Subject: I vote NO
Importance: High

Ms. Hatfield,

I am a customer of Chattanooga Gas. I understand they have asked for a rate increase. I VOTE NO to any increase. I have had several issues with their contractors and/or employees and their ability to do their jobs correctly. If Chattanooga Gas were to look within and make their operations more efficient they would not need an increase in rates. Their incompetence does not justify any rate increase.

I plan on starting a petition in Chattanooga to stop this increase. I have always lived by the philosophy that "don't make your problem my problem". Their incompetent Management does not qualify them for an increase to overcome their mistakes.

I would be more than happy to come before the Commission to inform them of information I have about my personal dealings.

Sincerely
Mr. Martelle
