RE: *Petition for Expedited Review of Growth Code Denial by the Number Pooling Administrator - Arlington Rate Center*  
Docket No 12-00078

Dear Chairman Hill:

Enclosed are the original and four copies of AT&T Communications of the South Central States' *Petition for Expedited Review of Central Office Code Denial*. Copies of the enclosed are being provided to counsel for the Number Pooling Administrator.

We are requesting expedited review of this *Petition* in order to support this customer's plans to grow their business in the Arlington area.

Very truly yours,

*Joelle Phillips*  
Joelle J. Phillips *by Charlotte*  
*by permission*

BEFORE THE TENNESSEE REGULATORY AUTHORITY  
NASHVILLE, TENNESSEE

IN RE:

*Petition for Expedited Review of Growth Code  
Denial by the Number Pooling Administrator –  
Arlington Rate Center*

*Docket No.* \_\_\_\_\_

**PETITION OF AT&T COMMUNICATIONS OF THE SOUTH CENTRAL STATES, LLC  
FOR REVIEW OF CENTRAL OFFICE CODE DENIAL**

AT&T Communications of the South Central States, LLC ("AT&T"), pursuant to rules adopted by the Federal Communications Commission ("FCC") for challenging the decision of the Number Pooling Administrator ("NeuStar"), hereby petitions the Tennessee Regulatory Authority ("TRA") to a review NeuStar's denial of AT&T's application for an NPA-NXX-X in the Arlington rate center in order for AT&T to serve its customer.

1. AT&T is a competitive local exchange carrier providing telecommunications services in Tennessee under the jurisdiction of the TRA.

2. NeuStar is an independent, non-governmental entity responsible for administering and managing numbering resources. See C.F.R. Section 52.13(a) and (b).

3. This petition is based on the FCC Rules found at 47 C.F.R. § 52.15(g)(3)(iv) and pursuant to the Thousands-Block Number (NXX-X) Pooling Administration Guidelines ("TBPAG") and the Central Office Code (NXX) Assignment Guidelines published by the Industry Numbering Committee ("INC"). On March 31, 2000, the FCC issued a *Report and Order and Further Notice of Proposed Rule Making* related to numbering resource optimization ("FCC 00-104" or the "March Order"). On December 29, 2000, the FCC issued a *Second Report and Order*, on

*Reconsideration* in CC Docket No. 96-98 and CC Docket No. 99-200, and *Second Further Notice of Proposed Rulemaking* in CC Docket No. 99-200 (“FCC 00-249” or the “December Order”). The Orders addressed issues and strategies relating to the efficient use of numbering.

4. In FCC 00-104 and FCC 00-429, the FCC announced rules and sought comments to implement uniform standards for numbering resources, to increase efficiency in the use of existing telephone numbers and to slow further exhaustion of the North American Numbering Plan.

5. FCC 00-104 adopted a revised standard for assessing a carrier’s need for numbering resources by requiring carriers to report rate center based utilization to NeuStar. The FCC further required that, to qualify for new numbering resources, applicants must prove that their existing inventory in the said rate center will exhaust within six months of the application.

6. In addition to the months-to-exhaust (“MTE”) threshold, the FCC also requires carriers to show rate center utilization of 75% to receive the additional numbering resources in said rate center.<sup>2</sup> Based on the FCC’s orders, carriers must meet both the six-month MTE requirement and the utilization threshold on a rate center basis to obtain additional number resources.<sup>3</sup>

7. An AT&T customer, Rich Products Corporation (“Rich Products”), has requested 100 numbers, NOT in a 0, 1 or 9 block in the Arlington rate center. Rich Products needs these numbers for additional growth at this site. A copy of the letter outlining the request is attached as Exhibit A. AT&T has developed a plan that the customer will implement so that all 100 numbers will be assigned and activated within 180 days.

---

<sup>2</sup> FCC 00-249 at Paragraph 22; FCC 01-362 Paragraphs 50-52.

<sup>3</sup> *Id.* at Paragraph 29.

8. The Arlington rate center of the 901 Area Code converted to Number Pooling on June 10, 2002. Consequently, normal numbering resource acquisition by a Number Pooling carrier is gained through an interface with NeuStar<sup>4</sup>. According to NeuStar, based on the 2012-1 NRUF and NPA Exhaust Analysis dated April 2012, the projected exhaust date of the 901 NPA is the Third Quarter of 2030. Therefore, granting AT&T's request for numbering resources would not materially impact the exhaustion of available numbers in the 901 NPA.

9. On August 17, 2011, AT&T submitted a "Thousand Block Application Form Part 1A", and a "Months to Exhaust and Utilization Certification Worksheet – TN Level" to NeuStar for a thousand-block in the Arlington rate center to satisfy the customer request. A copy of this application is attached as Exhibit B.

10. During the session via the Pooling Administration System ("PAS"), AT&T received an error message instructing to "Return to the Months To Exhaust Form", the request would not process through the system without a state waiver. The error message is included in Exhibit B. NeuStar applies the FCC rules and INC Guidelines. Per Paragraphs 5 and 6, the rules require that a block holder requesting growth resources demonstrate that existing resources within the rate center will both exhaust within 6 months and meet the 75% utilization level. The error message indicated that neither threshold was met.

11. Although AT&T has adequate telephone numbers to satisfy incremental requests for numbers without receiving a new block of numbers, AT&T's existing resources cannot satisfy this customer's specific need.

---

<sup>4</sup> The federal rules in 47 C.F.R. 52.15 generalize responsibilities of NANPA and the Pooling Administrator under the heading "Central office code administration".

12. As a result of the denial for additional numbering resources, AT&T is unable to provide the telecommunications services requested by its customer.

13. In setting its policy for the assignment of telephone numbers, the FCC designated NANPA and NeuStar, as the Pooling Administrator, to handle numbering resource administration.<sup>5</sup> If a numbering resource administrator withholds numbering resources from a carrier, the FCC has specifically authorized state commissions to overturn those decisions for reasonable cause. That authority is specifically set out in the relevant FCC Rule, 47 C.F.R. §52.15 (g)(3)(iv), which states:

The NANPA shall withhold numbering resources from any U.S. carrier that fails to comply with the reporting and numbering resource application requirements established in this part. The NANPA shall not issue numbering resources to a carrier without an OCN. The NANPA must notify the carrier in writing of its decision to withhold numbering resources within ten (10) days of receiving a request for numbering resources. The carrier may challenge the NANPA's decision to the appropriate state regulatory commission. **The state commission may affirm, or may overturn, the NANPA's decision to withhold numbering resources from the carrier based on its determination of compliance with the reporting and numbering resource application requirements herein.**

The FCC also clarified in the FCC 00-249 Order that carriers may appeal to states using a “safety valve” mechanism.<sup>6</sup> The FCC contemplated the need for, and gave structure to states to respond when denials failed to consider a “specific customer request”.

---

<sup>5</sup> 47 C.F.R. § 52.15(a) states: “Central Office Code Administration shall be performed by the NANPA, or another entity or entities, as designated by the Commission.” 47 C.F.R. § 52.20(d) states: “The Pooling Administrator shall be a non-governmental entity that is impartial and not aligned with any particular telecommunications industry segment, and shall comply with the same neutrality requirements that the NANPA is subject to under this part.”

<sup>6</sup> See Paragraphs 57-66.

14. An essential aspect of the “safety valve” provision is the accelerated response that is provided for in the FCC’s order: States should act upon such a request in most instances in 10 business days, as noted by the FCC.

Finally, we recognize that in many instances, the failure to address a request for additional numbering resources can impair a carrier’s ability to stay in or expand business. We therefore direct states to act on carrier requests for a safety valve as expeditiously as possible. Although we do not establish a specific time limit for states to act on these requests, we believe that, in most instances, 10 business days from receipt of a request that the state determines to be sufficiently detailed and complete will be sufficient time to review and act upon safety valve requests. If a state does not reach a decision on a safety valve request within a reasonable timeframe, carriers may submit such requests to the Commission for resolution. In addition, carriers may appeal to the Commission safety valve decisions made by states, and we delegate authority to the Common Carrier Bureau to review such petitions as expeditiously as possible.<sup>7</sup>

15. AT&T seeks the Authority’s review of NeuStar’s decision to withhold resources from it on the grounds that it: (1) violates the orders and rules of the FCC which grant carriers access to numbering resources to meet specific customer demands upon a sufficient showing of need and (2) interferes with AT&T’s ability to serve its customer. As the FCC has stated, “Under no circumstances should consumers be precluded from receiving telecommunications services of their choice from providers of their choice for want of numbering resources.”<sup>8</sup> By refusing to grant numbering resources to meet this customer’s needs, the decision prevents the customer from obtaining the service of its choice from its carrier of choice, AT&T.

16. Included with this Petition is a draft approval order for the Authority’s consideration.

---

<sup>7</sup> *Id.* at Paragraph 66.

<sup>8</sup> FCC 00-429 at Paragraph 61.

**Relief Sought**

For these reasons, AT&T respectfully requests the TRA expeditiously review NeuStar's decision denying AT&T's request for additional numbering resources and order NeuStar to provide the requested numbers to meet the specific requirements of AT&T's Arlington customer.

Respectfully submitted,

AT&T COMMUNICATIONS OF THE SOUTH CENTRAL  
STATES, LLC

# EXHIBIT A

July 6th, 2012

Rich Products Corporation  
5885 Jetway Drive  
Arlington, TN 38002

AT&T Number Administration/Code Administration;

This Letter of Intent represents a request by Rich Products Corporation for 100 numbers for ADL Service. Rich Products Corporation intends to order service in the Arlington rate center, on the MNPHITNMAX6Z switch pending AT&T's successful completion of the required testing. Rich Products Corporation intends to activate these numbers within 180 days from AT&T's receipt of the numbers.

Rich Products Corporation currently has an existing network configuration and therefore technical restrictions exist in the following blocks:

Block 0 (0000-0999): conflicts with PBX  
Block 1 (1000-1999): conflicts with PBX  
Block 2 (2000-2999):  
Block 3 (3000-3999):  
Block 4 (4000-4999):  
Block 5 (5000-5999):  
Block 6 (6000-6999):  
Block 7 (7000-7999):  
Block 8 (8000-8999):  
Block 9 (9000-9999): conflicts with PBX

Rich Products Corporation has additional growth at this site which requires an additional 100 DID numbers along with the upgrading of PBX equipment. The new PBX equipment will be Cisco and cannot handle the 0000, 1000, or 9000 ranges.

Sincerely,

Jeffrey Schaefer

Manager-Code 07/11/2012  
Administration

Title Date

**Instructions for filling out each Section of the Part 1A form:**

Section 1.1 Contact information requires that Service Providers supply under "Block Applicant" the company name, company headquarters address, a contact within the company, an address where the contact person may be reached, in addition to the correct phone, fax, and e-mail address. The Pooling Administrator section also requires the Service Provider to fill in the Pooling Administrator's name, address, phone, fax and e-mail.

Section 1.2 Service Providers who need a thousands-block assignment or for an Location Routing Number (LRN) are required to fill in this section. If needed for an LRN, a CO Code Application needs to also be submitted to the PA. The Service Provider should supply the Numbering Plan Area (NPA); the Local Access Transport Area (LATA), which is a three-digit number that can be found in the Telcordia<sup>TM</sup> LERG<sup>TM</sup> Routing Guide. The Operating Company Number (OCN) assigned to the service provider and the OCN its parent company. An OCN is a four-character alphanumeric assigned by Telcordia<sup>TM</sup> Routing Administration (TRA). In addition, the number of thousands-blocks requested should be supplied. The Switch Identification as well as the city or wire center name, rate center, rate center sub zone, homing tandem and CLLI<sup>TM</sup> tandem of the facilities based provider<sup>xi</sup>. Explanations of these terms may be found in the footnotes.

Section 1.3 The date the Service Provider completes the application should be entered in this section, as well as the Effective Date of the requested thousands-block.

Section 1.4 Service Providers should indicate their type, e.g., local exchange carrier, competitive local exchange carrier, interexchange carrier, CMRS. They also indicate the primary type of business in which the numbering resource is to be used. Service Providers also may indicate their preference for a particular thousands-block, e.g., 321-9XXX, or indicate any thousands-blocks that may be undesirable, e.g., 321-6XXX.

Section 1.5 Service Providers indicate the type of request. Initial requests are for first applications for thousands-blocks in a rate center, growth for additional thousands-blocks in a rate center in which the applicant already has numbering resources, and provide the required evidence as ordered by the FCC.

Section 1.6 Service Providers must indicate the updated/current information in regards to contaminated TNs on the block they are returning to the pool. Blocks with over 10% contamination (101 TNs or more) shall not be returned to the pool unless they meet criteria outlined in section 9.1.2 of these Guidelines. If the block being returned is over 10% contaminated the PA shall seek a new block holder. If question c and/or d have a response of No, the request for return shall be denied. The thousands-block applicant certifies veracity of this form by signing their name, and providing their title and date.

**Foot Notes:**

<sup>i</sup> Identify the type of change(s) in Section 1.5.

<sup>ii</sup> The Pool Administrator is available to assist in completing these forms.

<sup>iii</sup> A CO Code application will also need to be submitted to the PA.

<sup>iv</sup> Operating Company Number (OCN) assignments must uniquely identify the applicant. Relative to CO Code assignments, NECA-assigned Company Codes may be used as OCNs. Companies with no prior CO Code or Company Code assignments should contact NECA (800 524-1020) to be assigned a Company Code(s). Since multiple OCNs and/or Company Codes may be associated with a given company, companies with prior assignments should direct questions regarding appropriate OCN usage to (TRA) (732-699-6700).

<sup>v</sup> This is an eleven-character descriptor of the switch provided by the owning entity for the purpose of routing calls. This is the 11 character CLLI<sup>TM</sup> code of the switch /POL.

<sup>vi</sup> Rate Center name must be a tariffed Rate Center.

<sup>vii</sup> Acknowledgment and indication of disposition of this application will be provided to applicant within seven calendar days from the date of receipt of this application. An incomplete form may result in delays in processing this request.

<sup>viii</sup> Please ensure that the NPA-NXX of the LRN to be associated with this block(s) is/will be active in the network prior to the effective date of the block(s).

<sup>ix</sup> Select if you are the current Block Holder.

<sup>x</sup> Select if you are not the current Block Holder

ORDER APPROVING REQUEST OF AT&T COMMUNICATIONS OF THE SOUTH CENTRAL STATES,  
LLC FOR EXPEDITED REVIEW OF GROWTH CODE DENIAL AND REVERSING CENTRAL OFFICE  
CODE DENIAL

---

This matter came before the Tennessee Regulatory Authority ("TRA" or the "Authority for consideration of the *Petition for Expedited Review of Central Office Code Denial* filed by AT&T Communications of the South Central States, LLC ("AT&T"). After consideration of the facts contained in the record and the applicable law, TRA approves the request of AT&T and reverses the Pooling Administrator's denial of AT&T's request for additional numbering resources.

**IT IS THEREFORE ORDERED THAT:**

1. The Pooling Administrator's decision to deny AT&T Tennessee's request for additional numbering resources is reversed as stated herein.
2. The Pooling Administrator is ordered to assigned request for the Arlington Rate Center served by Switch Identification No. MMPHTNMAX6Z.
