Details for Notice of Increase in Tap Fees by Cartwright Creek LLC

14 hrs ago

Cartwright Creek LLC, a provider of wastewater services in some areas of Williamson County, has asked the Tennessee Public Utility Commission to permit the utility to increase tap fees from \$5,000 to \$10,000, to be consistent with tap fees charged by the City of Brentwood and to provide revenue needed for repairs and upgrades to the utility's plant.

The increase will only apply to new construction in developments served by Cartwright Creek. A hearing on the request will be held at 1 pm Monday, July 15, 2019 in the ground floor hearing room of the Tennessee Public Utility Commission, 500 Deaderick Street, Nashville, Tenn. A complete copy of the proposed rate change and the reasons for them is on file at the Commission and is open to public inspection. A copy is also available in the offices of Cartwright Creek.
