RE: *Petition for Expedited Review of Growth Code Denial by the Number Pooling
Administrator Relating to LifePoint Hospitals*
Docket No 13-00061

Dear Chairman Allison:

Enclosed are the original and four copies of AT&T Tennessee's *Petition for Expedited Review of Central Office Code Denial*. Copies of the enclosed are being provided to counsel for the Number Pooling Administrator.

Very truly yours,

Joelle J. Phillips

JJP:ch

BEFORE THE TENNESSEE REGULATORY AUTHORITY
Nashville, Tennessee

In Re: *Petition for Expedited Review of Growth Code Denial by the Number Pooling Administrator Relating to LifePoint Hospitals*

Docket No. _____

PETITION FOR EXPEDITED REVIEW OF CENTRAL OFFICE CODE DENIAL

BellSouth Telecommunications, LLC, dba AT&T Tennessee ("AT&T Tennessee"), pursuant to rules adopted by the FCC for challenging determinations of the Number Pooling Administrator ("NeuStar"), petitions the Tennessee Regulatory Authority (the "Authority") for an expedited review of NeuStar's denial of AT&T Tennessee's application for use of central office code numbering resources in the 615 area code.

AT&T Tennessee respectfully shows the Authority as follows:

1. AT&T Tennessee is a telecommunications company providing intraLATA, local exchange telecommunications services in the Nashville Rate Center.
2. NeuStar is an independent non-governmental entity that is responsible for administering and managing the North American Numbering Plan ("NANP"). See C.F.R. § 52.13(a), (b).
3. On March 31, 2000, the Federal Communications Commission issued a Report and Order and Further Notice of Proposed Rule Making relating to numbering resource optimization ("FCC 00-104" or the "March Order"). On December 29, 2000, the FCC issued its Second Report and Order, Order on Reconsideration in CC Docket

No. 96-98 and CC Docket No. 99-200, and Second Further Notice of Proposed Rulemaking in CC Docket No. 99-200 ("FCC 00-429" or the "December Order"). These FCC orders addressed issues and strategies relating to the efficient use of numbering resources.

4. In FCC 00-104 and FCC 00-429, the FCC announced rules and sought comments in an effort to implement uniform standards governing requests for telephone numbering resources in order to increase efficiency in the use of existing telephone numbers and to slow further exhaustion of existing numbers under the NANP.

5. Among other things, FCC 00-104 adopted a revised standard for assessing a carrier's need for numbering resources by requiring carriers to report rate center based utilization data to NeuStar. The FCC further required that to qualify for access to new numbering resources, applicants must establish that existing inventory within the applicant's rate center will be exhausted within six months of the application. Prior to this ruling, the Central Office Code Assignment Guidelines, used by the industry and NeuStar to make code assignments, required the applicant's existing number inventory within the applicant's serving switch to exhaust within six months of the code application in order for a code to be assigned.

6. This shift to a "rate center" basis for determining the need for new numbering resources was intended to "more accurately reflect how numbering resources are assigned" and to allow "carriers to obtain numbering resources in response to specific customer demands." FCC Order ¶105. AT&T Tennessee has sought reconsideration of the above-described MTE rule before the FCC on two separate occasions. On December 28, 2001, the FCC entered an order retaining the rules requiring carriers to calculate MTE on a rate center basis rather than on a per-

switch basis. *In the Matter of Numbering Resource Optimization; Implementation of the Local Competition Provisions of the Telecommunications Act of 1996; Telephone Number Portability*, CC Docket Nos. 99-200, 96-98 and 95-116, *Third Report and Order* and *Second Order on Reconsideration* in CC Docket No. 99-200, FCC 01-362, Paragraph 48 (rel. Dec. 28, 2001).

7. On or about March 25, 2013, AT&T Tennessee submitted a Central Office Code (NXX) Assignment Request - Part 1, and the CO Code Assignment - Months to Exhaust Certification Worksheet, to NeuStar to be assigned 2,000 consecutive numbers necessary to meet the demands of its customer, LifePoint Hospitals ("LifePoint"). The request and worksheet are attached hereto as Exhibits "A" and "B" respectively.

8. The code assignment request was for 2,000 consecutive numbers in the 615 NPA area code, in response to LifePoint's request for 2,000 numbers in the 7 and 8 thousands blocks. LifePoint cited construction of a new corporate headquarters building as its basis for this request. However, AT&T Tennessee did not have sufficient number resources available within its inventory in the Nashville rate center, and, accordingly, AT&T Tennessee was unable to provide LifePoint with sufficient numbers to meet its needs. For this reason, AT&T Tennessee sought the numbering resources as noted above.

9. AT&T Tennessee completed the applications in accordance with NeuStar's Central Office Code (NXX) Assignment Guidelines and completed the necessary Months to Exhaust Certification Worksheet required by NeuStar.

10. At the time of the code request, the Nashville rate center had an MTE of approximately 277 months.

11. Despite the fact that AT&T Tennessee's Nashville rate center may not exhaust for 277 months, AT&T Tennessee is unable to provide the requested service through its switch that serves LifePoint within the Nashville rate center. This is because the individual switch that serves this customer within the Nashville rate center does not have sufficient number resources to meet the customer's request.

12. On or about March 25, 2013, NeuStar's Central Office Code Administration denied the code assignment request on the grounds that AT&T Tennessee had not met the rate center based months-to-exhaust criteria now set forth in the Central Office Code (NXX) Guidelines, notwithstanding the fact that AT&T Tennessee does not have the numbering resources needed to satisfy its customers' demands in the switch at issue. That decision is attached hereto as Exhibit "C."

13. AT&T Tennessee's inability to provide this large business customer with the requested numbers prevents AT&T Tennessee from providing the quality of service this customer desires and expects. (Correspondence from LifePoint is attached as Exhibit "D").

14. Relief for the 615 NPA was implemented with the start of mandatory dialing on September 15, 1997. The Authority also ordered thousands-block pooling for the 615 NPA with a Pool Start Date of March 14, 2002. According to NeuStar, based on the 2012-2 NRUF and NPA Exhaust Analysis dated October 2012, the projected exhaust date of the 615 NPA is the 2Q 2015. Therefore, granting AT&T Tennessee's request for numbering resources would not materially impact exhaustion of available numbers in the 615 NPA.

15. Both FCC 00-104 and NeuStar's Central Office Code (NXX) Guidelines provide that state regulatory authorities have the power and authority to review

NeuStar's decision to deny a request for numbering resources. See FCC 00-104, Appendix A, Final Rules, § 52.15(g) (3) (iv) ("The carrier may challenge the NeuStar's decision to the appropriate state regulatory commission"); NeuStar Central Office Code (NXX) Guidelines § 13.0 ("Appeals may include but are not limited to one or more of the following options: ... C. The CO Code Administrator(s) and code holders/applicants may pursue the disagreement with the appropriate governmental/regulatory body").

16. The TRA has recognized its jurisdiction and authority to review NeuStar denials and to order the release of numbering resources to meet specific customer needs. The TRA has, for example, ordered NeuStar to provide AT&T Tennessee with numbering resources to meet the service requirements of the University of Tennessee, even though AT&T Tennessee had been unable to satisfy the required months-to-exhaust criteria. *Petition for Expedited Review of Growth Code Denial by the Number Pooling Administrator Relating to University of Tennessee - Chattanooga* (approved by the Directors on November 20, 2001 by a vote of 3-0) (see correspondence from TRA Executive Secretary, dated November 29, 2001, attached as Exhibit "E").

17. In reviewing previous petitions of this type, the TRA Staff has requested that AT&T Tennessee provide additional information concerning number utilization for the specific central office involved in the request. This information for the Nashville, including the NSVLTNBWDS0 Central Office is attached hereto as Exhibit "F."

18. The Authority, and not the FCC, is the most appropriate body to address this appeal. As noted above, the Authority has been granted jurisdiction to hear appeals from NeuStar's decisions regarding numbering resources. Any jurisdiction of the FCC to do the same is merely concurrent with the jurisdiction of the Authority. AT&T Tennessee believes that the Authority can more quickly address the numbering

problem facing LifePoint and AT&T Tennessee, and, because time is of the essence to the customer, AT&T Tennessee believes it is appropriate to pursue this matter in the forum that can most quickly address the issue.

19. Under earlier months-to-exhaust procedures used by NeuStar, waivers or exceptions were granted where customer hardships could be demonstrated or where the service provider's inventory did not have a block of sequential numbers large enough to meet the customer's specific request. Under existing procedures, NeuStar looks at the number of months-to-exhaust for the entire rate center without any exceptions. The current process for review is arbitrary and results in decisions contrary to the public interest and decisions that do not necessarily preserve the efficient use of telephone numbers or postpone dates of exhaust. Moreover, the denial of sufficient numbering resources to AT&T Tennessee to meet LifePoint's request is inconsistent with the FCC's position that "[u]nder no circumstances should consumers be precluded from receiving telecommunications services of their choice from providers of their choice for want of numbering resources." FCC 00-429 at ¶ 61. By refusing to grant numbering resources sufficient to meet LifePoint's needs, the NeuStar is preventing LifePoint from obtaining the service of its choice from its carrier of choice, AT&T Tennessee.

20. Notwithstanding customer need for a specific numbering arrangement, AT&T Tennessee's analysis indicates that AT&T Tennessee will be unable to meet the six-months-to-exhaust threshold at the rate center level in time to obtain adequate numbering resources to serve this customer absent relief from the Authority. This situation will result in AT&T Tennessee's inability to respond to its customer's needs for specific numbering resources.

21. During the Authority Conference on September 12, 2011, Docket 11-00133, Mr. Brent Struthers with NeuStar, representing both the North American Numbering Plan Administrator and the Pooling Administrator, made the following statement:

For the record, I would like to state for this and all future safety valve requests that neither the North American Numbering Plan Administrator nor the Pooling Administrator objects or has any position on any safety valve requests ad infinitum, ad nauseam, etc., etc.

22. Included with this Petition is a draft approval order for the Authority's consideration.

CONCLUSION

For the reasons articulated above, AT&T Tennessee respectfully urges the Authority to direct NeuStar to provide the requested numbers to AT&T Tennessee to enable AT&T Tennessee to meet the specific requirements of LifePoint in order that LifePoint may receive the service of its choice from the provider of its choice to meet its telecommunications needs.

WHEREFORE, AT&T Tennessee requests:

1. The Authority review the decision of NeuStar to deny AT&T Tennessee's request for additional numbering resources; and

2. The Authority direct NeuStar to provide numbers to AT&T Tennessee to meet the specific requirements of LifePoint in the Nashville rate center within the 615 NPA.

Respectfully submitted,

AT&T TENNESSEE

DOCKET NO.

**ORDER APPROVING REQUEST OF AT&T TENNESSEE, FOR EXPEDITED REVIEW
OF GROWTH CODE DENIAL AND REVERSING CENTRAL OFFICE CODE DENIAL**

This matter came before the Tennessee Regulatory Authority ("TRA" or the "Authority" for consideration of the *Petition for Expedited Review of Central Office Code Denial* filed by AT&T Tennessee ("AT&T"). After consideration of the facts contained in the record and the applicable law, TRA approves the request of AT&T and reverses the Pooling Administrator's denial of AT&T Tennessee's request for additional numbering resources.

IT IS THEREFORE ORDERED THAT:

1. The Pooling Administrator's decision to deny AT&T Tennessee's request for additional numbering resources is reversed as stated herein.
2. The Pooling Administrator is ordered to assigned request for the Nashville Rate Center served by Switch Identification No. NSVLTNBWDS0.

¹ Identify type and reason for change(s) in Section 1.4(e).

² A list of the current Code Administrator(s) who can provide assistance in completing this form is available upon request from NANPA.

³ The NXX field is required for any code request in which there is a change or the NXX is being returned.

⁴ Operating Company Number (OCN) assignments must uniquely identify the applicant. Relative to CO Code assignments, NECA-assigned Company Codes may be used as OCNs. Companies with no prior CO Code or Company Code assignments may contact NECA (800-228-8597) to be assigned a Company Code(s). Since multiple OCNs and/or Company Codes may be associated with a given company, companies with prior assignment should direct questions regarding appropriate OCN usage to the TelcordiaTM Routing Administration (TRA) on 732-699-6700.

⁵ This is an eleven-character descriptor of the switch provided by the owning entity for the purpose of routing calls. This is the eleven-character TelcordiaTM COMMON LANGUAGE CLLITM Location Identification of the applicant's switch or POI. (Telcordia and CLLI are trademarks and COMMON LANGUAGE is a registered trademarks of Telcordia Technologies, Inc.)

⁶ Rate Center name must be a tariffed Rate Center associated with toll billing.

⁷ Applies to any code applicant connecting to the Public Switched Telephone Network via a tandem owned by a different carrier.

⁸ This is an eleven-character descriptor provided by the owning entity for the purpose of routing calls. This must be the CLLITM Location Identification Code of the switching entity/POI, and is the same on Part 2, Form 1, Page 2 of 2.

⁹ Code applicants should request an effective date that is at least 66 calendar days from the submission of this form. It should be noted that interconnection arrangements and facilities need to be in place prior to activation of a code. Such arrangements are outside the scope of these guidelines.

¹⁰ Requests for code assignment shall not be made more than six months prior to the requested effective date.

¹¹ Select if you are the current Code Holder

¹² Select if you are not the current Code Holder

¹³ The Applicant will indicate "YES" if the NXX being requested will be used for thousands-block number pooling and will leave this field blank if it is not.

¹⁴ An incomplete form may result in delays in processing this request.

LIFEPOINT HOSPITALS[®]

2/21/2013

AT&T

To Whom It May Concern:

This letter documents our requirements in relation to numbering resources. It is understood that AT&T may take this request to the state commission to fulfill our request.

LifePoint Hospitals is constructing a new corporate headquarters. Upon completion, we will be moving staff and equipment from three current locations (103 Powell Court/105 Westwood Place/5500 Maryland Way, Brentwood, Tennessee 37027) to 330 Seven Springs Way, Brentwood, TN 37027, to support Nashville/Brentwood and surrounding communities in Davidson/Williamson and adjacent counties. LifePoint is formally requesting two thousand (2,000) Direct Inward Dial (DID) telephone numbers in a single prefix to support this expansion. The numbers need to be sequential and in a single prefix due to LifePoint's dialing plan and equipment programming. LifePoint can use in any range within a single prefix. However, our preference is for numbers in the 8000-8999 and 7000-7999 ranges. The numbers will be allocated as follows: 900 for staff/knowledge workers, 400 for fax lines, 200 for administrative/clerical staff, 250 for back office lines/Life Safety, and 250 spare for growth. LifePoint is not anticipating needing additional numbers for this facility for a minimum of five years.

The LifePoint IT Department has been working with AT&T to obtain these numbers. It has been determined that the central office does not have the two thousand (2,000) numbers to meet our business needs. Therefore, we are requesting that the PUC release two thousand numbers to AT&T for assignment to LifePoint. When AT&T assigns the numbers to LifePoint, LifePoint will install them within the 180 days required.

If you have any questions or concerns, please call Brad Brooks at 615-565-8774.

Sincerely,

William Truex
Executive Director
LifePoint Hospitals

Summary

LifePoint Hospitals has identified an immediate need for 2000 sequential DID numbers for the expansion of the (Company location).

LifePoint Hospitals can use numbers from following ranges only:

XXX.XXX.8000 – 8999 (PREFERRED)

XXX.XXX.7000 – 7999 (PREFERRED)

XXX.XXX.1000 -- 9999

AT&T cannot provide the services required by LifePoint Hospitals from the central office.

Ms. Cheryl Dixon
Senior Code Administrator
1800 Sutter Street
Suite: 570
Concord, CA 94520

RE: Denial of BellSouth's Central Office Code ("NXX") Assignment Request.

Dear Ms. Dixon:

On November 1, 2001, BellSouth Petitioned the Tennessee Regulatory Authority ("TRA") for Expedited Review of Growth Code Denial by the North American Numbering Plan Administration ("NANPA"), Docket No. 01-00957. BellSouth specifically requested the overturn of NANPA's denial, and order the issue of one growth code ("NXX") for the Chattanooga rate center in the 423 NPA.

BellSouth stated they requested a growth code in the 423 NPA in response to a request received from a customer, the University of Tennessee, Chattanooga ("UTC"), as they did not have sufficient numbering resources available to meet the customer's needs. BellSouth's also stated that the Chattanooga Rate Center's Months to Exhaust ("MTE") calculation was 31.88 months.

The TRA Staff ("Staff") verified that the MTE requirement six months cannot be met. Staff also verified that the Chattanooga rate center is a multiple switch rate center, and that the MTE has to be calculated on a rate center level rather than at switch level. Staff is also satisfied with the validity of UTC's request. In that the 423 NPA has a projected exhaust date for the 4th Quarter of 2004, and the current demands in the 423 NPA is 2.5 NXXs per month, it is unlikely that the assignment of one (1) NXX will have a material effect on the projected exhaust of the 423 NPA.

On November 20, 2001, the Directors of the Tennessee Regulatory Authority approved BellSouth's petition, and ordered the NANPA to issue BellSouth one growth code in the 423 NPA. The TRA Order will be provided once it is administratively processed.

Sincerely,

A handwritten signature in dark ink, appearing to read "K. David Waddell".

CERTIFICATE OF SERVICE

I hereby certify that on April 10, 2013, a copy of the foregoing document was served on the parties of record, via the method indicated:

- ☐ Hand
- ☐ U.S. Mail
- ☐ Facsimile
- ☐ Overnight Mail
- ☒ Electronic Mail

Ms. Beth Sprague
NeuStar/NANPA
46000 Center Oak Place
Sterling, VA 20166
Beth.sprague@neustar.biz

A handwritten signature in black ink, appearing to read "Beth Sprague", is written over a horizontal line.
