Dear Peyton McGill,

The Tennessee Public Utility Commission has received your public comment(s) related to the suspension of utility service disconnections ordered during the State of Tennessee's declared state of public health emergency as a result of the COVID-19 pandemic. As with all related filings and correspondence received by the Commission, your comments have been added to the public record in Commission Docket No. 20-00047, which was established on March 24, 2020 to consider such issues.

Information and data concerning the Commission's actions related to utility service disconnections and the reports filed by the public utilities that it regulates may be found on the agency's website at <https://www.tn.gov/tpuc/agency/tpuc-covid-19-information.html> and in Commission Docket No. 20-00047 at <https://share.tn.gov/tra/dockets/2000047.htm>. Please note, the Commission does not have regulatory authority or jurisdiction over utility districts, utility cooperatives, or municipally-owned utilities like the Nashville Electric Service.

Thank you for your interest in this important matter.

Sincerely,

Chairman Kenneth C. Hill
