VIA ELECTRONIC FILING

Hon. Herbert H. Hilliard, Chairman
c/o Sharla Dillon
Tennessee Regulatory Authority
502 Deaderick Street, 4th Floor
Nashville, TN 37243

RE: *Petition of Tennessee-American Water Company Regarding Changes to the Qualified Infrastructure Investment Program Rider, the Economic Development Investment Rider, and the Safety and Environmental Compliance Rider, TRA Docket No. 15-00029*

Dear Chairman Hilliard:

Attached for filing please find *Tennessee-American Water Company's Response to First Discovery Request of the Consumer Advocate and Protection Division* in the above-captioned matter.

Three Excel spreadsheets are also filed electronically.

As required, an original of this filing, along with four (4) hard copies, will follow. Should you have any questions concerning this filing, or require additional information, please do not hesitate to contact me.

Very truly yours,

BUTLER SNOW LLP

Melvin J. Malone

**TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 15-00029
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION**

Responsible Witness: Linda C. Bridwell

Question:

1. Refer to the Company's spreadsheet titled "TAW_TRA_2014_CapRider_Recon" that was filed along with the Company's Petition. Specifically refer to the "WKP-Net Invest Results" tab of this spreadsheet. This tab provides the basis for the capital rider reconciliation calculation contained on the "Exhibit Reconciliation" tab of this same spreadsheet. However, we are unable to find a clear audit trail for the Company's calculations. Please provide an analysis with a clear audit trail (along with appropriate footnotes as necessary) that shows the development of each of the following components for the capital rider reconciliation calculation:
 - a. Monthly Plant Additions
 - b. Cumulative Monthly Plant Additions
 - c. Monthly Plant Retirements
 - d. Cumulative Monthly Plant Retirements
 - e. Monthly Cost of Removal
 - f. Cumulative Monthly Cost of Removal
 - g. Monthly Contributions in Aid of Construction
 - h. Cumulative Monthly Contributions of Aid in Construction
 - i. Monthly Net Investment
 - j. Cumulative Monthly Net Investment
 - k. Monthly Book Depreciation Expense
 - l. Monthly Accumulated Depreciation Expense
 - m. Monthly Tax Depreciation Expense
 - n. Monthly Accumulated Tax Depreciation Expense
 - o. Monthly Accumulated Tax LESS Monthly Accumulated Book Depreciation Expense
 - p. Accumulated Deferred Income Tax
 - q. Accumulated Earnings Basis-Net Investment

Response:

- a. Monthly Plant Additions – These amounts are derived from the actual activity by month, work order, and utility account downloaded from Powerplant, the company's fixed asset system. "WKP-PP In-Service" tab contains the data supporting these amounts. The amounts included in the riders are in column M – "Adjusted Amount" on the rows labeled "Addition" in column A – "Type". Please refer to response to Question #3 of this same data request and TAW_R_CAPDDR1_03_Attachment.xlsx for monthly activity reconciliation. In that attachment to Question #3 there is a tab named "Reconciliation". Rows 276-279 on that "Reconciliation" tab have the amounts included in the rider actual calculation of the amounts eligible for rider consideration. This information is summed using a pivot table that can be further subdivided by utility plant account in order to perform an audit trail of the originally filed data.
- b. Cumulative Monthly Plant Additions – This is the summation of all prior months' plant additions included in the riders' as actual activity per the Monthly Plant Additions referred to in above item a. Please refer to tab "Exhibit Sum Utility Acct Bal" in the spreadsheet filed with the petition, named "TAW_TRA_2014_CapRider_Recon".
- c. Monthly Plant Retirements - These amounts are derived from the actual activity by month, work order, and utility account downloaded from Powerplant, the company's fixed asset system. "WKP-PP In-Service" tab contains the data supporting these amounts. The amounts included in the riders are in column M – "Adjusted Amount" on the rows labeled "Retirement" in column A – "Type". Please refer to response to Question #3 of this same data request, and the attachment to that question, TAW_R_CAPDDR1_03_Attachment.xlsx for the monthly activity reconciliation. In that attachment to Question #3, there is a tab named "Reconciliation". In that "Reconciliation" tab, Rows 286-289 have the amounts included in the rider actual calculation of the amounts eligible for rider consideration.
- d. Cumulative Monthly Plant Retirements - This is the summation of all prior months' plant retirements included in the riders' as actual activity per the Monthly Plant Retirements referred to in above item c.
- e. Monthly Cost of Removal - These amounts are derived from the actual activity by month, work order, and utility account downloaded from Powerplant, the company's fixed asset system. "WKP-PP In-Service" tab contains the data supporting these amounts. The

amounts included in the riders are in column M – “Adjusted Amount” on the rows labeled “Cost of Removal” in column A – “Type”. Please refer to response to Question #3 of this same data request and the attachment to that question, TAW_R_CAPDDR1_03_Attachment.xlsx for monthly activity reconciliation. In the attachment to Question #3 there is a tab named “Reconciliation”. In that “Reconciliation” tab, Rows 282-285 have the amounts included in the rider actual calculation of the amounts eligible for rider consideration.

- f. Cumulative Monthly Cost of Removal - This is the summation of all prior months’ Cost of Removal included in the riders’ as actual activity per the Monthly Cost of Removal in above item e.
- g. Monthly Contributions in Aid of Construction - These amounts are derived from the actual activity by month, work order, and utility account downloaded from Powerplant, the company’s fixed asset system. “WKP-PP In-Service” tab contains the data supporting these amounts. The amounts included in the riders are in column M – “Adjusted Amount” on the rows labeled “CIAC” in column A – “Type”. Please refer to response to Question #3 of this same data request and its attachment, TAW_R_CAPDDR1_03_Attachment.xlsx for monthly activity reconciliation. In the attachment to Question #3 there is a tab named “Reconciliation”. In that “Reconciliation” tab, Rows 280-281 have the amounts included in the rider actual calculation of the amounts eligible for rider consideration.
- h. Cumulative Monthly Contributions of Aid in Construction - This is the summation of all prior months’ CIAC included in the riders’ as actual activity per the Monthly Contributions in Aid of Construction in above item g.
- i. Monthly Net Investment – This is the summation monthly plant additions, monthly plant retirements, and monthly CIAC. This is the same as the calculation utilized in Docket No. 13-00130.
- j. Cumulative Monthly Net Investment – This is the summation of the monthly net investment.
- k. Monthly Book Depreciation Expense – This the monthly Net Investment multiply by the depreciation rate for the utility account plus the prior month’s depreciation expense amount. The prior month’s depreciation

expense amount is added to the current month's depreciation expense calculation because the current month's is based on monthly net investment and not cumulative net investment. The company calculates monthly depreciation based on prior month's net investment (one month lag).

- l. Monthly Accumulated Depreciation Expense – Monthly book depreciation expense * -1.
- m. Monthly Tax Depreciation Expense - Same calculation as book depreciation but using the tax depreciation rate per utility account.
- n. Monthly Accumulated Tax Depreciation Expense – This would be Monthly tax depreciation expense * -1. "WKP-PP In-Service" tab does not contain a monthly accumulated tax depreciation expense calculation.
- o. Monthly Accumulated Tax LESS Monthly Accumulated Book Depreciation Expense – This is the monthly Net Investment multiply by the tax depreciation rate for the utility account minus the monthly book depreciation expense * -1. "WKP-PP In-Service" tab does not contain a Monthly Accumulated Tax LESS Monthly Accumulated Book Depreciation Expense.
- p. Accumulated Deferred Income Tax – This is the monthly Net Investment multiplied by the tax depreciation rate for the utility account minus the monthly book depreciation expense for the utility account times the effective tax rate plus the prior month's tax depreciation amount. The prior month's tax depreciation expense amount is added to the current month's tax depreciation expense calculation because the current month's is based on monthly net investment and not the cumulative net investment. The company calculates monthly tax depreciation based on prior month's net investment (one month lag).
- q. Accumulated Earnings Basis-Net Investment – Earnings Basis Net Investment is Net Investment minus retirements. In other words, Earnings Basis Net Investment is Plant additions plus CIAC. Accumulated Earnings Basis Net Investment would be the summation of the monthly Earnings Basis Net Investment. This is the same as the calculation utilized in Docket No. 13-00130.

**TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 15-00029
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION**

Responsible Witness: Linda C. Bridwell

Question:

2. Refer to the Company's spreadsheet titled "TAW_TRA_2014_CapRider_Recon" that was filed along with the Company's Petition. Specifically refer to the "WKP-Depr Rates" tab of this spreadsheet. Please provide the source and support for the Company's book and tax depreciation rates included on this schedule.

Response:

The source of the Company's book depreciation rates is the approved rates from Docket No 08-00039 and used in Docket 10-00189, Docket 12-00049, and Docket 13-00130. The rates are maintained in Powerplant, the company's fixed asset system. Please see attachment for book and tax depreciation rates.

**TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 15-00029
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION**

Responsible Witness: Linda C. Bridwell

Question:

3. Refer to the Company's spreadsheet titled "TAW_TRA_2014_CapRider_Recon" that was filed along with the Company's Petition. Specifically refer to the "WKP-PP In-Service" tab of this spreadsheet. Please explain the origination of this spreadsheet. If this spreadsheet originates from the Company's ledger, please provide a reconciliation by month of the amounts that are included here for QIIP, EDI and SEC and the total amounts included on the ledger by account.

Response:

The "WKP-PP In-Service" tab of the "TAW_TRA_2014_CapRider_Recon" spreadsheet is a download of actuals from Powerplant, the company's fixed asset system. Please refer to the attachment for the reconciliation to the ledger in SAP. Due the voluminous size of the second tab, which is a copy of the WKP-PP In-Service tab in the original filing, the copy tab is only provided in electronic format.

**TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 15-00029
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION**

Responsible Witness: **Linda C. Bridwell**

Question:

4. Refer to the Company's spreadsheet titled "TAW_TRA_2014_CapRider_Recon" that was filed along with the Company's Petition. Specifically refer to the "WKP-PP In-Service" tab of this spreadsheet. Please provide a definition and legend of all entries for the following fields in this spreadsheet:
- a. WBS
 - b. Profit Center
 - c. Project#

Response:

Please refer to the below definitions:

- a. WBS – Work Breakdown Structure (WBS) is a master data element in SAP utilized for tracking capital and expense work orders. WBS elements begin with a letter that determines the nature of the project work. R (Recurring project), I (Investment project), D (developer project), and T (Business Transformation) are the capital project indicators used by the company.
- b. Profit Center – Profit Center is a master data element in SAP utilized to determine the financial district by the company. Each WBS element (work order) is assigned a profit center. Below, please find the district legend.
 - 2601 TN-CORPORATE
 - 2602 TN-CHATTANOOGA
 - 2603 TN-SUCK CREEK
 - 2604 TN-LONE OAK
 - 2605 TN-SEQUATCHIE VALLEY
- c. Project# - Project # is the funding project line that the WBS element (work order) is recorded under based on the company's approved 5 year SCEP. The "R" WBS elements are assigned a recurring project line that aligns it to the company's SCEP & particular rider. The "I" WBS elements has an

investment project # assigned to it that aligns it to the company's SCEP & particular rider. Please refer "WKP-2014 SCEP" in columns B & E for project #'s and descriptions. Please refer to "WKP-2014 SCEP" in "TAW_TRA_2014_CapRider_Recon" spreadsheet for project #'s and descriptions (columns B & E).

**TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 15-00029
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION**

Responsible Witness: Linda C. Bridwell

Question:

5. Refer to the Company's spreadsheet titled "TAW_TRA_2014_CapRider_Recon" that was filed along with the Company's Petition. Specifically refer to the "WKP-PP In-Service" tab of this spreadsheet. Please provide a description of how the values in the "In-Service Date" field are determined. In addition, please provide an explanation for including projects whose in-service date appear to be prior to the adoption of the capital rider docket

Response:

5. The "In-Service Date" field is populated by the project manager in Powerplant, the company's fixed asset system. The WBS element (work order) is placed in-service when the assets are determined to be used and useful.

"WKP-PP In-Service" tab contains all asset activity in UPIS from Powerplant for the period of January 2014 to December 2014. Activity to WBS elements (work orders) with in-service dates prior to 2014 is unitization activity or has a 0% portion included in the portion % column. Regardless, the summation of the work orders' activity, with in-service dates prior to 2014 and included in the capital riders' actual balance (column M – "Adjusted Amount"), nets to zero. The only exceptions are WBS elements (work orders) that have an in-service date of 1/0/1900. These are blanket work orders that are in-serviced and unitized each month. Since the total amount of capital expenditures on the blanket work orders are unitized and in-serviced at the end of each month, only the amount unitized for the months in 2014 were included. These work orders are included in the rider balances for activity in 2014 (column M – "Adjusted Amount").

**TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 15-00029
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION**

Responsible Witness: Linda C. Bridwell

Question:

6. Refer to the Company's spreadsheet titled "TAW_TRA_2014_CapRider_Recon" that was filed along with the Company's Petition. Specifically refer to the "WKP-PP In-Service" tab of this spreadsheet. Please explain how the Company determines the "Portion %" field amount included on this schedule.

Response:

"Portion %" is the amount of the WBS element (work order) activity that is included in the capital riders' actual balances for 2014. This column is either 0% or 100% based on whether a work order's activity was included in the capital rider reconciliation. Column J – "Amount" multiplied by Column L – "Portion %" equals Column M – "Adjusted Amount". This was determined on a work order to work order basis and Column N – "Comments" contains details on why the amount may have been included or excluded based on the % assigned.

**TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 15-00029
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION**

Responsible Witness: **Linda C. Bridwell**

Question:

7. Refer to the Company's spreadsheet titled "TAW_TRA_2014_CapRider_Recon" that was filed along with the Company's Petition. Specifically refer to the "WKP-SAP Revenues" tab of this spreadsheet. Please provide a definition and legend of all entries for the following field included in this spreadsheet:
- a. Area Code
 - b. Area Text
 - c. Rate Category
 - d. Text (for Price Level)
 - e. Rate Number

Response:

Please refer to below for the definition of the fields:

- a. Area Code – A specific area of a district pertaining to a customer.
- b. Area Text – Text description of Area Code.
- c. Rate Category - The rate category is a classification of a contract for billing purposes. It is used to determine the rate and is an eight-ten character code used to define rate types. First 2 characters determine the state, third to fifth determines the district/rate zone, 6th character determines the division, 7th character determines the account class, 8th character determines the billing frequency, 9th-10th are optional characters used for special account descriptions.
- d. Text (for Price Level) – Additional text for rate category & price level, if applicable.
- e. Rate Number - This is the rate key that identifies the rate. Examples are rates for meter charges, volumetric charges or surcharges. The Rate Numbers end in the capital rider indicator and the descriptions are listed below:

TNNRFEDI	TN Private Fire Non-Residential EDI
TNNRWEDI	TN Water Non-Residential EDI
TNRSWEDI	TN Water Residential EDI
TNNRFQIIP	TN Private Fire Non-Residential QIIP

FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION**

Responsible Witness: Linda C. Bridwell

Question:

8. Refer to the Company's spreadsheet titled "TAW_TRA_2014_CapRider_Recon" that was filed along with the Company's Petition. Specifically refer to the "WKP-SAP Revenues" tab of this spreadsheet. Please explain the origination of this spreadsheet. If this spreadsheet originates from the Company's ledger, please provide a reconciliation by month of the amounts that are included here for QIIP, EDI and SEC and the total amounts included on the ledger by account.

Response:

The "WKP-SAP Revenues" tab is a summation of billing documents from the company's SAP-CIS module. Please refer to the attachment file "TAW_R_CAPDR1_08_Attachment.xlsx" for reconciliation by account.

**TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 15-00029
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION**

Responsible Witness: Linda C. Bridwell

Question:

9. Refer to the Company's spreadsheet titled "TAW_TRA_2014_CapRider_Recon" that was filed along with the Company's Petition. Specifically refer to the "WKP-Whitwell Revenues" tab of this spreadsheet. Please provide the source and support for the "Water Charges" amounts included on this spreadsheet.

Response:

Whitwell is billed by a third party vendor. In preparing the billing determinants in Docket No. 15-00001, Tennessee American realized it only had some months' billing determinants and had to pull water charges from the amount recorded in the ledger. Please refer to the attachment, which reflects the billing determinants for May, August, September, October, November and December 2014 for Whitwell. The June and July 2014 water charges for Whitwell are included in the spreadsheet as screen shots of total revenues.

Docket No. 15-000029
Tennessee American Water
Response to First Discovery Request of the CAPD

Rider Calculation for Whitwell Billings

Month	Water Charges	Capital Recovery Rider	Expense Recovery Rider
May	94,328.18	150.93	(160.36)

**TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 15-00029
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION**

Responsible Witness: Linda C. Bridwell

Question:

10. Refer to the Company's spreadsheet titled "TAW_TRA_2014_CapRider_Recon" that was filed along with the Company's Petition. Specifically refer to the "WKP-Net Invest Results" tab of this spreadsheet. Finally, refer to the cell M675 of this spreadsheet. This cell, which purports to contain the tax depreciation rate for Supply Mains in the SEC capital rider, has a value of 0.00%. Please explain.

Response:

Cell M675 is part of the actual calculation of deferred taxes for line Q-Process Plant Facilities and Equipment. Line Q is included in the SEC rider. Docket No. 13-00130 Capital Riders' filing for line Q in the SEC rider did not include the account 309000-Supply Mains. Since the original filing, Docket No. 13-00130, did not include the 309000-Supply Mains, the tax depreciation rate was not assigned in the original filing. This rate should be 2.00% for 2014 and should be assigned in the reconciliation filing. This is error made by the Company. This impact of the error will reduce the reconciliation by \$1.

**TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 15-00029
FIRST DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION**

Responsible Witness: Linda C. Bridwell

Question:

11. Refer to the Company's spreadsheet titled "TAW_TRA_2014_CapRider_Recon" that was filed along with the Company's Petition. Specifically refer to the "WKP-Net Invest Results" tab of this spreadsheet. Finally, refer to cells BW802 through BW809 of this spreadsheet. These cells calculate the 2014 year-to-date actual QIIP Earnings Basis Net Investment of \$5,630,362. However, these cells do not cross foot to this same amount. Specifically, the values in cells BW802 to BW809 do not total to \$5,630,362. It appears that the Company has omitted the retirements from the Earnings Basis Net Investment. Please explain and reconcile this calculation.

Response:

The Earnings Basis Net Investment calculation for the QIIP excludes BW803 which is the amount of retirements for 2014. Retirements do not reduce the rate base balance. Retirements only reduce the depreciable plant balance. This is consistent with original filing, Docket No. 13-00130.

Question:

12. Refer to the Company's spreadsheet titled "TAW_TRA_2014_CapRider_Recon" that was filed along with the Company's Petition. Specifically refer to the "WKP-Net Invest Results" tab of this spreadsheet. Finally, refer to cells BW822 through BW829 of this spreadsheet. These cells calculate the 2014 year-to-date actual SEC Earnings Basis Net Investment of \$1,149,429. However, these cells do not cross foot to this same amount. Specifically, the values in cells BW822 to BW829 do not total to \$1,149,429. It appears that the Company has omitted the retirements from the Earnings Basis Net Investment. Please explain and reconcile this calculation.

Response:

The Earnings Basis Net Investment calculation for the SEC excludes BW823 which is the amount of retirements for 2014. Retirements do not reduce the rate base balance. Retirements only reduce the depreciable plant balance. This is consistent with original filing, Docket No. 13-00130.
