

KINGS CHAPEL CAPACITY

Providing Superior Wastewater Service to Tennessee

19-00015

March 2019

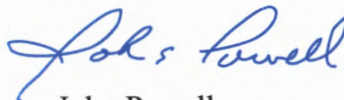

To all customers of Kings Chapel Capacity –

I am writing to let you know that beginning this month, Kings Chapel Capacity will be changing its name to Superior Wastewater Systems.

When we first began providing utility service in 2006, it was more from a real estate developer's point of view, and our current name reflected that thought process. Today, the wastewater service in your neighborhood is a viable stand-alone business on its own, and no longer a sideline of the developer. We think that our new name better reflects this independence and the nature of providing wastewater service to you.

We are looking forward to providing service to you under our new name. If you have any questions about this change or any other aspect of your wastewater service, please let me know.

Sincerely,

John Powell
President
