**DOCKET NO.
19-00080**

**ORDER ADOPTING COMPLIANCE AUDIT REPORT OF
TENNESSEE PUBLIC UTILITY COMMISSION'S UTILITIES DIVISION**

This matter came before Chair Robin L. Morrison, Vice Chair Kenneth C. Hill, and Commissioner John Hie of the Tennessee Public Utility Commission ("TPUC" or "Commission"), the voting panel assigned to this docket, during a regularly scheduled Commission Conference held on May 11, 2020¹ for consideration of the report of the Commission's Utilities Division Audit Staff ("Staff") resulting from the Staff's audit of Piedmont Natural Gas Company, Inc.'s ("Piedmont" or the "Company") Incentive Plan Account Filing (the "IPA Filing") for the period of July 1, 2018 through June 30, 2019. The Compliance Audit Report ("IPA Report"), attached hereto as Exhibit 1 and incorporated into this document as if fully rewritten herein, contains the conclusions and recommendations of the Staff.

On August 30, 2019, Piedmont submitted its annual report of the shared gas cost savings in its Incentive Plan for the period of July 1, 2018 through June 30, 2019.² On March 16, 2020 Staff

¹ Due to the state of emergency declared by Governor Bill Lee relative to the Coronavirus Disease 2019 ("COVID-19") pandemic in Tenn. Exec. Order No. 14 on March 12, 2020, (superseded by Tenn. Exec. Order No. 15 on March 19, 2020 which was extended until June 30, 2020 in Tenn. Exec. Order No. 36 on May 12, 2020), the Commission Conference was held electronically via WebEx. The public health emergency places limitations on public gatherings and meetings in order to prevent the spread of COVID-19. In convening the Commission Conference electronically, the Commission relied upon Tenn. Exec. Order No. 16 (March 20, 2020), which was extended until June 30, 2020 by Tenn. Exec. Order No. 34 (May 6, 2020), and affirmed on the record that the electronic meeting was necessary to conduct the essential business of the agency and to protect the health, safety, and welfare of Tennesseans.

² *Performance Incentive Plan Report for the Period of July 1, 2018-June 30, 2019* (August 30, 2019).

completed its audit of the IPA Report for Piedmont.³ There were no material errors in the findings. Staff concluded the Company is correctly calculating the amount of savings it is accruing under its Incentive Plan for the year ended June 30, 2019, in addition to the amount being accurate and in compliance with its tariff, and recommends approval of the April 13, 2020 Staff Compliance Audit Report.

During the regularly scheduled Commission Conference held on May 11, 2020, the panel considered the IPA Report and found that the audit objective was met and that Audit Staff found no material errors. Further, the panel found that the Company is correctly applying its incentive plan tariff and that the Company's Incentive Plan for the period ended June 30, 2019 meets the criteria set forth in its tariff. Thereafter, the panel voted unanimously to approve the April 13, 2020 Staff Compliance Report, as filed.

IT IS THEREFORE ORDERED THAT:

The Compliance Audit Report of Piedmont Natural Gas Company, Inc.'s Annual Incentive Plan Account Filing for the period of July 1, 2018 through June 30, 2019, a copy of which is attached to this Order as Exhibit 1, is approved and adopted, and it is incorporated in this Order as if fully rewritten herein.

Chair Robin L. Morrison, Vice Chair Kenneth C. Hill, and Commissioner John Hie concur.

ATTEST:

Earl R. Taylor, Executive Director

³ The original deadline for the completion and approval of the IPA Audit was February 15, 2020. Audit Staff by rule has 180 days to complete its audit. The audit deadline, however, may be extended by mutual agreement between Staff and the Company or by action of the Commission. See Commission PGA Rule 1220-04-07-.03(2). The deadline was initially extended to March 31, 2020 and subsequently to April 30, 2020 and July 31, 2020 by mutual consent of Piedmont and TPUC Staff as evidenced by the memos filed in the docket on January 17, 2020, February 25, 2020 and April 3, 2020

PIEDMONT NATURAL GAS COMPANY, INC.)	
PERFORMANCE INCENTIVE PLAN REPORT)	
FOR THE PERIOD JULY 1,)	
2018 THROUGH JUNE 30, 2019)	Docket No. 19-00080

**NOTICE OF FILING BY UTILITIES DIVISION OF
THE TENNESSEE PUBLIC UTILITY COMMISSION**

Pursuant to Tenn. Code Ann. §§ 65-4-104, 65-4-111 and 65-3-108, the Utilities Division of the Tennessee Public Utility Commission hereby gives notice of its filing of the Piedmont Natural Gas Company Incentive Plan Account (hereafter “IPA”) Audit Report in this docket and would respectfully state as follows:

1. The present docket was opened by the Commission to hear matters arising out of the audit of Piedmont Natural Gas Company’s (hereafter the “Company”) IPA for the year ended June 30, 2019.

2. The Company’s IPA filing was received on August 30, 2019, and the Audit Staff (hereafter the “Staff”) completed its audit of same on March 16, 2020. The original 180-day deadline for the staff’s completion of the audit was February 15, 2020. This deadline was initially extended to March 31, 2020 and subsequently to April 30,

2020 and July 31, 2020 by mutual consent of Piedmont Natural Gas Company and the TPUC Audit Staff as provided for in the Purchased Gas Adjustment Rule 1220-4-7-.03(2)

3. The Utilities Division hereby files its Report, attached as Exhibit A, with the Tennessee Public Utility Commission for deposit as a public record and approval of the Report and recommendations contained therein.

Respectfully Submitted:

A handwritten signature in cursive script that reads "Emily QingShe".

Emily QingShe, Utilities Consultant
Utilities Division of the
Tennessee Public Utility Commission

CERTIFICATE OF SERVICE

I hereby certify that on this 13th day of April, 2020, a true and exact copy of the foregoing has been either hand-delivered or delivered via U.S. Mail, postage pre-paid, to the following persons:

SERVICE SCHEDULE NO. 316	ATTACHMENT 1

I. INTRODUCTION AND AUDIT OPINION

The subject of this compliance audit is the Performance Incentive Plan (hereafter “Incentive Plan” or “IPA”) of Piedmont Natural Gas¹ (hereafter “Piedmont” or the “Company”). The Tennessee Public Utility Commission (hereafter the “Commission” or “TPUC”)² Audit Staff’s (“Staff”) objective in this audit was to determine whether the balance in the Incentive Plan Account as of June 30, 2019 was calculated in conformance with all terms and conditions of the Company’s Incentive Plan³ and to verify that the factors utilized in the calculations were supported by appropriate source documentation. The IPA addresses sharing incentives with respect to the Company’s gas procurement and capacity management activities, which are more fully described in Section II. After reviewing the Company’s filing, Staff found no material errors. Staff, therefore, concludes that, during the plan year under review, the Company correctly calculated the benefits accruing to Piedmont and the ratepayers under the Incentive Plan.

II. BACKGROUND AND DESCRIPTION OF PERFORMANCE INCENTIVE PLAN

On May 31, 1996, the Tennessee Public Service Commission (hereafter the “TPSC”), the predecessor to the Tennessee Regulatory Authority (hereafter the “Authority” or “TRA”), issued an Order in Docket 96-00805 approving an Incentive Plan on an experimental basis for Nashville Gas Company. The specific details of the Incentive Plan were included in Nashville Gas’ Service Schedule No. 14 tariff⁴ entitled Performance Incentive Plan, which was issued on April 22, 1996, and became effective July 1, 1996.

The experimental period began July 1, 1996, and ended June 30, 1998. On March 31, 1998, the Company filed an *Application for Extension of the Performance Incentive Plan*, which would allow the plan to continue on an annual basis. The Commission issued an Order on March 11, 1999, authorizing the Company to continue under a modified Incentive Plan. The Incentive Plan consisted of two mechanisms: (1) the Gas Procurement Incentive Mechanism, and (2) the Capacity Management Incentive Mechanism. Under the Gas Procurement Incentive Mechanism, Nashville Gas retained 50% of the savings on gas purchased below 99% of a pre-determined benchmark. If the Company purchased gas above 101% of the same pre-determined benchmark, the Company was penalized for 50% of the excess. The Capacity Management Incentive Mechanism was tied to the Company’s total annual demand cost and the sharing ratio was a sliding scale, with Nashville Gas (now Piedmont) earning a larger percentage with a higher level of cost savings. Interest was accrued on the outstanding monthly balance in the IPA account using the same computation as is provided for in the Authority’s Purchased Gas Adjustment Rule 1220-4-7-.03(vii). Total annual savings accruing to the Company was capped at \$1.6 million.

¹ On January 23, 2008, the TRA received a letter advising that beginning in March 2008, the name of Nashville Gas Company, a Division of Piedmont Natural Gas, would be changed to Piedmont Natural Gas.

² As of April 5, 2017, the name of Tennessee Regulatory Authority has changed to the Tennessee Public Utility Commission and board member of the agency will be known as Commissioners rather than Directors.

³ Service Schedule No. 316, Performance Incentive Plan. (See Attachment 1)

⁴ Service Schedule No. 14 was subsequently changed to Service Schedule No. 316 in Docket No. 03-00313.

At a regularly scheduled TRA Conference held on June 13, 2005, the panel of Directors in Docket No. 04-00290⁵ voted to open a new docket to consider issues associated with the Company's inclusion of asset management fees in its Incentive Plan. A contested case was convened in Docket No. 05-00165 on June 27, 2005. On July 7, 2005, the Consumer Advocate and Protection Division of the Attorney General's Office ("CAPD") petitioned to intervene. On June 5, 2007, after extensive discussions and negotiations, the Company, CAPD and TRA Audit Staff filed a joint request for approval of a proposed Settlement Agreement ("Agreement"). At the August 20, 2007 and September 24, 2007 Authority Conferences, the parties gave oral presentations of the Agreement before the panel and answered questions. At the October 22, 2007 TRA Conference, the majority of the panel approved the Agreement as filed by the parties.

The new Service Schedule No. 316 ("New Tariff") became effective July 1, 2006. This tariff replaces the old Service Schedule No. 316 ("Old Tariff"). The modifications and improvements to the Old Tariff include the following:

1. Eliminating varying sharing bands under the commodity and capacity management mechanisms and replacing with a straight 75%-customer/ 25%-Company sharing ratio;
2. Maintaining the overall annual incentive cap of \$1.6 million available to Piedmont;
3. Expanding the tariff language to expressly include asset management fees and other forms of compensation related to capacity management;
4. Adopting RFP procedures for selection of a non-affiliate asset manager;
5. Implementing a triennial review of the IPA process by an outside consultant beginning in the fall of 2008;
6. Clarifying the benchmark formula for commodity purchases to include new deliveries from Midwestern Gas Transmission; and
7. Modifying and clarifying the provisions under which hedging costs are recoverable in the Actual Cost Adjustment ("ACA").

The audit period under review is the twelfth reporting period governed by the New Tariff.

III. JURISDICTION OF THE TENNESSEE PUBLIC UTILITY COMMISSION

Tennessee Code Annotated (hereafter "T.C.A.") gave jurisdiction and control over public utilities to the Tennessee Regulatory Authority, now the Tennessee Public Utility Commission. T.C.A. § 65-4-104 states:

The Authority has general supervisory and regulatory power, jurisdiction, and control over all public utilities, and also over their property, property rights, facilities, and franchises, so far as may be necessary for the purpose of carrying out the provisions of this chapter.

⁵ Docket No. 04-00290 contains the TRA Staff audit report of the Company's IPA for the plan year ended June 30, 2004.

Further, T.C.A. § 65-4-105 grants the same power to the Authority with reference to all public utilities within its jurisdiction as chapters 3 and 5 of Title 65 of the T.C.A. has conferred on the Department of Transportation's oversight of the railroads or the Department of Safety's oversight of transportation companies. By virtue of T.C.A. § 65-3-108, said power includes the right to audit:

The department is given full power to examine the books and papers of the said companies, and to examine, under oath, the officers, agents, and employees of said companies...to procure the necessary information to intelligently and justly discharge their duties and carry out the provisions of this chapter and chapter 5 of this title.

IV. AUDIT SCOPE

The IPA audit is a compliance audit of the Company's Incentive Plan Account.⁶ The audit goal is to verify that the Company's calculations of incentive gains and losses are materially correct,⁷ and that the Company is in compliance with all terms of its tariff and following all Commission orders and directives with respect to its calculation of the IPA Account balance. Also included in this audit is the Company's PGA tariff filing⁸ to implement a customer surcharge to recover the balance in the IPA Account at June 30, 2019, effective November 1, 2019.

To accomplish the audit goal, Staff reviewed the Company's tariff, gas supply invoices, pipeline tariffs, supplemental schedules and other source documentation provided by Piedmont, and industry publications to verify the indexes used to calculate the benchmarks, as well as prior Staff audits and Commission Orders. Where needed, Staff issued data requests to the Company to obtain additional information to clarify the filing.

The Commission's Utilities Division is responsible for auditing those companies under the Commission's jurisdiction to ensure that each company is abiding by the rules and regulations of the TPUC. This audit was performed by Emily Qingshe of the Utilities Division.

V. ACTUAL PLAN YEAR RESULTS

On August 30, 2019, Piedmont filed its annual IPA report. According to the Company filing, the Incentive Plan generated \$6,506,637.48 in total incentive savings. Of this amount, \$4,906,637.48 benefited the ratepayer and **\$1,600,000** was retained by Piedmont. Adding the under-recovered balance from the previous audit period and accrued interest on the monthly balances, and subtracting the surcharges recovered from customers during the audit period, resulted in an **under-recovered balance** in the IPA Account at June 30, 2018 of **\$1,664,425.44**.

⁶ Service Schedule No. 316 Performance Incentive Plan.

⁷ The audit goal is not to guarantee that the Company's results are 100% correct. Where it is appropriate, Staff utilizes sampling techniques to determine whether the Company's calculations are materially correct. Material discrepancies would dictate a broadening of the scope of Staff's review.

⁸ Tariff Filing No. 2019-0054.

The following chart summarizes the results of the current period of the Incentive Plan, as presented in the Company's filing:

		Plan Year Ended 6/30/19
Total Actual City Gate Purchases	\$	<u>64,884,706</u>
Total Annual Benchmark	\$	<u>65,684,115</u>
Percentage Actual Purchases to Benchmark		98.78%
Total Incentive Savings (Losses) from:		
Gas Procurement	\$	799,409
Capacity Management & Off System Sales		<u>5,707,228</u>
<u>Total Incentive Savings</u>	\$	<u>6,506,637</u>
Incentive Savings (Losses) Retained by Ratepayers (75%):	\$	<u>4,906,637</u>
Incentive Savings (Losses) Retained by Company (25%):⁹	\$	<u>1,600,000</u>

VI. INCENTIVE PLAN (IPA) FINDINGS

Staff reviewed the gas purchasing activities and capacity management activities of Piedmont to determine whether the Company correctly calculated the amount of gains and losses accrued under its Incentive Plan and whether it complied fully with the terms of its tariff. Staff agrees with the IPA Account balances as calculated by the Company. Therefore, there are no findings. A summary of the account, as filed by the Company, is shown below.

SUMMARY OF THE IPA ACCOUNT:

	<u>Company</u>
Under-recovered IPA Account Balance at 6/30/18	\$823,862.81
Plus Savings Accruing to Piedmont	1,600,000.00
Minus Amount Recovered from Customers (7/1/18-6/30/19)	<u>(822,592.85)</u>
Equals IPA Balance Before Interest	\$ 1,601,269.96
Plus Interest Calculated on Monthly Balances	<u>63,155.48</u>
Equals IPA Account Balance at 6/30/19	<u>\$ 1,664,425.44</u>

⁹ Piedmont is subject to a cap on overall gains or losses of \$1.6 million annually.

VII. AUDIT CONCLUSIONS AND RECOMMENDATIONS

Piedmont Natural Gas has correctly calculated its share of savings under its Service Schedule No. 316 Performance Incentive Plan for the plan year ended June 30, 2019. Based on the Company's filing, the net balance in the IPA Account as of June 30, 2019 was **\$1,664,425.44**. This balance will serve as the beginning balance for next year's calculations. **Staff recommends approval of the Company's IPA Account balances.**

The Company's Incentive Plan tariff provides for a comprehensive review of the gas purchasing and capacity management transactions and activities related to the plan by an independent consultant once every three (3) years. According to the tariff, Piedmont must follow an RFP process as outlined in the tariff for the selection of the consultant. Final consultant reports are filed in Docket No. 05-00165. The first triennial review process commenced in the fall of 2008. The latest review began in the fall of 2017 and was conducted by Exeter Associates. The report was finalized in November 2018 and a redacted report was filed with the Commission on January 14, 2019. The next triennial review is scheduled for the fall of 2020.

Staff has no further recommendations at this time.

ATTACHMENT 1

SERVICE SCHEDULE NO. 316

Performance Incentive Plan

Applicability

The Performance Incentive Plan (the Plan) replaces the annual reasonableness or prudence review of the Company's gas purchasing activities overseen by the Tennessee Regulatory Authority (Authority or TRA). The Plan does not preclude the Authority from conducting an independent investigation into or examination of any aspect of the Plan or the Company's conduct thereunder. The Plan is designed to provide incentives to the Company in a manner that will produce rewards for its customers and its stockholders and improvements in the Company's gas procurement and capacity management activities. Each plan year (Plan Year) will begin July 1st. The annual provisions and filings herein would apply to this annual period. The Plan will continue until the Plan is either (a) terminated at the end of a Plan Year by not less than 90 days notice by the Company to the Authority or (b) the Plan is modified, amended or terminated by the Authority on a prospective basis.

Overview of Structure

The Plan establishes a predefined benchmark index to which the Company's commodity cost of gas is compared. It also addresses the recovery of gas supply reservation fees and the treatment of off-system sales and wholesale interstate sale for resale transactions. The net incentive benefits or costs will be shared between the Company's customers and the Company on a 75%-customers / 25%- stockholders basis for the Plan Year commencing on July 1, 2006.

The Plan also is designed to encourage the Company to actively market off-peak unutilized transportation and storage capacity on pipelines in the secondary market. It also addresses the sharing of asset management fees paid by asset managers, and other forms of compensation received by the Company for the release and/or utilization of the Company's transportation and storage assets by third-parties. The Company shall notify the TRA Staff and the Consumer Advocate and Protection Division of the Office of the Attorney General (CAD) of all "other forms of compensation" prior to inclusion of such compensation in the Plan. The net incentive benefits or costs of such activities will be shared between the Company's customers and the Company utilizing a 75%-customers / 25%-stockholders formula commencing on July 1, 2006.

Every three years the Company's activities under the Plan will be reviewed comprehensively by an independent consultant. The first triennial review shall occur in the autumn of 2008. The scope of the review may include all transactions and activities related to the Performance Incentive Plan, including, but not limited to, natural gas procurement, capacity management, storage, hedging, reserve margins, and off-system sales.

The Company is subject to a cap on overall incentive gains or losses of \$1.6 million annually. In connection with the Performance Incentive Plan, the Company shall file with the Authority Staff,

and supply a copy to the Consumer Advocate and Protection Division of the Tennessee Attorney General (CAD), and update each year, a Three Year Supply Plan. The Company will negotiate/obtain firm capacity, interruptible capacity and/or gas supply pursuant to such plan.

Commodity Costs

Each month the Company will compare its *total city gate commodity and cost of gas*¹ to a benchmark dollar amount. The benchmark gas cost will be computed by multiplying total actual purchase quantities for the month by a price index. The monthly price index is defined as:

$$I = F_f(P_0K_0 + P_1K_1 + P_cK_c + \dots P_\alpha K_\alpha) + F_0O + F_dD; \text{ where} \\ F_f + F_0 + F_d = 1; \text{ and}$$

I = the monthly city gate commodity gas cost index.

F_f = the fraction of gas supplies purchased in the first-of-the-month market which are transported to the city gate under the Company's FT, negotiated FT, and IT service agreements.

P = the Inside FERC Gas Market Report price index for the first-of-the-month edition for a geographic pricing region, where subscript 0 denotes Tennessee Gas Pipeline (TGP) Rate Zone 0; subscript 1 denotes TGP Rate Zone 1; subscript C denotes Columbia Gulf Transmission (CGT) - mainline, and subscript α denotes new incremental firm services to which the Company may subscribe in the future.² The indices used for calculating Midwestern capacity shall be those produced by Natural Gas Intelligence for monthly purchases and Gas Daily for daily purchases. The commodity index prices will be adjusted to include the appropriate pipeline firm transportation (FT) and interruptible transportation (IT) commodity transportation charges and fuel retention to the city gate under the Company's FT, negotiated FT, and IT service agreements.³

¹ Gas purchases associated with service provided under Texas Eastern Transmission Company Rate Schedule SCT shall be excluded from the incentive mechanism. The Company will continue to recover 100 percent of these costs through its PGA with no profit or loss potential. Extension or replacement of such contract shall be subject to the same competitive bidding procedures that will apply to other firm gas supply agreements. In addition, the Plan will measure storage gas supplies against the benchmark index during the months such quantities are purchased for injection. For purposes of comparing such gas purchase costs against the monthly city gate index price, the Company will exclude any commodity costs incurred downstream of the city gate to storage so that the Company's actual costs and the benchmark index are calculated on the same basis.

² To the extent that the Company renegotiates existing reservation fee supply contracts or executes new reservation fee supply contracts with commodity pricing provisions at a discount to the first-of-the-month price index, the Company shall modify the monthly commodity price index to reflect such discount.

³ Capacity released for a month shall be excluded from the benchmark calculation for that month, excluding capacity released under an agreement where the Company maintains city gate delivery rights for the released capacity during such month.

K = the fraction (relative to total maximum daily contract entitlement) of the Company's total firm, negotiated firm, and interruptible transportation capacity under contract in a geographic pricing region, where the subscripts are as above.⁴

F_o = the fraction of gas supplies purchased in the first-of-the-month spot market which are delivered to the Company's system using transportation arrangements other than the Company's FT, negotiated FT, and IT contracts.

O = the weighted average of Inside FERC Gas Market Report first-of-the-month price indices, plus applicable IT rates and fuel retention, from the source of the gas to the city gate, where the weights are computed based on actual purchases of gas supplies purchased by the Company and delivered to the Company's system using transportation arrangements other than the Company's FT, negotiated FT, and IT contracts.

F_d = the fraction of gas supplies purchased in the daily spot market.

D = the weighted average of daily average index commodity prices taken from Gas Daily for the appropriate geographic pricing regions, where the weights are computed based on actual purchases made during the month. The commodity index prices will be adjusted to include the appropriate transportation commodity charges and fuel retention to the city gate.

Gas Supply Reservation Fees

The Company will continue to recover 100% of gas supply reservation fee costs through its PGA with no profit or loss potential. For new contracts and/or contracts subject to renegotiation during the Plan Year, the Company will solicit bids for gas supply contracts containing a reservation fee.

Off-System Sales And Sale For Resale Transactions

Margin on off-system sales and wholesale sale-for-resale transactions using the Company's firm, negotiated firm, and interruptible transportation and capacity entitlements (the costs of which are recovered from the Company's ratepayers) shall be credited to the Plan and will be shared with ratepayers. Margin on such sales will be defined as the difference between the sales proceeds and the total variable costs incurred by the Company in connection with the transaction, including transportation and gas costs, taxes, fuel, or other costs. For purposes of gas costs, the Company will impute such costs for its related supply purchases at the benchmark first-of-the-month or daily index, as appropriate, on the pipeline and in the zone in which the sale takes place. The difference between the Company's

⁴ Because the aggregate maximum daily contract quantities in the Company's FT contract portfolio vary by month over the course of the year, the weights will be recalculated each month to reflect actual contract demand quantities for such month. The contract weights, and potentially the price indices used, will also vary as the Company renegotiates existing or adds new FT contracts. As new contracts are negotiated, the Company shall modify the index to reflect actual contract demand quantities and the commodity price indices appropriate for the supply regions reached by such FT agreements. Citygate benchmark calculations shall be computed utilizing the Company's Design Day delivery requirements (deliveries required on a peak day).

actual costs and such index price is taken into account under the Plan. After deducting the total transaction costs from the sales proceeds, any remaining margin will be credited to commodity gas costs and shared with customers on a 75%- customer / 25%-stockholders basis.

Capacity Management

To the extent the Company is able to release transportation or storage capacity, or generate transportation or storage margin associated with off-system or wholesale sales-for-resale, the associated cost savings and/or asset management fees, or other forms of compensation associated with such activities, shall be shared by the Company and customers according to the following sharing formula: 75%-customers / 25%-stockholders. The Company shall notify the TRA Staff and the Consumer Advocate and Protection Division of the Office of the Attorney General (CAD) of all “other forms of compensation” prior to inclusion of such compensation in the Plan.

Hedging Activities

The Company may engage in hedging transactions⁵ within the PGA/ACA mechanism. Costs related to hedging transactions may be recovered through the ACA account; provided, however, that such costs recovered through the ACA account shall not exceed one percent (1%) of total annual gas costs.⁶ Costs related to hedging transactions recoverable through the ACA account shall be defined as all direct, transaction related costs arising from the Company’s prudent efforts to stabilize or hedge its commodity gas costs including, without limitation, brokerage fees, and the costs of financial instruments.

All costs related to hedging transactions, in addition to all gains and losses from hedging transactions, shall be credited/debited to the ACA account in the respective month that each hedging transaction closes. Costs related to hedging transactions that are incurred prior to the month that the hedging transaction closes shall be temporarily recorded in a separate, non-interest bearing account for tracking purposes.

Determination of Shared Saving

Each month during the term of the Plan, the Company will compute any gains or losses in accordance with the Plan. If the Company earns a gain, a separate Incentive Plan Account (IPA) will be debited with such gain. If the Company incurs a loss, that same IPA will be credited with such loss. During a Plan Year, the Company will be limited to overall gains or losses totaling \$1.6 million. Interest shall be computed on balances in the IPA using the same interest rate and methods as used in the Company's Actual Cost Adjustment (ACA) account. The offsetting entries to IPA gains or losses will be recorded to income or expense, as appropriate. At its option, however, the Company may temporarily record any monthly gains in a non-regulatory deferred credit balance sheet account until results for the entire Plan Year are available.

⁵ Hedging transactions, as used herein, shall include but not be limited to futures contracts, financial derivative products, storage swap arrangements, or other private agreements to hedge, manage or reduce gas costs.

⁶ One percent (1%) of total annual gas costs, for the purposes of establishing a recovery cap, shall be computed from the most current audited and approved gas costs for the Company in a TRA docket as of the first day of the month, 12 months prior to the first day of the period under audit.

Gains or losses accruing to the Company under the Plan will form the basis for a rate increment or decrement to be filed and placed into effect separate from any other rate adjustments to recover or refund such amount over a prospective twelve-month period. The Company is subject to a cap on overall incentive gains or losses of \$1.6 million annually.

Each year, effective November 1, the rates for all customers, excluding transportation customers who receive no direct benefit from any gas cost reductions resulting from the Plan, will be increased or decreased by a separate rate increment or decrement designed to amortize the collection or refund of the June 30 IPA balance over the succeeding twelve month period. The increment or decrement will be established by dividing the June 30 IPA balance by the appropriate volumetric billing determinants for the twelve months ended June 30. During the twelve month amortization period, the amount collected or refunded each month will be computed by multiplying the billed volumetric determinants for such month by the increment or decrement, as applicable. The product will be credited or debited to the IPA, as appropriate. The balance in the IPA will be tracked as a separate collection mechanism. Subject to approval by the TRA, the Company may also propose to refund positive IPA balances on an intra-year basis by making direct bill credits to all customers (except transportation customers) where such direct bill credit would be beneficial to customers.

Filing with the Authority

The Company will file calculations of shared savings and shared costs quarterly with the Authority not later than 60 days after the end of each interim fiscal quarter and will file an annual report not later than 60 days following the end of each Plan Year. Unless the Authority provides written notification to the Company within 180 days of the annual reports, the Incentive Plan Account shall be deemed in compliance with the provisions of this Service Schedule. The Authority Staff may expand the time for consideration of the annual reports by up to an additional sixty (60) days upon written notification to the Company or longer by mutual agreement or upon a showing of good cause.

Periodic Index Revisions

Because of changes in the natural gas marketplace, the price indices utilized by the Company, and the composition of the Company's purchased gas portfolio may change. The Company shall, within sixty (60) days of identifying a change to a significant component of the mechanism, provide notice of such change to the Authority. Unless the Authority provides written justification to the Company within sixty (60) days of such notice, the price indices shall be deemed approved as proposed by the Company.

Gas Supply Incentive Compensation Program

The Company has in place a Gas Supply Incentive Compensation Program (the Program) designed to provide incentive compensation to selected Gas Supply non-executive employees involved in the implementation of the Company's Incentive Plan and Secondary Marketing Programs in a manner consistent with the benefits achieved for customers and shareholders through improvements in gas procurement and secondary marketing activities. Participants in

the program receive incentive compensation as recognition for their contribution to the customers and shareholders of the Company through lower gas costs and gains related thereto. Performance measures are established for the Program each year.

During the time this tariff is in effect, the Company will continue to have in place the Gas Supply Incentive Compensation Program, as detailed to the Authority, as it relates to the Company's Incentive Plan. The Company will advise the Authority in writing of any changes to the Program, and unless the Company is advised within 60 days, said changes will become effective. The Authority may expand the time for consideration of such changes upon written notification to the Company. No filing for prior approval is required for changes in the performance measures.

Triennial Review

A comprehensive review of the transactions and activities related to the Performance Incentive Plan shall be conducted by an independent consultant once every three years. The initial triennial review shall be conducted in the autumn of 2008 and subsequent triennial reviews shall be conducted every third year thereafter. The TRA Staff, the CAD, and the Company shall make an effort to maintain a list of no less than five (5) mutually agreeable independent consultants or consulting firms qualified to conduct the aforementioned review. Any dispute concerning whether an independent consultant shall be added to the list shall be resolved by the TRA Staff, after consultation with the Company and the CAD. For each review, the TRA Staff shall select three (3) prospective independent consultants from that list. Each such consultant shall possess the expertise necessary to conduct the review. The TRA Staff shall provide the list of prospective independent consultants to the Company and the CAD via e-mail. The Company and the CAD shall have the right, but not the obligation, to strike one (1) of the prospective independent consultants from the list by identifying the stricken consultant in writing to the TRA Staff within thirty (30) days from the date the list is e-mailed. The TRA Staff shall select the independent consultant from those remaining on the list after the Company's and the CAD's rights to strike have expired. The cost of the review shall be reasonable in relation to its scope. Any and all relationships between the independent consultant and the Company, the TRA Staff, and/or the CAD shall be disclosed, and the independent consultant shall have had no prior relationship with either the Company, the TRA Staff, or the CAD for at least the preceding five (5) years unless the Company, the TRA Staff and the CAD agree in writing to waive this requirement. The TRA Staff, the CAD and the Company may consult amongst themselves during the selection process; provided, however, that all such communications between the parties shall be disclosed to any party not involved in such communication so that each party may participate fully in the selection process.

The scope of the triennial reviews may include all transactions and activities related either directly or indirectly to the Performance Incentive Plan as conducted by the Company or its affiliates, including, but not limited to, the following areas of transactions and activities: (a) natural gas procurement; (b) capacity management; (c) storage; (d) hedging; (e) reserve margins; and (f) off-system sales. The scope of each triennial review shall include a review of each of the foregoing matters as well as such additional matters as may be reasonably identified by the

Company, the TRA Staff, or the CAD relative to the operation or results of the Performance Incentive Plan.

The Company, the TRA Staff, or the CAD may present documents and information to the independent consultant for the independent consultant's review and consideration. Copies of all such documents and information shall be presented simultaneously to the independent consultant and all other parties.

The independent consultant shall make findings of fact, as well as identify and describe areas of concern and improvement, if any, that in the consultant's opinion warrant further consideration; however, the independent consultant shall not propose changes to the structure of the Performance Incentive Plan itself. The independent consultant shall complete and issue a written report of its findings and conclusions by July 1 of the year immediately following the triennial review. The report deadline may be waived by the written consent of the TRA Staff, the Company, and the CAD.

The independent consultant shall not propose changes to the structure of the Performance Incentive Plan itself; however, the TRA Staff, the Company, or the CAD may use the report of the independent consultant as grounds for making recommendations or proposed changes to the Authority, and the TRA Staff, the Company, or the CAD may support or oppose such recommendations or proposed changes. Any proposed changes to the structure of the Performance Incentive Plan resulting from the initial triennial review or subsequent triennial reviews, whether adopted by agreement or pursuant to a ruling of the Authority, shall be implemented on a prospective basis only beginning with the incentive Plan Year immediately following such agreement or ruling.

The cost of the triennial reviews shall be paid initially by the Company and recovered through the ACA account. The TRA Staff may continue its annual audits of the IPA and the ACA account, and the triennial reviews shall not in any way limit the scope of such annual audits. The CAD retains all of its statutory rights, and the triennial reviews shall not in any way affect such rights.
