Re: Docket No. 13-00017

Dear Ms. Dillon:

Attached to the email please find a Response to the Motion to Dismiss and Affidavit (both in PDF form) to be filed on behalf of Emerson Properties, LLC. We are also submitting via overnight delivery the originals and 4 copies of each. By cover of a copy of this letter, we are providing an electronic (PDF) version of the Answer to counsel for Tennessee Wastewater Systems, Inc and to the Consumer Advocate.

Thank you for your assistance.

Yours very truly,

C. Mark Troutman

TENNESSEE WASTEWATER SYSTEMS, INC.)	
Respondent		

RESPONSE OF EMERSON PROPERTIES, LLC TO THE MOTION TO DISMISS FILED BY TENNESSEE WASTEWATER SERVICES, LLC

Comes Emerson Properties, LLC, ("Emerson") the above named Petitioner, by counsel, and for its response to the Motion to Dismiss filed by Tennessee Wastewater Services, Inc. ("TWSI"), would say as follows:

- 1. In its Petition and Amended Petition filed in this matter, Emerson alleges that cause exists under Rule 1220-04-13-.09 to revoke or terminate the CCN held by TWSI. In support of such assertion, Emerson states the following:
 - (a) that at least since it purchased the subdivision property in February of 2009, TWSI has provided no services to the subdivision or its residents at all and has done nothing to complete the waster treatment facilities and system for the subdivision;
 - (b) that shortly after Emerson purchased the property through the bankruptcy proceedings, TWSI attempted to extract an inappropriate and unfounded payment from Emerson prior to commencing any services;

- (c) that TWSI has allowed its operating permit issued by the Tennessee

 Department of Environment and Conservation to expire and lapse. (See the

 Exhibit A attached hereto showing that the permit lapsed February 28, 2012 and
 containing no indication that any efforts to renew the same were made by TWSI);
 and
- (d) that TWSI has no contractual or other relationship with Emerson, the subdivision property or owners of lots within the subdivision.

 (See paragraphs 7-12 of the Amended Petition filed by Emerson and paragraph 4 of the Affidavit of George L. Potter filed in support hereof).
- 2. TRA Rule 1220-04-13-.06 provides in pertinent part as follows:
 - (4) If wastewater service has not been provided in any part of the area which a public wastewater utility is authorized to serve within two (2) years after the date of authorization for service to such part, whether or not there has been a demand for such service, the Authority may require the public wastewater utility to demonstrate that it intends to provide service in the area or part thereof, or that based on the circumstances of a particular case, there should be no change in the certificated area, to avoid revocation or amendment of a CCN.
- 3. TRA Rule 1220-04-13-.09 provides in pertinent part as follows:
- (1) Where a public wastewater utility through the actions of its owner(s), operator(s), or representative(s) demonstrates an unwillingness, incapacity, or refusal to effectively operate and/or manage the wastewater system(s) in compliance with these rules and Tennessee statutes, or the wastewater system(s) has been abandoned, the Authority shall take appropriate action based on good cause that may include suspension or revocation of a public wastewater utility's CCN, forfeiture of wastewater utility funds, and/or making a claim against the public wastewater utility's financial security.
- (2) Good cause shall include, but is not limited, to the following:
 - (a) A finding by the Authority of material non-compliance by the holder of a CCN with any provisions of Title 65 of the Tennessee Code dealing with obtaining a public wastewater utility CCN or providing wastewater services to customers, or any order or rule of the Authority relating to the same.
 - (b) A finding by the Authority of:

- 1. Fraud, dishonesty, misrepresentation, self-dealing, managerial dereliction, or gross mismanagement on the part of the public wastewater utility;
- 2. Criminal conduct on the part of the public wastewater utility;
- 3. Actual, threatened or impending insolvency of the public wastewater utility;
- 4. Actual or threatened abandonment of the public wastewater utility by its owners or its operators;
- 5. Persistent, serious, substantial violations of statutes or regulations governing the public wastewater utility; or
- 6. Failure or inability on the part of the wastewater utility to comply with an order of any other state or federal regulatory body after the public wastewater utility has been notified of its non-compliance and given an opportunity to achieve compliance.
- 4. Emerson respectful submits that at this point in the proceedings, the Agency should accept as true all well-pleaded facts and all reasonable inferences drawn therefrom alleged by the party opposing the motion. *Timmins v. Lindsey*, 310 S.W.3d 834 (Tenn. Ct. App. 2009). Emerson submits that the allegations of the Petition and Amended Petition clearly set forth a basis for termination or revocation of the CCN and shows that good cause exists under TRA Rule 1220-04-13-.09 for the termination or revocation of the CCN. Emerson submits that the Motion to Dismiss filed by TWSI should be denied.
- 5. As an additional grounds for termination/revocation of the CCN, Emerson points out that TWSI is not presently in compliance with TRA Rule 12-04-13-.10. That rule provides:
 - (1) Title to all physical assets of the wastewater system managed or operated by a public wastewater utility shall not be subject to any liens, judgments, or encumbrances, except as approved by the Authority pursuant to Tenn. Code Ann. § 65-4-109.
- 6. TWSI argues that such is irrelevant and that since it owns the CCN it will in the future own the assets. Such argument ignores that at present, the assets are already encumbered and that it simply cannot comply with this Rule. (See paragraph 5 of the Affidavit of George L. Potter).

- 7. All of the foregoing constitutes good cause under TRA Rule 1220-04-13-.09 for the termination or revocation of the CCN under the circumstances of this case.
- 8. TWSI also references the Chancery Court ruling and argues collateral estoppel bars relitigating certain issues regarding the lack of contract rights and ownership of the waste water treatment facilities. However, contrary to such argument, the Court's ruling attached to the Answer of TWSI provided on page 4 that the Counterclaim filed by Emerson was dismissed because it failed to exhaust its administrative remedies before the TRA such that the Chancery Court lacked subject matter jurisdiction. The Court further states on page 4 of the Order that the dismissal as to Emerson, is "without prejudice to the rights of Emerson Properties, LLC to proceed before the TRA." Accordingly, such ruling does not bar Emerson in these proceedings from raising the issues alleged in its Petition and Amended Petition as grounds for the revocation or termination of the CCN.
- 9. Finally, in the event the CCN is revoked or terminated, Emerson is prepared to enter into an agreement with the Caryville Jacksboro Utility Commission for the providing the management of the sewer treatment system for this subdivision and such Utility Commission is willing to provide such services. (See paragraph 6 of the Affidavit of George L. Potter). Therefore, the rights and interests of the residents of the subdivision will be protected.

WHEREFORE, Emerson submits that its Petition and Amended Petition set forth a sufficient claim for relief for the revocation or termination of the CCN pursuant to TRA Rule 1220-04-13-.09 and that the Motion to Dismiss filed by TWSI should be denied.

Respectfully submitted this 30th day of April, 2013.

Pump and Haul:	⊠ N/A
Reason system cannot be served by public sewer:	A. A. Insurance was,
Distance to the nearest manhole where public sewer service is available:	
When sewer service will be available:	• •
Volume of holding tank: gal.	
Tennessee licensed septage hauler (attach copy of agreement):	
Facility accepting the septage (attach copy of acceptance letter):	
Latitude and Longitude (in decimal degrees) of approved manhole for discharge of septage:	
Describe methods to prevent and respond to any bypass of treatment or discharges (i.e., power failures, equipment failures, he	avy rains, etc.):
Holding Ponds (for non-domestic wastewater only):	
	⊠ N/A
Pond use: ☐ Recirculation ☐ Sedimentation ☐ Cooling ☐ Other (describe): Describe pond use and operation:	
If the pond(s) are existing pond(s), what was the previous use? Have you prepared a plan to dispose of rainfall in excess of evaporation? Yes No If so, describe disposal plan:	
Is the pond ever dewatered? Yes No If so, describe the purpose for dewatering and procedures for disposal of wastewater and/or sludge:	
Is(are) the pond(s) aerated? Yes No	
Volume of pond(s): gal. Dimensions:	
Is the pond lined (Note if this is a new pond system it must be lined for SOP coverage. Otherwise, you must apply for an Underground Injection Control permit.)? Describe the liner material (if soil liner is used give the compaction specifications):	Yes No
C and particularly,	
Is there an emergency overflow structure? Yes No	
If so, provide a design drawing of structure.	
Are monitoring wells or lysimeters installed near or around the pond(s)? Yes No	
If so, provide location information and describe monitoring protocols (attach additional sheets as necessary):

BEFORE THE TENNESSEE REGULATORY AUTHORITY NASHVILLE, TENNESSEE

EMERSON PROPERTIES, LLC Petitioner)	
v.)))	No. 13-00017
TENNESSEE WASTEWATER SYSTEMS, INC. Respondent)	

AFFIDAVIT IN SUPPORT OF RESPONSE OF EMERSON PROPERTIES, LLC TO THE MOTION TO DISMISS FILED BY TENNESSEE WASTEWATER SERVICES, LLC

Comes George L. Potter, who after first being duly sworn, makes oath as follows:

- 1. My name is George L. Potter, I am more than 18 years of age, and this affidavit is based upon my personal knowledge.
 - 2. I am a member and manager of Emerson Properties, LLC, ("Emerson").
- 3. I have read the Petition and Amended Petition filed by Emerson in this matter and believe the contents of the same to be true to the best of my knowledge, information and belief.
- 4. In particular, as set forth in paragraph 9 of the Petition and Amended Petition, shortly after Emerson acquired the assets of the subdivision from the bankrupt prior owner, TWSI refused to release personal property to Emerson and TWSI refused to perform any services or enter into any agreements for services until Emerson paid TWSI \$100,000.00. At that time, Emerson had no relationship with TWSI and owed them no payments for anything. Emerson refused to make such payment and TWSI has performed no services for the subdivision since Emerson acquired it in February of 2009.

- 5. After acquiring the assets of the bankrupt prior owner, Emerson has pledged such assets as collateral for a loan from a bank. The assets mortgaged include the real and personal property that will be used as the sewer treatment system.
- 6. In the event this CCN is revoked or terminated, Emerson is prepared to enter into an agreement with the Caryville Jacksboro Utility Commission for the providing the management of the sewer treatment system for this subdivision and such Utility Commission is willing to provide such services.

Respectfully submitted this 29 day of April, 2013.

GEORGE L. POTTER

Sworn to and subscribed before me this

Maria Can

NOTARYPUBLIC

MY COMMISSION EXPIRES:

day of April, 2013.

CERTIFICATE OF SERVICE

The undersigned hereby certifies that a true and exact copy of the foregoing documents has been served Henry Walker, Bradley Arant Boult Cummings LLP, 1600 Division Street, Suite 700, Nashville, TN 37203, counsel of record for the Petitioner via email and/or United States mail addressed to said counsel at his office with sufficient postage thereon to carry it to its destination.

This is Bolday of Africa

C. Mark Troutman
