Re: Petition of Kingsport Power Company d/b/a AEP Appalachian Power General Rate Case
TRA Docket No.: 16-00001

Dear Chairman Hilliard:

In accordance with and in response to further communications with Henry Walker, Esq., counsel for TASC/TenneSEIA, we submit herewith the *Second* Supplemental Response to Data Request TASC/TenneSEIA 1-007.

Please contact the writer with any questions.

Very sincerely yours,

HUNTER·SMITH·DAVIS, LLP

**TENNESSEE REGULATORY AUTHORITY
PETITION OF KINGSPORT POWER COMPANY
DOCKET NO. 16-00001
Data Requests and Requests for the Production
of Documents by The Alliance for Solar
Choice & TenneSEIA (First Set)
To Kingsport Power Company**

Data Request TASC/TenneSEIA 1-007:

In reference to Mr. Castle's testimony at pages 5-6, generally, does the Company intend to allow existing net metering customers to continue taking service under that tariff into perpetuity? If so, does the right to remain on the existing net metering tariff terminate when the current customer is no longer the customer of record on the "grandfathered" net metering account or is that right assignable to future customers that may take service at the situs?

Response TASC/TenneSEIA 1-007:

In this proceeding the Company is proposing to close the tariff to new customers as of 12/31/2016.

Supplemental Response:

As a result of a request by TASC for clarification, the Company is providing the following additional information: Should the TRA approve the Company's proposal to close Tariff N.M.S to new applicants, as filed, customers currently on that tariff (i.e. existing accounts) would effectively be "grand-fathered" until further action of the TRA regarding that tariff.

Second Supplemental Response dated 5/6/16:

The Company proposes that a current net metering customer account may remain on Tariff NMS as long as the account is active. If a current net metering customer changes residence, the account will be closed in accordance with standard practice. Anyone seeking to establish, or re-establish service, at that or any location, after December 2016 will not be eligible for Tariff NMS regardless of whether a renewable generator pre-exists at that location.
