Docket No. 20-00086
Consumer Advocate's Second Discovery Request
Date Issued: September 23, 2020
Date Due: October 12, 2020

2-70. Refer to the "Accum Dep 12.31.2021" tab of the "QPB Exhibits_6-27-2020" spreadsheet included with the Company's filing that provides the basis for the attrition period accumulated depreciation of $506,047,002 in Cell D59. Provide the source and support for the subaccount balances segregated between Tennessee Direct Plant and Piedmont Allocated Plant and split between monthly accruals, retirements and adjustments from April 2020 through December 2021.

RESPONSE: Please see attachment for support for the "Accum Dep 12.31.2021" schedule. Forecasted accumulated depreciation aligns with forecasted plant balances and depreciation rates consisted of current rates through 12/31/2020 and proposed rates during the Attrition Period.

Depreciation Policy & Rates

Depreciation expense is computed monthly using the straight-line method applied to end-of-the-month depreciable costs.

The depreciation rates currently in effect are from a study performed on the Company's depreciable Tennessee property at October 31, 2009. Piedmont adopted these rates effective March 1, 2012, as approved by the TRA in Docket No. 11-00144. In this current general rate case proceeding, Piedmont is requesting approval to adopt the recommendations included in the new depreciation study based on the Company's depreciable Tennessee property in service as of December 31, 2019. Piedmont is requesting approval from the Commission to adopt these recommendations on January 1, 2021.

Under our current depreciation rates, our Attrition Period depreciation expense would be $38,087,145. If Commission approves the Company's request to adopt the depreciation study recommendations, the Attrition Period depreciation expense would be $35,000,905. Adopting the recommendations would decrease depreciation expense by $3,086,240 or 8%.

Consumer Advocate's Second Discovery Request
Date Issued: September 23, 2020
Date Due: October 12, 2020

2-73. Refer to the "Tab G Net Additions" tab of the "6 Detail Plant in Service and Depr Exp" spreadsheet that computes the plant in service net additions for the attrition year. Specifically refer to Cell C1 of this spreadsheet that states "See MFR #52 for breakdown of additions and retirements by Utility Account." Next refer to MFR #52 and note that retirements are not included in the calculation. Provide the source and support for the monthly budgeted retirements by subaccount for both Tennessee Direct Plant and Piedmont Allocated Plant from April 2020 through December 2021 that ties to Row 31 of the "Tab G Net Additions" tab of the "6 Detail Plant in Service and Depr Exp" spreadsheet.

RESPONSE: See 2-65 Attachment.

Date Due: October 12, 2020

2-74. Refer to the "Accum Dep 3.31.2020" tab of the "QPB Exhibits_6-27-2020" spreadsheet included with the Company's filing that provides the basis for the test period accumulated depreciation of $462,673,218 in Cell O86. Specifically refer to Cells A88 to O91 of this spreadsheet that claim be "Restated to compare to Jan, Feb and March 2020 Balances" and provide a total accumulated depreciation balance of $459,520,450 in Cell O91. Provide the following information related to these two amounts.

a. Provide the source and support for the amounts in Cells A88 to O90.
b. Explain why the amounts in Cells A88 to O90 are deducted from the total accumulated depreciation balance on Row 86 of this spreadsheet.

RESPONSE:

a. See attachment.

b. The amounts represent dollars spent to remove assets from the field, commonly referred to as RWIP. These dollars are a debit to the reserve, as they represent the cost the Company has incurred to remove the assets from service. Piedmont books these costs to a separate 108 account from the depreciation reserve, but still appropriately classifies these costs as a component of the depreciation reserve.

Date Due: October 12, 2020

2-75. Refer to the "Tab H Proposed Depr Rates" tab of the "6 Detail Plant in Service and Depr Exp" spreadsheet included with the Company's filing that provides the basis for the current and proposed depreciation rates and provide the following information.

a. Confirm that this spreadsheet in fact wholly represents the entire depreciation study performed by Company witness Watson that is attached as Appendix A to his direct testimony. Specifically, we note that Appendix A contains additional footnotes that do not appear in this spreadsheet. In addition, we also note that the reconciling items in Cells A80 to D92 of this spreadsheet do not match Appendix A. Finally, we note that the detail for the reserve difference in Cells B97 to H103 do not appear in Appendix A.
b. Refer to Cells B97 to H103 of this spreadsheet that calculate the amortization for the reserve difference of $155,695. It appears that the Company has calculated and is proposing a monthly amortization $12,975 which would fully amortize the reserve difference over a one-year period instead of the five-year period recommended in Footnote #10. Confirm the Company's intention with respect to this calculation.
c. Refer to Cells B97 to H103 of this spreadsheet that calculate the amortization for the reserve difference of $155,695. Provide the source and support for the components of the reserve difference which are presented here as hard-coded numbers.
d. Refer to Cells J12 to J65 of this spreadsheet which contain the Company's proposed depreciation rates. Specifically, we note that while these depreciation rates are presented as a three-digit percentage (for example 2.89% for account 27800-M&R Equipment) they are in fact carried out to 15 digits in this spreadsheet and then transferred over as 15-digit numbers on the "Tab D TN Direct" tab of this spreadsheet and are then used to calculate attrition period depreciation expense. Confirm the Company's intention with respect to its proposed depreciation rates by stating whether these are intended to be 3-digit or 15-digit percentages.

RESPONSE:

a. Excel column J on Tab H contains the proposed depreciation rates that are being used in the depreciation expense calculations reflected on Tabs D and E within file 6_Detail_Plant in Service and Depr Exp. The proposed depreciation rates reflected in column J of Tab H are identical to the proposed depreciation rates reflected in Appendix A of witness Watson's testimony.

b. The Company's intention is to amortize the reserve difference over a 5 year period. $155,695.79 as reflected in Excel cell L64 on Tab H in file 6_Detail_Plant in Service and Depr Exp represents that annual amount of amortization for this reserve balance.

c. See witness Watson Exhibit B Excel rows 58-82.

d. The Company's practice is to input depreciation rates used to calculate actual depreciation expense into PowerPlan, the system of record for construction assets, carried out to 2 decimal places.

2-76. Refer to the "Tab D TN Direct" tab of the "6 Detail Plant in Service and Depr Exp" spreadsheet included with the Company's filing that provides the basis for the current and proposed depreciation rates. In addition, refer to the "Depreciation Expense" tab of the "QPB Exhibits 6-27-2020" spreadsheet included with the Company's filing that appears to also provide the basis for the current and proposed depreciation rates. Explain the difference between these two schedules. Specifically, we note that the "Tab D TN Direct" tab appears to use the proposed depreciation rates from the Company's depreciation study while the "Depreciation Expense" tab appears (for the most part) to use the current depreciation rates as the proposed depreciation rates.

RESPONSE: The depreciation rates reflected in the column labelled (B) on the Depreciation Exp tab included in "QPB Exhibits 6-27-2020" contain the existing depreciation rates. It was not the Company's intention to populate this column with the existing depreciation rates; rather, the Company intended to populate this column with the proposed depreciation rates. Nevertheless, this mistake in column (B) on this tab ultimately had no impact; the values in this column were not used in the computation of attrition period depreciation expense that flows to the Company's revenue requirement computation.

2-77. Refer to the "Tab J MFR 54" tab of the "6 Detail Plant in Service and Depr Exp" spreadsheet included with the Company's filing that provides the basis for the ratio of net cost of removal to plant retirements and provide the following information.

a. Provide the source and support for the retirements shown in Cells C141 to D144 that appear as hard
b. -coded amounts.
c. Provide the source and support for the salvage and cost of removal shown in Cells B11 to D136 that appear as hard-coded amounts.
d. Refer to Cells C141 to C147 that calculate the Tennessee ratio of net cost of removal to plant retirements. Explain the Company's rationale for excluding the 2016 data from the calculation.
e. Provide the retirement data for 2016 along with the source and support for this information.
f. Refer to Cells D141 to D147 that calculate the Piedmont ratio of net cost of removal to plant retirements. It appears that the Company has used net cost of removal from 2016-2020 in this calculation while only using retirements from 2017-2020. Explain the Company's rationale for excluding the 2016 retirement data from the calculation.

RESPONSE:

a. The source for the retirement numbers is the monthly plant in service rollforward reports that were provided in the Company's response to CA DR 1-3. The sum of the columns labeled retirements in each of the monthly tabs within attachments CAD DR 1 Item 3 TN Asset 2016 - 2020 equal the annual retirements reflected on Tab J MFR 54.

b. See attachment.

c. The Company chose to use the 3 most recent years of data to determine the percentages used to estimate net cost of removal used in the calculation of the projected accumulated depreciation monthly balances. The Company believes 3 years of data is sufficient.

d. Refer to the Company's response to CA DR 1-3; therein, see CA DR 1 Item 3 TN Asset 2016. Each tab within this file provided the monthly retirements by utility account for calendar year 2016.

e. The Company inadvertently included net cost of removal from 2016 in Excel cell D146 which represents net cost of removal for Piedmont 3-State assets. As stated in response to CA DR 2-77c, the Company's intention was to use the 3 most recent years data for net cost of removal and retirements to determine the %'s used to calculate projected net cost of removal.

PIEDMONT NATURAL GAS COMPANY, INC.
Docket No. 20-00086
Consumer Advocate's Second Discovery Request
Date Issued: September 23, 2020
Date Due: October 12, 2020

2-78. Refer to the "Tab K-TN Direct CWIP" tab of the "6 Detail Plant in Service and Depr Exp" spreadsheet included with the Company's filing that provides the basis for the Tennessee component of CWIP and provide the following information.

a. Provide the source and support for the monthly CWIP Balance and Additions in Cells B10 to W97 that appear as hard-coded data.
b. Provide a legend for the Project Numbers in Column A.
c. Provide a narrative explanation of the "Average Pool Balance Calculation" in Cells A109 to E115.
d. Provide the monthly "Average Pool Balance Calculation" from March 31, 2019 to March 31, 2020 in the same format presented on this spreadsheet along with the source and support for the data.
e. Provide a legend for the "Average Pool Balance Calculation" project numbers shown in Cells A109 to A115.
f. Reconcile the CWIP balance of $44,694,063 (Cells B116 and B98) with the $45,688,559 balance in Cell C10 of the "Tab C-Summary CWIP" tab of this same spreadsheet.

RESPONSE:

a. The source of the information provided for the monthly CWIP additions included in Tab K and Tab I in file "6 Detail Plant in Service and Depr Exp" is Piedmont's asset accounting system, PowerPlan. PowerPlan is Piedmont's system of record for all capital assets. This information represents the budgeted CWIP additions less transfers to plant in service by project from April 1, 2020 - December 31, 2021 as recorded in PowerPlan.

b. See 2-78 Attachment 1 of 4.

c. Pool funding projects serve two purposes — pool funding projects can be placeholders for budgeting purposes or used as "blanket assets" whereby the pool

funding project contains multiple individual assets of a similar nature where purchasing/replacement is ongoing (e.g vehicles). For these pool funding projects, it is not practical to track each of these assets and projects individually, so the project in-service date is not specifically known. Therefore, an average of the monthly balances in each pool category is calculated and used as an estimate for the monthly pool projects balance in the attrition period projected CWIP balances.

d. See 2-78 Attachment 2 of 4.

e. See 2-78 Attachment 3 of 4.

f. The Company inadvertently omitted several construction projects from the schedule shown on TabK-TN Direct CWIP in the file named "6 Detail_Plant in Service and Depr Exp". As seen in the Company's response to CA DR 2-80 attachment on the tab labelled 2020-03, the actual balance at 3/31/20 in Tennessee direct CWIP is $45,688,558.93. This amount ties to Excel cell C10 on Tab C-Summary CWIP in the file named "6 Detail_Plant in Service and Depr Exp". See 2-78 Attachment 4 of 4.

Cut and cap 4" HPS Just north of Wilsona ave This will retire 6,864' of 4" steel pipe due to operation history. All services and side roads will be tied over to the existing 6" main once we lower pressure from 390 # to 125# also we will remove a cross over valve that seperates pressure.
F0223432	RANDC-New Business	1200 Broadway	Install 100 ft of 2" mdpe gas service line on 60 psig and a 16M meter on minimum pressure of 35 psig to serve the 42,348 CFH load with a delivery pressure of 5 psig at 1200 Broadway, Nashville, TN 37203.
F0223619	SYSST-System Infrastructure	NW Rutland Rd. Replacement	Install 3,100 linear feet of 12" steel (300 psig MAOP/design pressure: 1000 psig) high pressure distribution main from the outlet of the Columbia Gulf II Station to the 12" main near the intersection of NW Rutland Road and Mt. Juliet Road to improve system reliability. Retire 3,100 linear feet of existing 8" high pressure distribution main in accordance with PNG abandonment procedures.
F0223899	SYSST-System Infrastructure	Franklin Pike Loop Pipe	Install 20,500 linear feet of 16" steel. Install 1000 linear feet of 20" steel due to system growth
F0224188	SYSST-System Infrastructure	Forest Retreat Area Improvements	Install 3,200 linear feet of 6" plastic main (75 psig MAOP) along Hunts Lane in accordance with PNG design standards. Install two new regulator stations on Center Point Rd and Long Hollow Pike in accordance with PNG design standards. Retire/remove 6 regulator stations (see map for street names/locations) in accordance with PNG abandonment procedures. Reduce pressure of ~7.5 miles of distribution main.
F0224311	DIMP-Distribution Integrity	Hermitage Pressure Reduction	Install 6800 linear feet of 6" plastic main (75 psig MAOP) along Andrew Jackson Pkwy and Weber Rd, and 2200 linear feet of 4" plastic main (75 psig MAOP) along Tulip Grove Rd and Leesa Ann Ln and 200 linear feet of 2" plastic main (75 psig MAOP) along Racoon Trail due to operational history. Install 3 new regulator stations in accordance with PNG design standards. Separate/disconnect system mains at 5 locations and retire/remove 13 regulator stations (see map for street names/locations) in accordance with PNG abandonment procedures. Reduce pressure of separated distribution main.
F0224331	DIMP-Distribution Integrity	Paragon Mills Road	Install 4,000 linear feet of 4" steel main (125 psig MAOP /design pressure: 175 psig) along Paragon Mills Rd and 5,250 linear feet of 2" steel main (125 psig MAOP /design pressure: 175 psig) along Jonquil Drive, Verbena Drive and Fox Glove Drive due to operational history. Retire replaced 2" and 4" poorly coated piping in accordance with PNG abandonment standards. Restore continuity of service lines and reconnect laterals.

Consumer Advocate's Second Discovery Request
Date Issued: September 23, 2020
Date Due: October 12, 2020

2-79. Refer to the "Tab L-3-State CWIP" tab of the "6 Detail Plant in Service and Depr Exp" spreadsheet included with the Company's filing that provides the basis for the Piedmont component of CWIP and provide the following information.

a. Provide the source and support for the monthly CWIP Balance and Additions in Cells B10 to W36 that appear as hard-coded data.
b. Provide a legend for the Project Numbers in Column A.
c. Reconcile the CWIP balance of $44,694,063 (Cells B116 and B98) with the $45,688,559 balance in Cell C10 of the "Tab C-Summary CWIP" tab of this same spreadsheet.

RESPONSE:

a. Please see the Company's response to CA DR 2-78a.

b. See attachment.

c. This question appears to be a duplicate of CA DR 78f which refers to TN Direct CWIP assets. However, the 3 state CWIP balance at March 31, 2020 that is reflected in Cell B40 on Tab L ($43,067,313.98) agrees to the 3 state CWIP balance at March 31, 2020 that is reflected in Cell D10 on Tab C ($43,067,314).

2-80. Refer to the "Tab C-Summary CWIP" tab of the "6 Detail Plant in Service and Depr Exp" spreadsheet included with the Company's filing that provides the basis for the monthly Tennessee and Piedmont CWIP balance and provide the following information.

a. Provide the historical monthly TN CWIP balance from May 2011 (the end of the last rate case in Docket 11-00144) through March 2020.
b. Provide the historical monthly Piedmont CWIP balance (before allocations) from May 2011 (the end of the last rate case in Docket 11-00144) through March 2020.

RESPONSE: See attachment. Note monthly balances for May 2011 - December 2017 are presented as a Tennessee allocated amount. The details for these months are not available due to system constraints resulting from the conversion from Piedmont's PowerPlan system to Duke's PowerPlan system effective 1/1/18.

Note 1 - Tennessee Net Plant Factor
Note 2 - The Report of Revenues, Expenses and Investment (3.03 Report) for these months reflects a different Construction Work in Progress balance than is shown here. Piedmont applied an incorrect allocation factor to the 3 State Construction Work in Progress balance to arrive at the Tennessee Allocated Total balance as seen in the 3.03 Report for these months.

Date Due: October 12, 2020

2-82. Refer to the "Revenue Requirement TN" tab of the "QPB Exhibits 6-27-2020" spreadsheet included with the Company's filing. Specifically refer to Row 47 of this spreadsheet that provides the test period and attrition period monthly balances of $5,828,754 for Contributions in Aid of Construction. Provide the historical monthly balances of Contributions in Aid of Construction from May 2011 (the end of the last rate case in Docket 11-00144) through March 2020.

RESPONSE: The Company provided the monthly balances of Contributions in Aid of Construction in its response to CA DR 1-45 (see tab labeled CIAC). This data represents the monthly balance in account 27100 prior to Duke's acquisition, and account 0271000 after the Duke acquisition. The Company also provided this information as part of the supplemental information to CA 1-39 provided in response to Mr. Dan Whitaker's September 17, 2020 email to Piedmont's counsel.

2-83. Refer to the "Cust Growth" tab of the "1 Sales and Transportation Pro Forma Revenues – Confidential" spreadsheet included with the Company's filing that provides the basis for the attrition period growth in residential and Small & Medium General customers. Provide the following information related to this spreadsheet.

a. Provide the source and support for growth in residential bills of 2,859 contained in Cell D17 as a hard-coded number.
b. Provide the source and support for the growth in Small & medium general bills of 136 contained in Cell G17 as a hard-coded number.

RESPONSE:

a. & b. The projected net growth in customers of 2,859 for Residential Service and 136 for Small & Medium General Service was developed by Piedmont's Gas Sales and Delivery Services team.

The projected customer growth was developed with consideration of historical growth patterns, economic forecasts, news reports and trade information as well as anecdotal information from builders. The projections also take into consideration customer losses that Piedmont can reasonably expect due to a variety of reasons, including but not limited to customers moving, commercial businesses closing and disconnects for non-payment.

See the CONFIDENTIAL attachment herein for support.

2-84. Refer to the "Cust Growth" tab of the "1 Sales and Transportation Pro Forma Revenues – Confidential" spreadsheet included with the Company's filing that provides the basis for the attrition period growth in residential and Small & Medium General customers. It appears that the Company has implemented its forecasted 2021 residential growth factor of 1.65% beginning in January 2021 while implementing its forecasted 2021 small and medium general growth factor of 0.74% beginning in September 2020. Explain the Company's rationale for this disparate treatment.

RESPONSE: The Small & Medium General Service customer growth rate of 0.74% should have been implemented in January 2021. The formula in the Small & Medium General Service section of the worksheet incorrectly implemented the growth rate for 2021 in September 2020 instead of in January 2021.

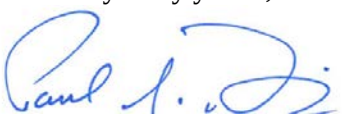
Re: Piedmont Natural Gas Company, Inc. Billing Rates Effective June 2020; Docket No.: 19-00107

Dear Mr. Taylor:

Enclosed please find an original and five (5) copies of Piedmont Natural Gas Company's Billing Rates (Sixty-Fifth Revised Sheet No. 1) to be effective the first day of the June 2020 billing cycles. These rates reflect the Integrity Management Rider surcharge approved by the Tennessee Public Utility Commission at its May 11, 2020 agenda conference.

This material is also being filed today by way of email to the Tennessee Public Utility Commission docket manager, Ectory Lawless. Please file the original of each and provide us a "filed" stamped copy of each either by email, or return copy via U.S. Mail. I have enclosed a self-addressed, postage prepaid envelope should you choose the mail option.

Very truly yours,



Paul S. Davidson

Re: **Docket No. 19-00107 – *Petition of Piedmont Natural Gas Company for Approval of an Integrity Management Rider to its approved Rate Schedules and Service Regulations***

Tariff Filing No. 2020-0022

Dear Ms. Couzens:

This is to acknowledge receipt of your letter dated May 13, 2020, enclosing a Tariff filing revision (Sixty-Fifth Revised Sheet No. 1) for Piedmont Natural Gas Company. This tariff filing was made to adjust Integrity Management Rider surcharge rate that was approved by the Commission at its May 11, 2020 conference. The tariff will become effective on June 1, 2020 as requested.

Please reference to Tariff Filing # 2020-0022 in any future correspondence regarding this filing.

Sincerely,

Michelle Mairs

PIEDMONT NATURAL GAS COMPANY, INC.
Docket No. 20-00086
Consumer Advocate's Second Discovery Request
Date Issued: September 23, 2020
Date Due: October 12, 2020

CONFIDENTIAL 2-87 Attachment 2 of 2:

Confidential Attachment Filed Under Seal

PIEDMONT NATURAL GAS COMPANY, INC.
Docket No. 20-00086
Consumer Advocate's Second Discovery Request
Date Issued: September 23, 2020
Date Due: October 12, 2020

2-88. Refer to the "Rate Key" tab of the "DR 1-13 Attachment 2" spreadsheet included with the Company's response to CA discovery request 1-13 regarding historic billing determinants. Provide a legend and description for the billing system rate codes that do not directly correspond to the tariff rate schedules (e.g. 311, 313, 321, 332, and 366).

RESPONSE: The CA DR 1-13 requested historic billing determinate information that goes back prior to the discontinuation of Piedmont's Standard and Value rate schedule bifurcation.

The following Billing System Rate Codes correlate with Piedmont's previous Standard and Value tariff rate schedules:

- Billing System Rate Code 311: Residential Service Value (correlated with former Tariff Rate Schedule No. 301)
- Billing System Rate Code 313: Residential Service Standard (correlated with former Tariff Rate Schedule No. 321)
- Billing System Rate Code 321: Small General Service Standard (correlated with former Tariff Rate Schedule No. 302)
- Billing System Rate Code 332: Small General Service Value (correlated with former Tariff Rate Schedule No. 332)
- Billing System Rate Code 366: Medium General Service Value (correlated with former Tariff Rate Schedule No. 362)

Docket No. 20-00086
Consumer Advocate's Second Discovery Request
Date Issued: September 23, 2020
Date Due: October 12, 2020

2-92. Refer to the "Late Payments Proforma" tab of the "2 Other Revenues Pro Forma-Confidential" spreadsheet included with the Company's response to MFR #12 that provides the basis for the Other Revenues forecast. Specifically refer to Cells B33 to D36 of this spreadsheet that calculate a $885,064 adjustment to forfeited discounts based upon the Company's proposed increase in the billing payment terms from 12 days to 25 days. In order to confirm the Company's proposed adjustment to forfeited discounts, provide the following information:

a. Provide the current billing payment terms from the Company's tariffs in North Carolina and South Carolina.
b. Provide the annual amount of forfeited discounts for 2017, 2018 and 2019 for North Carolina and South Carolina along with the annual revenues by customer class for both states for these same annual periods.

RESPONSE:

a. For Piedmont's North Carolina customers, the current billing payment terms are as follows:

- Residential Service & Outdoor Gaslight Service -- Bill are net and due upon receipt. Bills become past due 25 days after bill date.
- All Other Customer Classes -- Bill are net and due upon receipt. Bills become past due 15 days after bill date.

For Piedmont's South Carolina customers, the current billing payment terms are as follows:

- Residential Service & Outdoor Gaslight Service -- Bill are net and due upon receipt. Bills become past due 25 days after bill date.

- All Other Customer Classes -- Bill are net and due upon receipt. Bills become past due 15 days after bill date.

b. As shown in response to part a of this data request item, Piedmont's bills to customers in North Carolina and South Carolina are net and due upon receipt. There are no discounts, and therefore no forfeited discounts to Piedmont's customers in North Carolina and South Carolina. Piedmont's revenues for the regulated gas utility service provided to its North Carolina and South Carolina customers has no bearing on the regulated natural gas utility service and regulated rates for such service that Piedmont provides in Tennessee. Conversely, Piedmont's revenues for the regulated gas utility service provided to its Tennessee customers has no bearing on the regulated natural gas utility service and regulated rates for such service that Piedmont provides in North Carolina and South Carolina.

2-95. Refer to the "A Summary Other Revs Pro Forma" tab of the "2 Other Revenues Pro Forma-Confidential" spreadsheet included with the Company's response to MFR #12. Specifically refer to footnote "e" of this spreadsheet which provides the Company's rationale for removing "Cost of Gas Cash-Outs" from Other Revenues, and states that this "…revenue stream reflects the recovery of gas cost expense during the test period." Does the Company consider "Cost of Gas Cash-Outs" to be a component of its Actual Cost Adjustment (ACA) filed separately with the Commission? If not, explain the Company's basis for excluding these "Cost of Gas Cash-Outs" from attrition period Other Revenues.

RESPONSE: Piedmont's Per Books Test Period numbers reflect the actual cost of gas expense and the associated billed revenues related to the cash-outs of short imbalances incurred by transportation customers. These transportation customers did not nominate enough gas for their actual usage and subsequently used gas supplied by Piedmont. The revenues from the cost of gas cash-outs reflect Piedmont's recovery of the gas costs. Pursuant to Rate Schedule No. 307 (Balancing, Cash-out and Agency Authorization) of Piedmont's Tariff, any differences between the actual cost of gas incurred by Piedmont and the index pricing used to bill the customer or customer agent for the cash-out, is accounted for in the Actual Cost Adjustment.

The Gas Sales & Transportation Pro Forma revenue computation uses the same throughput level for the calculation of Total Sales and Transportation Revenues and Cost of Gas Expense; therefore, it assumes transportation customers are using gas as nominated. Removing the cost of gas cash-out revenues from the Attrition Period Other Revenues eliminates duplicative revenue recognition.

2-97. Refer to Exhibit KAC-3 and Exhibit KAC-4 that are included as attachments to the testimony of Company witness Couzens that provide the Company's current and proposed billing rates for all tariffs. Specifically refer to Column 2 for both Exhibits that provide the cumulative PGA demand billing rates which is summarized below.

Tariff	**Current Demand Rates per Dkt**	**Proposed Demand Rates per Dkt**	**Difference**
301 – Residential	$0.7577	$0.7823	$0.0246
302 – Small General Service	0.7577	0.7323	-0.0254

313 – Large Firm Transportation Service	8.2829	8.3617	0.0788
310 – Sale for Resale	8.2829	1.3372	-6.9457

Provide the following information supporting the Company's proposed changes to the PGA demand billing rates.

a. Provide the Company's rationale for proposing a change to the PGA demand billing rates within the context of a base rate case.
b. Identify any of the Company's previous rate case dockets where the Commission has considered a change to the PGA demand billing rates.
c. Explain the Company's rationale for desynchronizing the PGA demand billing rates for Rate Schedules 301, 302 and 352.
d. Explain the Company's rationale for desynchronizing the PGA demand billing rates for Rate Schedules 303, 313 and 310.

RESPONSE:

a. In preparation of its rate case, Piedmont engaged the services of Mr. Paul Normand for a class cost of service study and rate design. This study was performed and utilized for the design of the base margin rates proposed in this proceeding. As part of its overall rate design review, Piedmont additionally sought a review of its PGA Demand billing rates, to identify any potential opportunities to improve the alignment between the collection of fixed gas costs with the level of costs incurred by each rate class. Column 2 of Exhibit KAC-4 reflects the Company's proposed PGA Demand billing rates resulting from the Proportional Responsibility (PR) method recommended and discussed in detail in the Embedded Cost of Service and Rate Design testimony of Piedmont Witness Paul Normand.

b. The Commission authorized a change to Piedmont's PGA billing demand rates in the following previous Piedmont general rate case proceedings:

1) Docket No. 03-00313, Order dated 7/15/2004

2) Docket No. 11-00144, Order dated 4/18/2012

c. The PGA billing demand rates as proposed in this proceeding were designed using the Proportional Responsibility ("PR") method. The PR method and the resulting computation of the fixed demand cost allocation factors for Rate Schedules 301, 302 and 352 are discussed in detail in the Embedded Cost of Service and Rate Design testimony of Piedmont Witness Paul Normand.

d. The PGA billing demand rates as proposed in this proceeding were designed using the Proportional Responsibility ("PR") method. The PR method and the resulting computation of the fixed demand cost allocation factors for Rate Schedules 303, 313 and 310 are discussed in detail in the Embedded Cost of Service and Rate Design testimony of Piedmont Witness Paul Normand.

2-98. Refer to the "Growth Factors" tab of the "SW Growth Factors" spreadsheet included with the Company's filing that provides the basis for the attrition period inflation, customer growth and salary & wage growth adjustments. Provide the following information related to this spreadsheet.

a. Provide the source and support for the 2019, 2020 and 2021 customer counts shown in Cells E24 to E26 of this spreadsheet.
b. Explain the Company's rationale for calculating the customer annual growth rate for 21 months as contained within the formula in Cell E28 instead of 24 months (the time period between customer forecasts at December 2019 and December 2021 that are actually used in the calculation.
c. Provide the source and support for the 3.00% Salary & Wage increases cited for 2018 and 2019 in Cells E38 to E39.

RESPONSE:

a. Please see MFR 12 attachment "1_Sales and Transportation Pro Forma Revenues.xlsx" Tab "Customer Growth" Cell J33, Cell J45, and Cell J57 for billed and forecasted Net Customer Count for December 2019, December 2020, and December 2021, respectively.
b. The Compound Customer Growth Factor is applied to certain test period expenses that can be attributable to growth in customers. The average annual growth for two years is calculated and compounded for 21 months to determine the growth factor. A period of 21 months is used because there are 21 months between the end of the test period and the end of the attrition period (April 1, 2020 – December 31, 2021).
c. Please see attachment herein for a summary of historical merit increases by employee category per HR.

Provide the source and support for the direct labor, gross plant and customer counts used in the development of the allocation factor calculations in this spreadsheet.

RESPONSE: Please see the Company's response to CA DR 1-46 for jurisdictional allocation factors for 2019 and 2020 (Attachments 3,4,7 and 8). See attachment for support for Piedmont's jurisdictional allocation factors for the Attrition Period. The Attrition Period composite factor was calculated using actual gross plant balances as of the end of the test period (3/31/20), direct labor charges for the twelve months ending 3/31/20 and average customer count for the twelve months ending 3/31/20. The Attrition Period net plant factor was calculated using plant balances as of 3/31/20.

2-102. Refer to the "7. Incentive Adjustment" tab of the "5J Trans Dist Adj" spreadsheet included with the Company's filing that provides the test period detail charges for incentive compensation for transmission and distribution expenses. Provide this same monthly information in this same format from May 2011 (the end of the last rate case in Docket 11-00144) through March 2020.

RESPONSE: See the attachment provided in the Company's response to CA DR 2-119. Prior to 1/1/17, incentive compensation that was charged O&M expense was charged to Piedmont general ledger accounts 92000 and 93025. There was no incentive compensation charged to transmission and distribution O&M expense accounts on Piedmont's general ledger prior to 1/1/17.

Effective 1/1/17, incentive compensation is recorded to Piedmont's general ledger accounts based on where labor is charged to the general ledger. Within the file provided in the Company's response to CA DR 2-119, refer to the tabs containing the data for 2017, 2018 and 2019; filter on Excel column H labelled Account Type and select O&M - T&D.

Docket No. 20-00086
Consumer Advocate's Second Discovery Request
Date Issued: September 23, 2020
Date Due: October 12, 2020

2-105. Refer to the "Summary" tab of the "5H Uncollectible Adj" spreadsheet included with the Company's filing that provides the test period detail charges for uncollectible expenses and provide the following information.

a. Reconcile the test period revenues of $205,107,155 in Cell E33 with the $206,642,547 in Cell E56 on this same spreadsheet.
b. Provide the source and support for the Attrition Period Margin of $141,449,661 in Cell E37 that is presented as a hard-coded number.
c. Provide the source and support for the Test Period Margin of $138,335,523 in Cell F47 that is presented as a hard-coded number.

RESPONSE:

a. See attachment for reconciliation to TN Allocated Income Statement for March 31, 2020.
b. See the Company's response to MFR 12 for workpaper "1_Sales and Transportation Pro Forma Revenues". The attrition period margin is Attrition Period Revenues ($202,921,922) less Attrition Period Total Cost of Gas (461,672,261).
c. Test Period margin is on the TN Allocated Income Statement for March 31, 2020 provided in the Company's response to MFR11.

Date Due: October 12, 2020

2-108. Refer to the "Summary" tab of the "5M Customer Adj" spreadsheet included with the Company's filing that provides the test period detail charges for Other Customer Accounts. We are unable to produce these same results from the Pivot Tables included in the Company's calculations. Specifically, we are unable to recalculate the amounts for Salary & Wage and Incentive Expenses ($7,746,483, $2,722,759 and $5,871) as well as Non-Applicable Test Period Expenses ($85,586) that are included in the Company's calculations from the data that has been provided. Provide an updated calculation for these amounts along with all supporting data.

RESPONSE: See attachment. The first tab is a pivot table of the Test Period Transaction tab found in 5M Customer Adj file. A column has been added to the test period transaction data (see Excel column O on the second tab in the attachment) to identify the ledger details that are salary & wages and incentive. The pivot table on the summary tab in the attachment is filtered on those two categories. The sum of $7,746,482.89 + 2,722,758.73 + 5,870.83 = $10,475,112.45 which ties to the total in the pivot table on the Summary tab in the attachment.

The support for the $85,586 is found on the Other Adj tab within the 5M Customer Adj file. See column Y. These two transactions were removed from test period data because they were incorrectly charged to a 3 state business unit and should have been directly charged to North Carolina and South Carolina.

PIEDMONT NATURAL GAS COMPANY, INC.
Docket No. 20-00086
Consumer Advocate's Second Discovery Request
Date Issued: September 23, 2020
Date Due: October 12, 2020

2-114. Refer to the "OT Pivot" tab of the "5D Payroll Adj" spreadsheet included with the Company's filing that provides a summary presentation of the over-time payroll for the test period. Provide a reconciliation of the "Box 3 Allocated Over-time" total payroll of $1,727,944 in Cell D17 of this spreadsheet with the $1,765,171 amount shown in Cell W13492 on the "OT Only" tab of this spreadsheet.

RESPONSE: It appears the pivot table reflected on the tab labeled OT Pivot in the file named 5D_Payroll Adj was not refreshed prior to filing. To refresh the pivot table, right click anywhere within the pivot table; then select the refresh option. Once the pivot table is refreshed, the total on this tab is $1,765,171 and agrees with Cell W13492 on the OT Only tab in the same file.

The refreshed pivot table amount would increase the payroll adjustment calculation from $976,471 to $1,007,181.

2-115. Refer to the "B" tab of the "5D Payroll Adj" spreadsheet included with the Company's filing that provides the test period summary of payroll expense. Provide the source and support for the amounts in Column C of this spreadsheet that appear as hard-coded numbers.

RESPONSE: Please see the two attachments.

Back-up for the straight-time and overtime figures provided in the "B" tab of the "5D Payroll Adj" spreadsheet can be found in Attachment 1 of 2 herein. The source of this data is the Duke Energy Workforce Hub, which is a reporting repository of human resources data. After payroll completion, labor data is processed. Confidential labor data by employee is sent to the Workforce Hub for reporting purposes.

Back-up for the annual compensation figures provided in the "B" tab of the "5D Payroll Adj" spreadsheet can be found in Attachment 2 of 2 herein. The source of this data is from the Duke Energy Workforce Hub, which is a reporting repository of human resources data. Employee data is sent daily from our human capital management system, Workday, to update the Workforce Hub for reporting and system interface purposes.
