Re: *In the Matter of the Petition of Plains and Eastern Clean Line LLC for a Certificate of Convenience and Necessity Approving a Plan to Construct a Transmission Line and to Operate as an Electric Transmission Public Utility* Docket No. 14-00036 –
Testimony of Mario Hurtado – Supplements to Exhibit MH-3 and MH-4

Dear Chairman Hilliard:

We have enclosed five (5) copies of additional exhibits to be included within Exhibit MH-3 to the testimony of Plains & Eastern witness Mario Hurtado, including resolutions of support from the City of Memphis and Shelby County, and a letter of support from Chairman Ron Lollar of the Tennessee House of Representatives. We have also enclosed five (5) copies of an additional landowner support letter to be included within Exhibit MH-4 to Mr. Hurtado's testimony.

When we present Mr. Hurtado as a witness, we will ask Mr. Hurtado to sponsor these additional documents and will ask that these documents be moved into the record as part of his testimony. We thought that it might be helpful for the Authority to have a copy of these documents in advance of the hearing.

Please let us know if you have questions or need further information.

Sincerely yours,

RESOLUTION SUPPORTING THE PLAINS & EASTERN CLEAN LINE.
SPONSORED BY COMMISSIONER TERRY ROLAND.

WHEREAS, Shelby County wishes to improve the quality of life for its citizens and strengthen the region's economy by creating new jobs and economic development opportunities; and

WHEREAS, The proposed Plains & Eastern Clean Line, a high voltage direct current overhead transmission line, will transmit low-cost wind energy from the Great Plains to Tennessee; and

WHEREAS, An increase in the supply of clean, renewable and competitively-priced electricity will benefit consumers, support economic growth and strengthen the County's sustainability goals; and

WHEREAS, Access to competitive renewable energy resources helps the Shelby County region attract new businesses and industries; and

WHEREAS, The Shelby County region is an air, rail, highway, and river distribution hub and with this project the opportunity to be a distribution hub for renewable energy and sustainable businesses and technologies throughout Tennessee; and

WHEREAS, The Plains & Eastern Clean Line will result in a significant financial capital investment by Plains and Eastern in Western Tennessee; and

WHEREAS, Construction of the Plains & Eastern Clean Line will provide new business opportunities for local construction and service companies; and

WHEREAS, The Shelby County Economic Development Growth Engine Industrial Development Board (EDGE) awarded a payment-in-lieu of tax ((PILOT) incentive to encourage the location of Plains & Eastern Clean Line infrastructure in Shelby County; and

WHEREAS, The Plains & Eastern Clean Line will generate tax revenues for state, county, and local governments in Tennessee and landowners will benefit from payments made for transmission line easements and structures.

NOW, THEREFORE, BE IT RESOLVED THAT THE BOARD OF COUNTY COMMISSIONERS OF SHELBY COUNTY, TENNESSEE, Deems the Plains & Eastern Clean Line is in the public interest and will benefit the State of Tennessee and Shelby County.

BE IT FURTHER RESOLVED, That Shelby County government supports the development, construction and operation of the Plains & Eastern Clean Line.

BE IT FURTHER RESOLVED, That a copy of this Resolution shall be forwarded to the Tennessee Regulatory Authority and other elected representatives to encourage those leaders to support Plains & Eastern's efforts.

BE IT FURTHER RESOLVED, That this Resolution shall become effective in accordance with the Shelby County Charter, Article II, Section 2.06(B).

Mark H. Luttrell, Jr.
County Mayor

ATTEST:

Clerk of County Commission

ADOPTED: April 14, 2014

Resolution supporting the Plains & Eastern Clean Line

WHEREAS, the Memphis City Council is supportive of the application by Plains and Eastern Clean Line LLC to construct and operate a direct current transmission line and thereby increasing this city's access to renewable energy; and

WHEREAS, direct current transmission is an efficient, cost effective technology that allows the movement of large amounts of electricity over long distances with a smaller footprint than comparable alternating current lines; and

WHEREAS, recognizing the benefits that renewable energy provides including jobs, clean air and energy security, the Memphis City Council is eager to take advantage of an effective transmission solution that will enhance our opportunities afforded by a clean energy economy; and

WHEREAS, the Shelby County Economic Development Growth Engine (EDGE) has approved a payment –in-lieu of taxes incentive to encourage the Plains & Eastern Clean Line which will result in a significant financial capital investment and will benefit not only state, county and local governments in Tennessee, but will also benefit property owners from whom transmission line easements would be sought.

NOW, THEREFORE, BE IT RESOLVED THAT THE MEMPHIS CITY COUNCIL supports the construction of a direct current transmission line by Plains and Eastern Clean Line LLC.

RE: *Petition of Plains and Eastern Clean Line LLC for Approval of a Certificate of Public Convenience and Necessity (CCN) to Operate as an Electric Transmission Public Utility in the State of Tennessee*

Dear Directors,

This letter is in support of the application of Plains and Eastern Clean Line LLC ("Plains and Eastern") to operate as a public utility in Tennessee and to build an interstate transmission line. The Plains & Eastern Clean Line (Plains & Eastern Project) will serve the public interest by lowering electricity costs, expanding inter-regional transmission capacity, improving energy reliability and security, and providing revenues to local authorities.

Tennessee's reputation as America's distribution center will be strengthened with the approval of Plains and Eastern's application, construction and operation of the Project. Approval would enable the delivery of clean, affordable energy to consumers in the Mid-South and Southeast.

Also, the Plains & Eastern Project will contribute to Tennessee's growing record of supporting responsible environmental practices and the sustainability goals and efforts of many Tennessee companies. It will help attract new businesses who desire access to economical, clean power sources.

I support Plains and Eastern's application, and urge the Tennessee Regulatory Authority to provide the necessary regulatory approval to further this project in Tennessee.

Please contact my office at 615-741-7084 if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Ron Lollar", is written over a horizontal line.

RE: *Petition of Plains and Eastern Clean Line LLC for Approval of a Certificate of Public Convenience and Necessity (CCN) to Operate As An Electric Transmission Public Utility in the State of Tennessee*

Dear Directors,

I am writing to express my support for the application of Plains and Eastern Clean Line LLC ("Plains and Eastern") to operate as a public utility in Tennessee and to construct an interstate transmission line.

The mission of green|spaces is to advance the sustainability of living, working, and building in Chattanooga and the surrounding region. The highly efficient transmission of clean energy to our grid is an important step in the process toward regional, national, and global sustainability. The reduction of air pollution and greenhouse gas emission promotes the health and well-being of all the residents that are downwind from the locations of new fossil-fuel power plants that will not need to be built thanks to the provision of affordable, abundant, clean energy. It also will make great progress toward helping reverse the trends of climate change that pose very real risks to our region, specifically to the agriculture and energy industries.

The Plains & Eastern Clean Line (Plains & Eastern Project) will serve the public interest by lowering electricity costs, expanding inter-regional transmission capacity, improving energy reliability and security, and providing revenues to local jurisdictions in which the project is located.

Approval of Plains and Eastern's application and the construction and operation of the Plains & Eastern Project will strengthen Tennessee's reputation as America's distribution center by enabling the delivery of

clean and affordable energy to consumers in the Mid-South and Southeast.

Additionally, the Plains & Eastern Project will contribute to Tennessee's growing record of supporting responsible environmental practices and the sustainability goals and efforts of many Tennessee companies, as well as help to attract new businesses who desire access to low-cost, clean power sources.

Finally, the Plains & Eastern Project will help compensate for the retirement of older, less efficient regional generating facilities and create a more sustainable local environment by reducing water consumption and lowering pollution from fossil fuel plants.

I support Plains and Eastern's application and urge the Tennessee Regulatory Authority to provide the necessary regulatory approval to advance this project in Tennessee.

Sincerely,

Michael Walton AIA, NCARB, LEED AP

RE: *Petition of Plains and Eastern Clean Line LLC for Approval of a Certificate of Public Convenience and Necessity (CCN) to Operate As An Electric Transmission Public Utility in the State of Tennessee*

Dear Directors,

I am writing to express my support for the application of Plains and Eastern Clean Line LLC ("Plains and Eastern") to operate as a public utility in Tennessee and to construct an interstate transmission line. I am interested in this project's ability to help lower electricity costs as well as provide revenues to local jurisdictions in which the project is located.

I have had the opportunity to work with Plains and Eastern based on their request for an easement across my parcel of land in Tipton County. I can confirm that my negotiations with them have been fair and they have shown respect for my property and interests. They were open and honest in providing clear information to me, which resulted in the successful completion of an easement transaction.

I support Plains and Eastern's application and urge the Tennessee Regulatory Authority to provide the necessary regulatory approval to advance this project in Tennessee.

Sincerely,
