23-00011-Name Change

Re: ExteNet Telecom Solutions Inc.
Request to Voluntarily Surrender Certificate

Dear Chairman Jones:

By this letter, ExteNet Telecom Solutions Inc. ("ETS") voluntarily surrenders its certificate of public convenience and necessity ("CCN") to provide competing local and interexchange telecommunications services granted in Docket No. 19-00087 and amended in Docket No. 23-00011. ETS does not provide telecommunications services in Tennessee and, due to changes in its business plan and market circumstances, has determined that it will not offer such services in the future. Therefore, ETS does not require its CCN and requests that the Commission cancel its CCN. ETSI understands its bond was recently cancelled, but this letter also requests that the Commission authorize the cancellation of the bond and return it to ETSI out of an abundance of caution.

Since ETSI does not provide telecommunications services in Tennessee, the public will not be affected by the surrender and cancellation of its CCN. Further, such surrender and cancellation are reasonable, necessary and will not be disruptive to the present or future public convenience. Should ETSI decide to offer intrastate telecommunications services in Tennessee in the future, it will seek the appropriate CCN from the Commission.

Questions or inquiries regarding any outstanding regulated obligations of ETSI should be directed to:
