contractor hit service. No leak but line crushed. Service exposed. mountjd 12/26/2017 1:25:18 PM: the line that was supposedly crushed is underneath a plate in middle of traffic lane. spoke to fsr that came and looked at it, he said he wasn't positive that is was anything that needed fixed, said it looked like a copper line that had been crimped by a backhoe. the meters are at the opposite end of the lot from where the plate is, checked an empty setter and it had plenty of water on it.
