| NOTE: (1) CLEC should contact its contract negotiator if it prefers the "regional" OSS charges as offered by AT&T. The OSS charges currently contained in this rate exhibit are the PSC state ordered "state specific" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has an interconnection contract established in each of the 9 states.                                                     |                                                                                                      |         |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                       |        |           |              |       |                         |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |       |  |  |  |
| NOTE: (2) Any element that can be ordered electronically will be billed according to the SOMECH rate listed in this category. Please refer to AT&T's Local Ordering Handbook (LOH) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the LOH, the listed SOMECH rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to AT&T. |                                                                                                      |         |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                       |        |           |              |       |                         |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |       |  |  |  |

| NOTE: (1) CLEC should contact its contract negotiator if it prefers the "regional" OSS charges as offered by AT&T. The OSS charges currently contained in this rate exhibit are the PSC state ordered "state specific" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states.                                                    |                                                                                                      |         |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                      |       |           |              |       |                         |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |       |  |  |  |
| NOTE: (2) Any element that can be ordered electronically will be billed according to the SOMEC rate listed in this category. Please refer to AT&T's Local Ordering Handbook (LOH) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the LOH, the listed SOMEC rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to AT&T. |                                                                                                      |         |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                      |       |           |              |       |                         |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |       |  |  |  |

| NOTE: (1) CLEC should contact its contract negotiator if it prefers the "regional" OSS charges as offered by AT&T. The OSS charges currently contained in this rate exhibit are the PSC state ordered "state specific" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has an interconnection contract established in each of the 9 states.                                                     |                                                                                                       |         |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                       |        |           |              |       |                         |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |       |  |  |
| NOTE: (2) Any element that can be ordered electronically will be billed according to the SOMECH rate listed in this category. Please refer to AT&T's Local Ordering Handbook (LOH) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the LOH, the listed SOMECH rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to AT&T. |                                                                                                       |         |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                       |        |           |              |       |                         |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |       |  |  |

| NOTE: (1) CLEC should contact its contract negotiator if it prefers the "regional" OSS charges as offered by AT&T. The OSS charges currently contained in this rate exhibit are the PSC state ordered "state specific" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has an interconnection contract established in each of the 9 states.                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                       |         |      |       |       |           |                    |       |                               |                                  |                                      |                                                           |                                                             |                                                                |                                                                  |       |  |  |  |
| NOTE: (2) Any element that can be ordered electronically will be billed according to the SOMEC rate listed in this category. Please refer to AT&T's Local Ordering Handbook (LOH) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the LOH, the listed SOMEC rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to AT&T. |                                                                                                                                                                                                                                                                                                                                                                                                                                                       |         |      |       |       |           |                    |       |                               |                                  |                                      |                                                           |                                                             |                                                                |                                                                  |       |  |  |  |
| NOTE: (3) OSS - Manual Service Order Charge, Per Element - UNE Only **Please see applicable rate element for OSS charge                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                       |         |      |       |       |           |                    |       |                               |                                  |                                      |                                                           |                                                             |                                                                |                                                                  |       |  |  |  |
| NOTE: (4) The actual state specific electronic OSS rate ordered by the Tennessee Regulatory Authority is \$0.00. Recovery of OSS interfaces is built into the recurring charges of the elements ordered.                                                                                                                                                                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                       |         |      |       |       |           |                    |       |                               |                                  |                                      |                                                           |                                                             |                                                                |                                                                  |       |  |  |  |
