RE: DOCKET NO. 12-00079

According to the State Comptroller's Office your company was sent a tax equity payment in June 2012 resulting from Tennessee Code Annotated § 67-6-222. While this legislation entitles your company to receive such payments, it also requires that your company flow through the savings in the form of price reductions to business and/or interconnection customers. Specifically Tenn. Code Ann. § 67-6-222 (c) states in pertinent part:

To the extent that a person engaged in the business of providing telecommunications services subject to tax under title 67, chapter 6 experiences a net tax savings solely as a result of receiving a payment under subsection (b), such net tax savings shall inure to the benefit of business customers of such person through an adjustment in the price of telecommunications services provided by such person, including business interconnection services....Subsequent price adjustments shall be effective as of October 1, 2003, and as of October 1 of each year thereafter, based on the actual payment received by each company under subsection (b) with respect to the immediately preceding June 30 payment date taking into account the cumulative amount of price adjustments previously implemented.

In essence, this statutory provision requires your company to reduce rates for business and/or interconnection services by the net amount of the tax equity payment received from the State Comptroller's Office in June, 2012. Since these annual rate adjustments are required to become effective October 1, 2012 please file appropriate tariffs reflecting such annual price reductions with the Tennessee Regulatory Authority no later than August 15, 2012. The reductions can be in the form of promotions, waived recurring charges, rate reductions, etc., but must be made during the period of October 1, 2012 through September 30, 2013. If the reductions (promotions, waived charges, reduced rates ...) placed into effect for last year's tax equity payments are still in place, then

continuing those reductions may satisfy the revenue reductions required for the period October 1, 2012 thru September 30, 2013.

These filings should also include a detailed price-out (units \* prices) of the calculations used in determining the flow-through amount of the tax equity payment received. Again the tariffs are required by statute to become effective October 1, 2012. It is requested that this information be provided no later than 2:00 P.M. on August 15, 2012, and reference Docket No. 12-00079 on the response. In accordance with TRA rules, submit either thirteen (13) written copies of your response or four (4) written copies and an electronic version.

If you have any questions concerning this matter, contact Patsy Fulton at 615-741-2904 ext. 193 or Michelle Ramsey at extension 164.

Sincerely,

David Foster by mr

David Foster, Chief  
Utilities Division

RE: DOCKET NO. 12-00079

According to the State Comptroller's Office your company was sent a tax equity payment in June 2012 resulting from Tennessee Code Annotated § 67-6-222. While this legislation entitles your company to receive such payments, it also requires that your company flow through the savings in the form of price reductions to business and/or interconnection customers. Specifically Tenn. Code Ann. § 67-6-222 (c) states in pertinent part:

To the extent that a person engaged in the business of providing telecommunications services subject to tax under title 67, chapter 6 experiences a net tax savings solely as a result of receiving a payment under subsection (b), such net tax savings shall inure to the benefit of business customers of such person through an adjustment in the price of telecommunications services provided by such person, including business interconnection services....Subsequent price adjustments shall be effective as of October 1, 2003, and as of October 1 of each year thereafter, based on the actual payment received by each company under subsection (b) with respect to the immediately preceding June 30 payment date taking into account the cumulative amount of price adjustments previously implemented.

In essence, this statutory provision requires your company to reduce rates for business and/or interconnection services by the net amount of the tax equity payment received from the State Comptroller's Office in June, 2012. Since these annual rate adjustments are required to become effective October 1, 2012 please file appropriate tariffs reflecting such annual price reductions with the Tennessee Regulatory Authority no later than August 15, 2012. The reductions can be in the form of promotions, waived recurring charges, rate reductions, etc., but must be made during the period of October 1, 2012 through September 30, 2013. If the reductions (promotions, waived charges, reduced rates ...) placed into effect for last year's tax equity payments are still in place, then

continuing those reductions may satisfy the revenue reductions required for the period October 1, 2012 thru September 30, 2013.

These filings should also include a detailed price-out (units \* prices) of the calculations used in determining the flow-through amount of the tax equity payment received. Again the tariffs are required by statute to become effective October 1, 2012. It is requested that this information be provided no later than 2:00 P.M. on August 15, 2012, and reference Docket No. 12-00079 on the response. In accordance with TRA rules, submit either thirteen (13) written copies of your response or four (4) written copies and an electronic version.

If you have any questions concerning this matter, contact Patsy Fulton at 615-741-2904 ext. 193 or Michelle Ramsey at extension 164.

Sincerely,

David Foster by mr

David Foster, Chief
