

BEFORE THE TENNESSEE PUBLIC UTILITIES COMMISSION

NASHVILLE, TENNESSEE

January 5, 2018

RE:

*Petition for Expedited Review of Growth Code
Denial by the Number Pooling Administrator –
Chattanooga Rate Center*

Docket No. 18-00002

**PETITION OF TELEPORT COMMUNICATIONS OF AMERICA, LLC - TN
FOR REVIEW OF CENTRAL OFFICE CODE DENIAL**

Teleport Communications of America, LCC – TN (“TCAL”), pursuant to rules adopted by the Federal Communications Commission (“FCC”) for challenging the decision of the Number Pooling Administrator, NeuStar, Inc. (“NeuStar”), hereby petitions the Tennessee Public Utilities Commission (“TPUC”) to a review NeuStar’s denial of TCAL’s application for an NPA-NXX-X in the Chattanooga rate center in order for TCAL to serve its customer.

1. TCAL is a competitive local exchange carrier certificated by the TPUC providing telecommunications services in Tennessee.
2. NeuStar is an independent, non-governmental entity responsible for administering and managing numbering resources. See C.F.R. Section 52.13(a) and (b).
3. This petition is based upon FCC Rules found at 47 C.F.R. § 52.15(g)(3)(iv) and pursuant to the Thousands-Block Number (NXX-X) Pooling Administration Guidelines (“TBPA”) and the Central Office Code (NXX) Assignment Guidelines published by the Industry Numbering Committee (“INC”). On March 31, 2000, the FCC issued a Report and Order and Further Notice of Proposed Rule Making related to numbering resource optimization (“FCC Order No. 00-104”

or the “March Order”). On December 29, 2000, the FCC issued a Second Report and Order, on Reconsideration in CC Docket No. 96-98 and CC Docket No. 99-200, and Second Further Notice of Proposed Rulemaking in CC Docket No. 99-200 (“FCC 00-249” or the “December Order”). The Orders addressed issues and strategies relating to the efficient use of numbering.

4. In FCC Order No. 00-104 and FCC Order No. 00-429, the FCC announced rules and sought comments to implement uniform standards for numbering resources, to increase efficiency in the use of existing telephone numbers and to slow further exhaustion of the North American Numbering Plan (“NANP”).

5. FCC Order No. 00-104 adopted a revised standard for assessing a carrier’s need for numbering resources by requiring carriers to report rate center based utilization to NeuStar. The FCC further required that to qualify for new numbering resources, applicants must prove that their existing inventory in the said rate center will exhaust within six months of the application.

6. In addition to the months-to-exhaust (“MTE”) threshold, the FCC also requires carriers to show rate center utilization of 75% to receive the additional numbering resources in said rate center. See FCC Order No. 00-249 at Paragraph 22; FCC Order No. 01-362 Paragraphs 50-52. Based upon the FCC’s Orders, carriers must meet both the six-month MTE requirement and the utilization threshold on a rate center basis to obtain additional number resources. *Id.* at Paragraph 29.

7. Two TCAL customers, Hospital Corporation of America – Parkridge East Hospital and Parkridge Valley have requested 3000 and 4000 numbers respectively in the Chattanooga rate center. A copy of the letters outlining the request is attached as Exhibit “A”. TCAL has

developed a plan that the customer will implement so that the 7000 numbers will be assigned and activated within 180 days.

8. The Chattanooga rate center of the 423 Area Code converted to Number Pooling on September 16, 2002. Consequently, numbering resource acquisition by a Number Pooling carrier is through an interface with NeuStar².

9. On December 19, 2017 TCAL submitted a "Thousand Block Application Form Part 1A", and a "Months-to-Exhaust and Utilization Certification Worksheet – TN Level" to NeuStar for a thousand-block in the Chattanooga rate center to satisfy the customer request. A copy of this application is attached as Exhibit "B."

10. During the session via the Pooling Administration System ("PAS"), TCAL received an error message instructing to "Return to the Months to Exhaust Form", the request would not process through the system without a state waiver. The error message is included in Exhibit "B". NeuStar applies the FCC rules and INC Guidelines. Per Paragraphs 5 and 6, the rules require that a block holder requesting growth resources demonstrate that existing resources within the rate center will both exhaust within six (6) months and meet the seventy-five percent (75%) utilization level. The error message indicated that neither threshold was met.

11. Although TCAL has adequate telephone numbers to satisfy incremental requests for numbers without receiving a new block of numbers, TCAL's existing resources cannot satisfy this customer's need for 7000 numbers. TCAL owns 4 non-contiguous blocks, in the Chattanooga rate center, with available numbers spread across all blocks. A new code will have

² The federal rules in 47 C.F.R 52.15 generalize responsibilities of NANPA and the Pooling Administrator under the heading "Central office code administration".

to be opened to satisfy this request. TCAL will activate 7 blocks and donate the remaining 3 blocks to the pool.

12. As a result of the denial for additional numbering resources, TCAL is unable to provide the telecommunications services requested by its customer.

13. In setting its policy for the assignment of telephone numbers, the FCC designated NANPA and NeuStar, as the Pooling Administrator, to handle numbering resource administration.³ If a numbering resource administrator withholds numbering resources from a carrier, the FCC has specifically authorized state Commissions to overturn those decisions for reasonable cause. That authority is specifically set out in the relevant FCC Rule, 47 C.F.R.

§52.15 (g) (3) (iv), which states:

The NANPA shall withhold numbering resources from any U.S. carrier that fails to comply with the reporting and numbering resource application requirements established in this part. The NANPA shall not issue numbering resources to a carrier without an OCN. The NANPA must notify the carrier in writing of its decision to withhold numbering resources within ten (10) days of receiving a request for numbering resources. The carrier may challenge the NANPA's decision to the appropriate state regulatory Commission. **The state Commission may affirm, or may overturn, the NANPA's decision to withhold numbering resources from the carrier based on its determination of compliance with the reporting and numbering resource application requirements herein.**

Id. (Emphasis supplied).

The FCC also clarified in the FCC Order No. 00-249 Order that carriers may appeal to states

³ 47 C.F.R. § 52.15(a) states: "Central Office Code Administration shall be performed by the NANPA, or another entity or entities, as designated by the Commission." 47 C.F.R. § 52.20(d) states: "The Pooling Administrator shall be a non-governmental entity that is impartial and not aligned with any particular telecommunications industry segment, and shall comply with the same neutrality requirements that the NANPA is subject to under this part."

using a “safety valve” mechanism (paragraphs 57-66). The FCC contemplated the need for, and gave structure to states to respond when denials failed to consider a “specific customer request”.

14. An essential aspect of the “safety valve” provision is the accelerated response that is provided for in the FCC’s Order: States should act upon such a request in most instances in 10 business days, as noted by the FCC.

Finally, we recognize that in many instances, the failure to address a request for additional numbering resources can impair a carrier’s ability to stay in or expand business. We therefore direct states to act on carrier requests for a safety valve as expeditiously as possible. Although we do not establish a specific time limit for states to act on these requests, we believe that, in most instances, 10 business days from receipt of a request that the state determines to be sufficiently detailed and complete will be sufficient time to review and act upon safety valve requests. If a state does not reach a decision on a safety valve request within a reasonable timeframe, carriers may submit such requests to the Commission for resolution. In addition, carriers may appeal to the Commission safety valve decisions made by states, and we delegate authority to the Common Carrier Bureau to review such petitions as expeditiously as possible.

Id. at Paragraph 66.

15. TCAL seeks the TPUC’s review of NeuStar’s decision to withhold resources from it on the grounds that it: (1) violates the orders and rules of the FCC which grant carriers access to numbering resources to meet specific customer demands upon a sufficient showing of need and (2) interferes with TCAL’s ability to serve its customer. As the FCC has stated, “Under no circumstances should consumers be precluded from receiving telecommunications services of their choice from providers of their choice for want of numbering resources.” FCC Order No. 00-429 at Paragraph 61. By refusing to grant numbering resources to meet this customer’s

needs, the decision prevents the customer from obtaining the service of its choice from its carrier of choice, TCAL.

Relief Sought

For these reasons, TCAL respectfully requests the TRA to expeditiously review NeuStar's decision denying TCAL's request for additional numbering resources and order NeuStar to provide the requested numbers to meet the specific requirements of TCAL's customer.

Respectfully submitted,

GULLETT, SANFORD, ROBINSON & MARTIN

**ORDER APPROVING REQUEST OF TELEPORT COMMUNICATIONS
OF AMERICA, LLC ("TCAL") FOR EXPEDITED REVIEW OF GROWTH CODE DENIAL AND
REVERSING CENTRAL OFFICE CODE DENIAL**

This matter came before the Tennessee Public Utility Commission ("TPUC") for consideration of the *Petition for Expedited Review of Central Office Code Denial* filed by Teleport Communications of America, LLC - TN ("TCAL"). After consideration of the facts contained in the record and the applicable law, TPUC approves the request of TCAL and reverses the Pooling Administrator's denial of TCAL's request for additional numbering resources.

IT IS THEREFORE ORDERED THAT:

1. The Pooling Administrator's decision to deny TCAL's request for additional numbering resources is reversed as stated herein.
2. The Pooling Administrator is ordered to assign request for the Jasper rate center served by switch identification CHTGTNNSXEY.

Hospital Corporation of America®

December 15, 2017

HCA - Information Technology & Services, Inc. dba
Parkridge East Hospital
941 Spring Creek Road
Chattanooga, TN 37412

AT&T TNAC,

This Letter of Intent represents a request by Parkridge East Hospital for a contiguous block of 3000 new AT&T Telephone Numbers to be added to the IP Flexible Reach BVoIP service. Parkridge East Hospital intends to order service, in the CHATTANOOGA TN rate center, on the ATLNGATLGT9(P) switch pending AT&T's successful completion of the required testing. Parkridge East Hospital intends to activate these numbers within 180 days from AT&T's receipt of the numbers.

HCA - Information Technology & Services, Inc. dba Parkridge East Hospital currently has no existing network configuration and therefore technical restrictions do not exist.

At its founding in 1968, Nashville-based HCA was one of the nation's first hospital companies. Today, we are the nation's leading provider of healthcare services, a company comprised of locally managed facilities that includes about 177 hospitals and 119 freestanding surgery centers in 20 states and in the United Kingdom. HCA is currently employing approximately 240,000 employees, with 37,000 physicians and 80,000 nurses. Approximately four to five percent of all inpatient care delivered in the country today is provided by HCA facilities.

Sincerely,

A handwritten signature in cursive script that reads "Cynthia Bailey".
