RE: Minimum Filing Requirement Responses by Navitas TN NG, LLC
Rate Case No.: 19-00057

Dear Ms. Lawless:

Pursuant to Mr. Foster's request, please find enclosed one (1) flash drive (tagged "DOCKETROOM") which has a PDF copy of the Minimum Filing Requirement Responses produced by Navitas TN NG, LLC in rate case number 19-00057. Please note that the documents on this flash drive have been edited for sensitive private information and as such our employee names, addresses, and account numbers have been redacted for privacy purposes so that the PDF file may be used for publication. Please use the electronic file on this flash drive when posting a copy of the Responses to the Tennessee Public Service Commission docket website.

Should you have any questions, please do not hesitate to contact me at (714) 242-4064 or via email at vnovak@navitasutility.com. Thank you.

Sincerely,

Vanessa Novak

Vanessa Novak, Esq.
Navitas Utility Corporation

1. If material to the LDC's cost or level of service in Tennessee, please provide a comprehensive discussion of all abnormal conditions or changes in condition that (a) occurred during the last 3 years or (b) are reasonably anticipated to occur up to the anticipated hearing date in this case. Explain how these changes will affect the LDC's Tennessee operations going forward. This discussion should include, but not limited to the following:

a) Management changes

None.

b) Operational changes

In 2018, Operations Manager, Mr. Flood retired; his safety duties were reassigned to Javan Shaw. In 2018, Javan Shaw retired and his position and his DIMP responsibilities were transitioned to Jerod Shaw.

c) Administrative changes

In April 2018, Navitas' accountant of nine (9) years, Mr. Irwin Jr., resigned from the company and was replaced by Mr. Miranda. In September 2018, Navitas hired a compliance and regulatory attorney, Ms. Novak, to join the corporate office.

d) Recent or pending matters, consolidations, or acquisitions (major changes in sales or transportation volumes)

In March 2019, the Rosenberg system located in the State of Texas was acquired which added 3 miles of pipe and 2 more customers in Houston.

e) Pending negotiations for possible changes in sales or transportation volumes to any current or prospective commercial or industrial customer

None anticipated.

f) Changes in pipeline allocations

Keystone changes the allocation for Byrdstown – commodity effect.

g) Labor contracts and/or union problems

None.

h) Expenses

The costs for ad valorem, gasoline, health care, and labor have increased.

2. State the effect that each of the applicable changes discussed in Item (1) has had or will have on the LDC's, its Parent's, Multi-State Utility's, or Affiliated Utility Service Company's revenues, expenses, rate base, and capital structure, including the LDC's, its Parent's, Multi-State Utility's, or Affiliated Utility Service Company's, method of allocating each change among its regulated, unregulated, and jurisdictional operations.

The total effects of the various factors discussed in Item 1 above in addition to other factors such as DIMP and deteriorating results yield a requested increase of approximately $129,000.

3. Provide a current organizational chart for the LDC and, if applicable, its Parent, Multi-State Utility, or Affiliated Utility Service Company, showing for each officer (or any other key personnel) of the LDC, its Parent, Multi-State Utility, or Affiliated Utility Service Company:

a) The department(s) they head, and
b) To whom they report, from department or office level up. Only officers and key personnel, all or some portion of whose compensation is sought to be recovered from TN ratepayers, must be included in the chart.

An organizational chart of the companies in the Navitas family is included herein. The Navitas companies is divided into sister companies composed of Navitas Assets, LLC and Navitas Utility Corporation. Navitas Assets holds the real assets of the systems (i.e. the pipe in the ground, real property, tenant improvements, etc.) as well as certain other assets (i.e. the right to serve customers, organizational costs, etc.). Navitas Utility Corporation is the operating entity of all the systems. The employees, insurance, personal property (i.e. rolling stock, computers, office equipment, tooling, etc.) are all held in the operating entity.

An organizational chart of all the employees of Navitas Utility Corporation for all its systems is included herein. The chart includes both W-2 employees. The executive management, operations management, accounting, billing, customer service, and meter proving are shared across all the systems including the Tennessee system.

4. Please provide six (6) copies of the Annual Stockholder Reports, the 10K reports, and 10Q reports for the LDC, its Parent, Multi-State Utility, or Affiliated Utility Service Company. If the LDC is an operating division, also provide a current chart of accounts for the Multi-State Utility.

Neither Navitas nor any of its affiliates or sister companies are publicly traded entities and thus did not create the reports requested.

5. If the LDC is a separate entity, provide a current chart of accounts for the LDC and, if applicable, its Affiliated Utility Service Company. If the LDC is an operating division, also provide a current chart of accounts for the Multi-State Utility.

A chart of accounts for Navitas TN NG, LLC as well as a chart of accounts for Navitas Utility Corporation are included herein.

6. Provide copies of all rate case orders for the LDC, its Parent, Multi-State Utility, or Affiliated Utility Service Company issued since the LDC's last rate case or within the past three (3) years, whichever time is shorter.

A copy of the rate case order from Navitas TN NG, LLC's last rate case, Docket 1200068, filed in 2012 and finalized in 2013 is included herein. No rate cases have been filed within the past three years.

7. Provide any costs associated with any employment and/or termination contracts the LDC, its Parent, Multi-State Utility, or Affiliated Utility Service Company has or has had with Management personnel since the last rate filing in TN and provide copies of such.

None.

8. Provide a detailed General Ledger for the latest 24 months for the LDC, its Parent, Multi-State Utility, or Affiliated Utility Service Company.

Navitas will provide electronic files to the email address designated by the Tennessee Public Utility Commission of the general ledgers for the latest 24 months for Navitas TN NG, LLC, its parent Navitas Assets, LLC, its affiliate Navitas Utility Corporation, and Fort Cobb Fuel Authority, LLC with which Navitas TN NG, LLC shares certain balance sheet items.

9. If the LDC, its Parent, Multi-State Utility, or Affiliated Utility Service Company, seeks to recover in its rates to the TN ratepayers any separation payments made under any of the contracts, state the amount of any separation payments since the last rate filing in TN.

No recovery is intended since there have been no separation contracts.

10. Provide a detailed Trial Balance for the last two (2) fiscal years for the LDC, its Parent, Multi-State Utility, or Affiliated Utility Service Company, by month, by account, including adjusting entries and post-closing balances.

Navitas will provide electronic files to the email address designated by the Tennessee Public Utility Commission of the trial balances for the last two fiscal years for Navitas TN NG, LLC, its parent Navitas Assets, LLC, its affiliate Navitas Utility Corporation, and Fort Cobb Fuel Authority, LLC with which Navitas TN NG, LLC shares certain balance sheet items.

11. If not provided in response to other items, provide the latest fiscal year-end Income Statement and Balance Sheet for the LDC, its Parent, Multi-State Utility, or Affiliated Utility Service Company. Provide an explanation of any differences in the year-end Income Statement and Balance Sheet for the LDC, its Parent, Multi-State Utility, or Affiliated Utility Service Company, as set forth in its Annual Report to shareholders and its internal financial statements.

Navitas will provide electronic files to the email address designated by the Tennessee Public Utility Commission of the trial balances for the latest fiscal year-end income statement and balance sheet for Navitas TN NG, LLC, its parent Navitas Assets, LLC, its affiliate Navitas Utility Corporation, and Fort Cobb Fuel Authority, LLC with which Navitas TN NG, LLC shares certain balance sheet items.

12. Provide all detailed work papers, cost studies, or other data supporting all proposed tariff changes, adjustments to revenues, expenses, rate base, and other changes included in the testimony and exhibits filed by the LDC. Provide computer files containing schedules for all computer-based calculations.

Enclosed herein are six work paper spreadsheets regarding revenue deficiency, revenue requirement, operation expenses, required operating income, weighed average of cost of capital, and rate base.

13. Provide a detailed list of all the LDC's affiliated party transactions for the past two (2) years, including the nature and amount of each transaction.

In general, there are three related party transactions each month. The first is the billing from the system operator, Navitas Utility Corporation. The second is the rent payment to Fort Cobb Fuel Authority, LLC. The third is rent payment to Navitas Assets, LLC. The supporting documentation for these transactions is included herein.

14. Provide a list of outside professional services, as recorded in NARUC Account No. 923, provided to the LDC for the past two (2) years, showing the nature of each service and the total charge for each service.

Provided herein is a list of outside professional services utilized by Navitas Utility Corporation for the past two years.

15. Provide a list of the LDC's customer service initiatives, performance measures, including a description and analysis of the effectiveness of each for the last two (2) years. If applicable, the analysis should include, but not be limited to, time to connect the customer to the system, response time to service inquiries, restoring of service, new meter installations, billing inquiries, meeting appointment times, etc. If you have identified other areas that you monitor, include them in this response.

As a very small utility, Navitas does not have the resources to compile the statistics contemplated in this request; however, Navitas has not needed to monitor such items as response times because traditionally call-ins of any nature are addressed the day they occur. Often customers call their service person directly without going through the customer service office. The rural service model under which Navitas operates is one where a particular service person is fully and completely responsible for all field service aspects of the customers under their purview.

16. Provide support for all statistics referenced in all testimony filed by the LDC in this case.

If and when statistics are referenced, a source will be cited.

BEFORE THE TENNESSEE REGULATORY AUTHORITY AT

NASHVILLE, TENNESSEE

April 18, 2013

IN RE:	)	
	)	
PETITION OF NAVITAS TN NG, LLC FOR A GENERAL RATE INCREASE	)	**DOCKET NO. 12-00068**

ORDER APPROVING SETTLEMENT AGREEMENT WITH MODIFICATIONS

This matter came before Chairman James M. Allison, Vice-Chairman Herbert H. Hilliard, and Director Kenneth C. Hill of the Tennessee Regulatory Authority (the "Authority" or "TRA"), the voting panel assigned to this docket, at a hearing held on January 7, 2013 and February 13, 2013 for consideration of the *Petition for an Adjustment to its Natural Gas Rates and Approval of Revised Tariffs* ("*Petition*") filed by Navitas TN NG, LLC ("Navitas") on July 2, 2012.

BACKGROUND AND PETITION

On July 2, 2012, Navitas, a natural gas local distribution company under the jurisdiction of the Authority, filed a *Petition* requesting a general rate increase of approximately $390,000 annually for its service to the communities of Jellico and Byrdstown, Tennessee, and the County of Fentress, Tennessee.[1] At a regularly scheduled Authority Conference held on August 20, 2012, the voting panel assigned to this docket voted unanimously to convene a contested case proceeding and appoint General Counsel or her designee as Hearing Officer for the purpose of preparing the case for hearing before the panel, including making an initial determination on the commencement of the six-month statutory deadline under Tenn. Code Ann. § 65-5-103.[2] On July 6, 2012, the Consumer Advocate and Protection Division of the Office of the Attorney General ("Consumer Advocate")

[1] *Petition,* p. 4, ¶ 8 (July 2, 2012).
[2] *Order Convening a Contested Case and Appointing a Hearing Officer* (September 7, 2012).

filed a *Petition to Intervene* in the proceedings. At a Status Conference held on August 20, 2012, the Hearing Officer granted the Consumer Advocate's *Petition to Intervene,* deferred consideration of certain requests for *Pro Hac Vice,* and ruled that the commencement date of the six-month statutory deadline is August 7, 2012.[3]

January 7, 2013 Hearing

On December 17, 2012, the parties filed a *Stipulation and Settlement Agreement* ("*Settlement Agreement*") to be considered for approval by the Authority. Then, on January 7, 2013, the parties filed an *Amendment to Stipulation and Settlement Agreement Dated December 17, 2013* ("*Amendment*") (together with the *Settlement Agreement*, the "*Amended Agreement*"). The *Amended Agreement* is attached as Exhibit 1, and its terms and conditions are specified therein. During the hearing, which was convened on January 7, 2013, as noticed, the panel heard from the parties concerning the *Amended Agreement*. Participating in the Hearing were the following parties and their respective attorneys:

For Navitas:
Klint W. Alexander, Esq., Wyatt, Tarrant & Combs, LLP, 2525 West End Avenue, Suite 1500, Nashville Tennessee 37203;

For the Consumer Advocate:
John J. Baroni, Esq. and Charlena Aumiller, Esq., Office of the Attorney General, Consumer Advocate and Protection Division, 425 5th Ave. N, John Sevier Building, P.O. Box 20207, Nashville, TN 37243.

The Consumer Advocate presented a brief summary of the *Amended Agreement* on behalf of the parties. The Consumer Advocate stated that the *Amended Agreement* sets the revenue deficiency for Navitas at $231,703 and proposes that the increase be phased in over two steps.[4] Approximately 56% of the increase would take effect upon approval of the *Amended Agreement* by

[3] *Order on August 20, 2012 Status Conference* (September 11, 2012).
[4] *See Transcript of Authority Conference*, p. 11 (January 7, 2013).

the TRA, and the remaining 44% would become effective with the billing period of October 2013.[5] In addition, for purposes of the *Amended Agreement*, the parties also agreed on the rate base, the rate of return, the capital structure, and the methodology for allocating expenses.[6] The Consumer Advocate explained that the *Amended Agreement* did not include a tariff, but does include various consumer protection measures that the parties recommend be included in the tariff.

Thereafter, because the *Amendment* was filed on the day of the hearing, the panel voted unanimously to defer further discussion and consideration of the *Amended Agreement* to a future Authority Conference in order to allow sufficient time for review.[7]

February 13, 2013 Authority Conference

A *Notice of Re-convening Hearing* was issued on January 15, 2013 stating that the panel would reconvene the hearing in this matter on February 13, 2013 to consider the *Amended Agreement.*[8] On February 12, 2013, Chairman Allison filed a motion ("*Chairman Allison's Motion*") on the *Amended Agreement* that he planned to make during the upcoming Authority Conference.[9] Chairman Allison's pre-filed motion is attached as Exhibit 2. During the hearing, Chairman Allison read his pre-filed motion into the record. *Chairman Allison's Motion* accepts the *Amended Agreement* with a few minor modifications and also contains a request to the parties regarding rate design.[10] Among other changes, one provision of *Chairman Allison's Motion* deletes Paragraph 21 of the *Amended Agreement,* which would have allowed similarly-situated customers within a specific class to pay different monthly rates for natural gas.[11] *Chairman Allison's Motion* also directs Navitas to file in the docket file its signed contract with the consultant, Tri-Star Energy, once it is executed, along with all documentation to support the recovery amount. After the contract

is executed, the Authority will review the information and make a final ruling on the costs.[12] Based on the information contained in the record, the panel voted unanimously to approve *Chairman Allison's Motion.* Both the Consumer Advocate and Navitas agreed to accept the modifications to the *Amended Agreement* approved by the TRA.

IT IS THEREFORE ORDERED THAT:

1. The *Stipulation and Settlement Agreement*, which was entered into between Navitas TN NG, LLC and the Consumer Advocate and Protection Division, as amended and as modified by the TRA, copies of which are attached to this Order as Exhibits 1 and 2, is approved and adopted, and incorporated into this Order as if fully rewritten herein.

2. Navitas TN NG, LLC shall file a tariff that complies with the *Stipulation and Settlement Agreement*, as amended by the parties and as modified and approved by the Authority, within thirty (30) days of the date of this Order.

3. Any party aggrieved by the decision of the Tennessee Regulatory Authority in this matter may file a Petition for Reconsideration within fifteen (15) days of the date of this Order.

4. Any party aggrieved by the decision in this matter has the right to judicial review by filing a Petition for Review in the Tennessee Court of Appeals, Middle Section, within sixty (60) days of the date of this Order.

Chairman James M. Allison, Vice-Chairman Herbert H. Hilliard, and Director Kenneth C. Hill concur.

ATTEST:

Earl R. Taylor, Executive Director

IN RE:	)	
	)	
PETITION OF NAVITAS TN NG, LLC	)	
FOR AN ADJUSTMENT TO ITS	)	**Docket No. 12-00068**
NATURAL RATES AND APPROVAL OF	)	
REVISED TARIFFS	)	

STIPULATION AND SETTLEMENT AGREEMENT

For the sole purpose of settling this case, Tennessee Regulatory Authority ("TRA" or "Authority") Docket No. 12-00068, Robert E. Cooper, Jr., the Tennessee Attorney General and Reporter, through the Consumer Advocate and Protection Division ("Consumer Advocate" or "CAPD") and Navitas TN NG, LLC ("Navitas" or "Company") respectfully submit this Stipulation and Settlement Agreement ("Settlement Agreement"). Subject to Authority approval, the Consumer Advocate and Navitas (collectively, the "Parties") agree to the following:

BACKGROUND

1. Navitas is a Tennessee limited liability company under the laws of the State of Tennessee and is engaged in the transportation, distribution, and sale of natural gas service to approximately 551 customers residing in Campbell County, Tennessee and Whitley County, Kentucky (the "Jellico System"),[1] Pickett County, Tennessee (the "Byrdstown System") and

[1] By Order of the Public Service Commission of the Commonwealth of Kentucky dated August 13, 1990, service to Kentucky residents in Kentucky Hill and Black Oak in Whitley County, Kentucky is effective under the jurisdiction of the TRA as part of the Jellico Distribution System.

Fentress County, Tennessee (the "Fentress System").[2] Navitas also furnishes natural gas to approximately 145 customers located in Clinton County, Kentucky (the "Albany System").[3]

2. Navitas is a public utility pursuant to the laws of Tennessee, and its public utility operations are subject to the jurisdiction of the TRA.[4] Navitas is a wholly-owned subsidiary of Navitas Assets, LLC, a Delaware limited liability company. The principal office and place of business of Navitas is located at 3186D Airway Avenue, Costa Mesa, California 92626. Local offices are maintained at 613 Sunset Trail, Jellico, Tennessee 37762 and 9825 Hwy 111, Static, Tennessee.[5]

2011 DOCKET

3. On December 30, 2010, the TRA issued an Order in TRA Docket 10-00220 approving the transfer of control of the utility systems of Gasco Distribution Systems, Inc. ("Gasco"). At the time of the acquisition by Navitas of Gasco, Gasco operated as Debtor in Possession while in proceedings before the United States Bankruptcy Court for the Southern District of Ohio, Eastern Division.[6] Navitas adopted all of Gasco's existing tariffs.[7] Gasco's last rate case was filed in 1993; there has been no increase in Gasco's rates since that time.

4. On April 20, 2011, Navitas filed a Petition for Emergency Relief in which the Company sought approval to increase the rates paid by Tennessee consumers. Since acquiring the system formerly held by Gasco, Navitas has been operating at a substantial loss. The Petition sought to implement a monthly customer charge of $6.00 and a charge of $1.00 per 9 Ccf per

[4] *Id. See also* Amended Proposed Settlement Agreement ("2011 Settlement") attached to Order at paragraph 1; *see also* Chapter 4 of Title 65 of the Tennessee Code Annotated.
[5] *Id.* at paragraph 2.
[6] Gasco filed for Chapter 11 bankruptcy protection (Case No. 09056171) in the United States Bankruptcy Court for the Southern District of Ohio, Eastern Division, on June 1, 2009.
[7] *See* 2011 Settlement at paragraph 3.

month. The relief sought was estimated to reduce the operating losses of Navitas from $159,000 to $62,000. By that filing, Navitas did not seek to cure the entire revenue deficiency it claimed it was incurring nor seek to make any return on its investment.[8]

5. On May 5, 2011, the Consumer Advocate filed a petition to intervene to investigate the need for emergency relief sought by Navitas and the impact of such relief on Tennessee consumers. After informal discovery and review, Navitas and the Consumer Advocate undertook settlement discussions and ultimately entered into a Settlement Agreement on July 14, 2011, which was approved by the TRA on December 1, 2011 ("2011 Settlement and 2011 Order").[9]

6. Among other things, the 2011 Settlement and Order provided for an increase to customer charges and volumetric rates; that such increases were temporary pending Navitas filing a formal rate case by a date certain; and that the temporary rates would expire at the conclusion of the rate case when the TRA puts new rates into effect.[10] Pursuant to the 2011 Settlement and Order, Navitas filed its current Petition in this Docket on a timely basis.

CURRENT DOCKET

7. On July 2, 2012, Navitas TN NG, LLC ("Navitas") filed its current Petition for an Adjustment to Its Natural Gas Rates and Approval of Revised Tariffs filed with the TRA ("Petition"). In that filing, Navitas claimed a revenue deficiency and sought an increase in its annual revenues of approximately $390,000.

8. On July 6, 2012, the Consumer Advocate filed a petition to intervene. By order dated September 11, 2012, intervention was granted.

---

[8] *See* 2011 Settlement at paragraph 4.
[9] *See supra* 2011 Order and 2011 Settlement.
[10] *Id.*

9. The Consumer Advocate filed direct testimony on November 21, 2012, raising concerns regarding several aspects of the Company's proposed rate increase. The $390,000 increase in revenues that Navitas requested was based on several assumptions.

First, Navitas used only eleven months of costs and revenues calculate additional revenue it needed annually. The Consumer Advocate adjusted the Company approach to follow the standard procedure of utilizing twelve months of actual data to accurately reflect the revenue necessary to operate a utility.

Second, Navitas requested recovery of capital expenditures typically disallowed by the Consumer Advocate, including organizational costs to acquire the company and legal expenses associated with the 2011 emergency tariff petition. Although the Consumer Advocate excluded these costs, it included capital expenditures expected for replacing meters and pipe extensions.

Third, the request by Navitas assumed many costs would be allocated to Tennessee on a customer allocation method. For some of these costs, the Consumer Advocate identified direct costs and disallowed direct costs that did not benefit customers of Navitas TN NG, LLC. For other costs that could not be easily identified as direct costs with the information available, the Consumer Advocate utilized a customer allocation method for customer-driven costs and a blended allocation method for all other indirect costs.

With the exception of including certain costs that affect rate base that came to light in Company's Rebuttal Testimony filed November 30, 2012, after the Company filed its petition, discovery, and after the Consumer Advocate filed its testimony, the Consumer Advocate excluded costs that were not identifiable in the rate case as a direct or indirect benefit to Navitas TN NG, LLC.

Finally, this Settlement Agreement includes terms to make future rate cases more transparent as to what costs apply directly or indirectly to Navitas TN NG, LLC to help ensure all costs benefiting Navitas TN NG, LLC—and only those costs—are readily identifiable in the rate filing so all Parties can consider them throughout the proceeding. In Tennessee, the utility has the obligation to present any and all information to enable the rate-setting process. Such information must be presented timely and clearly to allow thorough consideration and analysis by all parties. The implementation of the terms in the settlement are intended to minimize the need for requests to adjust rates that become readily identifiable only after some parties have filed testimony.

10. While the Consumer Advocate prefers that rates not increase for ratepayers especially in this difficult economic climate, the increase as defined by this Settlement Agreement represents the Consumer Advocates's proof to which Navitas has agreed with only the adjustment for some circumstances that affect rate base that were brought to light only after the Consumer Advocate filed its testimony.[11] As will be set forth further below, entering into this Settlement Agreement reduces the rate case expenses for the impacted customers, provides for a three year "phase-in" of the rate increase, and provides important consumer protection provisions.

11. The Parties to this Settlement Agreement have engaged in substantial discovery. The Company also has provided information informally in response to questions from the

[11] The Consumer Advocate's testimony was based on data it had at the time its testimony was due. Navitas submitted additional data with the Rebuttal Testimony of Thomas Hartline on November 30, 2012. When data is presented after filing the petition and after discovery, it is impossible for such data to be considered at the time of testimony. The adjustments to rate base include some of the data in the Rebuttal Testimony. The rate case process depends on full disclosure of all information that supports a change to existing rates in the initial petition or otherwise provided to all parties during discovery to enable thorough analysis and consideration prior to filing testimony. Presentment of data after discovery and parties file testimony reduces the transparency of the rate case.

Consumer Advocate and its witnesses, and it has responded to additional discovery requests from TRA Staff.

12. The Parties have undertaken extensive discussions and "give and take" negotiations to resolve all known disputed issues in this case. As a result of the information obtained during discovery and the discussions between the Parties, and for the purpose of avoiding further litigation and resolving this matter upon acceptable terms, the Parties have reached this Settlement Agreement. In furtherance of this Settlement Agreement, the Parties have agreed to the settlement terms set forth below.

SETTLEMENT

13. Based upon the exchange of information and discussions described above, and in order to resolve this case through settlement and avoid the need for further litigation and expenses for all Parties and without waiving any positions asserted in this docket, the Parties have agreed to certain adjustments to the Company's Petition, which are discussed herein.

14. **Revenue Deficiency:** This Settlement Agreement results in adjustments to the Company's filed case collectively reduce the Company's attrition period revenue deficiency from $390,000 to $272,601. This will be an overall increase in revenue billed to customers in the test year ended March 31, 2012 (including purchased gas) of approximately 63% rather than the 81% increase sought by Navitas as described by Navitas in its Petition. The residential customer charge will have a "phased in" increase from $6.00 to $9.00 over the time period ending December 31, 2014. Subject to Authority approval, the Parties agree that this revenue deficiency is reasonable and appropriate for the limited purpose of resolving this docket.

15. **Revenue Requirement:** The Parties agree that the Company's attrition period cost of service should include the components set forth on Exhibit A hereto, which the Parties agree are fair and reasonable to the Company and its customers for limited purpose of settling this docket, and which include the following:

A. Required Operating Income of $72,047;

B. A rate base of $827,560;

C. An overall rate of return of 8.71% on rate base;

D. A return on common equity of 15.4%;

E. A capital structure consisting of 4.26% short-term debt, 67.50% long-term debt, and 28.24% equity;

F. A cost of short-term debt of 6.89%;

G. A cost of long term debt of 6.02%;

H. An attrition period revenue deficiency of $272,601;

I. That rate case expenses incurred in 2012 will be amortized over a period of four years.

J. The attrition year is the twelve months ended December 31, 2013.

K. The test year to evaluate rate base is the twelve months ended December 31, 2011.

L. The test year to evaluate revenue and expenses is the twelve months ended March 31, 2012.

In addition, the Parties agree to the following:

16. **Chart of Accounts:** Navitas agrees to transition to the NARUC USOA method of utility accounting effective January 1, 2013, and that future rate cases will be submitted using those guidelines. Navitas will submit the proposed chart of accounts and seek written comment from the Consumer Advocate and the TRA.

17. **Accounting for direct costs:** Navitas agrees to immediately begin accounting for costs that are specific to various systems (e.g. uniforms, labor dedicated to certain facilities,

travel, consulting services dedicated to certain facilities). Navitas will submit the proposed direct costs accounting and seek written comment from the Consumer Advocate and the TRA. The Parties agree that any comments by the TRA Staff or Consumer Advocate regarding how to track costs are not precedential and are not an endorsement of whether such costs are prudent, reasonable, necessary, or proper for setting rates. Additionally, the process discussed in this paragraph does not include the determination of allocation methods (e.g., customer allocation, Consumer Advocate's blended rate, and Navitas's customer density per mile). Any allocation methods applied to indirect costs for this Settlement Agreement apply only to this Settlement Agreement. Nothing in this Settlement Agreement binds either party to an allocation method for setting rates in the future.

18. To help implement procedures to track direct costs, Navitas will submit the following items:

(A) Within 30 days of approval of this Settlement Agreement, Navitas will submit to the Consumer Advocate and the TRA Staff a list of all its costs, preferably in a manner that is traceable to the Chart of Accounts, and indicate:

(1) what the cost is;

(2) who records the cost;

(3) how often the cost is incurred (e.g., daily, monthly, annually);

(4) how often the cost is recorded to the system (e.g., daily, monthly, annually);

(5) whether the cost is attributable to a specific system or state;

(6) whether the cost is presently recorded to the specific system (e.g., Navitas TN NG) or if it is presently recorded to an account that is allocated as an indirect cost;

(7) whether Navitas believes it can track the cost as a direct cost or if the cost can only be tracked as an indirect cost; and

(8) if tracked as an indirect cost, why such indirect cost allocation is preferable to direct cost accounting.

(B) The Consumer Advocate and the TRA Staff will review the list and consider whether these costs appear appropriate for indirect allocation. The Parties will work together to try and resolve any difference of agreement. If the Parties cannot agree and the Consumer Advocate or TRA Staff believes a cost could be tracked directly to various systems or states relatively easily, Navitas agrees to try to track the costs directly with all the other costs within 90 days of this Settlement Agreement for three months (i.e., months that have been closed) or until it submits its list of accounts with method of accounting as discussed in (C) of this paragraph, whichever is later.

(C) Within 90 days of the approval of the Settlement Agreement, Navitas agrees to begin accounting for direct costs, including those costs that it believes are better tracked as indirect costs but the Consumer Advocate or TRA Staff request Navitas to attempt to track directly discussed in (A) of this paragraph.

(D) Within 200 days of approval of this Settlement Agreement, Navitas agrees to provide a list of accounts to the Consumer Advocate and the TRA Staff and indicate whether Navitas will track the account as a direct cost or an indirect cost that requires allocation. This list will look similar to the list described in (A) of this paragraph; however, the list will be updated as to whether it will be tracked as a direct or indirect cost based on Navitas's experience in tracking direct costs discussed in (B) of this paragraph. For any accounts that Navitas submits as requiring indirect cost allocation, Navitas will also provide a description of (1) what drives the costs to that account (e.g., customer-driven cost like customer service, maintenance driven costs, like maintenance labor); and (2) why it believes costs in that account are too cumbersome to track for each system, including any discussion of what problems it experienced when actually attempting to track the direct costs.

19. **Rates:** The Parties agree that the rate design and rates reflected on Exhibit B are fair and reasonable and appropriate for the limited purpose of resolving this proceeding.

20. **Rate Phase-In:** Effective upon approval by the TRA, rates will be implemented to increase Navitas's annual revenue by $272,601 and to produce a rate of return not to exceed 8.71%. In its initial Petition at question 9, Navitas proposed a "phase-in" of its proposed rate increase ("In order to avoid rate shock, Navitas proposes to divide the rate increase into four increments implemented annually beginning October 1, 2012."). This settlement amount of $272,601 will be "phased-in" in for existing customers in three steps as follows:

A. The first step of the rate increase ($113,471) goes into effect the first day of the first full billing period after approval by the TRA.

B. The second step of the rate increase ($88,652) goes into effect the first day of the first 2014 billing period.

C. The third step of the rate increase ($70,480) goes into effect the first day of the final 2014 billing period.

The increase in the first phase permits the Company to cover the estimated $295,935.68 in operating expenses that will affect the Company's cash flow.[12] The increase in the second phase permits the Company to break even on cash and non-cash expenses. The increase in the third phase permits the Company to earn what it believes is a reasonable rate of return.

21. The phase-in provision set forth in paragraph 20 applies only to customers that exist as of the date of approval of this Settlement Agreement. The rates in the third step apply to all new customers after the approval of this Settlement Agreement. As used herein, new customers include those customers who return after disconnecting service and will also be charged the Reconnection Fee, discussed in paragraph 25(f). Customers who have been disconnected from service because they could not pay their bills should not be considered "new

[12] The Company's estimated cash expenses, as shown on Schedule 4.A, are total expenses less the non-cash expenses of bad debt, customer discounts, and depreciation and amortization (for Navitas TN NG, LLC, shown on Schedule 4.A. and NUC, shown on Schedule 4.A.1).

customers" under this paragraph, and such customers should continue to receive the phase-in rates.

22. If Navitas files for a new rate case at any point during the phase-in period, the phase-in will cease and any phase-in not yet implemented at the time of the rate case will not be applicable to the determination of rates in that proceeding.

23. The Company will clearly and conspicuously notify its customers of the approved rate increase and effective date in a clear and conspicuous manner via mail. Additionally, the Company will provide subsequent clear and conspicuous reminder notices to all impacted customers at least 30 days before each phase-in increase.

24. **Amended Tariff:** This Settlement Agreement does not include any amended tariffs or service regulations.

25. The Parties further agree that the rate increase requests of the Company, filed as a result of this Settlement Agreement, will also include the following tariff changes and requirements for the protection of ratepayers:

A. Budget Repayment Plans. Simultaneous with the rate increase, the Company shall establish and implement a process to offer a budget repayment plan to its customers to pay any past due amounts and any associated charges. Specifically, the Company shall provide their customers with the opportunity (and notify those in need of the budget repayment plan program) to pay the past due bill, including returned check fees and other charges, disconnection and reconnection charges in a payment plan, with no interest, over no less than a three (3) month billing cycle. The Company shall be ordered to only require that the customer pay the first installment payment in order to have service restored. The Customer will also be required to participate in the level pay plan for a period of one-year. If a customer on a payment plan fails to pay a monthly installment as per the terms of the plan and is more than fifteen (15) business days late on any payment, then the

customer's service is subject to disconnection and all past due charges in addition to disconnect/reconnect fees would be due and payable prior to having service restored. The Company shall be required to provide all the same disconnection notices required for any disconnection prior to disconnecting the customer.

B. Clear Notice of Returned Check Fees. Returned check fees can be charged only if Navitas had a tariff approved prior to this Settlement Agreement. For any returned check fees authorized prior to this Settlement Agreement, the Company shall provide a clear and conspicuous notice of any returned check fee charge and other charges and fees, including the amount of the charge, on its monthly billings to customers.

C. Ability to Waive Fees. The Company shall implement and establish a process to permit waiving all fees associated with late or temporary inability to pay payment including, but not limited to, disconnection, reconnection, and late fees, in special circumstances such as financial distress, military deployment or for disabled customers, family members of customers or customers with a unique situation.

D. Prompt Reconnection. The Company shall provide prompt and timely reconnection service for all customers within no more than two (2) days of receiving the first installment payment from the past due customer.

E. Alternate Address Notification. The Company shall establish and implement a process to permit and notify customers of the opportunity to provide an alternate address for notification of a potential disconnection. If a customer has provided such an alternate address, the Company shall be required to provide the required notice of disconnection to that address in addition to the customer's primary billing address.

F. Reconnect Fee. The Company shall be allowed to charge a reconnect fee of six months multiplied by the applicable customer charge at the time of reconnection

for customers who, while at the same address, disconnect service for two or more months within a twelve month period. The maximum reconnect fee permitted under the rates in this Settlement Agreement is $54 (fifty-four dollars) for residential and commercial customers, and $84 (eighty-four dollars) for industrial, public, and institutional customers.

26. As part of the terms of this Settlement Agreement, Navitas agrees to submit quarterly capital expenditure reports within 45 days after each quarter ends to the Consumer Advocate and TRA staff. The year-end reports will be a cumulative report of capital expenditures (completed or in-progress) for the entire year.

(A) The first report should identify each capital asset separately, and report the asset in one of two sections: (1) assets that are in service; and (2) capital expenditures for assets that were in progress and not yet in service as of the date of the report. The report should also provide the following information:

(1) Assets in service:

a. a brief description as to what each capital asset is (e.g., number of meters replaced, extended pipes to add 3 customers);
b. the date the capital asset was put in service; and
c. the amount spent as of the date of the report for the year.

(2) Capital expenditures for assets that will be in service after the mid-year and year-end reporting dates (i.e., construction in progress):

a. a brief description as to what each capital asset is;
b. the amount spent as of the date of the report for the year;
c. the estimated amount to complete the project; and
d. the expected date the asset will be in service.

(B) After the each quarterly report of the first year after the approval of this settlement, Navitas, the TRA Staff, and the Consumer Advocate may discuss any changes to the report (e.g., enhancements, changes to make the report less

cumbersome). Any changes shall be agreed upon by all parties prior to alteration of future reports.

27. In light of the settlement terms as a whole and for the sole purposes of this Settlement Agreement, the Parties agree that the revised rates, tariffs, rate schedules, and service regulations agreed to herein, both individually and in the aggregate, are fair and reasonable for the limited purposes of this Settlement Agreement to all customer classes and will provide Navitas with a reasonable opportunity to recover the agreed upon operating revenue requirement and a reasonable rate of return on investment.

28. All pre-filed testimony, rebuttal and exhibits of the Parties are introduced into evidence without objection, and the Parties waive their right to cross-examine all witnesses with respect to all such pre-filed testimony. If, however, questions should be asked by any person, including a Director, who is not a party to this Settlement Agreement, the Parties may present testimony and exhibits to respond to such questions and may cross-examine any witnesses with respect to such testimony and exhibits.

29. The Parties agree to support this Settlement Agreement before the Authority and in any hearing, proposed order, or brief conducted or filed in this proceeding; provided, however, that the settlement of any issue provided for herein shall not be cited as precedent by any of the Parties hereto in any unrelated or separate proceeding or docket before the Authority. The provisions of this Settlement Agreement are agreements reached in compromise and solely for the purpose of settlement of this matter. They do not necessarily reflect the positions asserted by any party, and no party to this Settlement Agreement waives the right to assert any position in any future proceeding, in this or any other jurisdiction. None of the signatories to this Settlement Agreement shall be deemed to have acquiesced in any ratemaking or accounting methodology or

procedural principle, including without limitation, any cost of service determination or cost allocation or revenue-related methodology.

30. This Settlement Agreement shall not have any precedential effect in any future proceeding or be binding on any of the Parties in this or any other jurisdiction except to the limited extent necessary to implement the provisions hereof.

31. The Parties agree and request the Authority to order that the settlement of any issue pursuant to this Settlement Agreement shall not be cited by the Parties or any other entity as binding precedent in any other proceeding before the Authority or any court, state or federal.

32. The terms of the Settlement Agreement have resulted from extensive negotiations between the signatories and the terms hereof are interdependent. The Parties jointly recommend that the Authority issue an order adopting this Settlement Agreement in its entirety without modification.

33. If the Authority does not accept the settlement in whole, the Parties are not bound by any position or term set forth in this Settlement Agreement. In the event that the Authority does not approve this Settlement Agreement in its entirety, each of the signatories to this Settlement Agreement will retain the right to terminate this Settlement Agreement. In the event of such action by the Authority, within twenty (20) business days, any of the signatories to this Settlement Agreement would be entitled to give notice of exercising its right to terminate this Settlement Agreement; provided, however, that the signatories to this Settlement Agreement could, by unanimous consent, elect to modify this Settlement Agreement to address any modification required by, or issues raised by, the Authority. Should this Settlement Agreement terminate, it would be considered void and have no binding precedential effect, and the

signatories to this Settlement Agreement would reserve their rights to fully participate in all relevant proceedings notwithstanding their agreement to the terms of this Settlement Agreement.

34. In the event that any party and/or the Authority requires that hearings go forward, then the Parties agree that the Parties will jointly move the Authority for the establishment of a procedural schedule that would permit the Parties to obtain responses to any outstanding discovery and to submit evidence and testimony that has not been submitted as a result of reaching this Settlement Agreement.

35. By agreeing to this Settlement Agreement, no Party waives any right to continue litigating this matter should the Settlement Agreement be rejected by the Authority in whole or in part.

36. No provision of this Settlement Agreement shall be deemed an admission of any Party. No provision of this Settlement Agreement shall be deemed a waiver of any position asserted by a party in this docket.

37. Approval by the Authority of the provisions of this Settlement Agreement shall not be construed as a waiver of the Authority's decisions in any rate case or policy decision or constitute an endorsement of any ratemaking methodology by the Authority.

38. This Settlement Agreement shall be governed by and construed under the law of the State of Tennessee and any applicable federal law, Tennessee choice of law rules notwithstanding.

The foregoing is agreed and stipulated to this 17th day of December, 2012.

* Per Navitas's Quickbooks reports.

A/ The Settlement adjustments to the NUC-Crews expense amount to calculate the fair and reasonable expenses allocated to TN for the attrition year are shown on CAPD Exhibit, Schedule 4.A.1.

B/ To remove the expenses related to intercompany charges by NUC to TN for meter fees of $3.00 per meter. The meters should be recorded in TN's fixed assets and depreciated in TN's books. See Note B on Schedule 2.A.1.

C/ To adjust depreciation expenses for the meters and the expected 2012 and 2013 capital expenditures, as well as include the amortization of the Plant Acquisition Adjustment. See Schedule 4.A.2.

D/ To include amortization for organizational costs, the unamortized portion of the 2011 rate case expenses, and the 2012 rate case expenses. See Amortization Schedule, Schedule 4.A.3.

E/ To reduce the amount of postage by the 5% markup amount erroneously applied to expenses directly charged from NUC to TN.

F/ Per review of the account details of account #6495, Bad Debt Expense,$6,178.09 of the expenses from 4/1/2011 to 3/31/2012 related to a write off of $6,178.95 to clean up of bad debt receivables that were on Gasco's books and probably should have been written off before the purchase by Navitas. Per review of the account details for 2012 and discussions with Navitas, the 2011 write off was an aberration. The Settlement adjusted this account so that the 2013 expenses would reflect the 2012 bad debt expense as of 11/16/2012 of $2,347.25, as annualized.

G/ Per Inflation Schedule, Schedule 4.A.6.

* Per Navitas's Quickbooks reports.

A/ Settlement took the $1,595,588 in employee and outside labor and allocated labor in TN, which is shown on Labor, Schedule 4.A.4. The remainder of the charges of $110,654 were for uniform services that had aspects of the location incurring the costs of the uniform services as well as monthly charges to Volunteer Trenching to be available for back up services. These non-labor charges will be considered for tracking directly to the benefiting systems for future rate cases.

B/ The charges to this account are primarily expenses that are later capitalized to specific systems. The balance in this account reflects the timing differences between the expense and the time of capitalization. It is essentially a CWIP account that can apply to any of the systems. The Settlement reduces the indirect allocation costs for CWIP and estimated capital expenditures for Tennessee in Schedule 2 and 2.A. Per the terms of the Settlement, the charges to this account will be considered for tracking costs directly to the benefiting system in separate accounts.

C/ To remove the depreciation expense recorded in the activity for the indirect allocations and add the estimated depreciation expenses for the meters in Tennessee expected for 2013 (per the Depreciation Schedule, Schedule 4.A.2.)

D/ All postage is charged back to other cost centers in the systems as a 6% markup. The individual states are charged for the postage for sending out customer bills. The Settlement eliminated the 6% markup for TN in Schedule 4.A.1 to reduce expenses in TN. Historically, this expense was $[illegible] per month. The Settlement's adjustment results in approximately 22940 per year in Postage expense for NUC ((100 stamps * $0.49 * 52 weeks) + ($50 Priority/non-envelope shipping * 12 months)).

E/ The Settlement includes recovery for the work travel based on the planned trips in 2013:
- Walker and Cash (TN labor) training for 2 days (direct cost) and
- 2 California employees attending a 3-day training on utility accounting (indirect).

The Settlement estimated expenses of $140 daily for lodging and subsistence for the planned trips, the direct costs to TN are $6,580, and the indirect costs for the utility accounting training is $1,420. The Settlement also includes an [illegible] at approximately $1,500 per trip to include meals, per diem, hotel and taxes, and car rental. Air and mileage are expensed in a separate account. Air travel was included for Navitas because [illegible]. Travel expenses of $2,900 were eliminated from Transportation - Other, account #6240.

F/ This account reflects employee benefits. The Settlement reduces the indirect costs by 37.37% of the test year expenses to reflect the appropriate healthcare costs associated with the employees dedicated to Oklahoma and Kentucky. The 37.37% was derived from reviewing the employee expenses on Labor Schedule, Schedule 4.A.4. CAPD also reclassified the healthcare related to TN's labor from Indirect Costs to the costs directly allocable to TN.

G/ The Penalties expenses reduced significantly because the California office originally rented facilities but then purchased office space. The Settlement adjusted the annual expenses to reflect these expected savings for 2013.

H/ This account has three monthly charges: (1) $106 to Pitney Bowes for the postage machine (billing); (2) $13 to Airgas for equipment leased at the Ealey, Oklahoma location; and (3) $31 to Holston for equipment leased and dedicated to the Jellico, Tennessee operations. The Settlement Reclassified the Holston charges to direct charges to TN.

I/ This account is entirely plane expense, which the Settlement disallows for recovery through rates. Reasonable and prudent travel expenses have been estimated and included in the Travel and Subsistence adjustments. See E.

J/ This account includes the fuel for the trucks, which is allowed for rate recovery, as well as the disallowed expenses for plane fuel and fuel used for personal purposes. The Settlement disallowed the costs associated with the above using adjustments in CAPD Exhibit, Schedule 4.A.1. Because some trucks are dedicated to certain systems, some or all the costs charged to this account should be considered for direct cost tracking for future rate cases.

K/
This account includes expenses for the trucks, which is an allowable expenses as well as expenses of $2500 to two executive officers ($5000 total). The Settlement adjusted this amount based on CAPD adjustments in CAPD Exhibit, Schedule 4.A.1. Because some trucks are dedicated to certain systems, some or all the costs charged to this account should be considered for direct cost tracking for future rate cases.

L/ This account is for late fees and other fines and penalties. Such charges are not permitted for recovery through rates because the rates for 2013 are expected to permit the company to avoid penalties and fines.

M/ Per CAPD Exhibit, Schedule 4.A.1, this account reflects monthly charges of $2500 for a consultant to advise Navitas about utility practices.

N/ This percentage is the allocation percentage calculated, as shown on CAPD Exhibit Allocation Percentage Calculation, Schedule 4.A.3.

O/ Inflation amounts are from CAPD Exhibit, Schedule 4.A.6. Also available in Settlement Exhibit, Schedule 4.A.6.

X/ Inflation adjustments do not apply to these accounts.

*** The amounts, allocation, calculation, formulas, and results of these schedules apply only to this Settlement and have no precedential effect for future rate cases. ***

				1,683,088.49	179,084.32		3,424.60	4,734.53
Totals (Net of Acquisition Adjustments)				3,180,932.20	1,682,308.03		34,759.38	38,069.30

Note: The Company calculates a full month of depreciation for the month of acquisition.

* Per discussion with CAPD Exhibit, Schedule 4.A.2, 157 meters had been replaced by 11/17/2012. Hardline indicated that approximately a third of the total meters were replaced in June 2011, September 2011, and April 2012. Hardline also indicated that 200 meters were scheduled to be replaced in March 2013. For further information, see Note B on CAPD Exhibit, Schedule 2.A, Adjustments to Rate Base.

** The Settlement assumes the acquisitions will occur throughout the year. To reflect this, CAPD chose the mid-year acquisition date of 6/30/2013.

A/ These costs are for the land and building, including leasehold improvements, for the California location where management and other administrative duties are performed. For settlement purposes, the property was allocated using CAPD blended allocation in CAPD Exhibit A, Schedule 4.A.5 of 9.23% because the services performed at this location go beyond customer service duties. Also for settlement purposes, the useful life used was 39 years.

B/ These costs are for the land and building, including leasehold improvements, for the California location where management and other administrative duties are performed. This building is approximately 7,000 square feet with approximately half of it being used to rebuild meters. The space for meters was removed from the cost basis for allocation because the costs to build meters are a capitalized cost. The other half of the building has four private offices, three open workspaces, bathrooms, and a conference room. Three of the four private offices are used by managemerial or operations employees. One of the private offices is used by a customer service representative as well as the three open workspaces. The conference room is used primarily for managerial and administrative purposes. For settlement purposes, the property was allocated using CAPD blended allocation in CAPD Exhibit A, Schedule 4.A.5 of 9.23% because the services performed at this location go beyond customer service duties. Also for settlement purposes, the useful life used was 39 years.

*** The amounts, allocation, calculation, formulas, and results of these schedules apply only to this Settlement and have no precedential effect for future rate cases. ***

Rate Case						
Legal fees to obtain 25-yr Franchise Agmt	04/26/12	300	7,183	E/	23.94	287.31
2012 DIMP asset	08/01/12	58	24,824	D/	428.00	5,136.00
Estimated Legal Services for 2012 Rate Case	12/31/12	48	33,000.00	C/	687.50	8,250.00
Total 1882			65,006.85		687.50	13,673.31

Note: The Company calculates a full month of amortization for the first month the capitalized expense is amortized.

A/ The Settlement reduced rate base and adjusted the accumulated depreciation on Schedule 2.A to reflect the elimination of these investor expense.

B/ The Settlement reduced rate base and adjusted the accumulated depreciation on Settlement Exhibit, Schedule 2.A.1 to reflect the elimination of these non-recurring expense.

C/ Navitas did not include any rate case expense in its petition. The Settlement adjusted rate case expense based on estimated expenses. See CAPD Exhibit, Schedule 4.A.3.

D/ The DIMP asset is calculated as follows:

Minimum monthly payments	$4,000
x Minimum number of payments	63
x Tennessee customer allocation	10.7%
Tennessee DIMP Asset	$26,964

Minimum monthly payments calculated per the contract is $1 per customer, with a minimum of 4,000 customers. Minimum number of monthly payments is also according to the contract. The Tennessee customer allocation is based on Navitas's petition. Since the number of customers will vary each month, and according to the Quickbooks report showing that Tri-Star has only charged Navitas $4,000 per month, any amount above the minimum payment is uncertain at the time of this rate case.

6	**Allocation of NUC's O&M**		**9.23%**		**3.51%**		**57.50%**		**70.23%**

* Gross Plant in Service is in millions. It is unadjusted for any Acquisition Adjustments.
** Customer allocation is per Navitas's petition.
*** Six customers in Tennessee are domestic tap customers spread along 30 miles of third-party pipe. The 34 miles of pipe shown for the calculation of the Tennessee's allocation is net of any pipes owned by a third-party because presumably the third-party would either maintain their own pipes or reimburse NUC for any expenses incurred to maintain third-party pipe.

15	**Total Sales Revenue**			$ **428,193**

A/ The billing determinants differ slightly than the actual billing determinants. Per discussion with Navitas, the system that calculates the bills does not have the reporting capabilities to show the number of customers and the flow for each customer. Navitas tracks of the number of meters and the flow monthly. Navitas provided the number of meters and flow for the 12 months ended 3/31/2012 to CAPD. Per discussion with Navitas, there are a few customers with more than one meter, however the exact number is unknown. Since the flow per customer is also unknown, Navitas estimates revenue by taking the average flow per customer and, when that average is greater than 9 Ccf, assumes that each customer used at least 9 Ccf. Navitas recognizes that both of these variances of using meters instead of customers and using average flow instead of actual flow per customer may overstate the estimated revenue for
B/ Current Emergency Tariff Rates.
C/ Current PGA Rate.

Minimum Bill (if 9 Ccf used)	10.95	20.00	29.97	39.97				
Total Revenue					44,356	81,943	110,363	130,905
Total Operating Revenue (excluding Purchased Gas Revenue)					209,033	322,504	411,156	481,635
Incremental Increases						54%	27%	17%
Incremental Increases						113,471	88,652	70,480

Revenue Requirement:

The Proposed Rates include a $272,601 rate deficiency. Thus:

Current Revenue	209,033
Revenue Deficiency	272,601
Revenue Requirement	481,634

Note 1. The Revenue was calculated using the billing determinants on Settlement Exhibit, Schedule 6, Revenue Summary. The revenue numbers have been adjusted to account for the months that the average usage was less than 9 Ccf. This adjustment is less than a $500 difference in any given year.

Note 2. The increase in the first phase permits the Company to cover the estimated $295,935.68 in operating expenses that will affect the Company's cash flow, which are total expenses on Schedule 4.A less the non-cash expenses of bad debt, customer discounts, and depreciation and amortization (for Navitas TN NG, LLC, shown on Schedule 4.A, and NUC, shown on Schedule 4.A.1). The increase in the second phase permits the Company to break even on cash and non-cash expenses. The increase in the third phase permits the Company to earn what it believes is a reasonable rate of return.

Note 3: Notably, the first year increase of $113,471 in the Settlement is only $1149 greater than the $112,322 increase in the first year that would have resulted from the rates Navitas requested in question 9 of its Thomas Hartline's testimony, Exhibit A of the Petition, which also contended Navitas had a $599,033 revenue requirement ($390,000 plus the current revenue) and proposed a four-year phase-in.

A/ These proposed tariffs are from 9Q of Exhibit A of the Navitas Petition of this docket, TRA # 12-00068.

filed electronically in docket office on 01/07/13

IN THE TENNESSEE REGULATORY AUTHORITY
AT NASHVILLE, TENNESSEE

IN RE:	)	
	)	
PETITION OF NAVITAS TN NG, LLC FOR AN ADJUSTMENT TO ITS NATURAL GAS RATES AND APPROVAL OF REVISED TARIFFS	)	**DOCKET NO. 12-00068**

AMENDMENT TO STIPULATION AND SETTLEMENT AGREEMENT DATED DECEMBER 17, 2012

For the sole purpose of settling this case, Tennessee Regulatory Authority ("TRA" or "Authority") Docket No. 12-00068, Robert E. Cooper, Jr., the Tennessee Attorney General and Reporter, through the Consumer Advocate and Protection Division ("Consumer Advocate") and Navitas TN NG, LLC ("Navitas" or "Company") respectfully submit this Amendment to the Stipulation and Settlement Agreement ("Settlement Agreement") filed in this Docket on December 17, 2012. Subject to Authority approval, the Consumer Advocate and Navitas (collectively, the "Parties") agree to the following amendments:

1. To remove depreciation and amortization expense from line 5 of Schedule 4 of Settlement Agreement Ex. A. This revision reduces the revenue deficiency from $272,601 to $231,703. Ex. A is replaced in its entirety and is attached.

2. To replace the proposed three-step phase in with a two-step phase in. The first step, which is approximately 56% of the revenue deficiency, would go into effect upon approval by the TRA. The second step would include the remaining 44% of the revenue deficiency and go into effect in October 2013. The rate design in Ex. B is replaced in its entirety and is attached.

3. To amend the text of the Settlement Agreement as follows:

- Paragraph 14 is amended to reflect that the attrition period revenue deficiency is $231,703 rather than $272,601. The overall increase in revenue billed to customers is decreased from 63% to 53%. And the residential customer charge "phase-in" from $6.00 to $9.00 increases over the time period ending with the October 2013 billing period.
- Paragraph 15H is amended from $272,601 to $231,703.
- Paragraph 20 is amended to change the dollar amounts from $272,601 to $231,703.
- Paragraph 20A is amended to 56% of $231,703.
- Paragraph 20B is amended to the remaining 44% of the revenue deficiency and goes into effect in October 2013.
- Paragraph 20C is deleted.
- Paragraph 21 is amended to reflect that the rates in the second step, rather than the third step, are applicable to new customers.

All other terms of the Settlement Agreement remain the same.

The foregoing is agreed and stipulated to this 7th day of January, 2013.

19	Amortization of the Other Long Term Assets 2012 & 2013*	(12,420.06)	F/
20		34,873.13	

* The estimated acquisitions and related depreciation and amortization for 2013 are reduced by half to arrive at the Average Rate Base on Schedule 2.A. The meters expected to be replaced in March 2013 are added in full since the replacement occurs in the first part of the year.

Notes:

A/ This amount reflects the reversal of a journal entry recorded to transfer the cores of the meters from TN's fixed assets to NUC's fixed asset, as shown and explained on CAPD Exhibit, Schedule 2.A.

B/ This amount reflects the acceleration of replacing meters, as shown and explained on CAPD Exhibit, Schedule 2.A.

C/ This amount reflects the estimated capital expenditures that are not related to meter replacement as calculated by the CAPD on CAPD Exhibit, Schedule 2.A.

D/ Accumulated Depreciation Increase for 2012 and 2013 were calculated on the Depreciation Schedule, Schedule 4.A.2. This amount is also described in CAPD Exhibit, Schedule 2.A.

E/ See Depreciation Schedule, Schedule 4.A.2.

F/ See Amortization Schedule, Schedule 4.A.3.

* Per Navitas's Quickbooks reports.

A/ The Settlement adjustments to the NUC-Crews expense amount to calculate the fair and reasonable expenses allocated to TN for the attrition year are shown on CAPD Exhibit, Schedule 4.A.1.

B/ To remove the expenses related to inter-company charges by NUC to TN for meter fees of $3.00 per meter. The meters should be recorded in TN's fixed assets and depreciated in TN's books. See Note B on Schedule 2.A.1.

C/ To adjust depreciation expenses for the meters and the expected 2012 and 2013 capital expenditures, as well as include the amortization of the Plant Acquisition Adjustment. See Schedule 4.A.2.

D/ To include amortization for organizational costs, the unamortized portion of the 2011 rate case expenses, and the 2012 rate case expenses. See Amortization Schedule, Schedule 4.A.3.

E/ To reduce the amount of Postage by the 5% markup amount erroneously applied to expenses directly charged from NUC to TN.

F/ Per review of the account details of account 6485, Bad Debt Expense,$6,178.98 of the expenses from 4/1/2011 to 3/31/2012 related to a write off of $6,178.98 to clean up of bad debt receivables that were on Cascal's books and probably should have been written off before the purchase by Navitas. Per review of the account details for 2012 and discussions with Navitas, the 2011 write off was an aberration. The Settlement adjusted this account so that the 2013 expenses would reflect the 2012 bad debt expense as of 11/16/2012 of $2,347.25, as annualized.

G/ Per Inflation Schedule, Schedule 4.A.8.

*** The amounts, allocation, calculation, formulas, and results of these schedules apply only to this Settlement and have no precedential effect for future rate cases. ***

* Per Navitas's Quickbooks reports.

A/ Settlement took the $1,992,736 in employee and outside labor and allocated labor to TN, which is shown on Labor, Schedule 4.A.4. The remainder of the charges of $110,854 were for uniform services that had names of the location incurring the costs of the uniform services as well as monthly charges to Volunteer Trenching to be available for back up services. These non-labor charges will be considered for invoicing directly to the benefiting system for future rate cases.

B/ The charges to this account are primarily expenses that are later capitalized to specific systems. The balance in this account reflects the timing differences between the expense and the time of capitalization. It is essentially a CWIP account that can apply to any of the systems. The Settlement reduces the indirect allocation costs for CWIP and estimated expected capital expenditures for Tennessee in Schedule 2 and 2.A. Per the terms of the Settlement, the charges to this account will be considered for invoicing costs directly to the benefiting system in separate accounts.

C/ To remove the depreciation expenses related to assets in the ordinary from the indirect allocations and add the estimated depreciation expenses for the assets in Tennessee expected for 2013 (per the Depreciation Schedule, Schedule 4.A.2.)

D/ All postage is charged back to NUC when charged to the systems at a 5% markup. The individual states are charged for the postage for sending out customer bills. The Settlement eliminated the 5% markup for TN in Schedule 4.A. The actual expense of $1,100.23 equals $955 in monthly expenses. The Settlement's adjustment results in approximately $2940 per year in Postage expenses for NUC ((100 stamps * $0.46 * 52 weeks) + ($50 Priority/Non-envelope shipping * 12 months)).

E/ The Settlement includes recovery for the work travel based on the planned trips in 2013:
- Walter and Clark (TN labor) training for 2 days (direct cost) and
- 2 California employees attending a 3-day training on utility accounting (indirect).
The Settlement allowed expenses of $140 only for lodging and subsistence for the planned trips, the direct costs to TN are $6,680, and the indirect costs for the utility accounting training is $1,420. The Settlement also disallowed travel expenses typically expensed by operational facilities, approximately $1,800 per month for hotels, taxis, per diem hotel and meals, and car rental. Air and mileage are expensed in a separate account. Air travel was included in Facilities because Mr. Hensley travel expenses of $2,500 were eliminated from Transportation - Other, account 6624O.

F/ The settlement includes adjustments to healthcare. The Settlement reduces the indirect costs by 37.37% of the test year expenses to reflect the approximate healthcare costs associated with the employees dedicated to Oklahoma and Kentucky. The 37.37% was derived from reviewing the employee expenses on Labor Schedule, Schedule 4.A.4. CAPD also reclassified the healthcare related to TNs labor from Indirect Costs to the costs directly allocable to TN.

G/ The Facilities expenses reduced significantly because the California office originally rented facilities but then purchased office space. The Settlement adjusted the annual expenses to reflect these expected savings for 2013.

H/ This account has three monthly charges: (1) $138 to Pitney Bowes for the postage machine (billing); (2) $13 to Airgas for equipment leased at the Kelsey, Oklahoma location; and (3) $31 to Heaton for equipment leased and dedicated to the Jellico, Tennessee operations. The Settlement reclassified the Heaton charges to direct charges to TN.

I/ This account is entirely plane expense, which the Settlement disallows for recovery through rates. Reasonable and prudent travel expenses have been estimated and included in the Travel and Subsistence adjustments. See E.

J/ This account includes the fuel for the trucks, which is allowed for rate recovery, as well as the disallowed expenses for plane fuel and fuel used for personal purposes. The Settlement disallowed the costs associated with the plane using adjustments in CAPD Exhibit, Schedule 4.A.1. Because some trucks are dedicated to certain systems, some or all the costs charged to this account should be considered for direct cost tracking for future rate cases.

K/ This account includes expenses for the trucks, which is an allowable expenses as well as expenses of $3800 to the executive officers ($2000 total). The Settlement adjusted this account based on CAPD adjustments in CAPD Exhibit, Schedule 4.A.1. Because some trucks are dedicated to certain systems, some or all the costs charged to this account should be considered for direct cost tracking for future rate cases.

L/ This account is for late fees and other fines and penalties. Bank charges are not permitted for recovery through rates because the rates for 2013 are expected to permit the company to avoid penalties and fines.

M/ Per CAPD Exhibit, Schedule 4.A.1, this account reflects monthly charges of $2500 for a consultant to advise Navitas about utility practices.

N/ This percentage is the allocation percentage calculated, as shown on CAPD Exhibit Allocation Percentage Calculation, Schedule 4.A.6.

O/ Inflation amounts are from CAPD Exhibit, Schedule 4.A.6. Also available in Settlement Exhibit, Schedule 4.A.6.

P/ Inflation adjustments do not apply to these amounts.

*** The amounts, allocation, calculation, formulas, and results of these schedules apply only to this Settlement and have no precedential effect for future rate cases. ***

				1,683,988.49	179,064.32		3,424.80	4,734.53
Totals (Net of Acquisition Adjustments)				3,186,932.20	1,682,008.03		34,759.38	36,069.30

Note: The Company calculates a full month of depreciation for the month of acquisition.

* Per discussion with CAPD Exhibit, Schedule 4.A.2, 157 meters had been replaced by 11/17/2012. Hartline indicated that approximately a third of the total meters were replaced in June 2011, September 2011, and April 2012. Hartline also indicated that 200 meters were scheduled to be replaced in March 2013. For further information, see Note B on CAPD Exhibit, Schedule 2.A, Adjustments to Rate Base.

**

The Settlement assumes the acquisitions will occur throughout the year. To reflect this, CAPD chose the mid-year acquisition date of 6/30/2013.

A/ These costs are for the land and building, including leasehold improvements, for the California location where management and other administrative duties are performed. For settlement purposes, the property was allocated using CAPD blended allocation in CAPD Exhibit A, Schedule 4.A.5 of 9.23% because the services performed at this location go beyond customer service duties. Also for settlement purposes, the useful life used was 39 years.

B/ These costs are for the land and building, including leasehold improvements, for the California location where management and other administrative duties are performed. This building is approximately 7,000 square feet with approximately half of it being used to rebuild meters. The space for meters was removed from the cost basis for allocation because the costs to build meters are a capitalized cost. The other half of the building has four private offices, three open workspaces, bathrooms, and a conference room. Three of the four private offices are used by managemerial or operations employees. One of the private offices is used by a customer service representative as well as the three open workspaces. The conference room is used primarily for managerial and administrative purposes. For settlement purposes, the property was allocated using CAPD blended allocation in CAPD Exhibit A, Schedule 4.A.5 of 9.23% because the services performed at this location go beyond customer service duties. Also for settlement purposes, the useful life used was 39 years.

*** The amounts, allocation, calculation, formulas, and results of these schedules apply only to this Settlement and have no precedential effect for future rate cases. ***

2013 Amortization

	Acquisition Date	Life (months)	Unamortized balance as of 1/1/2013		Monthly	2013 Amortization Expense
Rate Case						
Legal fees to obtain 25-yr Franchise Agmt	04/26/12	300	7,183	E/	23.94	287.31
2012 DIMP asset	08/01/12	63	24,824	D/	428.00	5,136.00
Estimated Legal Services for 2012 Rate Case	12/31/12	48	33,000.00	C/	687.50	8,250.00
Total 1882			65,006.85		687.50	13,673.31

Note: The Company calculates a full month of amortization for the first month the capitalized expense is amortized.

A/ The Settlement reduced rate base and adjusted the accumulated depreciation on Schedule 2.A to reflect the elimination of these investor expense.

B/ The Settlement reduced rate base and adjusted the accumulated depreciation on Settlement Exhibit, Schedule 2.A.1 to reflect the elimination of these non-recurring expense.

C/ Navitas did not include any rate case expense in its petition. The Settlement adjusted rate case expense based on estimated expenses. See CAPD Exhibit, Schedule 4.A.3.

D/ The DIMP asset is calculated as follows:

Minimum monthly payments	$4,000
x Minimum number of payments	63
x Tennessee customer allocation	10.7%
Tennessee DIMP Asset	$26,964

Minimum monthly payments calculated per the contract is $1 per customer, with a minimum of 4,000 customers. Minimum number of monthly payments is also according to the contract. The Tennessee customer allocation is based on Navitas's petition. Since the number of customers will vary each month, and according to the Quickbooks report showing that Tri-Star has only charged Navitas $4,000 per month, any amount above the minimum payment is uncertain at the time of this rate case.

E/ These costs relate to the legal fees Navitas incurred to renew the Franchise Agreement for an additional 25 years.

*** The amounts, allocation, calculation, formulas, and results of these schedules apply only to this Settlement and have no precedential effect for future rate cases. ***

	Total Outside Labor [illegible]				E/					
					H/					

* These earnings [illegible] 12/31/2011.

A/ This is the percentage [illegible] for Tennessee that is not capitalized. CAPD did not receive the Q1 [illegible] salary report with the exact salary expense [illegible] multiplied the percentage of 2011 salaries by the salaries related to [illegible]1 2012 as an estimate of the salaries applied [illegible] used to calculate the labor that is not allocable to TN.

B/ Sum of Paychecks [illegible] ded 1/1/2011 to 3/31/2011.

C/ Sum of Paychecks [illegible] ded 1/1/2012 to 3/31/2012.

D/ This labor reflects the salary of Jerry Walker, who is dedicated to TN, as increased by 4.62%, which is the amount of the increase in Q1 2012 labor from Q1 2011 labor.

E/ This labor reflects 50% of the payments to Frank Cash from 7/1/2011 to 3/31/2012. Navitas started paying Cash on 7/1/2011 approximately $7,500 per month. Cash's time is split 50/50 between Tennessee and Kentucky. Cash did not start until July 2011, so the annual amount of his fees would be $60,000, half of which would be directly charged to Tennessee

F/ This is the total indirect employee labor that was allocable to TN. It was calculated by taking the total allocable labor less the labor that was directly charged to TN.

G/ This portion of labor is dedicated to Oklahoma and therefore is not included in the Tennessee revenue requirement.

H/ This is the total labor costs for 4/1/2011 to 3/31/2012, as adjusted to annualize the outside labor to a full 12 months of Frank Cash's service ($5,000 per month).

I/ CAPD utilized two different allocation percentages to the indirect labor of $914,694.47. CAPD determined that the indirect labor was approximately 90% shared services and approximately 10% customer service based on the activities and description of services provided by each employee. CAPD allocated the [illegible]ated customer service labor based on TN's percentage of customers and the shared services based on the blended allocation calculated in the Allocation Percentage Calculation Schedule 4.A.5.

J/ CAPD utilized the shared services [illegible] on percentage in Schedule 4.A.3 for non-customer driven labor.

4	Sum of Allocations		27.68%		10.52%		172.51%		
5	Simple Average (+3)		3		3		3		
6	**Allocation of NUC's O&M**		**9.23%**		**3.51%**		**87.50%**		**70.23%**

* Gross Plant in Service is in millions. It is unadjusted for any Acquisition Adjustments.
** Customer allocation is per Navitas's petition.
*** Six customers in Tennessee are domestic tap customers spread along 30 miles of third-party pipe. The 34 miles of pipe shown for the calculation of the Tennessee's allocation is net of any pipes owned by a third-party because presumably the third-party would either maintain their own pipes or reimburse NUC for any expenses incurred to maintain third-party pipe.

A/ The billing determinants differ slightly than the actual billing determinants. Per discussion with Navitas, the system that calculates the bills does not have the reporting capabilities to show the number of customers and the flow for each customer. Navitas tracks of the number of meters and the flow monthly. Navitas provided the number of meters and flow for the 12 months ended 3/31/2012 to CAPD. Per discussion with Navitas, there are a few customers with more than one meter, however the exact number is unknown. Since the flow per customer is also unknown, Navitas estimates revenue by taking the average flow per customer and, when that average is greater than 9 Ccf, assumes that each customer used at least 9 Ccf. Navitas recognizes that both of these variances of using meters instead of customers and using average flow instead of actual flow per customer may overstate the estimated revenue for

Minimum Bill (if 9 Ccf used)	10.95	20.00	39.97			
Total Revenue				44,356	87,684	112,963
Total Operating Revenue (excluding Purchased Gas Revenue)				209,033	338,458	440,714
Incremental increases					129,425	102,256
Incremental increases					62%	30%
% of Revenue Deficiency					56%	44%

Revenue Requirement:
The Proposed Rates include a $231,703 rate deficiency. Thus:

Current Revenue	209,033
Revenue Deficiency	231,703
Revenue Requirement	440,736

* Rates and Revenues exclude purchased gas.
** The revenue total of $338,458 reflects the February 1, 2013 rates on an annual basis to enable comparison between the two steps of increase. The rates for February 1, 2013 will be in effect for eight months and provide for $178,198 in total non-gas revenue based on the billing determinants of the February through September of the test year, as shown on Schedule 2.A of this Exhibit B.

Note 1: The Revenue was calculated on Schedules 2 and 3 of this Exhibit B. These billing determinants are the same as those on Amended Settlement Exhibit, Schedule 6, Revenue Summary, as adjusted to account for the months that the average usage was less than 9 Ccf. This adjustment is less than a $500 difference in any given year.

Chairman Allison's Motion

Docket No. 12-00068

I move that the revised Stipulation and Settlement Agreement be accepted with a few minor modifications and a request to the parties regarding rate design. The motion is specific to (1) the additional revenue requirement for Navitas; (2) rate design; and (3) the Settlement terms.

First, I move that the revenue requirement of $231,703 agreed to by Navitas and the Consumer Advocate be adopted. I understand that this amount includes recovery of Distribution Integrity Management Program Costs (DIMP) which the Authority previously ruled that it would like to review. Accordingly, even though recovery of DIMP costs is being allowed at this time, Navitas is directed to submit a signed contract with the consultant (Tri-Star Energy) when executed along with all documentation to support the recovery amount. The Authority will then review the information and make a final ruling on these costs.

Second, I move that the Authority accept the Phase I and Phase II rate design contained in the Settlement Agreement. Prior to implementing the Phase II rate design, however, I would encourage the parties to meet with the TRA Staff to discuss alternative rate designs that more fully address the directives set forth in Tenn. Code Ann. § 65-4-126, (State policy on using energy more efficiently) and also to look at recent rate designs ordered by the Authority for Piedmont, Atmos and Chattanooga Gas. If there is a modification to the Phase II rate design, I move that it be filed no later than July 1, 2013.

Third, there is one Settlement provision that, in my opinion, should not be approved and one that needs more clarification before final approval is granted. I move that the provisions contained in Paragraph 21 of the Settlement, which would allow for similarly situated customers within a specific class to pay different monthly rates for natural gas, be removed. The parties provided no satisfactory rational basis to justify different rates for similarly situated customers and this provision could lead to undue discriminatory treatment of consumers potentially in violation of state and federal law.

I also have some concerns regarding Paragraph 25 C. This provision provides Navitas with the ability to waive fees in special circumstances such as financial distress, military deployment or for disabled customers or customers in unique situations. I applaud the effort to help consumers in distress, but I am concerned about approving such a broad provision without knowing the exact details such as the qualification process and which fees that can be waived. I am not recommending that this provision be removed; rather, I move that if the parties want to implement this provision, tariff language be filed explaining in detail the qualification process and the specifics of the program. In this

manner, the Panel will have the opportunity to review the details of the program and make a ruling prior to implementation. I believe the remaining settlement provisions, especially those related to transitioning to the NARUC Uniform System of accounting method and direct cost accounting for expenses related to Tennessee operations, are necessary in order to properly evaluate the Company on a going-forward basis.

Finally, I direct Navitas to file a revised tariff to conform with the Settlement Agreement with deference to the above Paragraph being removed. I would invite you to meet with my Staff to come up with a compliant tariff. I so move.
