

Tennessee Wastewater Systems, Inc.
Docket 15-00025
March 2020 Report Overview

Systems subject to Notice of Violations and other Corrective Orders:

Summit View – Docket 14-00136 – TDEC has reinstated the construction plans for the site.

River Road* (NOV) – TWSI is awaiting a signed easement for the land occupied by the sewer system. This is the final requirement TDEC had for resolution of the NOV.

Hidden Springs Resort (Commissioner's Order) – Awaiting plans approval from TDEC. A petition has been filed with the Commission seeking approval to spend funds from TWSI's escrow and reserve accounts for this project and will be considered at the March 9th Commission Conference.

Cross Plains* (NOV) – TDEC issued a NOV for this facility on November 26, 2019. TWSI has conducted testing at the facility by a third party who has determined there is a two to three-foot-deep clay liner in the lagoon, and that the closest water well to the facility is a half mile away. TWSI has a soils scientist scheduled to come on site and conduct soils testing to determine the availability and usability of additional area soils for drip. TWSI is also working to bring power out to the building. TWSI continues to evaluate facility and will submit a plan to TDEC to address remaining concerns within the next 30-60 days.

* Neither system is not included in the KPI Report because there is no discharge from the facility.

George -

What's the latest with the approval of the plans for Hidden Springs? Marshall mentioned he spoke with you at the TOWA conference and you indicated that the review was complete and all that remained was issuing the approval letter. Do you have an ETA for when we can expect the letter? If there's anything we need to discuss related to the plans and letter issuance, please give me a call. 615-691-2018.

Thanks,

Jeff
