Work on EAM and CIS was not then targeted to commence until September 2011 and was expected to take another 37 months.

Please also see TAWC's response to Item # 107 of this same data request for a more recent summary of the BT cost and benefit estimates.

Question:

107. Please provide all documentation and supporting workpapers for any savings or benefits specifically for Tennessee American and/or Tennessee ratepayers as a result of the investment in Business Transformation as estimated and/or prepared by TAWC, American Water Works Service Company, American Water Works Company or by a third party.

Response:

As discussed in the direct testimony of Deron Allen, Gary VerDouw, and Kevin Rogers, the Company routinely reviews opportunities to control costs and create efficiencies in its operations, and recognizes the importance of reducing the level of rate increases experienced by ratepayers. Please see the direct testimony of Deron Allen pp. 8-12, Gary VerDouw pp. 35-37, and Kevin N. Rogers pp. 5-7. To that end, the Company is committed to controlling costs and routinely pursues opportunities to increase productivity within the business. For example, the anticipated changes resulting from the implementation of the Business Transformation ("BT") program have provided TAWC with an opportunity to restructure its labor force, which allowed TAWC to reflect a reduction of approximately \$296,000 in its test year level of labor related O&M expenses.

Please also refer to the confidential attachments. **This CONFIDENTIAL INFORMATION is being submitted UNDER SEAL.** While TAWC customers will benefit from additional efficiencies and benefits of the Business Transformation program, American Water and TAWC are unable to confirm at this time the amount of potential benefits that may be realized as a result of BT. As noted on page 20 of the attachment, at the time that document was prepared (April 2011), it was anticipated that by this time the BT program would be approximately 75% complete, American Water would have about 90% confidence in the estimated costs, and 75% confidence in the estimated benefits that may result from BT for American Water. As even the attached the documents indicate, at this time, American Water and TAWC are unable to confirm the amount of potential benefits that may be realized as a result of BT. However, as quantifiable benefits are realized, those benefits will accrue over time and, all other things being equal, will mitigate future O&M increases once employees are fully trained on the system and the systems are in place and fully functioning.

Question:

108. Please provide the jurisdiction/public service commission and case number in which any regulated affiliates of American Water Works Company has supplied testimony, exhibits and workpapers in which the affiliate has submitted estimates of the benefits and savings expected by the affiliate as a result of the investment in Business Transformation.

If such material was designated confidential and not publicly available, please provide any confidential testimony, exhibits and workpapers filed by any regulated American Water Works Company affiliate submitted for the purpose of providing estimates of the benefits and savings expected by the affiliate as a result of the investment in Business Transformation. In responding to this request, the Company may limit itself to proceedings which have begun, are ongoing or were concluded within a twelve month period ending July, 1 2012.

Response:

Responsible Witness: Donald J. Petry

Question:

109. Refer to Exhibit REV-3-Revenue by Class-DJP, Schedule REV-3.1 for the Chattanooga Residential Operating Revenue Price-Out. Specifically refer to the test period and attrition period number of bills for 5/8" monthly service of 720,896 and 732,821 - an increase of 11,925 bills.

Explain how the Company was able to increase the number of total bills for 5/8" monthly service by 11,925 from the end of the test period while only increasing the monthly number of customers by 45 according to the Company's response to TRA data request 1-17.

If the Company's customer growth of 11,925 bills for 5/8" month service is due to an error, please provide corrected supplemental sheets to Exhibit REV-3.

Response:

In the normalized year there were 540 customers added to the test year, the customer growth was then annualized to reflect monthly bills. The annualized customer growth for the normalized year resulted in an additional 6,480 bills. Also, for the attrition year there were 495 additional customers through the attrition period ending November 30, 2013, which resulted in an increase of 5,445 additional bills for the eleven months of 2013.

**TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 12-00049
SUPPLEMENTAL DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION**

Responsible Witness: Don Petry

Question:

110. Refer to Exhibit REV-I-Summary-DJP, Schedule REV-I.I. Specifically refer to Line 30, Sewer Billing Revenues. Explain why Sewer Billing Revenues under current rates of \$596,098 is equal to Sewer Billing Revenues under proposed rates of \$596,098 when the Company has proposed to increase the rates for Sewer Billing Revenues and Disconnects. If the Company's Sewer Billing Revenue under current rates is incorrect, provide a new price-out of Sewer Billing Revenues at current rates using the current Meter Read Rate of \$0.02 per bill and the current disconnect rate of \$15.00.

Response:

See Exhibit REV-2-Other Revenue-DJP, Schedule REV-2.1, WP1. The section for Oth Rev-Collect for Others details this adjustment. Basically, the adjustment reflects test year services of billing, collecting, and shutting off non-pay sewer customers at a rate of \$.405 per bill being discontinued. It is being replaced by providing water usage data at \$.02 per bill and non-pay sewer shut offs at \$31 per shut off.

Test Year Billing, Collecting, Shut offs	\$447,057
Billing, Collecting, Shut offs	-447,057
Water Usage Data	22,077
Third Party Reconnection	574,000
Attrition Year bills for water usage data	<u>21</u>
	\$596,098

The new price-out of \$.02 per bill for usage data and the disconnect rate of \$15 were approved after the case was filed in preparation of government authorities transitioning from the billing, collecting, and shut off fee to the usage data and shut off fees. There have not been any contracts signed and therefore, no customers billed the new rates for usage data (\$.02) or shut off (\$15).

Question:

111. Refer to ExhibitREV-3-Revenue by Class-DJP, Schedule REV-3.1, Workpaper #15 regarding billing credits totaling \$105,189 for the test period. Provide the source and support for these amounts as well as the associated volumes.

Response:

The source of this information is the Company's billing records. Please refer to Workpaper #15 for the volume associated with the billing credits. The amount totals 13,163 CCF. In addition, please refer to the supporting documentation attached to this response.

**TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 12-00049
SUPPLEMENTAL DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION**

Responsible Witness: Donald J. Petry

Question:

112. Refer to Exhibit REV-6-OWU Annualization-DJP, Schedule REV-6.2, Workpaper 1, Pages 3 and 4 regarding the annualization of revenues from Sale for Resale customers. Explain how the Company is able to alter the test period rates to these customers outside of a TRA docket. Also explain how the Company is able to provide service to Catoosa Utility District or the Town of Signal Mountain when the Company has no Contract in place per the Company's response to CAPD DR 1-11.

Response:

The Sale for Resale rates were based on the order received from TRA docket # 10-00189. The contracts vary as to notification requirements for rate increases (i.e. Fort Oglethorpe requires 12 months written notice of any increase).

The Company is currently negotiating contracts with Catoosa and Signal Mountain. If the parties cannot reach an agreement, the Company will place the customers on the Sales for Resale tariff rate.

**TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 12-00049
SUPPLEMENTAL DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION**

Responsible Witness: Don Petry

Question:

113. Refer to Exhibit REV-2-Other Revenue-DJP, Schedule REV-2.1, Workpaper 1, Page 2 of 2 regarding the Company's Forfeited Discount adjustment. Explain why there are no test period Forfeited Discounts in the Company's Lone Oak and Suck Creek jurisdictions on this schedule, even though there are disconnections for non-payment in these jurisdictions on this same schedule.

Response:

The schedule was based on general ledger balances. Lone Oak and Suck Creek late fees are included in Chattanooga on the general ledger.

**TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 12-00049
SUPPLEMENTAL DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION**

Responsible Witness: Linda C. Bridwell

Question:

114. Please provide all documents and workpapers supporting the calculations on Lines 6 and 14 of Exhibit 6 of Ms. Bridwell's testimony (Excel file Support Services Expense.xlsx; ProForma Adjustment of Support Services Expense). Additionally, please provide access to the columns hidden in the first spreadsheet sent, including formulas.

Response:

Please see the attached excel files for the workpapers supporting the calculations on Line 6 and 14 of Exhibit EXP-6-SUPPORT SERVICES-LCB of Ms. Bridwell's testimony.

Regarding the access to the columns hidden in the first spreadsheet, please click on the plus sign at the top of the columns and the applicable grouped columns will display.

**TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 12-00049
SUPPLEMENTAL DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION**

Responsible Witness: Gary M. VerDouw

Question:

115. Please provide details and workpapers supporting the internal labor costs delineated on Schedule BT-1.1, including a reconciliation proving that these labor costs are not already currently being recovered by AWWC under current rates (which we understand would occur if any of the employees' prior positions remain open and/or were filled by entry level employees earning significantly less than the Subject Matter Experts ("SMEs") moved to the BT project). More specifically:

- How many employees make up the Internal- Business and Internal- ITS expenditures of \$50,217,502 and \$21,942,489, respectively?
- How many of these employees were included in the forecasts as part of the revenue requirement in the rate case before the BT project started?
- How many of these positions remain open?
- Please support your explanation with data from each of the shared services departments allocated as "Support Services" or "Management Fees" or any other AWWC shared costs allocated to TAWC of head count reports and total salaries before BT, as of 12/31/2010, 12/31/2011, and as of 8/31/2012.

Response:

In response to the first bullet point above, the following full time equivalents (FTEs) were used to estimate the Internal Business and Internal ITS expenditures.

Business Transformation Internal FTEs		
Average FTEs by Year	Business	ITS
2011	75	45
2012	132	54
2013	71	31
2014 (3 months)	50	0

In response to the second bullet point above, there are 61 employees included in the FTE estimates above that were employed by AWWSC prior to the start of the BT project and who charged some portion of their time to TAWC in 2008. Historical labor charges are used as a base for the test year calculation of labor costs when calculating TAWC's revenue requirement.

In response to the third bullet point above, there are 4 positions open. Other positions have been backfilled, utilize contracted services, or responsibilities have shifted to other areas.

In response to the forth bullet point above, please refer to the CONFIDENTIAL attachment. The attachment reflects the number of employees and the total annual salaries of the employees by AWWSC function who charged the BT project within the years of 2010, 2011 and the seven months ended July 31, 2012.

The attachment to the response is CONFIDENTIAL and is provided under separate seal.

Question:

116. Please provide details and workpapers supporting the "Employee Expenses" amount of \$18,997,741 on Schedule BT-1.1, including descriptions of the types of expenditures, who reviews and approves them, and what type of review is performed to ensure that the expenditures are prudent and reasonable.

Response:

Please refer to the CONFIDENTIAL attachment which details the cost category 'Employee Expense' including a brief description of the types of expenditures. All employee expenses follow supervisory review/approval process to ensure that they are prudent and reasonable. For example, employees' expenses are submitted within 30 days after expenses are incurred and provide general ledger account coding and document the business reason for the expenses, e.g., conferences, dues/membership, meals, and employee travel. Approvers (Project Leads and Vice President of Business Transformation) review expenditures timely, including required itemized receipts, for complete and accurate coding and sufficiency of descriptive transaction documentation.

The CONFIDENTIAL attachment is provided under separate seal.

Question:

117. Please provide details and workpapers supporting the "Software" amount of \$28,780,876 on page 1 of Schedule BT-1.1, including descriptions of the types of expenditures, who reviews and approves these expenditures, what type of review is performed to ensure that these expenditures are prudent and reasonable, and whether this amount includes the licensing fees.

Response:

Please refer to the CONFIDENTIAL attachment which details the projected software spend, including a brief description of the expenditures which include licensing fees. The key BT software providers (e.g., SAP, Backoffice, and Success Factors) were selected through a competitive bidding process. The BT team, advisory council members, and other American Water employees, participated in this process. Once the software procurement is negotiated and approved, all software purchased follows American Water's review and approval process, which includes checking the vendor receipt against the contract rate, accurate account coding, and appropriate review and approvals by BT Project Leads and Vice President of Business Transformation (or other appropriate corporate officer).

The CONFIDENTIAL attachment is provided under separate seal.

Question:

118. Please provide a list of which modules of SAP (e.g. HRM, BW, etc.) and other software applications (e.g. Kronos) that were purchased and/or leased by AWWC and included in the BT costs, each module's related cost for the software, and a brief description of the intended function of each module. Please indicate which of these systems will be at the Service Company or at TAWC directly and the date of expected implementation at both companies. Will all AWWC plants use all aspects of the EAM and CIS? If not, please explain which functionality will not be used at TAWC and why.

Response:

All non-SAP software procured has been detailed in response to Item 117 of this same data request. Additional detail of the SAP modules procured by BT and included in the response to Item 117 of this same data request are as follows:

SAP Application Professional
SAP Application Developer
SAP Application Business Expert
SAP Foundation Package
e-Recruiting
SAP CRM and Billing for Utilities
SAP Customer Financial Management for Utilities
SAP AMI Integration for Water Utilities
SAP Meter Data Management for Wholesale Water Utilities
SAP Extended Sourcing for Utilities
SAP Resource & Supplier Management for Utilities
SAP Logistics for Waste & Recycling
SAP Resource & Portfolio Management
SAP Contract Lifecycle Management
SAP Test Data migration Server
SAP Netweaver Process Integration
SAP Solution Manager Adapter
Productivity Pak for SAP Solution Manager
SAP Business Objects BI

Operational Information management Package
SAP Business Objects BPC
SAP Interactive Forms by Adobe
SAP Workforce Scheduling & Optimization by Click
SAP Quality Center by HP
SAP Business Designer by IDS Scheer
SAP Business Publisher by IDS Scheer
SAP Business Enterprise Modeling by IDS Scheer
SAP Business Process Optimization by IDS Scheer
SAP Process Performance Management by IDS Scheer
SAP Talent Visualization by Nakisa (Talent Planning/Viewing/Org Chart)
SAP Invoice Management by Open Text
SAP Productivity Pak by RWD
SAP Productivity Pak Help Launchpad by RWD
SAP Netweaver for Generic EDI by Seeburger

Except for Michigan-American Water Company, which will not be using the new CIS, all of American Water's regulated subsidiaries will be using all aspects of the EAM and CIS.

Question:

119. Please provide details and workpapers supporting the "Contingency" amount of \$14,300,003 on page 1 of Schedule BT-1.1, Line 12, including descriptions of the types of expenditures, who reviews and approves these expenditures to determine whether these expenditures are prudent and reasonable, and when these expenditures are expected to be incurred (before implementation or after implementation of the ERP, EAM, CIS). Furthermore, please provide the expense reports for the "Contingency" amount of \$7,227,333 attributed to the ERP system listed on page 2 of Schedule BT-1.1, Line 12 (e.g. GIL detail or other system-generated report showing all debits and credits to this account and the dates of the transactions).

Response:

The estimated contingency was based on a percentage of internal labor and System Integrator costs for the overall BT project. The \$14.3m is equivalent to approximately 11% of System Integrator and internal labor costs combined. The amount of \$14.3m was split 50% to ERP, 25% to EAM, and 25% to CIS. The System Integrator contract costs support these percentage splits across these work efforts. Contingency is typically not incurred until later in the work effort; as such, no expenses have yet been incurred. The costs that are expected to be incurred and covered through contingency include items such as defects and gap analysis that arise during stabilization. In addition, Kronos (time keeping bolt-on system) was originally scheduled to go live in 2012 as part of the ERP effort, but its integration with Click (work management) will result in a late-2013 implementation and inclusion within the Enterprise Asset Management effort. Approvers will include the Project Leads, Vice President of Business Transformation, and BT Steering Committee.

Question:

120. Please provide details and workpapers supporting the "AFUDC - BT" amount of \$20,238,249 on page 1 of Schedule BT-1.1, Line 15, including descriptions of the types of expenditures, who reviews and approves to determine whether these expenditures are prudent and reasonable, and when these costs were incurred or expected to be incurred for each of the implementations of ERP, EAM, and CIS.

Response:

Please refer to the CONFIDENTIAL attachment, which is provided under separate seal.

**TENNESSEE AMERICAN WATER COMPANY

Question:

121. Please provide details and workpapers supporting the "Total BT Controls/Organizational Integration" amount of \$19,635,353 on page 1 of Schedule BT-1.1, Line 15, including descriptions of the types of expenditures, who reviews and approves to determine whether these expenditures are prudent and reasonable, and when these costs were incurred or expected to be incurred for each of the implementations of ERP, EAM, and CIS.

Response:

Please refer to the CONFIDENTIAL attachment. Expenditures follow the normal American Water supervisory review/approval process to ensure they are prudent and reasonable. For those expenses that are contracted services, the contract review/approval process is followed. AFUDC is calculated through the Utility Plant 'Power Plant' system with oversight by Shared Services UPAA group. The timeline for incurrence of these costs are detailed by year in Schedule BT-1.1

The CONFIDENTIAL attachment is provided under separate seal.

Question:

122. Please provide documents and workpapers supporting the estimated cost savings expected after BT, including how these cost savings were determined and which line item(s) on Schedule BT-1.1 includes these cost savings.

Response:

The decision to move forward with BT was based on a critical need to replace current information technology components that are at or near the end of their useful life. Please refer to the response to Items 106 and 107 of this same data request regarding the anticipated savings from BT. While the company expects to realize additional economic benefits after the BT program, it is unable to identify cost savings for TAW at this time with any reasonable degree of certainty, and so Schedule BT-1.1 does not include estimated costs savings expected after BT.

Question:

123. Please provide a description of the pre-BT and post-BT processes. For example: How have the backoffice processes (e.g. timekeeping, payroll, month-end reconciliation, etc.) changed since the ERP system was implemented? Are they expected to change in the future from their current state? If so, how does AWWC envision these back office functions working after stabilization and when does AWWC expect stabilization to occur?

Response:

Please refer to the CONFIDENTIAL attachment 2 to Item 107 of this same data request, which is a copy of the ITS Comprehensive Planning Study dated April 27, 2010 for a description of the pre-BT and post-BT processes. American Water anticipates that ERP stabilization to continue through February of 2013 and estimated that CIS/EAM stabilization to continue through March 2014.

Question:

124. Please provide supporting documentation and workpapers of the vendors used for the External Labor costs of \$110,076,964 and \$7,572,960, lines 4-5 on page I of Schedule BT-1.I, including copies of contracts with all vendors used, what function they support on the BT project, and the expenses to date for each vendor. Specifically, each contract should indicate what basis is the payment to Accenture and other vendors helping with the BT project (e.g. cost-plus, fixed cost, etc.).

Response:

Please refer to the CONFIDENTIAL attachment which contains information on External Labor costs including budget, actual and functional area of support. Due to the extensive scope and appendices, many of these contracts even in electronic format exceed 14 Megabytes of size and in their entirety represent thousands of pages. Additionally, these contracts are confidential. Because of the voluminous nature of the request for copies of all vendor contracts, this information will be made available for review electronically at the TAW Chattanooga office at a time convenient to CAPD and the company.

The attachment is CONFIDENTIAL and is provided under separate seal.

Question:

127. In the reconciliation request for CIS, please indicate why the estimated costs associated with the Customer Information System ("CIS") went down? For example, was functionality originally budgeted removed from the specifications? If so, what functions were removed from the implementation?

Response:

The estimated costs for CIS decreased due to allocations of costs across the work efforts. The System Integrator work effort costs support an allocation of fifty percent to ERP, and 25% to each EAM and CIS. These costs are detailed by milestone in Appendix L, which is included in the CONFIDENTIAL attachment to the response to Item 124 of this same data request. The adjusted budgeted costs of CIS are not based on reductions from the original scope.
