RE: February 2017 Monthly Report in Docket No. 15-00025 and Docket No. 16-00096

Dear Chairman Jones:

The purpose of this letter is to provide a status update on Docket No. 16-00096 due to a note in Tennessee Wastewater System's Inc.'s February 2017 report filed in Docket No. 15-00025. In the February monthly report, the Company notes that "TWSI and CAD have reached a settlement in the docket [16-00096] and that settlement is awaiting the Attorney General's signature before submitting to the TRA for approval." The settlement is not waiting on the Attorney General's signature due to recently filed permit modification applications filed by the Company for the Maple Green system (SOP-01028) and the Cedar Hill system (SOP-05039) and other matters relating to the financing of the projects.

The Consumer Advocate remains open to continuing settlement discussions, but believes such discussions should wait until the recently filed permit modification applications are processed and decisions made by the Tennessee Department of Environment and Conservation.

Respectfully,

Karen H. Stachowski

Karen H. Stachowski
Assistant Attorney General
