

DOCKET NO.

16-00050

BEFORE THE TENNESSEE REGULATORY AUTHORITY

NASHVILLE, TENNESSEE

May 5, 2016

IN RE:

Docket No.

*Petition for Expedited Review of Growth Code
Denial by the Number Pooling Administrator
Relating to Bass Pro, Inc. for IP Flex. Bass Pro,
Inc.*

**PETITION OF TELEPORT COMMUNICATIONS OF AMERICA, LLC - TN
FOR REVIEW OF CENTRAL OFFICE CODE DENIAL**

Teleport Communications of America, LCC – TN (“TCAL”), pursuant to rules adopted by the Federal Communications Commission (“FCC”) for challenging the decision of the Number Pooling Administrator, NeuStar, Inc. (“NeuStar”), hereby petitions the Tennessee Regulatory Authority (“Authority”) to a review NeuStar’s denial of TCAL’s application for an NPA-NXX-X in the Chattanooga rate center in order for TCAL to serve its customer.

1. TCAL is a competitive local exchange carrier certificated by the Authority providing telecommunications services in Tennessee.
2. NeuStar is an independent, non-governmental entity responsible for administering and managing numbering resources. See C.F.R. Section 52.13(a) and (b).
3. This petition is based upon FCC Rules found at 47 C.F.R. § 52.15(g)(3)(iv) and pursuant to the Thousands-Block Number (NXX-X) Pooling Administration Guidelines (“TBPA”) and the Central Office Code (NXX) Assignment Guidelines published by the Industry Numbering Committee (“INC”). On March 31, 2000, the FCC issued a Report and Order and Further Notice

of Proposed Rule Making related to numbering resource optimization (“FCC Order No. 00-104” or the “March Order”). On December 29, 2000, the FCC issued a Second Report and Order, on Reconsideration in CC Docket No. 96-98 and CC Docket No. 99-200, and Second Further Notice of Proposed Rulemaking in CC Docket No. 99-200 (“FCC 00-249” or the “December Order”). The Orders addressed issues and strategies relating to the efficient use of numbering.

4. In FCC Order No. 00-104 and FCC Order No. 00-429, the FCC announced rules and sought comments to implement uniform standards for numbering resources, to increase efficiency in the use of existing telephone numbers and to slow further exhaustion of the North American Numbering Plan (“NANP”).

5. FCC Order No. 00-104 adopted a revised standard for assessing a carrier’s need for numbering resources by requiring carriers to report rate center based utilization to NeuStar. The FCC further required that to qualify for new numbering resources, applicants must prove that their existing inventory in the said rate center will exhaust within six months of the application.

6. In addition to the months-to-exhaust (“MTE”) threshold, the FCC also requires carriers to show rate center utilization of 75% to receive the additional numbering resources in said rate center. See FCC Order No. 00-249 at Paragraph 22; FCC Order No. 01-362 Paragraphs 50-52. Based upon the FCC’s Orders, carriers must meet both the six-month MTE requirement and the utilization threshold on a rate center basis to obtain additional number resources. *Id.* at Paragraph 29.

7. A TCAL customer, Bass Pro, Inc. has requested 200 numbers for IP Flex. Bass Pro, Inc., in the Chattanooga rate center. The customer requested that the numbers be in the

format: NPA-NXX-5XXX. A copy of the letter outlining the request is attached as Exhibit "A".

TCAL has developed a plan that the customer will implement so that the 200 numbers will be assigned and activated within 180 days.

8. The Chattanooga rate center of the 423 Area Code converted to Number Pooling on September 16, 2002. Consequently, numbering resource acquisition by a Number Pooling carrier is through an interface with NeuStar².

9. On April 8, 2016 TCAL submitted a "Thousands Block Application Form Part 1A", and a "Months-to-Exhaust and Utilization Certification Worksheet – TN Level" to NeuStar for a thousand-block in the Chattanooga rate center to satisfy the customer request. A copy of this application is attached as Exhibit "B".

10. During the session via the Pooling Administration System ("PAS"), TCAL received an error message instructing to "Return to the Months To Exhaust Form", the request would not process through the system without a state waiver. The error message is included in Exhibit "B". NeuStar applies the FCC rules and INC Guidelines. Per Paragraphs 5 and 6, the rules require that a block holder requesting growth resources demonstrate that existing resources within the rate center will both exhaust within six (6) months and meet the seventy-five percent (75%) utilization level. The error message indicated that neither threshold was met.

11. Although TCAL has adequate telephone numbers to satisfy incremental requests for numbers without receiving a new block of numbers, TCAL's existing resources cannot satisfy this customer's specific need for a five (5) block.

² The federal rules in 47 C.F.R 52.15 generalize responsibilities of NANPA and the Pooling Administrator under the heading "Central office code administration".

12. As a result of the denial for additional numbering resources, TCAL is unable to provide the telecommunications services requested by its customer.

13. In setting its policy for the assignment of telephone numbers, the FCC designated NANPA and NeuStar, as the Pooling Administrator, to handle numbering resource administration.³ If a numbering resource administrator withholds numbering resources from a carrier, the FCC has specifically authorized state Commissions to overturn those decisions for reasonable cause. That authority is specifically set out in the relevant FCC Rule, 47 C.F.R. §52.15 (g) (3) (iv), which states:

The NANPA shall withhold numbering resources from any U.S. carrier that fails to comply with the reporting and numbering resource application requirements established in this part. The NANPA shall not issue numbering resources to a carrier without an OCN. The NANPA must notify the carrier in writing of its decision to withhold numbering resources within ten (10) days of receiving a request for numbering resources. The carrier may challenge the NANPA's decision to the appropriate state regulatory Commission. **The state Commission may affirm, or may overturn, the NANPA's decision to withhold numbering resources from the carrier based on its determination of compliance with the reporting and numbering resource application requirements herein.**

Id. (Emphasis supplied).

The FCC also clarified in the FCC Order No. 00-249 Order that carriers may appeal to states using a “safety valve” mechanism (paragraphs 57-66). The FCC contemplated the need for, and gave structure to states to respond when denials failed to consider a “specific customer

³ 47 C.F.R. § 52.15(a) states: “Central Office Code Administration shall be performed by the NANPA, or another entity or entities, as designated by the Commission.” 47 C.F.R. § 52.20(d) states: “The Pooling Administrator shall be a non-governmental entity that is impartial and not aligned with any particular telecommunications industry segment, and shall comply with the same neutrality requirements that the NANPA is subject to under this part.”

request”.

14. An essential aspect of the “safety valve” provision is the accelerated response that is provided for in the FCC’s Order: States should act upon such a request in most instances in 10 business days, as noted by the FCC.

Finally, we recognize that in many instances, the failure to address a request for additional numbering resources can impair a carrier’s ability to stay in or expand business. We therefore direct states to act on carrier requests for a safety valve as expeditiously as possible. Although we do not establish a specific time limit for states to act on these requests, we believe that, in most instances, 10 business days from receipt of a request that the state determines to be sufficiently detailed and complete will be sufficient time to review and act upon safety valve requests. If a state does not reach a decision on a safety valve request within a reasonable timeframe, carriers may submit such requests to the Commission for resolution. In addition, carriers may appeal to the Commission safety valve decisions made by states, and we delegate authority to the Common Carrier Bureau to review such petitions as expeditiously as possible.

Id. at Paragraph 66.

15. TCAL seeks the TRA’s review of NeuStar’s decision to withhold resources from it on the grounds that it: (1) violates the orders and rules of the FCC which grant carriers access to numbering resources to meet specific customer demands upon a sufficient showing of need and (2) interferes with TCAL’s ability to serve its customer. As the FCC has stated, “Under no circumstances should consumers be precluded from receiving telecommunications services of their choice from providers of their choice for want of numbering resources.” FCC Order No. 00-429 at Paragraph 61. By refusing to grant numbering resources to meet this customer’s needs, the decision prevents the customer from obtaining the service of its choice from its carrier of choice, TCAL.

Relief Sought

For these reasons, TCAL respectfully requests the TRA to expeditiously review NeuStar's decision denying TCAL's request for additional numbering resources and order NeuStar to provide the requested numbers to meet the specific requirements of TCAL's customer.

Respectfully submitted,

GULLETT, SANFORD, ROBINSON & MARTIN

)

DOCKET NO.

**ORDER APPROVING REQUEST OF TELEPORT COMMUNICATIONS
OF AMERICA, LLC ("TCAL") FOR EXPEDITED REVIEW OF GROWTH CODE DENIAL AND
REVERSING CENTRAL OFFICE CODE DENIAL**

This matter came before the Tennessee Regulatory Authority ("TRA" or the "Authority" for consideration of the *Petition for Expedited Review of Central Office Code Denial* filed by Teleport Communications of America, LLC - TN ("TCAL"). After consideration of the facts contained in the record and the applicable law, TRA approves the request of TCAL and reverses the Pooling Administrator's denial of TCAL's request for additional numbering resources.

IT IS THEREFORE ORDERED THAT:

1. The Pooling Administrator's decision to deny TCAL's request for additional numbering resources is reversed as stated herein.
2. The Pooling Administrator is ordered to assign request for the Chattanooga Rate Center served by Switch Identification No. ATLNGATLGT9.

Bass Pro Shops • 2500 E. Kearney Street • Springfield, MO 65898
417-873-5000 • Fax 417-831-2802

April 11th, 2015

Bass Pro, Inc.
638 Camp Jordan Road
East Ridge, TN 37412

AT&T TNAC,

This Letter of Intent represents a request by Bass Pro, Inc. for 200 telephone numbers for IP Flex. Bass Pro, Inc. intends to order service, in the Chattanooga rate center, on the ATLNGATLGT9 switch pending AT&T's successful completion of the required testing. Bass Pro, Inc. intends to activate these numbers within 180 days from AT&T's receipt of the numbers.

Bass Pro, Inc. currently has an existing network configuration and therefore technical requirements exist in the following blocks.

Block 0 (0000-0999): _____
Block 1 (1000-1999): _____
Block 2 (2000-2999): _____
Block 3 (3000-3999): _____
Block 4 (4000-4999): _____
Block 5 (5000-5999): 5200-5399 _____
Block 6 (6000-6999): _____
Block 7 (7000-7999): _____
Block 8 (8000-8999): _____
Block 9 (9000-9999): _____

Due to our network setup our dial plans match across over 100 locations and we need the consecutive 200 DID range to be consistent with our current internal dial plans. We are a nationwide sporting goods chain and this is a new retail store.

Sincerely,
Charles Diecker

TCAL
Bass Pro, Inc.
EXHIBIT B
Page 4 of 14

Section 1.2 Service Providers who need a thousands-block assignment or for an Location Routing Number (LRN) are required to fill in this section. If needed for an LRN, a CO Code Application needs to also be submitted to the PA. The Service Provider should supply the Numbering Plan Area (NPA); the Local Access Transport Area (LATA), which is a three-digit number that can be found in the iconectivTM LERGTM Routing Guide. The Operating Company Number (OCN) assigned to the service provider and the OCN its parent company. An OCN is a four-character alphanumeric assigned by iconectiv Telecom Routing Administration (TRA). In addition, the number of thousands-blocks requested should be supplied. The Switch Identification as well as the city or wire center name, rate center, rate center sub zone, homing tandem and CLLITM tandem of the facilities based provider^{xi}. Explanations of these terms may be found in the footnotes.

Section 1.3 The date the Service Provider completes the application should be entered in this section, as well as the Effective Date of the requested thousands-block.

Section 1.4 Service Providers should indicate their type, e.g., local exchange carrier, competitive local exchange carrier, interexchange carrier, CMRS. The also indicate the primary type of business in which the numbering resource is to be used. Service Providers also may indicate their preference for a particular thousands-block, e.g., 321-9XXX, or indicate any thousands-blocks that may be undesirable, e.g., 321-6XXX.

Section 1.5 Service Providers indicate the type of request. Initial requests are for first applications for thousands-blocks in a rate center, growth for additional thousands-blocks in a rate center in which the applicant already has numbering resources, and provide the required evidence as ordered by the FCC.

Section 1.6 Service Providers must indicate the updated/current information in regards to contaminated TNs on the block they are returning to the pool. Blocks with over 10% contamination (101 TNs or more) shall not be returned to the pool unless they meet criteria outlined in section 9.1.2 of these Guidelines. If the block being returned is over 10% contaminated the PA shall seek a new block holder. If question c and/or d have a response of No, the request for return shall be denied.

The thousands-block applicant certifies veracity of this form by signing their name, and providing their title and date.

Footnotes:

ⁱ Identify the type of change(s) in Section 1.5.

ⁱⁱ The Pool Administrator is available to assist in completing these forms.

ⁱⁱⁱ A CO Code application will also need to be submitted to the PA.

^{iv} Operating Company Number (OCN) assignments must uniquely identify the applicant. Relative to CO Code assignments, NECA-assigned Company Codes may be used as OCNs. Companies with no prior CO Code or Company Code assignments should contact NECA (800 524-1020) to be assigned a Company

Part1A

https://www.nationalpooling.com/pas/print_form.jsp

Code(s). Since multiple OCNs and/or Company Codes may be associated with a given company, companies with prior assignments should direct questions regarding appropriate OCN usage to (TRA) (732-699-6700).
