PIEDMONT NATURAL GAS COMPANY, INC.
Docket No. 20-00086
Consumer Advocate's Second Discovery Request
Date Issued: September 23, 2020
Date Due: October 12, 2020

2-148. Refer to the "Summary" tab of the "5G Rent Adj" spreadsheet included with the Company's filing that provides the test period and attrition period balances for rent expense. Specifically refer to Cell I28 of this spreadsheet that provides the test period amount for Tennessee direct lease expense of $7,500. Provide the source and support for this amount that appears as a hard-coded number.

RESPONSE: Refer to the Company's response to MFR 40 attachment 1 of 13 in Excel column B on the tab labelled "MFR 40" for the monthly expense that aggregates to $7,500.

Also refer to the Company's response to MFR 40 attachment 11 of 13 for the lease agreement that supports the $7,500 expense.

Name and Title of Preparer: Laura Hager, Lead Rates & Regulatory Strategy Analyst

Name and Title of Responsible Person: Quynh Bowman, Director - Gas Rates & Regulatory Strategy

Response provided by Piedmont Natural Gas Company, Inc. on October 6, 2020.

Docket No. 20-00086
Consumer Advocate's Second Discovery Request
Date Issued: September 23, 2020
Date Due: October 12, 2020

2-149. Refer to the "AC 931008" tab of the "5G Rent Adj" spreadsheet included with the Company's filing that provides the test period and attrition period balances for rent expense. The description in this spreadsheet appears to designate this data as a return expense for DEBS. Provide a more complete description of this data along with an explanation of why it is included in rent expense.

RESPONSE: The Company provided additional information regarding the charges to account 0931008 in its response to CA DR 1-36 as well as in its supplemental response to CA DR 1-36 (the supplemental information provided by the Company in response to Mr. Dan Whitaker's September 17, 2020 email to Piedmont's counsel). See row 78 of the original attachment for an explanation of these charges.

This expense is for the use of Service Company assets, therefore, is in effect a rent charge to Piedmont for that use.

2-164. Refer to the "Tab D TN Direct" tab of the "6 Detail Plant in Service and Depr Exp" spreadsheet included with the Company's filing that provides the test period and attrition period balances for depreciation expense. It appears that the Company has calculated monthly depreciation expense by taking the end-of-period monthly plant balances instead of the average monthly plant balances. Typically, average monthly plant balances are used in calculating forecasted depreciation expense in order to recognize that plant is added ratably throughout the month. Explain the Company's rationale for calculating its monthly depreciation expense forecast by using end-of-period plant balances.

RESPONSE: The Company's computation of attrition period depreciation expense on the basis of end-of-month balances is consistent with how the Company computes and records actual depreciation expense. Therefore, the Company's approach in this rate case of using the forecasted end-of-month plant balance in the computation of attrition period depreciation expense most closely represents what will actually occur in the attrition period.

Specifically refer to Cell D28 of this spreadsheet that provides the test period balance for Regulatory Amortization Expense of $3,142,867. Provide the source and support for this amount that appears as a hard-coded number.

RESPONSE: This amount is the sum of the test period O&M expenses for deferred pension, deferred environmental, and deferred rate case and deferred flood amortizations. These test period expenses were handled consistent with the treatment granted in the Company's last general rate case.

- Deferred Pension: $2,686,343 (see MFR 12 "5B_DefPensionAmort Adj")
- Deferred Environmental: $264,074 (see MFR 12 "5B DefEnv Adj")
- Deferred Rate Case: $82,485 (see MFR 12 "5B DefRateCase Adj")
- Deferred Flood: $109,966

Deferred Environmental, deferred rate case, and deferred flood expense sum to A/C 928000 on the Tennessee Allocated Income Statement for the 12-month period ending March 31, 2020.

2-168. Refer to the "Exhibit (KAC-4)" tab of the "KAC Exhibits 6-29" spreadsheet included with the Company's filing. Specifically refer to Column D of this spreadsheet that provides the Company's proposed "Cumulative PGA Demand" rates and provide the following information.

a. Provide the source and support for the calculation of each proposed "Cumulative PGA Demand" rate.
b. Refer to the Commission Order in Docket No. 11-00144. Specifically refer to Paragraph 16b of this Order on Page 5 where it states the following: "That the Company shall revert to filing for adjustments to fixed gas cost recovery through the PGA going forward." Given the Commission's Order in Docket No. 11-00144 requiring adjustments to fixed gas cost through the PGA process instead of a base rate case, explain the Company's rationalization for the proposed changes to fixed gas costs in this rate case.

RESPONSE:

a. The computation for each of the proposed "Cumulative PGA Demand" rates is shown in the same "KAC Exhibits 6-29" file. See the tab labeled "Demand PGA Collection". The allocation factors for each rate schedule are derived from the Proportional Responsibility ("PR") method discussed in the Embedded Cost of Service and Rate Design testimony of Piedmont Witness Paul Normand. Specifically, Exhibit PMN-9-COS, page 50 contains the PR allocation factors by rate class.

b. Since the Company was exploring the class cost allocation and rate design for its base margin rates in this proceeding, it was natural and easy extension to also have the consultant (Paul Normand) review its PGA Demand billing rates in this rate case to identify any potential

opportunities to improve the alignment between the collection of fixed gas costs with the level of costs incurred by each rate class. As a result of this review, the Company proposed PGA Demand billing rates resulting from the Proportional Responsibility (PR) method recommended and discussed in the Embedded Cost of Service and Rate Design testimony of Piedmont Witness Paul Normand. The Commission has the discretion to determine whether or not to adopt the proposed PGA adjustments in this proceeding.

2-169. Refer to the "Service Schedule No. 307 – Balancing, Cash-Out, and Agency Authorization" included in the Company's tariff. Specifically refer to the "Weighted Index Price" percentages of this rate schedule that currently have a 50/50 weighting between the Tenn 500 and Tenn 800 pipelines. Provide a calculation of the actual percentages for these two pipelines during the test period.

RESPONSE: The "Weighted Index Price" percentages included in Rate Schedule 307 refers to the 50/50 split of Firm Transportation capacity the Company holds on Tennessee Gas Pipeline (TGP). The Company pays a reservation fee for 25,750 dekatherms of 500 Leg to Nashville Citygate capacity as well as 25,750 dekatherms of 800 Leg to Nashville Citygate capacity. This calculation is based on the two primary capacity paths that Piedmont pays reservation fees on TGP with a 50/50 weighting. The utilization of these capacity paths varies based on the forecasted lowest total cost needed to meet the Citygate demand requirements each day. The Company's brokers make all deliveries at the TGP Nashville Citygate, which is why only the amount of Firm Transportation from TGP is used in the "Weighted Index Price" calculation.

See CONFIDENTIAL attachment showing a calculation of the actual percentages of utilization for the TGP 500 Leg capacity (17.3%) and TGP 800 Leg capacity (82.7%) during the test period (4/1/2019 – 3/31/2020).

2-170. Refer to the "Exhibit (KAC-4)" tab of the "KAC Exhibits 6-29" spreadsheet included with the Company's filing. Specifically refer to Column C of this spreadsheet that provides the Company's proposed base rates for this rate filing. It appears that the Company is now proposing to "unlink" the existing identical rate structure between its firm and interruptible (Rates 303, 304, 313 and 314) commodity rates that have been in place for some time. Provide the Company's rationalization for unlinking this existing rate structure.

RESPONSE: The proposed base margin rates reflected in Exhibit (KAC-4) were designed considering several factors including the results of a cost of service study, which is discussed in the direct testimony of witness Paul Normand. In designing the rates, it must be recognized that interruptible customers are unique in consumption characteristics in that Piedmont can interrupt these customers on extremely cold days or for certain system constraints. The cost of service study allocates the transmission fixed plant costs on a design day basis; therefore, assuming interruptible customers would not be receiving gas service. Since interruptible customers should not be assigned fixed plant costs like firm customers, the results of the cost of service study show much higher rates of return for the interruptible customer rate classes based on Piedmont's existing rate design. These results are shown on page 18 of 23 in Paul Normand's testimony and in Exhibit PMN-5-COS.

Using these cost of service results and deriving a specific total revenue target, the individual target revenues were established for each of the rate classes as shown on pages 1 and 2 of Exhibit PMN-4-COS. The proposed target revenues for the interruptible rate classes were moderated to reflect

a reduced revenue level more consistent with their non-firm status. These targets were then mapped into the rate design on pages 4, 5, and 6 of Exhibit PMN-4-COS. Holding the monthly charges equal to the existing $800 level as supported by the cost of service results, these monthly charge revenues were then subtracted from the rate class revenue target to determine the remaining revenues to be recovered from the existing blocks based on the existing approved levels, and increasing each block uniformly to achieve the proposed revenue target for the rate class. The results of the moderated revenue levels do not mitigate the high rate of return for these interruptible rate classes (reference Exhibit PMN-5-COS, pages 23 and 24 with respect to the relative rate of return to total company as shown on lines 6 and 34). However, the overall proposed rate design does employ a more reasoned approach toward a more balanced rate of return for all the firm and non-firm customer rate classes.

Specifically refer to Row 34 of this spreadsheet that provides the test period and attrition period balance of AFUDC of $3,152,246 and $3,001,310. Provide the source and support for these two amounts that appear as hard-coded numbers.

RESPONSE: The $3,152,246 amount represents the sum of test period amounts recorded to A/C 0432000 and A/C 0419110. For support, see the Company's response to MFR 11 on the "TN Alloc IS March 2020" tab for the TN Allocated Income Statement ending March 31, 2020.

The attrition period amount of $3,001,310 was calculated by multiplying the attrition period CWIP amount in Cell H44 by the overall rate of return after adjustment for proposed rates in Cell N73 ($42,271,971 x 7.10%).

2-174. Refer to the "Revenue Requirement TN" tab of the "QPB Exhibits 6-27-20" spreadsheet included with the Company's filing. Specifically refer to Cells C79 to K110 of this spreadsheet that provides the attrition period income tax calculation. Explain the Company's rationale for excluded the Schedule M Adjustments included on MFR 48 from the calculation of income taxes.

RESPONSE: Temporary tax differences are excluded from the calculation because Piedmont will still incur the tax expense at a future date. Historically, the statutory tax rate aligns closely with the tax expense that accounts for permanent tax differences for Piedmont-TN. See attachment herein for analysis. The amounts were excluded for simplicity of the tax expense calculation presented by Piedmont in this rate case, consistent with the tax expense calculation method previously accepted by this Commission for ratemaking for Piedmont.

2-177. Refer to the "Revenue Requirement TN" tab of the "QPB Exhibits 6-27-20" spreadsheet included with the Company's filing. Specifically refer to Row 26 of this spreadsheet that provides the basis for the Company's Investment Tax Credit (ITC) amortization for the attrition period of $5,077 which appears to be calculated on the "ITC Summary" tab of this same workbook. Provide the following information related to ITC.

a. Provide the monthly amortization and balance of ITC from May 2011 (the end of the last rate case in Docket 11-00144) through March 2020.
b. Refer to Exhibit PKP-1, Schedule 3, Page 1 from the Company's last rate case in Docket No. 11-00144. Specifically refer to Line 23 of this schedule that presents Unamortized ITC-Pre '71 as a deduction to Rate Base. Explain why the Company proposed to reflect the Unamortized ITC as a deduction to Rate Base in Docket 11-00144 and has now presented the amortization of ITC as a deduction to income in the current case.

RESPONSE:

a. See attachment.

b. Piedmont's 2011 rate case: Exhibit PKP-1, Schedule 3, Page 1 represents the unamortized ITC-Pre '71 as a $0 deduction to rate base. It was a $0 rate base deduction because there was no unamortized ITC-Pre '71 on Piedmont's balance sheet as of the test period or attrition period. Furthermore, the federal income tax expense amounts shown on Line 11 of Exhibit PKP-1, Schedule 3, Page 1 included the reduction of federal income tax expense caused by the amortization of federal investment tax credit. For presentation purposes on Exhibit PKP-1, Schedule 3, Page 1, the annual amortization expense of the federal investment tax credit was aggregated in the row with all other federal tax expense.

PIEDMONT NATURAL GAS COMPANY, INC.
Docket No. 20-00086
Consumer Advocate's Second Discovery Request
Date Issued: September 23, 2020
Date Due: October 12, 2020

Piedmont's 2020 rate case: There is no unamortized ITC-Pre '71 on Piedmont's balance sheet as of the test period or attrition period. Therefore, there is -- just like in the 2011 rate case -- a $0 rate base deduction for unamortized ITC-Pre '71 in this current rate case. This was emphasized on Tab "Revenue Requirement TN" of "QPB Exhibits 6-27-20" spreadsheet, which shows Unamortized Investment Tax Credits as a $0 rate base deduction on excel Row 51. Furthermore, the amortization of the federal ITC is reflected as a reduction of federal income tax expense in excel Row 26 in this same tab. For presentation purposes, Exhibit (QPB-7) page 1 spikes out in a separate row the expense for amortization of investment tax credits rather than aggregating it in the row with the expense for federal income taxes.

Docket No. 20-00086
Consumer Advocate's Second Discovery Request
Date Issued: September 23, 2020
Date Due: October 12, 2020

2-178. Refer to the "Net Plant Factor Actual" tab of the "WorkingCapital Adj" spreadsheet included with the Company's filing that provides the support for the test period and attrition period net plant allocation factors. Specifically refer to Cells C10 to D13 and C25 to D28 of this spreadsheet that provides the historic balances of plant and CWIP by state for 2018 and 2019. Provide the source and support for the monthly data included in these cells that appear as hard-coded numbers.

RESPONSE: See attachment.

BEFORE THE TENNESSEE REGULATORY AUTHORITY

NASHVILLE, TENNESSEE

November 10, 2010

IN RE:	)	
	)	
PETITION OF PIEDMONT NATURAL GAS COMPANY, INC. FOR APPROVAL OF DEFERRED ACCOUNTING TREATMENT FOR FLOOD RESPONSE COSTS	)	**DOCKET NO. 10-00185**

ORDER GRANTING REQUEST FOR DEFERRED ACCOUNTING

This matter came before Chairman Mary W. Freeman, Director Eddie Roberson and Director Sara Kyle of the Tennessee Regulatory Authority ("TRA" or the "Authority"), the voting panel assigned to this Docket, at a regularly scheduled Authority Conference held on September 27, 2010 for consideration of the *Petition of Piedmont Natural Gas Company, Inc. for Approval of Deferred Accounting Treatment for Flood Response Costs* ("*Petition*") filed on September 9, 2010 by Piedmont Natural Gas Company, Inc. ("PNG," "Piedmont" or "Company").

BACKGROUND AND *PETITION*

The *Petition* requests deferred accounting treatment for direct and incremental costs related to flooding in the Nashville area. On May 1st and 2nd, 2010, Piedmont's service area was struck by severe thunderstorms and torrential rains resulting in unprecedented flooding in the Nashville area. Through PNG's August 2010 accounting month, the Company asserts that flood related costs total $912,055.10. The Company seeks approval to defer these expenses, as well as ongoing incremental costs, resulting from the flooding. The Company reports that the

$912,055.10 incremental operations and maintenance costs are comprised of: contract labor and services of $489,976.40; PNG overtime of $98,743.81; materials of $318,334.89; and other expense of $5,000.

The Consumer Advocate and Protection Division of the Office of the Attorney General ("Consumer Advocate") filed a *Petition to Intervene* on September 22, 2010. At the September 27, 2010 Authority Conference, the Consumer Advocate stated that the purpose of the intervention was to insure that the Consumer Advocate would be able to review Piedmont's "back-up" materials that supported the costs alleged in the *Petition.* The Consumer Advocate did not oppose the Company's request for deferral provided it was not prevented from raising issues relating to the costs themselves at the time those costs are considered by the Authority. Counsel for the Company stated that PNG would not object to sharing informally with the Consumer Advocate information related to the expenses being deferred.

FINDINGS AND CONCLUSIONS

The panel found that the proposed treatment of the flood costs is an accepted regulatory accounting treatment and is consistent with previous Authority rulings with respect to deferral of certain costs.[1] In approving the request for deferral, the panel also specifically stated that the deferral of these costs does not equate to a determination that the Company will be allowed to recover such costs when they are considered by the Authority. Thereafter, based on the record, the panel voted unanimously to approve Piedmont's *Petition* to defer flood-related costs for potential recovery in future periods.

IT IS THEREFORE ORDERED THAT:

The *Petition of Piedmont Natural Gas Company, Inc. for Approval of Deferred Accounting Treatment for Flood Response Costs* is approved.

RESPONSE: Cell E11: See tab "Other Insurance" tab in "5I_Insurance Adj" spreadsheet Cell C24 for calculation of monthly amortization.

Cell I11: The balance in A/C 0165075 at March 31, 2020 amortized for the remainder of the year is $1,104,514 / 9 = $122,724.

Cell I20: The estimated balance in A/C 0165075 for Piedmont insurance premiums for property and liability insurance amortized for 12-months. See tab "Summary TN 2020" Cell D43 and Cell D44. In preparation of this data request response, the Company has identified that this amount should have included an additional $1,269,966 for Worker's Compensation on tab "Summary TN 2020" Cell D45. This inclusion of Workers Compensation would increase working capital to $206,956 instead of $106,843 as calculated on the workpaper.

PIEDMONT NATURAL GAS COMPANY, INC.
Docket No. 20-00086
Consumer Advocate's Second Discovery Request
Date Issued: September 23, 2020
Date Due: October 12, 2020

2-191. Refer to the "G" tab of the "WorkingCapital Adj" spreadsheet included with the Company's filing that provides the test period balances for overhead and fleet. Specifically refer to footnote #2 on this spreadsheet which reads as follows: "Monthly balances reflected in Fleet Cost Pool 0803290 represent balances for total Piedmont. Piedmont is working to correct the allocation process so as to properly reflect balances by jurisdiction in this account." Explain this situation more fully as well as an update on Piedmont's process to correct this.

RESPONSE: Piedmont transitioned to a new fleet cost allocation process in the first quarter of 2020. The new allocation process was run through Maximo, Duke's Enterprise Asset Management (EAM) system, and was intended to allocate fleet costs based on fleet usage by employee. The new process did not operate as expected therefore Piedmont has since transitioned back to the original process which is run through PeopleSoft and allocates fleet costs based on labor charges by state.

As a result of this recent change in allocation process, the monthly balances in the fleet cost pool accounts for the Test Period are accurate for Piedmont as a whole (i.e. accurate on the books for Total Company). However, the balance for any specific Piedmont state jurisdiction for the Test Period is askew if quantified by parsing out and applying the usual allocation factors to specific balances at the BU level. For this reason, Piedmont did not quantify the Piedmont-TN balance for this working capital amount by taking 100% of the balance for TN Direct BU's and a portion of the balance for Piedmont 3-State BUs. Instead, given the known concerns with how the fleet cost was allocated by BU during the Test Period, Piedmont found it more reasonable and appropriate

for ratemaking in this proceeding to instead quantify the Piedmont TN balance by applying the TN net plant factor to the Total Company balance. For this reason, the monthly balances related to the fleet cost pool accounts 0803290/0803400 as seen on Tab G Excel column D in the file named WorkingCapital_Adj reflect the Total Company balance; and the appropriate net plant factor was applied to each monthly balance to arrive at the Tennessee portion of fleet costs.

2-192. Refer to the "H" tab of the "WorkingCapital Adj" spreadsheet included with the Company's filing that provides the test period balances for accounts payable related to construction work in progress. Specifically refer to Cells E10 to L22 of this spreadsheet that provide the test period monthly balances by subaccount. Provide the source and support for the monthly data included in these cells that appear as hard-coded numbers, by subaccount from May 2011 (the end of the last rate case in Docket 11-00144) through March 2020.

RESPONSE: The monthly data for Accounts Payable related to CWIP for the period May 2011 - March 2020 was provided in the Company's response to CA DR 1-45; see tab labeled "AP-CWIP". The source for this information is PeopleSoft Financials, Piedmont's general ledger system of record.

PIEDMONT NATURAL GAS COMPANY, INC.
Docket No. 20-00086
Consumer Advocate's Second Discovery Request
Date Issued: September 23, 2020
Date Due: October 12, 2020

2-197. Refer to the response to Consumer Advocate Request 1-96. Provide a comprehensive explanation as to how the balances of the following accounts are assigned and/or allocated to Tennessee: i) 190001 – ADIT: Prepaid: Federal Taxes, ii) 190002 – ADIT: Prepaid" State Taxes and iii) 190156 Deferred Tax_State NOLs.

RESPONSE: All book/tax timing differences and corresponding ADIT are assigned/allocated to the Tennessee jurisdiction consistently. Book/tax timing items that are captured on Tennessee Direct business units are 100% assigned to the Tennessee jurisdiction. Book/tax timing items that are captured on Piedmont's Three-State business units are allocated to the Tennessee jurisdiction based on a Net Plant Allocation factor for Tennessee. Book/tax timing items that are captured on any other business units are not allocated to the Tennessee jurisdiction.

Docket No. 20-00086
Consumer Advocate's Second Discovery Request
Date Issued: September 23, 2020
Date Due: October 12, 2020

2-198. Refer to the response to Consumer Advocate Request 1-109. Provide a comprehensive explanation for how the following book/tax timing differences are determined for Tennessee, including whether such amounts reflect amounts allocated from total Piedmont 3-state balances or whether such items are calculated from Piedmont-Tennessee direct assets/costs: i) T13A08 Book Depreciation/Amortization, ii) T13A28 Tax Depreciation/Amortization, iii) T13A30 Tax Gains/Losses, and iv) T13B33 T&D Repairs – Annual Adj.

RESPONSE:

i) T13A08 Book Depreciation/Amortization - This is a schedule M to remove book depreciation expense for Tax Return purposes. Book depreciation captured from transactions in the General Ledger.

ii) T13A28 Tax Depreciation/Amortization - This is a schedule M to add tax depreciation expense for Tax Return purposes. Tax depreciation is estimated during the year and trued-up to the tax return once filed.

iii) T13A30 Tax Gains/Losses - This is a schedule M to add tax gains and/or losses for Tax Return purposes. Tax gains and/or losses is estimated during the year and trued-up to the tax return once filed.

iv) T13B33 T&D Repairs – Annual Adj. - Certain costs that are capitalized and depreciated over the life of the asset for books can be immediately expensed for tax. Costs that are for the repair or replacement of existing assets and are not increasing the capacity or lengthening the life of the asset qualify for this treatment. Immediate expensing of these costs for tax purposes while

continuing to depreciate the costs over the life of the assets for books creates a book-tax temporary timing difference. Tax repairs is estimated during the year and trued-up to the tax return once filed. All book/tax timing differences and corresponding ADIT are assigned/allocated to the Tennessee jurisdiction consistently. Book/tax timing items that are captured on Tennessee Direct business units are 100% assigned to the Tennessee jurisdiction. Book/tax timing items that are captured on Piedmont's Three-State business units are allocated to the Tennessee jurisdiction based on a Net Plant Allocation factor for Tennessee. Book/tax timing items that are captured on any other business units are not allocated to the Tennessee jurisdiction.

2-203. Refer to the Company's Attachment 5D_Payroll Adj.xlsx. Provide the source and support for the hard-coded adjustments of $(58,559) for the Test Period and the $(61,821) for the Attrition Period as shown on the "Summary" tab of this file. Additionally, provide the name, Test Period pay, and position for any employee engaged in Lobbying activities by either Piedmont TN or Duke Energy.

RESPONSE: Refer to the Company's response to CA DR 2-39 for the support for the test period adjustment of $58,559. As shown in that support, there is only one Piedmont employee who performs lobbying activities for Piedmont's Tennessee operations.

The attrition period adjustment of $61,821 is not a hard coded number, it is a formula that applies a growth rate found in cell G38 on Tab A in the same file.

The CONFIDENTIAL attachment contained herein provides the employee name, test period labor charges and title for the DEBS employees who work in Legislative Affairs, Federal Government and Corporate Affairs, and Regulatory Affairs whose costs are allocated in part to Piedmont and then further allocated to Piedmont-TN. These employees perform both lobbying activities and non-lobbying activities on behalf of Duke Energy Corporation.

Docket No. 20-00086
Consumer Advocate's Second Discovery Request
Date Issued: September 23, 2020
Date Due: October 12, 2020

2-208. Refer to Company Attachment MFR 38 Confidential Attachment.pdf. Provide the amounts allocated to Piedmont-TN at each payout opportunity (minimum, target, and maximum) and what a hypothetical payout at only the 100% target would be for the years ending 2016-2019. Additionally, separate these amounts by the following: Piedmont TN Employees, Duke Employees, and Duke Executives.

RESPONSE: See attachment for 2018 and 2019. During 2016 and 2017, Piedmont operated under a different incentive plan. The data needed to perform such a hypothetical payout computation at target for 2016 and 2017 is no longer available.

Consumer Advocate's Second Discovery Request
Date Issued: September 23, 2020
Date Due: October 12, 2020

2-213. Refer to Attachment 3 to this discovery. The charges presented on this file come from "5K_Other AG Adj.xlsx" tab "Other A&G Detail". Provide answers to the following questions regarding the charges presented in Attachment 3:

a. Are these charges appropriately assigned to Tennessee? (provide answer in columns D&E of the attached excel)
b. For charges totaling more than $10,000 provide a detailed response explaining how the charge benefits operations in Tennessee.

RESPONSE: The charges presented on Attachment 3 of the Second Discovery Request were aggregated charges comprised of over 9,500 individual transactions. Given the large number of transactions, Piedmont performed analytical procedures to determine the reasonableness of the assignment of the charges to the Company's Tennessee jurisdiction for the purposes of this data request response.

Furthermore, Piedmont relies on internal controls and oversight in the financial reporting process to gain assurance that financial information is accurate. For example, first-line supervisors should review and approve, when appropriate, source documentation resulting in a charge by the Service Company to Piedmont. Internal controls related to financial reporting are maintained and tested as part of the annual Sarbanes-Oxley compliance program. See the Company's response to CA DR 1-34 for CEO and CFO certification and external auditor opinion on financial reporting internal controls.

Based on the evidence provided, Piedmont concluded that the expenses were reasonable.
See attachments. One attachment is CONFIDENTIAL and contains all of the transactions that aggregate to the charges presented on Attachment 3 of the Second Discovery Request.
