**INSTRUCTIONS**

The following instructions shall apply to each Interrogatory Request:

In answering these Interrogatories, furnish all information that is available to you, including information in the possession of your attorneys, investigators or experts, and not merely that which is of your own personal knowledge. If you cannot answer any portion of any of the following Interrogatories after exercising due diligence to secure the information requested, so state and answer to the extent possible.

Each interrogatory is to be answered separately and specifically. No answer is to be left blank. If the answer to an interrogatory or subparagraph of an interrogatory is "none" or "unknown," such statement must be written in the answer. If the answer to the entire question is

not known, so state and answer the part known. If an exact date is not known, state the closest approximate date. If the question is inapplicable, “not applicable” or “N/A” must be written in the answer.

If you object to any interrogatory or part thereof, state the bases for your objection and then answer all parts of the interrogatory to which you have not objected. If you claim that any information requested is privileged or otherwise protected from discovery, identify such information by subject matter and state with particularity the nature and basis of the claim of privilege or other reason that the information is protected from discovery.

Whenever a date, amount, or other computation or figure is requested, the exact date, amount or other computation or figure should be given or the best estimate thereof; and the answer shall state that the date, amount, or other computation or figure is an estimate or approximation.

These Interrogatories are deemed continuing in nature and call for prompt supplemental production whenever you shall receive or discover additional information covered by these Interrogatories. You should promptly respond or supplement Interrogatories should you obtain information upon the basis of which you know a prior response was incorrect or incomplete when made, or that a response, thought correct and complete when made, is no longer true and complete.
