Docket No. 14-_____

TESTIMONY OF JASON L. SCHNEIDER

I. INTRODUCTION

1

2 **Q. PLEASE STATE YOUR NAME AND BUSINESS ADDRESS.**

3 A. My name is Jason L. Schneider. My business address is 5430 LBJ Freeway, Suite
4 600, Dallas, Texas 75240.

5 **Q. BY WHOM ARE YOU EMPLOYED AND IN WHAT CAPACITY?**

6 A. I am the Director of Accounting Services for Atmos Energy Corporation (hereinafter
7 "Atmos Energy" or the "Company").

8 **Q. WHAT ARE YOUR JOB RESPONSIBILITIES?**

9 A. I am primarily responsible for directing various accounting activities and policies
10 within the Company. My primary duties include the oversight of general accounting,
11 fixed assets accounting, accounts payable, payroll, and cost allocations. I also serve
12 on an internal committee which is responsible for the oversight and monitoring of
13 Sarbanes-Oxley (SOX) compliance. In addition, I work with both our internal and
14 external auditors on implementing, testing, maintaining and modifying the
15 Company's accounting controls, as well as interfacing between the auditors and the
16 Company.

1 I am also responsible for ensuring effective financial and internal controls for the
2 Company's accounting processes, system and procedures. I have knowledge of the
3 Company's accounting activities, which include compiling, processing, reporting and
4 analyzing financial information to satisfy the requirements of internal management,
5 internal independent auditors, external independent auditors and regulatory agencies.

6 **Q. PLEASE DESCRIBE YOUR EDUCATIONAL BACKGROUND AND**
7 **PROFESSIONAL EXPERIENCE.**

8 A. I earned a Bachelor of Science degree in Accounting Control Systems from the
9 University of North Texas in 2000. I also earned a Master of Business
10 Administration degree in Accounting from the University of North Texas in 2003. I
11 have worked in various industries for over 17 years in a variety of accounting and
12 finance staff and management roles. I have worked in the energy industry for almost
13 10 years in various accounting and finance positions. I joined Atmos Energy in 2004
14 in the Plant Accounting group and assumed my current role in March 2011. Before
15 assuming my current role, I was the Manager of Plant Accounting and reported
16 directly to the previous Director of Accounting Services. In addition to my other
17 duties as Manager of Plant Accounting, I worked closely with the Director of
18 Accounting Services in maintaining the Company's Cost Allocation Manual
19 ("CAM") to ensure it was aligned with Atmos Energy's recordkeeping practices.

20 **Q. ARE YOU A MEMBER OF ANY PROFESSIONAL ORGANIZATIONS?**

21 A. Yes. I am licensed by the State of Texas as a Certified Public Accountant.

22 **Q. HAVE YOU PREVIOUSLY TESTIFIED BEFORE THE TENNESSEE**
23 **REGULATORY AUTHORITY OR OTHER REGULATORY ENTITIES?**

1 A. Yes. I have testified before the Tennessee Regulatory Authority in Docket No. 12-
2 00064. I have also testified before the Kansas Corporation Commission in Docket
3 No. 12-ATMG-564-RTS and the Kentucky Public Service Commission in Case No.
4 2013-00148 and the Public Utilities Commission of the State of Colorado in Docket
5 No. 13AL-0496G and Docket No. 14AL-0300G.

6

7

II. PURPOSE OF TESTIMONY

8 **Q. WHAT IS THE PURPOSE OF YOUR TESTIMONY?**

9 A. The purpose of my testimony is to authenticate the historic books and records of the
10 Company and demonstrate the integrity of the financial information that has been
11 filed in support of this annual rate review mechanism. The financial information
12 provided in support of this mechanism will be presented in the same manner for
13 subsequent annual filings.

14 **Q. ARE YOU SPONSORING ANY SCHEDULES TO YOUR TESTIMONY?**

15 A. Yes. I am sponsoring Exhibit JLS-1. This exhibit is a true and correct copy of
16 Atmos' current CAM.

17

18

III. AUTHENTICATION OF BOOKS AND RECORDS

19 **Q. ARE THE BOOKS AND RECORDS OF THE COMPANY PREPARED**
20 **UNDER YOUR DIRECTION?**

21 A. Yes, for the areas under my direction (which do not include gas accounting or
22 taxation).

1 **Q. HOW DOES ATMOS MAINTAIN AND UTILIZE ITS BOOKS AND**
2 **RECORDS IN THE REGULAR COURSE OF BUSINESS?**

3 A. Atmos Energy maintains its books and records in accordance with the Federal Energy
4 Regulatory Commission's (FERC) Uniform System of Accounts (USOA) and
5 Generally Accepted Accounting Principles (GAAP). The USOA is the prescribed
6 methodology for maintaining utility records in all of the state jurisdictions that
7 regulate the Company's natural gas utility operations, which currently include
8 Colorado, Kansas, Kentucky, Louisiana, Mississippi, Tennessee, Texas and Virginia.
9 Atmos Energy's accounting organization utilizes integrated computerized business
10 systems to efficiently process, record and maintain transactions generated in the
11 regular course of business. Financial transactions are created and entered into the
12 system at or near the time of the transaction by the responsible personnel in various
13 divisions having personal knowledge, or acting in reliance on information transmitted
14 by persons having personal knowledge of the transactions, as well as of the applicable
15 accounting procedures and requirements. Reports are generated by the system in the
16 regular course of business to assist in management's review of the results of
17 operations and to assist in the analysis of the cost data of gas operations.

18 **Q. AS DIRECTOR OF ACCOUNTING SERVICES, HOW DO YOU ASSURE**
19 **YOURSELF THAT TRANSACTIONS ARE RECORDED PROPERLY?**

20 A. As Director of Accounting Services, I have personal knowledge of the organizational
21 business processes and staffing in the Controllershship function. The Controller's
22 organization is staffed with highly qualified accounting managers and staff, with
23 many accounting positions filled by CPAs. The managers in the organization are

1 charged with the responsibility to inspect, review and revise, if appropriate, the work
2 of the accountants they supervise. To fill certain management positions, an individual
3 is required to have an accounting degree as well as significant accounting experience.
4 We have established and maintained controls that ensure the accuracy of our books
5 and records. These controls help identify any necessary adjustments to accounting
6 entries which are then recorded to the original books and records in a timely manner.
7 Additionally, Atmos contracts with KPMG for internal audit services. This group
8 periodically performs reviews of those controls.

9 **Q. WHAT TYPES OF REGULAR AUDITS ARE CONDUCTED TO**
10 **AUTHENTICATE ATMOS ENERGY'S BOOKS AND RECORDS?**

11 A. Atmos Energy's books and records are audited annually by the independent public
12 accounting firm of Ernst & Young LLP. In addition, Ernst & Young LLP also
13 performs reviews of Atmos Energy's quarterly financial statements. These audits and
14 reviews are conducted in accordance with the standards of the Public Company
15 Accounting Oversight Board (United States).

16 **Q. ARE THE COSTS RECORDED ON THE COMPANY'S BOOKS AND**
17 **RECORDS SUPPORTED BY UNDERLYING INVOICES OR OTHER**
18 **RECORDS?**

19 A. Yes. In order for an item to be recorded in the Company's general ledger, there must
20 be an invoice or other underlying supporting documentation. The former, for
21 example, may be in the form of a billing invoice received from a vendor. The latter,
22 for example, may be in the form of an employee's timesheet. The manager of a
23 specific cost center or project is responsible for reviewing, coding and approving

1 invoices or other underlying supporting documentation that are charged to that
2 particular manager's cost center or project.

3 **Q. WHAT DO YOU MEAN BY COST CENTERS?**

4 A. As described in the Company's CAM, a cost center is a designation generally utilized
5 for the assignment of departmental cost responsibility and internal management
6 reporting. Employees with responsibility for these functional areas are delegated a
7 certain level of authority to conduct the business of the Company.

8 **Q. HOW ARE THESE AUTHORITY LEVELS DETERMINED OR**
9 **DELEGATED WITHIN THE COMPANY?**

10 A. The Board of Directors initially delegates authority to the chief executive officer of
11 the Company who then authorizes the controller to further delegate authority to others
12 throughout the Company as necessary. The Controller's approval of authority limits
13 is generally based on a review of the needs and recommendations from those
14 requesting authority limit changes. Approved authority limits are maintained in a
15 secure table within the Company's accounting system.

16 **Q. DOES THE COMPANY HAVE IN PLACE ANY PROCESS OR SYSTEM FOR**
17 **THE REVIEW AND VALIDATION OF INVOICES?**

18 A. Yes. Most invoices are scanned into an accounts payable processing system called
19 "Markview" when they are received by the Company. Once scanned, an image of the
20 invoice is routed electronically to the appropriate cost center owner. The cost center
21 owner reviews and electronically codes and approves the invoice within the
22 established approval hierarchy. As a part of this process, the cost center owner is
23 responsible for ensuring the cost is valid, just and reasonable. If the amount of the

1 invoice exceeds the authority limit of the initial approver, it is automatically escalated
2 through the approval hierarchy to a person with the appropriate level of authority. A
3 similar review process is performed at each level within the approval hierarchy. Once
4 final approval has been obtained, the invoice is submitted to the accounts payable
5 department for final payment.

6 **Q. DOES THE COMPANY HAVE IN PLACE ANY PROCESS OR SYSTEM FOR**
7 **THE REVIEW AND VALIDATION OF COSTS THAT ARE NOT**
8 **PROCESSED THROUGH MARKVIEW?**

9 A. Yes. Certain invoices and other requests for payment that are not presented as an
10 invoice are processed outside of Markview. Examples of these types of documents
11 include, but are not limited to tax returns, contracts for certain outside services or
12 certain wire transfer requests. The process for the review, coding and approval of
13 these costs is the same, except that the process may be manual in nature rather than
14 electronic. The Company employee in charge of this documentation is responsible
15 for ensuring the cost is valid, just and reasonable. Coding and approvals are
16 performed within the approval hierarchy. Once final approval has been obtained, the
17 documentation is submitted to the accounts payable department for final payment.

18 **Q. ARE THERE ANY OTHER ACCOUNTING CONTROLS OR PROCESSES IN**
19 **PLACE TO ENSURE THE ACCURACY OF THE COMPANY'S BOOKS AND**
20 **RECORDS?**

21 A. Yes. The Company executes a series of detective monitoring controls designed to
22 identify and explain material and/or unusual costs that have been recorded in the
23 general ledger. Occasionally, errors are found and they are typically corrected in the

1 following month's reporting period, unless they are material. If material, these errors
2 are corrected in the current month.

3 Additionally, the Chief Executive Officer and Chief Financial Officer must
4 certify the Company's annual and quarterly financial statements and must attest to
5 and report on the Company's system of internal control. To facilitate this effort, the
6 Company outsources its internal audit function to KPMG to conduct tests of the
7 Company's system of internal control. These tests are developed to ensure the system
8 of internal control has been designed effectively and that the controls are functioning
9 as designed as of the end of the Company's fiscal year.

10 **Q. PLEASE DESCRIBE THE PROCESS USED TO TEST INTERNAL**
11 **CONTROLS.**

12 A. The Company maintains a SOX steering committee, which is responsible for the
13 oversight and monitoring of Sarbanes-Oxley compliance. This committee is
14 comprised of myself, the Vice President and Controller, the Director of Financial
15 Reporting, the Director of Information Technology and the Vice President of Finance
16 for the Company's non-regulated activities.

17 During the first quarter of the fiscal year, the Director of Financial Reporting
18 and I meet with the internal auditors to review our listing of key controls to assess
19 whether changes to that list should be made based upon changes in the risk profile or
20 organization of the company. A key control is defined as a control necessary to
21 mitigate the risks and ensure financial reporting is reasonable and materially correct.
22 The internal audit group will develop a testing plan based upon these key controls,
23 which is reviewed and approved by the SOX steering committee. The key controls

1 are tested throughout the year. If issues arise, they are individually addressed by a
2 steering committee member who has knowledge of the affected areas. The SOX
3 steering committee meets regularly to assess the progress and review the results of the
4 testing. During this process, all findings are discussed and the steering committee
5 will determine whether the finding should be considered a control deficiency, a
6 significant deficiency or a material weakness. A control deficiency exists when the
7 design or operation of a control does not allow management or employees to prevent
8 or detect misstatements in financial reporting on a timely basis. A significant
9 deficiency is a control deficiency which adversely affects the Company's ability to
10 report external financial data reliably, with more than a remote likelihood that an
11 inconsequential misstatement of the Company's financial statements will not be
12 prevented or detected. A material weakness is a significant deficiency that results in
13 more than a remote likelihood that a material misstatement of the financial statements
14 will not be prevented or detected.

15 At the end of the fiscal year, the steering committee makes recommendations
16 regarding the effectiveness of the Company's internal control structure to be included
17 in the internal auditor's final report to the audit committee.

18 **Q. PLEASE SUMMARIZE THE RESULTS OF TESTING FOR THE MOST**
19 **RECENTLY COMPLETED FISCAL YEAR.**

20 A. The most recent fiscal year available is fiscal 2013. A total of 213 key controls
21 related to the Company's natural gas distribution operations were tested. We
22 identified three control deficiencies. No significant deficiencies or material
23 weaknesses were identified.

1 **Q. ARE THE COMPANY'S TESTS OF INTERNAL CONTROL SUBJECT TO**
2 **EXAMINATION BY AN INDEPENDENT REGISTERED PUBLIC**
3 **ACCOUNTING FIRM?**

4 A. Yes. As a publicly traded company, Atmos is required to have an independent
5 registered public accounting firm audit management's public assertions regarding the
6 Company's system of internal control. Ernst & Young, LLP ("EY") serves as the
7 Company's independent registered public accounting firm.

8 **Q. CAN YOU SUMMARIZE THE PROCESS USED BY EY TO PERFORM ITS**
9 **ATTEST FUNCTION?**

10 A. Yes. EY will perform independent tests regarding the design of the Company's
11 internal control function and the effectiveness of the controls as of the end of the
12 fiscal year. They will rely, in part, on the work performed by the internal auditors in
13 completing their audit procedures. Upon completion of their work, EY will issue an
14 audit report summarizing their findings, which is included in the Company's annual
15 report on Form 10-K.

16 **Q. DID EY'S MOST RECENT REPORT DIFFER FROM THE FINDINGS OF**
17 **MANAGEMENT?**

18 A. No. EY issued an unqualified audit report for fiscal 2013, which means that they
19 agreed with management's assertions.

20 **Q. ARE THERE OTHER TYPES OF REGULAR AUDITS AND REVIEWS**
21 **THAT ARE CONDUCTED OF ATMOS'S BOOKS AND RECORDS?**

22 A. In addition to the audit of internal control, EY also conducts an annual audit of Atmos
23 Energy's books and records. In addition, EY performs reviews of Atmos Energy's

1 quarterly financial statements. These audits and reviews are conducted in accordance
2 with the standards of the Public Company Accounting Oversight Board (United
3 States).

4 **Q. HOW DOES THE ACCOUNTING SYSTEM ALLOW FOR THE SEPARATE**
5 **RECORDING AND TRACKING OF COSTS FOR ATMOS ENERGY'S**
6 **UTILITY DIVISIONS?**

7 A. Direct costs are charged directly to the natural gas distribution division which has
8 incurred the costs. In addition, technical and support services are provided to the
9 distribution divisions by centralized shared services departments primarily located at
10 the Atmos Energy headquarters in Dallas. These centralized functions include, but
11 are not limited to, accounting, human resources, legal, treasury, risk management, etc.
12 The costs for these shared services are allocated to the operating divisions.

13 **Q. WERE THE BOOKS AND RECORDS OF THE COMPANY PROVIDED TO**
14 **COMPANY WITNESSES FOR UTILIZATION IN THEIR ANALYSIS FOR**
15 **RATEMAKING PURPOSES?**

16 A. Yes.

17
18 **IV. COST ALLOCATION MANUAL**

19 **Q. WHAT IS THE COST ALLOCATION MANUAL?**

20 A. The Cost Allocation Manual (CAM), contained in Exhibit JLS-1, describes and
21 documents the process whereby allocations are made within the books and records of
22 the Company. These include allocations of various common expenses which are
23 incurred for the benefit of two or more of the Company's rate divisions and are

1 therefore allocable to those rate divisions. Additionally, the CAM also describes and
2 documents the processes whereby allocations are made between Atmos Energy and
3 its affiliates and between affiliates.

4 **Q. ARE YOU RESPONSIBLE FOR OVERSIGHT OF THE CAM?**

5 A. Yes. I coordinate and oversee the updating and filing of the CAM.

6 **Q. PLEASE DESCRIBE THE HISTORY OF THE CAM.**

7 A. The CAM was first developed in response to Kentucky regulation 807 KAR 5:080
8 and was first filed with the Kentucky Public Service Commission in April of 2001.
9 The Company is required to update the CAM each year. Atmos has used the CAM to
10 document its allocation processes in the regular course of business since it was first
11 filed.

12 **Q. ARE THE ALLOCATIONS DESCRIBED IN THE CAM USED IN EVERY**
13 **JURISDICTION IN WHICH ATMOS ENERGY OPERATES?**

14 A. Yes. The CAM is uniformly applied in all eight states in which Atmos Energy has
15 regulated utility operations for the allocation of common costs among Atmos
16 Energy's various operating divisions, including Tennessee.

17 **Q. DOES THE CAM DESCRIBE HOW TO ALLOCATE BALANCE SHEET**
18 **AMOUNTS?**

19 A. No. The CAM describes how to allocate expense items from Atmos' income
20 statement. Investment or balance sheet items are not allocated within Atmos
21 Energy's books and records. Investment amounts are allocated only for ratemaking
22 purposes in the context of a rate filing or certain regulatory reports.

1 **Q. IN YOUR OPINION, DOES THE COMPANY'S ALLOCATION PROCESS**
2 **UNIFORMLY AND CONSISTENTLY ALLOCATE COMMON OR SHARED**
3 **SERVICES COSTS?**

4 A. Yes, the allocation process described in the CAM operates fairly and reasonably in
5 allocating those costs on a uniform basis, both as between Atmos Energy's various
6 operating divisions and affiliates and between the various regulatory jurisdictions in
7 which the Company operates.

8 **Q. DOES THIS CONCLUDE YOUR TESTIMONY?**

9 A. Yes.

1. Introduction:

a. Corporate Structure

Atmos Energy Corporation (Atmos or the Company) operates its Regulated Operations through seven operating divisions in 8 states. The seven operating divisions and their service areas are:

Division	Service Area
Atmos Energy Colorado-Kansas Division	Colorado, Kansas
Atmos Energy Kentucky/Mid-States Division	Kentucky, Tennessee, Virginia
Atmos Energy Louisiana Division	Louisiana
Atmos Energy Mid-Tex Division	Texas, including the Dallas/Fort Worth metropolitan area
Atmos Energy Mississippi Division	Mississippi
Atmos Energy West Texas Division	West Texas
Atmos Pipeline – Texas Division	Intrastate pipeline business in Texas

These operating divisions are not subsidiaries or separate legal entities. Therefore, by definition, they cannot be considered affiliates of Atmos.

Technical and support services are provided to the operating divisions by centralized shared services departments primarily located at the Atmos headquarters in Dallas. These centralized functions currently include, but are not limited to, accounting, gas supply, human resources, information technology, legal, rates and customer support. The costs for these shared services are allocated to the operating divisions. In addition, for operating divisions that operate in more than one rate jurisdiction, costs from an operating division's general office are allocated to separate rate divisions within the operating division.

In addition to its regulated businesses, Atmos also has Nonregulated Operations, which are operated through Atmos Energy Holdings, Inc., a wholly-owned subsidiary of Atmos, and its various wholly-owned subsidiaries. These subsidiaries are separate legal entities and are considered affiliates of Atmos.

The Company's current legal entity organization chart is contained in Appendix A.

Note that the descriptions contained herein do not address tariffed services.

b. Accounting:

Atmos' account coding structure enables it to capture the costs for allocable activities. Expenses, assets, and liabilities for Atmos' shared services and other operating division general office divisions are coded to applicable location codes and cost centers as necessary, and are then allocated to the appropriate rate divisions based upon the methodologies described herein. Allocations recorded in the books and records of the Company are primarily for management control purposes and may not reflect the allocation methodology used for rate making purposes.

Atmos' account coding structure is as follows:

XXX. XXXX. XXXX. XXXXX. XXXXXX. XXXX

Company	Cost Center	FERC Account	Sub- Account	Service Area	Future Use	
3 digit	4 digit	4 digits	5 digits	6 digits	4 digits	

Within the above coding structure, "Company" and "Cost Center" are primarily utilized for internal management responsibility reporting purposes for Atmos' operating divisions. The terms "Company" and "Cost Center" are defined in the glossary beginning below. Utilization of the "Company" or "Cost Center" fields is not suitable for meaningful financial or regulatory reporting purposes.

The FERC account field contains the three-digit FERC USOA account plus one extension digit which in some cases is utilized by the FERC USOA.

The first three digits of the Service Area field are the primary coding utilized for cost allocations within Atmos and is generally referred to as "rate division number". This portion of the field denotes Atmos' various rate divisions as well as the Company's various shared services and operating division general office divisions. These codes are the primary source of information for regulatory reporting and rate activity. The remaining three digits represent "town" location which is utilized only for some accounts. Atmos Pipeline-Texas uses the final three digits of the service area to represent the actual storage or compressor facility; however, this is used for O&M expenses only.

c. Glossary of Terms:

The following terms are defined for purposes of this document only:

Affiliate - One or more of Atmos' subsidiaries.

Below the Line - Amounts which are generally not included in an analysis of costs from which gas service rates are derived.

Company - In general terms, it refers to Atmos Energy Corporation. Within the context of the account coding string, this term represents an operating division, wholly-owned subsidiary or other legal entity controlled by Atmos.

Composite Factor - The Company's general allocation factor which is derived for each applicable area based upon the simple average of gross plant in service, average number of customers and direct operation and maintenance expenses for each applicable area.

Corporate Headquarters - The headquarters of Atmos Energy Corporation located in Dallas, Texas.

Cost Centers - Account coding which denotes an area of cost responsibility. This coding is used primarily for management purposes.

Customer Factor - The Company's general allocation factor which is derived based on the average number of customers of the Operating Divisions that receive allocable costs for the services provided.

Direct Charges - Those charges which may originate in a shared services department or operating division general office division or a rate division which are booked directly to the applicable rate division.

FERC USOA - The Uniform System of Accounts as prescribed by the Federal Energy Regulatory Commission.

Municipal Jurisdiction - For Atmos' operations in Texas, each municipality which it serves has original jurisdiction over rates.

Non-regulated Operations - Represents the Company's natural gas marketing and nonregulated pipeline, storage and midstream operations controlled by Atmos Energy Holdings, Inc., a wholly-owned subsidiary of Atmos Energy Corporation.

Operating Division - An unincorporated division of Atmos Energy Corporation that contains at least one rate division that is responsible for the management of the Company's Regulated Operations. Operating divisions are not subsidiaries or separate legal entities. As such, they do not have separate equity or debt structures. Additionally, the divisions do not keep separate books and records. Operating divisions with multiple rate divisions have one operating division general office rate division in addition to rate divisions corresponding to regulatory jurisdictional areas.

Operating Division General Office - Administrative offices that are located outside of shared service offices which serve as the base of operations and central office for each "operating division."

Rate Division - Often referred to as an operating rate division, it denotes Atmos' regulatory jurisdictions that are defined by state boundaries, geographic boundaries within states or municipal boundaries within the State of Texas. The term also denotes Atmos' various shared services and operating division general office divisions. These divisions are the primary source for regulatory reporting and rate activity for an area in which rates have been set by a regulatory authority such as the Colorado Public Utilities Commission. Rate divisions are identifiable in the Company's account coding string. As such, costs are accumulated within the general ledger and represent the sum of direct costs plus costs allocated to the rate division.

Regulated Operations - Represents the Company's six regulated natural gas distribution operating divisions operating in 8 states and the Company's regulated intrastate pipeline operations in the State of Texas.

Service Area - The portion of the Company's account coding structure of which the first three digits denote rate division. The last three digits of this code denote "town" which is used only in certain instances. Atmos Pipeline-Texas uses the final three digits of the service area to represent the actual storage or compressor facility; however, this is used for O&M expenses only.

Shared Services - The Company's functions that serve multiple rate divisions. These services include departments such as legal, billing, call center, accounting, information technology, human resources, gas supply, rates administration among others. Shared Services is comprised of Shared Services – General Office and Shared Services – Customer Support

Shared Services – Customer Support – Shared Services functions that include billing, customer call center functions and customer support related services.

Shared Services – General Office – Shared Services functions that include all other functions not encompassed by Shared Services – Customer Support.

The following are divisions of Atmos Energy Corporation:

Atmos Energy Colorado-Kansas Division is a regulated operating division that serves approximately 170 communities throughout Colorado and Kansas, including the cities of Olathe, Kansas, a suburb of Kansas City and Greeley, Colorado, located near Denver.

Atmos Energy Kentucky/Mid-States Division is a regulated operating division that operates Kentucky, Tennessee and Virginia. The service areas in these states are primarily rural; however, this division serves Franklin, Tennessee, and other suburban areas of Nashville.

Atmos Energy Louisiana Division is a regulated operating division that serves nearly 300 communities, including the suburban areas of New Orleans, the metropolitan area of Monroe and western Louisiana. Direct sales of natural gas to industrial customers in Louisiana, who use gas for fuel or in manufacturing processes, and sales of natural gas for vehicle fuel are exempt from regulation and are recognized in our natural gas marketing segment.

Atmos Energy Mid-Tex Division is a regulated operating division that serves approximately 550 incorporated and unincorporated communities in the north-central, eastern and western parts of Texas, including the Dallas/Fort Worth Metroplex. The governing body of each municipality we serve has original jurisdiction over all gas distribution rates, operations and services within its city limits, except with respect to sales of natural gas for vehicle fuel and agricultural use. The Railroad Commission of Texas (RRC) has exclusive appellate jurisdiction over all rate and regulatory orders and ordinances of the municipalities and exclusive original jurisdiction over rates and services to customers not located within the limits of a municipality.

Atmos Energy Mississippi Division is a regulated operating division that serves about 110 communities throughout the northern half of the state, including the Jackson metropolitan area.

Atmos Energy West Texas Division is a regulated operating division that serves approximately 80 communities in West Texas, including the Amarillo, Lubbock and Midland areas. Like our Mid-Tex Division, each municipality we serve has original jurisdiction over all gas distribution rates, operations and services within its city limits,

with the RRC having exclusive appellate jurisdiction over the municipalities and exclusive original jurisdiction over rates and services provided to customers not located within the limits of a municipality.

Atmos Pipeline – Texas Division is a regulated pipeline and storage division that transports natural gas to our Mid-Tex Division, transports natural gas for third parties and manages five underground storage reservoirs in Texas. These operations include one of the largest intrastate pipeline operations in Texas with a heavy concentration in the established natural gas-producing areas of central, northern and eastern Texas, extending into or near the major producing areas of the Texas Gulf Coast and the Delaware and Val Verde Basins of West Texas. Nine basins located in Texas are believed to contain a substantial portion of the nation's remaining onshore natural gas reserves. This pipeline system provides access to all of these basins.

The following are affiliates of Atmos Energy Corporation:

Blueflame Insurance Services, LTD is a wholly-owned subsidiary of Atmos Energy Corporation that was created to provide cost-effective property insurance coverage for Atmos Energy and its subsidiaries. It was chartered in Bermuda effective December 16, 2003, and became operational as of January 1, 2004. It is incorporated under Bermuda's insurance law and regulations and is fully capitalized under the requirements of applicable Bermuda law.

Atmos Energy Services, LLC was established on April 1, 2004 to provide natural gas management services to Atmos Energy's natural gas distribution operations, other than the Mid-Tex Division. These services include aggregating and purchasing gas supply, arranging transportation and storage logistics and ultimately delivering the gas to Atmos Energy's natural gas distribution service areas at competitive prices. AES provided these services through December 31, 2006. Effective January 1, 2007, the gas supply department within shared services began providing these services. However, AES continues to provide limited services to the natural gas distribution operations of Atmos Energy. The revenues AES receives are equal to the costs incurred to provide these services.

Phoenix Gas Gathering Company is a wholly owned subsidiary of Atmos Gathering Company, LLC, and was created to develop, own and operate a non-regulated natural gas gathering system located in Kentucky.

Atmos Gathering Company, LLC is a wholly owned subsidiary of Atmos Pipeline and Storage, LLC and was created to conduct our non-regulated natural gas gathering operations.

Atmos Energy Holdings, Inc. is the parent company of Atmos Energy Corporation's non-utility operations.

Atmos Energy Marketing, LLC provides a variety of non-regulated natural gas marketing services to municipalities, natural gas utility systems and industrial natural gas customers in 22 states primarily located in the southeastern and Midwestern states and to our Kentucky, Louisiana and Mid-States utility divisions.

Atmos Exploration and Production, Inc. holds some insignificant Kentucky production interests which the Company succeeded to when it acquired Western Kentucky Gas Company in 1989. This subsidiary is functionally inactive as the Company does not actively engage in the exploration and production business.

Atmos Pipeline and Storage, LLC owns or has an interest in underground storage fields in Kentucky and Louisiana. The utility divisions of Atmos Energy also use these storage facilities to reduce the need to contract for additional pipeline capacity to meet customer demand during peak periods.

Atmos Power Systems, Inc. constructs gas-fired electric peaking power generating plant and associated facilities and may enter into agreements to either lease or sell these plants. Since 2001, 2 sales-type lease transactions have been executed.

Egasco, LLC was, several years ago, engaged in the marketing and sale of natural gas to large-volume commercial and agricultural customers in West Texas. Egasco no longer serves any customers.

Fort Necessity Gas Storage, LLC is a wholly owned subsidiary of Atmos Pipeline and Storage, LLC, and was created in 2009 to construct and operate a non-regulated salt-cavern gas storage project in Louisiana. In March 2011, we recorded a \$19.3 million charge to substantially write off our investment in Fort Necessity.

Trans Louisiana Gas Storage, Inc. owns a minority interest in a salt dome storage facility in Louisiana. This facility is used to serve utility and non-utility customers.

Trans Louisiana Gas Pipeline, Inc. owns and operates an intrastate pipeline system in Louisiana. This facility is used to serve utility and non-utility customers.

UCG Storage, Inc. owns certain storage field interests in Kentucky which are used to serve utility customers.

WKG Storage, Inc. owns certain storage field interests in Kentucky which are used to serve utility and non-utility customers.

Service: Capitalized overhead (general)

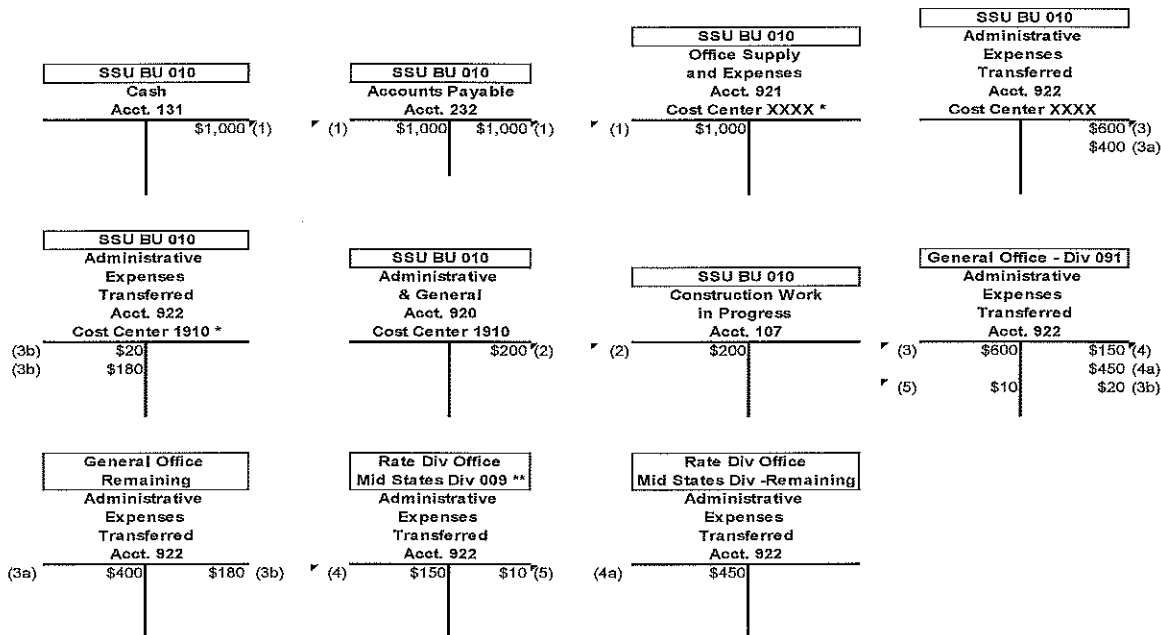

Description: Overhead related to capital expenditures

Current Provider of Service Shared Services
Atmos Pipeline – Texas Division
Louisiana Division operating division general office
Kentucky/Mid-States Division operating division general office
Colorado-Kansas Division operating division general office
Mid-Tex Division
Mississippi Division
West Texas Division

Current Use of Service Rate divisions

Basis for allocation Capitalized overhead costs are accumulated by operating division (and state level for multiple state divisions). Each operating division (and state) sets an application rate at the beginning of the year based on projected expenditures. As expenditures for CWIP and RWIP are recorded overhead is applied at the application rate. Periodically, the application rate is reviewed. Shared services overhead is allocated to operating divisions based on operating division capital expenditures. At the end of each quarter, the amount that has accumulated in the OH project is cleared to all eligible projects that incurred charges during that quarter, on a pro rata basis

General Ledger Entries: Example Only

* Cap rate = 20%

** Many rate division offices exist within Mid-States in addition to Div 009.

Flow of Activity

- (1) Purchase Office Supplies
- (2) Capitalize Overhead is calculated based on cost center capitalization percentage
- (3) Allocating Shared Services Expenses to General Offices - 60% Allocation rate for illustration purposes only
- (3a) Allocation to remaining general offices
- (3b) Allocate capitalization credits to business units
- (4) Allocating Shared Services Expenses to Rate Division Office - 25% Allocation rate for illustration purposes only
- (4a) Allocation to remaining division offices
- (5) Allocating Shared Services Capitalization Credit to Rate Division Office - 50% Allocation rate for illustration purposes only

Note: Please see the allocation of expenses from General Office to State Regional Office to Rate Division on the following pages:
West Texas - 17, Colorado/Kansas - 19, Louisiana - 23

Service: Stores overhead

Description: Overhead related to inventory warehousing is allocated to materials as issued.

Current Provider of Service Shared Services
Operating division general office

Current Use of Service Atmos Pipeline – Texas Division
West Texas Division rate divisions
Louisiana Division rate divisions
Kentucky/Mid-States Division rate divisions
Mid-Tex Division rate division
Colorado-Kansas Division rate divisions
Mississippi Division rate division

Basis for allocation Overhead costs associated with inventory items, including rent, labor and supervision are accumulated by operating division. Each operating division sets an application rate at the beginning of the year based on projected overhead and materials activity. As materials are issued from the warehouse, the overhead assigned is also allocated to the same account. Periodically, the balance in the undistributed stores overhead account is compared to the materials on hand balance and a new rate is determined. Shared Services stores overhead is allocated monthly to the operating divisions based on number of meters.

Service: O&M Expenses in Shared Services – General Office cost centers

Description: Includes O&M expenses in Shared Services – General Office. (Division 002)

**Current
Provider
Of Service** Shared Services

**Current Use
of Service** Atmos Energy Marketing, LLC
Trans Louisiana Gas Pipeline
Atmos Gathering Company, LLC
WKG StorageWest Texas Division
Mid-Tex Division
Atmos Pipeline – Texas Division
Louisiana Division
Kentucky/Mid-States Division
Colorado-Kansas Division
Mississippi Division
Trans Louisiana Gas Storage
Atmos Power Systems, Inc

**Basis for
allocation** Costs are allocated to affiliates and operating divisions based on a composite factor applied to the Shared Services departments. Shared Services departments which provide services to the Company's affiliates utilize a composite factor which includes the affiliates.

Shared Service departments that do not provide services to the Company's affiliates utilize a composite factor which does not include the Company's affiliates.

Other allocation methods used as appropriate include composite not including affiliates or Atmos Pipeline –Texas, composite not including affiliates, Atmos Pipeline-Texas or Mid States, composite using only West Texas, COKS, and MS utility divisions, composite using West Texas, Mid Tex, and Atmos Pipeline-Texas and Overhead rate.

From each operating division general office charges are allocated to rate divisions using the composite rate for each rate division.

See page 12 for General Ledger Entries: Example Only.

 - (6a) Allocation to remaining division offices

Description of Relationship between Mid-Tex and Atmos Pipeline – Texas:

Mid-Tex performs operations and maintenance and capital services for the Atmos Pipeline – Texas (“APT”) Division.

Services are provided on an ongoing basis throughout the Mid-Tex and APT service areas. The field operations include, but are not limited to, services related to pipeline integrity, measurement, compliance work, painting, right of way mowing and reclamation, leak surveys, patrolling, regulator maintenance, fence replacements, line repairs and line replacements. Additionally, Technical and Support Services are provided to APT by centralized departments primarily located at the Mid-Tex headquarters in Dallas. These centralized functions include, but are not limited to, compliance monitoring and reporting, engineering, gas measurement, finance, marketing and human resources.

APT employs outside contractor labor services and purchases materials and supplies for field operations and construction in addition to the services provided by Mid-Tex. These services and materials are direct charged to APT and are not allocated from Mid-Tex.

APT employs some pipeline only personnel. This labor and the related benefit cost is primarily charged directly to APT and not allocated from Mid-Tex.

Service: **Mid-Tex/Atmos Pipeline – Texas Division - Intracompany Labor**

Description: Mid-Tex employees' labor supporting APT operations

**Current Provider
Of Service** Mid-Tex

**Current Use of
Service** Atmos Pipeline – Texas

**Basis for
allocation** Mid-Tex direct Company and/or contractor actual labor

Mid-Tex Non Supervisory employees who charge time to APT generally record their time through the time reporting system.

Mid-Tex Supervisory employees who charge time to APT generally record their time using the operational split through the time reporting system.

The Operational Split is calculated annually based on the expected allocation of Mid-Tex Non Supervisory labor and contractor labor between the Mid-Tex and APT divisions.

General Ledger Entry: Supervisory employee (Example Only)

<div>SSU – Div 002</div> <div>Cash</div> <div>Acct. 131</div> <hr/> <div>(1) \$1,000 (1)</div>	<div>SSU – Div 002</div> <div>Accounts Payable</div> <div>Acct. 232</div> <hr/> <div>(1) \$1,000 (2) \$1,000 (2)</div>	<div>Mid-Tex BU 080</div> <div>O&M Labor</div> <div>Acct. 853</div> <div>Cost Center 4XXX</div> <hr/> <div>(2) \$200</div>
<div>Mid-Tex BU 080</div> <div>Construction work</div> <div>In Progress</div> <div>Acct. 107</div> <div>Cost Center 4XXX</div> <hr/> <div>(2) \$400</div>	<div>APT BU 180</div> <div>Construction work</div> <div>In Progress</div> <div>Acct. 107</div> <div>Cost Center 9XXX</div> <hr/> <div>(2) \$250</div>	<div>APT BU 180</div> <div>O&M Labor</div> <div>Acct. 853</div> <div>Cost Center 9XXX</div> <hr/> <div>(2) \$150</div>

Flow of Activity:

- (1) Pay Mid-Tex Supervisory employee
(2) Allocate labor to Mid-Tex and APT – for illustration purposes, this employee's time is charged 60% to Mid-Tex and 40% to APT. The APT portion is 63% capital.

General Ledger Entry: Non Supervisory employee (Example Only)

<div>SSU – Div 002</div> <div>Cash</div> <div>Acct. 131</div> <hr/> <div>(1) \$800 (1)</div>	<div>SSU – Div 002</div> <div>Accounts Payable</div> <div>Acct. 232</div> <hr/> <div>(1) \$800 (2) \$800 (2)</div>	<div>Mid-Tex BU 080</div> <div>O&M Labor</div> <div>Acct. 853</div> <div>Cost Center 4XXX</div> <hr/> <div>(2) \$400</div>
	<div>APT BU 180</div> <div>Construction work</div> <div>In Progress</div> <div>Acct. 107</div> <div>Cost Center 9XXX</div> <hr/> <div>(2) \$100</div>	<div>APT BU 180</div> <div>O&M Labor</div> <div>Acct. 853</div> <div>Cost Center 9XXX</div> <hr/> <div>(2) \$300</div>

Flow of Activity:

- (1) Pay Mid-Tex employee labor
(2) Direct charge labor to Mid-Tex and APT – for illustration purposes, this employee's time for this payroll cycle was 50% Mid-Tex and 50% APT. The APT portion was 25% capital and 75% expense.

Service: Mid-Tex/Atmos Pipeline – Texas Division - Non Labor Expenses

Description: Allocation includes but is not limited to rents, heavy equipment, utilities, telecom, transportation (vehicles), uniforms, insurance, printing and postage.

Current Provider Of Service Mid-Tex

Current Use of Service Atmos Pipeline – Texas Division

Basis for allocation Factors are primarily based on direct employee labor and contractor labor. The vehicle allocation is based on Company labor only. Allocations vary based on the cost center and sub account.

General Ledger Entries: Transportation Expense (Example Only)

<div>SSU – Div 002</div> <div>Cash</div> <div>Acct. 131</div> <div>\$1,000 (1)</div>	<div>SSU – Div 002</div> <div>Accounts Payable</div> <div>Acct. 232</div> <div>(1) \$1,000 \$1,000 (1)</div>	<div>Mid Tex BU 080</div> <div>O&M Transportation</div> <div>Acct. 853</div> <div>Cost Center 4XXX</div> <div>(1) \$1,000 \$780 (2)</div>

Flow of Activity

- (1) Employee X is a Kentucky Employee. He worked on a special project in March for Atmos subsidiary, AES (Atmos Energy Services). Time is captured through a direct time sheet entry.
- (2a) Salary is paid to employee x
- (2b) JE is made to relieve payable in operating division.
Intercompany Entry generated by Oracle to keep Operating Divisions in sync.

Service: Adjustments to Uncollectible Accounts Expense

Description: Allocation of additional expense amounts booked to adjust the Provision for Uncollectibles (Account 144)

Current Provider of Service West Texas Division rate divisions
Louisiana Division rate divisions
Kentucky/Mid-States Division rate divisions
Colorado-Kansas Division rate divisions
Mid-Tex Division rate division
Mississippi Division rate division

Current Use of Service West Texas Division rate divisions
Louisiana Division rate divisions
Kentucky/Mid-States Division rate divisions
Colorado-Kansas Division rate divisions
Mid-Tex Division rate division
Mississippi Division rate division

Basis of Intra-company Allocations Costs are allocated to the rate divisions in total based on Sales Revenue.

General Ledger Entries: Example Only

Rate Division *		Rate Division		Rate Division	
Accumulated Provision for Uncollectible Accounts		Customer Accounts - Uncollectible Accounts		Customer Accounts Receivable	
Acct. 144 sub aaaaa		Acct. 904		Acct. 142 sub bbbbbb	
(2)	\$ 250	(1)	\$ 1,000		\$ 250 (2)

* Each rate division has a different allocation rate.

Flow of Activity

- (1) Monthly allocated costs.
- (2) Write off of uncollectible accounts as needed.

Service: Intra-company labor allocation – other than operating division general office labor

Description: Certain employee activities cross multiple rate divisions within an operating division. The costs associated with such activities include labor, benefits and associated taxes.

Current Provider of Service Atmos Pipeline – Texas Division
West Texas Division
Louisiana Division
Kentucky/Mid-States Division
Mid-Tex Division
Colorado-Kansas Division
Mississippi Division

Current Use of Service Atmos Pipeline – Texas Division
West Texas Division
Louisiana Division
Kentucky/Mid-States Division
Mid-Tex Division
Colorado-Kansas Division
Mississippi Division

Basis of Intra-company Allocations Labor associated with cross-jurisdictional activities is charged to each jurisdiction based on the level of employee activity. The costs are captured either through direct time sheet entries or fixed labor distribution percentages.

General Ledger Entries: Example Only

<div>SSU BU 010</div> <div>Cash</div> <div>Acct. 131</div> <div>\$500 (2a)</div>	(2b)	<div>SSU BU 010</div> <div>A/R from Assoc Co.</div> <div>Acct. 146</div> <div>\$500</div>	(2a)	<div>SSU BU 010</div> <div>Accounts Payable</div> <div>Acct. 232</div> <div>\$500</div> <div>\$500 (2b)</div>		
<div>Kentucky Division</div> <div>Mid-States BU 050-Div 009</div> <div>Mains & Services Exp</div> <div>Acct. 8740</div> <div>⌈ (1)</div> <div>\$250</div>		<div>Tennessee Division</div> <div>Mid-States BU 050-Div 093</div> <div>Mains & Services Exp</div> <div>Acct. 8740</div> <div>⌈ (1)</div> <div>\$250</div>		<div>Mid-States BU 050-Div 002</div> <div>A/R from Assoc Co.</div> <div>Acct. 146</div> <div>\$500 (2b)</div>	(2b)	<div>Mid-States BU 050-Div 091</div> <div>Accounts Payable</div> <div>Acct. 232</div> <div>\$500</div> <div>\$500 ⌈ (1)</div>

Flow of Activity

- ⌈ (1) Employee x lives in Kentucky and works 50% in Kentucky and 50% in Tennessee every month.
Time is captured through fixed labor distribution
- (2a) Salary is paid to employee x
- (2b) JE is made to relieve payable in operating division.
Intercompany Entry generated by Oracle to keep Operating Divisions in sync

Service:	Other income and interest expense (All below the line accounts)
Description:	Allocation of Shared Services' other income and interest expense (All below the line accounts)
Current Provider of Service	Shared Services
Current Use of Service	West Texas Division Louisiana Division Kentucky/Mid-States Division Mid-Tex Division Colorado-Kansas Division Mississippi Division Atmos Pipeline – Texas Division
Basis for allocation	Interest Expense, Interest Income and Other Non-Operating Income in shared services are allocated to each utility division based on the budget allocation percentages. The budget allocation is based on projected average net investment by rate division for the budget year. For this purpose, 'net investment' is defined as regulatory rate base + goodwill. These allocation factors are the same throughout the fiscal year. The allocation stays in the account the charge was originally booked in. Headquarter allocation of below the line accounts to rate divisions follows the same process as described above.

See page 33 for General Ledger Entries: Example Only.

Service: Gas cost between state jurisdictions for contiguous systems

Description: Gas costs that apply to contiguous systems that cross state jurisdictional boundaries are allocated between those rate jurisdictions.

Current Provider of Service West Texas Division
Colorado-Kansas Division
Kentucky/Mid-States Division

Current Use of Service West Texas Division
Colorado-Kansas Division
Kentucky/Mid-States Division

Basis of Allocations Allocations are based upon throughput for the West Texas Division and the Colorado-Kansas Division's Southeast Colorado/Southwest Kansas operations. For the Colorado-Kansas Division's Kansas system and for the Kentucky/Mid-States Division, demand costs are allocated based on peak-day requirements. Commodity costs are allocated based upon throughput.

Atmos Energy Corporation

Service: Gas storage services between an operating division and an affiliate

Description: To the extent an operating division stores gas in a storage field owned by an affiliate, a rental fee for the use of the storage field shall be charged by the affiliate.

Current Provider of Service: UCG Storage, Inc.
WKG Storage, Inc.

Current Use of Service: Kentucky/Mid-States Division

Basis for allocation: The annual demand charge between UCG Storage, Inc. and Atmos Energy Corporation (Tennessee operations only) is calculated based on fiscal year plant in service, gas inventory, actual operational costs incurred, and application of revenue and cost of capital conversion factors based on prior regulatory approval. In the calculation of the demand charge, costs not specifically related to a designated area are allocated to each affiliate based on the percentage of total plant servicing that affiliate.
The annual demand charge between WKG Storage, Inc. and Atmos Energy Corporation (Kentucky operation only) is based on services provided at actual cost, market rate or as otherwise provided under tariff or contract.

Service: Working capital funds management (Intercompany account)

Description: Funds are invested on behalf of or provided to affiliates based on operations.

Current Provider of Service:	Atmos Energy Corporation	Atmos Energy Holdings, Inc.	Atmos Energy Holdings, Inc.
Current Use of Service:	Atmos Energy Holdings, Inc.	Atmos Energy Marketing Services, LLC	Atmos Energy Corporation
Interest Income/Expense Calculation (See Below)	A	B	C

Basis for allocation Interest income or expense is recognized each month at the subsidiaries' level based on the total average outstanding balance of all intercompany receivable/payable balances using the following rates:

A (AEH is the borrower)

Expense – One month LIBOR (last day of the month) plus 300 basis points

Income – One month LIBOR (last day of the month)

B (AEM is the borrower)

Expense – One month LIBOR (last day of the month) plus 300 basis points

Income – One month LIBOR (last day of the month)

C (AEC is the borrower)

Expense – The lowest outstanding CP rate or the Eurodollar rate under the AEC Credit Facility (RBS), which is LIBOR plus 100

Income – One month LIBOR (last day of the month)

Atmos Energy Corporation

Service: AES Retail Services

Description: AES Retail services monthly revenue

Current Provider Of Services Atmos Energy Services, LLC

Current Use of Service West Texas Rate Divisions
Kentucky/Mid-States Rate Divisions
Colorado-Kansas Rate Divisions

Basis for allocation

1. Revenue for retail services is tracked in Atmos Energy Services, LLC by service areas which represent corresponding service areas at the utility level. Some of the revenue is reclassified to utility levels on a one to one basis. I.e. Colorado retail services post to service area 813 within Atmos Energy Services, LLC books and is simply reclassified to Colorado/Kansas Division, service area 030 (Colorado operating division general office).
2. Revenue balance in Atmos Energy Services, LLC service area 055001 (Retail – AES) is allocated to the above referenced divisions based on the net income of Atmos Energy Services, LLC service areas 811-813 as a percentage of their combined net income.

General Ledger Entries: Example Only

<div>BU 301 Service areas 811-813</div> <div>Revenues from Non-utility Operations</div> <div>Acct. 417</div> <div>(1) \$600 \$600 (1)</div> <div>(1) \$300 \$300 (1)</div> <div>(1) \$100 \$100 (1)</div>		<div>General Office</div> <div>Revenues from Non-utility Operations</div> <div>Acct. 417</div> <div>\$600 (1)</div> <div>\$300 (1)</div> <div>\$100 (1)</div>
