RE: Support for the Metro District Energy System as a Non-Regulated Facility

To Whom It May Concern:

The undersigned is a customer of the District Energy System (the "DES") in Nashville, Tennessee currently owned by the Metropolitan Government of Nashville and Davidson County. We understand that ENGIE is seeking a declaratory ruling for the Public Utilities Commission to refrain from regulating the DES as a public utility, and are writing to support ENGIE's position. As the Commission is aware, there are many district energy systems similar to the DES in the United States that are not regulated as public utilities and we do not see a need for additional regulation of the DES here in Nashville.

Thank you for your consideration of our expression of support for ENGIE's petition for a declaratory ruling.

Sincerely,

Gaylord Entertainment Company d/b/a Wildhorse Saloon
