This is crazy. People lost everything and some lost loved ones. This was all because some stupid kids who are not being punished started a fire during a burn ban.

It is ridiculous to charge people that have lost their homes and businesses for a service they are unable to use. Set a "LOW" fee in the range of \$10 (per month) for a maintenance fee and be done with it. Then to have the meeting 4 hrs away from the affected residents making it nearly impossible for a working person to attend is just asinine.

Fire victims have been through enough! To charge them for utilities of any kind including unused water, for a home that burnt down is a travesty and insulting!
