ORDER APPROVING PETITION FOR EXPEDITED REVIEW OF
CENTRAL OFFICE CODE DENIAL

This matter is before the Hearing Officer of the Tennessee Regulatory Authority (the "Authority" or "TRA"), upon the *Petition for Expedited Review of Central Office Code Denial* ("*Petition*") filed by BellSouth Telecommunications, LLC, dba AT&T Tennessee ("AT&T Tennessee") on May 25, 2016.

AT&T Tennessee is a telecommunications public utility subject to the jurisdiction of the Authority that provides intraLATA, local exchange telecommunications services in various portions of Tennessee, including the Nashville Rate Center. In its *Petition*, AT&T Tennessee asserts that on or about April 27, 2016, it submitted an application to NeuStar, the Number Pooling Administrator,¹ for the assignment of 2000 consecutive numbers in the 629 area code for the Nashville Rate Center. AT&T Tennessee requests these numbers in order to accommodate the request of its customer, the Metropolitan Nashville Airport Authority.²

NeuStar's Central Office Code (NXX) Assignment Guidelines ("NXX Guidelines")

¹ NeuStar is an independent non-governmental entity that is responsible for administering and managing the North American Numbering Plan ("NANP"). See 47 C.F.R. § 52.13(a), (b)

² *Petition*, p. 3 (May 25, 2016).

permit the assignment of additional codes only after an applicant demonstrates that its rate center has at least a 75% utilization rate and exhaustion of existing numbering inventory does not exceed six months.³ At the time of AT&T Tennessee's code request, the Nashville Rate Center had a utilization rate of approximately 56% and a months-to-exhaust ratio of approximately 64 months.⁴ Therefore, because the rate center's current utilization rate and the months-to-exhaust ratio do not meet the criteria in the NXX Guidelines; NeuStar denied AT&T Tennessee's application.⁵

The Federal Communications Commission ("FCC") has authorized the Authority to review NeuStar's decision to deny a numbering application.⁶ The FCC has further stated that a state commission may overturn a decision of the Numbering Pooling Administrator when "a carrier demonstrates that it has received a customer request for numbering resources in a given rate center that it cannot meet with its current inventory."⁷ Upon consideration of the facts contained in the record, the public interest, and the Authority's charge to foster competition in the telecommunications industry,⁸ the Hearing Officer agrees that AT&T Tennessee's request should be approved.

IT IS THEREFORE ORDERED THAT:

1. The Number Pooling Administrator's decision to deny BellSouth Telecommunications, LLC, dba AT&T Tennessee's application for additional numbering resources, as set forth in its *Petition for Expedited Review of Central Office Code Denial* and

³ See Alliance for Telecommunications Industry Solutions, *Central Office Code (NXX) Assignment Guidelines (COAG) Final Document*, ATIS 03-00051, § 4.3.1 (June 15, 2007).

⁴ *Petition*, p. 4, Exhibit B to *Petition*, p. 3 (May 25, 2016).

⁵ *Id.*

⁶ *In the Matter of Numbering Resource Optimization*, CC Docket No. 99-200, *Third Report and Order and Second Order on Reconsideration* in CC Docket No. 96-98 and CC Docket No. 95-116, *Third Report and Order and Second Order on Reconsideration*, CC Docket No. 99-200, 17 FCC 01-362, ¶ 48 (2001).

⁷ *In the Matter of Numbering Resource Optimization*, CC Docket No. 99-200, FCC 00-104, Appendix A, Final Rules § 52.15(g)(3)(iv).

⁸ See Tenn. Code Ann. § 65-4-123.

discussed herein, is reversed.

2. The Number Pooling Administrator is directed to provide two (2) one thousand blocks of numbers, consisting of 2,000 consecutive numbers, to BellSouth Telecommunications, LLC, dba AT&T Tennessee to meet the specific requirements of the Metropolitan Nashville Airport Authority within the 629 area code in the Nashville Rate Center for Switch Identification No. NSVLTNAARS5.

James R. Layman, Hearing Officer
