

TENNESSEE WASTEWATER SYSTEMS, INC.
AN ADENUS UTILITY

June 6, 2014

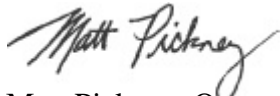

Honorable Jim Allison
Chairman
Tennessee Regulatory Authority
502 Deaderick Street
4th Floor
Nashville, TN 37243

RE: Docket 14-00062

Dear Chairman Allison:

Tennessee Wastewater Systems, Inc. desires to amend its petition in docket 14-00062 to replace page 2 of our original filing with the attached page. This revision reflects corrections in the acreage of the project and details pertaining to the terms of the system land conveyance.

Sincerely,

Matt Pickney, Operations Manager
Tennessee Wastewater Systems, Inc.

BEFORE THE TENNESSEE REGULATORY AUTHORITY
NASHVILLE, TENNESSEE
_____, 2014

**IN RE: PETITION OF TENNESSEE WASTEWATER SYSTEMS,
 INC. TO AMEND ITS CERTIFICATE OF
 CONVENIENCE AND NECESSITY**

DOCKET No. 14-00062

Petition of Tennessee Wastewater Systems, Inc.
To amend its Certificate of Convenience and Necessity

Tennessee Wastewater Systems, Inc. ("TWSI") petitions the Tennessee Regulatory Authority ("TRA") to amend TWSI's Certificate of Convenience and Necessity to expand its service area to include a portion of Williamson County known as Clovercroft Acres. The project is located along Clovercroft Road just east of Tulloss Road in Williamson County. The property includes parcel 5 on Tax Map 81, which is represented on the tax map enclosed (see attached "Exhibit A"). This parcel encompasses approximately 190 acres.

We are proposing to provide wastewater service to approximately 120 residential units at Clovercroft Acres. Residential customers will be charged according to residential Rate Class 1, currently set at \$46.15 as of the date of this submittal. The wastewater system will be designed and constructed to serve approximately 120 units (approximately 36,000 gallons per day) and can be expanded if needed. The TDEC application for a permit has been submitted and is enclosed (see attached "Exhibit B"). A Professional Services Agreement has been signed by Adenus Solutions Group, LLC and the developer. It is the intention of the parties that TWSI will own the collection, treatment, and dispersal system and will own the property that the treatment and dispersal systems occupy.

Also enclosed are letters from the Nolensville/College Grove Utility District and the Williamson County Mayor stipulating that neither of these entities will provide sewer service for this parcel. We have also enclosed a letter from the President of LandDevelopment.com, Ardavan Afrakhteh, requesting TWSI to be the public sewer utility provider for the project.

After approval, the construction of the system, which is comprised of watertight effluent collection, fixed film treatment, and subsurface drip dispersal, will take approximately 60 days to complete. The estimated value of the contribution in aid of the construction of the initial wastewater system is approximately \$675,000.00.

Respectfully Submitted,

Matt Pickney
Tennessee Wastewater Systems, Inc.
