6. Assessments.

6.1 Operating Fund. The Association, acting by and through the Board or its designee, shall collect and deposit to any account in the name of the Association all moneys paid to it by way of assessment or otherwise and from which the Association shall make disbursements in performing the functions which the Association performs under this Declaration.

6.2 Maintenance Assessment. Not later than thirty (30) days prior to the commencement of each calendar year, the Association shall estimate the costs and expenses to be incurred by it during the upcoming year In performing its functions, including utility charges, maintenance expenses for the Common Space, amenities, utilities and Shared Access Roads, expenses of enforcement of this Declaration, and professional fees. In so estimating, the Association shall take into consideration the anticipated balance in the operating fund as of the start of such year and the estimated receipts of all assessments, charges, fees and other payments to be collected during the year.

The net estimate, as determined by the Association shall be assessed on a pro-rata basis against all Owners of Tracts.

6.3 Supplemental Assessment. If at any time and from time to time during any year it shall appear that the assessment is or will be inadequate for any reason, including nonpayment by any Owner of the Owner's respective share, the Association may levy a further proportional assessment to all Owners in the amount of such actual or estimated inadequacy. Any supplemental assessments shall be due on terms designated by the Board.

6.4 Payment of Maintenance Assessment. Assessments shall be paid in such manner and on such dates as the Board may establish and in an amount set by the Board, with the said amount being no less than $720 per year, modifiable as deemed necessary. The Board may require advance payment of assessments at closing of the transfer of title to a Tract and impose special requirements for Owners with a history of delinquent payment. If the Board so elects, assessments may be paid in two or more installments. Unless the Board otherwise provides, the Maintenance Assessment shall be

due and payable in advance on the first day of each fiscal year. If any Owner is delinquent in paying any assessments or other charges levied on his or her Tract the Board may require the outstanding balance on all assessments to be paid in full immediately. In addition, the Declarant shall not be deemed responsible for assessments on any Tracts that have not been sold.

6.5 Special Assessments. The Association may also levy a special assessment against any Owner where, as a direct result of such Owner's acts or failure or refusal to act or otherwise to comply with the Covenants or any rules prescribed by the Board, moneys were or will have to be expended by the Association in enforcing the Covenants or rules prescribed by the Board. Such special assessment shall be in the amount to be expended or so expended theretofore and shall be due and payable to the Association when levied and shall include without limitation, engineers', architects', attorneys' and accountants' fees where reasonably incurred by the Association.

6.6 Obligation of Payment. Each assessment (maintenance, supplemental, or special) shall be a separate, distinct and personal debt and obligation of the Owner against whom it is assessed, at the time the assessment is made, and each Owner of any Tract, by acceptance of a deed therefore, whether or not it be so expressed in such deed, is deemed to covenant and agree to timely pay the same to the Association. If the Owner does not pay such assessment, or any installment thereof, when due, the Owner shall be deemed in default, and the amount of the assessment not paid, plus interest at one and one half percent (1 ½%) per month not to exceed, however, the highest rate permitted under Tennessee law plus costs, including reasonable attorneys' fees, shall be and become a lien upon the Tract of such Owner, effective upon and as of the recordation by the Association of a notice of default. Such lien may also include a provision for future assessments, as they become due. The notice of default shall set forth the amount of the delinquent assessment and other charges, a description of the Tract against which the same has been assessed and the name of the record holder thereof. Such lien shall be prior to all other liens filed except that it shall be subordinate to the lien of any previously flied Mortgage on the affected Tract, and the sale or transfer thereof In foreclosure of such Mortgage, whether by Judicial proceedings or pursuant to a power of sale, or the conveyance to the Mortgagee in lieu of foreclosure, shall terminate any lien for nonpayment of assessments which became due prior to such sale, transfer or conveyance, but no such sale, transfer or conveyance shall relieve the delinquent Owner from their personal liability for unpaid assessments then due, nor relieve the purchaser or transferee of the sold Tract from liability for assessments which thereafter become due. Such lien may be foreclosed by the Association in like manner as a Mortgage, including foreclosure by advertisement and sale as provided by Statutes, and the Association shall have the power to bid at any foreclosure sale and to acquire and thereafter hold title to the affected Tract. The foregoing remedies shall be in addition to any other remedies provided by law for the enforcement of such assessment obligation. Upon payment of any delinquent assessment, and any interest and charges in connection with which such notice of default, the Association shall cause to be filed a further notice stating the satisfaction and the release of the lien thereof.

6.7 Estoppel Certificate. Question:

10. Will Thunder Air Inc. furnish and install any additional water infrastructure past the transfer date? If so, will the facilities installed be sold or given to TAWC?

Response:

Thunder Air will not furnish and install any additional water infrastructure past the transfer date within phases 1 and 2, which are covered by the existing asset purchase agreement and bill of sale. Thunder Air Inc is a land developer and may continue to develop additional property within the region. TAWC would utilize existing models to procure future infrastructure adjacent to TAWC facilities in the future. These models were attached to the Joint Petition as Exhibits A and B within the original filing.
