October 31, 2014

Dear Directors:

Attached are one hundred and fifteen additional signatures in support of our October 5, 2014 letter asking you to deny Clean Line public utility status in Tennessee. Unfortunately, the distance to Nashville makes driving to the public hearing on Tuesday infeasible for most working Arkansans. These additional signatures are how we'd like to show our continued opposition to this project. We did have a big and boisterous community meeting regarding Clean Line in our little town last night and we hope you'll remember that there is an active and ongoing opposition to this project here in your neighboring state. It is important to us that we communicate that to you to the best of our ability.

Sincerely,

Block Plains & Eastern Clean Line: Pope, Johnson, Newton & Conway Co.
