RE: *Rulemaking to Revise References in Rules Consistent with Name Change to Tennessee Public Utility Commission*

DATE: May 8, 2018

Under Public Chapter 94 (2017), the agency's name was changed from the "Tennessee Regulatory Authority" to the "Tennessee Public Utility Commission" and the title of "Director" was changed to "Commissioner." Consistent with these changes and structure of the organization, the regulations of the Tennessee Public Utility Commission required that references to those titles and to the title of "Chief" to "Director" were necessary. As no substantive changes to the rules were needed, the purpose for initiating this docket has been accomplished administratively through the Tennessee Secretary of State's Office. Therefore, this docket is hereby administratively closed.
