Nashville, Tennessee 37243

April 24, 2014

Mr. Charles Hyatt - President
Tennessee Wastewater Systems, Inc.
851 Aviation Parkway
Smyrna, TN 37167

RE: Docket No. 14-00006 - Petition for Certificate of Convenience and Necessity (CCN) to service a portion of Williamson County in Tennessee known as the Scales Project.

Dear Mr. Hyatt:

Prior to issuing or amending a certificate of convenience and necessity ("CCN"), the Authority determines whether a petitioning utility has the requisite managerial, technical and financial abilities to operate a utility. In order for Staff to evaluate Tennessee Wastewater System's Inc. ("TWS")' abilities in each of the foregoing areas it is requested that your company provide the following.

1. A complete list of all pending enforcement actions (Emergency Orders, Orders and Assessments, etc.) taken by the Tennessee Department of Environment and Conservation ("TDEC") against TWS.
2. TWS' detailed plans, if any, from a managerial, technical and financial perspective for resolving the issues set forth in each pending enforcement action. Also include a timetable for resolving each enforcement action.

It is requested that your response be provided no later than May 7, 2014, and that Docket No. 14-00006 be referenced on the response. Pursuant to TRA Rule 1220-1-1-.03(4), submit either an electronic response along with an original and four (4) written copies or an original written response and thirteen (13) copies. Please note that the requisite number of written copies of all requested information should be provided to the Docket Manager and electronic responses, if filed, must be in .pdf format. Should you have questions regarding the attached request, please contact me at (615) 770-6884.

Sincerely,

David Foster
Chief, Utilities Division
