**ATMOS ENERGY CORPORATION'S MARCH 12, 2021 REPORT OF
EMERGENCY OPERATIONAL AND RESPONSE PLANS**

Pursuant to the Tennessee Public Utility Commission's March 19, 2020, Request and its September 16, 2020 Order Lifting Suspension of Disconnections of Service for Lack of Payment with Conditions, Atmos Energy Corporation submits the following report regarding its emergency operational and response plans and measures that have been instituted to ensure the continuity of safe and reliable service and to assist its customers during this time.

1. Effective February 26th, 2021, the Company resumed disconnections for non-payment for all classes of customers. Customers were informed of the Company's resumption of normal collection practices via mail the week of January 18th, 2021 and Commission Staff was informed that same week.

2. Pursuant to the Chairman's Motion, the Company reports the following statistics for the period beginning February 1, 2021 and ending February 28, 2021, which are set forth in more detail in the spreadsheets attached as **Exhibit 1**:

**a. Aggregate number of customers disconnected for nonpayment of service
by customer class:**

- i. Residential customers: None to date
- ii. Commercial customers: None to date

iii. Other customer classes: None to date

b. Aggregate number of customers who have entered a payment arrangement by customer class:

i. Residential customers: 1,709

ii. Commercial customers: 16

iii. Other customer classes: 3

c. Aggregate number and amount of delinquent customer accounts by customer class:

i. Residential customers:

1. Aggregate Number: 14,273

2. Aggregate Amount: \$1,094,340

ii. Commercial customers:

1. Aggregate Number: 1,413

2. Aggregate Amount: \$658,897

iii. Other customer classes:

1. Aggregate Number: 228

2. Aggregate Amount: \$85,224

d. Aggregate number and amount of delinquent customer accounts written off to bad debt expense, or allowance for bad debt, by customer class:

i. Residential customers

1. Aggregate Number: None to date

2. Aggregate Amount: None to date

ii. Commercial customers:

1. Aggregate Number: None to date

2. Aggregate Amount: None to date

iii. Other customer classes:

1. Aggregate Number: None to date

2. Aggregate Amount: None to date

3. Atmos Energy continues to employ the temporary safety measures outlined in its previous reports. This includes the use of the “soft close” procedure outlined in the Company’s April 6, 2020 letter filed in Docket No. 20-00047. As previously stated, it has worked well in Tennessee and the Company’s other jurisdictions. In addition to successfully limiting interactions between customers and employees, this procedure has also limited operations and maintenance expenses. Accordingly, the Company will be seeking permission to amend its tariff so it can regularly employ this option.

4. Atmos Energy also continues to take the following additional steps set forth in its prior reports: (i) having its employees wear face coverings when interacting with the public; (ii) recommending that customers take measures to avoid increased scam activity; (iii) ensuring that its critical teams continue to work from off-site locations; (iv) following a safety protocol when dispatching technicians to locations where there is a known quarantine, isolation, or other monitoring situation related to the coronavirus; (v) treating its employees and contractors as essential critical infrastructure workers needed to maintain critical natural gas services, and (vi) supporting the call to limit the spread of COVID-19 while ensuring the safety of the communities, its customers, and employees.

5. Atmos Energy continues to monitor the latest recommendations from the Centers for Disease Control and Prevention.

6. For the safety of its customers, employees, and the communities it serves, Atmos Energy intends to continue the temporary measures described in this report for at least sixty days after the declaration of emergency has passed.

Respectfully submitted,

NEAL & HARWELL, PLC
