Tennessee Regulatory Authority
First Data Request

1. How many meters are currently active throughout Atmos serving area in the state of Tennessee?
2. How many meters are currently being read by wireless technology?
3. How many meters are currently being manually read? Provide a schedule detailing the date these meters will transition to wireless reading?
4. Provide the estimated cost savings over the next three years once all meters in the Atmos serving area transitioned to wireless reading technology (as opposed to manual reading).
