**IN RE: PETITION OF PLAINS AND EASTERN CLEAN LINE LLC FOR A CERTIFICATE OF  
CONVENIENCE AND NECESSITY APPROVING A PLAN TO CONSTRUCT A  
TRANSMISSION LINE AND TO OPERATE AS AN ELECTRIC TRANSMISSION PUBLIC  
UTILITY**

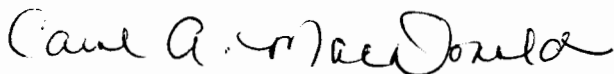

Dear Directors,

I try to be a compassionate person, but I am having a very hard time wrapping my head around why I should give up my home and privacy so Tennessee can have wind power that we still are not sure they want.

My husband built our home 30+ years ago on property that his mother and grandmother gave to us. We raised 2 wonderful children here. At times when the children were growing up I thought how handy it would be to live "in town" where there school and activities were held. However, when I returned home each day to our peaceful home site I knew it was where we should be. We had lived in Florida, but wanted the quiet and peaceful life that our home here in Oklahoma offered. We love it here and in NO WAY want any transmission lines on our property. Call me selfish, but it does not benefit us in any way.

My husband and I have worked hard to provide for our family our entire lives, we don't need money from Clean Lines or anyone else. LEAVE OUR PROPERTY ALONE!!!

Sincerely,

Carol A. MacDonald

***IN RE: PETITION OF PLAINS AND EASTERN CLEAN LINE LLC FOR A CERTIFICATE OF  
CONVENIENCE AND NECESSITY APPROVING A PLAN TO CONSTRUCT A TRANSMISSION LINE  
AND TO OPERATE AS AN ELECTRIC TRANSMISSION PUBLIC UTILITY***

Dear Directors,

My name is Kristy Cox. My husband, Zack, and I bought our property 2 years ago because of the 8 acres we would have to develop the pasture and build some barns and some outbuildings.

Now, out of nowhere, I hear that a transmission line by Clean Line Energy if not defeated will cross within yards of our south boundary. If we knew this was proposed when we purchased our property we would have another place to purchase. We don't want our newborn anywhere near this DC current. Some say it's harmless but I don't believe that's the case. This is devalue our property such we will never be able to build any equity or even be able to sell and get a bigger home.

Please deny this project. It does not provide a single watt of electricity to anyone in Oklahoma and yet our lives we be changed forever.

Sincerely yours,

Kristen L. Cox
