Subject: Docket No. 1700108 Water Complaint

We had a house to burn during the Gatlinburg Tn. fire. We do not intend to build back. We don't think it is fair or legal to have to pay a water bill when not using the water. That makes a extra burden on the people who don't build back. The water service was not that good and it is not our fault the company wasn't managed well or didn't have enough insurance to build the system back. We do not want this to pass. Charles and Dianne Inman 827 Leisure Lane Gatlinburg, TN. Therefore add our name to the list of those objecting this proposal with the Tennessee Water Commission
