**SWORN TO AND SUBSCRIBED** before me on this 18<sup>th</sup> April day of ~~March~~, 2016.

Notary Public

My Commission Expires: 1/6/2020

## NOTICE

On January 28, 2016, Laurel Hills Water System in Receivership filed an emergency petition with the Tennessee Regulatory Authority for an increase in water rates. This petition is scheduled to be heard by the Tennessee Regulatory Authority on April 11, 2016, at its offices in Nashville, Tennessee, specifically, the hearing on the ground floor of the Andrew Jackson Building, located at 500 Deaderick Street, Nashville, Tennessee.

All customers of the Laurel Hills Water System ["LHWS"] are currently billed and are required to pay \$33.10 per month for water service. Laurel Hills Water System in Receivership is convinced that this is an insufficient rate to cover the costs of the water system and that an increase in rates is necessary in order to recover costs.

As this water system is currently in receivership, there is question about how the receivership costs will be paid. Due to this question of receivership costs, three (3) different rate/tariffs have been proposed. They are as follows:

1. If receivership costs that post-date the approval of the new rates are allocated to the LHWS rate-payers, but receivership costs that pre-date the approval of the new rates will be recouped by the Authority through the eventual sale of the LHWS or by other means, the following rate/tariff is being sought:

Customer Use Rate: \$104.49 per month

Pump Repair Special Assessment: \$6.55 per month for 4 months

Customer Tap Fee: \$1,000.00 per connection

Connection Charge/Reconnection Charge: Previous unpaid Customer Use Rate Amounts

- All rates and charges are applicable to all classes of service rendered and all areas or districts serviced by the water system

2. If receivership costs that post-date the approval of the new rates, as well as receivership costs that pre-date the approval of the new rates, along with pre-receivership losses, are allocated to the LHWS rate-payers, with all receivership costs pre-dating the approval of the new rates being paid in a special assessment over a period of twenty-four (24) months, the following rate/tariff is being sought:

Customer Use Rate: \$104.49 per month

Pump Repair Special Assessment: \$6.55 per month for 4 months

Previous Losses Special Assessment: \$16.74 per month for 24 months

Customer Tap Fee: \$1,000.00 per connection

Connection Charge/Reconnection Charge: Previous unpaid Customer Use Rate Amounts

- All rates and charges are applicable to all classes of service rendered and all areas or districts serviced by the water system

3. If receivership costs that post-date the approval of the new rates, as well as receivership costs that pre-date the approval of the new rates are recouped by the Authority through the eventual sale of the LHWS or by other means, the following rate/tariff is being sought:

Customer Use Rate: \$42.95 per month

Pump Repair Special Assessment: \$6.55 per month for 4 months

Customer Tap Fee: \$1,000.00 per connection

Connection Charge/Reconnection Charge: Previous unpaid Customer Use Rate Amounts

- All rates and charges are applicable to all classes of service rendered and all areas or districts serviced by the water system

A complete copy of the proposed tariff changes and the reasons for them are on file with the Tennessee Regulatory Authority and are open to public inspection.
