PETITION OF AT&T TENNESSEE FOR APPROVAL
OF EXPEDITED REVIEW OF GROWTH CODE
DENIAL BY THE NUMBER POOLING
ADMINISTRATOR RELATING TO HCA
HEALTHCARE/ CENTENNIAL MEDICAL CENTER

DOCKET NO.
15-00043

ORDER APPROVING PETITION FOR EXPEDITED REVIEW OF
CENTRAL OFFICE CODE DENIAL

This matter is before the Hearing Officer of the Tennessee Regulatory Authority (the “Authority” or “TRA”), upon the *Petition for Expedited Review of Central Office Code Denial* (“*Petition*”) filed by BellSouth Telecommunications, LLC, dba AT&T Tennessee (“AT&T Tennessee”) on April 6, 2015.

AT&T Tennessee is a telecommunications public utility subject to the jurisdiction of the Authority that provides intraLATA, local exchange telecommunications services in various portions of Tennessee, including the Nashville Rate Center. In its *Petition*, AT&T Tennessee asserts that on or about March 20, 2015, it submitted an application to NeuStar, the Number Pooling Administrator, for the assignment of 2,500 consecutive Direct Inward Dialing (“DID”) numbers in the 615 and 629 area codes for the Nashville Rate Center.¹ AT&T Tennessee requests these numbers in order to accommodate the request of its customer, HCA Healthcare/Centennial Medical Center, which cited business growth as the basis for its request.²

¹ NeuStar is an independent non-governmental entity that is responsible for administering and managing the North American Numbering Plan (“NANP”). See C.F.R. § 52.13(a), (b).

² *Petition*, p. 3 ¶¶ 7-8 (April 6, 2015).

NeuStar's Central Office Code (NXX) Assignment Guidelines ("NXX Guidelines") permit the assignment of additional codes only after an applicant demonstrates that its rate center has a 75% utilization rate and exhaustion of existing numbering inventory does not exceed six months.³ At the time of AT&T Tennessee's code request, the Nashville Rate Center had a utilization rate of approximately 62% and a months-to-exhaust ratio of approximately 2641 months.⁴ Therefore, because the rate center's current utilization rate and the months-to-exhaust ratio do not meet the criteria in the NXX Guidelines; NeuStar denied AT&T Tennessee's application.⁵

The Federal Communications Commission ("FCC") has authorized the Authority to review NeuStar's decision to deny a numbering application.⁶ The FCC has further stated that a state commission may overturn a decision of the Numbering Pooling Administrator when "a carrier demonstrates that it has received a customer request for numbering resources in a given rate center that it cannot meet with its current inventory."⁷ Upon consideration of the facts contained in the record, the public interest, and the Authority's charge to foster competition in the telecommunications industry,⁸ the Hearing Officer agrees that AT&T Tennessee's request should be approved.

IT IS THEREFORE ORDERED THAT:

1. The Number Pooling Administrator's decision to deny BellSouth Telecommunications, LLC, dba AT&T Tennessee's application for additional numbering

resources, as set forth in the *Petition for Expedited Review of Central Office Code Denial* and discussed herein, is reversed.

2. The Number Pooling Administrator is directed to provide three (3) thousand-blocks of numbers to BellSouth Telecommunications, LLC, dba AT&T Tennessee to meet the specific requirements of HCA Healthcare/Centennial Medical Center within the 615 and 629 area code in the Nashville Rate Center for Switch Identification No. NSVLTNUNDSO.
