ATMOS ENERGY CORPORATION
UNANIMOUS CONSENT OF BOARD OF DIRECTORS

The undersigned, being all of the members of the Board of Directors of Atmos Energy Corporation, a Texas and Virginia corporation (the "Company"), do hereby give written consent to the adoption of, and do hereby adopt, the following recitals and resolutions:

WHEREAS, on September 22, 2016, Management presented to the Board of Directors at its meeting that day the five year financial plan for the Company for fiscal years 2017 through 2021 (the "Five Year Plan");

WHEREAS, the Five Year Plan includes the capital budget for fiscal 2018 for the Company's Mississippi Division in the total amount of $93.3 million;

WHEREAS, the Mississippi Public Service Commission has ordered the Company to file a System Integrity Rider (SIR) filing each March 1st, approximately six months prior to the Company's annual Stable Rate Filing;

WHEREAS, the Mississippi Public Service Commission requires written evidence of the Board of Directors' approval of the Company's forward-looking jurisdictional capital spending on an annual basis prior to the Commission's approval of new rates for the Company;

WHEREAS, the Five Year Plan includes the capital budget for fiscal 2018 for the Tennessee operations of the Company's Kentucky Mid-States Division in the total amount of $51.9 million;

WHEREAS, the Tennessee Regulatory Authority has approved the Company's Annual Review Mechanism (ARM) tariff and has ordered the Company to make an ARM filing each February 1st;

WHEREAS, each Tennessee ARM filing utilizes a forward-looking test year that is, in part, dependent upon the planned level of investment for the following fiscal year; and

WHEREAS, Management believes it is prudent to also provide written evidence to the Tennessee Regulatory Authority of the Board of Directors' approval of the Company's forward-looking jurisdictional capital spending on an annual basis in connection with the Authority's approval of the Company's ARM filings in the State of Tennessee.

NOW, THEREFORE BE IT RESOLVED, that the capital budget for fiscal 2018 for the Company's Mississippi Division in the total amount of $93.3 million be, and the same hereby is, approved, subject to the project level details being finalized during the course of the Company's normal annual budgeting cycle; and

FURTHER RESOLVED, that the capital budget for fiscal 2018 for the Tennessee operations of the Company's Kentucky Mid-States Division of $51.9 million, be, and the same hereby is, approved, subject to the project level details being finalized during the course of the normal annual budgeting cycle.

ATMOS ENERGY CORPORATION
UNANIMOUS CONSENT OF BOARD OF DIRECTORS

The undersigned, being all of the members of the Board of Directors of Atmos Energy Corporation, a Texas and Virginia corporation (the "Company"), do hereby give written consent to the adoption of, and do hereby adopt, the following recitals and resolutions:

WHEREAS, on September 21, 2017, Management presented to the Board of Directors at its meeting that day the five year financial plan for the Company for fiscal years 2018 through 2022 (the "Five Year Plan");

WHEREAS, the Five Year Plan includes the capital budget for fiscal 2019 for the Company's Mississippi Division in the total amount of $95.3 million;

WHEREAS, on December 5, 2017, the Mississippi Public Service Commission issued an order approving the creation of the Infrastructure Expansion Initiative for a period of five years, under which the Company is expected to spend up to $5 million annually to provide natural gas service each year to up to 1,000 households presently without such service, as part of the Company's annual Stable Rate Filing;

WHEREAS, the Mississippi Public Service Commission has ordered the Company to file a System Integrity Rider (SIR) filing each March 1st, approximately four months prior to the Company's annual Stable Rate Filing;

WHEREAS, the Mississippi Public Service Commission requires written evidence of the Board of Directors' approval of the Company's forward-looking jurisdictional capital spending on an annual basis prior to the Commission's approval of new rates for the Company;

WHEREAS, the Five Year Plan includes the capital budget for fiscal 2019 for the Tennessee operations of the Company's Kentucky Mid-States Division in the total amount of $59.3 million;

WHEREAS, the Tennessee Public Utility Commission (formerly, the Tennessee Regulatory Authority) has approved the Company's Annual Review Mechanism (ARM) tariff and has ordered the Company to make an ARM filing each February 1st;

WHEREAS, each Tennessee ARM filing utilizes a forward-looking test year that is, in part, dependent upon the planned level of investment for the following fiscal year; and

WHEREAS, Management believes it is prudent to also provide written evidence to the Tennessee Public Utility Commission of the Board of Directors' approval of the Company's forward-looking jurisdictional capital spending on an annual basis in connection with the Commission's approval of the Company's ARM filings in the State of Tennessee.

NOW, THEREFORE BE IT RESOLVED, that the capital budget for fiscal 2019 for the Company's Mississippi Division in the total amount of $100.3 million, including up to $5 million to be spent on the Infrastructure Expansion Initiative during fiscal 2019, be, and the same hereby is, approved, subject to the project level details being finalized during the course of the Company's normal annual budgeting cycle; and

FURTHER RESOLVED, that the capital budget for fiscal 2019 for the Tennessee operations of the Company's Kentucky Mid-States Division of $59.3 million, be, and the same hereby is, approved, subject to the project level details being finalized during the course of the normal annual budgeting cycle.

REQUEST:

Provide a copy of the current Atmos-TN and Atmos corporate chart of accounts or similar document which lists the accounts by number along with a definition of the transactions recorded to such accounts. Identify any new subaccounts and any subaccounts that have been discontinued since similar information provided in Docket No. 17-00143. For accounting associated with subaccounts that have been discontinued, please identify the new account used to record these transactions.

RESPONSE:

Please see Attachment 1 for the chart of accounts. The Company disclosed added and disabled accounts and subaccounts on Attachment B to the Certificate filed with the petition in this docket as required by the ARM tariff.

Docket No. 18-00067
Atmos Energy Corporation, Tennessee Division
CPAD Informal DR Set No. 1
Question No. 1-03

REQUEST:

With reference to Ms. Story's testimony concerning the TCJA, provide a copy of all workpapers underlying Ms. Story's testimony in this Docket No. 18-00067 and in the Petition in Docket No. 18-00034, in electronic format with cell references intact, that have not otherwise been provided.

RESPONSE:

Reverse South Georgia Method ("RSG") Attachments:

- TCJA §13001(d)
- RSGM Amortization Period
- IRS Rev. Proc. 88-12
- Tax Reform Act of 1986, page 84

Calculation Attachments:

- TCJA Impacts on Atmos Books 12-31-17 - supports amounts in Docket No. 18-00034
- 18-00067 Calculations - supports amounts in Docket No. 18-00067

Please note that during preparation of the response to the request, the Company identified necessary changes to the regulatory liability for excess deferred income taxes and the associated deferred tax asset for the tax gross-up of this amount included in Docket No. 18-00067. Please see Attachment 7 for a revised revenue requirement model reflecting these changes.

(d) NORMALIZATION REQUIREMENTS.—

(1) IN GENERAL.—A normalization method of accounting shall not be treated as being used with respect to any public utility property for purposes of section 167 or 168 of the Internal Revenue Code of 1986 if the taxpayer, in computing its cost of service for ratemaking purposes and reflecting operating results in its regulated books of account, reduces the excess tax reserve more rapidly or to a greater extent than such reserve would be reduced under the average rate assumption method.

(2) ALTERNATIVE METHOD FOR CERTAIN TAXPAYERS.—If, as of the first day of the taxable year that includes the date of enactment of this Act—

(A) the taxpayer was required by a regulatory agency to compute depreciation for public utility property on the basis of an average life or composite rate method, and

(B) the taxpayer's books and underlying records did not contain the vintage account data necessary to apply the average rate assumption method, the taxpayer will be treated as using a normalization method of accounting if, with respect to such jurisdiction, the taxpayer uses the alternative method for public utility property that is subject to the regulatory authority of that jurisdiction.

(3) DEFINITIONS.—For purposes of this subsection—

(A) EXCESS TAX RESERVE.—The term ''excess tax reserve'' means the excess of—

(i) the reserve for deferred taxes (as described in section 168(i)(9)(A)(ii) of the Internal Revenue Code of 1986) as of the day before the corporate rate reductions provided in the amendments made by this section take effect, over

(ii) the amount which would be the balance in such reserve if the amount of such reserve were determined by assuming that the corporate rate reductions provided in this Act were in effect for all prior periods.

(B) AVERAGE RATE ASSUMPTION METHOD.—The average rate assumption method is the method under which the excess in the reserve for deferred taxes is reduced over the remaining lives of the property as used in its regulated books of account which gave rise to the reserve for deferred taxes. Under such method, during the time period in which the timing differences for the property reverse, the amount of the adjustment to the reserve for the deferred taxes is calculated by multiplying—

(i) the ratio of the aggregate deferred taxes for the property to the aggregate timing differences for the property as of the beginning of the period in question, by

(ii) the amount of the timing differences which reverse during such period.

(C) ALTERNATIVE METHOD.—The ''alternative method'' is the method in which the taxpayer—

(i) computes the excess tax reserve on all public utility property included in the plant account on the basis of the weighted average life or composite rate used to compute depreciation for regulatory purposes, and

(ii) reduces the excess tax reserve ratably over the remaining regulatory life of the property.

(4) TAX INCREASED FOR NORMALIZATION VIOLATION.—If, for any taxable year ending after the date of the enactment of this Act, the taxpayer does not use a normalization method of accounting for the corporate rate reductions provided in the amendments made by this section—

(A) the taxpayer's tax for the taxable year shall be increased by the amount by which it reduces its excess tax reserve more rapidly than permitted under a normalization method of accounting, and

(B) such taxpayer shall not be treated as using a normalization method of accounting for purposes of subsections (f)(2) and (i)(9)(C) of section 168 of the Internal Revenue Code of 1986.

Department of the Treasury
Internal Revenue Service
Revenue Procedure

REV. PROC. 88-12, 1988-1 C.B. 637

SECTION 1. PURPOSE

This revenue Procedure provides a method for reducing the "excess tax reserve" for certain public utility taxpayers. In general, the method satisfies the requirements of section 203(e) of the Tax Reform Act of 1986 (the Act), 1986-3 (Vol. 1) C.B. 63, if used by taxpayers that are unable to utilize the average rate assumption method because they have been required by a regulatory agency to compute depreciation on public utility property on the basis of an average life or composite rate method, as opposed to a method involving the use of vintage accounts.

SEC. 2. BACKGROUND

.01 Under a normalization method of accounting, the amount of tax expense that a taxpayer reports for ratemaking purposes includes a deferred tax amount to reflect the fact that the taxpayer is using an accelerated method of depreciation for federal income tax purposes. For taxable years beginning on or after July 1, 1987, section 601 of the Act, 1986-3 (Vol. 1) C.B. 166, reduces from 46 percent to 34 percent the maximum federal income tax applicable to corporations. Section 203(e) of the Act provides rules for reducing the excess tax reserve resulting both from that reduction and from the smaller reduction in rates for tax years starting before and ending after (straddling) July 1, 1987.

.02 Section 203(e) of the Act provides that a normalization method of accounting shall not be treated as being used with respect to any public utility property, for purposes of section 167 or 168 of the Internal Revenue Code, f the taxpayer, in computing its cost of service for ratemaking purposes and reflecting operating results in its regulated books of account, reduces its excess tax reserve more rapidly or to a greater extent than such reserve would be reduced under the average rate assumption method. Section 203(e)(2)(A) of the Act defines the term "excess tax reserve" as the excess of (i) the reserve for deferred taxes, described in section 167(1)(3)(G)(ii) of the Code (or former section 168(e)(3)(B)(ii) as in effect on the day before the enactment of the Act), over (ii) the amount that would be the balance in the reserve if the amount of the reserve were determined by assuming that the corporate tax rates provided by the Act were in effect for all prior periods. Section 203(e) also applies with respect to the excess tax reserve that occurs from the normalization requirement that taxpayers provide for deferred taxes at a rate in excess of 34 percent for any tax year (for example, a calendar year) that straddles July 1, 1987.

.03 The legislative history of the Act, however, indicates that section 203(e) of the Act does not apply to any amount of excess tax reserve generated from reductions in corporate tax rates that occurred before the enactment of the Act. For example, section 203(e) does not apply to any excess tax reserve resulting from the reduction in the maximum corporate tax rate from 48 percent to 46 percent under the Revenue Act of 1978, sect ion 301 , 1978-3 (Vol.1) C.B. 54. See S. Rep. No. 313, 99th Cong., 2d Sess. 98 (1986), 1986-3 (Vol. 3) C.B. 98 (Senate Report); H.R. Rep. No. 426, 99th Cong., lst Sess. 149 (1985), 1986-3 (Vol. 2) C.B. 149 (House Report). The provisions of prior law apply to the treatment of any excess tax reserve occurring from such previous rate reductions. Of course, a taxpayer may use the average rate assumption method with respect to any excess tax reserve, including a reserve to which section 203(e) does not apply, without violating the normalization rules.

Moreover, the provisions of section 203(e) of the Act apply only with respect to the excess tax reserve resulting from depreciation occurring in years beginning before July 1, 1987, with respect to assets placed in service before January 1, 1987. See Senate Report at 98; see also House Report at 149.

Finally, the provisions of section 203(e) apply only with respect to the excess tax reserve resulting from depreciation "timing" differences that were required to be normalized under section 167 or 168 of the Code. Thus, for example, section 203(e) of the Act does not apply to the excess tax reserve resulting from the normalization of other book/tax timing differences, as described in section *1.167(1)-1(a)(1)* of the Income Tax Regulations (for example, state income taxes). Cf. Rev. Rul. 87-139 , *1987-52 I.R.B. 13*, 14, which concludes

Bloomberg Law®

© 2018 The Bureau of National Affairs, Inc. All Rights Reserved. Terms of Service

that section 203(e) applies to the "voluntary" normalization method adopted by a taxpayer as described in that ruling.

.04 Section 203(e)(2)(B) of the Act defines the average rate assumption method as the method under which the excess tax reserve is reduced over the remaining lives of the property (as used in a public utility's regulated books of account) that gave rise to the reserve for deferred taxes. Under this method, the amount of the annual adjustment to the reserve for deferred taxes is the product of (i) the ratio of the aggregate deferred taxes for the property to the aggregate timing differences for the property (the applicable average rate), and (ii) the amount of the timing differences that reverse during the year. The calculation is made as of the beginning of the year in which timing differences in the vintage account begin to reverse, that is, the first year in which the tax depreciation taken with respect to the vintage account is less than the amount of depreciation reflected in the regulated books of account computed on the tax basis. Thus, under the average rate assumption method, excess tax reserves pertaining to a particular vintage or vintage account are not flowed-through to ratepayers until such time as the timing differences in the particular vintage account reverse. Moreover, it is a violation of section 203(e) of the Act for taxpayers to adopt any accounting treatment that, directly or indirectly, circumvents the rule set forth in the previous sentence.

In addition, section 203(e) of the Act does not modify the normalization requirements of section 167(1) or section 168(i) of the Code. For example, a violation of the normalization rules occurs if a taxpayer provides for deferred taxes with respect to a particular vintage account at a tax rate less than the statutory rate applicable to the taxpayer for the current year in question.

.05 Some taxpayers have been required by regulatory agencies to depreciate property for regulatory purposes using a weighted average life or composite rate. A method of depreciation that uses a weighted average life or composite rate focuses on the entire plant and does not account for property by vintage accounts. Consequently, taxpayers that use this method may not have adequate data to apply the average rate assumption method.

SEC. 3 SCOPE

A taxpayer is described in this section 3 if, as of the first day of the taxable year that includes July 1, 1987, (i) the taxpayer was required by a regulatory agency to compute depreciation for public utility property on the basis of an average life or composite rate method, and (ii) the taxpayer's books and underlying records did not contain the vintage account data necessary to apply the average rate assumption method. If a taxpayer is subject to the jurisdiction of more than one regulatory body, the determination of the adequacy of the vintage accounting records for each asset or group of assets shall be determined on a jurisdiction-by-jurisdiction basis.

SEC. 4. DEFINITION OF REVERSE SOUTH GEORGIA METHOD

.01 In general, a taxpayer uses a method described in this section 4 if it (a) computes the excess tax reserve on all public utility property included in the plant account on the basis of the weighted average life or composite rate used to compute depreciation for regulatory purposes, and (b) reduces the excess tax reserve ratably over the remaining regulatory life of the property. This method is sometimes referred to as the "Reverse South Georgia Method."

.02 SPECIAL RULE IF A TAXABLE YEAR STRADDLES JULY 1, 1987. A taxpayer uses the method described in section 4 if the excess tax reserve is computed as of the first day of the year by subtracting from the reserve for deferred taxes (described in section 167(1) or 168(i)(9) of the Code) the amount that would be the balance of such reserve if the amount were determined by assuming that the weighted average tax rate for the year were in effect for all prior periods. (However, any reserve amount to which section 203(e) of the Act does not apply, as discussed in section 2.03 of this revenue procedure, is not required to be included in the excess tax reserve that is subject to ratable reduction under the Reverse South Georgia Method. Instead, the requirements of prior law apply to any such reserve amount). For a taxable year that straddles July 1, 1987, any reasonable method of calculating the weighted average tax rate shall be allowed under section 203(e) . or example, under one acceptable method, the weighted average tax rate may be computed by using the marginal tax rate (46 percent) for the portion of the taxable year prior to July 1, 1987, and the marginal tax rate (34 percent) for the portion of the taxable year after July 1, 1987, weighted by the number of days in each period.

If the taxpayer has a taxable year that straddles July 1, 1987, then the taxpayer uses the method described by

© 2018 The Bureau of National Affairs, Inc. All Rights Reserved. Terms of Service

this section 4 for its succeeding taxable year if the excess tax reserve as of the first day of the succeeding taxable year is redetermined by subtracting from the reserve for deferred taxes (described in section 167(1) or 1 68(i)(9) of the Code) the amount that would be the balance of such reserve if the amount were determined by assuming that a 34 percent tax rate had been in effect for all prior periods. Redeterminations of the excess tax reserve are not made for subsequent years. Adjustments to the unamortized excess tax reserve may only be made to reflect asset retirements.

SEC. 5. APPLICATION

.01 If a taxpayer that is described in section 3 of this revenue Procedure with respect to a jurisdiction uses the Reverse South Georgia Method described in section 4 for public utility property that is subject to the regulatory authority of that jurisdiction, then with respect to that property for that taxable year the taxpayer is deemed to satisfy the normalization requirements of section 203(e) of the Act.

.02 The use of the method described in section 4 by a taxpayer whose books and underlying records contain vintage year data for public utility property constitutes a violation of the requirements contained in section 203(e) of the Act if that method reduces the excess tax reserve more rapidly than the reserve would be reduced under the average rate assumption method.

SEC. 6. EFFECTIVE DATE

This revenue Procedure is effective for any taxable year subject to section 203(e) of the Act.

DRAFTING INFORMATION

The principal author of this revenue Procedure is Michael J. Hahn of the Corporation Tax Division. For further information regarding this revenue Procedure, contact Noel J. Sheehan on (202) 566-3928 (not a toll-free call).

REQUEST:

Refer to page 4, lines 1-12 of Ms. Story's testimony in Docket No. 18-00067. Provide a copy of the journal entries made in December 2017 to implement the TCJA on the books of Atmos-TN, along with a comprehensive explanation supporting each entry. Provide this information for the following divisions 091, 002, 012 and 093.

RESPONSE:

Please see Attachment 1 to the Company's response to CPAD DR No. 1-03, "TCJA Impacts on Atmos Books 12-31-17" for the detail of the excess deferred taxes, gross up and one-time benefit attributed to Tennessee for divisions 091, 002, 012 and 093.

The Company did not record separate journal entries for the impacts shown above. The Company included the comprehensive impacts of the TCJA in the calculation of its FY18 quarter 1 provision and included the amounts in the quarter 1 journal entries.

REQUEST:

Refer to page 6 of Ms. Story's testimony in Docket No. 18-00067. Confirm that the amortization period associated with unprotected excess ADIT is within the discretion of state regulators, regardless of whether ARAM or the RSGM method is used to amortize protected ADIT. If this is not confirmed, provide an explanation. In addition, provide a summary of the amortization period(s) approved for unprotected excess ADIT by the regulatory commissions in each of the States in which Atmos operates.

RESPONSE:

Confirm. The amortization period associated with unprotected excess ADIT is within the discretion of state regulators, regardless of the method used to amortize protected ADIT. As described more fully in the Company's response to CPAD DR No. 1-14, the Company believes that all excess ADIT related to plant and to the net operating loss carryforward is subject to the normalization provisions and therefore protected. The unprotected excess ADIT is provided with the Company's response to CPAD DR No. 1-03, Attachment 6 "18-00067 Calculations," and is a regulatory asset in the amount of $668,434.

To date, the Company has received approval to concurrently amortize protected and unprotected excess ADIT in Kentucky, Colorado, Louisiana, and Mississippi. The Company anticipates implementing rates in the majority of its Texas distribution properties on October 1, 2018 that reflects concurrent amortization for protected and unprotected. Please note that the amortization period for each state is specific to that state, based on the net plant and depreciation rates.

REQUEST:

Refer to page 5 of Ms. Story's testimony, lines 18 - 26 in Docket No. 18-00067. Is it the position of Atmos that the write-down of the value of any deferred tax asset supported by a NOLC must be used to offset the reduction in the ADIT Liability resulting from the tax change to avoid a normalization violation? If so, explain such position fully and with specificity, and further provide any statute, regulation, revenue ruling, private letter ruling, or other authoritative basis supporting or to the contrary of this position.

RESPONSE:

It is the Company's position that the excess deferred taxes resulting from the NOLC must be used to offset the excess deferred taxes resulting from plant-related ADIT in order to avoid a normalization violation.

Please see page 4 of Jennifer Story's Direct Testimony, Docket No. 18-00067, lines 13-22 for an explanation of the normalization requirements described in section 13001(d) of the TCJA. These requirements prohibit the return of the reserve for excess deferred income taxes more quickly than would occur using ARAM, or in the Company's case, the RSGM.

It has been clearly established that the Company's NOLC deferred tax asset is protected by the normalization provisions of the IRC. Many Private Letter Rulings ("PLRs") have been issued in recent years that establish that any NOLC resulting from accelerated depreciation must be included in rate base in order to comply with the normalization provisions. Included in the following PLRs, which reach this conclusion, is one received by the Company. Although these PLRs are not precedential for Atmos Energy in Tennessee, they demonstrate the consistent position of the IRS that the NOLC deferred tax asset is protected by the normalization provisions.

Date Issued	PLR Number
February 9, 1988	8818040
August 21, 2015	201534001
September 5, 2014	201436037 and 201436038
September 19, 2014	201438003
May 8, 2015	201519021
November 27, 2015	201548017
March 3, 2017	201709008

If the Company were to flow back the reserve for excess deferred taxes associated with plant-related ADIT more quickly than it flowed back the reserve for excess deferred taxes resulting from the NOLC, a normalization violation would occur. The reserve for excess deferred income taxes would be returned more quickly than that which would occur using the RSGM. In the example below, assume that the RSGM amortization period for protected excess deferred taxes is 10 years and that the Commission does not allow the Company to flow back the reserve for excess deferred taxes resulting from the NOLC.

Reserve for EDIT	Amount	Amortization Period Ordered by Commission
Plant-Related	(1,000,000)	10 years
NOLC	500,000	None
Total EDITL	(500,000)	
Annual Amortization	(100,000)	
Amortization Allowed - Sec 13001(d) TCJA	(50,000)	

In this example, the Company would be returning the reserve ($100,000 per year) more quickly than that which would occur using the RSGM ($50,000 per year).

Moreover, the Company believes that the excess deferred taxes resulting from the NOLC should be used to offset the excess deferred taxes resulting from plant-related ADIT in order to properly flow back to customers that portion of the cost free loan the Company received but will no longer have to repay to the government. Flowing back excess deferred tax liabilities without flowing back the resulting NOLC would result in the return of a benefit greater than the Company actually received.

REQUEST:

Refer to page 7, lines 2 - 4 of Ms. Story's testimony in Docket No. 18-00067. Provide a comprehensive discussion of the public policy support for the adoption of a 28-year amortization period for the balance of unprotected excess ADIT. In your response, also explain the intergenerational customer implications of such amortization period on consumers who paid rates based on a higher tax rate, but under Atmos' proposal might never benefit from the flowback of the excess ADIT amortization.

RESPONSE:

As shown in Attachment 6 to the Company's response to CPAD DR No. 1-03, "18-00067 Calculations," the balance of unprotected excess ADIT is a regulatory asset in the amount of $668,434. The Company has proposed to amortize this amount over the same period as plant-related excess ADIT for administrative ease and for the benefit of current customers. While the Company acknowledges the potential for intergenerational cost-shifting resulting from this approach, the amount of the regulatory asset is relatively small and so the impact would be minimal.

REQUEST:

Refer to page 10 of Ms. Story's testimony, lines 13 - 20, in Docket No. 18-00067. Provide the impact of the new federal tax rate on the Atmos NOLC, allocated to its Tennessee jurisdiction.

RESPONSE:

Please see Attachment 6 to the Company's response to CPAD DR No. 1-03, "18-00067 Calculations" for the new federal tax rate and the impact on the Atmos Energy NOLC allocated to its Tennessee jurisdiction.

REQUEST:

Refer to page 10 of Ms. Story's testimony in Docket No. 18-00067. State the pre-TCJA balance of Atmos' NOLC and provide all supporting computations for the derivation of this balance that are available for the period 2010 - 2017. These computations would include the starting balance (if any) in 2010 and an annual reconciliation between book and tax income for the requested period.

RESPONSE:

The Pre-TCJA balance of Atmos Energy's regulated NOLC was $782,273,466. For a reconciliation of the requested NOLC since 2010, please see the following attachments:

REQUEST:

Refer to page 10 of Ms. Story's testimony, lines 13 - 20 in Docket No. 18-00067. Provide projections for the Atmos-TN taxable income for each fiscal period ending in calendar years 2018 through 2020. To the extent there is not a Tennessee-specific taxable income projection for each such period, provide any document supporting Atmos' expected or anticipated taxable income in Tennessee for any such period for which there is not an Atmos-TN projected taxable income.

RESPONSE:

As explained in Jennifer Story's Rebuttal Testimony in Docket No. 17-00091, page 20 lines 1-15, taxable income calculations are not prepared for operating divisions such as Atmos Energy Tennessee. Likewise, the Company is unable to prepare taxable income projections for an individual operating division such as Atmos Energy Tennessee.

At the Company's fiscal year end a high-level taxable income projection is calculated for Atmos Energy Corporation, Inc. using the Company's pre-tax book income and capital spending estimates from its most recent five year plan. The purpose of this projection is to determine whether certain deferred tax assets and credit carryforwards are likely to be realized. This projection was prepared last during the Company's fiscal year end in September 2017. The TCJA was enacted in December 2017, during the Company's current fiscal year. The impacts of the TCJA will be incorporated into the projection that will be prepared at the Company's fiscal year end in September 2018. No consolidated taxable income projection is currently available to satisfy this request.

Prior to the enactment of the TCJA, the Company's taxable income projections indicated that Atmos would begin to utilize its net operating loss carryforwards within the five year plan window. This conclusion was reached before enactment of the TCJA, and assumed the Company would be eligible for bonus depreciation for several more years. The TCJA excluded utilities from the 100% expensing provisions, thereby reducing tax depreciation the Company previously anticipated deducting. As a result the Company still believes that it will begin to utilize net operating loss carryforwards within the five year plan window.

REQUEST:

Refer to page 10 of Ms. Story's testimony, lines 13 - 20, in Docket No. 18-00067. Confirm that the NOLC asset recorded on the books of Atmos-TN is based upon corporate results that are then allocated to Atmos-TN? If this is confirmed, provide any statute, regulation, revenue ruling, private letter ruling, or other authoritative basis supporting or to the contrary of this position. If this is not confirmed, provide a comprehensive explanation supporting the Atmos methodology for determining the appropriate NOLC asset balance associated with Tennessee regulated operations. In addition, if not confirmed, provide any statute, regulation, revenue ruling, private letter ruling, or other authoritative basis supporting or to the contrary of this position.

RESPONSE:

Confirm. Please see Jennifer Story's Rebuttal Testimony in Docket No. 17-00091, pages 17-23 for a discussion of the Company's methodology for calculating taxable income and loss in accordance with Treasury Reg §1.1502-11. This testimony also describes the methodology and rationale for allocating the net operating loss carryforward to operating divisions such as Atmos Energy Tennessee.

REQUEST:

Refer to Ms. Story's testimony, page 10, lines 13 - 20 in Docket No. 18-00067. For any deferred tax asset recorded on the books of Atmos as of November 30, 2017 and as of December 31, 2017, provide a split of such balance between that portion represented by a NOLC and any other portion related to book/tax timing differences for each of the two periods.

RESPONSE:

The requested information is included in the detail provided in the relied upon file "c. ADIT to Rates Oct 2017.xlsx".

REQUEST:

Referring to page 7 of Ms. Story's testimony in Docket No. 18-00067, provide the estimated cumulative book/tax differences by line item that support the balance of the ADIT of Atmos-TN as of November 30, 2017 and as of December 31, 2017. If not apparent from the line item title, describe the makeup of each line item in this analysis.

RESPONSE:

Please see the detail provided in the relied upon file "c. ADIT to Rates Oct 2017.xlsx". The makeup of the fixed asset deferred items are described below.

CWIP
Many different types of costs go into projects constructed by the Company. For tax purposes, the Internal Revenue Code and related regulations may prescribe a methodology different from the financial books for calculating and capitalizing these costs. To the extent there are differences between the book methodology and the tax methodology, these differences will be reflected as deferred tax assets or liabilities. While a project remains in progress and not completed, any difference between the book capitalization methodology and the tax capitalization methodology will be reflected as a CWIP related deferred tax asset or liability. Items that commonly have differences include: aid in construction, capitalized interest, capitalized overhead, and capitalized software.

RWIP
Many different types of costs go into projects constructed by the Company, and part of the costs of constructing new projects involves the removal of old mains, compressors, regulators or other equipment. The costs associated with constructing new projects go into CWIP, while projects costs involved with removal go into RWIP. Differences between the book methodology and the tax methodology for removal projects in process but not yet completed result in RWIP related deferred tax assets or liabilities.

Fixed Asset Cost Adjustment
The capitalization of costs for assets is treated differently for financial and income tax accounting purposes. Differences may arise from the acquisition of assets either through a stock or asset purchase and reflect the difference in treatment, cost allocation, or basis presentation of the acquired assets. Other cost basis differences result from differences in methods between book accounting and tax accounting for items such as capitalized interest, contributions in aid of construction, capitalization of overhead and capitalization of repair and maintenance expenses. In addition, tax legislation such as the enactment or extension of bonus depreciation results in cost basis differences. Cost basis differences are initially reflected within CWIP (Construction Work in Process). As projects within CWIP are completed and assets are placed in service, the basis difference moves to Fixed Asset - Cost Adjustment.

Depreciation Adjustment

For federal income tax purposes, Atmos Energy depreciates assets using the modified accelerated cost recovery method promulgated by §168 of the Internal Revenue Code ("IRC"). For financial statement purposes, Atmos Energy follows a method of depreciation that is acceptable under generally accepted accounting principles ("GAAP"). Use of the modified accelerated cost recovery method for tax purposes results in assets being depreciated faster for income tax accounting than for financial accounting. This difference results in a deferred tax liability early in the life of the assets. This deferred liability reverses as the assets are depreciated. This ADIT item represents the difference between total accumulated tax depreciation, excluding bonus depreciation, and accumulated depreciation computed for financial statement purposes.

Section 481(a) TPR

In 2013, the final Tangible Property Regulations were issued and generally effective for tax years beginning on or after January 1, 2014. The Company evaluated the final regulations, as compared to the Company's current methodology of calculating deductible tax repairs. The Company has estimated $12,270,892 in reduced repairs deductions and increased depreciation deductions as a result of the final Tangible Property Regulations. Absent additional safe harbor rules being issued prior to the filing of the Company's tax return, the Company will be required to reflect this unfavorable § 481(a) adjustment equally on the next four tax returns. For financial statement purposes, ¼ of this amount has been recognized for fiscal year ended 9/30/16 and a deferred liability has been established for the remainder.

Section 481(a) Cushion Gas

For tax purposes, recoverable cushion gas is capitalized as a non-depreciable asset and non-recoverable cushion gas is capitalized and depreciated pursuant to Revenue Ruling 97-54. For book purposes, cushion gas is capitalized and depreciated.

Section 481(a) Line Pack Gas

For tax purposes, recoverable line pack gas is capitalized as a non-depreciable asset and non-recoverable line pack gas is capitalized and depreciated pursuant to Revenue Ruling 97-54. For book purposes, line pack gas is treated as a component of inventory.

REQUEST:

Referring to page 7 of Ms. Story's testimony in Docket No. 18-00067, with respect to the individual book/tax timing differences that comprise the December 31, 2017 ADIT balance, provide a split of the items between the 'protected' and 'unprotected' categories. If an item contains both protected and unprotected elements, provide a full explanation of how the split between the two categories were determined.

RESPONSE:

Please see Attachment 6 to the Company's response to CPAD DR No. 1-03, "18-00067 Calculations" for the detail of ADIT balances split between plant and non-plant categories. See the explanation below for the plant and non-plant category classification.

Section 13001(d) of the Tax Cuts and Jobs Act ("TCJA") specifically addresses the return of excess deferred income taxes ("EDIT"). The TCJA requires the amortization of excess deferred taxes in accordance with the Internal Revenue Code ("IRC") normalization requirements and prohibits utilities from reducing the reserve for EDIT more rapidly or to a greater extent than such reserve would be reduced under either the Average Rate Assumption Method ("ARAM") or the alternative method referred to as the Reverse South Georgia method ("RSG"). Atmos Energy maintains its accounting records in accordance with FERC requirements and Generally Accepted Accounting Principles. Book depreciation is computed using rates approved in the jurisdictions Atmos operates in. In order to use ARAM, Atmos Energy must calculate and track accumulated depreciation for assets by vintage. Since the ARAM methodology does not align with the FERC accounting records requirements applicable to Atmos Energy, or the methodology required in Tennessee, Atmos Energy did not create and thus does not possess the types of records necessary to use ARAM. Instead, the RSG must be used.

Atmos Energy must amortize the EDIT utilizing the RSG method. RSG amortizes the EDIT over the life of the underlying property that gave rise to the EDIT. Under this method, a taxpayer computes the excess tax reserve on all public utility property included in the plant accounts and amortizes such reserve on the basis of the weighted average life or the composite rate used to compute depreciation for regulatory purposes. The excess tax reserve on all public utility property are those EDIT created by differences in book and tax methods for depreciable assets. In addition, Atmos Energy's deferred tax asset for tax net operating losses are also protected by the IRC normalization provisions. Therefore, the EDIT resulting from tax net operating losses must also be amortized over the same period as the property related EDIT. This method reduces the excess tax reserve ratably over the remaining regulatory life of the property. Atmos Energy proposes to amortize all EDIT, both property related and non-property related, over the amortization period determined using the RSG method.

Since the RSG method requires the Company to amortize all plant related excess deferred taxes over the same time period, the Company has provided data for plant and non-plant related excess ADIT in response to this request for protected and unprotected EDIT information.

REQUEST:

Refer to page 3 of the Petition in Docket No. 18-00034 where it states that certain excess taxes associated with non-regulated operations or items that were never included in Atmos cost of service were reflected in Atmos results of operations for the fiscal period September 2018. With respect to this statement, respond to the following:

(a) Provide a complete listing of those items and the amounts that Atmos determined met the criteria identified in the Petition.

(b) For each item listed provide a comprehensive explanation supporting why these items related to non-regulation operations or were excluded from the rate.

(c) For each item contained in the list provide a description of the nature of the difference.

(d) Provide a copy of the journal entries reflected each such item on the list.

(e) Identify the date each journal entry referenced above was made.

RESPONSE:

a) Please see Attachment 5 to the Company's response to CPAD DR No. 1-03, "TCJA Impacts on Atmos Books 12-31-17." Excess deferred income taxes resulting from the remeasurement of the NOLC deferred tax assets relating to nonregulated operations and book/tax differences were reflected in the Company's results of operations at December 31, 2017.

b) The NOLC ADIT items for nonregulated operations and for book/tax differences are not included in rate base in Tennessee. Therefore, the related excess deferred taxes were written off upon enactment of the TCJA.

c) Federal NOL Credit Carryforward Other - GAAP reporting requirements differ from tax return calculations of the NOL Carryforward ("NOLC"). These differences currently result in an increase to the Company's NOLC deferred tax asset recorded on the Company's books. This increase has no impact on the Company's tax filings. This deferred tax asset results from a state FIN 48 item unrelated to Tennessee operations or Tennessee income tax filings. The ADIT items is therefore appropriately excluded from rate base in Tennessee.

Federal Non-regulated NOLC - this ADIT item results from taxable income and loss generated by nonregulated operations. This amount is included on the Company's response to CPAD DR No. 1-09, Attachment "Federal NOL." It is calculated by reference to the Company's tax filings. It is excluded from rate base in Tennessee.

d) The Company did not record separate journal entries for the impacts shown above. The Company included the comprehensive impacts of the TCJA in the calculation of its FY18 quarter 1 provision and included the amounts in the quarter 1 journal entries.

e) The Company's tax entries for the first quarter of its fiscal year 2018 were recorded on December 31, 2017.

REQUEST:

Referring to page 3 of the Petition in Docket No. 18-00034, Atmos indicates it has recognized (written off) excess deferred taxes associated with items that were not included in the Company's rate base and items that were never reflected in the Company's cost of service. Within its accounting entries made to record the effects of the TCJA has Atmos assigned any of its NOLC balance to items not included in regulated rate base?

(a) If not, provide a comprehensive discussion supporting the determination that it is not appropriate to write-off a portion of its NOLC balance associated with items not included in rate base.

(b) If so, provide the calculations and all underlying assumptions used in quantifying the portion of NOLC associated with non-regulated or non-rate base items.

RESPONSE:

No assignment of the NOLC balance is performed by the Company. The Company used the Approved Methodologies as the starting point for the determination of whether the excess deferred income taxes for any NOLC asset were recorded to the net excess deferred income tax regulatory liability or whether they were written off. The NOLC asset for utility operations is included in rate base in Tennessee pursuant to the Approved Methodologies. Therefore, the related excess deferred income taxes were recorded to the net excess deferred income tax regulatory liability. Likewise, the NOLC ADIT items for nonregulated operations and for book/tax differences are not included in rate base in Tennessee. Therefore, the related excess deferred taxes were written off upon enactment of the TCJA.

a) Please see the Company's response above.

b) Please see Attachment 5 to the Company's response to CPAD DR No. 1-03, "TCJA Impacts on Atmos Books 12-31-17" for support detailing the remeasurement of the NOLC assets recorded on the Company's books.

REQUEST:

Refer to page 6 of the Petition in Docket No. 18-00034. Is it Atmos' position that the lack of *vintage asset* information is the exclusive reason that Atmos cannot use the ARAM method?

(a) If so, identify the type and cost of assets where vintage asset information is not known.

(b) If not, provide the information in subpart (a) plus identify all other reasons the ARAM method cannot be used.

RESPONSE:

In order to use ARAM, book and tax cost and *accumulated depreciation must be calculated and tracked for assets by vintage*. While the Company calculates and tracks book and tax asset cost by vintage, Company records lack the necessary book accumulated depreciation vintage data required for ARAM.

Atmos Energy maintains its accounting records in accordance with FERC requirements and Generally Accepted Accounting Principles ("GAAP"). Book depreciation is computed using rates approved in the jurisdiction Atmos Energy operates in. In order to use ARAM, Atmos Energy must calculate and track book and tax accumulated depreciation for assets by vintage. Atmos Energy does not track book accumulated depreciation by vintage and therefore has determined the records do not contain the necessary data to use ARAM. Please see Jennifer Story's Direct Testimony in Docket No. 18-00067, page 5, lines 9-17.

a) Atmos Energy does not have vintage information for book depreciation for all assets. Please see explanation above.

b) Not applicable.

REQUEST:

Refer to page 6 of the Petition in Docket No. 18-00034. Is it Atmos' position that the RSGM must be used for all book / tax timing differences or only those related to plant?

RESPONSE:

The Company's position is that RSGM must be used for plant-related excess deferred taxes and excess deferred taxes related to the Company's NOLC. Please see the Company's response to CPAD DR No. 1-07 for an explanation for the proposal to flow back excess deferred taxes for unprotected amounts over the same time period.

REQUEST:

Refer to page 6 of the Petition in Docket No. 18-00034. Provide all support for Atmos' conclusion that if the ARAM method cannot be used, then the RSGM must apply to all plant book/tax timing differences, not simply depreciation differences.

RESPONSE:

The normalization provisions of the TCJA indicate that when using the Alternative Method (RSGM), the excess tax reserve subject to these provisions includes all plant book/tax timing differences. Please see the Company's response to CPAD DR No. 1-03, Attachment 1.

> Section 13001(d)(3)(C) describes the requirements when using the Alternative Method (RSGM) as follows: (C) ALTERNATIVE METHOD.-The "alternative method" is the method in which the taxpayer-
>
> (i) computes the excess tax reserve on all public utility property included in the plant account on the basis of the weighted average life or composite rate used to compute depreciation for regulatory purposes, and
>
> (ii) reduces the excess tax reserve ratably over the remaining regulatory life of the property.

In addition, there are several reasons unrelated to the normalization provisions that it is appropriate to flow back excess deferred taxes associated with plant book/tax timing differences over the remaining life of the underlying regulatory assets.

First, the flow-back of these excess deferred taxes should be done ratably over the life of the asset giving rise to the deferred taxes in order to avoid inter-generational inequity between customers today and those customers in the future that will continue to pay for the asset.

Second, the economics of flowing back these excess deferred taxes more quickly would be harmful to the Company and ultimately customers. Investment decisions have been made taking into account the cash flow for the payment of taxes, whether the payment is to the federal government or a return of excess deferred taxes to the customer. These payments should be made over the same period of time so as not to invalidate the economics underlying those investment decisions which have already been made based on the previous tax law. A rapid flow back of these excess deferred taxes could negatively impact Atmos Energy's cost of capital and credit rating. These consequences would result in increased cost to customers. The weighted average cost of capital will increase at a faster rate with a rapid flow back of the excess deferred income taxes. In addition, the negative cash flow implications for Atmos could result in degradation of credit ratings which will increase financing costs of investments and ultimately the weighted average cost of capital.

REQUEST:

With reference to the discussion of the requirement to use a blended income tax rate for the Atmos' fiscal period ending September 2018, as discussed on pages 3 and 4 of the Petition in Docket No. 18-00034, provide the following:

(a) A complete discussion of how the blended income tax rate would be calculated for operations ended September 2018, along with supporting calculations.

(b) A complete discussion of how the blended income tax rate would be calculated for operations ended May 2018, along with supporting calculations.

RESPONSE:

a) Since the Company's fiscal year end is September, the Company must use a blended rate to calculate federal income tax expense for fiscal year 2018. The calculation of this rate is prescribed by IRC §15 and is based on the number of days in the taxpayers year subject to the prior enacted rate and the number of days in the taxpayers year subject to the newly enacted rate. This results in a blended federal tax rate of 24.5% for the Company for the fiscal year ended September 2018.

Please see Attachment 1 for a calculation of the 24.5% FY18 tax rate.

b) The May 2018 tax rate would be calculated in the same manner as the September 30, 2018 tax rate described in (a), using the number of days in the twelve month period subject to each statutory rate. This would result in a blended federal tax rate of 29.26%.

Please see Attachment 2 for a calculation of the May 2018 tax rate.

IN THE TENNESSEE PUBLIC UTILITY COMMISSION
AT NASHVILLE, TENNESSEE

IN RE:	)	
	)	
TENNESSEE PUBLIC UTILITY COMMISSION INVESTIGATION OF IMPACTS OF FEDERAL TAX REFORM ON THE PUBLIC UTILITY REVENUE REQUIREMENTS	)	**Docket No. 18-_____**

RESPONSE OF ATMOS ENERGY CORPORATION TO THE COMMISSION'S ORDER OPENING AN INVESTIGATION AND REQUIRING DEFERRED ACCOUNTING TREATMENT

Pursuant to the Commission's February 6, 2018 Order, Atmos Energy Corporation ("Atmos Energy" or the "Company") respectfully submits this response (1) describing the impacts of the Tax Cuts and Jobs Act ("TCJA") on Atmos Energy's financial operations and providing an estimate of excess accumulated deferred income taxes ("ADIT"); (2) explaining how the effects of the TCJA will be reflected in the Company's rates and confirming that it is tracking, in a deferred account, the portion of its revenue representing the difference between the cost of service approved by the Commission in the Company's most recent ARM docket (*see* Docket No. 17-00012) and the cost of service that would have resulted had the provision for federal income taxes been based on 21% rather than 35%; and (3) proposing a method to reduce Atmos Energy's rates to reflect some of the TCJA's impacts more quickly than would be reflected through the use of the Company's Annual Review Mechanism ("ARM").

I. Executive Summary

As soon as the TCJA was signed into law, Atmos Energy began taking necessary action to value and record the TCJA's impacts on the Company's financial operations. This included revaluing the Company's ADIT to reflect that Atmos Energy will not have to pay taxes at the level anticipated when those funds were collected from customers. This process also included taking into account the tax rate change when calculating the most recently approved cost of service.

In addition, Atmos Energy immediately began the process of discerning potential paths to incorporate the savings into customer rates such that customers may see the benefits of the TCJA as soon as possible in a way that comports with the rates and regulatory constructs in each of the eight states in which the Company operates. As described further below, because of the use of a comprehensive ARM in Tennessee rather than reliance on traditional general rate cases, these benefits will be fully incorporated into customer rates without any additional action necessary from the Commission. However, the Company proposes a means to allow the Commission to lower existing rates to reflect the tax change from the TCJA more quickly, should it so desire.

This filing describes the TCJA's impact on the Company's financial operations, including the determination of an estimated $29.3 million of excess ADIT associated with the Company's operations in Tennessee. It includes (1) a calculation of the difference between the cost of service approved by the Commission in the Company's most recent ARM and the cost of service that would have resulted had the provision for federal income taxes been based on 21% rather than 35% and (2) an estimate of the excess deferred tax liability resulting from the TCJA.

II. The TCJA's Impact on Atmos Energy's Financial Operations

The impacts to Atmos Energy's financial operations are best understood by bifurcating the impacts between those that occurred upon enactment of the TCJA and those that will occur over the long term in each subsequent quarter and fiscal year.

Financial Impact upon Enactment

Reduction in the federal corporate tax rate required the Company to revalue its Accumulated Deferred Income Taxes ("ADIT") using the new statutory tax rate. Deferred taxes represent taxes due or payable in the future when items of income and expense are recognized for tax purposes in a period different than they are recognized for financial reporting purposes. ADIT simply represents the accumulated tax for all items deferred to future periods. ADIT is accrued to the balance sheet at the currently enacted statutory tax rate; thus, a lowering of the statutory tax rate results in an excess of ADIT accrued in prior periods, or excess deferred taxes.

These excess deferred taxes must be removed from the balance of the Company's ADIT account. This was done in two ways. Excess deferred taxes associated with regulated operations were removed by establishing a new regulatory liability for refund to customers. Excess deferred taxes associated with items that were not included in the Company's rate base or for items that were never reflected in the Company's cost of service were recognized as a onetime non-cash impact to the Company's fiscal year ended September 30, 2018, earnings.

In addition to revaluing ADIT, the Company will take into account the tax rate change when calculating current year earnings. Atmos Energy is a September 30th fiscal year taxpayer, complicating the calculation. Section 15 of the Internal Revenue Code ("IRC") requires the Company to use a blended tax rate in the year of enactment if the enactment date does not fall on the first day of the Company's fiscal year. Since this is the case for Atmos Energy, taxes calculated

for the Company's fiscal year ending September 30, 2018, will use a blended federal statutory tax rate. This rate must be used for current year earnings and for the portion of ADIT expected to reverse during the current fiscal year.[1]

In addition, since the TCJA was enacted during the Company's first quarter, only three months of actual results existed at the time of the calculation of current year activity. Estimates for activity occurring during the remainder of the year were used in calculating the impact to fiscal year ended September 30, 2018. While the Company believes these estimates are reasonable, actual results recorded during the fiscal year likely will require adjustments to the Company's revaluation of ADIT and the resulting regulatory liability amounts.

The implementation of the TCJA had no immediate impact on cash flow or the overall balance of liabilities included in establishing customer rates. The combined total of the revalued ADIT balance and the regulatory liability established to refund excess deferred taxes equals the total pre-TCJA ADIT liability (the amount normally recorded as a decrease to rate base in Company filings).

[1] Exhibit A calculates the annual impact of the tax rate change from 35% to 21% in order to strike new rates based on the lower cost of service. Those new rates will ultimately be effective for service rendered on and after January 1, 2018 through a combination of deferred accounting and/or implementation of the Company's proposal described in Section IV below and thus it is appropriate to use 21% in calculating cost of service.

Financial Impact Post-Enactment (Excess ADIT)

Beginning October 1, 2018, the IRC requirement to use a blended rate will no longer be applicable, and the Company will utilize a federal statutory rate of 21% to calculate current year earnings.

The regulatory liability recorded upon enactment of the TCJA for excess deferred taxes will be returned to customers through a reduction in rates as part of the Company's next forward-looking ARM filing. The timing of that filing, which would have normally been filed February 1, 2018 pursuant to the Company's ARM tariff, is pending the outcome of Docket No. 17-00091. The amount of excess ADIT is currently estimated at $29.3 million. That amount has been recognized as a deferred liability on the Company's books. The precise amount of excess ADIT will not be known until sometime in November 2018, after the end of the Company's fiscal year; however, the estimate is not expected to change materially. The Company and the Commission will have to determine how to amortize this regulatory liability back to customers in a manner that conforms to the requirements of the IRC.

The IRC specifies how the regulatory liability for certain excess ADIT should be amortized to customers. Failure to follow the IRC amortization procedures would have adverse tax consequences for the Company, which would lead to an increase in the Company's cost of service and a corresponding increase to customer rates. The IRC requires that "protected" excess ADIT be amortized back to customers using the Average Rate Assumption Method ("ARAM"), unless the Company's records do not contain the necessary data to use this method, in which case the IRC prescribes the use of the Reverse South Georgia method. Under this method a taxpayer computes the excess tax reserve on all public utility property included in the plant account based on the weighted average life or composite rate used to compute depreciation for regulatory purposes, then

reduces the excess tax reserve ratably over the remaining regulatory life of the property. At a high level, the IRC-prescribed amortization methodologies amortize the excess ADIT back over the life of the underlying property that gave rise to the excess ADIT.

A notable distinction between the two methodologies is that the ARAM methodology is applicable only to those excess ADIT balances which arise due to book-to-tax depreciation differences, i.e. method and life of depreciation differences. The excess ADIT associated with depreciation is deemed to be "protected" by the normalization rules which require the use of the ARAM for amortization. Excess ADIT balances associated with other plant related differences are not protected and the use of the ARAM to amortize the other plant related excess ADIT balances is not required. The Reverse South Georgia method differs from ARAM in that it applies to excess ADIT associated with all public utility property and not just that associated with depreciation. Therefore, the use of the Reverse South Georgia method results in excess ADIT balances for all public utility property being protected and subject to the amortization as computed under the method.

The Company maintains its accounting records in accordance with FERC requirements and Generally Accepted Accounting Principles. Book depreciation is computed using rates approved in the jurisdictions the Company operates in. To use the ARAM, the Company must calculate and track accumulated depreciation for assets by vintage. Since this methodology does not align with FERC requirements applicable to Atmos Energy or the methodology required in Tennessee, the Company has determined that it does not possess the appropriate records necessary to utilize the ARAM. Instead, the Reverse South Georgia method must be used, which is defined as the "alternative method" in the TCJA.[2] At this time, the Company is working with consultants and its

[2] *See* TCJA §1651(d)(2)-(3).

auditors to determine the time required to make any necessary modifications to the Company's tax and plant accounting systems in order to calculate amortization using the Reverse South Georgia method. Until such modifications are complete and the Company is able to perform a full and detailed computation of amortization, the best estimate the Company can provide is an amortization period of 24 years.

The enactment of the TCJA is expected to reduce Company cash flows from operations primarily due to 1) the collection of taxes at a lower rate and 2) the return of regulatory liabilities established in response to the enactment of the TCJA and regulatory activities to utility customers. Atmos Energy intends to externally finance this reduction in operating cash flow in a balanced fashion, so as to maintain an equity capitalization ratio ranging from 50% to 60%, and preserve its current credit ratings. Atmos Energy currently anticipates this incremental external financing need will range from $500 million to $600 million through its fiscal year 2022.

Recognizing the TCJA's impact on cash flows and the loss of bonus depreciation treatment, on January 19, 2018, Moody's Investors Service ("Moody's") revised downward its outlooks of 25 US regulated utilities. Atmos Energy was not one of those 25 companies, primarily due to the Company's strong credit metrics. Atmos Energy has strengthened its balance sheet by building its equity as it continues through a period of increasing capital investment to maintain its safe and reliable system. Therefore, because the Company intends to maintain its capital structure in the above-referenced range, Atmos Energy does not expect financial impacts due to changes in its credit rating in the foreseeable future, assuming supportive regulatory treatment as it navigates the challenges created by the TCJA.

III. How the Effects of the TCJA will be Reflected in Atmos Energy's Rates and Tracking of a Deferred Regulatory Liability

Taxes, like all other prudently incurred costs, are passed through to customers through the Company's rates. Atmos Energy is committed to ensuring its customers receive full benefit of reduced cost of service resulting from the TCJA. Atmos Energy's rates in Tennessee are set every year pursuant to its ARM tariff.

Due to the nature of the ARM, which contains a reconciliation mechanism, all of the benefits of the tax change resulting from the TCJA will automatically flow through to the Company's customers in time. Essentially, the reconciliation mechanism results in a process of annual "true-ups," in which over-collections and/or under-collections are adjusted to ensure that the Company recovers no more and no less revenue than is required to earn its allowed rate of return. Since the tax changes resulting from the TCJA reduce Atmos Energy's overall tax expense, the Company's cost of service is also reduced. That in turn lowers the amount of tax expense that needs to be recovered in the Company's currently effective rates. Accordingly, at the next ARM reconciliation filing, the Company's rates will be adjusted to reflect any current over-collection of tax expense caused by the TCJA that has and will occur between January 1, 2018 and either the implementation of new forward-looking rates filed pursuant to the ARM tariff, or Commission acceptance of the Company's proposal outlined in Section IV below.

Pursuant to the Commission's Order of February 6, 2018, the Company has been tracking the portion of its revenue representing the difference between the cost of service approved by the Commission in its most recent rate filing and the cost of service that would have resulted had the provision for federal income taxes been based on 21% rather than 35% in a deferred account. Exhibit A calculates the difference between the currently effective rates approved by the Commission and the rates that would have resulted had the provision for federal income taxes in

those rates been based on 21% rather than 35%. On an annual basis, the over-collection caused by the difference in rates is estimated to be $4.2 million, which is also shown on Exhibit A. Through February 28, 2018, the Company has deferred $998,631.

IV. Proposal to Reflect Some of the Effects of the TCJA in Rates More Quickly

Rather than waiting for the next ARM forward-looking filing to provide customers the benefit of the TCJA's lower tax rates, the Company proposes to lower its rates sooner. Approximately five business days after the issuance of a Commission Order, the Company could lower its currently effective rates to those shown on Exhibit A. This would lower the gas bills of Atmos Energy's customers going forward and immediately provide them the benefits of the tax change. Upon the implementation of these rates, there would be no difference between the Company's new rates and the rates resulting from the TCJA and therefore no need to continue tracking and deferring the difference.

For over-collections of tax expense prior to the issuance of such a Commission Order, those amounts have been recorded in the deferred account. As part of the next reconciliation filing, the dollar-amount in the deferred account would be reflected as an over-collection of tax expense when reconciling the Company's cost of service for that time period.

V. Conclusion

As described above, the tax changes resulting from the TCJA result in excess ADIT and a reduction in ongoing tax expense. The Company is tracking both, consistent with the Commission's order of February 6, 2018. These benefits will flow through to the Company's customers automatically under the normal operation of the forward-looking filing and the reconciliation of the Company's ARM, without any additional action by the Commission. However, should the Commission wish to expedite the reduction in rates resulting from the TCJA's

reduction in income tax expense, the Company proposes that the Commission issue an order approving the lower rates outlined in Exhibit A, effective five days after the Commission's order. This would immediately reflect the reduced tax expense in the Company's rates going forward; excess ADIT and prior over-collections would be incorporated into rates within the context of the next forward-looking filing and next annual reconciliation filing, respectively. Under either option, Atmos Energy's customers ultimately will receive the full benefits of the reduction in the Company's cost of service resulting from the TCJA from January 1, 2018, forward.

Respectfully submitted,

NEAL & HARWELL, PLC

REQUEST:

Has Atmos taken the Repair Allowance deduction on their Tennessee State Excise and Federal Tax returns? If so, identify the cumulative book/tax timing differences estimated through December 2017 and indicate whether the excess ADIT portion of such differences are considered 'protected' or 'unprotected' ADIT and provide a comprehensive explanation supporting this conclusion.

RESPONSE:

Atmos Energy has taken the repairs deduction for federal income tax purposes pursuant to Treasury Regulations §1.168(i)-8, §1.162-3 and §1.263(a)-2. Tennessee does not decouple from these provisions for purposes of state excise tax.

The Company believes that excess ADIT related to all book/tax plant differences, including repairs, is protected by the normalization provisions. Please see the Company's response to CPAD DR No. 1-19 for a detailed explanation.

The Company includes numerous utility plant adjustments in the Fixed Asset Cost Adjustment ADIT category. These adjustments include, but are not limited to, acquisition related adjustments, differences in methods between book accounting and tax accounting for items such as capitalized interest, contributions in aid of construction, capitalization of overhead and capitalization of repair and maintenance expenses. In addition, tax legislation such as the enactment or extension of bonus depreciation results in cost basis differences. Most cost basis differences are initially reflected within CWIP (Construction Work in Process). As projects within CWIP are completed and assets are placed in service, the basis difference moves to Fixed Asset - Cost Adjustment. The Company does not track the cumulative balance of individual cost basis differences such as the repair deduction, but rather records these items in the Fixed Asset Cost Adjustment ADIT item. Due to the cumulative nature of the ADIT and the Company's methodology for recording and tracking these basis adjustments, there is no feasible way to quantify the individual amounts within the Fixed Asset Cost Adjustment.

REQUEST:

With reference to the book/tax timing differences resulting from the cost of asset removal, which impact the excess ADIT balance as referenced on page 10 of Ms. Story's testimony in Docket No. 18-00067, provide the following information:

(a) Define the estimated cumulative TN book/tax timing differences as of December 31, 2017 resulting from differences in the recognition of accrued removal costs recorded pursuant to GAAP and such costs recognized as a deduction for tax purposes.

(b) Provide a comprehensive explanation of how these book/tax timing differences were determined.

(c) Provide a comprehensive explanation supporting Atmos' determination of whether such differences contribute to 'protected' or 'unprotected' ADIT, along with all relevant support for this conclusion.

RESPONSE:

a) The Company is unable to provide cumulative ADIT amounts for individual basis differences. Please see the detailed explanation in the Company's response to CPAD DR No. 1-22.

b) For book purposes, removal costs are accrued by incorporation into the approved depreciation rates in each jurisdiction the Company operates in. For tax purposes, costs of removal are deductible when incurred.

Since accrued book costs of removal are included in accumulated depreciation and these costs are not included in tax depreciation, the book/tax timing difference for these costs is initially included in the Company's Fixed Asset Depreciation ADIT amount.

When Atmos Energy made the tax Accounting Method Change to begin deducting certain repair and maintenance costs that are capitalizable for book purposes, a tax Accounting Method Change was also made to redefine the Company's tax unit of property. As a result, the tax unit of property for linear distribution utility property (mains and services) is a hydraulic subsystem.

When linear distribution assets are retired for book purposes, cost of removal is identified. The book retirement of these assets results in a tax repair deduction if certain criteria are met. In this case the costs of removal are also deducted for tax purposes. If the disposal is not eligible for tax repair treatment, no tax retirement occurs unless an entire hydraulic subsystem is retired, since that is the defined tax unit of property. Instead, the assets remain capitalized and the associated costs of removal are also capitalized for tax purposes. These capitalized costs of removal are included in the Fixed Asset Cost ADIT amount.

c) Please see the Company's response to CPAD DR No. 1-19. Atmos Energy believes that all excess deferred taxes related to plant book/tax differences are protected by the normalization provisions.

REQUEST:

With reference to the discussion of the use of estimates on page 5 of the Petition in Docket No. 18-00034, confirm that Atmos believes the use of estimates for excess ADIT in conjunction with subsequent true-up to actual excess ADIT balances, after actual information is known, does not pose a potential normalization violation. Explain your response fully and with specificity.

RESPONSE:

As described in Jennifer Story's Direct Testimony in Docket No. 18-00034, the enactment of the TCJA in the Company's first quarter of its fiscal year necessitated the use of estimates in determining the regulatory liability for excess deferred income taxes and the amortization period for flowing back these amounts to customers. In addition, the Company is in the process of making necessary system modifications to better align its tax fixed asset data with the various regulatory filings in each of its operating jurisdictions. The normalization provisions prohibit the amortization of the excess deferred income taxes more quickly than that which would occur using the ARAM, or in the Company's case, the alternative method (RSGM). Atmos Energy took the conservative approach of calculating the estimated amortization period for Tennessee by using net plant from the financial statements and projected annual book depreciation for the current fiscal year. Since net plant for regulatory purposes is not expected to be higher than net plant for financial statement purposes, the result should be an amortization period that is at least as long as that which will be calculated using the RSGM when the Company's system modifications are complete. It is for this reason that the Company believes the estimated amortization period will not result in a normalization violation.

REQUEST:

With reference to WP7-4 in conjunction with WP7-1 in Docket No. 18-00067, provide a comprehensive explanation reconciling the reference to the reduction in NOLC on WP7-1 with the NOLC forecast on WP7-4 (that indicates the May 2019 forecasted balance of the Regulated NOLC is identical to that of the December 2017 balance).

RESPONSE:

WP7-4 presents balances prior to the NOLC forecast that is performed on WP7-1. The forecast on WP7-1 is performed in compliance with the Approved Methodologies. Because the Company is in an NOLC position, 100% of the income tax expense calculated as part of the revenue requirement in this case will be deferred tax expense (as opposed to current tax expense). For this reason the total change in ADIT must equal the amount of income tax included in the filing. The NOLC variable is calculated to arrive at that outcome.

REQUEST:

With reference to Schedule 8 in Docket No. 18-00067, the reference on line 10 is identified as Current Tax Liability. Further refer to WP7-1, excel line 112, which reflects an apparent reduction in NOLC from December 2017 through May 2019. Referring to the forecasted NOLC:

(a) Confirm Atmos anticipates making federal income tax payments. If this is not confirmed, provide a comprehensive explanation, including the reason for change in NOLC forecasted in this filing.

(b) Confirm that the NOLC balance contained in this filing represents the budged thirteen-month average NOLC balance for the period ended May 31, 2019.

(c) Provide a thorough explanation supporting how the Atmos method of forecasting the NOLC balance within the Attrition period complies with the IRS Normalization Requirements.

RESPONSE:

a) Confirm. Atmos Energy anticipates utilizing its net operating loss carryforward and making federal income tax payments in the future. No federal income tax payments are anticipated to be made within the test period of this filing. For the test period ended May 31, 2019, utilization of the net operating loss carryforward is reflected on WP7-1, line 112.

b) Confirmed.

c) In order to ensure compliance with the normalization rules in the Internal Revenue Code, the Company has determined that it must project its Net Operating Loss Carryforward, ("NOLC") balance in jurisdictions that employ forward looking test periods (including Tennessee). Treasury Regulation §1.167(l)-1(h)(6)(ii) provides the procedure for determining the amount of the reserve for deferred taxes to be excluded from rate base or to be included as no-cost capital. The issuance of several Private Letter Rulings ("PLRs") clarified the methodology required to avoid violating the normalization provisions of the Internal Revenue Code. In this filing the Company has forecasted ADIT in a manner that complies with the normalization provisions of § 1.167(l)-1(h)(6)(i) and (ii). The IRS has been clear that inclusion of the NOLC-related Deferred Tax Asset ("DTA") in rate base is required for normalization. This reflects the true cost-free capital the Company has received from the government. Therefore, the appropriate method for inclusion of the NOLC-related DTA in future test periods is to project it in a manner consistent with projected ADIT. The Company has done so in this filing.

Because the Company is in an NOLC position, 100% of the income tax expense calculated as part of the revenue requirement in this case will be deferred tax expense (as opposed to current tax expense). For this reason the total change in ADIT must equal the amount of income tax included in the filing. The NOLC variable is calculated to arrive at that outcome.

REQUEST:

Refer to the Plant Balances 2018 TN case in Docket No. 18-00067, within the Non-reg ADIT tab. Provide a copy of all supporting workpapers for the Non-regulated ADIT contained in the referenced file.

RESPONSE:

Please see the Company's response to CPAD DR No. 1-09 for workpapers supporting the NOLC resulting from non-regulated operations.

REQUEST:

With reference to the NOLC balance assigned to Atmos' Tennessee regulated operations as embedded within WP7-2, as submitted in Docket No. 18-00067, provide the following:

(a) The year in which Atmos first began to assign a deferred tax asset to its Tennessee operations.

(b) The allocated NOLC balance assigned to Tennessee operations for ratemaking purposes for the thirteen-month period ended September, 2017.

(c) Provide each fiscal year-end balance of NOLC asset assigned to Tennessee for each fiscal year end 2010 through the current period.

(d) Cross reference the NOLC asset assignment to accounts and tabs (if appropriate) provided within File 10, the Atmos Trial Balance submitted within Docket No. 18-00067 for the period September 2016 - September 2017.

RESPONSE:

a) As stated in the Company's response to CPAD DR No. 1-16, no assignment of the NOLC balance is performed. The NOLC is allocated to Tennessee for ratemaking purposes only as part of each rate filing.

b) This amount can be derived from the relied files, specifically "c. ADIT to Rates Oct 2017.xlsx" (tab "002" row 106) and the allocation factor applied to division 002 ADIT (4.33% found on WP7-2)

c) Please see relied file "c. ADIT to Rates Oct 2017.xlsx" for September balances recorded for the NOLC resulting from utility operations. Only in the context of general rate cases prior to 2014 and pursuant to the ARM tariff since 2014 is the NOLC allocated to Tennessee. In each instance, it is allocated for ratemaking purposes using the prevailing allocation factor at the time of the filing. Allocation factors can be found in the record of each Docket since 2010.

d) As described in Jennifer Story's Rebuttal Testimony in Docket No. 17-00091, the Company files a consolidated income tax return. For this reason, the Company's NOLC ADIT assets are recorded to its Shared Services division for financial statement purposes. This is shown in the relied files provided, "c. ADIT to Rates Oct 2017.xlsx" and "s. Plant Balances 2018 TN Case.xlsx". No allocation to individual operating jurisdictions is made on the Company's books and records.

REQUEST:

Provide a copy of all Tennessee Excise tax returns submitted to the State of Tennessee by Atmos for the periods encompassing 2010 - 2017.

RESPONSE:

Please see confidential Attachment 1 for the Atmos Energy Corporation, Inc., Tennessee tax returns for FY10 - FY17.

ATTACHMENT:

ATTACHMENT 1 - Atmos Energy Corporation, CPAD_1-29_Att1 - FY10-FY17 TN Tax Returns (CONFIDENTIAL).pdf, 76 Pages

REQUEST:

For each State in which Atmos has regulated operations, provide the annual amount of State income tax payment for the period 2010 - 2017. If 2017 tax returns have not been finalized, provide such information through 2016.

RESPONSE:

Please see Attachment 1 for calculated income tax liability and income tax payments made by year for each state in which Atmos Energy has regulated operations. Please note that the Company has net operating loss carryforwards in many states, including Tennessee. This is why calculated income tax liability is greater than income tax payments made in many cases.

REQUEST:

Identify any state (other than Tennessee) that Atmos operates in which authorizes the setting of base rates based upon budgeted financial data. Provide a copy of the regulatory order or state statute authorizing the comprehensive use of budgeted data in the setting of base rates.

RESPONSE:

Five of the eight states (including Tennessee) served by the Company allow budgeted data to be used for some or all recovery of the Company's cost of service. The components of cost of service that utilize budgeted data for ratemaking in each state are listed below:

State	Budgeted cost of service items	Authorization
Kentucky	All Components	807 KAR 5:001, Section 10
Mississippi	Capex, Depreciation Exp, Ad Valorem Exp, ADIT	2015-UN-049 (Depreciation, Ad Valorem); 2005-UN-503 (Rate Base)
Virginia	Capex, Depreciation Exp, Ad Valorem Exp, ADIT	SAVE Statute
Colorado	Capex, Depreciation Exp, Ad Valorem Exp, ADIT	SSIR Tariff. C15-1187 (SSIR Approval); C18-0311 (SSIR Extension)

807 KAR 5:001. Rules of procedure.

RELATES TO: KRS Chapter 278
STATUTORY AUTHORITY: KRS 278.310(2)
NECESSITY, FUNCTION, AND CONFORMITY: KRS 278.310(2) provides that all hearings and investigations before the commission or any commissioner shall be governed by rules adopted by the commission. This administrative regulation prescribes requirements with respect to formal and informal proceedings before the commission.

Section 1. General Offices and Hearings. (1) The commission will be in continuous session for the performance of administrative duties.

(2) Meetings of the commission for the consideration of all matters requiring formal hearings will be held on such days, at such hours and at such places as the commission may designate.

(3) Notice of hearing will be given by the secretary to parties to proceedings before the commission, except when a hearing is not concluded on the day appointed therefor and verbal announcement is made by the presiding commissioner or hearing examiner of an adjourned date. Verbal announcements so made shall be deemed due notice of continued hearing.

Section 2. Secretary to Furnish Information. (1) Upon request, the secretary will advise any party as to the form of a petition, complaint, answer, application or other paper desired to be filed; and he will make available from the commission's files, upon request, any document or record pertinent to any matter before the commission.

(2) The secretary may reject for filing any document which on its face does not comply with the rules and administrative regulations of the commission.

Section 3. General Matters Pertaining to All Formal Proceedings. (1) Address of the commission. All communications should be addressed to "Public Service Commission, Frankfort, Kentucky."

(2) Case numbers and styles. Each matter coming formally before the commission will be known as a case and will receive a number and style, descriptive of the subject matter. Such number and style shall be placed on all subsequent papers in such case.

(3) Form of papers filed. All pleadings and applications filed with the commission in formal proceedings shall be printed or typewritten on one (1) side of the paper only, and typewriting shall be double spaced.

(4) Signing of pleadings. Every pleading of a party represented by an attorney shall be signed by at least one (1) attorney of record in his individual name and shall state his address. Except when otherwise specifically provided by statute, pleadings need not be verified or accompanied by affidavit.

(5) Amendment. At its discretion, the commission may allow any complaint, application, answer or other paper to be amended or corrected or any omission supplied therein.

(6) Witnesses and subpoenas.

(a) Upon the application of any party to a proceeding, subpoenas requiring the attendance of witnesses for the purpose of taking testimony may be signed and issued by a member of the commission.

(b) Subpoenas for the production of books, accounts, papers or records (unless directed to issue by the commission on its own authority) will be issued only at the discretion of the commission, or any commissioner, upon application in writing, stating as nearly as possible the books, accounts, papers or records desired to be produced.

(7) Service of process. When any party has appeared by attorney, service upon such attorney will be deemed proper service upon the party.

(8) Intervention and parties. In any formal proceeding, any person who wishes to become a party to a proceeding before the commission may by timely motion request that he be granted leave to intervene. Such motion shall include his name and address and the name and address of any party he represents and in what capacity he is employed by such party.

(a) Each person granted leave to intervene shall be considered as making a limited intervention unless he submits to the secretary a written request for full intervention. A person making only a limited intervention shall be entitled to the full rights of a party at the hearing in which he appears and shall be served with the commission's order, but he shall not be served with filed testimony, exhibits, pleadings, correspondence and all other documents submitted by parties. A person making a limited appearance will not be certified as a party for the purposes of receiving service of any petition for rehearing or petition for judicial review.

(b) If a person granted leave to intervene desires to be served with filed testimony, exhibits, pleadings, correspondence and all other documents submitted by parties, and to be certified as a party for the purposes of

receiving service of any petition for rehearing or petition for judicial review, he shall submit in writing to the secretary a request for full intervention, which shall specify his interest in the proceeding. If the commission determines that a person has a special interest in the proceeding which is not otherwise adequately represented or that full intervention by party is likely to present issues or to develop facts that assist the commission in fully considering the matter without unduly complicating or disrupting the proceedings, such person shall be granted full intervention.

Section 4. Hearings and Rehearings. (1) When hearings will be granted. Except as otherwise determined in specific cases, the commission will grant a hearing in the following classes of cases:

(a) When an order to satisfy a complaint or to make answer thereto has been made and the corporation or person complained of has not satisfied the complaint to the satisfaction of the commission.

(b) When application has been made in a formal proceeding.

(2) Publication of notice. Upon the filing of any application the commission may, in its discretion, give all other corporations or persons who may be affected thereby an opportunity to be heard by service upon them of a copy of the petition or by publication of the substance thereof, at the expense of the applicant, for such length of time and in such newspaper or newspapers as the commission may designate. In such cases the form of notice will be prepared by the secretary, and a proof of the publication thereof must be filed at or before the hearing.

(3) Investigation on commission's own motion. The commission may at any time, on its own motion, make investigations and order hearings into any act or thing done or omitted to be done by the public utility, which the commission may believe is in violation of any provision of law or of any order or administrative regulation of the commission. It may also through its own experts or employees, or otherwise, obtain such evidence as it may consider necessary or desirable in any formal proceeding in addition to the evidence presented by the parties.

(4) Conferences with commission staff. In order to provide opportunity for settlement of a proceeding or any of the issues therein, an informal conference with the commission staff may be arranged through the secretary of the commission either prior to, or during the course of hearings in any proceeding, at the request of any party.

(5) Conduct of hearings. Hearings will be conducted before the commission or a commissioner or before a person designated by the commission to conduct a specific hearing.

(6) Stipulation of facts. By a stipulation in writing, filed with the secretary, the parties to any proceeding or investigation by the commission may agree upon the facts or any portion of the facts involved in the controversy, which stipulation shall be regarded and used as evidence at the hearing.

(7) Testimony. All testimony given before the commission will be given under oath or affirmation.

(8) Objections and exceptions. When objections are made to the admission or exclusion of evidence before the commission, the grounds relied upon shall be stated briefly. Formal exceptions are unnecessary and will not be taken to rulings therein.

(9) Transcript of evidence. The commission will cause to be made a stenographic record of all public hearings, and such copies of the transcript thereof as it requires for its own purposes. Participants desiring copies of such transcripts may obtain the same from the official reporter upon payment of the fees fixed therefor.

(10) Briefs and petitions for rehearing. All briefs and petitions for rehearing in any proceeding must be accompanied with notice, showing service upon all other parties or their attorneys, and, in addition to the filed original, ten (10) copies of each such document shall be furnished for the use of the commission.

(11) Filing of briefs. All briefs must be filed within the time fixed, and the commission may refuse to consider any brief filed thereafter. Applications for extensions of time to file briefs must be made to the commission in writing.

(12) Form of briefs. All briefs filed with the commission shall be in the form prescribed by the commission.

Section 5. Documentary Evidence. (1) If documentary evidence is offered, the commission, in lieu of requiring the originals to be filed may, in its discretion, accept certified, or otherwise authenticated, copies of such documents or such portions of the same as may be relevant, or may require such evidence to be transcribed as a part of the record.

(2) Where relevant and material matter offered in evidence by any party is embraced in a book, paper or document containing other matter not material or relevant the party must plainly designate the matter so offered. If such immaterial matter unnecessarily encumbers the record, such book, paper or document will not be received in evidence, but may be described for identification, and if properly authenticated, the relevant and material matter may be read into the record, or if the commission, or commissioner conducting the hearing, so directs, a true copy of such matter in proper form shall be received as an exhibit, and like copies delivered by the parties offering same to opposing parties, or their attorneys, appearing at the hearing, who shall be offered the opportunity to examine such book, paper or document, and to offer evidence in like manner other portions thereof if found to be material and relevant.

(3) Whenever practicable the sheets of each exhibit and the lines of each sheet shall be numbered and if the exhibit consists of two (2) or more sheets, the first sheet or title page shall contain a brief statement of what the exhibit purports to show, with reference by sheet and line to illustrative or typical examples contained in the exhibit. Wherever practicable, rate comparisons and other such evidence shall be condensed into tables.

(4) Except as may be expressly permitted in particular instances, the commission will not receive in evidence or consider as a part of the record any book, paper or other document for consideration in connection with the proceeding after the close of the testimony.

(5) Upon motion of any party to a proceeding, any case in the commission's files or any document on file with the commission, at the discretion of the commission may be made a part of the record by "reference only." By reference only, the case or document made a part of the record will not be physically incorporated into the record. Upon action in the Franklin Circuit Court, excerpts from any case or part of any document may be made a part of the record before such court, at the instance of any party.

Section 6. Financial Exhibit. Whenever in these rules it is provided that a financial exhibit shall be annexed to the application, the said exhibit shall cover operations for a twelve (12) month period, said period ending not more than ninety (90) days prior to the date the application is filed. The said exhibit shall disclose the following information in the order indicated below:

(1) Amount and kinds of stock authorized.

(2) Amount and kinds of stock issued and outstanding.

(3) Terms of preference of preferred stock whether cumulative or participating, or on dividends or assets or otherwise.

(4) Brief description of each mortgage on property of applicant, giving date of execution, name of mortgagor, name of mortgagee, or trustee, amount of indebtedness authorized to be secured thereby, and the amount of indebtedness actually secured, together with any sinking fund provisions.

(5) Amount of bonds authorized, and amount issued, giving the name of the public utility which issued the same, describing each class separately, and giving date of issue, face value, rate of interest, date of maturity and how secured, together with amount of interest paid thereon during the last fiscal year.

(6) Each note outstanding, giving date of issue, amount, date of maturity, rate of interest, in whose favor, together with amount of interest paid thereon during the last fiscal year.

(7) Other indebtedness, giving same by classes and describing security, if any, with a brief statement of the devolution or assumption of any portion of such indebtedness upon or by person or corporation if the original liability has been transferred, together with amount of interest paid thereon during the last fiscal year.

(8) Rate and amount of dividends paid during the five (5) previous fiscal years, and the amount of capital stock on which dividends were paid each year.

(9) Detailed income statement and balance sheet.

Section 7. Confidential Material. (1) All material on file with the commission shall be available for examination by the public unless the material is confidential as provided herein.

(2) Procedure for determining confidentiality.

(a) Any person requesting confidential treatment of any material shall file a petition which:

1. Sets forth specific grounds pursuant to KRS 61.870 et seq., the Kentucky Open Records Act, upon which the commission should classify that material as confidential; and

2. Attaches one (1) copy of the material which identifies by underscoring, highlighting with transparent ink, or other reasonable means only those portions which unless deleted would disclose confidential material. Text pages or portions thereof which do not contain confidential material shall not be included in this identification.

(b) The petition, one (1) copy of the material which is identified by underscoring or highlighting, and ten (10) copies of the material with those portions obscured for which confidentiality is sought, shall be filed with the commission.

(c) The petition and a copy of the material, with only those portions for which confidentiality is sought obscured, shall be served on all parties. The petition shall contain a certificate of service on all parties.

(d) The burden of proof to show that the material falls within the exclusions from disclosure requirements enumerated in KRS 61.870 et seq., shall be upon the person requesting confidential treatment.

(e) Any person may respond to the petition for confidential treatment within ten (10) days after it is filed with the commission.

(3) Pending commission action on the petition, the material specifically identified shall be temporarily accorded confidential treatment.

(4) If the commission denies the petition for confidential treatment of material, the material shall not be placed in the public record for twenty (20) days to allow the petitioner to seek any remedy afforded by law.

(5) Procedure for any party to request access to confidential material filed in any proceeding.

(a) No party to any proceeding before the commission shall fail to respond to discovery by the commission or its staff or any other party to the proceeding on grounds of confidentiality. If any party responding to discovery requests seeks to have a portion or all of the response held confidential by the commission, it shall follow the procedures for petitioning for confidentiality contained in this administrative regulation. Any party's response to discovery requests shall be served upon all parties, with only those portions for which confidential treatment is sought obscured.

(b) If the commission grants confidential protection to the responsive material and if parties have not entered into protective agreements, then any party may petition the commission requesting access to the material on the grounds that it is essential to a meaningful participation in the proceeding. The petition shall include a description of efforts to enter into a protective agreement and any unwillingness to enter into a protective agreement shall be fully explained. Any party may respond to the petition within ten (10) days after it is filed with the commission. The commission shall determine if the petitioner is entitled to the material, and the manner and extent of the disclosure necessary to protect confidentiality.

(6) Requests for access to records pursuant to KRS 61.870-884. No time period prescribed in this section shall limit the right of any person to request access to commission records pursuant to KRS 61.870-884. Upon a request filed pursuant to KRS 61.870-884, the commission shall respond in accordance with the procedure prescribed in KRS 61.880.

(7) Procedure for request for access to confidential material. Any person denied access to records requested pursuant to KRS 61.870-884 or to material deemed confidential by the commission in accordance with the procedures set out in this section, may obtain this information only pursuant to KRS 61.870-884, and other applicable law.

(8) Use of confidential material during formal proceedings. Any material deemed confidential by the commission may be addressed and relied upon during a formal hearing by the following procedure:

(a) The person seeking to address the confidential material shall advise the commission prior to the use of such material.

(b) All persons other than commission employees not a party to a protective agreement related to the confidential material shall be excused from the hearing room during direct testimony and cross-examination directly related to confidential material.

(c) The court reporter shall produce a sealed transcript of that portion of the record directly related to the confidential material.

(9) Material granted confidentiality which later becomes publicly available or otherwise no longer warrants confidential treatment.

(a) The petitioner who sought confidential protection shall inform the commission in writing at any time when any material granted confidentiality becomes publicly available.

(b) If the commission becomes aware that material granted confidentiality is publicly available or otherwise no longer qualifies for confidential treatment, it shall by order so advise the petitioner who sought confidential protection, giving ten (10) days to respond. If the commission finds that material has been disclosed by someone other than the person who requested confidential treatment, in violation of a protective agreement or commission order, such information shall not be deemed or considered to be publicly available and shall not be placed in the public record.

(c) The material shall not be placed in the public record for twenty (20) days following any order finding that the material no longer qualifies for confidential treatment to allow the petitioner to seek any remedy afforded by law.

Section 8. Applications. (1) Contents of application. All applications must be by petition in writing. The petition must set forth the full name and post office address of the applicant, and must contain fully the facts on which the application is based, with a request for the order, authorization, permission or certificate desired and a reference to the particular provision of law requiring or providing for same.

(2) Number of copies. At the time the original application is filed, ten (10) additional copies must also be filed, and where parties interested in the subject matter of the application are named therein, there shall be filed an additional copy for each named party and such other additional copies as may be required by the secretary.

(3) Articles of incorporation. If the applicant is a corporation, a certified copy of its articles of incorporation, and all amendments thereto, if any, shall be annexed to the application. If applicant's articles of incorporation and amendments thereto, if any, have already been filed with the commission in some prior proceeding, it will be sufficient if this fact is stated in the application and reference is made to the style and case number of the prior

proceeding.

Section 9. Applications for Certificates of Public Convenience and Necessity. (1) Application to bid on a franchise pursuant to KRS 278.020(3). Upon application to the commission by the utility for a certificate of convenience and necessity authorizing applicant to bid on a franchise, license or permit offered by any governmental agency, the applicant shall submit with its application, the following:

(a) A copy of its articles of incorporation (see Section 8(3) of this administrative regulation).

(b) The name of the governmental agency offering the franchise.

(c) The type of franchise offered.

(d) A statement showing the need and demand for service. Should the applicant be successful in acquiring said franchise, license or permit, it shall file a copy thereof with the commission.

(2) New construction or extension. When application is made by the utility, person, firm, or corporation for a certificate that the present or future public convenience or necessity requires, or will require, the construction or extension of any plant, equipment, property or facility, the applicant, in addition to complying with Section 8 of this administrative regulation, shall submit the following data, either in the application or as exhibits attached thereto:

(a) The facts relied upon to show that the proposed new construction is or will be required by public convenience or necessity.

(b) Copies of franchises or permits, if any, from the proper public authority for the proposed new construction or extension, if not previously filed with the commission.

(c) A full description of the proposed location, route, or routes of the new construction or extension, including a description of the manner in which same will be constructed, and also the names of all public utilities, corporations, or persons with whom the proposed new construction or extension is likely to compete.

(d) Three (3) maps to suitable scale (preferably not more than two (2) miles per inch) showing the location or route of the proposed new construction or extension, as well as the location to scale of any like facilities owned by others located anywhere within the map area with adequate identification as to the ownership of such other facilities.

(e) The manner in detail in which it is proposed to finance the new construction or extension.

(f) An estimated cost of operation after the proposed facilities are completed.

(g) All other information necessary to afford the commission a complete understanding of the situation.

(3) Extensions in the ordinary course of business. No certificate of public convenience and necessity will be required for extensions that do not create wasteful duplication of plant, equipment, property or facilities, or conflict with the existing certificates or service of other utilities operating in the same area and under the jurisdiction of the commission that are in the general area in which the utility renders service or contiguous thereto, and that do not involve sufficient capital outlay to materially affect the existing financial condition of the utility involved, or will not result in increased charges to its customers.

(4) Renewal applications. Insofar as procedure is concerned, applications for a renewal of a certificate of convenience and necessity will be treated as an original application.

Section 10. Applications for General Adjustments in Existing Rates. (1) All applications requesting a general adjustment in existing rates shall be supported by:

(a) A twelve (12) month historical test period which may include adjustments for known and measurable changes; or

(b) A fully forecasted test period and shall include:

1. A statement of the reason the adjustment is required;

2. A statement that the utility's annual reports, including the annual report for the most recent calendar year, are on file with the commission in accordance with 807 KAR 5:006, Section 3(1);

3. If the utility is incorporated, a certified copy of the utility's articles of incorporation and all amendments thereto or out-of-state documents of similar import. If the utility's articles of incorporation and amendments have already been filed with the commission in a prior proceeding, the application may state this fact making reference to the style and case number of the prior proceeding;

4. If the utility is a limited partnership, a certified copy of the limited partnership agreement and all amendments thereto or out-of-state documents of similar import. If the utility's limited partnership agreement and amendments have already been filed with the commission in a prior proceeding, the application may state this fact making reference to the style and case number of the prior proceeding;

5. If the utility is incorporated or is a limited partnership, a certificate of good standing or certificate of authorization dated within sixty (60) days of the date the application is filed;

6. A certified copy of a certificate of assumed name as required by KRS 365.015 or a statement that such a certificate is not necessary;

7. The proposed tariff in a form which complies with 807 KAR 5:011 with an effective date not less than thirty (30) days from the date the application is filed;

8. The utility's proposed tariff changes, identified in compliance with 807 KAR 5:011, shown either by:

a. Providing the present and proposed tariffs in comparative form on the same sheet side by side or on facing sheets side by side; or

b. Providing a copy of the present tariff indicating proposed additions by italicized inserts or underscoring and striking over proposed deletions; and

9. A statement that customer notice has been given in compliance with subsections (3) and (4) of this section with a copy of the notice.

10. For the purposes of this administrative regulation, an affiliate is an entity that:

a. Is wholly owned by a utility; or

b. In which a utility has a controlling interest; or

c. That wholly owns a utility; or

d. That has a controlling interest in a utility; or

e. That is under common control with the utility.

11. For the purposes of this administrative regulation, a utility, or other entity, shall be deemed to have a controlling interest in, or be under common control with, an entity or utility if it:

a. Directly or indirectly has the power to direct, or to cause the direction of, the management or policies of any entity; and

b. Exercises such power:

(i) Through one (1) or more intermediary companies, or alone; or

(ii) In conjunction with, or pursuant to an agreement; or

(iii) Through ownership of ten (10) percent or more of the voting securities; or

(iv) Through common directors, officers, stockholders, voting or holding trusts, associated companies; or

(v) Contract; or

(vi) Any other direct or indirect means.

(2) Notice of intent. Utilities with gross annual revenues greater than $1,000,000 shall file with the commission a written notice of intent to file a rate application at least four (4) weeks prior to filing their application. The notice of intent shall state whether the rate application will be supported by a historical test period or a fully forecasted test period. This notice shall be served upon the Attorney General, Utility Intervention and Rate Division.

(3) Form of notice to customers. Every utility filing an application pursuant to this section shall notify all affected customers in the manner prescribed herein. The notice shall include the following information:

(a) The amount of the change requested in both dollar amounts and percentage change for each customer classification to which the proposed rate change will apply;

(b) The present rates and the proposed rates for each customer class to which the proposed rates would apply;

(c) Electric, gas, water and sewer utilities shall include the effect upon the average bill for each customer class to which the proposed rate change will apply;

(d) Local exchange companies shall include the effect upon the average bill for each customer class for the proposed rate change in basic local service;

(e) A statement that the rates contained in this notice are the rates proposed by (name of utility); however, the Public Service Commission may order rates to be charged that differ from the proposed rates contained in this notice;

(f) A statement that any corporation, association, or person with a substantial interest in the matter may, by written request, within thirty (30) days after publication or mailing of this notice of the proposed rate changes request to intervene; intervention may be granted beyond the thirty (30) day period for good cause shown;

(g) A statement that any person who has been granted intervention by the commission may obtain copies of the rate application and any other filings made by the utility by contacting the utility through a name and address and phone number stated in this notice;

(h) A statement that any person may examine the rate application and any other filings made by the utility at the main office of the utility or at the commission's office indicating the addresses and telephone numbers of both the utility and the commission; and

(i) The commission may grant a utility with annual gross revenues greater than $1,000,000, upon written request, permission to use an abbreviated form of published notice of the proposed rates provided the notice includes a coupon which may be used to obtain all of the information required herein.

(4) Manner of notification.

(a) Sewer utilities shall give the required typewritten notice by mail to all of their customers pursuant to KRS 278.185.

(b) Applicants with twenty (20) or fewer customers affected by the proposed general rate adjustment shall mail the required typewritten notice to each customer no later than the date the application is filed with the commission.

(c) Except for sewer utilities, applicants with more than twenty (20) customers affected by the proposed general rate adjustment shall give the required notice by one (1) of the following methods:

1. A typewritten notice mailed to all customers no later than the date the application is filed with the commission;

2. Publishing the notice in a trade publication or newsletter which is mailed to all customers no later than the date on which the application is filed with the commission; or

3. Publishing the notice once a week for three (3) consecutive weeks in a prominent manner in a newspaper of general circulation in the utility's service area, the first publication to be made within seven (7) days of the filing of the application with the commission.

(d) If the notice is published, an affidavit from the publisher verifying the notice was published, including the dates of the publication with an attached copy of the published notice, shall be filed with the commission no later than forty-five (45) days of the filed date of the application.

(e) If the notice is mailed, a written statement signed by the utility's chief officer in charge of Kentucky operations verifying the notice was mailed shall be filed with the commission no later than thirty (30) days of the filed date of the application.

(f) All utilities, in addition to the above notification, shall post a sample copy of the required notification at their place of business no later than the date on which the application is filed which shall remain posted until the commission has finally determined the utility's rates.

(g) Compliance with this subsection shall constitute compliance with 807 KAR 5:051, Section 2.

(5) Notice of hearing scheduled by the commission upon application by a utility for a general adjustment in rates shall be advertised by the utility by newspaper publication in the areas that will be affected in compliance with KRS 424.300.

(6) All applications supported by a historical test period shall include the following information or a statement explaining why the required information does not exist and is not applicable to the utility's application:

(a) A complete description and quantified explanation for all proposed adjustments with proper support for any proposed changes in price or activity levels, and any other factors which may affect the adjustment;

(b) If the utility has gross annual revenues greater than $1,000,000, the prepared testimony of each witness the utility proposes to use to support its application;

(c) If the utility has gross annual revenues less than $1,000,000, the prepared testimony of each witness the utility proposes to use to support its application or a statement that the utility does not plan to submit any prepared testimony;

(d) A statement estimating the effect that the new rate(s) will have upon the revenues of the utility including, at minimum, the total amount of revenues resulting from the increase or decrease and the percentage of the increase or decrease;

(e) If the utility provides electric, gas, water or sewer service the effect upon the average bill for each customer classification to which the proposed rate change will apply;

(f) If the utility is a local exchange company the effect upon the average bill for each customer class for the proposed rate change in basic local service;

(g) An analysis of customers' bills in such detail that revenues from the present and proposed rates can be readily determined for each customer class;

(h) A summary of the utility's determination of its revenue requirements based on return on net investment rate base, return on capitalization, interest coverage, debt service coverage, or operating ratio, with supporting schedules;

(i) A reconciliation of the rate base and capital used to determine its revenue requirements;

(j) A current chart of accounts if more detailed than the Uniform System of Accounts prescribed by the commission;

(k) The independent auditor's annual opinion report, with any written communication from the independent auditor to the utility which indicates the existence of a material weakness in the utility's internal controls;

(l) The most recent Federal Energy Regulatory Commission or Federal Communication Commission audit reports;

(m) The most recent Federal Energy Regulatory Commission Form 1 (electric), Federal Energy Regulatory Commission Form 2 (gas), or Automated Reporting Management Information System Report (telephone) and

Public Service Commission Form T (telephone);

(n) A summary of the utility's latest depreciation study with schedules by major plant accounts, except that telecommunications utilities that have adopted the commission's average depreciation rates shall provide a schedule that identifies the current and test period depreciation rates used by major plant accounts. If the required information has been filed in another commission case a reference to that case's number and style will be sufficient;

(o) A list of all commercially available or in-house developed computer software, programs, and models used in the development of the schedules and work papers associated with the filing of the utility's application. This list shall include each software, program, or model; what the software, program, or model was used for; identify the supplier of each software, program, or model; a brief description of the software, program, or model; the specifications for the computer hardware and the operating system required to run the program;

(p) Prospectuses of the most recent stock or bond offerings;

(q) Annual report to shareholders, or members, and statistical supplements covering the two (2) most recent years from the utility's application filing date;

(r) The monthly managerial reports providing financial results of operations for the twelve (12) months in the test period;

(s) Securities and Exchange Commission's annual report for the most recent two (2) years, Form 10-Ks and any Form 8-Ks issued within the past two (2) years, and Form 10-Qs issued during the past six (6) quarters updated as current information becomes available;

(t) If the utility had any amounts charged or allocated to it by an affiliate or general or home office or paid any monies to an affiliate or general or home office during the test period or during the previous three (3) calendar years, the utility shall file:

1. A detailed description of the method and amounts allocated or charged to the utility by the affiliate or general or home office for each charge allocation or payment;

2. An explanation of how the allocator for the test period was determined; and

3. All facts relied upon, including other regulatory approval, to demonstrate that each amount charged, allocated or paid during the test period was reasonable;

(u) If the utility provides gas, electric or water utility service and has annual gross revenues greater than $5,000,000, a cost of service study based on a methodology generally accepted within the industry and based on current and reliable data from a single time period; and

(v) Local exchange carriers with fewer than 50,000 access lines shall not be required to file cost of service studies, except as specifically directed by the commission. Local exchange carriers with more than 50,000 access lines shall file:

1. A jurisdictional separations study consistent with Part 36 of the Federal Communications Commission's rules and regulations; and

2. Service specific cost studies to support the pricing of all services that generate annual revenue greater than $1,000,000, except local exchange access:

a. Based on current and reliable data from a single time period; and

b. Using generally recognized fully allocated, embedded, or incremental cost principles.

(7) Upon good cause shown, a utility may request pro forma adjustments for known and measurable changes to ensure fair, just and reasonable rates based on the historical test period. The following information shall be filed with applications requesting pro forma adjustments or a statement explaining why the required information does not exist and is not applicable to the utility's application:

(a) A detailed income statement and balance sheet reflecting the impact of all proposed adjustments;

(b) The most recent capital construction budget containing at least the period of time as proposed for any pro forma adjustment for plant additions;

(c) For each proposed pro forma adjustment reflecting plant additions provide the following information:

1. The starting date of the construction of each major component of plant;

2. The proposed in-service date;

3. The total estimated cost of construction at completion;

4. The amount contained in construction work in progress at the end of the test period;

5. A schedule containing a complete description of actual plant retirements and anticipated plant retirements related to the pro forma plant additions including the actual or anticipated date of retirement;

6. The original cost, cost of removal and salvage for each component of plant to be retired during the period of the proposed pro forma adjustment for plant additions;

7. An explanation of any differences in the amounts contained in the capital construction budget and the amounts of capital construction cost contained in the pro forma adjustment period; and

8. The impact on depreciation expense of all proposed pro forma adjustments for plant additions and retirements;

(d) The operating budget for each month of the period encompassing the pro forma adjustments;

(e) The number of customers to be added to the test period - end level of customers and the related revenue requirements impact for all pro forma adjustments with complete details and supporting work papers.

(8) All applications requesting a general adjustment in rates supported by a fully forecasted test period shall comply with the following requirements:

(a) The financial data for the forecasted period shall be presented in the form of pro forma adjustments to the base period.

(b) Forecasted adjustments shall be limited to the twelve (12) months immediately following the suspension period.

(c) Capitalization and net investment rate base shall be based on a thirteen (13) month average for the forecasted period.

(d) After an application based on a forecasted test period is filed, there shall be no revisions to the forecast, except for the correction of mathematical errors, unless such revisions reflect statutory or regulatory enactments that could not, with reasonable diligence, have been included in the forecast on the date it was filed. There shall be no revisions filed within thirty (30) days of a scheduled hearing on the rate application.

(e) The commission may require the utility to prepare an alternative forecast based on a reasonable number of changes in the variables, assumptions, and other factors used as the basis for the utility's forecast.

(f) The utility shall provide a reconciliation of the rate base and capital used to determine its revenue requirements.

(9) All applications requesting a general adjustment in rates supported by a fully forecasted test period shall include the following or a statement explaining why the required information does not exist and is not applicable to the utility's application:

(a) The prepared testimony of each witness the utility proposes to use to support its application which shall include testimony from the utility's chief officer in charge of Kentucky operations on the existing programs to achieve improvements in efficiency and productivity, including an explanation of the purpose of the program;

(b) The utility's most recent capital construction budget containing at minimum a three (3) year forecast of construction expenditures;

(c) A complete description, which may be filed in prefiled testimony form, of all factors used in preparing the utility's forecast period. All econometric models, variables, assumptions, escalation factors, contingency provisions, and changes in activity levels shall be quantified, explained, and properly supported;

(d) The utility's annual and monthly budget for the twelve (12) months preceding the filing date, the base period and forecasted period;

(e) A statement of attestation signed by the utility's chief officer in charge of Kentucky operations which shall provide:

1. That the forecast is reasonable, reliable, made in good faith and that all basic assumptions used in the forecast have been identified and justified; and

2. That the forecast contains the same assumptions and methodologies as used in the forecast prepared for use by management, or an identification and explanation for any differences that exist; and

3. That productivity and efficiency gains are included in the forecast;

(f) For each major construction project which constitutes five (5) percent or more of the annual construction budget within the three (3) year forecast the following information shall be filed:

1. The date the project was started or estimated starting date;

2. The estimated completion date;

3. The total estimated cost of construction by year exclusive and inclusive of allowance for funds used during construction ("AFUDC") or interest during construction credit; and

4. The most recent available total costs incurred exclusive and inclusive of AFUDC or interest during construction credit;

(g) For all construction projects which constitute less than five (5) percent of the annual construction budget within the three (3) year forecast, the utility shall file an aggregate of the information requested in paragraph (f)3 and 4 of this subsection;

(h) A financial forecast corresponding to each of the three (3) forecasted years included in the capital construction budget. The financial forecast shall be supported by the underlying assumptions made in projecting the results of operations and shall include the following information:

1. Operating income statement (exclusive of dividends per share or earnings per share);

2. Balance sheet;
3. Statement of cash flows;
4. Revenue requirements necessary to support the forecasted rate of return;
5. Load forecast including energy and demand (electric);
6. Access line forecast (telephone);
7. Mix of generation (electric);
8. Mix of gas supply (gas);
9. Employee level;
10. Labor cost changes;
11. Capital structure requirements;
12. Rate base;
13. Gallons of water projected to be sold (water);
14. Customer forecast (gas, water);
15. MCF sales forecasts (gas);
16. Toll and access forecast of number of calls and number of minutes (telephone); and
17. A detailed explanation of any other information provided;

(i) The most recent Federal Energy Regulatory Commission or Federal Communications Commission audit reports;

(j) The prospectuses of the most recent stock or bond offerings;

(k) The most recent Federal Energy Regulatory Commission Form 1 (electric), Federal Energy Regulatory Commission Form 2 (gas), or the Automated Reporting Management Information System Report (telephone) and Public Service Commission Form T (telephone);

(l) The annual report to shareholders or members and the statistical supplements covering the most recent five (5) years from the application filing date;

(m) The current chart of accounts if more detailed than the Uniform System of Accounts chart prescribed by the commission;

(n) The latest twelve (12) months of the monthly managerial reports providing financial results of operations in comparison to the forecast;

(o) Complete monthly budget variance reports, with narrative explanations, for the twelve (12) months immediately prior to the base period, each month of the base period, and any subsequent months, as they become available;

(p) The Securities and Exchange Commission's annual report for the most recent two (2) years, Form 10-Ks and any Form 8-Ks issued during the prior two (2) years and any Form 10-Qs issued during the past six (6) quarters;

(q) The independent auditor's annual opinion report, with any written communication from the independent auditor to the utility which indicates the existence of a material weakness in the utility's internal controls;

(r) The quarterly reports to the stockholders for the most recent five (5) quarters;

(s) The summary of the latest depreciation study with schedules itemized by major plant accounts, except that telecommunications utilities that have adopted the commission's average depreciation rates shall provide a schedule that identifies the current and base period depreciation rates used by major plant accounts. If the required information has been filed in another commission case a reference to that case's number and style will be sufficient;

(t) A list of all commercially available or in-house developed computer software, programs, and models used in the development of the schedules and work papers associated with the filing of the utility's application. This list shall include each software, program, or model; what the software, program, or model was used for; identify the supplier of each software, program, or model; a brief description of the software, program, or model; the specifications for the computer hardware and the operating system required to run the program;

(u) If the utility had any amounts charged or allocated to it by an affiliate or a general or home office or paid any monies to an affiliate or a general or home office during the base period or during the previous three (3) calendar years, the utility shall file:

1. A detailed description of the method and amounts allocated or charged to the utility by the affiliate or general or home office for each allocation or payment;

2. The method and amounts allocated during the base period and the method and estimated amounts to be allocated during the forecasted test period;

3. An explanation of how the allocator for both the base period and the forecasted test period were determined; and

4. All facts relied upon, including other regulatory approval, to demonstrate that each amount charged, allocated or paid during the base period is reasonable;

(v) If the utility provides gas, electric or water utility service and has annual gross revenues greater than $5,000,000, a cost of service study based on a methodology generally accepted within the industry and based on current and reliable data from a single time period; and

(w) Local exchange carriers with fewer than 50,000 access lines shall not be required to file cost of service studies, except as specifically directed by the commission. Local exchange carriers with more than 50,000 access lines shall file:

1. A jurisdictional separations study consistent with Part 36 of the Federal Communications Commission's rules and regulations; and

2. Service specific cost studies to support the pricing of all services that generate annual revenue greater than $1,000,000 except local exchange access:

a. Based on current and reliable data from a single time period; and

b. Using generally recognized fully allocated, embedded, or incremental cost principles.

(10) All applications seeking a general adjustment in rates supported by a forecasted test period shall include the following data to be submitted using schedule forms hereby incorporated by reference and which may be inspected, copied or obtained at the commission's offices at 211 Sower Boulevard, Frankfort, Kentucky, Monday through Friday between the hours of 8 a.m. and 4:30 p.m., local time. The commission shall notify the utility of any deficiencies in the application within thirty (30) days of receiving it. The utility may cure such filing deficiencies within thirty (30) days' written notice from the commission.

(a) A jurisdictional financial summary for both the base period and the forecasted period which details how the utility derived the amount of the requested revenue increase;

(b) A jurisdictional rate base summary for both the base period and the forecasted period with supporting schedules which include detailed analyses of each component of the rate base;

(c) A jurisdictional operating income summary for both the base period and the forecasted period with supporting schedules which provide breakdowns by major account group and by individual account;

(d) A summary of jurisdictional adjustments to operating income by major account with supporting schedules for individual adjustments and jurisdictional factors;

(e) A jurisdictional federal and state income tax summary for both the base period and the forecasted period with all supporting schedules of the various components of jurisdictional income taxes;

(f) Summary schedules for both the base period and the forecasted period (the utility may also provide a summary segregating those items it proposes to recover in rates) of organization membership dues; initiation fees; expenditures at country clubs; charitable contributions; marketing, sales, and advertising expenditures; professional service expenses; civic and political activity expenses; expenditures for employee parties and outings; employee gift expenses; and rate case expenses;

(g) Analyses of payroll costs including schedules for wages and salaries, employee benefits, payroll taxes, straight time and overtime hours, and executive compensation by title;

(h) A computation of the gross revenue conversion factor for the forecasted period;

(i) Comparative income statements (exclusive of dividends per share or earnings per share), revenue statistics and sales statistics for the five (5) most recent calendar years from the application filing date, the base period, the forecasted period, and two (2) calendar years beyond the forecast period;

(j) A cost of capital summary for both the base period and forecasted period with supporting schedules providing details on each component of the capital structure;

(k) Comparative financial data and earnings measures for the ten (10) most recent calendar years, the base period, and the forecast period;

(l) A narrative description and explanation of all proposed tariff changes;

(m) A revenue summary for both the base period and forecasted period with supporting schedules which provide detailed billing analyses for all customer classes; and

(n) A typical bill comparison under present and proposed rates for all customer classes.

(11) A request for waiver of any of the provisions of these filing requirements must set forth the specific reasons for the request. The commission shall grant the request for waiver upon good cause shown by the utility. In determining whether good cause has been shown, the commission may consider:

(a) Whether other information which the utility would provide if the waiver is granted is sufficient to allow the commission to effectively and efficiently review the rate application;

(b) Whether the information which is the subject of the waiver request is normally maintained by the utility or reasonably available to it from the information which it maintains; and

(c) The expense to the utility in providing the information which is the subject of the waiver request.

Section 11. Application for Authority to Issue Securities, Notes, Bonds, Stocks or Other Evidences of Indebtedness. (1) When application is made by the utility for an order authorizing the issuance of securities, notes, bonds, stocks or other evidences of indebtedness payable at periods of more than two (2) years from the date thereof, under the provisions of KRS 278.300, said application, in addition to complying with the requirements of Section 8 of this administrative regulation, shall contain:

(a) A general description of applicant's property and the field of its operation, together with a statement of the original cost of the same and the cost to the applicant, if it is impossible to state the original cost, the facts creating such impossibility shall be stated.

(b) The amount and kinds of stock, if any, which the utility desires to issue, and, if preferred, the nature and extent of the preference; the amount of notes, bonds or other evidences of indebtedness, if any, which the utility desires to issue, with terms, rate of interest and whether and how to be secured.

(c) The use to be made of the proceeds of the issue of such securities, notes, bonds, stocks or other evidence of indebtedness with a statement indicating how much is to be used for the acquisition of property, the construction, completion, extension or improvement of facilities, the improvement of service, the maintenance of service and the discharge or refunding of obligations.

(d) The property in detail which is to be acquired, constructed, improved or extended with its cost, a detailed description of the contemplated construction, completion, extension or improvement of facilities set forth in such a manner that an estimate of cost may be made, a statement of the character of the improvement of service proposed, and of the reasons why the service should be maintained from its capital. Whether any contracts have been made for the acquisition of such property, or for such construction, completion, extension or improvement of facilities, or for the disposition of any of the securities, notes, bonds, stocks or other evidence of indebtedness which it proposes to issue or the proceeds thereof and if any contracts have been made, copies thereof shall be annexed to the petition.

(e) If it is proposed to discharge or refund obligations, a statement of the nature and description of such obligations including their par value, the amount for which they were actually sold, the expenses associated therewith, and the application of the proceeds from such sales. If notes are to be refunded, the petition must show the date, amount, time, rate of interest, and payee of each and the purpose for which their proceeds were expended.

(f) Such other facts as may be pertinent to the application.

(2) The following exhibits must be filed with the application:

(a) Financial exhibit (see Section 6 of this administrative regulation).

(b) Copies of trust deeds or mortgages, if any, unless they have already been filed with the commission, in which case reference should be made, by style and case number, to the proceeding in which the trust deeds or mortgages have been filed.

(c) Maps and plans of the proposed property and constructions together with detailed estimates in such form that they can be checked over by the commission's engineering division. Estimates must be arranged according to the uniform system of accounts prescribed by the commission for the various classes of utilities.

Section 12. Formal Complaints. (1) Contents of complaint. Each complaint shall be headed "Before the Public Service Commission," shall set out the names of the complainant and the name of the defendant, and shall state:

(a) The full name and post office address of the complainant.

(b) The full name and post office address of the defendant.

(c) Fully, clearly, and with reasonable certainty, the act or thing done or omitted to be done, of which complaint is made, with a reference, where practicable, to the law, order, or section, and subsections, of which a violation is claimed, and such other matters, or facts, if any, as may be necessary to acquaint the commission fully with the details of the alleged violation. The complainant shall set forth definitely the exact relief which is desired (see Section 15(1) of this administrative regulation).

(2) Signature. The complaint shall be signed by the complainant or his attorney, if any, and if signed by such attorney, shall show his post office address. Complaints by corporations or associations, or any other organization having the right to file a complaint, must be signed by its attorney and show his post office address. No oral or unsigned complaints will be entertained or acted upon by the commission.

(3) Number of copies required. At the time the complainant files his original complaint, he must also file copies thereof equal in number to ten (10) more than the number of persons or corporations to be served.

(4) Procedure on filing of complaint.

(a) Upon the filing of such complaint, the commission will immediately examine the same to ascertain whether it establishes a prima facie case and conforms to this administrative regulation. If the commission is of the opinion

that the complaint does not establish a prima facie case or does not conform to this administrative regulation, it will notify the complainant or his attorney to that effect, and opportunity may be given to amend the complaint within a specified time. If the complaint is not so amended within such time or such extension thereof as the commission, for good cause shown, may grant, it will be dismissed.

(b) If the commission is of the opinion that such complaint, either as originally filed or as amended, does establish a prima facie case and conforms to this administrative regulation, the commission will serve an order upon such corporations or persons complained of under the hand of its secretary and attested by its seal, accompanied by a copy of said complaint, directed to such corporation or person and requiring that the matter complained of be satisfied, or that the complaint be answered in writing within ten (10) days from the date of service of such order, provided that the commission may, in particular cases, require the answer to be filed within a shorter time.

(5) Satisfaction of the complaint. If the defendant desires to satisfy the complaint, he shall submit to the commission, within the time allowed for satisfaction or answer, a statement of the relief which he is willing to give. Upon the acceptance of this offer by the complainant and the approval of the commission, no further proceedings need be taken.

(6) Answer to complaint. If satisfaction be not made as aforesaid, the corporation or person complained of must file an answer to the complaint, with certificate of service on other parties endorsed thereon, within the time specified in the order or such extension thereof as the commission, for good cause shown, may grant. The answer must contain a specific denial of such material allegations of the complaint as controverted by the defendant and also a statement of any new matter constituting a defense. If the answering party has no information or belief upon the subject sufficient to enable him to answer an allegation of the complaint, he may so state in his answer and place his denial upon that ground (see Section 15(2) of this administrative regulation).

Section 13. Informal Complaints. (1) Informal complaints must be made in writing. Matters thus presented are, if their nature warrants, taken up by correspondence with the utility complained against in an endeavor to bring about satisfaction of the complaint without formal hearing.

(2) No form of informal complaint is prescribed, but in substance it must contain the essential elements of a complaint, including the name and address of complainant, the correct name and post office address of the utility against whom complaint is made, a clear and concise statement of the facts involved, and the relief requested.

(3) In the event of failure to bring about satisfaction of the complaint because of the inability of the parties to agree as to the facts involved, or from other causes, the proceeding is held to be without prejudice to the complainant's right to file and prosecute a formal complaint whereupon the informal proceedings will be discontinued.

Section 14. Deviations from Rules. In special cases, for good cause shown, the commission may permit deviations from these rules.

Section 15. Forms. (1) In all practice before the commission the following forms shall be followed insofar as practicable:

(a) Formal complaint.
(b) Answer.
(c) Application.
(d) Notice of adjustment of rates.
(2) Forms of formal complaint.

ATTACHMENT 2
TO CPAD DR NO. 1-31

FILED
AUG 18 2015
MISS. PUBLIC SERVICE COMMISSION

BEFORE THE MISSISSIPPI PUBLIC SERVICE COMMISSION

ATMOS ENERGY CORPORATION
Utility ID #GC-123-0081-00

DOCKET NO. 2015-UN-049

IN RE: IN THE MATTER OF A COMPREHENSIVE REVIEW OF ATMOS ENERGY CORPORATION'S CAPITAL BUDGET FOR FISCAL YEAR 2015 THROUGH FISCAL YEAR 2024 AND ITS REQUEST FOR A SYSTEM INTEGRITY RIDER

JOINT STIPULATION

This Joint Stipulation is entered into between the Mississippi Public Utilities Staff ("MPUS" or "Staff") and Atmos Energy Corporation ("Atmos Energy" or "Company") pursuant to Rule 13 of the Mississippi Public Service Commission's Rules of Practice and Procedure ("Rules").

PROCEDURAL HISTORY

1. On May 30, 2014, in Docket No. 2014-UN-117, Atmos Energy filed with the Mississippi Public Service Commission ("Commission") a proposal in support of (1) a Rural Development Pilot Program and a Rural Development Rate Rider and (2) the establishment of a System Integrity Plan, which would provide for an incremental investment of $10 million per year, to be recovered by amending the Company's Stable Rate Adjustment Rider (Rider Schedule 327). Atmos Energy proposed to implement a change in the annual Stable Rate Adjustment Rider which would allow the Company to recover through its Stable Rate Plan all of its annual depreciation and ad valorem tax expense on a prospective basis. The proposal for a Rural Development Pilot Program was subsequently dropped after further investigation and discussions with the Staff.

2. The proposal for a System Integrity Plan became a topic of discussion in the Stable Rate Annual Evaluation filing which was filed on September 5, 2014. Ultimately, the MPUS and Atmos Energy agreed in a Stipulation dated January 28, 2015, to settle the Stable Rate Evaluation filing and to bring before the Commission the issues underlying the previous proposal in Docket No. 2014-UN-117 – specifically, whether the increase in its capital budget, including system integrity spending from the capital budget for FY2015 and subsequent years, is prudent and whether a change in the timing of how the capital-related expenses are recovered is appropriate. Additionally, cost recovery for $10 million in planned FY2015 system integrity spending was deferred until the Commission could rule on the prudency of those specific system integrity projects. The MPUS and Atmos Energy also agreed that the Commission should review and rule on the Company's Overhead Allocation Policy (Cost Allocation Manual), Capitalization Policy, Capital Structure, and the Company's capital budget, including system integrity spending. Moreover, the Company agreed to work with the Staff to develop a procedure for an annual review of the system integrity projects for the fiscal year budget.[1]

3. On April 1, 2015, Atmos Energy filed its Notice of Intent in this matter, Docket No. 2015-UN-049, proposing a System Integrity Rider ("SIR") to recover on the system integrity portion of the capital budget and to timely recover the depreciation and property taxes specifically associated with its overall system integrity spending. In addition, Atmos Energy sought approval of its Cost Allocation Manual, its Capitalization Policy and its capital structure. In support of its Notice of Intent, Atmos Energy prefiled testimony of David Gates, John McDill, Sammy Russo, David H. Doggette, Jason L. Schneider, Joe T. Christian, and James H. Vander Weide.

[1] Docket No. 2014-UN-117 at the request of the Company was retired to file by a Commission Order dated June 5, 2015.

4. After propounding and receiving written responses to approximately 300 data requests, the MPUS prefiled direct testimony of Richard Kuprewicz, David M. Boonin (with testimony and an Appendix prepared by Karen Morgan), Helmuth W. Schultz, David Parcell, and Ralph C. Smith. In response, Atmos Energy prefiled rebuttal testimony by David Gates, Jennifer K. Story, David H. Doggette, John McDill, Jason L. Schneider, Joe T. Christian, and James H. Vander Weide.

5. The MPUS has now completed its review of the filing. The MPUS has had the benefit of full discovery as prescribed by Mississippi law and the Rules. This Joint Stipulation is entered into as a result of the pleadings and other evidence filed by Atmos Energy in this docket, and is supported by the discussions and information exchanged between the MPUS and Atmos Energy throughout the discovery process and during the pre-hearing conference convened on July 15, July 21, and August 4, 2015, as well as the independent research and investigation conducted by the MPUS and its consultants.

SUFFICIENCY OF THE FILING

6. Atmos Energy and the MPUS have met and, through discussion and negotiation, have resolved certain issues arising out of the filing and the parties do hereby stipulate and agree as follows:

7. The MPUS and Atmos Energy agree that the pleadings, data, documentation and exhibits in this docket filed by Atmos Energy comply with the January 28, 2015, Stipulation and the Rules. The MPUS has had complete access to all information it has requested from Atmos Energy to evaluate this filing. The MPUS and Atmos Energy further agree that there is substantial evidence in the record of this docket to support the stipulations made herein and to support the reasonableness of the projected ten-year estimates of capital spending, the process of approving on an annual basis the proposed specific system integrity projects for the next fiscal

year and the corresponding rate impact, the true-up on an after-the-fact basis of the projected revenue requirement with the actual revenue requirement for the rate period and completion of these annual projects, the treatment of the timely recovery of ad valorem taxes and depreciation for the entire capital budget, an imputed capital structure for use in setting rates for the SIR rate periods beginning November 1, 2016, an imputed capital structure for use in setting rates for Stable Rate period beginning November 1, 2015, and the accounting treatment of overhead and capitalization for the rate period beginning November 1, 2015, and ending October 31, 2016.

SYSTEM INTEGRITY PLAN

8. Atmos Energy's Mississippi gas distribution system is composed of 6,379 miles of distribution mains and 291 miles of transmission mains. These mains are roughly 60% steel and 40% plastic. Connected to the distribution mains are 303,094 service lines which are 44% steel and 56% plastic. Many of these lines were constructed prior to the enactment of Federal Pipeline Safety Regulations and thus technical records were typically of poor quality or nonexistent. According to the Company, since acquiring Mississippi Valley Gas in 2002, it has been diligent in utilizing geographical information system (GIS) technology for the mapping and storage of facility attribute data; however, certain data gaps remain. Moreover, the Company avers that many of the lines were constructed seventy (70) to eighty (80) years ago and are, though still in use, beyond their anticipated service life. The joining techniques on the pipe, though state of the art at the time of construction, are more prone to leaks than modern joining technology. In addition, many of these older systems were placed into service before the advent of cathodic protection systems to combat corrosion caused by soils.

9. Federal Pipeline Safety Regulations were promulgated in 1970, and are contained in 49 Code of Federal Regulations (CFR) 190-199. The Pipeline Hazardous Materials Safety Administration (PHMSA) of the U. S. Department of Transportation is the federal authority for

oversight of pipeline safety regulations. The Pipeline Safety Division of the Mississippi Public Service Commission ("Pipeline Safety Division") has enforcement responsibility on the state level. These regulations were originally, though comprehensive, largely prescriptive in nature, *i.e.*, prescribed minimum intervals of time to perform such activities as leak surveys, critical valve maintenance, regulatory station inspections, cathodic protection readings, etc. In recent years, the regulations and PHMSA directives, apparently in response to several high profile natural gas incidents, have become risk based and two new PHMSA initiatives are encouraging accelerated repair, rehabilitation, and replacement of gas pipeline infrastructure.

10. These two initiatives are the Transmission Integrity Management Program ("TIMP") and the Distribution Integrity Management Program ("DIMP"). Transmission lines are distinct from distribution lines because they generally operate at higher pressure, carry larger volumes of gas and transport gas for longer distances, such as from town to town. Distribution lines generally carry gas within a town to customers. TIMP requires gas companies to develop and implement integrity management programs for gas transmission lines in high consequence areas ("HCA"). An HCA is defined as a populated area near a pipeline where, if an inadvertent release or rupture were to occur, it could have adverse consequences to public safety or the environment. Atmos Energy has both developed and implemented a transmission integrity management program, and that program has been reviewed and approved by the Pipeline Safety Division. DIMP also requires all gas operators to develop a distribution integrity management program for distribution lines, which requires operators to identify risks to their system and invest in risk control measures beyond the original PHMSA core regulatory requirements. Atmos Energy has developed and implemented a distribution integrity management program, which has likewise been reviewed and approved by the Pipeline Safety Division. The basic

principle underlying both regulatory programs is to require operators to identify and understand the threats to their pipelines and apply their safety resources commensurate with the importance of each threat. Both programs require that these risks be re-evaluated annually based upon data gathered by the operator during the year. Thus, while Atmos Energy has identified the portions of its system where it will need to invest to modernize its system, it may be required to prioritize a different portion each year.

11. To comply with these programs, Atmos Energy proposes to substantially increase its capital budget for system integrity infrastructure over the next ten (10) years. For fiscal year 2015, Atmos Energy will spend approximately $29,000,000 on system integrity infrastructure. Atmos Energy in this filing proposes to increase that budget such that by 2024 the system integrity capital budget will exceed $82,000,000. MPUS consultant Richard Kuprewicz reviewed the capital budget proposal and found the proposed amount to be reasonable in order to modernize the Atmos Energy Mississippi Division gas distribution system. See Direct Testimony of Richard Kuprewicz, Exhibit 1. Thus, Atmos Energy and the MPUS agree and stipulate that the level of system integrity spending proposed by Atmos Energy for the ten (10) year period ending in 2024 appears reasonable. However, the parties agree that circumstances may change and that Atmos Energy will provide Staff with a five (5) year projection that will be updated and reviewed annually to ensure its continued reasonableness.

12. The MPUS has a duty to review and make a recommendation to the Commission regarding all capital projects proposed by Atmos Energy on an annual basis. The MPUS must also be able to verify the projected level of spending, determine the reasonableness of the same, and the fact that the project was completed within the year and is being used and is useful in

rendering gas service. To fulfill that duty, Atmos Energy and the MPUS agree to the following annual procedure:

A. Atmos Energy, by March 1 of each year, will make its SIR filing with the MPUS. The filing will detail, by type, the capital projects proposed for the coming fiscal year.

1. For major projects (defined as projects exceeding $1,000,000) other than system integrity related functionals,[2] Atmos Energy will:

(a) Provide a clearly defined project description, including a detailed narrative of the project objective and specific regulatory requirement for the project;

(b) Provide the projected start and end date for the project; disclose any historical spending already expended on the project, if applicable, and provide developed cost estimates for the spending in the rate period;

(c) Provide analysis that describes the following:

1) How the project advances safety, system integrity, or other similar purposes,

2) Why the project is appropriate at this time,

3) Alternative(s) that were considered and the cost associated with alternative(s) or a statement explaining no feasible alternatives exist, and

[2] Functional projects are defined as those projects which are small in nature individually and undertaken on a repetitive basis, such as replacing steel service lines.

4) Any engineering plans, specifications or drawings that exist at the time of the filing.

2. For projects, other than system integrity related functionals, between $100,000 and $1,000,000, Atmos Energy will:

(a) Provide a clearly defined project description and a detailed narrative of the project objective and specific regulatory requirement for the project;

(b) Explain how the project advances safety, system integrity, or other similar purposes;

(c) Provide the projected start and end dates of the project; and

(d) Disclose any historical spending on the project, if applicable, and provide developed cost estimates for the spending in the rate period.

3. For system integrity related functionals, Atmos Energy will:

(a) Provide a project description, including geographical location if specific areas are being targeted, and a detailed narrative of the purpose of the project and specific regulatory requirement;

(b) Explain how the project advances safety, system integrity, or other similar purposes;

(c) Provide a cost estimate based upon an analysis of historical plant in service data from which the amount requested to be included in rate base was derived; and

(d) Provide an explanation for any material deviations from historical program trends that are reflected in the amount requested to be included in rate base.

4. Atmos Energy agrees to design its SIR rates in proportion to the fixed and volumetric revenues (by rate schedule) established in its most recent Stable Rate Evaluation. Volumes billed under the SIR shall be subject to Rider Schedule 326 Weather Normalization Adjustment Rider.

5. Atmos Energy agrees that the depreciation rate used for the calculation of the SIR, both when calculating annually the SIR eligible investments and when performing the annual true-up of the SIR, shall be the weighted average of the annual depreciation expenses for Mains (Account 376), Services (Account 380), and Meter & Regulator Stations Equipment (Account 378) as established by the Commission for the projected eligible investments in its last Stable Rate proceeding pursuant to the depreciation rates approved by the Commission.

6. MPUS and Atmos Energy agree that for purposes of the SIR, ad valorem tax rate should be calculated using the previous Stable Rate direct plant balances and ad valorem tax information to calculate an effective rate to be applied to the projected investment spending. The ad valorem expense should only reflect an increase to the millage rate if the Company can clearly demonstrate by the

filing dispute deadline that a higher millage rate has been approved and will be applied during the rate period.

7. Parties agree that the SIR investment does generate accumulated deferred income taxes that need to be fully accounted for in Atmos Energy's Mississippi filings, however, parties disagree about how these accumulated deferred income taxes should be accounted for between the SIR and Stable Rate Filings. Parties agree to continue to work on this issue through the Company's Stable Rate Filing to be made on September 5, 2015. To the extent the issue cannot be resolved in the Stable Rate Filing, Atmos Energy agrees to file a private letter request with the Internal Revenue Service to determine whether Staff's proposed treatment, reflecting accumulated deferred income tax equal to the income tax expense that will be collected from ratepayers and any associated impact resulting from the tax net operating loss carry-forwards in the SIR, complies with the normalization requirements of the Internal Revenue Code. Atmos Energy and the Staff will collaborate in accordance with Revenue Procedure 2015-1, Appendix G.

B. The MPUS would be free between March 1 and June 1 of each year to make data requests to Atmos Energy for further information about any of the proposed projects. By June 1, the MPUS will then make its determination on the appropriateness of the proposed projects.

C. As part of the March 1 filing, Atmos Energy will provide the projected rate impact of the proposed projects. Atmos Energy will also include the projected rate impact of the SIR for the following five (5) years.

D. If the overall projected rate impact of the projects exceeds four percent (4%) of the annual revenue of Atmos Energy's Mississippi Division, a hearing will be held in July of each year on those rates to determine compliance with the SIR, the accuracy of the data and the appropriateness of the proposed projects.

E. On September 5 of each year, corresponding with its annual Stable Rate Filing, Atmos Energy will make a compliance tariff filing including the approved SIR projects and the expected rate impact updated for the latest Stable Rate inputs. The SIR rates will be reviewed and approved along with the Stable Rate Factor and implemented on November 1 of each year or upon approval by order of the Commission.

F. On September 5 of each year, corresponding with its annual Stable Rate Filing, Atmos Energy will incorporate into its Stable Rate Filing a detailed analysis showing the earnings effect the SIR will have on the Stable Rate Evaluation filing. In calculating the "Adjusted income available for equity" in the Stable/Rate Evaluation, the projected after-tax return on equity from the SIR shall be added to the "Adjusted income available for equity" to give effect to the projected earnings in the SIR. Also the Stable/Rate Evaluation "Equity Rate Base" will be adjusted to include the SIR equity rate base. Next, the Adjusted income available for equity

(including the SIR projected return on equity) will be divided by the Equity Rate Base (including the SIR Equity Rate Base) to determine the Return on Equity Rate Base for the Stable/Rate Evaluation. It is this percentage that will be compared to the Performance Based Benchmark Return to determine whether an adjustment to the Stable/Rate Adjustment factor is necessary

G. On November 15 of the following fiscal year, Atmos Energy will make an SIR true-up filing in which it will show the actual cost incurred on each project and the status of the projects approved in the prior year. Throughout the fiscal year and after the November 15 true-up filing, the MPUS will be free to audit all costs incurred on the projects and determine the reasonableness of the same.

H. In the true-up calculation to be filed November 15 of each year, Atmos Energy agrees to utilize its current short term debt rate in determining carrying charges on revenue requirement under estimates and its weighted average cost of capital from the most recent approved Stable Rate Filing in determining carrying charges on revenue requirement over estimates. Atmos Energy further agrees that the true-up shall be applicable to revenue requirements only. The true-up will then flow through the rate filing to be submitted the subsequent March 1.

I. The Staff and Company agree that the rigorous annual reporting requirements associated with its annual submission of its system integrity plan and cooperation with the Staff in its monitoring and auditing of this

plan, the Company may be required to hire additional personnel. Accordingly, the Staff and Company agree that the Company may add up to four new positions (manager level or below) to support this effort. The Company agrees to review with Staff its hiring plans, including costs, prior to posting these new positions.

CAPITAL STRUCTURE

13. At the time of its filing in this docket, the actual capital structure of Atmos Energy was 55.3% equity and 43.576% long-term debt, with 1.124% in deposits. This equity-to-debt ratio was higher in equity at the time of this filing than it was at the time of the 2013 Stable Rate Filing by Atmos Energy in Mississippi. At that time, the capital structure was composed of 50.58% equity and 49.42% debt. Atmos Energy and the MPUS agree to an imputed capital structure in its SIR and Stable Rate Filing that would be capped at no more than 52.5% equity until the outcome of the rate case mentioned in Paragraph 16 below.

DEPRECIATION AND AD VALOREM TAXES

14. Atmos Energy and the MPUS also agree that Atmos Energy will be allowed to recover in both the SIR (beginning with the March 1, 2016, filing) and the Stable Rate Evaluation filings (beginning with the September 5, 2016, filing for the 2017 rate period) its projected ad valorem taxes and depreciation expenses on its projected plant in service to be incurred during the rate period. For the 2016 system integrity spending to be considered in the September 2015 Stable Rate Evaluation filing as set forth in Paragraph 15 below, the MPUS and Atmos Energy stipulate that Atmos Energy is allowed to recover in the Stable Rate Evaluation filing the projected expense for ad valorem taxes and depreciation associated with the approved 2016 system integrity projects only. For the Stable Rate Evaluation filing to be made in September 2016 for the 2017 rate period only, the parties stipulate that if, but for the accelerated

recovery of projected ad valorem taxes and depreciation, there would be no rate increase, then the Company shall forgo such increase.

2015 AND 2016 SYSTEM INTEGRITY SPENDING

15. In the most recent Stipulation on Atmos Energy's Stable Rate Evaluation filing, approximately $10,000,000 in system integrity spending was suspended for rate recovery subject to its review in this docket. System integrity spending for 2016 is unique in that the timing of the procedure set forth hereinabove cannot be applied for fiscal year 2016. MPUS and Atmos Energy agree that Atmos Energy will file documentation supporting the 2015 and 2016 system integrity projects in the agreed upon manner referenced in Paragraph 12, above. The documentation for the 2015 and 2016 system integrity projects proposed by Atmos Energy in this filing will be reviewed and a final decision on those proposed projects will be included in the Stable Rate Evaluation filing in September 2015. As a result, the SIR will not be effective until March 1, 2016.

FUTURE RATE CASE

16. The Staff and Atmos Energy agree that twelve (12) months after the SIR is in effect for fiscal year 2017 (based on the March 1, 2016, filings), the Staff and Atmos Energy will review the process established herein to determine if changes need to be made to the SIR tariff. In the fifth (5^{th}) year following the effective date of the SIR or the filing in 2021 for fiscal year 2022 (but no later than February 1, 2022), Atmos Energy shall file a base rate case which will allow an overall evaluation of Atmos Energy's entire tariff structure.

17. On or before March 15 of each year after the effective date of the SIR, Atmos Energy, for purposes of monitoring operational savings derived from the system integrity spending, shall provide the results of performance metrics measuring any reduction in incidents and safety-related events, including a year-over-year comparison of leak repairs made and the

year-over-year comparison of leak calls received from customers or third parties, as well as the overall effectiveness of the system integrity program, including any reduction in Operation and Maintenance (O&M) expenses associated with the system integrity projects.

18. The Staff and Atmos Energy further agree that it may be necessary for the Staff to retain the services of consultants to assist it with the annual evaluation of the SIR and system integrity true-up filings. Should the Staff determine that a consulting firm should be hired, Atmos Energy agrees to fully cooperate and to disclose to the consultants any requested information. The cost of the consultants shall be borne by Atmos Energy. Atmos Energy may recover those costs through its purchased gas adjustment rider.

19. The Staff and Atmos Energy agree to defer review of the overhead allocation and capitalization policies until a later time. The parties agree that Staff will initiate a comprehensive review of these matters and file a report with the Commission once the review is completed. The cost of the review shall be borne by Atmos Energy. Atmos Energy may recover those costs through its purchased gas adjustment rider.

COMPLIANCE FILINGS FOR SIR & STABLE RATE

20. The Staff and Atmos Energy agree that provisions agreed to in this Joint Stipulation will require a compliance filing by Atmos Energy for both the new SIR tariff and modifications to the existing Stable Rate tariff.

OTHER PROVISIONS

21. The MPUS and Atmos Energy understand and expressly agree that, except as previously stated, the stipulations made herein are for the purpose of this proceeding only and shall not apply to or be used as precedent in any other proceeding.

22. Unless specifically agreed to herein, neither the MPUS nor Atmos Energy shall be deemed to have approved or acquiesced in any accounting principle, cost of capital

methodology, capital structure, rate making principle, valuation methodology, cost of service methodology or determination, depreciation principle or method, rate design methodology, or cost allocation that may underlie this Joint Stipulation for which provision is made in this Joint Stipulation.

23. It is agreed that this Joint Stipulation is expressly conditional upon acceptance by the Hearing Examiner of all of its provisions. It is also specifically understood and agreed that this Joint Stipulation is interdependent and non-severable and that if the Hearing Examiner does not accept this Joint Stipulation in its entirety, neither the MPUS nor Atmos Energy will be thereafter bound by any of its provisions.

24. All provisions of this Joint Stipulation have been agreed upon by and between the MPUS and Atmos Energy consistent with the requirements of Atmos Energy's tariff on file with the Commission.

So stipulated, this the 18th day of August, 2015.

MISSISSIPPI PUBLIC UTILITIES STAFF

BY: _____
Virden C. Jones, Executive Director

ATMOS ENERGY CORPORATION

BY: _____
William Senter, Vice-President Rates and Regulatory Affairs

BEFORE THE MISSISSIPPI PUBLIC SERVICE COMMISSION

ATMOS ENERGY CORPORATION
Utility ID #GC-123-0081-00 **DOCKET NO. 2015-UN-049**

IN RE: IN THE MATTER OF A COMPREHENSIVE REVIEW OF ATMOS ENERGY CORPORATION'S CAPITAL BUDGET FOR FISCAL YEAR 2015 THROUGH FISCAL YEAR 2024 AND ITS REQUEST FOR A SYSTEM INTEGRITY RIDER

RECOMMENDED ORDER APPROVING AND ADOPTING JOINT STIPULATION

COMING THIS DAY to be considered the Notice of Intent filed in this matter by Atmos Energy Corporation ("Atmos Energy" or "Company") pursuant to the Mississippi Public Utilities Act of 1956, Section 77-3-1, et seq., of the Mississippi Code of 1972, as amended (the "Act"), and the Mississippi Public Service Commission's Public Utilities Rules of Practice and Procedure, the Mississippi Public Service Commission, having considered the Notice of Intent along with the filed testimony, stipulations and other evidence in the record in this matter, and being fully advised in the premises, and upon recommendation of the Mississippi Public Utilities Staff (the "MPUS," "Public Utilities Staff," or the "Staff"), finds as follows:

PROCEDURAL HISTORY

1. On May 30, 2014, in Docket 2014-UN-117, Atmos Energy filed with the Mississippi Public Service Commission ("Commission") a proposal in support of the recent acceleration of system integrity spending. Atmos Energy proposed to

implement a change in the annual Stable Rate Adjustment Rider which would allow the Company to align the timing of the recovery of these capital related expenses with the timing of the recovery of the related underlying capital investment. The proposal became a topic in the annual Stable Rate Filing which was filed on September 5, 2014. Ultimately, the MPUS and Atmos Energy agreed in a Stipulation dated January 28, 2015, to settle the annual Stable Rate Filing and to bring before the Commission the issues underlying the previous proposal – specifically, whether the increase in its capital budget, including system integrity spending included in the capital budget for FY2015 and subsequent years, is prudent and whether a change in the timing of how the capital-related expenses are recovered is appropriate. Additionally, cost recovery for $10 million in planned FY2015 system integrity spending was deferred until the Commission could rule on the prudency of those specific system integrity projects. The MPUS and Atmos Energy also agreed the Commission should review the Company's Overhead Allocation Policy (Cost Allocation Manual), Capitalization Policy, Capital Structure, and the Company's capital budget, including system integrity spending. Moreover, the Company agreed to work with the Staff to develop a procedure for an annual review of the system integrity projects for the fiscal year budget.

2. On April 1, 2015, Atmos Energy filed its Notice of Intent in this matter in Docket 2015-UN-049 proposing a System Integrity Rider ("SIR") to recover on the system integrity portion of the capital budget and timely recover the depreciation and property taxes specifically associated with its overall system integrity spending.

In addition, Atmos Energy sought approval of its Cost Allocation Manual, its Capitalization Policy and its capital structure. In support of its Notice of Intent, Atmos Energy prefiled testimony of David Gates, John McDill, Sammy Russo, David H. Doggette, Jason L. Schneider, Joe T. Christian and James H. Vander Weide.

3. Notice of the filing was given as required by law and this Commission's Procedural Rules to all interested persons, and by publication on April 20, 2015, in *The Clarion-Ledger*, a newspaper of general circulation published in Jackson, Mississippi. Atmos Energy also gave written notice to each of its Mississippi customers during the Company's May/June billing cycle.

4. On April 15, 2015, the Commission entered a suspension order in this Docket, requesting the Staff to conduct a full investigation of the lawfulness of the Notice of Intent filing. The Public Utilities Staff participated in this Docket as a party.

5. No person or entity sought intervention in this case or otherwise contested the filing. Other than Atmos Energy, only the Staff participated as a party.

6. After propounding and receiving written responses to approximately 300 document requests, the MPUS prefiled direct testimony of Richard Kuprewicz, David M. Boonin (with testimony and an Appendix prepared by Karen Morgan), Helmuth W. Schultz, David Parcell, and Ralph C. Smith. In response, Atmos Energy prefiled rebuttal testimony by David Gates, Jennifer K. Story, David H.

Doggette, John McDill, Jason L. Schneider, Joe T. Christian and James Vander Weide.

7. The MPUS has completed its review of the filing. The MPUS had the benefit of full discovery as prescribed by Mississippi law and the Rules.

8. On July 15, 2015, the hearing examiner conducted a prehearing conference in accordance with Sections 77-3-39 and 77-3-40. The prehearing conference was recessed and reconvened on July 21, 2015, and again on, August 4, 2015. Atmos Energy, the MPUS, the experts of each party, and the hearing examiner engaged in detailed and lengthy discussions of the evidence and the issues presented. These discussions ultimately led to agreement between Atmos Energy and the MPUS and to the parties filing the Joint Stipulation.

9. On August 18, 2015, the Staff and the Company entered into and filed a Joint Stipulation in this Docket. Through discussion and negotiations, the parties have stipulated and agreed to a resolution of certain issues relative to the evaluation of Atmos Energy's filing. A copy of the Joint Stipulation is attached hereto as Exhibit "A".

JURISDICTION AND SUFFICIENCY OF THE FILING

10. The Commission has jurisdiction of this matter by virtue of its subject and the authority conferred upon the Commission by the laws of the State of Mississippi.

11. The Commission finds that the Notice of Intent, all pleadings, testimony, data, documentation and exhibits in this Docket filed by Atmos Energy comply with all of the statutory filing requirements and the Public Service

Commission's procedural rules. The Commission further finds that the Stipulations of January 28, 2015, and August 18, 2015, comply with the Commission's procedural rules and Mississippi law and that there is substantial evidence to support each and every agreement and stipulation and conclusion contained in the Stipulations, including the reasonableness of the level of the projected 10-year capital spending, the process of approving on an annual basis the proposed specific system integrity projects for the next fiscal year and the corresponding rate impact, the true-up on an after-the-fact basis of both the cost and completion of these annual projects, the appropriate treatment of the timely recovery of ad valorem taxes and depreciation for the entire capital budget, an imputed capital structure for use in setting rates for the SIR rate periods beginning November 1, 2016, and the accounting treatment of overhead and capitalization for those periods.

12. The Commission recognizes that the projected monthly rate impact to a typical residential customer of the 2016 SIR filing will be approximately $0.85 and will likely escalate as year-over-year system integrity spending increases; however, as noted in the filings, evidence and in the Joint Stipulation, this level of spending is necessary and reasonable to maintain a safe and reliable system and to comply with existing and pending federal pipeline safety regulations. Additionally, the Commission is satisfied that the procedures and reviews adopted in the Joint Stipulation properly balance the interests of ratepayers and Company to satisfy the public convenience and necessity. For example, the yearly review and true-up process in place will ensure that proper investment is made at reasonable cost.

Further, the Joint Stipulation calls for an interim review of the SIR and the filing of a base rate case in the fifth year after the effective date of the SIR.

FINDINGS AND CONCLUSIONS

13. As noted above, the MPUS conducted an extensive investigation of Atmos Energy's filing and had the benefit of reviewing substantial amounts of data provided by the Company in the discovery process. As stated, the Staff propounded approximately 300 document requests, and the Company provided written responses to those requests. The Stipulations were executed as a result of the pleadings and testimony filed in this Docket, the Staff's knowledge and understanding of Atmos Energy's operations, and the research and investigation conducted by the Staff in this proceeding. No party in this proceeding has opposed the Stipulations.

14. The Commission has reviewed Atmos Energy's filings, the Stipulations and the other documentation in the record and finds that there is substantial evidence in the record to support the proposals of the Notice of Intent as modified by the Stipulations. The Commission finds that the Stipulations and the matters contained therein are in the public interest and will result in just and reasonable rates for the Company's customers. Therefore, the Commission hereby accepts and adopts as its own the Stipulations, including the attachments thereto, and incorporates the same herein by reference.

IT IS THEREFORE ORDERED THAT:

1. The Stipulation entered into by the parties is just and reasonable and the same is hereby approved and adopted by this Commission.

2. The parties may within fifteen (15) days from the date of entry of this Recommended Order file exceptions to the Recommended Order for the review of the full Commission in accordance with Miss. Code Ann. § 77-3-40. If no exceptions are filed, the Recommended Order shall become the Order of the Commission.

3. This Order shall be effective from and after the date of issuance.

SO ORDERED on this, the 20th day of August, 2015.

MISSISSIPPI PUBLIC SERVICE COMMISSION

Shawn Shurden, Hearing Examiner

ATTEST: A True Copy

Katherine Collier
Executive Secretary

Effective this the 20th day of August, 2015.

ATMOS ENERGY CORPORATION
1555 Blake St., Suite 400
Denver, Colorado 80202

Colo. P.U.C. No. 7 Gas
Fifth Revised Sheet No. 27
Cancels Fourth Revised Sheet No. 27

NATURAL GAS RATES
SYSTEM SAFETY AND INTEGRITY RIDER

1. APPLICABILITY. Rate Schedules for natural gas service are subject to a System Safety Integrity Rider ("SSIR") designed to collect Eligible System Safety and Integrity Costs, as defined herein. The SSIR rates Will be subject to annual changes to be effective on January 1 of each year. The SSIR will be implemented For an initial three year term beginning January 1, 2016 and ending December 31, 2023 and recover capital Investments made between September 1, 2015 and December 31, 2023. The SSIR rates to be applied to each rate schedule are as set forth on Sheet Nos. 9 and 11 (exclude special contracts and other revenue). C

2. ANNUAL FILINGS. Each proposed revision in the SSIR rates will be accomplished by filing an advice Letter on November 1 of each year to take effect on the following January 1, except for the initial filing. On November 2, 2015, the company will make as advice letter filing to be effective January 1, 2016 with the first SSIR Cost Recovery Request. On February 1, 2016, the Company will submit the SSIR 5 Year Forecast and Company's confidential DIM Plan. The Company will include in its annual SSIR filings all pertinent information and supporting data, including a 5 Year Forecast Document, related to Eligible System Safety and Integrity Costs, including but not limited to, SSIR prioritization results, project name, project scope, project prioritization score, estimated construction start and completion dates, project cost estimate, discussion of risk modifiers, diagram of proposed replacement project, change of right-of-way, change of capacity, and status update. On or before March 15 of each year the Company will file a true-up report with the Commission that will match final costs with revenues collected and the Company will file the SSIR Cost Prudency Review describing the Projects completed in the prior year and their associated costs. T

3. DEFINITIONS.

3.1 "Deferred SSIR Balance" shall be equal to the balance, positive or negative, of SSIR revenues at the end of the 12-month period for the year prior to the annual SSIR filing less the Eligible System Safety and Integrity Costs as projected by the Company for that 12-month period.

3.2 "Eligible System Safety and Integrity Costs" shall mean (1) a return, at a percentage equal to the Company's weighted average cost of capital grossed up for taxes, approved in Proceeding No. 17AL-0429G on the projected increase in the average 12 month-ending net plant in-service balances associated with the projects for the following 12-month period in which the SSIR rates will be in effect, exclusive of all plant in-service included in the determination of the revenue requirements approved in the Company's last general rate case; (2) the plant-related ownership costs associated with such incremental plant investment, including depreciation, accumulated deferred income taxes (if the Company has no regulated net operation loss), and all taxes including income taxes and property taxes; and (3) no operations and maintenance expenses shall be included as an SSIR Eligible Cost T

Cancels Third Revised Sheet No. 28

N

NATURAL GAS RATES
SYSTEM SAFETY AND INTEGRITY RIDER (continued)

3.3 "System Safety Integrity Rider Projects" ("SSIR Projects"). shall mean system high and moderate risk integrity projects that are (a) identified by the Company and approved on a preliminary basis by the Commission based on filing made on or before November 2, 2015 (for 2016 Projects) and on or before each November 1 thereafter (for 2017 and beyond Projects), (b) implemented in consultation with the Staff of the Commission and the Office of Consumer Counsel, and (c) ultimately approved for inclusion in the SSIR by the Commission through a filing made on or before November 2, 2015 (for 2016 Projects) and each November 1 thereafter (for 2017 and beyond Projects). Such SSIR Projects shall be consistent with the Company's compliance with federal and state regulatory requirements including, but not limited to, 49 CFR Part 192, final rules and regulations of the Department of Transportation's Pipeline and Hazardous Materials Safety Administration (PHMSA) and the Environmental Protection Agency (EPA) that become effective on or after the effective date of the SSIR.

3.4 "SSIR True-Up Amount" shall be equal to the difference, positive or negative, between the Eligible System Safety Integrity Rider Costs as projected for the 12-month period for the year prior to the annual SSIR filing and the actual Eligible System Safety Integrity Rider Costs incurred by the Company for that 12-month period.

4. SSIR RATES CALCULATION.

4.1 The SSIR shall be equal to the Eligible System Safety Integrity Rider Costs, plus or minus the SSIR True-Up Amount, plus or minus the Deferred SSIR Balance (SSIR Deficiency). SSIR rates will be calculated by first taking the SSIR Deficiency and allocating it to each rate class based on the Company's most recent rate case allocation. Each customer class's portion of deficiency will then be volumetric component. The total bill increase for sales customers associated with the SSIR shall not exceed 2.5 percent per year as calculated below. In each annual SSIR filing. Atmos Energy will calculate the total revenue from sales customers for the 12 months ending four months prior to the date of the filing. Atmos Energy will further calculate the revenue increase associated with the proposed SSIR for its sales customers.

5. SSIR ADJUSTMENT WITH CHANGES IN BASE RATES.

Any costs approved by the Commission allocated and collected volumetrically via the SSIR will be shifted to base rates only in the context of a rate case filing that included a class cost of service and rate design component analysis, including a full cost of service study.

6. MEETINGS WITH COMMISSION STAFF AND OFFICE OF CONSUMER COUNSEL

The Company shall meet twice per year. Once on or around April 1 there would be a meeting after Atmos Energy has received the bids for that year's projects to discuss any modifications to the proposed list of projects that may be appropriate if the bids turn out to be significantly different than the estimated costs (included in the previous November 1 filing). Next there would be a meeting on or about October 1 to discuss the status of the projects following the primary construction season.

7. SSIR RATES

Class	Volumetric SSIR	
Residential	$0.03683	R
Commercial	$0.02173	R
Irrigation	$0.02009	R
Transportation	$0.01789	R

SSIR Rates are in addition to each class' existing base rates.

Effective Date: June 1, 2018

Code of Virginia
Title 56. Public Service Companies
Chapter 26. Steps to Advance Virginia's Energy Plan (Save) Act

§ 56-603. Definitions

As used in this chapter:

"Commission" means the State Corporation Commission.

"Eligible infrastructure replacement" means natural gas utility facility replacement projects that: (i) enhance safety or reliability by reducing system integrity risks associated with customer outages, corrosion, equipment failures, material failures, or natural forces; (ii) do not increase revenues by directly connecting the infrastructure replacement to new customers; (iii) reduce or have the potential to reduce greenhouse gas emissions; (iv) are commenced on or after January 1, 2010; and (v) are not included in the natural gas utility's rate base in its most recent rate case using the cost of service methodology set forth in § 56-235.2, or the natural gas utility's rate base included in the rate base schedules filed with a performance-based regulation plan authorized by § 56-235.6, if the plan did not include the rate base.

"Eligible infrastructure replacement costs" includes the following:

1. Return on the investment. In calculating the return on the investment, the Commission shall use the natural gas utility's regulatory capital structure as calculated utilizing the weighted average cost of capital, including the cost of debt and the cost of equity used in determining the natural gas utility's base rates in effect during the construction period of the eligible infrastructure replacement project. If the natural gas utility's cost of capital underlying the base rates in effect at the time its proposed SAVE plan is filed has not been changed by order of the Commission within the preceding five years, the Commission may require the natural gas utility to file an updated weighted average cost of capital, and the natural gas utility may propose an updated weighted average cost of capital. The natural gas utility may recover the external costs associated with establishing its updated weighted average cost of capital through the SAVE rider. Such external costs shall include legal costs and consultant costs;

2. A revenue conversion factor, including income taxes and an allowance for bad debt expense, shall be applied to the required operating income resulting from the eligible infrastructure replacement costs;

3. Depreciation. In calculating depreciation, the Commission shall use the natural gas utility's current depreciation rates;

4. Property taxes; and

5. Carrying costs on the over- or under-recovery of the eligible infrastructure replacement costs. In calculating the carrying costs, the Commission shall use the natural gas utility's regulatory capital structure as determined in subdivision 1 of the definition of eligible infrastructure replacement costs.

"Investment" means costs incurred on eligible infrastructure replacement projects including planning, development, and construction costs; costs of infrastructure associated therewith; and an allowance for funds used during construction. In calculating the allowance for funds used

during construction, the Commission shall use the natural gas utility's actual regulatory capital structure as determined in subdivision 1 of the definition of eligible infrastructure replacement costs.

"Natural gas utility" means any investor-owned public service company engaged in the business of furnishing natural gas service to the public.

"Natural gas utility facility replacement project" means the replacement of storage, peak shaving, transmission or distribution facilities used in the delivery of natural gas, or supplemental or substitute forms of gas sources by a natural gas utility.

"SAVE" means Steps to Advance Virginia's Energy Plan.

"SAVE plan" means a plan filed by a natural gas utility that identifies proposed eligible infrastructure replacement projects and a SAVE rider.

"SAVE rider" means a recovery mechanism that will allow for recovery of the eligible infrastructure replacement costs, through a separate mechanism from the customer rates established in a rate case using the cost of service methodology set forth in § 56-235.2, or a performance-based regulation plan authorized by § 56-235.6.

2010, cc. 142, 514.

The chapters of the acts of assembly referenced in the historical citation at the end of this section may not constitute a comprehensive list of such chapters and may exclude chapters whose provisions have expired.

Code of Virginia
Title 56. Public Service Companies
Chapter 26. Steps to Advance Virginia's Energy Plan (Save) Act

§ 56-604. Filing of petition with Commission to establish or amend a SAVE plan; recovery of certain costs; procedure

A. Notwithstanding any provisions of law to the contrary, a natural gas utility may file a SAVE plan as provided in this chapter. Such a plan shall provide for a timeline for completion of the proposed eligible infrastructure replacement projects, the estimated costs of the proposed eligible infrastructure projects, and a schedule for recovery of the related eligible infrastructure replacement costs through the SAVE rider, and demonstrate that the plan is prudent and reasonable. The Commission may approve such a plan after such notice and opportunity for hearing as the Commission may prescribe, subject to the provisions of this chapter.

B. The Commission shall approve or deny, within 180 days, a natural gas utility's initial application for a SAVE plan. A plan filed pursuant to this section shall not require the filing of rate case schedules. The Commission shall approve or deny, within 120 days, a natural gas utility's application to amend a previously approved plan. If the Commission denies such a plan or amendment, it shall set forth with specificity the reasons for such denial, and the utility shall have the right to refile, without prejudice, an amended plan or amendment within 60 days, and the Commission shall thereafter have 60 days to approve or deny the amended plan or amendment. The time period for Commission review provided for in this subsection shall not apply if the SAVE plan is filed in conjunction with a rate case using the cost of service methodology set forth in § 56-235.2, or a performance-based regulation plan authorized by § 56-235.6.

C. Any SAVE plan and any SAVE rider that is submitted to and approved by the Commission shall be allocated and charged in accordance with appropriate cost causation principles in order to avoid any undue cross-subsidization between rate classes.

D. No other revenue requirement or ratemaking issues may be examined in consideration of the application filed pursuant to the provisions of this chapter.

E. At the end of each 12-month period the SAVE rider is in effect, the natural gas utility shall reconcile the difference between the recognized eligible infrastructure replacement costs and the amounts recovered under the SAVE rider, and shall submit the reconciliation and a proposed SAVE rider adjustment to the Commission to recover or refund the difference, as appropriate, through an adjustment to the SAVE rider. The Commission shall approve or deny, within 90 days, a natural gas utility's proposed SAVE rider adjustment.

F. A natural gas utility that has implemented a SAVE rider pursuant to this chapter shall file revised rate schedules to reset the SAVE rider to zero, when new base rates and charges that incorporate eligible infrastructure replacement costs previously reflected in the currently effective SAVE rider become effective for the natural gas utility, following a Commission order establishing customer rates in a rate case using the cost of service methodology set forth in § 56-235.2, or a performance-based regulation plan authorized by § 56-235.6.

G. Costs recovered pursuant to this chapter shall be in addition to all other costs that the natural gas utility is permitted to recover, shall not be considered an offset to other Commission-

approved costs of service or revenue requirements, and shall not be included in any computation relative to a performance-based regulation plan revenue-sharing mechanism. Further, if the Commission approves (i) an updated weighted average cost of capital for use in calculating the return on investment, (ii) the carrying costs on the over- or under-recovery of the eligible infrastructure replacement costs, (iii) the allowance for funds used during construction, or (iv) any combination thereof, such weighted average cost of capital shall be used only for the purpose of the eligible infrastructure replacement costs for the SAVE rider and shall not be used for any purpose in any other proceeding.

2010, cc. 142, 514.

The chapters of the acts of assembly referenced in the historical citation at the end of this section may not constitute a comprehensive list of such chapters and may exclude chapters whose provisions have expired.

BEFORE THE MISSISSIPPI PUBLIC SERVICE COMMISSION

ATMOS ENERGY CORPORATION
Utility ID #GC-123-0081-00 **DOCKET NO. 05-UN-0503**

IN RE: NOTICE OF INTENT OF ATMOS ENERGY CORPORATION TO MODIFY CERTAIN PROVISIONS OF ITS RIDER SCHEDULE 327 STABLE/RATE ADJUSTMENT RIDER AND VARIOUS OTHER RATE SCHEDULES

ORDER APPROVING AND ADOPTING STIPULATION AND AGREEMENT CONCERNING CERTAIN PROVISIONS OF ATMOS ENERGY COPRORATION'S RIDER SCHEDULE 327 STABLE/RATE ADJUSTMENT RIDER AND VARIOUS OTHER RATE SCHEDULES

THIS CAUSE came on for consideration this date, and the Mississippi Public Service Commission (Commission) having considered the same, finds as follows:

I.

Atmos Energy Corporation (Atmos) filed its Notice of Intent (NOI) on September 7, 2005, as a routine filing and as a miscellaneous filing under Commission Rule 9 and Rule 10.

This filing is in response to a Stipulation between the Mississippi Public Utilities Staff (Staff) and Atmos and the related Order of the Commission in Docket No. 92-UN-230. In that docket the Staff and Atmos agreed, among other things, to address modifications to the Stable/Rate Plan.

II.

The Staff had the benefit of full discovery as prescribed by Mississippi law and the Rules of this Commission. Atmos and the Staff have met and, through discussion and negotiation, have agreed to compromise several matters arising out of its NOI and, they have stipulated and

* Electronic Copy * MS Public Service Commission * 8/10/2018 * MS Public Service Commission * Electronic

agreed as to certain issues which are contained in that certain Stipulation and Agreement dated October 3, 2005, which has been filed in this cause.

III.

The Commission has reviewed the file and the Stipulation and Agreement and finds that the Stipulation and Agreement is just and reasonable, is in full compliance with Mississippi law, and should be approved and adopted.

IV.

The Commission further finds pursuant to Miss. Code Ann. §77-3-37 that Atmos may implement its modified rates pursuant to the Stipulation and Agreement during its first billing cycle of October, 2005.

V.

That Atmos should file its compliance tariffs with the Commission for approval pursuant to the Rules of the Commission.

IT IS THEREFORE ORDERED THAT :

1. The Stipulation and Agreement entered into by the parties be, and the same is hereby approved and adopted by this Commission.
2. Pursuant the Miss. Code Ann. §77-3-37, Atmos shall implement its modified rates pursuant to such Stipulation and Agreement during its first billing cycle in October, 2005.
3. Atmos shall timely file its compliance tariffs for approval pursuant to the Rules of this Commission.
4. Effective upon issuance.

* Electronic Copy * MS Public Service Commission * 8/10/2018 * MS Public Service Commission * Electronic

SO ORDERED, this, the 7th day of October, 2005.

Decision No. C15-1187

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF COLORADO

PROCEEDING NO. 15AL-0299G

IN THE MATTER OF ADVICE LETTER NO. 518, FILED BY ATMOS ENERGY CORPORATION TO PLACE IN EFFECT TARIFF SHEET CHANGES TO BE EFFECTIVE ON JUNE 1, 2015.

DECISION GRANTING EXCEPTIONS

Mailed Date: November 6, 2015
Adopted Date: November 4, 2015

I. BY THE COMMISSION

A. Statement

1. This Decision grants the unopposed exceptions to Decision No. R15-1146 (Recommended Decision) that approves the Stipulation and Settlement Agreement (Settlement) in this rate case filed by Atmos Energy Corporation (Atmos). We modify the Recommended Decision to allow for the approved System Safety and Integrity Rider (SSIR) to take effect on January 1, 2016 and to clarify that, after the base rates approved in this Proceeding are put into effect, any new base rates shall not be implemented by Atmos prior to January 1, 2018.

B. Discussion

2. On May 1, 2015, Atmos filed Advice Letter No. 518 seeking to increase its annual base revenues by $3.9 million through a General Rate Schedule Adjustment. Atmos also proposed to implement the SSIR to recover additional capital investment for accelerated replacement of aging pipeline facilities beginning in 2016.

3. On September 24, 2015, Atmos, Staff of the Colorado Public Utilities Commission (Staff), the Colorado Office of Consumer Counsel (OCC), and Energy Outreach

Colorado PUC E-Filings System

Colorado (EOC) filed the Settlement and an Unopposed Joint Motion to Approve Stipulation and Settlement.

4. On October 23, 2015, Administrative Law Judge (ALJ) Robert I. Garvey issued the Recommended Decision approving the Settlement. The ALJ authorized a base rate revenue increase of $1.96 million effective January 1, 2016 and the proposed implementation of an SSIR for the three-year period ending December 31, 2018. The Recommended Decision directed Atmos to make two separate advice letter filings to implement the initial rates consistent with the terms of the approved Settlement. The ALJ also approved the term of the Settlement by which Atmos agreed not to implement new base rates prior to January 1, 2018.

5. On October 30, 2015, Atmos, Staff, the OCC, and EOC (collectively, the Settling Parties) filed unopposed joint exceptions to the Recommended Decision and requested a waiver of responses to those exceptions. The Settling Parties request that the Commission clarify and modify the Recommended Decision with respect to the initial implementation of the SSIR and to the two-year "stay-out" provision for new base rates.

6. The Settling Parties argue that the Recommended Decision did not take into consideration the changes to the Settlement Agreement regarding the initial implantation of the SSIR as agreed to by the Settling Parties and presented by Atmos's witness at the hearing before the ALJ. The Settling Parties request that the Commission modify the Recommended Decision so that Atmos is authorized to make an advice letter filing to implement the SSIR beginning January 1, 2016 instead of February 29, 2016 as stated in Subparagraph 22.a.i of the Settlement.

7. The Settling Parties also seek to clarify the language in the last sentence of Paragraph 33 of the Recommended Decision, which states: "Under the terms of the approved Settlement, Atmos shall not file another request for a base rate increase prior to May 5, 2017 for

rates to be effective no sooner than January 1, 2018." The Settling Parties request that the Commission clarify that Atmos agrees that any new base rates will not be implemented before January 1, 2018.

8. Because the Settling Parties include all of the parties to the proceeding and since they support the exceptions, they request waiver of response time to the exceptions.

C. Conclusions and Findings

9. We find good cause to waive response time to the exceptions.

10. We grant the request to modify the directives in the Recommended Decision to allow for the initial SSIR to take effect on January 1, 2016. Atmos may make a new advice letter filing with its first SSIR Cost Recovery Request in accordance with this Decision. Atmos also shall submit its initial SSIR Five Year Forecast and the confidential Distribution Integrity Management Program (DIMP) information no later than February 1, 2016. Subsequent new advice letters shall contain the annual submittal of the SSIR Five Year Forecast, SSIR Cost Recovery Request, and the confidential DIMP, consistent with the terms of the Settlement, and shall be filed in new advice letter proceedings no later than November 1, 2016 with an effective date of January 1, 2017; and November 1, 2017 with an effective date of January 1, 2018. No later than April 30, 2017, Atmos shall file an application for approval of the SSIR costs recovered from ratepayers in accordance with the SSIR effective since January 1, 2016.

11. We also clarify Paragraph 33 of the Recommended Decision. Atmos shall not file another request for a base rate increase prior to May 5, 2017 for rates to be implemented before January 1, 2018.

II. ORDER

A. The Commission Orders That:

1. Response time to the Exceptions to Recommended Decision No. R15-1146 (Exceptions) filed jointly on October 30, 2015 by Atmos Energy Corporation, Staff of the Colorado Public Utilities Commission, the Colorado Office of Consumer Counsel, and Energy Outreach Colorado is waived.

2. The Exceptions are granted, consistent with the discussion above.

3. Decision No. R15-1146, issued on October 23, 2015, shall become a decision of the Commission, with modifications, consistent with the discussion above.

4. The 20-day time period provided by § 40-6-114, C.R.S., to file an application for rehearing, reargument, or reconsideration shall begin on the first day after the effective date of this Decision.

5. This Decision is effective upon its Mailed Date.

B. ADOPTED IN COMMISSIONERS' WEEKLY MEETING November 4, 2015.

I. BY THE COMMISSION

A. Statement

1. This Decision adopts and modifies Decision No. R18-0014 (Recommended Decision), issued on January 8, 2018, consistent with the Commission's consideration of the exceptions to the Recommended Decision.

2. Atmos Energy Corporation (Atmos or Company) is authorized to file revised tariff sheets to adjust its rates with General Rate Schedule Adjustments (GRSAs) calculated in accordance with findings and directives in the Recommended Decision, as revised by this

Decision, and in Decision No. C18-0169-I, issued on March 12, 2018, addressing the Tax Cut and Jobs Act of 2017 (TCJA).

B. Discussion

3. On June 26, 2017, Atmos filed Advice Letter No. 530 with supporting testimony and exhibits. The proposed effective date of the tariffs filed with Advice Letter No. 530 was July 27, 2017.

4. Atmos sought to increase the Company's annual revenues by approximately $3.4 million, or approximately 3.38 percent. As requested, Atmos would accomplish an increase in base rate collections of $2.9 million by applying a proposed GRSA of 8.52 percent to each component of the Company's base rates, as set forth on the tariff sheets filed with Advice Letter No. 530. Atmos also sought to apply a GRSA of 1.19 percent to recover approximately $476,000 of rate case expenses over a period of one year.

5. Atmos also proposed to extend the System Safety and Integrity Rider (SSIR) rate adjustment mechanism for five years. Atmos included the tariff sheets for the extended SSIR with Advice Letter No. 530.

6. By Decision No. C17-0564, issued on July 12, 2017, the Commission suspended for 120 days, the effective date of the tariff pages submitted with Advice Letter No. 530 pursuant to § 40-6-111(1), C.R.S., and set the matter for hearing before an Administrative Law Judge (ALJ).

7. By Decision No. R17-0597-I, issued on July 21, 2017, ALJ Steven H. Denman suspended the effective date of the tariffs filed with Advice Letter No. 530 for an additional 90 days pursuant to § 40-6-111(1), C.R.S., or, in this proceeding, to February 22, 2018.

8. On January 8, 2018, ALJ Denman issued the Recommended Decision.

9. On January 26, 2018, by Decision No. C18-0069-I, the Commission stayed the Recommended Decision and extended the dates to file exceptions to the Recommended Decision pursuant to § 40-6-109(2), C.R.S., and Rule 1505(a), of the Commission's Rules of Practice and Procedure, 4 *Code of Colorado Regulations* (CCR) 723-1. The Commission stayed the Recommended Decision primarily because rates for Atmos established if the Recommended Decision were to become the decision of the Commission, they would not reflect the impacts of the TCJA signed into law on December 22, 2017. The Commission explained that it was not inclined to establish new base rates for Atmos based on federal tax provisions no longer in effect before it was understood: (1) how Atmos will return to customers the savings from the materially lower corporate tax rates that are accruing relative to the tax-related expenses in current rates and any new rates based on the evidentiary record in this rate proceeding; and (2) how Atmos will put into place rates that are further adjusted to account fully for the various changes in tax law in the TCJA. The Commission set March 7, 2018 as the deadline for the filing of exceptions to the Recommended Decision. Responses to exceptions were due March 21, 2018.

10. On February 1, 2018, by Decision No. C18-0075, the Commission opened a statewide proceeding (Proceeding No. 18M-0074EG) for the Commission's consideration of the impacts of the TCJA on the revenue requirements and rates of all Colorado investor-owned electric and natural gas utilities including Atmos. The Commission directed Atmos and the other Colorado utilities to record and track as a deferred regulatory liability, the difference in tax liabilities caused by the enactment of the TCJA as compared to the federal tax amounts used to establish rates currently in effect. The Commission further ordered Atmos and the other Colorado utilities to submit a filing, no later than February 21, 2018, that addresses: (1) the tracking and monitoring of the TCJA-related deferred regulatory liability; (2) proposals for implementing

any refund due to customers associated with the deferred regulatory liability; and (3) the establishment of updated revenue requirements and rates that reflect the prospective impacts of the TCJA.

11. The Commission explained in Decision No. C18-0075 that this statewide proceeding provides a degree of uniformity in the treatment of the issues relating to the impacts of the TCJA for all Colorado investor-owned electric and natural gas utilities and their customers.[1] The Commission recognized, however, that the specific circumstances of each utility also must be taken into account. Specifically, the Commission acknowledged that Atmos and certain other utilities have ongoing rate proceedings before the Commission at this time and clarified that the filing requirements were not intended to preclude the implementation of potential refunds or the establishment of new rates in those other ongoing proceedings.

12. On February 26, 2018, in this proceeding, Atmos filed a Stipulation and Partial Settlement Agreement Regarding Incorporating TCJA Impacts Into Atmos Energy Rates (TCJA I Settlement). The agreement was joined by all parties in this proceeding, including Atmos, Staff of the Colorado Public Utilities Commission (Staff), the Office of Consumer Counsel (OCC), and Energy Outreach Colorado (EOC). The TCJA I Settlement contained provisions addressing: (1) the TCJA-related regulatory liability established in the statewide TCJA proceeding; (2) the accumulated deferred income tax impacts associated with the TCJA; (3) TCJA-impacts on base rates going forward; (4) provisional rates for effect on April 1, 2018; (5) the exceptions process for the Recommended Decision; and (6) the establishment of final rates to conclude this rate proceeding.

[1] Decision No. C18-0075, Proceeding No. 18M-0074EG, issued February 1, 2018, at ¶13.

13. By Decision No. C18-0169-I, issued March 12, 2018, the Commission granted the joint motion to approve the TCJA I Settlement. Consistent with the terms of the TCJA I Settlement, the Commission authorized Atmos to put in place base rates at the same levels currently in effect, subject to refund, effective April 1, 2018.[2] Atmos also agreed to file an amended advice letter in this proceeding with an effective date of November 3, 2017 such that the 210-day suspension period for the tariffs filed under Advice Letter No. 530 would extend through June 1, 2018.[3] The Commission also approved the stipulation that the annual base rate revenue decrease associated with the TCJA is $2,102,138 and agreed to allow Atmos to incorporate this stipulated amount of TCJA impacts within the base rates established in this rate case.

14. Pursuant to § 40-6-109, C.R.S., Atmos, the OCC, and Staff each filed exceptions to the Recommended Decision on March 7, 2018.

15. Responses to the exceptions were filed by Atmos and the OCC on March 21, 2018.

C. Staff's Motion to Respond to Atmos' Response to Exceptions

16. On March 23, 2018, Staff filed a Motion for Leave to File Response to Atmos Energy Corporation's Response to Exceptions. Staff argues that the language in Atmos' response directed at Staff's exceptions implied that Proceeding No. 15AL-0135G was not a fully litigated rate proceeding. Staff contends that this implication is materially false.

17. Rules 1308(a) and 1505(a), 4 CCR 723-1, permit responses to exceptions. In this matter, both Atmos and OCC timely filed responses as permitted by Commission rules.

[2] Decision No. C18-0169-I, Proceeding No. 17AL-049G, issued March 12, 2018, at ¶16.
[3] Decision No. C18-0169-I, Proceeding No. 17AL-049G, issued March 12, 2018, at ¶15.

However, pursuant to Rule 1308(b), 4 CCR 723-1, parties may not file responses to a response in the exceptions process, except upon motion. The motion seeking additional response must "demonstrate a material misrepresentation of a fact, an incorrect statement or error of law, or accident or surprise which ordinary prudence could not have guarded against." Here, the record is clear that Proceeding No. 15AL-0135G was a fully litigated case. Additional response for the purposes identified by Staff is not necessary or warranted in these circumstances. We therefore deny Staff's motion.

D. Exceptions to Decision No. R18-0014

1. Extension of the SSIR Mechanism

18. As part of this Phase I rate proceeding, Atmos requests an extension of the SSIR through December 31, 2023. The five-year extension is intended to enable Atmos to remove or replace an additional 109 miles of high-risk bare steel and polyvinyl chloride (PVC) mains.

19. The Recommended Decision affirms that the Commission has the discretion to allow the recovery of costs either through a cost adjustment clause such as an SSIR or through base rates pursuant to a general rate proceeding. The ALJ thus finds that the Commission may allow Atmos to recover pipeline replacement capital expenditures through an extended SSIR.[4]

20. The ALJ further states that the Commission: "cannot ignore that the overarching reason for pipeline integrity replacement and cost recovery programs, such as the SSIR, is to promote the safety of gas utility facilities and to protect customers and the public from injury or loss of life."[5] The ALJ concludes that: "Failure of bare steel and PVC pipelines, if not repaired

[4] Recommended Decision, at ¶82.

[5] Recommended Decision, at ¶83.

or replaced expediently, could likely lead to catastrophic events such as fires, explosions, serious property damage, and loss of life."[6]

21. The ALJ finds that Atmos satisfied its burden to prove that significant capital expenditures for Commission-approved SSIR projects will occur over the full five-year period associated with the proposed extension of the SSIR without corresponding revenue increases. The ALJ concludes that a five-year extension of the SSIR will enable the Company: "to continue assessing its assets, keeping current with the most recent federal and state mandates, identifying new threats, and working to improve the overall integrity and safety of its pipeline system."[7]

22. As explained in the Recommended Decision, the OCC recommended that, if the Commission extends the SSIR, the Commission should adopt the following limits: (1) the SSIR extension should be only for two years; (2) the SSIR capital costs should earn a return based upon the Company's weighted cost of debt; and (3) the cap on the SSIR total bill impact should be reduced from the current 2.5 percent to 2 percent.

23. The ALJ rejects these recommendations in the Recommended Decision. He concludes that the OCC's proposed additional two-year extension is arbitrary, capricious, and unsupported. The ALJ finds that limiting the SSIR extension to only two years would be contrary to, and curtail unnecessarily, the public safety benefits of the accelerated pipeline replacement program that is the rationale for the SSIR. The ALJ also concludes that Atmos will finance the SSIR investments with both debt and equity and agrees with Atmos that there is no justification for SSIR investments to earn a return set only at the Company's weighted cost of

[6] *Ibid.*

[7] Recommended Decision, at ¶85.

debt. The ALJ further finds that a 2 percent cap would slow the replacement of high-risk infrastructure and would not provide a substantial ratepayer safeguard.[8]

a. Positions of the Parties

24. In its exceptions, the OCC reasserts its claim that, contrary to the ALJ's findings, Atmos failed to demonstrate that an extension of the SSIR is necessary. The OCC argues that the ALJ's primary reason for granting the extension was his reliance on Atmos' testimony that it would take 67 years to replace its bare steel and PVC mains in the ordinary course of business. The OCC contends that this reason was unproven. The OCC claims that it produced a set of circumstances that it believes supports a bare steel replacement pace of 2.1 years. The OCC also concludes that this pace of pipeline replacement as one Atmos has shown itself to be capable of maintaining within the Company's ordinary course of business.

25. Further, the OCC argues in its exceptions that the ALJ's rejection of its proposed limitations to any SSIR extension is also flawed. The OCC argues that any extension granted by the Commission should be: (1) only for two additional years so that the total duration of the SSIR would be five years; (2) conditioned on a return on SSIR capital investments lowered to the Company's weighted cost of debt; and (3) capped at a total bill impact of 2 percent.

26. In responses, Atmos argues that the OCC did not dispute that bare steel pipe and PVC pipe: (1) are no longer considered appropriate for the construction of natural gas distribution systems; (2) deteriorate with age; (3) are prone to leaks and potential failures; and (4) create risks for Atmos' customers and utility workers. Atmos also argues that no party, including the OCC, disputed the testimony that, if Atmos returned to the historic pace of

[8] Recommended Decision, at ¶95.

replacement that occurred before the SSIR was implemented, it would take the Company approximately 67 years to replace the remaining bare steel and PVC pipe. Atmos further points to testimony from its witness who stated that a continuation of replacement projects at the pace cited by the OCC was not sustainable as the ordinary course of business.[9]

27. Atmos supports the ALJ's rejection of the OCC's proposed conditions to an SSIR extension. Atmos argues that the SSIR extension is more reasonable than alternative proposals, because the Company would need to file annual rate cases during the five-year period of 2019 through 2023 if it went forward with the replacement investments in the ordinary course of business without SSIR treatment. Atmos notes that annual rate cases would layer annual rate case expenses on top of the revenue requirement associated with the investments. Atmos also argues that, without SSIR treatment, the Company would earn less than its authorized return on equity (ROE) by between 150 and 375 basis points each year, all else held equal.

28. Atmos further argues that if the Commission authorizes the SSIR mechanism to continue only in two-year increments, it will require five regulatory proceedings (or three additional cases) in order to complete a ten-year replacement plan. Atmos further argues that, contrary to the OCC's perspective on a rate cap, Staff offered testimony that SSIR investments would be reasonable even if they resulted in a 2.5 percent rate increase annually.

29. Atmos also argues the ALJ correctly concluded that, based on the evidence, the Company finances SSIR investments with both debt and equity and, as such, there is no basis to authorize a debt return. Atmos further argues that the OCC made this same argument with regard

[9] Tr. Vol. 1, 11/7/2017, p. 170.

to Public Service's similar infrastructure rate mechanism in Proceeding No. 15AL-0135G and the Commission expressly rejected the position.

b. Findings and Conclusions

30. The Commission denies the OCC's exceptions regarding the SSIR. We agree with the ALJ's rationale for granting Atmos' requested five-year extension. The SSIR provides a reasonable means of cost recovery to the Company as it completes timely and critical infrastructure projects that promote safety. The Commission also adopts the ALJ's finding to reject the OCC's proposed limits on an extended SSIR for the reasons set forth in the Recommended Decision.

31. In its exceptions, Staff seeks clarification and direction from the Commission as to the policy considerations and criteria applied when addressing system safety and integrity programs and associated cost recovery going forward. Staff does not disagree with the ALJ's conclusions regarding the benefits of the SSIR to Atmos' customers; however, Staff argues that the ALJ applied different criteria to his approval of the extension of the SSIR than the Commission had applied in previous decisions.

32. The Commission is reluctant to set forth a policy on cost adjustments and rate mechanisms in the narrow context of this rate proceeding for a single natural gas utility. We also conclude that such a policy is not required. However, based on the evidence in this proceeding and the rationale for upholding of the approval of the five-year extension, the Commission concludes that the SSIR remains an appropriate cost recovery mechanism for Atmos in these circumstances. Atmos is responding to federal regulators and this state's concerns about the safety of natural gas pipelines. The magnitude of the capital investments associated with the

planned replacement of bare steel and PVC pipe are significant and warrant the extension of the SSIR.

2. Return on Equity (ROE)

33. In the Recommended Decision, the ALJ establishes the authorized ROE for Atmos within the range from 9.3 to 9.9 percent and sets 9.7 percent as the authorized ROE used for calculating rates.[10]

34. The ALJ explains that in arriving at these ROE values, he considered all of the analyses presented by the parties. He concludes that: "The wide range of results and the divergence of positions on inputs and assumptions confirm the inherent problems with the methods and the need for the Commission to exercise its judgment in considering the various factors that explain the differences in the calculations."[11]

35. The ALJ finds that the Multi-Stage Discounted Cash Flow (MS-DCF) results, which he recognizes the Commission has examined in at least three recent Phase I rate cases, and recent shifts in the Federal Reserve's monetary policy together support an increase in the Company's authorized ROE from its existing level of 9.6 percent. The ALJ thus rejects a decrease in the ROE.

36. The ALJ notes that in the last year, the Federal Reserve has raised the Fed Funds Rate four times by 25 basis points each time. The ALJ concludes that the interest rates affected by Federal Reserve decisions have a direct impact on the returns to investors who own shares in

[10] Recommended Decision, at ¶169.
[11] *Ibid.*

other businesses having comparable financial characteristics and business risks as utilities regulated by the Commission.[12]

a. Positions of the Parties

37. In its exceptions, Atmos requests that the Commission overturn the ALJ's recommended increase in the Company's ROE to 9.7 percent and instead increase the Company's ROE further to 10.50 percent.

38. Atmos states that its expert witness Dylan D'Ascendis applied the Constant Growth DCF model, the MS-DCF model, the Capital Asset Pricing Model, and the Bond Yield Plus Risk Premium approach using a proxy group consisting of other natural gas distribution companies and a combination of electric and gas utilities. Based on these models applied to the proxy group of companies, he found that cost of equity for Atmos is currently in the range of 10.00 percent to 10.75 percent. Atmos argues that an authorized ROE of 10.50 percent is reasonable and appropriate.

39. In contrast, Staff requests in its exceptions that the Commission authorize a reduction in the Company's current authorized ROE of 9.6 percent either to a level closer to Staff's recommendation of 9.0 percent, or, in the alternative, to a level near the bottom of the range from 9.3 to 9.9 percent established in the Recommended Decision. Staff argues that a reduction in the authorized ROE would align Atmos' authorized ROE with the MS-DCF model results that the Commission has historically favored. Staff also argues that a lower ROE would acknowledge the principal of "gradualism" in ratemaking.

[12] Recommended Decision, at ¶157.

40. The OCC also requests in its exceptions that the Commission lower the Company's authorized ROE. The OCC argues that it presented substantial evidence to support an ROE of 9.0 percent based on various analyses using several techniques that resulted in a range of ROE values from 6.7 percent to 8.75 percent "with the most consensus between 6.81% and 7.21%."[13] According to the OCC, the ALJ erred in not establishing an ROE considerably weighted by the results of several MS-DCF analyses.

41. In response, Atmos faults Staff's and the OCC's reliance on recent trends in ROE decisions both nationally and in Colorado. Atmos argues that both Staff and the OCC have relied upon ROE information that was outdated by the time this case went to hearing. Atmos further argues that, by incorporating more recent cases, the average authorized ROE for natural gas utilities in 2017 is 9.78 percent, while the average authorized ROE for litigated matters in 2017 is 9.89 percent.

42. Atmos also addresses the criticisms of the ALJ's discussion regarding the Federal Reserve's monetary policy in the Recommended Decision. Atmos argues that there was uncontroverted evidence that the actions of the Federal Reserve created a likelihood of "increasing interest rates." Atmos also argues that the ALJ did not use this fact to set an ROE but, rather, used the information to put the MS-DCF results into proper context. As such, Atmos argues that there was no error in the ALJ relying on the evidence addressing federal monetary policy to the limited extent he did in the Recommended Decision.

[13] OCC Exceptions, p. 3.

b. Findings and Conclusions

43. The Commission agrees with the ALJ that based on the evidence in the record and the proper exercise of judgment regarding the results and impacts on rates, a reasonable range for the authorized ROE for Atmos extends from 9.3 to 9.9 percent. This range satisfies the standards articulated in *Bluefield Waterworks and Improvement Co. v. Public Service Comm'n of West Virginia*, 262 U.S. 679 (1923) and *Federal Power Comm'n v. Hope Natural Gas Co.*, 320 U.S. 591 (1944). The range established therefore excludes the request by Atmos for a 90 basis point increase to 10.5 percent as well as the 70 basis point decrease to the 9.0 percent level advocated by Staff and the OCC. In consideration of the possibility of increasing interest rates under expected federal monetary policy, the ALJ properly narrows the breadth of reasonable values for the point estimates of the authorized ROE for calculating rates.

44. Within the range established in the Recommended Decision, the Commission interprets the various model results and economic factors differently than the ALJ. The analyses presented by Staff and the OCC and the parties' vigorous discussion on the issues surrounding the inputs and assumptions that underlie the models, including the projected growth rates that enter into the MS-DCF model, support a reduction in the authorized ROE for Atmos for calculating rates instead of an increase. Although we agree with the ALJ that Atmos has sustained a stable and strong credit rating that has afforded it reasonable access to capital at its current authorized ROE,[14] we find the analysis from Staff and the OCC compelling that a reduced ROE within the established range is appropriate.

[14] Recommended Decision, at ¶171.

45. Within the range established by the Recommended Decision, we therefore find that this record supports an ROE of 9.45 percent.

46. The Commission concludes that an authorized ROE of 9.45 percent for calculating rates will ensure that Atmos is able to maintain access to equity capital at a reasonable cost. Therefore, we affirm the Recommended Decision in that the authorized ROE for Atmos will be established within the range from 9.3 percent to 9.9 percent, and provide that an authorized ROE of 9.45 percent will be used for calculating rates.

3. Capital Structure

47. The Recommended Decision approves a capital structure of 55.58 percent equity and 44.42 percent debt for the test year ending March 31, 2017.[15] This capital structure, advocated by Atmos, is the per-books capital structure for the test year adjusted for the long-term debt financing that occurred on June 5, 2017.[16]

48. The ALJ finds that the OCC had failed to produce any credible evidence that material prejudice to Atmos' ratepayers would result from using this capital structure. The ALJ concludes that OCC has thereby failed to satisfy its burden of proof to demonstrate why the Commission instead should use the OCC's proposed capital structure of 52 percent equity and 48 percent debt for ratemaking purposes. The OCC's recommended ratio is identical to the capital structure settled upon by the parties in the Company's two most recent rate cases and ultimately approved by the Commission.

[15] Recommended Decision, at ¶189.
[16] Recommended Decision, at ¶179.

a. Positions of the Parties

49. The OCC takes exception to the ALJ's findings that the record supports approval of a capital structure of 55.58 percent equity and 44.42 percent debt. The OCC maintains instead that such a capital structure presents a material prejudice to ratepayers because it increases the Company's revenue requirement by approximately $600,000 as compared to the revenue requirements calculated using the Company's currently authorized capital structure of 52 percent equity and 48 percent debt.

50. In response, Atmos argues that the OCC's recommendation for capital structure is inconsistent with Commission precedent. Atmos notes that the Commission historically has based capital structures on the actual level of long-term debt and common equity. Atmos also argues that the Colorado Supreme Court has held that, unless it is demonstrated by a substantial showing that ratepayers are materially prejudiced by the actual capital structure that finances utility operations, the Commission should use that actual utility capital structure in calculating rates.

b. Findings and Conclusions

51. The capital structure of 55.58 percent equity and 44.42 percent debt, which is based on booked amounts and a known and measureable adjustment, is reasonable and has not been shown to cause material harm to Atmos' customers. Consistent with the Recommended Decision, we approve that capital structure for the calculation of the Company's rate of return (ROR). The OCC's exceptions on this issue are therefore denied.

4. Weighted Average Cost of Capital

52. The ROR used for setting rates in Atmos' most recent base rate proceeding was 7.82 percent.[17]

53. Given the Commission's decision to reduce Atmos' authorized ROE to 9.45 percent and its decision to reject the OCC's request to maintain the Company's current capital structure, the weighted average cost of capital value to be used as the ROR on rate base is approved as follows:

	Equity	Debt	Total ROR
Ratio	55.58%	44.42%	
Cost	9.45%[18]	5.17%	
Weighted Component	5.25%	2.30%	7.55%

54. The Commission concludes that this result satisfies the standard of *Bluefield* and *Hope* and is therefore reasonable and appropriate for the establishment of rates in this proceeding.

5. Storage Gas Inventory as a Rate Base Asset

55. The Recommended Decision explains that, as part of its case, the OCC recommended that the Commission remove the Company's gas storage inventory from rate base but allow Atmos to recover its financing costs through its gas cost adjustment (GCA) at a short-term financing rate. The OCC argued that storage inventory costs are short-term and thus Atmos finances them on a short-term basis. The ALJ rejects the OCC's recommendations for the same reasons that another ALJ and the Commission rejected the same proposals in Proceeding

[17] Decision No. R15-1146, issued October 23, 2015, Proceeding No. 15AL-0299G, Attachment A, ¶ 8.

No. 12AL-1268G. Specifically, the ALJ rejects the OCC's "financing matching argument"[19] and agrees with Atmos that the Company does not have a specific funding mechanism for storage gas.

a. Positions of the Parties

56. In its exceptions, the OCC argues that the ALJ erred in allowing Atmos to include storage gas in the test-year rate base. The OCC argues that this practice leads to an excessive ROR for storage gas costs because it violates the financial matching principle. Specifically, the OCC argues that proper application of the financial matching principle requires that short-term or current liabilities should finance short-term or current assets such as storage gas financed instead of long-term sources of financing such as long-term debt, preferred stock, and common equity.

57. In response, Atmos echoes the Recommended Decision by noting that the Commission denied a similar recommendation in Proceeding No. 12AL-1268G. In that previous rate case, the ALJ found that it was "inappropriate to implement the recommendations to use short-term rates to develop the return component of the [gas storage inventory]."[20] The ALJ went on to note that gas storage inventory is an asset under Federal Energy Regulatory Commission accounting that should have a return component to it.

58. Further, Atmos states that the OCC's argument that there is a distinction between storage gas facilities and storage gas itself is incorrect and beside the point. According to Atmos, investors pay for the storage gas inventory, which the Company holds until needed, even if Atmos itself does not own the storage facilities.

[19] Recommended Decision, at ¶121.

[20] Decision No. R13-1307, issued October 22, 2013, Proceeding No. 12AL-1268G, ¶ 486.

b. Findings and Conclusions

59. We find no reason to deviate from the ratemaking conventions used for gas storage in the other rate proceedings discussed in the Recommended Decision. We therefore uphold the ALJ's finding to allow Atmos to include its gas storage inventory in rate base and to earn its ROR on such inventories. The OCC's exceptions on this issue are therefore denied.

6. Average Rate Base Versus Year-End Rate Base

60. In the Recommended Decision, the ALJ concludes that the evidentiary record in each utility rate case must demonstrate the need for using year-end values for the determination of the value of rate base.[21] The ALJ also concludes that Atmos failed to demonstrate that special circumstances exist, such as earnings attrition beyond the control of the Company, to justify the use of year-end rate base. The ALJ states that he agrees with Staff that the difference of $4.8 million between the balances of year-end rate base over average rate base does not demonstrate that earnings attrition will result and that the evidence relied upon by Atmos in its case to show alleged earnings attrition is neither convincing nor persuasive.[22]

a. Positions of the Parties

61. Atmos requests in its exceptions that the Commission modify the Recommended Decision by adopting year-end calculations of its rate base instead of the average calculations of rate base values as approved by the ALJ. Atmos argues that year-end rate base is appropriate under the financial conditions the Company currently faces. Atmos claims that year-end rate base will allow it a reasonable opportunity to earn a fair ROR on rate base going forward, while the use of average historical rate base does not sufficiently account for regulatory lag related to

[21] Recommended Decision, at ¶105.
[22] Recommended Decision, at ¶103.

the investment utilized by its customers, but not reflected in rates. Atmos points to the Company earning an ROE that was 155 basis points below its average authorized ROE between 2012 and 2016 as evidence of earnings attrition.

62. In response, the OCC asserts that Atmos' claim of earnings attrition is the result of factors within the Company's control. For example, the OCC argues that Amos establishes the pace at which earnings attrition occurs through its pursuit of capital infrastructure additions. The OCC also argues that cost trackers such as the SSIR guarantee a set revenue recovery and ensure cost recovery, which mitigate against the earnings attrition claimed by the Company. The OCC also maintains that the Commission has expressed a preference for the use of average rate base (pointing, for example, to Decision No. C93-1346[23]).

b. Findings and Conclusions

63. We uphold the Recommended Decision with respect to its directive that Atmos calculate rates based on 13-month average plant values for the test year instead of year-end measures. We agree with the ALJ that Atmos has not justified the use of a year-end rate base, particularly in the context of the relief provided to the Company by the extension of the SSIR.

7. Recovery of Rate Case Expenses

64. The Recommended Decision allows Atmos to recover rate case expenses through a GRSA. The ALJ explains that he agrees with Atmos that rate case expenses are a legitimate cost of providing utility service, necessitated by the Commission's regulation, and that the Company has a right to recover all reasonable operating expenses, including rate case expenses.[24]

[23] Decision No. C93-1346, issued October 27, 1993, Proceeding No. 93S-001EG.

[24] Recommended Decision, at ¶127.

Specifically, the ALJ approves actual rate case expenses of $349,252.61 to be amortized over a one-year period.

65. The Recommend Decision explains that the OCC sought an amortization period of three years during which the Commission should prevent Atmos from recovering any remaining rate case expenses should it file a new rate case. The ALJ concludes that such an approach is arbitrary and possibly confiscatory.[25]

a. Positions of the Parties

66. In its exceptions, the OCC argues that Atmos' requested rate case expenses should be limited to the actual expenses incurred, not to exceed the original estimate, and be amortized over three years. Further, the OCC argues that, in the alternative, the amount of rate case expenses awarded to Atmos should be limited to the equivalent percentage of Atmos' actual awarded revenue requirement relative to its revenue requirement request. The OCC argues that if the Company filed a rate case before the amortization period was complete, the remaining unrecovered rate case expenses should be borne by shareholders and not ratepayers. The OCC claims that the ALJ erred by rejecting all these proposals.

67. In response, Atmos argues that the OCC gave no specific justification for its recommendation to amortize rate case expenses over three years and that such an amortization period is unsupported by the historic pace of rate case filings by the Company. Atmos' approach, unlike the OCC's, would also prevent the pancaking of rate case expenses.

68. Atmos also opposes the OCC's proposal to penalize Atmos if another rate case is filed. The Company points to Decision No. R13-1307 where the ALJ hearing that rate

[25] Recommended Decision, at ¶128.

proceeding specifically rejected this proposal and went so far as to rule: "The ALJ finds the positions of OCC and Staff regarding treatment of unamortized rate case balances should Public Service file another rate case to be arbitrary and, possibly, confiscatory."[26]

69. Atmos also refutes the OCC's argument that rate case expenses should be borne, in part, by shareholders. Atmos maintains that rate case expenses are a legitimate cost of providing utility service, necessitated by Commission regulation of the utility, and the Company has a right to recovery for all reasonable operating expenses, including rate case expenses.

b. Findings and Conclusions

70. The Commission denies the OCC's exceptions regarding the recovery of rate case expenses. The ALJ adopts a reasonable approach for Atmos to recover the costs incurred to complete this rate proceeding.

E. Prepaid Pension Asset and Pension Expense

71. In its case, Staff recommended that the Commission eliminate the inclusion of Atmos' prepaid pension asset in its test year rate base. Staff also suggested that the Commission reduce the current balance of the asset with dollars owed to ratepayers from the Company's "pension tracker" (approximately $86,000) and require the Company to amortize the remaining balance (approximately $1.1 million) over 15 years. Staff also recommended that Atmos continue using a pension tracker to ensure that ratepayers pay no more and no less than the costs of its pension expenses.

72. The Recommended Decision rejects Staff's proposal for the Commission to remove the prepaid pension asset from Atmos' test year rate base. The ALJ states that Staff

[26]Decision R13-1307, issued October 22, 2013, Proceeding No. 12AL-1268G, ¶ 448.

failed to satisfy its burden of proof for that recommendation and its other recommendations regarding the pension issue.[27]

a. Positions of the Parties

73. Staff argues in its exceptions that the ALJ erred in relying on Decision No. R13-1307 in accepting Atmos' position on the treatment of its prepaid pension asset. Staff requests that the Commission overturn the ALJ by requiring Atmos to eliminate the prepaid pension asset in its rate base and to reduce the current balance of the asset with dollars owed to ratepayers from the pension tracker. Further, Staff reiterates its proposal for amortizing the remaining balance of the prepaid pension asset over 15 years.

74. In response, Atmos objects to Staff's requests and supports the ALJ's determinations regarding the pension issues. Atmos notes that Proceeding No. 12AL-1268G was a gas rate case in which the parties litigated this very pension issue. Atmos concludes that the circumstances in Proceeding No. 12AL-1268G are more applicable in its rate proceeding, stating that there can be no argument that the Commission has ordered different outcomes in the past based on the specific facts presented in each separate case. Atmos also argues that Staff's reliance upon arguments made in Proceeding No. 15AL-0135G are misplaced, as several of the proposals related to the prepaid pension asset in that Public Service rate proceeding were simply unopposed.

b. Findings and Conclusions

75. The Commission appreciates Staff's presentation of the issues surrounding Atmos' pension trust and its explanation of the origins of the amounts booked as a prepaid

[27] Recommended Decision, at ¶113.

pension asset. The Commission also understands that it is Staff's position that Atmos should not be directed to modify its funding decision with respect to the Company's pension fund. The Commission also notes Staff's observation that Atmos' affiliated gas distribution companies do not include a prepaid pension asset in their rate base calculations.

76. Contrary to the ALJ findings regarding the prepaid pension asset in the Recommended Decision, the Commission finds that Staff has made a compelling showing that the prepaid pension asset should be removed in these circumstances from the Company's rate base so as Atmos no longer earns a return on this amount through base rates. The Commission also adopts Staff's recommendation that the Commission direct Atmos to apply the pension tracker balance of $86,000 toward reducing the remaining value of the prepaid pension asset. The Commission further directs Atmos to amortize the remaining balance of the prepaid pension asset over 15 years. The Commission authorizes the Company to include this amortization expense in the calculation of the GRSA.

77. The Commission further agrees with the ALJ that Atmos should continue using the pension tracker to ensure that ratepayers pay no more and no less than the costs of the pension.

F. Weather Normalization Adjustment

78. The Recommended Decision concludes that Staff's approach for developing weather normalization adjustments to Atmos' test-year cost of service is more accurate than both the approach initially proposed by Atmos in its case and the approach advocated by the OCC.

a. Positions of the Parties

79. The OCC argues in its exceptions that the ALJ incorrectly rejected its proposed method for weather normalization. The OCC argues that there is a one-to-one correlation

between Heating Degree Days (HDDs) and gas consumption and that is the only appropriate statistical relationship to derive weather normalization adjustments in this rate case. The OCC argues that Staff's regression analyses support the OCC's position that the only variable that should be used to make weather normalization adjustments is the HDDs. The OCC also contends that Staff's regression analyses are statistically invalid.

80. In response, Atmos maintains that the weather normalization approach produced by Staff results in a more accurate adjustment for weather. The Company maintains that Staff's model creates the best reflection of a weather-normal year that should be used for rate making.

b. Findings and Conclusions

81. The Commission agrees with the ALJ and Atmos that Staff's proposed method for deriving adjustments for weather is reasonable and should be adopted for the development of rates in this proceeding. We therefore deny the OCC's exceptions on this point.

G. Establishment of Rates and Compliance Procedures

82. In the Recommended Decision, the ALJ directs Atmos to file a GRSA in a compliance tariff filing, where the GRSA is calculated based on the revenue requirement as calculated using the findings, conclusions, and directives in the decision. The compliance tariff filing is due within ten days of the date in which the Recommended Decision becomes a decision of the Commission and the GRSA is effective on two days' notice.

83. The ALJ also requires Atmos to file a separate GRSA for the recovery of approved rate case expense.

84. In paragraph 209 on page 76, the Recommended Decision further requires Atmos to file a revenue proof to demonstrate that the stipulated GRSA rate design approved by the ALJ will recover fully the revenue requirement adjudicated in the rate case.

85. Because the Commission stayed the Recommended Decision on January 26, 2018 by Decision No. C18-0069-I, it is necessary to establish new procedures for the implementation of rates. The compliance tariff filing requirements set forth in ¶¶ 221-223 and in the ordering paragraphs of Decision No. R18-0014, as applicable despite the stay, are set aside.

86. For clarity, the Commission upholds the approval in the Recommended Decision of the Partial Stipulation between Staff and Atmos regarding the two disputed tariff issues and the proposed consolidation of GCA Divisions.[28] The Commission also upholds the approval in the Recommended Decision of the Partial Settlement between Atmos, the OCC, and EOC with respect to the design of the GRSAs.[29] The GRSAs calculated in accordance with this Decision shall use the rate design set forth in the Partial Settlement between Atmos, the OCC, and EOC.

87. As required by Decision No. C18-0169-I, Atmos shall decrease the revenue requirement calculated in accordance with the Recommended Decision, as modified by this Decision, by $2,102,138 to account for the annual ongoing impact of the change in federal tax law under the TCJA.[30]

88. Also as required by Decision No. C18-0169-I, Atmos shall make a further compliance filing within 60 days of the date the rates were established by the Recommended Decision, as modified by this Decision, are put into effect that calculates the difference between the revenues collected from customers under the provisional rates filed in Proceeding No. 18AL-0226G effective April 1, 2018 and the revenues that would have been collected as of April 1, 2018 based on the approved rates. If required, Atmos shall implement a negative rate

[28] Recommended Decision, at ¶¶197-199.

[29] Recommended Decision, at ¶¶202, 206, 208, and 210-211.

[30] Decision No. C18-0169-I, issued March 7, 2018, Proceeding No. 17AL-0429G, at ¶15.

rider to return any over-collection to customers over a time period equal to the length of time the provisional rates were in effect (rounded to the nearest whole month) with interest calculated at the average bank loan prime rate report by the Federal Reserve.[31]

II. ORDER

A. The Commission Orders That:

1. Decision No. R18-0014, issued on January 8, 2018, is adopted as modified by this Decision, consistent with the discussion above.

2. The Exceptions to Decision No. R18-0014 filed by Atmos Energy Corporation (Atmos) on March 7, 2018 are denied, consistent with the discussion above.

3. The Exceptions to Decision No. R18-0014 filed by the Staff of the Colorado Public Utilities Commission (Staff) on March 7, 2018 are granted, in part, and denied, in part, consistent with the discussion above.

4. The Exceptions to Decision No. R18-0014 filed by the Colorado Office of Consumer Counsel on March 7, 2018 are granted, in part, and denied, in part, consistent with the discussion above.

5. The Motion for Leave to File Response to Atmos Energy Corporation's Response to Exceptions filed by Staff on March 23, 2018 is denied.

6. The effective date of the tariff sheets filed by Atmos on June 26, 2017 with Advice Letter No. 530 is permanently suspended and shall not be further amended.

7. The tariff sheets filed with Advice Letter No. 530 are permanently suspended and shall not be further amended.

[31] Decision No. C18-0169-I, issued March 7, 2018, Proceeding No. 17AL-0429G, at ¶17.

8. Atmos shall file tariff sheets to implement General Rate Schedule Adjustments authorized by Decision No. R18-0014, as modified by this Decision, and by Decision No. C18-0169-I addressing the incorporation of the impacts of the Tax Cut and Jobs Act of 2017 into Atmos' rates, consistent with the discussion above. Atmos also shall file the modified tariff for its System Safety and Integrity Rider consistent with the approvals and directives in Decision No. R18-0014.

9. Atmos shall file an advice letter compliance filing to modify its tariff sheets in a separate proceeding and on not less than two business days' notice. The advice letter and tariffs ordered herein shall comply with all applicable rules. In calculating the proposed effective dates, the date the filing is received at the Commission is not included in the notice period and the entire notice period must expire prior to the effective date. The advice letters and tariffs must comply in all substantive respects to this Decision in order to be filed as a compliance filing on shortened notice.

10. The 20-day period provided for in § 40-6-114, C.R.S., within which to file applications for rehearing, reargument, or reconsideration, begins on the first day following the effective date of this Decision.

11. This Decision is effective upon its Mailed Date.

B. ADOPTED IN COMMISSIONERS' WEEKLY MEETING April 4, 2018.

FRANCES A. KONCILJA

Commissioners

ATTEST: A TRUE COPY

COMMISSIONER WENDY M. MOSER DISSENTING.

Doug Dean,
Director

III. COMMISSIONER WENDY M. MOSER DISSENTING

A. Authorized Return on Equity (ROE)

1. I am in agreement with the majority and with the Administrative Law Judge (ALJ) (based on the evidence in the record and the proper exercise of judgment regarding the results and impact on rates), that a reasonable range for the authorized ROE for Atmos Energy Corporation (Atmos) extends from 9.3 to 9.9 percent. This range satisfies the standards articulated in *Bluefield Waterworks and Improvement Co. v. Public Service Comm'n of West Virginia*, 262 U.S. 679 (1923) and *Federal Power Comm'n v. Hope Natural Gas Co.*, 320 U.S. 591 (1944). The range established therefore excludes the request by Atmos for a 90 basis point increase to 10.5 percent as well as the 70 basis point decrease to the 9.0 percent level advocated by Staff and the OCC.

2. However, based on the ALJ's reliance in the record on changing macroeconomic conditions primarily based upon the Federal Reserve's monetary policy normalization activity over the last year or so, I disagree with the majority's decision to lower Atmos' ROE from its existing level of 9.6 percent. The ROE trend is going up, not down.[32] Thus, I am convinced that a moderate increase to the ROE level, as recommended by the ALJ, is appropriate. In summary, in consideration of the possibility of increasing interest rates under expected federal monetary policy, I find that the ALJ properly narrowed the breadth of the just and reasonable values for the point estimates of the authorized ROE to 9.7 percent for calculating rates, finding persuasive the ALJ's characterization of the record on the ROE issues.

3. If one recognizes that the Company's most recent 9.6 percent ROE was an approved ROE by a prior Commission, and now, almost three years later, the record shows that ROEs are trending upward, the logical conclusion should be that the ROE should trend upward, or at a minimum, stay at the same level. The majority points to no persuasive rationale or evidence that explains why a lower ROE would be warranted, nor does it identify why its chosen level of 9.45 percent is appropriate. In addition, despite the majority agreeing with the ALJ that Atmos has sustained a stable and strong credit rating that has afforded it reasonable access to capital[33] at its authorized ROE of 9.6 percent, the majority found that a reduced ROE would be appropriate. Without articulating its reasoning, nor setting forth supporting rationale for that

[32] *See* Mr. D'Ascendis' Rebuttal Testimony, page 37. In paragraph 146 of his recommended decision, the ALJ referred to Mr. D'Ascendis citation to Hearing Exhibit 512, which shows that the average authorized ROE for natural gas utilities in 2017 is 9.78 percent, while the average authorized ROE for litigated matters in 2017 is 9.89 percent.

[33] Capital that will be needed as Atmos goes forward with its capital intensive plan to replace miles of bare steel and PVC mains.

specific rate, the majority settled on an ROE of 9.45 percent, a specific rate that was not proposed by any party.

4. At a minimum, when we as a Commission decide to make changes to an ALJ's recommended decision, we should point to specific facts, errors, reasoning, and/or changed circumstances that warrant those changes and explain how we arrived at the rate levels that we order. The majority fails to both articulate why it rejected the upward ROE trend evidence, and why it lowered the current 9.6 percent ROE.

5. Accordingly, I dissent from the majority opinion on the issue of the proper ROE to be awarded Atmos for the purpose of setting customer rates.

DOCKET NO. 18-00067
ATTACHMENT 9
TO CPAD DR NO. 43

FILED
OCT - 3 2005
MISS. PUBLIC SERVICE COMMISSION

BEFORE THE MISSISSIPPI PUBLIC SERVICE COMMISSION

ATMOS ENERGY CORPORATION
Utility ID #GC-123-0081-00 **DOCKET NO. 05-UN-0503**

IN RE: NOTICE OF INTENT OF ATMOS ENERGY CORPORATION TO MODIFY CERTAIN PROVISIONS OF ITS RIDER SCHEDULE 327 STABLE/RATE ADJUSTMENT RIDER AND VARIOUS OTHER RATE SCHEDULES

STIPULATION AND AGREEMENT

This Stipulation and Agreement is entered into between the Mississippi Public Utilities Staff ("MPUS" or "Staff") and Atmos Energy Corporation ("Atmos") pursuant to Rule 13 of the Mississippi Public Service Commission's Rules of Practice and Procedure ("Rules").

The Staff has had the benefit of full discovery as prescribed by Mississippi law and the Rules. This stipulation is entered into as a result of the pleadings and testimony filed by Atmos in this docket, and is supported by the discussions and information exchanged between the Staff and Atmos and the research and investigation conducted by the Staff.

I. THE PETITION

Atmos designates this as a routine filing jointly as a miscellaneous filing under Commission Rule 9 and as a miscellaneous application under Commission Rule 10.

This filing is in the response to the Stipulation between the Staff and Atmos and the related Order of the Commission in Docket No. 92-UN-2030 regarding the Stable/Rate semi-annual evaluation for the twelve months ending September 30, 2004. In that docket the Staff and Atmos agreed, among other things, to address modifications to the Stable/Rate plan. The May

* Electronic Copy * MS Public Service Commission * 8/10/2018 * MS Public Service Commission * Electronic

2005 filing provisions and evaluation under the plan were suspended pending Commission approval of new rates consistent with the modified plan.

In its filing, Atmos is proposing to modify certain provisions of its Stable/Rate plan as follows:

1. Change from semi-annual evaluations to annual evaluations;

2. Establish an earnings sharing mechanism for the benefit of customers and the Company;

3. Revise the cost of capital component to more appropriately reflect market conditions;

4. Remove all base cost of gas from distribution rate schedules, revise the Purchased Gas Adjustment Rider (PGA) to include all base cost of gas and remove all base cost of gas references from all definitions and formulas in the PGA;

5. Establish customer charges at the level of its non-volumetric minimum bill charge;

6. Consolidate all usage charges into one rate step renamed the distribution charge;

7. Revise Rider Schedule 326 Weather Normalization Adjustment Rider (WNA) by adjusting the definition of weather normalization adjustment period to run from November 1 to April 30 and adjust the WNA calculation for the removal of all base gas costs;

8. Eliminate certain rate schedules consistent with plan modifications; and

9. Eliminate the Excess Facilities Rates and Developmental Rates provided for in the Company's Policy for Extension of Gas Facilities.

II. AGREEMENT

It is hereby stipulated and agreed between the Staff and Atmos, as follows:

1. Annual filings will be made each September with the first filing to be made in September 2006 in which rates will be calculated based upon the new plan and such

* Electronic Copy * MS Public Service Commission * 8/10/2018 * MS Public Service Commission * Electronic

rates will be effective November 1, 2006. The test period shall run from July 1 - June 30. The Staff's review period shall run from September 5 through October 31.

2. In lieu of a rate evaluation in November 2005, the company will reduce rates by $600,000 effective October 1, 2005, which eliminates the 5.9% benchmark O & M that operated to defer amounts in actual O&M which exceeded the benchmark.
3. The band of 100 basis points around the Performance Based Benchmark Return (PBBR) will be replaced with a band of 200 basis points around the PBBR. Within the band there will be no sharing of earnings, except during the first evaluation under the new plan as described in item 5. below.
4. For any earnings below the band, the company will increase rates up to the PBBR less 25 basis points.
5. During the first evaluation, any earnings above the PBBR will be shared 50/50 up to 400 basis points above the PBBR. During all evaluations thereafter, any earnings above the top of the band but no more than 400 basis points above the PBBR will be shared on a 50/50 basis.
6. Beginning with the first evaluation and continuing with all evaluations thereafter, all earnings greater than 400 basis points above the PBBR will be returned to customers in a rate adjustment.
7. All adjustments to rates will be achieved through a change to the stable rate factor.
8. Atmos' ROE calculation will be modified as follows:

    a. Discounted Case Flow – The growth rate for the gas utility, g, shall be the average of projected earnings growth rates for the gas utility as reported by First Call, Zack's and Value Line.

* Electronic Copy * MS Public Service Commission * 8/10/2018 * MS Public Service Commission * Electronic

b. Capital Asset Pricing Model – The risk-free rate, Rf, shall be the simple average of the last three monthly averages of yield on 20-year Treasury bonds as reported by the Federal Reserve Statistical Release.

9. Atmos will continue to calculate its debt/equity capital structure based on its actual debt/equity ratio.

10. Projections will continue to be made for plant, but historical figures will be used to determine O&M plus known and measurable projections defined as follows:

> [In regard to expense, "Known and Measurable Changes", shall mean changes in non-managerial and non-executive wage and benefit levels, tax rates and assessments, postage rates, or levels of other items of expense (a) in effect as of the Annual Evaluation Date and (b) established by contract or government action as of the Annual Evaluation Date and which will occur at some time during the Rate Period.]

11. The portion of gas costs in base rates will be removed and accounted for entirely in the PGA.

12. Accumulated depreciation in the amount of $2.7 million that was previously disallowed by the Commission because the company had not updated its legal depreciation rate at that time will be allowed into rate base going forward effective October 1, 2005.

13. The weather normalization adjustment will run from Cycle 1 November through Cycle 99 April and a minimum customer charge should be implemented to minimize the impact of the WNA.

* Electronic Copy * MS Public Service Commission * 8/10/2018 * MS Public Service Commission * Electronic

14. The accounting methodology and treatment of several items pertaining to deferred taxes and unfunded retirement benefits and pension liabilities and reconciling CWIP and projected plant should be simplified and standardized.

15. The following rate schedules should be eliminated:

a. Rate Schedule 302 - Summer Air Conditioning Rider for Domestic Natural Gas Service;

b. Rider Schedule 313 - Credit from Electric Generation Sales Under Seller's Option Contract

c. Rate Schedule 314 - Year-Round Residential Gas Services in the Benoit area;

d. Rate Schedule 315 - Year-Round General Gas Services in the Benoit are;

e. Rider Schedule 321 - Summer Air Conditioning Rider for General Gas Service;

f. Rate 328 - Service to Commercial CNG Fueling Stations

g. Rate Schedule 332 - Heating Season only Residential Service in Benoit area; and

h. Rate Schedule 336 - Heating Season only General Gas Service in Benoit area.

III. OTHER PROVISIONS

1. The Staff and Atmos understand and expressly agree, that except as previously stated, the stipulations made herein are for the purpose of this proceeding only and shall not apply to or be used as precedent in any other proceeding.

2. Unless specifically agreed to herein, neither the Staff nor Atmos shall be deemed to have approved or acquiesced in any accounting principle, cost of capital methodology, capital structure, rate making principle, valuation methodology, cost of service methodology or

* Electronic Copy * MS Public Service Commission * 8/10/2018 * MS Public Service Commission * Electronic

determination, depreciation principle or method, rate design methodology or cost allocation that may underlie this Agreement for which provision is made in this Agreement.

3. It is agreed that this stipulation is expressly conditional upon acceptance by the Commission of all of its provisions. It is also specifically understood and agreed that this stipulation is interdependent and non-separable and that if the Commission does not accept this stipulation in its entirety, neither the Staff nor Atmos will be thereafter bound by any of its provisions.

So stipulated, this the 3rd day of October, 2005.

MISSISSIPPI PUBLIC UTILITIES STAFF

ATMOS ENERGY CORPORATION

BY: William J. Senter, Jr.

* Electronic Copy * MS Public Service Commission * 8/10/2018 * MS Public Service Commission * Electronic

REQUEST:

With reference to Mr. Waller's Testimony on page 9 lines 21 thru 25, provide a description of each construction project and its projected cost comprising the additional plant in service balances accruing in the period May 2018 through May 2019.

RESPONSE:

Please see the Company's response to CPAD DR No. 1-01 as well as Attachment 1 to the Company's response to CPAD DR No. 1-01 for the detailed FY2018 capex budget. The FY2018 capex budget provides detailed projects for the period October 2017 - September 2018, consistent with the Company's annual budgeting cycle. To project capex for the months of October 2018 through May 2019, the Company calculated a capex growth factor as follows:

(2019 capex - 2018 capex)/2018 capex

The level of 2019 capex is consistent with the most recently approved 5 year plan as well as the Board of Directors resolution included as Attachment 3 to the Company's response to CPAD DR No. 1-01. Applying the above growth rate formula to the amounts supplied in the Company's response to CPAD DR No. 1-01, the growth rate is:

($59.3 million - $52.9 million)/$52.9 million = 12%.

The 12% growth factor is applied to the most recent budget on a month by month basis in order to project the months of the forward looking test year from October - May. This has been the forecasting process used by the Company in each forward looking filing filed pursuant to the ARM tariff.

REQUEST:

With reference to the construction projects described above, identify each project that is required pursuant to PHMSA regulations along with a brief explanation indicating why such projects are mandatory. Further, provide the PHMSA rule by which such expenditure is required.

RESPONSE:

Please see Attachment 1 for capital projects specifically tied back to PHMSA.

PHMSA regulations and recommendations affect a large portion of the Company's construction projects. The PHMSA regulations applicable to our Tennessee operations are codified at Code of Federal Regulations ("CFR") Title 49 (Transportation) Part 192 (Transportation of Natural Gas and Other Gas by Pipeline: Minimum Federal Safety Standards). In addition, in 2006 Congress passed the Pipeline Inspection, Protection, Enforcement and Safety Act ("PIPES Act"). Pursuant to the PIPES Act, in 2009 PHMSA published the Integrity Management Program for Gas Distribution Pipelines Rule (49 CFR Part 192, Subpart P) ("2009 Final Rule"). The 2009 Final Rule requires each operator, including Atmos Energy, to create and maintain a written distribution pipeline safety and integrity management program ("DIMP"). The pipeline safety statutes allow for States to assume safety authority over the intrastate gas and hazardous liquid pipelines through Certifications and Agreements with PHMSA under 49 U.S.C. §§ 60105-60106. To participate in the pipeline safety program States must adopt the minimum pipeline safety regulations. For this reason, PHMSA does not directly prescribe replacement activity but rather leaves that to each state jurisdiction.

In addition, Federal Regulators have provided additional guidance calling on operators and states to accelerate the repair, rehabilitation and replacement of the nation's aging pipelines. Please see Attachment 2 for the Call to Action released by the Department of Transportation and PHMSA in 2011 to provided additional information on the 2009 Final Rule. Please see the Company's response to CPAD DR No. 1-34 for specific system integrity projects >$100,000.

FY 2018 Budget Projects - PHMSA Required

Project Name	Budget Category	Project Description	Total	PHMSA Required	PHMSA Rule
3338.Grade 3 leak repair	System Integrity	Repair 10 grade 3 leaks in Union City, TN.	$30,585	Yes	49 CFR 192 Subpart P
3338.Leak.Functional	System Integrity	Replace/retire existing service lines and main between 5 ft and 250 ft in the Union City service area due to leak issues.	$35,407	Yes	49 CFR 192 Subpart P
3338.PHMSA Farm Tap Upgrades	System Integrity	Replace 9 farm taps on our 6" transmission line from Wolfe Creek Rd to Jenkins Rd.	$107,790	Yes	49 CFR 192.740
3338.Triangle Heights Rebuild	System Integrity	Replacing existing regulator station due to corrosion issues and installing inlet and outlet valves.	$25,512	Yes	49 CFR.192.463
3342.GM Relocation	System Integrity	Installation of 2,100 ft of 6" Steel from Cleburne to Freehand in Maury County. County has widened Cleburne Rd in recent years reducing the coverage on existing high pressure distribution line.	$728,381	Yes	49 CFR 192 Subpart P
3342.Leak.Functional	System Integrity	Replace/retire existing service lines and main between 5 ft and 250 ft in the Columbia/Franklin service area due to leak issues.	$493,701	Yes	49 CFR 192 Subpart P
3342.Lyall Meter Loop Replacement	System Integrity	Replace Lyall meter loops in Columbia/Franklin service area.	$18,681	Yes	49 CFR 192.479
3342.Poorly Coated Main Replacement	System Integrity	Replacement of unlocatable pipe, isolated service lines, and no tap service lines in the Franklin/Columbia service area. System upgrade needed to meet current standards and mitigate risk.	$725,519	Yes	49 CFR 192 Subpart P
3343.Farm Tap Removal	System Integrity	Remove (5) Farm Taps on Mullins Rd and install 2,000 ft of 4" PE.	$155,652	Yes	49 CFR 192.740
3343.Leak.Functional	System Integrity	Replace/retire existing service lines and main between 5 ft and 250 ft in the Murfreesboro service area due to leak issues.	$241,411	Yes	49 CFR 192 Subpart P
3343.Lyall Meter Loop Replacement	System Integrity	Replace Lyall meter loops in Murfreesboro service area.	$155,319	Yes	49 CFR 192.479
3344.Leak.Functional	System Integrity	Replace/retire existing service lines and main between 5 ft and 250 ft in the Shelbyville service area due to leak issues.	$78,338	Yes	49 CFR 192 Subpart P
3344.Lyall Meter Loop Replacement	System Integrity	Replace Lyall meter loops in Shelbyville service area.	$6,490	Yes	49 CFR 192.479
3344.Poorly Coated Main Replacement	System Integrity	Replacement of unlocatable pipe, isolated service lines, and no tap service lines in the Shelbyville area. System upgrade needed to meet current standards and mitigate risk.	$372,868	Yes	49 CFR 192 Subpart P
3434.Leak.Funct.	System Integrity	Replace/retire existing service lines and main between 5 ft and 250 ft in the Maryville service area due to leak issues.	$212,206	Yes	49 CFR 192 Subpart P
3434.Midland Shopping Center.FY18	System Integrity	Replace approximately 3,000 ft of 2 in steel due to location and poor coating.	$191,725	Yes	49 CFR 192 Subpart P
3435.Collison Ford Rd To Greenbriar Rd.FY18	System Integrity	Install approximately 11,088 ft of 4 in HDPE to eliminate 7 Reg Stations and 26 Farm Taps and approximately 5,280 ft of 3 in steel.	$632,629	Yes	49 CFR 192.740
3435.Elliott St Rectifier Replacement.FY18	System Integrity	Replace Elliott St rectifier due to numerous repairs.	$10,717	Yes	49 CFR.192.463
3435.Leak.Funct.	System Integrity	Replace/retire existing service lines and main between 5 ft and 250 ft in the Morristown/Greenville service area due to leak issues.	$171,486	Yes	49 CFR 192 Subpart P
3435.Panther Springs Rd.FY18	System Integrity	Install approximately 1200 ft of 2 in HDPE on Panther Springs Rd to eliminate 2 Regulator Stations and 5 Farm Taps.	$54,962	Yes	49 CFR 192.740
3435.Sulphur Springs.FY18	System Integrity	Install approximately 2,100 ft of 4 in HDPE and 300 ft of 2 in HDPE to eliminate poorly coated pipe and 300 idle services.	$97,088	Yes	49 CFR 192 Subpart P
3435.Trade Street.FY18	System Improvement	Install approximately 750 ft of 2 in HDPE to replace poorly coated 3 in Steel.	$39,962	Yes	49 CFR 192 Subpart P
3435.West Church St Rectifier Replacement.FY18	System Integrity	Replace existing rectifier due to numerous repairs at West Church St.	$10,579	Yes	49 CFR.192.463
3435.White Oak St Rectifier Replacement.FY18	System Integrity	Replace existing rectifier at White Oak Street due to numerous repairs needed.	$11,492	Yes	49 CFR.192.463
3436.Fleetwood Dr Bridge Crossing.FY18	System Integrity	Replace hanger and wrap on 2 in gas main at Fleetwood Drive bridge crossing.	$19,232	Yes	49 CFR 192.479
3436.Leak.Functional.	System Integrity	Replace/retire existing service lines and main between 5 ft and 250 ft in the Johnson City service area due to leak issues.	$328,261	Yes	49 CFR 192 Subpart P
3436.Railroad Bridge at North Station, Kingsport.FY18	System Integrity	Replace hanger and wrap on 6 in steel on Railroad Bridge Crossing at North Station in Kingsport.	$86,351	Yes	49 CFR 192.479
3439.TN.Leak.Functional	System Integrity	Replace/retire existing service lines and main between 5 ft and 250 ft in the Bristol, TN service area due to leak issues.	$13,977	Yes	49 CFR 192 Subpart P

U.S. Department of Transportation Call to Action To Improve the Safety of the Nation's Energy Pipeline System

Executive Summary

Today, more than 2.5 million miles of pipelines are responsible for delivering oil and gas to communities and businesses across the United States. That's enough pipeline to circle the earth approximately 100 times.

Currently, these liquid and gas pipelines are operated by approximately 3,000 companies and fall under the safety regulations of the U.S. Department of Transportation's Pipeline and Hazardous Materials Safety Administration (PHMSA). PHMSA has engineers and inspectors around the country who oversee the safety of these lines and ensure that companies comply with critical safety rules that protect people and the environment from potential dangers. While PHMSA directly regulates most of the hazardous liquid pipelines in the nation, states take over when it comes to intrastate natural gas pipelines. Every state, except Hawaii and Alaska, is responsible for the inspection and enforcement of state pipeline safety laws for the natural gas pipeline systems within their respective states. Some states – about 20 percent - also regulate the hazardous liquid lines within state borders.

Colorado PUC E-Filings System

In the wake of several recent serious pipeline incidents, U.S. DOT/PHMSA is taking a hard look at the safety of the nation's pipeline system. Over the last three years, annual fatalities have risen from nine in 2008, to 13 in 2009 to 22 in 2010. Like other aspects of America's transportation infrastructure, the pipeline system is aging and needs a comprehensive evaluation of its fitness for service. Investments that are made now will ensure the safety of the American people and the integrity of the pipeline infrastructure for future generations.

For these reasons, Secretary LaHood has issued "A Call To Action" for all pipeline stakeholders, including the pipeline industry, the utility regulators, and our state and federal partners. Secretary LaHood brought together PHMSA Administrator Quarterman and the senior DOT leadership to design a strategy to achieve that goal. The action plan below is the result of those deliberations.

Background

Much of the nation's pipeline infrastructure was installed many decades ago, and some century-old infrastructure continues to transport energy supplies to residential and commercial customers, particularly in the urban areas across our nation. Older pipeline facilities that are constructed of obsolete materials (e.g., cast iron, copper, bare steel, and certain kinds of welded pipe) may have degraded over time, and some have been exposed to additional threats, such as excavation damage.

On December 4, 2009, PHMSA issued the Distribution Integrity Management Final Rule, which extends the pipeline integrity management principles that were established for hazardous liquid and natural gas transmission pipelines, to the local natural gas distribution pipeline systems. This regulation, which becomes effective in August of 2011, requires operators of local gas distribution

pipelines to evaluate the risks on their pipeline systems to determine their fitness for service and take action to address those risks. For older gas distribution systems, the appropriate mitigation measures could involve major pipe rehabilitation, repair, and replacement programs. At a minimum, these measures are needed to requalify those systems as being fit for service. While these measures may be costly, they are necessary to address the threat to human life, property, and the environment.

In addition to the many pipelines constructed with obsolete materials, there are also early vintage steel pipelines in high consequence areas that may pose risks because of inferior materials, poor construction practices, and lack of maintenance or inadequate risk assessments performed by operators. The lack of basic information or incomplete records about these systems is also a contributing factor. The U.S. DOT is seeking to make sure these risks are identified, the pipelines are assessed accurately, and preventative steps are taken where they are needed.

Action Plan

The U.S. DOT and PHMSA have developed this action plan to accelerate rehabilitation, repair, and replacement programs for high-risk pipeline infrastructure and to requalify that infrastructure as fit for service. The Department will engage pipeline safety stakeholders in the process to systematically address parts of the pipeline infrastructure that need attention, and ensure that Americans remain confident in the safety of their families, their homes, and their communities. The strategy involves:

- **A CALL TO ACTION** – Secretary LaHood is issuing a "Call to Action" to engage state partners, technical experts, and pipeline operators in identifying pipeline risks and repairing, rehabilitating, and replacing the highest risk infrastructure. Secretary LaHood is also asking Congress to expand PHMSA's ability to oversee pipeline safety.

    - Secretary LaHood and PHMSA Administrator Quarterman have met with the Federal Energy Regulatory Commission (FERC), the National Association of Regulatory and Utility Commissioners (NARUC), state public utility commissions, and industry leaders to ask all parties to step up efforts to identify high-risk pipelines and ensure that they are repaired or replaced.

    - Secretary LaHood is asking Congress to increase the maximum civil penalties for pipeline violations from $100,000 per day to $250,000 per day, and from $1 million for a series of violations to $2.5 million for a series of violations. He is also asking Congress to help close regulatory loopholes, strengthen risk management requirements, add more inspectors, and improve data reporting to help identify potential pipeline safety risks early. The Senate has passed its version of the pipeline safety reauthorization legislation. The House of Representatives is currently considering two versions of a similar bill that could be passed by end of the year.

    - The U.S. DOT and PHMSA convened a Pipeline Safety Forum in April 2011 that engaged a working session around the actions that DOT/PHMSA, the state regulatory agencies, and the pipeline industry can take to drive more aggressive actions to raise

the bar on pipeline safety. The U.S. DOT and PHMSA is preparing a report based on ideas, opportunities and challenges presented at the Forum and action that will be taken.

- **AGGRESSIVE EFFORTS** – The U.S. DOT and PHMSA are calling on pipeline operators and owners to review their pipelines and quickly repair and replace sections in poor condition.
    - PHMSA has asked technical associations and pipeline safety groups to provide best practices and technologies for repair, rehabilitation and replacement programs, and has asked industry groups for commitments to accelerate needed repairs.
    - PHMSA will review all data received from pipeline operators to identify areas with critical needs.
    - PHMSA's Distribution Integrity Management rule became effective in August, requiring all operators of local gas distribution pipeline systems to evaluate the risks on their pipeline systems and take action to address those risks.
- **TRANSPARENCY** - U.S. DOT and PHMSA will execute this plan in a transparent manner with opportunity for public engagement, including a dedicated website for this initiative, and regular reporting to the public.
    - PHMSA has launched a public website (http://opsweb.phmsa.dot.gov/pipelineforum), which describes the ongoing pipeline rehabilitation, replacement and repair initiatives.
    - All materials from the Pipeline Safety Forum will be publicly posted to the web, followed by a Draft Report for Notice and Comment. Once public input has been collected, PHMSA will publish a final Pipeline Safety Report to the Nation.
    - PHMSA will be holding a national forum on emergency preparedness and response to pipeline emergencies. The forum will take place December 9, 2011, and will include the major stakeholders from the emergency response community, industry and government to discuss how best to improve pipeline emergency preparedness and response capabilities.
    - A report from the forum will be prepared and published.

Revised 11/1/11

###

REQUEST:

For any project described above with an estimated cost greater than $100,000 and which is not required pursuant to PHMSA regulations, provide a comprehensive explanation indicating why the project is being undertaken.

RESPONSE:

Please see Attachment 1.

Atmos Energy Corporation
TN ARM Docket No. 18-00067
Tennessee Operating Division
CPAD Discovery Request 1-34

Project Name	Budget Category	Project Description	Total
3434.Misc Growth Mains.FY18	Growth	Miscellanous approach mains for new growth developments across the Maryville service areas.	$104,036
3343.Odorizer Lavergne Tap Station	System Integrity	Replace control valves, station valves, install new ROC, and odorizer at the Lavergne Tap Station.	$104,158
TN MDTS	Information Technology	Annual MDT replacement program in Tennessee	$104,603
3344.Growth.Functional	Growth	Installation of new residential meters, new commercial meters,and new service lines within the Shelbyville service area.	$109,466
3435.Equipment Purchase.FY18	Equipment	2-Crystal Gauges $2,000 each * EF Scraper and Peelers $10,000 * 2-Huskey PS-62 Steel Squeeze Off Tool $3,250.00 * Pressure Washer $6,000 * TD Williamson Tap Equipment $6,500, Misc Equipment $2,500.	$110,066
3439.TN.Propane System Conversion	System Improvement	Convert 23 existing propane system Customers in Pine Laurel & Whispering Woods. This will include system tie-ins and contractor to convert/replace equipment as needed.	$115,335
3343.Kidd Road.McFarland Road	System Improvement	Install 4,972 ft of 6" HDPE as part of long term plan to provide system capacity to growing developments.	$122,973
3338.Greenfield Ind. Park	Growth	Install 3,500 feet of 6" HDPE and 600 feet of 4" HDPE to serve Williams Sausage and the new Atmos Office.	$131,216
3434.Robert C Jackson Extension Phase I.FY18	Growth	Install approximately 2,500 ft of 4" HDPE to serve a new subdivision planned along the new Robert C Jackson Drive Extension. It has 88 lots and will tie-in to the existing 4" HDPE on Morganton Rd and 5,500 ft of 2" for internal line for the subdivision.	$133,380
3343.Company Installed Main	Growth	Miscellanous approach mains for new growth developments across the Murfreesboro service areas.	$136,920
3343.CP Test Points	System Integrity	Install 50 wireless CP test Points for Murfreesboro service area.	$148,235
3435.Merchants Green.FY18	Growth	Install approximately 1,200 ft of 4" HDPE to accommodate 6 Commercial Customers.	$153,805
3343.Odorizers Mullins Road	System Integrity	Replace control valves, station valves, install new ROC, and 2 odorizer at the Mullins Road Station	$162,395
3439.TN.Non.Growth.Funct.	System Integrity	Replace/retire existing service lines, residential meters, commercial meters, main between 5 ft and 250 ft in the Bristol, TN service area due to system integrity issues.	$162,712
3342.CP Test Points	System Integrity	Purchase 100 wireless CP test points for Franklin/Columbia service area.	$176,914
3343.Contractor Alliance Mains	Growth	Miscellanous contractor alliance main extensions for growth developments across Murfreesboro service areas.	$188,023
3343.SR 96	Public Improvements	SR 96 from Veterans Pkwy to Overall Creek as part of the State of TN contract	$194,783
3434.Alcoa Highway Relocation.FY18	Public Improvements	Relocate approximately 2,000 ft of 2 in and 3 in steel due to road improvements on Alcoa Highway.	$205,566
3439.TN.East Cedar St Relo.	Public Improvements	Complete last phase of East Cedar St., Bristol TN relocation with approximately 3,100 ft of 6" HDPE. This is a City of Bristol TN request.	$205,765
3342.Company Installed Main	Growth	Miscellanous approach mains for new growth developments across the Columbia / Franklin service areas.	$219,312

Project Name	Budget Category	Project Description	Total
3436.Cleek Rd Reinforcement, Kingsport.FY18	System Improvement	Install approximately 4,700 ft of 4 in HDPE from Stone Drive to Orebank in Kingsport to reinforce system.	$224,175
3439.TN.Growth.Funct.	Growth	Installation of new residential meters, new commercial meters,and new service lines within the Bristol, TN service area.	$225,629
3338.Non.Growth.Functional	System Integrity	Replace/retire existing service lines, residential meters, commercial meters, main between 5 ft and 250 ft in the Union City service area due to system integrity issues.	$227,775
3342.Southern Springs Ph 4	System Improvement	Install 2,500' of 4" HDPE for the approach of Southern Springs Phase 4 in Spring Hill. This main will continue on to State Hwy, 31 and tie into existing 4" along Hwy. 31 for additional pressure reinforcement in the area.	$241,500
3344.Non.Growth.Functional	System Integrity	Replace/retire existing service lines, residential meters, commercial meters, main between 5 ft and 250 ft in the Shelbyville service area due to system integrity issues.	$286,993
3338.New Office in Union City	Structure	Building new office to replace old office and warehouse in Union City, TN. This is a turn-key project.	$390,000
3342.Saturn Parkway Extension	Public Improvements	Install 4,000 ft of 8" steel and 1,800 ft 4" PE along Saturn Pkwy as part of State of TN contract	$392,025
3343.Land Acquisition Dove Lake Phase 2	System Improvement	Acquire easements along Hwy 41A for Ph 2 of Hwy 41A for FY19 - Dove Lake Phase 2	$397,278
3342.Contractor Alliance	Growth	Miscellanous contractor alliance main extensions for growth developments across Columbia / Franklin service areas.	$403,659
3342.Growth Main	Growth	Atmos contribution to new growth developments across the Franklin/Columbia service area.	$430,618
3343.Growth Main	Growth	Atmos contribution to new growth developments across the Murfreesboro service area.	$430,618
3435.Non.Growth.Funct.	System Integrity	Replace/retire existing service lines, residential meters, commercial meters, main between 5 ft and 250 ft in the Morristown/Greenville service area due to system integrity issues.	$485,110
WMR.3439.Endpoint Purchase.18	System Improvement	Purchase and install 5,200 WMR Endpoints in Bristol TN at $70 per endpoint with contractor labor $8.90 each and company labor $1.50 each.	$506,991
3435.Growth.Funct.	Growth	Installation of new residential meters, new commercial meters,and new service lines within the Morristown/Greenville service area.	$535,552
3434.Mount Tabor to Old Glory.FY18	System Improvement	Install approximately 4,500 ft of 6 inch HDPE on Mount Tabor Road to Old Glory Rd for system reinforcement.	$549,678
3434.Growth.Funct.	Growth	Installation of new residential meters, new commercial meters,and new service lines within the Maryville service area.	$677,325
3434.Non.Growth.Funct.	System Integrity	Replace/retire existing service lines, residential meters, commercial meters, main between 5 ft and 250 ft in the Maryville service area due to system integrity issues.	$780,930
3436.Non.Growth.Funct.	System Integrity	Replace/retire existing service lines, residential meters, commercial meters, main between 5 ft and 250 ft in the Johnson City service area due to system integrity issues.	$800,813
3434.Airport Regulator Station Replacement.FY18	System Improvement	Rebuild and relocate Maryville Airport TBS station. Includes all piping, regulators, heater, and odorizers. Located inside city limits of Alcoa, TN.	$914,670
3436.Growth.Funct.	Growth	Installation of new residential meters, new commercial meters,and new service lines within the Johnson City service area.	$932,212

Project Name	Budget Category	Project Description	Total
3343.Non.Growth.Functional	System Integrity	Replace/retire existing service lines, residential meters, commercial meters, main between 5 ft and 250 ft in the Murfreesboro service area due to system integrity issues.	$934,738
3342.Non.Growth.Functional	System Integrity	Replace/retire existing service lines, residential meters, commercial meters, main between 5 ft and 250 ft in the Columbia/Franklin service area due to system integrity issues.	$1,294,603
3343.Growth.Functional	Growth	Installation of new residential meters, new commercial meters,and new service lines within the Murfreesboro service area.	$1,540,803
WMR.3436.Endpoint Purchase.18	System Improvement	Purchase and install 16,250 WMR Endpoints in Johnson City-Elizabethton at $70 per endpoint with contractor labor $8.90 each and company labor $1.50 each.	$1,591,499
3343.SR 99 Ph 2	Public Improvements	Install 8" Steel and 4" PE along SR 99 from I-24 to Hwy 96 as part of State of TN contract	$1,608,626
3343.Dove Lake Phase 2	System Improvement	Install 7,000 ft 8" steel and 6" poly along 41A from Dove Lake North toward Nolensville. This project reinforces a high growth area that currently is supplied by single underdize high pressure line. This is Phase 2 of 2.	$1,916,533
3342.Growth.Functional	Growth	Installation of new residential meters, new commercial meters,and new service lines within the Columbia / Franklin service area.	$2,422,002
3342.Mack Hatcher	Public Improvements	Install 8" Steel along the new section of Mack Hatcher from Hillsboro Road to Hwy 96. This will be installed under the State of TN contract.	$3,076,372
3343.Hwy 41A (Dove Lake)	System Improvement	Install 12,700 ft of 8 in steel and 6 in poly to connect high pressure from Triune to Nolensville. This project reinforces a high growth area that currently is supplied by single underdize high pressure line. This is Phase 1 of 2.	$3,699,345
3343.SR 99 Ph 1	Public Improvements	TDOT project from Veterans Pkwy to I-24. Install 12" Steel and 6" PE as part of State of TN Contract	$4,082,148
3342.Kedron Road	System Improvement	Install 13,400 feet of 6" Steel along Kedron road across Saturn Parkway to Royal Park and Tom Lunn Road in Spring Hill, TN. This is part of the 5 year plan. This project will allow Atmos to move Old Kedron Road Regulator Station to a better location as well. Project brings reinforcement to southeast side of Spring Hill where low pressure has routinely been experienced due to signficant growth.	$4,786,782
3439.Bristol Ind. Park Ph 2&3	System Improvement	Bristol Industrial Park Reinforcement Phase 2 and 3 in Bristol TN. Install 16,435 ft of 6 in steel on SR 394 and Bristol Metals Rd to Bristol Industrial Park and 2,500 ft of 4 in PE to Springfield Subdivision. Project brings reinforcement to area that historically experiences low pressure during period of peak demand.	$5,537,841

REQUEST:

Provide a copy of any materials provided to TPUC Staff which relate to Atmos pipeline safety information offered in any meeting occurring in the period January 2017 through current.

RESPONSE:

Please see confidential Attachment 1 through confidential Attachment 11 for documents provided to Staff in connection with natural gas facilities at two locations operated by the Murfreesboro Housing Authority. Some documents from prior to January 2017 were included in the interest of completeness.

Atmos Energy periodically meets with TPUC Staff and occasionally provides things like individual construction work orders or individual Enterprise Asset Management (EAM) compliance records, however Atmos Energy has no record of what specific documents have been provided.

REQUEST:

With reference to Mr. Waller's testimony on page 9, lines 21 thru 25, as well as information requested in 1-32, identify the projects and estimated costs that are anticipated to accommodate a road relocation project. For each road relocation project, indicate whether Atmos anticipates reimbursement for some or all its costs, and if reimbursement is to be provided, an estimate of the reimbursement amount and how such reimbursement has been reflected within this filing.

RESPONSE:

Please see Attachment 1.

REQUEST:

With respect to the Atmos excess ADIT asset associated with pension book and tax timing differences as discussed in a meeting held August 1, 2018, confirm that the balance of this item is calculated based upon the difference between cash contributions to the pension fund (tax deduction) compared with the pension expense determined pursuant to Generally Accepted Accounting Principles (GAAP). If this is not confirmed, provide a comprehensive explanation describing the book/tax differences that support the deferred tax asset balance.

RESPONSE:

Confirmed.

REQUEST:

Confirm that Atmos' pension costs recognized for ratemaking purposes has been based upon the cash contribution method rather than the pension expense calculated pursuant to GAAP at least through the 2014 ratemaking proceeding. If known, please specify whether Atmos has ever recovered pension costs on a GAAP basis in its Tennessee jurisdiction, and if so, when the last date such method was reflected in the ratemaking process.

RESPONSE:

Confirmed. Company witness Greg Waller is unaware of any time during which the Company recovered pension costs on a GAAP basis in its Tennessee jurisdiction.

REQUEST:

With respect to the Atmos excess ADIT asset associated with pension book and tax timing differences as discussed in a meeting held August 1, 2018, provide a summary of the related subject matter discussed on August 1 and confirm that for the period in which the cash basis of determining pension expense has been reflected in rates, the Income Tax expense component of the ratemaking process has also been determined based in part on this same level of cash pension expense.

RESPONSE:

Confirmed. Please see the Company's response to CPAD DR No. 1-40

REQUEST:

In view of the TPUC reliance upon the cash method for determining pension expense for ratemaking purposes, provide a comprehensive discussion justifying the recovery of a deferred tax asset that is dependent upon determination of GAAP pension expense, when such expense level is not otherwise incorporated into the revenue requirement in Atmos' Tennessee jurisdiction. Provide a comprehensive discussion of this issue, including all relevant documentation that supports Atmos' position that a deferred tax asset should be recognized in the Tennessee jurisdiction related to pension book/tax differences.

RESPONSE:

ADIT balances have been included in rate base pursuant to the ARM tariff and the Approved Methodologies as defined by the ARM tariff. At the time the Approved Methodologies were established in Docket No. 14-00146, the per book balance for the deferred tax item associated with pension expense was included in rate base. While there have been modifications to the Approved Methodologies in subsequent ARM dockets for the ADIT projection as well as the calculation of pension recovery, neither of the modifications addressed the deferred tax pension item that was included in rate base in Docket No. 14-00146.

REQUEST:

Provide a copy of all correspondence received from the Internal Revenue Service (IRS) which provided the necessary authorization for Atmos to adopt the Repair Allowance within its federal tax return filings as well as the date such approval was granted. Identify any requirements or limitations placed on Atmos by the IRS to continue to take the tax deduction.

RESPONSE:

The automatic change procedures provided by Revenue Procedure 2008-52 and clarified by Revenue Procedure 2009-39 describe the procedures for the Company's application for change in accounting for repair expenditures. The Company was required to file Form 3115 with the fiscal year end 2009 tax return. With an automatic method change, there is no requirement to obtain IRS consent for the change in accounting method. Please see the Company's response and Attachment to CPAD DR No. 1-42 for the filed Form 3115. In addition, please see Attachment 1 for the letter of consent to file a Form 3115 that the Company received from the IRS. This consent simply allows a taxpayer under examination to file a Form 3115.

ATTACHMENT:

ATTACHMENT 1 - Atmos Energy Corporation, CPAD_1-41_Att1 - Form 3115 Consent Letter.pdf, 2 Pages.

DEPARTMENT OF THE TREASURY
INTERNAL REVENUE SERVICE
WASHINGTON, D.C. 20224

June 11, 2010

Pace McDonald
Atmos Energy Corporation, Inc.
P.O. Box 650205
Dallas, Texas 75265

SUBJECT: Atmos Energy Corporation, Inc., EIN 75-1743247
Form 3115 – Repairs of Utility Assets

Dear Mr. McDonald:

This letter responds to your request pursuant to section 6.03(4) of Rev. Proc. 2008-52, as modified by Rev. Proc. 2009-39, for consent to file an application for consent to a change in accounting method.

The year of change with respect to this application is the tax year ending September 30, 2009. You seek to change from the present accounting method of capitalizing certain costs that you represent are routine repair and maintenance of utility assets that are not subject to capitalization under any provision of the Internal Revenue Code such as, inter alia, sections 263 and 263A to deducting these costs under section 162 and Treasury Regulation section 1.162-4.

Where a taxpayer under examination requests director consent to file a Form 3115, section 6.03(4) of Rev. Proc. 2008-52 specifies that consent will be given unless, in the opinion of the Director, the method of accounting to be changed would ordinarily be included as an item of adjustment in the year for which the taxpayer is under examination. An adjustment would not ordinarily be made in the examination to change the present method of capitalizing certain costs you represent to be routine repair and maintenance of utility assets to deducting these costs. Accordingly, permission is given to file the requested Form 3115 that seeks consent to change your accounting treatment for those identified costs, that are deductible and need not be capitalized under any section of the Code.

This letter is not a determination as to whether or not the accounting method change requested is within the scope of Revenue Procedure 2008-52. Additionally, this letter does not grant or constitute consent to a change in accounting method, and cannot be relied upon to establish implicit or explicit consent to a change in accounting method. This letter merely allows the taxpayer to file a change in accounting method application with the National Office and no opinion is expressed by the Director as to whether the National Office should approve the change.

DEPARTMENT OF THE TREASURY
INTERNAL REVENUE SERVICE
WASHINGTON, D.C. 20224

The Director expects to make changes as part of its examination relating to tax year ending prior to the requested year of change. Changes that the Director expects to make as part of its examination include, but are not limited to ---:

- Cost Capitalization
- Acquired assets depreciable basis
- Bonus depreciation

Accordingly, audit protection will preclude only adjustments that would change the method of accounting from capital to expense treatment for costs associated with routine repair and maintenance of [enter type of assets] that are deductible and need not be capitalized, in whole or in part under any section of the Code.

If you have any questions concerning this matter, please call Ronald Dean Wall, 817-219-9289.

Sincerely,

Venay M Chapman

Venay Chapman
Team Manager

Local Address: 4050 Alpha Rd., MC 4320 NDAL
Farmers Branch, Texas 75244

REQUEST:

Provide a copy of all correspondence provided by Atmos to the IRS in its request to gain approval for the Repair Allowance deduction.

RESPONSE:

The Company filed an automatic Application for Accounting Method Change (Form 3115) to begin deducting incidental repairs and maintenance costs with the filing of the fiscal year end 2009 tax return in June of 2010. Please see confidential Attachment 1 for the Form 3115 filed with Company's tax return.

ATTACHMENT:

ATTACHMENT 1 - Atmos Energy Corporation, CPAD_1-42_Att1 - Form 3115 Repairs and Maintenance (CONFIDENTIAL).pdf, 16 Pages.

REQUEST:

Provide a copy of all support for the assigned amount of cash pension contribution for the period 2010 - 2017. In addition, provide a comprehensive explanation describing how the Tennessee assignment was made.

RESPONSE:

Please see Attachment 1 through Attachment 8. Beginning in 2008, employees were placed into the appropriate category as outlined on WP4-4 of the revenue requirement models that subsequently became part of the Approved Methodologies. The Company's actuary, Towers Watson, assigns, on an annual basis, the future liability to each of the categories of employees. The breakout of the future liability in turn drives the allocation of the total Company contribution for the year. Finally, the appropriate allocation and capitalization factors are applied to arrive at the amount properly allocable to Tennessee for ratemaking as illustrated on WP4-4.

Muncy, Derek

RE: Pension Contribution Amt

To Taylor, Brannon C.

ATT00001

CAUTION - THIS IS AN EXTERNAL EMAIL. Do not open attachments or click links from unknown sources or unexpected email.

All,

As discussed in the QRPT meeting on June 1, 2016, we are providing a recommended contribution to fully fund the Pension Account Plan (PAP) on a PBGC premium basis, thus avoiding variable PBGC premiums for the 2016 plan year. Prior to making any contribution, the unfunded liability as of January 1, 2016 is as follows:

Liability for PBGC premium purposes	$ 475,325,712	
Assets		$ 461,500,031
Unfunded liability		$ 13,825,681

Assumptions:

- Data January 1, 2016
- Interest Rates for PBGC 1.82% / 4.12% / 5.01%
- Mortality IRS Required Table for 2016

To account for a June 2016 contribution date and a small margin above the 100% threshold, we are recommending a $15,000,000 contribution be made to the PAP. The amount should be referenced as applicable to the 2015 plan year and be made on or before June 15, 2016. After making this contribution, the PAP will be over 100% funded as of January 1, 2016 and no variable premiums will be due.

The results presented above are based on the data, assumptions, methods and plan provisions outlined in the actuarial valuation report to determine funding requirements for the plan for the year beginning January 1, 2016, to be delivered later this year. Therefore, the descriptions of the data, assumptions, methods, plan provisions and limitations of the valuation report and its use should be considered part of this letter report. The undersigned consultants with actuarial credentials meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained herein. To our knowledge, our objectivity is not impaired by any relationship between the plan sponsor and our employer, Willis Towers Watson.

Please let us know if you have any questions.

CAUTION - THIS IS AN EXTERNAL EMAIL. Do not open attachments or click links from unknown sources or unexpected email.

All,

As discussed in the QRPT meeting on June 1, 2016, we are providing a recommended contribution to fully fund the Pension Account Plan (PAP) on a PBGC premium basis, thus avoiding variable PBGC premiums for the 2016 plan year. Prior to making any contribution, the unfunded liability as of January 1, 2016 is as follows:

Liability for PBGC premium purposes	$ 475,325,712	
Assets		$ 461,500,031
Unfunded liability		$ 13,825,681

Assumptions:

- Data — January 1, 2016
- Interest Rates for PBGC — 1.82% / 4.12% / 5.01%
- Mortality Table for 2016 — IRS Required

To account for a June 2016 contribution date and a small margin above the 100% threshold, we are recommending a $15,000,000 contribution be made to the PAP. The amount should be referenced as applicable to the 2015 plan year and be made on or before June 15, 2016. After making this contribution, the PAP will be over 100% funded as of January 1, 2016 and no variable premiums will be due.

The results presented above are based on the data, assumptions, methods and plan provisions outlined in the actuarial valuation report to determine funding requirements for the plan for the year beginning January 1, 2016, to be delivered later this year. Therefore, the descriptions of the data, assumptions, methods, plan provisions and limitations of the valuation report and its use should be considered part of this letter report. The undersigned consultants with actuarial credentials meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained herein. To our knowledge, our objectivity is not impaired by any relationship between the plan sponsor and our employer, Willis Towers Watson.

Please let us know if you have any questions.

Ms. Kim Pettineo
Atmos Energy Corporation
5430 LBJ Freeway, Suite 600
Dallas, TX 75240

Dear Kim:

As you requested, we are providing an estimate of the September 30, 2016 accounting liability and the FY2017 Net Periodic Pension Cost (NPPC) attributable to Tennessee residents who participate in the Atmos Energy Corporation Pension Account Plan (PAP). The liabilities are split based on the allocation provided in May of 2012 and verified by Atmos Energy.

The FAS 87 liability as of September 30, 2016 and the FY2017 NPPC for the Pension Account Plan is $545.5 million and $23.1 million, respectively. The allocation of these amounts by group is shown in the table below.

	Counts	FAS 87 Liability as of 9/30/2016	%	FY2017 NPPC
Inactive Pre GO Merger	47	6,476,000	1.2%	51,000
Active GO	26	5,367,000	1.0%	281,000
Inactive GO After Merger	5	1,503,000	0.3%	26,000
Inactive TN	193	16,325,000	3.0%	128,000
Active TN	115	15,990,000	2.9%	797,000
Active SS	287	31,893,000	5.9%	2,302,000
Active CSO SS	410	19,077,000	3.5%	1,552,000
Inactive SS	211	25,246,000	4.6%	202,000
Other	4,532	423,603,000	77.6%	17,752,000
Total	**5,826**	**545,480,000**	**100.0%**	**23,091,000**

Our calculations were based on the following data, methods and assumptions:

- January 1, 2016 census data projected to September 30, 2016 (includes the impact of the voluntary lump sum window offered prior to September 30, 2016)
- Discount rate of 3.73%
- Assets as of September 30, 2016
- Disclosure assumptions as elected by the plan sponsor as of September 30, 2016, including mortality projection scale MP-2016.
- Participant groupings were verified by Atmos
- Accounting liability, service cost and interest cost determined directly for participants
- Expected return on assets and loss amortization allocated based on liability

The calculations in this letter apply only to the Atmos Energy Corporation Pension Account Plan and not to any other qualified or executive benefit plans.

The information contained above was prepared for the internal use of Atmos Energy in connection with the rate case analysis for Tennessee. It is not intended for and may not be used for other purposes, and we accept no responsibility or liability in this regard.

The results included in this letter are based on the data, assumptions, methods and plan provisions outlined in the actuarial valuation report to determine accounting requirements for the plan for the plan year beginning October 1, 2016 delivered in November 2016. Therefore, the descriptions of the data, assumptions, methods, plan provisions and limitations of the valuation report and its use should be considered part of this letter report. The undersigned consultants with actuarial credentials meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained herein. To our knowledge, our objectivity is not impaired by any relationship between the plan sponsor and our employer, Willis Towers Watson.

Let us know if you have any questions.

Ms. Kim Pettineo
Atmos Energy Corporation
5430 LBJ Freeway, Suite 600
Dallas, TX 75240

Dear Kim:

As you requested, we are providing an estimate of the September 30, 2015 accounting liability and the FY2016 Net Periodic Pension Cost (NPPC) attributable to Tennessee residents who participate in the Atmos Energy Corporation Pension Account Plan (PAP). The liabilities are split based on the allocation provided in May of 2012 and verified by Atmos Energy.

The FAS 87 liability as of September 30, 2015 and the FY16 NPPC for the Pension Account Plan is $508.6 million and $22.6 million, respectively. The allocation of these amounts by group is shown in the table below.

	Counts	FAS 87 Liability as of 9/30/2015	%	FY16 NPPC
Inactive Pre GO Merger	70	7,601,000	1.5%	83,000
Active GO	28	5,118,000	1.0%	271,000
Inactive GO After Merger	5	1,367,000	0.3%	29,000
Inactive TN	231	17,271,000	3.4%	184,000
Active TN	123	15,110,000	3.0%	813,000
Active SS	307	27,292,000	5.4%	2,140,000
Active CSO SS	436	15,840,000	3.1%	1,434,000
Inactive SS	247	24,124,000	4.7%	264,000
Other	5,032	394,876,000	77.6%	17,339,000
Total	6,479	508,599,000	100.0%	22,557,000

Our calculations were based on the following data, methods and assumptions:

- January 1, 2015 census data projected to September 30, 2015
- Discount rate of 4.55%
- Assets as of September 30, 2015
- Disclosure assumptions as elected by the plan sponsor as of September 30, 2015
- Participant groupings were verified by Atmos
- Accounting liability, service cost and interest cost determined directly for participants
- Expected return on assets and loss amortization allocated based on liability

The calculations in this letter apply only to the Atmos Energy Corporation Pension Account Plan and not to any other qualified or executive benefit plans.

The information contained above was prepared for the internal use of Atmos Energy in connection with the rate case analysis for Tennessee. It is not intended for and may not be used for other purposes, and we accept no responsibility or liability in this regard.

The results included in this letter are based on the data, assumptions, methods and plan provisions outlined in the actuarial valuation report to determine accounting requirements for the plan for the plan year beginning October 1, 2015 delivered in October 2015. Therefore, the descriptions of the data, assumptions, methods, plan provisions and limitations of the valuation report and its use should be considered part of this letter report. Subject: Final 2014 Discretionary Contribution Amount

CAUTION - THIS IS AN EXTERNAL EMAIL. Do not open attachments or click links from unknown sources or unexpected email.

All,

As discussed in the QRPT meeting on May 27, 2014, we are providing a recommended contribution to fully fund the Pension Account Plan (PAP) on a PBGC premium basis, thus avoiding variable PBGC premiums for the 2015 plan year. Prior to making any contribution, the unfunded liability as of January 1, 2015 is as follows:

Liability for PBGC premium purposes	$483,149,830
Assets	$446,707,497
Unfunded liability	$36,442,333

Assumptions:

- Data — January 1, 2015
- Interest Rates for PBGC — 1.48% / 3.77% / 4.79%
- Mortality — IRS Required Table for 2015

To account for a June 2015 contribution date and a small margin above the 100% threshold, we are recommending a $38,000,000 contribution be made to the PAP. The amount should be referenced as applicable to the 2014 plan year and be made on or before June 15, 2015. After making this contribution, the PAP will be over 100% funded as of January 1, 2015 and no variable premiums will be due.

BEFORE THE TENNESSEE REGULATORY AUTHORITY
NASHVILLE, TENNESSEE

IN RE:

PETITION OF ATMOS ENERGY CORPORATION FOR APPROVAL OF ADJUSTMENT OF ITS RATES AND REVISED TARIFF	))))	**DOCKET NO. 12-_____**

PRE-FILED TESTIMONY OF GREGORY K. WALLER ON BEHALF OF ATMOS ENERGY CORPORATION

I. INTRODUCTION OF WITNESS

Q. PLEASE STATE YOUR NAME, POSITION AND BUSINESS ADDRESS.

A. My name is Gregory K. Waller. I am Vice President of Finance for the Kentucky/Mid-States Division of Atmos Energy Corporation ("Atmos Energy" or the "Company"). My business address is 810 Crescent Centre Drive, Suite 600, Franklin, TN 37067.

Q. PLEASE STATE YOUR EDUCATION AND PROFESSIONAL BACKGROUND.

A. I received a Bachelor of Arts degree in economics from Dartmouth College in 1994 and an MBA degree from the University of Texas in 2000. I worked as a management consultant from 1994 to 2003 at Harbor Research in Boston, MA (1994-1996) and Towers Perrin in Dallas, TX (1997-2003). I joined Atmos Energy in 2003 in the Planning and Budgeting Department in Dallas. In November of 2005 I became Vice President of Finance for the Kentucky/Mid-States Division, which includes the Company's regulated Tennessee operations.

Q. WHAT ARE YOUR RESPONSIBILITIES AT ATMOS ENERGY?

A. I am responsible for monitoring and analyzing the financial performance of the Kentucky/Mid-States Division, and implementing necessary actions based on those results. I also direct the development of the Division's annual budget. Other responsibilities include establishing and maintaining policies, procedures, and controls to ensure compliance with corporate accounting policies, Generally

Accepted Accounting Principles (GAAP) and regulatory requirements.

Q. HAVE YOU TESTIFIED BEFORE THIS OR ANY OTHER REGULATORY COMMISSION?

A. Yes. I testified before the Tennessee Regulatory Authority in 2006 and the Georgia Public Service Commission in 2008, 2009 and 2011. I also submitted direct testimony in the Company's rate proceedings in Kentucky (2006 and 2009), Tennessee (2007 and 2008), and Virginia (2008 and 2009).

II. SUMMARY OF TESTIMONY

Q. WHAT SUBJECT AREAS DO YOU INTEND TO COVER IN YOUR TESTIMONY?

A. I will testify concerning the following subject areas:

1. The Operating and Maintenance (O&M) expense budgeting process used by Atmos Energy's utility divisions, including the Kentucky/Mid-States Division;
2. The Shared Services Unit (SSU) budgeting process;
3. Control and monitoring of O&M variances; and
4. The historical test period costs and forecasted attrition year budget for O&M, depreciation expense, and taxes other than income taxes incurred directly by the Tennessee operations and allocated from the Kentucky/Mid-States Division's General Office and SSU.

Q. PLEASE SUMMARIZE YOUR TESTIMONY IN THESE SUBJECT AREAS:

A. The Division and SSU Budgeting Process

- The objectives of the Company's O&M budgeting process are to: (1) formalize the process of identifying the anticipated costs of operating and maintaining Atmos Energy's systems each year; (2) ensure that all policies and procedures associated with the annual budgeting process are consistently adhered to by the functional managers and officers; (3) assess the appropriateness of routine maintenance requirements and non-capital

expenditures proposed by the functional managers and officers to ensure that the amounts do not exceed a level necessary to deliver safe, reliable, and efficient natural gas service to the Company's customers; and (4) ensure that the O&M budget properly reflects our strategic operational and financial plans.

- O&M costs are budgeted on a fiscal year basis -- from October 1 through September 30 of the following year. Budgets are reviewed and approved at multiple levels beginning with the supervisor/managers up through division and corporate leadership.
- The O&M budget is prepared by type of cost element. Within each cost element expenses are budgeted at the sub-account level. Although the budgets are not prepared by FERC account, Atmos Energy does convert its budget and forecast to FERC accounts.
- The annual budget for SSU O&M is developed using these same methods and processes.
- SSU is comprised of functional services groups such as planning and budgeting, accounting, legal, rates, information technology, gas supply, customer support, and risk management. Each functional service group is comprised of one or more cost centers, which may have additional cost centers below them.
- Each SSU cost center owner is responsible for developing his or her annual budget, except for certain predetermined costs, which are developed by the Business Planning and Analysis department or another department that has knowledge of the predetermined cost.
- Once an SSU cost center budget has been prepared, it is subject to the same managerial review and approval processes that are used for the budgets for the Company's utility divisions and subsidiaries.
- The SSU capital expenditure (Capex) budget is developed using the same methods and processes employed for the division's capital expenditure budget.

- O&M costs in SSU and the Kentucky/Mid-States Division's General Office are allocated to the Company's utility divisions by using a process of common cost allocation more particularly described in the Company's Cost Allocation Manual attached to the testimony of Company witness Jason Schneider.
- Unlike O&M costs, SSU Capex is not directly charged to the Company's utility divisions or subsidiaries. Once an SSU capital project is completed and closed to plant, it then becomes part of SSU general plant that is allocated for rate making purposes within a rate filing.
- An allocated portion of SSU costs have been included as part of the attrition period costs for purposes of this rate filing.

Control and Monitoring of O&M Variances

- On a quarterly basis, each division's actual to budget variances with explanations are presented to the Company's Management Committee, SSU department heads, select Board of Directors members, and external auditors at a formal quarterly performance review.
- Each month, once the books are closed, the SSU Financial Reporting department publishes electronically the monthly Atmos Energy Financial Package that details the financial performance of each of the Atmos Energy operating divisions. This Financial Package, once complete, is available to all Atmos Energy officers and Board members for review and is an official Sarbanes-Oxley Act ("SOX") control document for the Company. Once the Financial Package is complete and my department has completed a thorough review of the division's financial performance and the Financial Package, I complete an online questionnaire generated by our SOX Compliance Tool certifying that we have done so. The Company's external auditors look for this certification as evidence of SOX compliance.

Historical Test Period Costs and Forecasted Attrition Year Budget

- The forecasted attrition period in this rate proceeding is December 1, 2012 – November 30, 2013.
- The historical test period in this rate proceeding is April 1, 2011 – March 31, 2012.
- The basis for the forecasted attrition period budget is the Company's fiscal year 2012 actual results through March 31 and fiscal year 2012 budget through September 30, 2012.
- The forecasted attrition period O&M is comprised of three parts: expenses incurred and booked directly in Tennessee, allocated expenses from the Kentucky/Mid-States Division's General Office, and allocated expenses from SSU.
- The direct O&M for Tennessee for the historical test period is $9,434,838.
- The direct O&M for Tennessee for the attrition period is $11,991,203.
- The difference is $2,556,365 and reflects adjustments I have made for labor and benefits, rent, other O&M, and bad debt. The forecast for benefits follows Tennessee regulatory precedent by removing the accrual for FAS 87 (pension) expenses and replaces it with the Company's actual cash contributions attributable to the Tennessee jurisdiction using the same valuation methodology used in the Company's 08-00197 rate proceeding. This adjustment accounts for $2,575,974, and includes a three-year amortization of the Company's total cash contributions made and required through the end of the attrition period. This adjustment is larger than the total difference stated above due to offsetting decreases in other categories. The difference also includes $153,333 to account for a three-year amortization of expenses related to this proceeding.
- Direct labor expense is forecasted to increase $117,083 from the test period to the attrition period to accommodate the Company's budgeted 3% average merit adjustment.
- Benefits are projected as a fixed benefit load percentage of labor expense. The attrition period direct benefits expense of $1,630,192 is $68,264 lower

than the test period and reflects the removal of FAS 87 expense discussed above. It does not include the adjustment for actual cash contributions to the pension plan.

- O&M expense types other than labor, benefits, rent, insurance and bad debt are forecasted using a standard inflation factor of 2.56% to arrive at the attrition period expense level. The inflation factor applied to insurance premiums is 4% to account for anticipated increases.
- The adjustment relating to bad debt seeks to reflect our goal that bad debt is no higher than .5% of residential, commercial, and public authority gross margins during any given year. To arrive at the bad debt projection of $219,086 we simply calculated .5% of residential, commercial and public authority gross margins from the revenue projections. The projection is $63,418 lower than the test period.
- The General Office O&M allocated to Tennessee for the historical test period is $3,070,891.
- The General Office O&M allocated to Tennessee for the attrition period is $3,765,014. The difference between the General Office test period O&M and the attrition period O&M allocated to Tennessee is an increase of $694,123 due largely to the change in allocation factors resulting from the Company's disposition of operations in Missouri, Illinois and Iowa as discussed in MFR 1 and 2.
- Using the forecast methodologies I have described, labor expense is forecasted to increase $138,968 from the test period to the attrition period. Benefits are forecasted to increase $166,409. Rent, maintenance and utilities expense is forecasted to increase $38,545 and other O&M is forecasted to increase $350,201 from the test period to the attrition period.
- The amount of Shared Services O&M allocated to Tennessee for the test period is $4,796,434. The amount of the Shared Services O&M allocated to Tennessee for the forecasted attrition period is $5,101,588.
- The difference between the Shared Services O&M for the test period and the

forecasted attrition period is an increase of $305,153 which is the net difference in a number of items outlined on Schedule GW-2.

- When the three components of O&M are added together, total O&M is forecasted to increase 20.6% from a test period level of $17,302,164 to an attrition period level of $20,857,805. Prior to the addition of actual cash contributions to the pension plan and estimated rate case expenses for this proceeding, the total O&M growth rate is 4.8%.
- The amount of depreciation expense for the test period is $9,943,112.
- The amount of depreciation expense for the attrition test period is $10,347,398.
- The expense level for taxes, other than income taxes for the test period, is $6,213,818. The level of taxes, other than income taxes for the forecasted attrition period is $6,251,784.

Q. ARE YOU SPONSORING ANY SCHEDULES?

A. Yes. I am sponsoring the following schedules:

Schedule GW-1 Total Operating Expenses
Schedule GW-2 O&M by Cost Element
Schedule GW-3 Taxes other than Income Tax
Schedule GW-4 Depreciation Expense

III. O&M BUDGETING PROCESS

Q. WHAT ARE THE OBJECTIVES OF THE COMPANY'S O&M BUDGETING PROCESS?

A. The objectives are to: (1) formalize the process of identifying the anticipated costs of operating and maintaining Atmos Energy's systems each year; (2) ensure that all policies and procedures associated with the annual budgeting process are consistently adhered to by the functional managers and officers; (3) assess the appropriateness of routine maintenance requirements and non-capital expenditures proposed by the functional managers and officers to ensure that the amounts do not exceed a level necessary to deliver safe, reliable, and efficient natural gas service to the Company's customers; and (4) ensure that the O&M budget properly reflects our strategic operational and financial plans. These

objectives are applicable to the Company as a whole (including SSU) as well as to its various division, state and local level operations.

Q. CAN YOU DESCRIBE THE COMPANY'S O&M BUDGETING PROCESS?

A. Yes. O&M costs are budgeted on a fiscal year basis, which begins on October 1 of each year (consistent with the seasonal operations of our business) and runs through September 30 of the following year. Preparation of operating and construction budgets for a fiscal year formally begins in late May of each year and culminates with completion of final budgets in late August, just prior to the beginning of the fiscal year. Budget preparation is based on meeting the four objectives described in my preceding answer. Budgets are approved at multiple levels beginning with supervisor/managers up through division leadership. Additional reviews are performed by corporate executive operations management and their staff. High level reviews of the division budgets are also performed by the Company's senior executives who are presiding members of the Company's Management Committee. The Board of Directors must review and approve the total Company budget before finalization and implementation. This approval typically occurs in September of each year.

Q. WHAT ROLE DOES THE O&M BUDGETING PROCESS PLAY IN THE COMPANY'S FINANCIAL PLANNING?

A. Atmos Energy's Business Planning and Analysis Department is responsible for financial planning at the enterprise level. That department receives direction from the Board of Directors concerning forward-looking financial objectives for the Company. Business Planning and Analysis is responsible, with significant input and collaboration from division leadership, for translating those enterprise targets into a financial plan for each division and rate jurisdiction. It is the collaboration between Business Planning and Analysis and division leadership that ensures that all four of the objectives described above are met each year. Spending targets are established as a result of this collaboration.

Q. WHAT IS YOUR ROLE IN THIS PROCESS?

A. My role is to facilitate the budget process within the Kentucky/Mid-States Division that confirms the operational feasibility of the targets and produces an O&M budget consistent with the Company's processes and goals described above. My department communicates certain budget guidelines such as average wage increase percentages and anticipated benefits rates to managers and supervisors (cost center owners). Each cost center owner is responsible for building his or her department's budget and submitting it for review by me and approval along the appropriate approval chain. My department provides support to and often asks for clarifying information from cost center owners as needed to explain significant variances from the prior year. In addition, we budget several items on behalf of the entire Division such as bill print fees, insurance costs, bad debt provision, etc. An iterative process involving Division leadership (including myself), my department and the cost center owners ultimately produces an O&M budget that meets the needs of our operations, ensures that we operate safely, reliably and efficiently, and allows our Division to contribute to the financial success of Atmos Energy. This process is used to develop the direct O&M budget for Tennessee, as well as the Division's general office O&M budget. A portion of the Division's general office O&M budget, as hereinafter discussed, is allocated to Tennessee in accordance with the allocation methods addressed in the Company's Cost Allocation Manual filed with the testimony of Company witness Jason Schneider.

Q. SO FAR YOU HAVE DESCRIBED THE O&M BUDGETING PROCESS. CAN YOU EXPLAIN HOW THE BUDGET IS PREPARED WITHIN THE PARAMETERS OF THIS PROCESS?

A. Yes. The O&M budget is prepared by type of cost element, such as labor, benefits, transportation, rents, office supplies, etc. Within each cost element we budget expenses at the sub-account level. The prior year's actual costs, year to date actual costs, and budgeted costs for the remainder of the fiscal year are used as guidelines for budgeting by functional managers and officers. The budgets are prepared using a web based software tool called PlanIt. This tool allows cost center owners to enter their budgets and allows my department and Kentucky/

Mid-States Division management to review budgets using a number of standard and ad hoc reports.

Q. ARE THESE BUDGETS PREPARED BY FERC ACCOUNT?

A. No. In our experience, FERC accounts do not provide a sufficient level of detail to enable us to understand the costs within each account. For budgeting purposes (and subsequent managing of expenses), we need individualized expense types that relate to the operation of each cost center. FERC accounts do not provide that level of detail. However, when we incur costs, we do identify our expenditures by FERC account as well as expense type. This provides a timely analysis of the type of charges being expensed by FERC account.

Q. HOW DOES ATMOS ENERGY CONVERT ITS O&M BUDGET BY COST ELEMENT INTO FERC ACCOUNTS?

A. To convert our budget and forecast to FERC accounts, historic test period actual expenditures were downloaded from the general ledger by FERC account and cost element. A calculation was then made to determine within each cost element type the percentage of spending attributable to each FERC account. Each percentage factor was then applied to the attrition period forecast by cost type to develop a forecast by FERC account.

IV. SSU BUDGETING

Q. CAN YOU DESCRIBE THE SSU BUDGETING PROCESS?

A. The annual budget for SSU O&M is developed using the same methods, processes, and controls that I have described hereinabove. SSU is, however, slightly different.

Q. HOW DOES SSU DIFFER?

A. Perhaps the easiest way to explain the SSU budgeting process is to begin with a brief explanation of how SSU is organized. SSU is comprised of functional service groups such as planning and budgeting, accounting, legal, rates, information technology, gas supply, customer support, risk management, etc. Each functional service group is comprised of one or more cost centers, such as

accounting which, at the high level, consists of the Company's controller, general accounting services, tax services, revenue accounting, and financial reporting. These cost centers may have additional cost centers below them that roll up into the cost center for total budgeting purposes, such as plant accounting within general accounting. The planning and budgeting group works with and supports the Company's utility divisions, subsidiaries, and SSU cost center owners in the development of their annual budgets.

Each SSU cost center owner, whether an officer, managerial director, manager or supervisor of the Company, is responsible for developing his or her annual budget as part of the Company-wide annual budgeting process, except for certain pre-determined costs developed by planning and budgeting or another group that has knowledge of the pre-determined cost. An example of a pre-determined cost is the allocated portion of corporate office rent. Pre-determined costs are provided to cost center owners for inclusion in their cost center budgets.

Once an SSU cost center budget has been prepared, it is subject to the same managerial review and approval processes that are used for the budgets of the Company's utility divisions and subsidiaries. Once approved, the SSU cost center's budget is subject to the same ongoing control processes, including variance monitoring, that I have described herein below.

Q. YOU HAVE DESCRIBED THE SSU O&M BUDGETING PROCESS, BUT WHAT ABOUT SSU CAPEX BUDGETING?

A. The SSU Capex budget is developed using the same general methods and processes employed for the Kentucky/Mid-States Division's Capex budget, which is more particularly described in the direct testimony of Company witness Mr. Ernie Napier. There are, however, some notable differences.

Q. PLEASE DESCRIBE THE DIFFERENCES.

A. Although a particular Capex item may be budgeted by an SSU cost center owner, such as the purchase of a new filing cabinet, the majority of SSU Capex costs consists of information technology hardware and software systems. These costs are budgeted in the SSU Information Technology ("IT") costs centers. For example, if tax services required a new property tax management system, then the

IT group would work with tax services to budget the costs of purchasing or developing and implementing the new system. IT will include these costs as part of the IT Capex budget for SSU information technology capital projects. The SSU Capex budget is subject to the same managerial review and pre-approval processes, as well as ongoing control processes, described in Mr. Napier's testimony.

Q. HOW ARE THE COSTS IN AN SSU COST CENTER BUDGET CHARGED OR ALLOCATED TO THE COMPANY'S UTILITY DIVISIONS, SUCH AS IN TENNESSEE?

A. For O&M costs, the Company employs a process of common cost allocation that is described in the Company's Cost Allocation Manual attached to the testimony of Company witness Jason Schneider. For illustrative purposes only, if the SSU tax services cost center budgeted $100,000 in O&M for a fiscal year and the applicable allocation factor for Tennessee was 5%, then Tennessee would be allocated $5,000 of tax services budgeted in O&M. Of course, budgeted allocation amounts are based upon actual budget numbers and actual allocation factors.

Unlike O&M, SSU Capex is not directly charged to the Company's utility divisions or subsidiaries. Once an SSU capital project is completed and closed to plant, it then becomes part of SSU general plant that is allocated for ratemaking purposes within a rate filing. In this rate filing, increases to SSU general plant for the attrition period pertain to spending on capital projects which are reasonably expected to be closed to plant and in service for the benefit of the Company's utility divisions, including the Kentucky/Mid-States Division, before the end of the attrition period.

Q. HAVE ALLOCATED SSU COSTS BEEN INCLUDED AS PART OF THE ATTRITION PERIOD COSTS FOR PURPOSES OF THIS RATE FILING?

A. Yes. The Company's planning and budgeting group developed the forward-looking SSU costs (both O&M and Capex) for purposes of the attrition period used for this rate filing. The entirety of these forecasted costs are not attributable to Tennessee, only an allocated portion. The allocated costs were determined

according to the Company's Cost Allocation Manual, as discussed hereinabove, and are incorporated into the filing requirements sponsored by me (O&M) and Messrs. Napier and Petersen (Capex).

V. O&M CONTROL AND MONITORING

Q. DOES THE COMPANY EMPLOY ANY METHODOLOGY TO MONITOR AND CONTROL O&M ACCORDING TO BUDGETED LEVELS?

A. Yes. Atmos Energy utilizes variance monitoring to ensure financial quality control of O&M expenses by formalizing the analysis of variances by cost type and cost center. On a quarterly basis, we present our Division's actual to budget variances with explanation to the Company's Management Committee, SSU department heads, select Board of Directors members and external auditors at a formal Quarterly Performance Review. The goal is to keep all levels of management informed of our O&M spending in comparison to budgeted amounts, in order to allow management to react to unanticipated events on a timely basis.

Q. ARE O&M VARIANCES EVALUATED MORE FREQUENTLY THAN ON A QUARTERLY BASIS?

A. Yes. My department conducts a thorough review of O&M actual to budget variances each month.

Q. PLEASE DESCRIBE YOUR MONTHLY VARIANCE REVIEW PROCESS.

A. We begin by examining, at the Division level, significant variances by cost type (labor, benefits, materials, rents, etc.). Significant variances are researched until an explanation is found. Reasonable explanations could include events that affected the entire Division or a particular cost center or region. In some cases, clarifying information is sought from cost center owners to explain unusual variances or transactions. For some cost types, clarifying analysis is provided by SSU departments. If errors are found, they are most often corrected in the current month's business. Occasionally, however, errors are discovered after the books

are closed, and, depending on materiality, they are corrected in the following month's business.

Q. DOES ANYONE ELSE WITHIN THE DIVISION HAVE THE ABILITY TO MONITOR OR REVIEW O&M VARIANCES?

A. In addition to the research conducted by my department, each cost center owner has the ability to run variance reports throughout the monthly closing process. Because cost center owners are held accountable for significant variances to budget, they conduct their own research and often contact my department when they find errors or have questions about the expenses that were charged to their cost centers.

Q. WHAT CONTROLS AND REPORTING ARE INVOLVED IN THE MONTHLY CLOSE PROCESS REGARDING O&M VARIANCES?

A. Once the monthly books are closed, the SSU Financial Reporting department in Dallas publishes (electronically) the monthly Atmos Energy Financial Package. This package details the financial performance for Atmos Energy at the corporate and each division level. For each division, the report includes a comparative income statement, operating statistics page (volumes, total spending), O&M detail page, balance sheet highlights page, and financial highlights page. The financial highlights page reports the Division's monthly and year-to-date (YTD) performance versus budget for net income, gross profit, direct O&M and capital spending. I provide narrative comments on this page to describe our monthly and YTD variances. Once complete, this Financial Package is available to all Atmos Energy officers and Board members for review and is an official SOX control document of the Company. Once the package is complete, I complete an online questionnaire generated by our SOX Compliance Tool certifying that my department has conducted a thorough review of the division's financial performance and the Financial Package and addressed all matters therein. The Company's external auditors look for this certification as evidence of SOX compliance.

After meeting the Financial Package control requirement, my department publishes (electronically) detailed O&M reports that include monthly and YTD

variances for each cost center and these reports are then made available to each cost center owner and their respective managers (managers, Division Vice Presidents, Division President). This activity ensures that each cost center owner receives the same information in the same format each month in a timely fashion in order to make operational decisions and manage our operations effectively and efficiently.

VI. FORECASTED ATTRITION PERIOD O&M BUDGET

Q. WHAT IS THE FORECASTED ATTRITION PERIOD USED IN THIS RATE APPLICATION?

A. The forecasted attrition period is December 1, 2012 – November 30, 2013.

Q. HOW WAS THE FORECASTED ATTRITION PERIOD BUDGET DEVELOPED?

A. The basis for the forecasted attrition period is our fiscal year 2012 ("FY2012") results and budget. Consistent with our normal annual budgeting timelines, this budget was prepared during the summer of 2011 and approved by the Board of Directors in September of 2011. This budget was prepared in the manner I described earlier. The forecasted attrition period is based on actual results from the first half of FY2012 (October 2011 – March 2012) and the FY2012 budget for the second half of FY2012 (April 2012 – September 2012) adjusted for inflation using methodologies I will describe in detail below. The forecasted attrition period projection was converted into FERC account detail using the method described above.

Q. WHAT ARE THE COMPONENTS OF O&M FOR THE FORECASTED ATTRITION PERIOD?

A. The forecasted attrition period O&M is comprised of three parts: expenses incurred and booked directly in Tennessee, allocated expenses from the Kentucky/Mid-States Division's General Office, and allocated expenses from SSU. These components are itemized on schedule GW-2. I will describe the methodology used for the projection for each of the three components.

Q. WHAT COMPRISES THE HISTORICAL TEST PERIOD LEVEL OF COST FILED IN THIS RATE APPLICATION?

A. The historical test period is April 1, 2011 – March 31, 2012.

Q. WHAT IS THE DIRECT O&M FOR THE HISTORICAL TEST PERIOD?

A. The direct O&M for Tennessee for the historical test period is $9,434,838.

Q. WHAT IS THE DIRECT O&M FOR THE FORECASTED ATTRITION PERIOD?

A. The direct O&M for Tennessee for the attrition period is $11,991,203.

Q. WHAT IS THE DOLLAR DIFFERENCE BETWEEN THE TEST PERIOD O&M AND ATTRITION PERIOD O&M?

A. The difference is $2,556,365 and reflects adjustments I have made for labor and benefits, rent, other O&M, and bad debt. It also includes $153,333 to account for a recommended three-year amortization of expenses related to this proceeding. These adjustments by cost element can be seen in Schedule GW-2.

Q. PLEASE EXPLAIN YOUR ADJUSTMENT FOR LABOR.

A. The labor expense forecast is based on our fiscal year 2012 ("FY2012") results and budget adjusted for annual pay increases. Base pay increases go into effect each October 1 and have averaged 3.0% annually for the past several years. An adjustment was made as part of the forecast to account for an average wage increase of 3.0% to become effective October 1, 2012 and October 1, 2013. While there is always a normal level of position vacancy at any given point in time, we strive to fill open positions in a timely manner when and if filling the position is justified by current workload. Both the test and attrition period level of total labor expenditures represents a fully staffed level minus the normal level of vacancies. The result is direct labor expense that is forecasted to increase $117,083 from the test period to the attrition period

Q. PLEASE EXPLAIN YOUR ADJUSTMENT FOR BENEFITS.

A. Benefits are projected as a fixed benefit load percentage of labor expense. An adjustment to the fixed benefit load percentage was made in order to follow Tennessee regulatory precedent. The adjustment removes the accrual for FAS 87 (pension) expenses. Separately, as detailed on MFR 12 Attachment 3 - Waller -

Pension Adjustment, a calculation was made to determine the amount of the Company's actual cash contributions to its pension plan that are attributable to the Tennessee jurisdiction. The calculation allocates actual cash contributions made or required through the end of the attrition year and allocates the appropriate amount to Tennessee proportional to the estimated total pension liability assigned to each employee group and consistent with the allocation factors used throughout the filing. The methodology for assigning the appropriate amount to the Tennessee jurisdiction is consistent with that used by the Company in Docket 08-00197. In that Docket, the range of the anticipated actual cash contribution was $17.5 – 21.0 million. The approved revenue requirement in that case was based on the low end of that range, or $17.5 million. The Company actually made a $19.5 million contribution and thus the analysis on MFR 12 Attachment 3 - Waller - Pension Adjustment begins with calculating the contribution attributable to Tennessee for that $2 million difference. In this proceeding, the actual cash contribution attributable to Tennessee is $7,727,923. An adjustment has been made to operating expenses to account for a three year amortization of that amount.

Q. PLEASE EXPLAIN YOUR ADJUSTMENT RELATING TO RENT.

A. Unlike other O&M categories that are likely to increase with normal inflation, our building rents are driven by leases already in place and can therefore be projected with a high level of accuracy. Overall, direct Rent, Utilities and Maintenance is projected to decrease $20,576 from the test period to the attrition period.

Q. PLEASE EXPLAIN YOUR ADJUSTMENT RELATING TO BAD DEBT.

A. Our goal is to keep bad debt no higher than 0.50% of residential, commercial, and public authority gross margins during any given year. We work vigorously to collect bad debts from customers each year to achieve this goal so as to reduce the impact of good-paying customers subsidizing poor-paying customers who drive up our expenses. To arrive at the bad debt projection of $219,086 we simply calculated 0.50% of residential, commercial and public authority gross margins from the revenue projection discussed in the testimony of Josh Densman. The projection is $63,418 lower than the test period.

Q. PLEASE EXPLAIN YOUR ADJUSTMENT RELATING TO OTHER O&M.

A. For the purpose of this rate filing, O&M expense types other than labor, benefits, rent, insurance and bad debt are forecasted using a standard inflation factor. Using our FY2012 actual results and budget as a starting point, categories other than the ones listed above are inflated by 2.56% from that baseline to arrive at the expense level for the attrition year. The 2.56% inflation factor is the average inflation rate for the southern region over the last two years as reported by the U.S. Department of Labor. Insurance is expected to increase 4% over the course of the attrition period. Overall, expense categories other than those already mentioned are expected to decrease $149,866 from the test period (April 1, 2011 through March 31, 2012) to the attrition period.

Q. WHAT IS THE DIVISION GENERAL OFFICE O&M FOR THE HISTORICAL TEST PERIOD?

A. The General Office O&M allocated to Tennessee for the historical test period is $3,070,891.

Q. WHAT IS THE DIVISION GENERAL OFFICE O&M FOR THE FORECASTED ATTRITION PERIOD?

A. The General Office O&M allocated to Tennessee for the attrition period is $3,765,014.

Q. WHAT IS THE DOLLAR DIFFERENCE BETWEEN THE GENERAL OFFICE TEST PERIOD O&M AND ATTRITION PERIOD O&M ALLOCATED TO TENNESSEE?

A. The difference is an increase of $694,123 and reflects adjustments I have made for labor and benefits, rent and other O&M. The budgeting process and forecast methodologies are identical for both direct O&M and General Office O&M. Therefore, the categories of adjustments made to forecast General Office O&M are also the same as direct.

Q. PLEASE DOCUMENT THE AMOUNTS OF ADJUSTMENTS MADE TO GENERAL OFFICE O&M ALLOCATED TO TENNESSEE?

A. Using the forecast methodologies described above, labor expense is forecasted to

increase $138,968 from the test period to the attrition period. Benefits are forecasted to increase $166,409 from the test period to the attrition period. Rent, Maintenance and Utilities expense is forecasted to increase $38,545 from the test period to the attrition period. Other O&M is forecasted to increase $350,201 from the test period to the attrition period.

Q. WHAT IS THE AMOUNT OF SHARED SERVICES O&M ALLOCATED TO TENNESSEE FOR THE TEST PERIOD?

A. $4,796,434.

Q. WHAT IS THE AMOUNT OF THE SHARED SERVICES O&M ALLOCATED TO TENNESSEE FOR THE FORECASTED ATTRITION PERIOD?

A. $5,101,588.

Q. PLEASE DISCUSS THE DIFFERENCE BETWEEN THE SHARED SERVICES TEST PERIOD AND FORECASTED ATTRITION PERIOD AMOUNTS.

A. The difference is an increase of $305,153. The forecasted SSU attrition period amounts are determined using the same methodology described earlier for the Direct O&M. The SSU budget is prepared as I described above. Once the SSU department heads complete, submit, and get approval for their budgets, the appropriate level of expenses are allocated to the Tennessee rate jurisdiction per the methodologies described in the Company's Cost Allocation Manual attached the testimony of Company witness Jason Schneider.

Q. HOW DO YOU MONITOR SHARED SERVICES BILLINGS TO THE KENTUCKY/MID-STATES DIVISION?

A. Shared Services expense billings are reviewed as part of our monthly close process described earlier. It is my responsibility to contact Accounting in Dallas and obtain an explanation for any significant variances.

Q. ADDING THE THREE COMPONENTS OF O&M TOGETHER, WHAT IS THE TOTAL O&M FOR THE TEST PERIOD AND ATTRITION PERIOD IN THIS RATE FILING?

A. When the three components of O&M are added together, total O&M is forecasted

to increase 20.6% from a test period level of $17,302,164 to an attrition period level of $20,857,805. Prior to the addition of actual cash contributions to the pension plan and estimated rate case expenses for this proceeding, the total O&M growth rate is 4.8%.

VII. DEPRECIATION EXPENSE AND TAXES, OTHER THAN INCOME TAX

Q. WHAT IS THE DEPRECIATION EXPENSE FOR THE TEST PERIOD?

A. The amount of depreciation expense for the test period is $9,943,112.

Q. WHAT IS THE DEPRECIATION EXPENSE FOR THE FORECASTED ATTRITION PERIOD?

A. The amount of depreciation expense for the forecasted test period is $10,347,398.

Q. PLEASE DISCUSS THE DIFFERENCES BETWEEN THE TEST PERIOD AND FORECASTED ATTRITION PERIOD DEPRECIATION AMOUNTS.

A. Depreciation rates for the Kentucky/Mid-States Division's General Office and the Tennessee Operations used to calculate attrition period depreciation expense are consistent with those approved in the Company's last rate case, Docket 08-00197. The Company is proposing new depreciation rates for the Shared Services Unit. The proposed rates result in a reduction to depreciation expense allocated to Tennessee from SSU and are based on a depreciation study that is attached to the testimony of Mr. Tom Petersen. Please see Schedule GW-4 for details of depreciation expense. The depreciation rates for SSU and the division General Office have been applied to the applicable categories of plant, resulting in an allocation of depreciation expense to Tennessee based upon the cost allocation methodology more fully explained in the Company's Cost Allocation Manual attached to the testimony of Company witness Jason Schneider.

Q. WHAT IS THE EXPENSE LEVEL FOR TAXES, OTHER THAN INCOME TAXES FOR THE TEST PERIOD?

A. $6,213,818.

Q. WHAT IS THE LEVEL OF TAXES, OTHER THAN INCOME TAXES FOR THE FORECASTED ATTRITION PERIOD?

A. $6,251,784.

Q. PLEASE DISCUSS THE DIFFERENCES BETWEEN THE TEST PERIOD AND FORECASTED ATTRITION PERIOD AMOUNTS.

A. The difference is an increase of $37,966. Taxes, other than income taxes, like O&M, are comprised of three components: direct Tennessee taxes, taxes allocated from the General Office, and taxes allocated from SSU. These components are itemized by type of tax on schedule GW-3. The amount of taxes allocated from the Division General Office and SSU is based upon the cost allocation methodology more fully explained in the Company's Cost Allocation Manual attached the testimony of Company witness Jason Schneider.

VIII. CONCLUSION

Q. HAVE THE FORECASTED OPERATING EXPENSES DISCUSSED IN YOUR TESTIMONY BEEN ADJUSTED FOR RATEMAKING PURPOSES?

A. Yes. The attrition year forecasts for O&M, taxes, other than income taxes and depreciation expense have been adjusted to account for ratemaking treatment of intercompany leased property and the Barnsley Storage asset. The adjustments follow the methodology that the Company has applied to these assets in its last several rate proceedings before the Authority. The forecasts discussed in my testimony are presented prior to these ratemaking adjustments being made.

Q. DO YOU BELIEVE THAT THE ATTRITION PERIOD FORECASTS YOU HAVE PRESENTED ARE THE MOST REASONABLE ESTIMATE OF COSTS FOR THE ATTRITION PERIOD USED IN THIS PROCEEDING?

A. Yes. It is the best estimate we have of the Tennessee jurisdiction's future expenses.

Q. DOES THIS CONCLUDE YOUR TESTIMONY?

A. Yes.

BEFORE THE TENNESSEE REGULATORY AUTHORITY
NASHVILLE, TENNESSEE

VERIFICATION

STATE OF TENNESSEE)

COUNTY OF WILLIAMSON)

I, Gregory K. Waller, being first duly sworn, state that I am the Vice President of Finance for the Kentucky/Mid-States Division for Atmos Energy Corporation, that I am authorized to testify on behalf of Atmos Energy Corporation in the above referenced docket, that the Testimony of Gregory K. Waller in Support of Atmos Energy Corporation's Petition and the Exhibits thereto pre-filed in this docket on the date of filing of this Petition are true and correct to the best of my knowledge, information and belief.

Gregory K Waller
Gregory K. Waller

Sworn and subscribed before me this 18th day of June, 2012.

Notary Public

My Commission Expires: May 3, 2016

STATE OF TENNESSEE NOTARY PUBLIC DAVIDSON COUNTY, TENN.

REQUEST:

Refer to the spreadsheet labeled "S. Plant Balances 2018 TN Case" that was included with the Company's filing. Specifically refer to the plant additions section of this spreadsheet for Divisions 93 and 91. It appears that the Company has increased the budgeted monthly plant additions for October 2018 through May 2019 by 12% for Division 93 and 5% for Division 91 without explanation. Provide a copy of the Company's five-year capital expenditure budget plan that provides the support for these projected increases.

RESPONSE:

Please see the Company's response to CPAD DR No. 1-32 for a description of the capex growth factor for Division 093. The capex amounts budgeted in Division 091 have historically been immaterial in nature and not necessarily uniform year to year. For that reason, the Company does not include Division 091 capex in its 5 year planning process. Division leadership budgets capital investment in 091 as needed as part of the annual budgeting process.

The most recently approved 5 year plan for Tennessee (Division 093) capex is as follows ($000s):

2018	$52,931
2019	$59,283
2020	$66,397
2021	$74,364
2022	$83,288

REQUEST:

Refer to the "2018 Revenue Requirement Schedules" spreadsheet that was included with the Company's filing. Specifically refer to Schedule 7 of this spreadsheet that provides a calculation of projected rate base. Explain the reduction in the forecast of customer deposits and note any changes to the Company's policy for recording and refunding these amounts.

RESPONSE:

In 2016 the Company implemented a deposit reduction strategy to reduce overall deposits on hand by decreasing the number of deposits collected during customer move ins and refunding paid deposits earlier than 12 months in order to benefit customers who have deserving credit profiles.

To accomplish this, the Company initiated a change to its risk assessment policy and reduced the RiskView score used for determining creditworthiness during customer move ins from 600 to 550, thus resulting in fewer deposits collected.

The Company also modified the schedule for refund eligibility from 12 to 10 payments in the previous 12 months with ≥80% of the balance paid allowing residential and commercial accounts to be refunded earlier. Using the same rule for deposits previously collected, the Company was able to immediately refund eligible deposits on hand.

REQUEST:

Refer to the "2018 Revenue Requirement Schedules" spreadsheet that was included with the Company's filing. Specifically refer to Schedule 11-2 of this spreadsheet that provides a calculation of revenues at current rates. Provide an explanation of the Company's policy of excluding Special Contract customers from the impact of ARM rate changes.

RESPONSE:

The rates of Special Contract customers are supported by and billed pursuant to negotiated contracts that are approved by the Commission. The terms by which those rates may change are driven by the approved contract for each customer. Furthermore, paragraph 13(a)(viii) (page 6) of the Settlement Agreement in Docket No. 14-00146 states "The resulting revenue sufficiency or deficiency for the Forward Looking Test Year shall be applied to all rate classes, excluding existing TRA approved Special Contracts (as defined in and set out on Attachment G to this Settlement Agreement)."

REQUEST:

Refer to the workbook labeled "R. OM Summary Test Year-Budget FY18" that was included with the Company's filing. Specifically refer to the tabs of this workbook for Divisions 93 and 91. It appears that the Company has increased the labor and non-labor for October 2018 through May 2019 by 3% for labor and 0.47% for non-labor without explanation. Provide a copy of the Company's five-year operations expenditure budget plan that provides the support for these projected increases.

RESPONSE:

Paragraphs 13(h)(i) and 13(h)(ii) of the Settlement Agreement in Docket No. 14-00146 prescribe how the Company shall forecast labor and non-labor expense respectively. The Company's forecast complies with those provisions.

REQUEST:

Refer to the Revenue Requirement Schedules that were included with the Company's filing. Provide a pro forma calculation of the Company's revenue requirement assuming that none of the changes from the 2017 Tax Cut & Jobs Act took effect. In other words, provide a calculation of the Company's revenue requirements exclusive of the Tax Cut & Jobs Act.

RESPONSE:

Please see Attachment 1.

ATTACHMENT:

ATTACHMENT 1 - Atmos Energy Corporation, CPAD_2-01_Att1 - 2018 revenue requirement schedules without TCJA.xls, 62 Pages.

REQUEST:

Consumer Advocate Request No. 1-03 Attachment 5 sets out the book/tax timing differences for each of the applicable Atmos Divisions. Within Tab No. 093, there is a line item entitled "State Net Operating Loss". With respect to this line item, provide the following information:

a. All supporting documentation for the balance at September 30, 2017 of $2,181,145.

b. A comprehensive discussion describing how this balance was calculated for Division 093.

RESPONSE:

a. Please see Attachment 1.

b. Refer to Attachment 1. The balances shown through 9/30/2016 are the amount of Tennessee income or loss, as reported on the filed state income tax returns for Atmos Energy Corporation. The loss amount for 9/30/2017 is the estimated amount of Tennessee loss for the fiscal year ended 9/30/2017 calculated during the annual provision. The net operating loss deferred tax asset resulting from filed Tennessee state tax returns and FY17 provision is recorded on Division 093.

REQUEST:

Consumer Advocate Request No. 1-03 Attachment 5 sets out the book/tax timing differences for each of the Atmos' Divisions. Within Tab No. 093, there is a line item entitled "State Bonus Depreciation". With respect to this line item, provide the following information:

a. All supporting documentation for the Company's balance at September 30, 2017 of $2,181,145.

b. A comprehensive discussion describing how this balance was calculated for Division 093.

RESPONSE:

a. Please see Attachment 1. The Company notes the amount listed in a., above is $2,181,145 however the amount in No. 1-03 Attachment 5 "State Bonus Depreciation" book/tax timing difference is $2,738,212, not $2,181,145.

b. Refer to Attachment 2. The balances shown through 9/30/2016 are the amount of Tennessee bonus depreciation adjustments, as reported on the filed state income tax returns for Atmos Energy Corporation. The bonus depreciation adjustment for 9/30/2017 is the estimated amount of Tennessee bonus depreciation adjustment for the fiscal year ended 9/30/2017 calculated during the annual provision. The state bonus depreciation deferred tax asset resulting from filed Tennessee state tax returns and FY17 provision is recorded on Division 093.

REQUEST:

Consumer Advocate Request No. 1-03 Attachment 6 - Tab "TN" and Division 093 includes a line item entitled "State Net Operating Loss". This line item in both tabs is categorized as "Non-Plant". Given the Atmos' position regarding the application of the "With and Without Methodology:

a. Provide the Company's comprehensive explanation and reasoning for the designation of the State Net Operating Loss as "Non-Plant" Related.

b. Provide all documents supporting the Company's designation.

RESPONSE:

a. The Company recognizes that a portion of the Tennessee state net operating loss carryfoward is protected by the normalization provisions, since Tennessee tax depreciation exceeds book depreciation. Tennessee has decoupled from the federal bonus depreciation provisions so Tennessee tax depreciation is much lower than federal tax depreciation.

   Although the Company has not performed the computations, it believes that the amount of Tennessee state net operating loss carryforward protected by the normalization provisions using the with and without methodology would be only a portion of the total state net operating loss carryforward. Likewise, only a portion of the excess deferred taxes associated with the Tennessee state net operating loss carryforward would be protected and required to be flowed to customers using RSGM. The remaining regulatory asset for excess deferred taxes for this state net operating loss carryforward would be classified as unprotected or "non-plant."

   The Company has proposed to flow back all excess deferred income taxes over the same period, using RSGM, for administrative ease and customer benefit. Atmos Energy has not sought to recover from customers any regulatory asset for excess deferred taxes more quickly than it proposes to flow back to customers the associated regulatory liabilities.

b. Not applicable.

REQUEST:

The Company's response to the Consumer Advocate Request No. 1-9 reflects the buildup of the NOLC by line item. One of the material line items is entitled the Repairs Deduction (See Reference "FXA44"). Provide:

a. The Repairs Deduction taken by year, and broken down by division for the period 2010 - 2017;

b. Explain the Company's reference to "FXA44" associated with this deduction; and

c. Provide all documents supporting the Company's designation.

RESPONSE:

a. Please see Attachment 1 for the repairs deduction taken in the Tennessee division (093). Repairs are calculated separately for each operating division. The Company does not calculate or allocate repairs from the general office division (091) or from the shared services division.

b. The Company's reference to "FXA44" is merely a Company created code to separately show the repair deduction amount on the Company's Federal Income Tax Return, Form 1120. Please see the Company's response to CPAD DR No. 1-22 for a discussion regarding the inclusion of the repairs deduction related ADIT in the fixed asset cost adjustment ADIT line item. Please note that the book/tax differences for depreciation related to repairs are included in the fixed asset depreciation ADIT line item.

c. All documents supporting the Company's designation have been provided in this and previous responses included in this docket.

	(74,782,275)	

REQUEST:

The Company's response to the Consumer Advocates Request No. 1-15 parts a and b does not specifically identify the particular book/tax timing differences which were recorded to Operating Results in December 2017.

a. Identify each of the timing differences (the tax affected net ADIT Asset (Liability) balance) which were written off as a result of the TCJA.

b. For each timing difference, provide an explanation and reasons supporting the Atmos' conclusion that these balances were not generated in the provision of utility service.

c. Provide all documents supporting the Company's timing differences.

RESPONSE:

a. Please see Attachment 5 to the Company's response to CPAD DR No. 1-03 labeled "TCJA Impacts on Atmos Books 12-31-17.xlsx," "Total TN" tab, Columns L through O for the amounts related to Tennessee operations that were recorded to operating results in December 2017.

b. The Company followed the Approved Methodologies to determine which ADIT balances were not included in rate base. Also, please see the Company's response to CPAD DR No. 1-15 subpart (b).

c. The documents supporting the Company's timing differences have been provided in previous responses included in this docket. Please refer to Attachment 5 provided to the response to CPAD DR No. 1-03, "TCJA Impacts on Atmos Books 12-31-17.xlxs" and the book to tax walk attachments provided in Company response to CPAD DR No. 1-09.

REQUEST:

Refer to Company's response to Consumer Advocate Request No. 1-13, specifically to the description of components of the Company's November 2017 balance of the ADIT:

a. Confirm that it is the Company's position that the Repairs Deduction should fall under the category "Fixed Asset Cost Adjustment".

b. If this is not the Company's position, identify the category(ies) where the Repair Deduction can be found.

c. Provide all documents supporting the Company's position.

d. If Atmos contends that the Repairs Deduction falls under the Category identified as "Section 481(a) Tangible Property Regulations", explain why the Company's position and reasoning given the Regulation was not implemented until 2013, while the Repair Deductions was utilized by Atmos at least as early as 2010.

RESPONSE:

a. Confirmed. The Company does include the ADIT related to the repairs deduction in the fixed asset cost adjustment ADIT line item. Please see the Company's response to CPAD DR No. 1-22 for a discussion regarding the repairs deduction related ADIT.

b. Not applicable.

c. Not applicable.

d. The Section 481(a) adjustment resulting from the Tangible Property Regulations ("TPR") was recorded on the Company's books and records upon enactment of the final regulations, effective for tax years beginning on or after January 1, 2014. This adjustment reflects additional taxable income that the Company is required to recognize on tax returns as a result of conforming to the TPR. Please see the Company's response to 1-13 for a more detailed explanation.

When a change in tax accounting increases taxable income, such as conformity to enacted regulations such as the TPR, the Company is required to recognize a deferred tax liability equal to the full amount of the change at the time of enactment. As the increase to taxable income is recognized on the Company's tax returns in each of the following four years, the deferred tax liability for the 481(a) adjustment is amortized down. The Company's ADIT item for Section 481(a) Tangible Property Regulations simply represents that portion of the deferred tax liability that has not yet been recognized on the Company's tax returns.

Upon enactment of the TPR, the Company was also required to record an adjustment to ADIT to reflect the reduction in repairs-related basis differences. This adjustment was recorded to the fixed asset cost adjustment ADIT line item. Therefore, all basis adjustments relating to the repairs deduction, including the adjustment recorded upon enactment of the TPR, are included in the fixed asset cost adjustment ADIT line item.

REQUEST:

Regarding the Company's response to Consumer Advocate Request No. 1-36, explain how the reimbursable amounts have been reflected within the Company's filing.

RESPONSE:

The reimbursements shown are for the estimated cost of engineering for these projects. Upon completion of the project, the engineering cost will be invoiced to TDOT based on actual dollars spent for that activity. The reimbursement amounts were not reflected in the filing because, at the time of the filing, the public improvement projects had not been approved by TDOT. Time has since passed and these projects have now been approved by TDOT and the Company has completed TDOT Utility Form 2016-13 which figures the reimbursable amount. The reimbursable amounts listed in the Company's response to CPAD DR No. 1-36 were the result of the paperwork completion. In summary, reimbursable amounts were not included in the initial budget which is the basis for the filing due to their unknown status. Like all components of cost of service, they will be included in the reconciliation.

REQUEST:

Identify the year in which Atmos first utilized the Repair Deduction. Provide this response by Division if the deduction was first taken in differing periods.

RESPONSE:

Atmos Energy first utilized the repairs deduction on its fiscal year ended 9/30/2009 federal income tax return.

REQUEST:

Provide a comprehensive and detailed discussion of the steps required to adjust the budgeted period ADIT balances that would be necessary to avoid a normalization violation assuming a given adjustment in budgeted plant in service balances.

RESPONSE:

To avoid a normalization violation, budgeted period ADIT balances need to be recalculated if adjustments are made to the budgeted plant in service balances. The Company would recalculate the budgeted tax cost and tax depreciation and update the FXA01 and FXA02 ADIT balances. Since ADIT is an adjustment to rate base, this would also necessitate a change to the budgeted NOLC balance so that total tax expense included in the filing is equal to net deferred tax expense. The adjustment to the ADIT liability and the NOLC asset (DTA) would satisfy the normalization requirements.

REQUEST:

Provide the docket number(s) in each state in which Atmos operates which it is addressing the impact of the Tax Cut and Jobs Act either in a distinct docket, or as part of a rate case filing.

RESPONSE:

Colorado: Proceeding No. 17AL-0429G; Proceeding No. 18M-0074EG

Kansas: Docket No. 18-GIMX-248-GIV

Kentucky: Case No. 2017-00349; Case No. 2018-00039

Louisiana: Docket Nos. U-34714, U-34803 and R-34754

Mississippi: Docket No. 2018-AD-12

Texas: GUD No. 10695

Virginia: Case No. PUR-2018-00014

REQUEST:

Is it the position of Atmos that due to its requirement to rely upon the Reverse South Georgia Method, it then follows that the Repair Deduction is protected?

RESPONSE:

Confirmed. It is the Company's position that due to its requirement to rely upon the Reverse South Georgia Method, the repairs deduction is plant related and should be subject to the normalization provisions. As stated in the Company's response to CPAD DR No. 1-14, when using RSGM, a taxpayer computes the excess tax reserve on all public utility property included in the plant accounts and amortizes such reserve on the basis of the weighted average life or the composite rate used to compute depreciation for regulatory purposes. The excess tax reserve on all public utility property are those excess deferred taxes created by differences in book and tax methods for depreciable assets. Also described in the Company's response to 1-14, since the Company does not calculate and track accumulated depreciation for assets by vintage, the Company is unable to separate the ADIT related to specific basis adjustments between the amount included in the Fixed Asset Cost Adjustment ADIT item and the Depreciation Adjustment ADIT item.

REQUEST:

Hypothetically, if Atmos' plant records were sufficient to use the Average Rate Assumption Method (ARAM) then the Repair Deduction would be unprotected?

RESPONSE:

Yes, hypothetically, if the Company's records were sufficient to use the Average Rate Assumption Method (ARAM), the repair deduction would not be subject to the normalization provisions. If the Company were able to track the vintage level accumulated depreciation then the records would exist to track and record the individual basis adjustments net of related accumulated depreciation book to tax differences. Since the Company does not calculate and track accumulated depreciation for assets by vintage, the Company is unable to separate the ADIT related to specific basis adjustments between the amount included in the Fixed Asset Cost Adjustment ADIT item and the Depreciation Adjustment ADIT item.

As a reminder (see CPAD DR No. 1-14), Atmos Energy maintains its accounting records in accordance with FERC requirements and Generally Accepted Accounting Principles. Book depreciation is computed using rates approved in the jurisdictions Atmos operates in. In order to use ARAM, Atmos Energy would need to calculate and track accumulated depreciation for assets by vintage. Since the ARAM methodology does not align with the FERC accounting records requirements applicable to Atmos Energy, or the methodology required in Tennessee, Atmos Energy did not create and thus does not possess the types of records necessary to use ARAM. Instead, the RSG must be used.

REQUEST:

Provide a comprehensive discussion addressing the relationship between the ability to qualify for ARAM and the impact it has on the designation of the Repair Deduction.

RESPONSE:

As stated in the Company's response to CPAD DR No. 2-13, if a Company has the vintage level records available to use ARAM, the Company would be able to track all book to tax differences in cost and accumulated depreciation to compute a total ADIT item related to individual basis adjustments. As stated in the Company's response to CPAD DR NO. 2-12, the Company does not have the vintage level detail available to compute accumulated depreciation and the Company is unable to separate out the total book to tax differences attributed to individual basis adjustments. Since the vintage level accumulated depreciation is not separated out in the Company's ADIT items, in order to avoid a normalization violation the alternative method (RSG) is used and applies to all plant related items.

REQUEST:

Provide the calculation supporting the imputed level of stated Net Operating Loss Carryover contained in this budget revenue requirement.

RESPONSE:

The calculation of the NOLC forecast that appears on WP7-1 was the subject of data request CPAD 1-05 in Docket No. 16-00013, which was the docket in which the forecast methodology was adopted as part of the Approved Methodologies. For convenience, the relevant parts of that response are repeated here. The $822,238 in the response below corresponds to the $(3,406,404) in the instant filing. Also, the Company now uses the "iterative calculation" function in excel rather than "goal seek". The results are identical.

In the instant filing, the starting ADIT balance from December 2017 was used (rather than September 2017 which is the end of the Historic Base Period) to properly account for the recalculation of ADIT in December 2017 caused by TCJA.

> "The $822,238 referenced in the request is the amount of change in the NOLC necessary for the total change in ADIT from the Historic Base Period to the Forward Looking Test Year to equal the amount of tax expense included in the Company's cost of service. The amount on line 189 of WP 7-1 is equal to the amount on Schedule 1 line 11 and is the tax expense included in cost of service calculated at the statutory rate. The amount on line 191 of WP 7-1 is the total change in the deferred tax balance between the Historic Base Period and Forward Looking Test Year prior to forecasting the change in NOLC. The $822,238 on line 192 was calculated using the "goal seek" function in Microsoft Excel. The goal seek function was set to make the sum of lines 189 and 194 equal to zero by changing the cell on line 192 in column f (the $822,238 change in NOLC). The goal seek function runs iterations of calculations through all linked cells until the specified criteria (difference between change in ADIT and income tax expense equal to zero) is met. As the footnote on line 207 identifies, because the Company is in a net loss position, all of the tax expense included in cost of service is deferred and therefore must be equal to the total change in deferred taxes (ADIT).
>
> It is important to note that, due to the Annual Reconciliation to Authorized Return on Equity, as defined and described in section VII of the ARM tariff, the forecasted NOLC balance will be replaced by the actual allocable NOLC balance when the Company files the reconciliation. Thus, the ultimate revenue requirement associated with the NOLC balance will be unaffected by the methodology described above, and it ultimately will have no impact on ratepayers."

REQUEST:

Refer to the Company's response to CPAD-1-04. The Company references Attachment 1 to CPAD DR No. 1-03 "TCJA Impacts on Atmos Books 12-31-17". Attachment 1 to CPAD-1-104 is entitled "TCJA 12001(d)". Did you mistakenly identify Attachment 1 but meant Attachment 5 which is identified as "TCJA Impacts on Atmos Books 12-31-1"?

RESPONSE:

Yes. However, the Company notes that Attachment 5 is identified as "CPAD_1-03_Att5 - TCJA Impacts on Atmos Books 12-31-17.xlsx" rather than "TCJA Impacts on Atmos Books 12-31-1" as it is identified in this request.

REQUEST:

Refer to the Company's response to CPAD-1-24. In the first sentence of the response it states "As described in Jennifer Story's Direct Testimony in Docket No. 18-00034 . . . ." However, there is no Direct Testimony filed by Ms. Story in Docket No. 18-00034. Provide the proper reference to Testimony or other document for this response.

RESPONSE:

Upon further review of CPAD DR No. 1-24 regarding the original reference in the first sentence of the CPAD's DR No. 1-24, the Company would note that we did not file a "Petition" in that docket but rather a "RESPONSE OF ATMOS ENERGY CORPORATION TO THE COMMISSION'S ORDER OPENING AN INVESTIGATION AND REQUIRING DEFERRED ACCOUNTING TREATMENT". The proper reference in CPAD DR No. 1-24 should have been "As described in Jennifer Story's Direct Testimony in Docket No. 18-00067,"

REQUEST:

Refer to CPAD-1-35. The Consumer Advocate is unable to locate Attachment #11 which is identified as "2004 Fed Neu Email (0136079x9DAC1)(CONFIDENTIAL).pdf", 2 Pages. It is neither in the paper copy of responses and exhibits nor the recently provided PDF version of the responses to CPAD-1-35.

RESPONSE:

Please see confidential Attachment 11 to the Company's response to CPAD DR No. 1-35. Attachment 11 remains Confidential.

ATTACHMENT:

ATTACHMENT 11 - Atmos Energy Corporation, CPAD_1-35_Att11 - 2004 Fed Neu Email (01736079x9DAC1)(CONFIDENTIAL).pdf, 2 Pages.

REQUEST:

Refer to the Company's response to CPAD-1-44 regarding the approved five-year capital expenditure budget plan for Division 93. Provide a copy of the complete five-year budget plan for Division 93 that supports the proposed capital expenditures detailed in this response for 2018 to 2022.

RESPONSE:

Please see confidential Attachment 1.

ATTACHMENT:

ATTACHMENT 1 - Atmos Energy Corporation, CPAD_3-04_Att1 - Tennessee 5 Year Plan KMD FY 2018 (CONFIDENTIAL).pdf, 3 Pages.

REQUEST:

Refer to the Company's response to CPAD-1-44 regarding the approved five-year capital expenditure budget plan for Division 91. The Company's reply appears to be non-responsive in that it provides no supporting documentation for the 5% budget increase for Division 91 that was requested. Either provide the source and support for the 5% factor used to increase budget amounts for Division 91 or indicate that the Company has no supporting documentation.

RESPONSE:

For the reasons stated in the Company's response to CPAD DR No. 1-44, the Company has no supporting documentation for the 5% factor. Division leadership budgets capital investment in 091 as needed as part of the annual budgeting process.

REQUEST:

Refer to the Company's response to CPAD-1-47 regarding the budgeted O&M increases for labor and non-labor of 3.00% and 0.47% respectively. The Company's reply appears to be non-responsive in that it provides no supporting documentation for these factors. Either provide the source and support for the 3.00% and 0.47% factors used to increase budget amounts for labor and non-labor costs or indicate that the Company has no supporting documentation.

RESPONSE:

Paragraphs 13(h)(i) and 13(h)(ii) of the Settlement Agreement in Docket No. 14-00146 prescribe how the Company shall forecast labor and non-labor expense respectively. The Company's forecast complies with those provisions.

Please see confidential Attachment 1 for the FY 2019 Merit Increase Recommendation from the Company's actuary Willis Towers Watson. The recommendation was approved by senior management in April 2018.

The calculation and documentation for the 0.47% growth factor applied to non-labor is required by the ARM tariff as relied-upon file "m. Inflations Calculation". It was provided in this docket at the time of the application just as it was provided as required in each of the Company's forward looking filings filed pursuant to the ARM tariff.
