NASHVILLE, TENNESSEE

PETITION OF TENNESSEE-AMERICAN WATER COMPANY REGARDING CHANGES TO THE QUALIFIED INFRASTRUCTURE INVESTMENT PROGRAM RIDER, THE ECONOMIC DEVELOPMENT INVESTMENT RIDER, AND THE SAFETY AND ENVIRONMENTAL COMPLIANCE RIDER AND IN SUPPORT OF THE CALCULATION OF THE 2018 CAPITAL RECOVERY RIDERS RECONCILIATION	)	**DOCKET NO. 18-00022**

TENNESSEE-AMERICAN WATER COMPANY'S RESPONSE TO SECOND DISCOVERY REQUEST OF THE CONSUMER PROTECTION AND ADVOCATE DIVISION

Tennessee-American Water Company ("TAWC"), by and through counsel, hereby submits its Response to the Second Discovery Request propounded by the Consumer Protection and Advocate Division ("CPAD").

GENERAL OBJECTIONS

1. TAWC objects to all requests that seek information protected by the attorney-client privilege, the work-product doctrine and/or any other applicable privilege or restriction on disclosure.

2. TAWC objects to the definitions and instructions accompanying the requests to the extent the definitions and instructions contradict, are inconsistent with, or impose any obligations beyond those required by applicable provisions of the Tennessee Rules of Civil Procedure or the rules, regulations, or orders of the Tennessee Public Utility Commission ("TPUC" or "Authority").

3. The specific responses set forth below are based on information now available to TAWC, and TAWC reserves the right at any time to revise, correct, add to or clarify the objections or responses and supplement the information produced.

4. TAWC objects to each request to the extent that it is unreasonably cumulative or duplicative, or seeks information obtainable from some other source that is more convenient, less burdensome or less expensive.

5. TAWC objects to each request to the extent it seeks information outside TAWC's custody or control.

6. TAWC's decision, now or in the future, to provide information or documents notwithstanding the objectionable nature of any of the definitions or instructions, or the requests themselves, should not be construed as: (a) a stipulation that the material is relevant or admissible, (b) a waiver of TAWC's General Objections or the objections asserted in response to specific discovery requests, or (c) an agreement that requests for similar information will be treated in a similar manner.

7. TAWC objects to those requests that seek the identification of "any" or "all" documents or witnesses (or similar language) related to a particular subject matter on the grounds that they are overbroad and unduly burdensome, and exceed the scope of permissible discovery.

8. TAWC objects to those requests that constitute a "fishing expedition," seeking information that is not relevant or reasonably calculated to lead to the discovery of admissible evidence and is not limited to this matter.

9. TAWC does not waive any previously submitted objections to the CPAD's supplemental discovery requests.

TENNESSEE AMERICAN WATER COMPANY
DOCKET NO. 18-00022
SECOND DISCOVERY REQUEST OF THE
CONSUMER ADVOCATE AND PROTECTION DIVISION

Responsible Witness: **Linda C. Bridwell**

Question:

1. Refer to "TAW_2017_Capital_Rider_Recon.xlsx" and "TAW_2017_CapRider_Cost_Detail.xlsx" that were filed with the Company's Petition. Describe the Company's process of taking the charges as detailed in tab "WKP-Charge Detail" in the file "TAW_2017_CapRider_Cost_Detail.xlsx" and assigning them to specific Business Unit subaccounts as detailed in the tab "WKP 2017 Actuals" in the file "TAW_2017_Capital_Rider_Recon.xlsx". Provide an excel file of the tab "WKP-Charge Detail" in the file "TAW_2017_CapRider_Cost_Detail.xlsx" with the ending subaccount for each entry.

Response:

Each month, charges are made to the individual projects under construction. The projects have distinct accounting codes referred to as either work orders or WBS elements. Each charge will have a charge type that describes the nature of the charge in general categories. The tab "WKP-Charge Detail" in the file "TAW 2017 CapRider Cost Detail.xlsx" is the full listing of all of the charges on all of the projects, or WBS elements, that are included in the filing.

Once the project is finished, the project manager codes the work order or WBS element as completed. As part of the completion process, the project manager unitizes the project charges to the appropriate NARUC plant accounts in the asset management system. All of the charge types, in summary, are assigned to the NARUC plant accounts by that pro-rated unitization. As a simple example, if a main replacement project is unitized upon completion with 80% to the NARUC account 331001 for mains, and 20% to the NARUC account 333000 for services, all of the charge types, in total, will be assigned to those plant accounts on the same proration. So if there were $1,000 in labor charges in total on the same project, $800 would be apportioned to the NARUC plant account 331001 for mains, and $200 would be assigned automatically to the NARUC plant account 333000 for services. The software system of record-keeping assigns these charges automatically.

The tab "WKP 2017 Actuals" reflects the charges in total by NARUC plant account that was placed in-service during 2017.

Because of this process, TAWC is not able to provide the requested information specifically in the format presented. Each charge is not assigned to each NARUC plant account at the time the charge is made to the work order. However, to assist the CPAD in

review of the detailed information, TAWC has prepared a spreadsheet that compares the 2017 charges included in the current filing by charge type, and by NARUC plant account placed in-service during 2017. This file includes both the "WKP-Charge Detail" tab, and the "WKP 2017 Actuals" tab. Then a new tab has been created titled "Work Order SummaryRecon" which compares the totals from each distinct work order by Charge Detail amount, and by NARUC plant amount. The totals are the same.
