32. Provide a schedule showing by month, for the last two (2) fiscal years through the test period, identifying the amount and percentage of total payroll capitalized on a total Company, total LDC, and Tennessee only basis. Provide a detailed calculation of the percentage used to capitalize payroll for the attrition period.

Response: See attachment, which shows requested actuals through the end of the test period. As shown in the Minimum Filing Requirement No. 12 workpapers, the attrition period salaries and wages expense was computed on the basis of the amount of salaries and wages expense incurred in the test period, and therefore is aligned with the capitalization percentage experienced in the test period.

38. Does the LDC have a written policy regarding non-base pay compensation or stock options? If so, please provide a copy of this policy. Were any amounts paid or accrued during the test period? If so, please provide a schedule of employees, showing the amount paid or accrued and the basis of the calculation. Provide the same information for the attrition period.

Response: Description of the non-base pay compensation and stock options:

Piedmont employees began participating in the Duke Energy short-term and long-term incentive plans after the Piedmont - Duke Energy merger on October 3, 2016.

Duke Energy's compensation programs consist of a base pay component and incentive pay components that together provide a market-competitive total compensation package for all employees. The short-term incentive pay component is variable based on performance and is at risk to the employees. Incentive pay is linked to the accomplishment of specific goals established in advance for the individual employee, his or her business unit, one or more of the Companies, and/or Duke Energy. The purpose of incentive pay is: (1) to encourage employees to perform at a high level in order to accomplish specific objectives intended to ensure safe, reliable and economical utility service to our customers; (2) to ensure their business unit's and Duke Energy's overall success; and (3) to constitute a component of a compensation package that is competitive with the market. The long-term incentive plans round out a competitive total compensation package for leaders. The goal of having a long-term incentive component as part of certain employees' total compensation package is to attract and retain high-caliber leaders and align their interests with the long-term strategy of Duke Energy, including Piedmont, through equity-based compensation. The designs of the short-term and long-term incentive programs are also reviewed annually.

***Duke Energy Short-Term Incentive Plan ("STI")*:** The annual cash incentive plan is available to all employees at Duke Energy. The STI program promotes a corporate culture that is performance-oriented by establishing goals that provide direction for the workforce to focus on delivering safe, reliable and economical utility service to our customers. At the beginning of each calendar year, corporate, business unit ("team") and, when applicable, individual performance goals are established for the annual incentive program. A thorough review is performed at the end of the calendar year to determine the achievement levels for each performance goal. The Compensation Committee of the Board of Directors of Duke Energy approves the corporate performance goals as well as the executive officers' individual goals at the beginning of each calendar year and certifies the payout level achieved for such goals following the end of the calendar year. All employees under the STI are subject to the following annual corporate metrics:

- Financial Performance & Growth: The Financial Performance & Growth measure consists of Earnings Per Share ("EPS") and Operations and Maintenance ("O&M") expense measures.
    - Earnings Per Share: The EPS measure focuses on financial discipline, efficient operations and prudent use of resources, all of which are vital to the health and

stability of the organization in service to its customers. If EPS is less than a designated minimal value, employees who participate in the Executive LTI plan do not receive any STI payout and employees who do not participate in the Executive LTI plan will not receive an STI payout related to Financial Performance & Growth, Operational Excellence, or the Customer Satisfaction components.

- O&M Expense control: Cost control is an integral part of any company's success. The intent of this goal is for employees to focus on cost control on a day-to-day basis, which will allow Duke Energy to incorporate these savings into programs that will benefit our customers.

- Operational Excellence: This metric is broken into the following two equally weighted measures, each of which motivates Duke Energy employees to strive to provide reliable and safe products and services to our customers:
  - Reliability: To ensure that cost focus does not sacrifice our ability to provide reliable service, reliability measures are also included in the STI program. The reliability component includes among other things, a Customer Delivery Reliability target. All customers expect reliable service from Duke Energy.
  - Safety/Environmental: This metric incorporates safety and environmental stewardship into our day to day activities, thus making the safety of our employees, customers and communities a priority. Safety is of utmost importance and is not only encouraged but continuously reinforced through all levels of Duke Energy, including through incentive pay opportunities. Safety refers to the health and safety of everyone who works here, as well as our communities and the environment.
- Customer Satisfaction: This goal measures the degree to which a customer has a favorable perception of an interaction, product, service or of Duke Energy overall. This goal is intended to keep customers central to all that we do across the company regardless of where we work. Achievement is based on our Net Promoter Score (NPS) results.
- Team/Individual Goals: Business unit ("team") or individual goals are typically lower-level tactical and operational goals that provide more specific direction for employees. Almost all employees have a component of their incentive assigned to team goals, while the majority of executives have individual goals; however, there are some executives who are subject to team goals due to their heavy operational focus.
  - Team Goals: The team goals directly benefit customers by tying employee compensation to things like reliability, outage frequency, time required to restore service, lost-time accidents, customer satisfaction scores, O&M expense levels and capital expenditures. Superior performance relating to these types of goals directly benefits customers through safe and reliable service, customer service quality, and low energy costs.
  - Individual Goals: A portion of the STI goals for members of the Duke Energy Enterprise Leadership Team (ELT) are subject to pre-defined individual goals. These individual goals are intended to motivate the ELT members to advance strategic and operational objectives and are generally aligned to the business in

which they operate. They are evaluated based on a qualitative assessment of performance. Superior performance relating to these types of goals also directly benefits customers through safe and reliable service, customer service quality, and low energy costs.

- Safety: In addition, as an added focus on safety, the STI programs reward all employees, exempt and non-exempt, with an additional 5 percent of their short-term incentive payout if there are no significant operational events. Conversely, incentive payments for senior executives will be reduced by 5 percent if there is a significant operational event.

Please see Minimum Filing Requirement No. 38 CONFIDENTIAL attachment for a summary of the corporate goals, targets and payout opportunity for the STI plan.

STI accruals and expenses are booked on a monthly basis at target payout level, primarily utilizing a direct labor loader process. Direct labor cost (and associated STI accruals) are recorded to FERC accounts and jurisdictions based upon how an employee's time is recorded in the corporate time reporting system. The labor loader process applies fixed accrual percentages to direct labor cost for Non-Union labor cost (10.5%), Union labor cost (3.0%) and Non-Union DEBS (Duke Energy Business Services LLC) labor cost (11.5%). The fixed accrual percentages approximate target payout for non-executive participants. For executives, whose target percentages are generally higher than the non-executive population, an additional accrual is recorded for the differential. The additional cost follows the labor cost of each executive in accordance to their recorded time in the corporate time reporting system. Annually, in the fourth quarter, an entry is recorded to true-up the accrual from target payout to expected payout, based on results known prior to the closing of the books. Generally, STI results are certified in February of the following year by the Compensation Committee of the Board of Directors and the books are trued-up based on the actual payout.

***Duke Energy Long-Term Incentive Plan ("LTI")*:** Duke Energy's LTI programs provide equity-based compensation to executive and leadership-level employees in a manner that aligns their interests with the long-term interests of Duke Energy in service to its customers. The goals of the LTI programs are to attract and retain high-caliber leaders by providing a competitive compensation package and to encourage our leaders to make sound business decisions from a long-term perspective. Stock awards are an important component – but not the only component – of a total rewards package that is reviewed annually to ensure its ongoing competitiveness. LTI opportunities generally vest over a period of three years in order to focus executives on long-term performance and enhance retention.

Duke Energy has two LTI programs:

- One is an Executive LTI program, called the Executive Incentive Plan (EIP), which is reserved for members of the Enterprise Leadership Team (ELT) and Senior Management Committee (SMC) to drive an ownership mindset and ensure accountability for making short- and long-term strategic decisions. Participants in this program have a portion of their

target LTI opportunity awarded as performance shares and a portion awarded as restricted stock units ("RSU").

- Performance Shares (70%): The performance shares granted incorporate three performance goals based on cumulative adjusted EPS, Total Incident Case Rate (TICR), and Total Shareholder Return (TSR) compared to companies in the Philadelphia Utility Index. The goals correlate to long-term value and are set at levels that we believe are reasonable in light of past performance and market conditions. LTI participants must generally continue their employment with Duke Energy for a three-year period to be eligible for a full payout and the number of performance shares that participants ultimately earn is tied to Duke Energy's long-term performance on the performance share goals.
- Restricted Stock (30%): Vesting of RSUs is solely tied to the participants' continued employment through vesting dates over a three-year vesting period and is not dependent upon the financial performance of the Companies. Participants who remain employed with the Companies through a vesting date receive a share of Duke Energy common stock for each vesting RSU.

- The other LTI program is available to other strategic leaders below the ELT level who are responsible for the most critical roles/responsibilities in each business group (population generally ranges between 2-3 percent of the total Duke Energy employee population).
  - These employees participate in the RSU program and receive their LTI value in the form of RSUs that vest equally over three years, thereby encouraging retention of high-quality employees.
  - These employees' base salary is set at such a level that, when factoring in the retention-driven RSUs, the total package results in a market-competitive package.
  - The reward of these RSUs is purely aimed at continuing employment and is in no way tied to the Companies' actual financial performance.
  - Participation in the RSU plan is reserved for positions that meet at least one of the following criteria:
    - Position has significant responsibility for a broad area or function or geographic region;
    - The employee leads major projects or groups with substantial enterprise or business unit strategic or financial impact;
    - The employee is in a role that has decision-making authority that impacts Company performance; and
    - Position requires specialized expertise that is critical to business operations or strategy development.

The RSU plan is an equally important component within the market-competitive total compensation package for eligible leadership positions (below executive level) and is critical to maintaining market-competitiveness and retaining key leadership talent.

LTI Plan brochures, which provide a summary of plan provisions, can be found as attachments to Minimum Filing Requirement No. 46.

LTI accruals and expenses are booked monthly for the two LTI programs. The accrual and expense amounts are calculated individually by employee. LTI cost follows direct labor cost for each employee and is recorded to FERC accounts and jurisdictions based upon how an employee's time is recorded in the corporate time reporting system. In accordance with US GAAP, cost is determined by multiplying the number of shares awarded times the price per share, at the date the award is granted, and is accrued over the vesting period of the award, which is generally three years.

In addition, Duke Energy has an equity award program ("Recognition Grants") designed to recognize key individuals whose skills are critical to company success. Every year, each business unit can nominate a limited number of individuals to receive a one-time restricted stock unit ("RSU") grant initially valued at $30,000. Recognition Grants may be considered for individuals who (a) do not currently participate in the Company's LTI Programs, (b) did not receive a Recognition Grant in the two prior years and (c) meet one or more of the following eligibility guidelines:

1. Employee is considered a high potential individual.
2. Employee has applied unique, critical skills to deliver essential business results for a business unit or the enterprise. These employees will typically be in the highest-level individual contributor or management roles. Skills are crucial to the organization and would be extremely difficult to replace.
3. Employee has demonstrated leadership and consistently performed at a high level compared to peers.

Vesting of RSUs is solely tied to the participants' continued employment through vesting dates over a three-year vesting period and is not dependent upon the financial performance of the Companies. Participants who remain employed with the Companies through a vesting date receive a share of Duke Energy common stock for each vesting RSU.

Recognition grant overview documents can be found as attachments to Minimum Filing Requirement No. 46.

The Test Period and Attrition Period expense for these plans are shown in the workpapers provided in Minimum Filing Requirement No. 12, although these expenses were unable to be delineated in a reporting format/schedule by individual employee.

(1) Ms. Clayton, Mr. Fanandakis, and Ms. Rose were appointed to the Board on January 7, 2019, June 26, 2019, and March 1, 2019, respectively. Effective May 2, 2019, Mr. Forsgren and Mr. Hyler retired from the Board.

(2) Mr. Browning, Ms. Clayton, Mr. Hyler, Mr. Moorman, and Mr. Saladrigas elected to defer $180,000; $122,893; $23,654; $125,000; and $125,000 respectively, of their 2019 cash compensation under the Directors' Savings Plan.

(3) This column reflects the grant date fair value of the stock awards granted to each eligible director during 2019. The grant date fair value was determined in accordance with the accounting guidance for stock-based compensation. See Note 22 of the Consolidated Financial Statements contained in our 2019 Form 10-K for an explanation of the assumptions made in valuing these awards. Upon joining the Board in early 2019, Ms. Clayton and Ms. Rose received a prorated portion of the 2018 - 2019 annual stock retainer, amounting to 595 and 304 shares of Duke Energy common stock, respectively. In May 2019, each sitting director on the Board received an annual stock retainer in the form of 1,782 shares of Duke Energy common stock. Mr. Browning, Ms. Clayton, Mr. Craver, Mr. Kennard, Mr. Moorman, Ms. Rose, Mr. Saladrigas, and Mr. Webster elected to defer their 2019 - 2020 stock retainer of Duke Energy shares under the Directors' Savings Plan. In addition, Mr. Fanandakis received a prorated portion of the 2019 - 2020 annual stock retainer in the form of 1,549 shares of Duke Energy common stock, upon joining the Board in June 2019.

43. Provide the amount of direct and allocated charges to the LDC from its Parent, Multi-State Utility, or Affiliated Utility Service Company, by account, for each month of the test period and the projected amount for each month of the attrition period.

Response: See attachment for test period amounts. For attrition period allocations, please see workpapers included in Minimum Filing Requirement No. 12 for attrition period adjustments.

The following schedules provide a summary of Tennessee O&M expenses by month by general ledger account for the Test Period. The amounts by general ledger account have been broken down between expenses charged to a PNG Tennessee Business Unit (Tennessee Direct) and expenses charged to a PNG 3-state Business Unit (Tennessee Allocated). Tennessee Direct expenses are reflected in Column (A) and Tennessee Allocated expenses are reflected in Column (B) in each of the following monthly tabs. For jurisdictional regulatory reporting, expenses that are charged to a PNG 3-State Business Unit on Piedmont's GL are allocated to Tennessee using the applicable Fiscal Year Composite Factor, whereas Tennessee Direct charges are allocated 100% to Tennessee regardless of fiscal year. The PNG 3-state allocation calculations can be seen in the tab labeled Total O&M in the Excel version of this file provided in response to DR 1-12. Tennessee Direct charges are added to Tennessee Allocated charges to arrive at total Tennessee O&M by account (Column C).

Piedmont's GL includes O&M expenses allocated to Piedmont from Duke Energy Business Services (DEBS) according to the methodology set forth in Duke Energy's Cost Allocation Manual ("CAM"). Piedmont's portion of DEBS allocated charges are recorded to Piedmont's GL in a PNG 3-State Business Unit. For jurisdictional regulatory reporting, as described above, a fiscal year-specific Composite Factor is used to arrive at Tennessee Allocated O&M expense amount. Column B in each of the following monthly schedules contains Tennessee's portion of all PNG 3-State charges including allocations from DEBS. Column D in each of the following monthly tabs represents the portion of Column B that originated from DEBS.

PIEDMONT NATURAL GAS COMPANY, INC.
2020 Tennessee General Rate Case
Minimum Filing Requirements

44. Provide the amount of each lobbying expense, charitable contribution, social club membership and athletic event paid by its Parent, Multi-State Utility, or Affiliated Utility Service Company and allocated to the LDC for each month of the test period and included in costs to be recovered in regulated rates. Provide the same information and breakdown for any amounts paid directly by the LDC and included in costs to be recovered in regulated rates. Identify the accounts charged for each amount.

Response: The Company does not include in costs to be recovered in regulated rates any charitable contribution, social club membership or athletic events. All such costs are recorded in either GL Account 0426400 Exp/Civic & Political Activity or GL Account 0426100 Donations, and are therefore not included in the computation of Piedmont's cost of service for ratemaking.

One of Piedmont's salaried employees is a registered lobbyist and devotes certain hours per year to this function in the state of Tennessee. Accordingly, the Company excluded that portion of the employee's payroll cost from the Adjusted Per Books Test Period Expense as well as the Attrition Period Payroll Expense in this rate case filing. See the Payroll Adjustment file in Minimum Filing Requirement No. 12. Thus, the Company excluded all lobbying-related costs from proposed rates in this proceeding.

Piedmont Natural Gas Company, Inc.
Gas Accounting & Regulatory Reporting Reconciliations
Month & Year: November 2014
Account Number: 18650
PeopleSoft Description: ACA - Nashville Gas Purchases

Account Description

The ACA – Nashville Gas Purchases account represents the difference between the Tennessee Actual Cost of Gas and the cost recoveries collected by Piedmont from the Tennessee customers. Thus, the deferred account allows Piedmont to recover the prudently incurred applicable actual cost of gas from its customers. This account is classified as a current liability and can carry a debit or credit balance. Postings to this account are done through the COG entry uploaded in PeopleSoft, expenses posted from Concur and various miscellaneous journal entries prepared by Gas Accounting and Regulatory Reporting.

Gas Accounting & Regulatory Reporting Reconciliations
Month & Year: April 2015
Account Number: 18650
PeopleSoft Description: ACA - Nashville Gas Purchases

Account Description

The ACA – Nashville Gas Purchases account represents the difference between the Tennessee Actual Cost of Gas and the cost recoveries collected by Piedmont from the Tennessee customers. Thus, the deferred account allows Piedmont to recover the prudently incurred applicable actual cost of gas from its customers. This account is classified as a current liability and can carry a debit or credit balance. Postings to this account are done through the COG entry uploaded in PeopleSoft, expenses posted from Concur and various miscellaneous journal entries prepared by Gas Accounting and Regulatory Reporting.

GENERAL REQUIREMENTS

The law governing gas, water, electric power and light companies states that:

(a) (1) Each person engaged in the business of furnishing or distributing gas, water, or electric current, whether to a dealer, consumer, municipality or other customer, shall, for the privilege of doing such business, pay to the state for state purposes an amount equal to the tax rate specified on the front of the return multiplied by the gross receipts derived from intrastate business in the state.

(2) Persons engaged in the business of manufacturing gas or of distributing manufactured gas or natural gas shall, in lieu of the foregoing, pay an amount equal to the tax rate specified on the front of the return multiplied by the gross receipts derived from intrastate business in this state, which payment shall be subject to the same provisions, restrictions and credits hereinafter provided in T.C.A. §67-4-405.

(b) This tax does not apply to cities or other political subdivisions of the state owning and operating gas companies, water companies or power plants, nor does it apply to any governmental agency of the United States.

(c) The gross receipts tax is levied for the privilege of engaging in intrastate commerce carried on wholly within this state and not a part of interstate commerce.

(d) A credit is allowed against the gross receipts tax for the franchise and excise taxes paid by gas, water, and electric companies during the calendar year in which the gross receipts tax becomes due.

(e) The tax hereby imposed shall be administered and collected in accordance with T.C.A. §67-4-301 et seq.

(f) Each person engaged in the business of furnishing or distributing electric current or water shall be exempt from the above tax upon gross receipts up to the amount of five thousand dollars ($5,000).

DELINQUENT FILING - (PENALTY AND INTEREST)

Unless this return and tax are mailed to the Department of Revenue on or before August 1 or the 10th day of the following month (if filing monthly), penalty & interest will be assessed as required by §67-1-804 T.C.A.

INSTRUCTIONS

Lines 8 & 9 - Total credit cannot exceed line 7. A credit is allowed for franchise and excise taxes paid when final reports of both gross receipts taxes and franchise and excise taxes have been filed covering the corresponding tax base period. Additional instructions for these lines are available upon request.

Line 15 - Taxpayers who file the return and make the first quarterly payment on or before August 1st have the option of paying the balance in three equal additional installments: Nov. 1, Feb. 1, and May 1. However, such quarterly payments made after August 1st shall bear interest on each such payment at the effective rate per annum from August 1 to date of payment. Anyone who elects the above option will receive quarterly installment coupons by a separate mailing.

NOTICE TO TAXPAYER

If quarterly installments are not paid by the due date, penalty will be assessed for late payment at the rate of 5% of the installment for each 30 days (or portion thereof) that the installment remains unpaid subsequent to the due date, up to a maximum of 25%.

This return shall be accompanied by schedule listing of total gross receipts derived from interstate business, intrastate business, sale of appliances, water taps, pole rentals, and other sources fully identified.

IMPORTANT: IF YOU USE THIS FORM, ATTACH IT TO YOUR FRANCHISE, EXCISE TAX RETURN.
Allocation and apportionment schedules may be used only by taxpayers doing business outside the state of Tennessee within the meaning of Tenn. Code Ann. Sections 67- 4- 2010 and 67- 4- 2110. The burden is upon the taxpayer to show that the taxpayer has the right to apportion.

SCHEDULE M - Schedule of Nonbusiness Earnings

Note - If all earnings are business earnings as defined below, do not complete this schedule. Any nonbusiness earnings, less related expenses, are subject to direct allocation and should be reported in this schedule.

Definitions: "Business Earnings" means (1) earnings arising from transactions and activity in the regular course of the taxpayer's trade or business or (2) earnings from tangible and intangible property if the acquisition, use, management, or disposition of the property constitutes an integral part of the taxpayer's regular trade or business operations. In essence, earnings which arise from the conduct of the trade or trades or business operations of a taxpayer are business earnings, and the taxpayer must show by clear and cogent evidence that particular earnings are classifiable as nonbusiness earnings. A taxpayer may have more than one regular trade or business in determining whether income is business earnings.

"Nonbusiness Earnings" means all earnings other than business earnings.

8.	Total nonbusiness earnings (Enter here and on Schedule J, Line 24)			0	XXXXX
9.	Nonbusiness earnings allocated directly (Enter here and on Schedule J, Line 31)			0	XXXXX

If necessary, describe source of nonbusiness earnings and explain why such earnings do not constitute business earnings as defined above. Enumerate these items to correspond with items listed above.

*As a general rule, the allowable deductions for expenses of a taxpayer are related to both business and nonbusiness earnings. Such items as administrative costs, taxes, insurance, repairs, maintenance, and depreciation are to be considered. In the absence of evidence to the contrary, it is assumed that the expenses related to nonbusiness rental earnings will be an amount equal to 50 percent of such earnings and that expenses related to other nonbusiness earnings will be an amount equal to 5 percent of such earnings. (See regulation 1320- 6- 1.23(3))

INDUSTRIAL MACHINERY AND RESEARCH AND DEVELOPMENT EQUIPMENT TAX CREDIT

TAXABLE YEAR	TAXPAYER NAME	ACCOUNT NO./FEIN
2016-10-04 TO 2016-12-31	Piedmont Natural Gas Company, Inc.	317377292 56-0556998

Franchise and excise taxes may be reduced by a credit on industrial machinery and research and development equipment purchased during the tax period covered by the return and located in Tennessee. The credit is generally computed at 1% of the purchase price of qualified industrial machinery and research and development equipment. The credit taken on any return cannot exceed 50% of the current year's franchise and excise tax liability, but any unused credit may be carried forward 15 years under Tenn. Code Ann. Section 67- 4- 2009(3).

SCHEDULE T (FORM FAE 170) - INDUSTRIAL MACHINERY AND RESEARCH AND DEVELOPMENT EQUIPMENT

PART 1 TAX CREDIT COMPUTATION

1.	Purchase price of industrial machinery and research and development equipment	(1)	0
2.	Percentage allowed (generally 1%, see note below)	(2)	1% %
3.	Original credit (Line 1 multiplied by Line 2)	(3)	0
4.	Credit available from prior year(s) (from Schedule V)	(4)	0
5.	Total credit available (Add lines 3 and 4)	(5)	0
6.	Franchise and Excise Tax liability before any credits (from Schedule A, Line 3 plus Schedule B, Line 5)	(6)	454,744
7.	Limitation on credit (50% of line 6)	(7)	227,372
8.	Franchise and Excise Tax liability before any credits (from Schedule A, Line 3 plus Schedule B, Line 5)	(8)	454,744
9.	Credits from Schedule D, Lines 1 through 6 and Schedule D, Line 9	(9)	0
10.	Tax before industrial machinery credit (Line 8 less Line 9)	(10)	454,744
11.	Amount available in current year (Least of Lines 5, 7, or 10; Enter here and on Schedule D, Line 7)	(11)	0

PART 2 RECAPTURE OF TAX CREDIT

In the event that any industrial machinery or research and development equipment is sold or removed and credit has been taken against franchise and/or excise taxes, the following formula is to be used to recapture the tax credit taken for each item of machinery. If the credit has not been taken due to the 50% annual limitation, carryover should be adjusted accordingly.

Credit taken on purchase of industrial machinery or research and development equipment X percentage of useful life remaining at time of sale or removal = amount of credit to be recaptured.

Total amount of recapture to be used to increase franchise and excise tax liability (Enter here and on Schedule B, Line 6) $ 0

Note: The percentage allowed on Part 1, Line 2 above is 1%, unless the taxpayer has met all the requirements of Tenn. Code Ann. Section 67- 4- 2009(3)(I) and has been approved by the Commissioner of Revenue for an enhanced rate based on the investment amount. The statutory minimum investment requirements and applicable rates are shown on the following chart:

Minimum Required Capital Investment	Rate of Credit
$100,000,000	3%
$250,000,000	5%
$500,000,000	7%
$1,000,000,000	10%

SCHEDULE U and V - LOSS CARRYOVER/INDUSTRIAL MACHINERY AND RESEARCH AND DEVELOPMENT EQUIPMENT CREDIT CARRYOVER

IMPORTANT INFORMATION APPLICABLE TO LOSS CARRYOVER

1. Net operating losses may be carried forward for up to fifteen (15) years until fully utilized.
2. Tenn. Code Ann. Section 67-4-2006-(c)(8) requires that loss carryover be reduced by the Tennessee portion of discharge of indebtedness income excluded from federal gross income under I.R.C. section 108(a) where the bankruptcy discharge occurs on or after October 1, 2013. See Excise Tax Report of Bankruptcy Discharge form and the above referenced code section for more information.

Piedmont Natural Gas Company, Inc.
FEIN: 56-0556998
Year Ended December 31, 2016

Piedmont Natural Gas Company, Inc. ("Taxpayer") is filing this short period return as a result of a 2016 transaction between Duke Energy Corporation ("DEC") and Piedmont Natural Gas Company, Inc. ("PNG"). On October 3, 2016, DEC and PNG finalized a transaction pursuant to which PNG became a wholly-owned subsidiary of DEC and the former shareholders of PNG received cash for their stock. Taxpayer is a subsidiary of PNG. Following the transaction, both DEC and PNG remained separate legal entities, and Taxpayer remained a subsidiary of PNG. The result of the transaction is that Taxpayer filed as part of PNG's Federal short period return for the period ending October 3, 2016, and filed a short period Tennessee return for the period ending October 3, 2016.

For the year ending December 31, 2016, DEC is filing a consolidated Federal return which will include Taxpayer's taxable income for the period from October 4, 2016 through December 31, 2016.

Schedule M - Nonbusiness Earnings

Allocation and apportionment schedules may be used only by taxpayers doing business outside the state of Tennessee within the meaning of Tenn. Code Ann. Sections 67-4-2010 and 67-4-2110. The burden is on the taxpayer to show that the taxpayer has the right to apportion.

If all earnings are business earnings as defined below, do not complete this schedule. Any nonbusiness earnings, less related expenses, are subject to direct allocation and should be reported in this schedule.

Definitions:

"Business Earnings" -

1) earnings arising from transactions and activity in the regular course of the taxpayer's trade or business, or

2) earnings from tangible and intangible property if the acquisition, use, management, or disposition of the property constitutes an integral part of the taxpayer's regular trade or business operations

Earnings which arise from the conduct of the trade or trades or business operations of a taxpayer are business earnings, and the taxpayer must show by clear and cogent evidence that particular earnings are classifiable as nonbusiness earnings. A taxpayer may have more than one regular trade or business in determining whether income is business earnings.

"Nonbusiness Earnings" - all earnings other than business earnings

	Description of Nonbusiness Earnings (If further description is necessary see below)	Gross Amounts	*Less Related Expenses	Net Amounts	Net Amounts Allocated Directly to Tennessee
1.		0	0	0	0
2.		0	0	0	0
3.		0	0	0	0
4.		0	0	0	0
5.		0	0	0	0
6.		0	0	0	0
7.		0	0	0	0
8.	Total nonbusiness earnings (Enter here and on Schedule J, Line 19)			0	
9.	Nonbusiness earnings allocated directly (Enter here and on Schedule J, Line 27)				0

If necessary, describe source of nonbusiness earnings and explain why such earnings do not constitute business earnings as defined above. Enumerate these items to correspond with items listed above.

*As a general rule, the allowable deductions for expenses of a taxpayer are related to both business and nonbusiness earnings. Items such as administrative costs, taxes, insurance, repairs, maintenance, and depreciation are to be considered. In the absence of evidence to the contrary, it is assumed that the expenses related to nonbusiness rental earnings will be an amount equal to 50% of such earnings and that expenses related to other nonbusiness earnings will be an amount equal to 5% of such earnings (see TENN. COMP. R. & REGS. 1320-06-01.23(3)).

Schedule T - Industrial Machinery and Research and Development Equipment

Part 1: Tax Credit Computation

Franchise and excise taxes may be reduced by a credit on industrial machinery and research and development equipment purchased during the tax period covered by the return and located in Tennessee. The credit is generally computed at 1% of the purchase price of qualified industrial machinery and research and development equipment. The credit taken on any return cannot exceed 50% of the current year's franchise and excise tax liability, but any unused credit may be carried forward 15 years under Tenn. Code Ann. Section 67-4-2009(3).

1.	Purchase price of industrial machinery and research and development equipment	(1)	0
2.	Percentage allowed (generally 1%*)	(2)	1 %
3.	Current year credit (multiply Line 1 by Line 2)	(3)	0
4.	Credit available from prior year(s) (from Schedule V)	(4)	0
5.	Total credit available (add Lines 3 and 4)	(5)	0
6.	Franchise and excise tax liability before any credits (add Schedule A, Line 3 and Schedule B, Line 5)	(6)	2,049,290
7.	Limitation on credit (50% of Line 6)	(7)	1,024,645
8.	Franchise and excise tax liability before any credits (add Schedule A, Line 3 and Schedule B, Line 5)	(8)	2,049,290
9.	Credits from Schedule D, Lines 1 through 4 and Schedule D, Line 9	(9)	0
10.	Tax before Industrial Machinery Credit (subtract Line 9 from Line 8)	(10)	2,049,290
11.	Amount available in current year (enter the smaller value of Lines 5, 7, or 10 here, and on Schedule D, Line 5)	(11)	0

Part 2: Recapture of Tax Credit

The Industrial Machinery Tax Credit previously established on this form must be partially recaptured if the equipment on which it was based was sold or removed from the state before the end of the equipment's life as established for federal income tax purposes. The recapture amount is a percentage of useful life remaining at the time of sale or removal multiplied by the credit originally established on this form. Previously established credits have either offset tax or populated the carryover table Schedule V. Complete the Industrial Machinery Credit Recapture Worksheet and then enter the applicable recapture amounts on Lines 12 and 13 below.

12.	Reduction to credit carryover table, Schedule V, from recapture worksheet, Part 2, Line 16	(12)	0
13.	Recapture of credit from recapture worksheet, Part 2, Line 17 (enter here and on Schedule B, Line 6)	(13)	0

*The percentage allowed on Part 1, Line 2 above is 1%, unless the taxpayer has met the requirements of Tenn. Code Ann. Section 67-4-2009(3)(I) and has been approved by the Commissioner of Revenue for an enhanced rate based on the investment amount. The statutory minimum investment requirements and applicable rates for the enhanced credit are shown on the following chart:

Minimum Required Capital Investment	Rate of Credit
$100,000,000	3%
$250,000,000	5%

Schedule M - Nonbusiness Earnings

Allocation and apportionment schedules may be used only by taxpayers doing business outside the state of Tennessee within the meaning of Tenn. Code Ann. sections 67-4-2010 and 67-4-2110. The burden is on the taxpayer to show that the taxpayer has the right to apportion.

If all earnings are business earnings as defined below, do not complete this schedule. Any nonbusiness earnings, less related expenses, are subject to direct allocation and should be reported in this schedule.

Definitions:

"Business Earnings" -

1) earnings arising from transactions and activity in the regular course of the taxpayer's trade or business, or

2) earnings from tangible and intangible property if the acquisition, use, management, or disposition of the property constitutes an integral part of the taxpayer's regular trade or business operations

Earnings which arise from the conduct of the trade or trades or business operations of a taxpayer are business earnings, and the taxpayer must show by clear and cogent evidence that particular earnings are classifiable as nonbusiness earnings. A taxpayer may have more than one regular trade or business in determining whether income is business earnings.

"Nonbusiness Earnings" - all earnings other than business earnings

	Description of Nonbusiness Earnings (If further description is necessary see below)	Gross Amounts	*Less Related Expenses	Net Amounts	Net Amounts Allocated Directly to Tennessee
1.		0	0	0	0
2.		0	0	0	0
3.		0	0	0	0
4.		0	0	0	0
5.		0	0	0	0
6.		0	0	0	0
7.		0	0	0	0
8.	Total nonbusiness earnings (Enter here and on Schedule J, Line 19)			0	
9.	Nonbusiness earnings allocated directly (Enter here and on Schedule J, Line 28)				0

If necessary, describe source of nonbusiness earnings and explain why such earnings do not constitute business earnings as defined above. Enumerate these items to correspond with items listed above.

*As a general rule, the allowable deductions for expenses of a taxpayer are related to both business and nonbusiness earnings. Items such as administrative costs, taxes, insurance, repairs, maintenance, and depreciation are to be considered. In the absence of evidence to the contrary, it is assumed that the expenses related to nonbusiness rental earnings will be an amount equal to 50% of such earnings and that expenses related to other nonbusiness earnings will be an amount equal to 5% of such earnings (see TENN. COMP. R. & REGS. 1320-06-01.23(3)).

Schedule T - Industrial Machinery and Research and Development Equipment Tax Credit

Part 1: Tax Credit Computation

Franchise and excise taxes may be reduced by a credit on industrial machinery and research and development equipment purchased during the tax period covered by the return and located in Tennessee. The credit is generally computed at 1% of the purchase price of qualified industrial machinery and research and development equipment. The credit taken on any return cannot exceed 50% of the current year's franchise and excise tax liability, but any unused credit may be carried forward 15 years under Tenn. Code Ann. Section 67-4-2009(3).

1.	Purchase price of industrial machinery and research and development equipment	(1)	0
2.	Percentage allowed (generally 1%*)	(2)	1 %
3.	Current year credit (multiply Line 1 by Line 2)	(3)	0
4.	Credit available from prior year(s) (from Schedule V)	(4)	0
5.	Total credit available (add Lines 3 and 4)	(5)	0
6.	Franchise and excise tax liability before any credits (add Schedule A, Line 3 and Schedule B, Line 5)	(6)	2,236,900
7.	Limitation on credit (50% of Line 6)	(7)	1,118,450
8.	Franchise and excise tax liability before any credits (add Schedule A, Line 3 and Schedule B, Line 5)	(8)	2,236,900
9.	Credits from Schedule D, Lines 1 through 5 and Schedule D, Line 8	(9)	11,165
10.	Tax before Industrial Machinery Credit (subtract Line 9 from Line 8)	(10)	2,225,735
11.	Amount available in current year (enter the smaller value of Lines 5, 7, or 10 here, and on Schedule D, Line 6)	(11)	0

Part 2: Recapture of Tax Credit

The Industrial Machinery Tax Credit previously established on this form must be partially recaptured if the equipment on which it was based was sold or removed from the state before the end of the equipment's life as established for federal income tax purposes. The recapture amount is a percentage of useful life remaining at the time of sale or removal multiplied by the credit originally established on this form. Previously established credits have either offset tax or populated the carryover table Schedule V. Complete the Industrial Machinery Credit Recapture Worksheet and then enter the applicable recapture amounts on Lines 12 and 13 below.

12.	Reduction to credit carryover table, Schedule V, from recapture worksheet, Part 2, Line 16	(12)	0
13.	Recapture of credit from recapture worksheet, Part 2, Line 17 (enter here and on Schedule B, Line 6)	(13)	0

*The percentage allowed on Part 1, Line 2 above is 1%, unless the taxpayer has met the requirements of Tenn. Code Ann. Section 67-4-2009(3)(I) and has been approved by the Commissioner of Revenue for an enhanced rate based on the investment amount. The statutory minimum investment requirements and applicable rates for the enhanced credit are shown on the following chart:

Minimum Required Capital Investment	Rate of Credit
$100,000,000	3%
$250,000,000	5%
$500,000,000	7%
$1,000,000,000	10%

STATEMENT OF INCOME			Tennessee

1. Report amounts for accounts 412 and 413, Revenues and Expenses from Utility Plant Leased to Others, in other utility column in a similar manner to a utility department. Spread the amount(s) over lines 2 thru 26 as appropriate. Include these amounts in columns (c) and (d) totals.
2. Report amounts in account 414, Other Utility Operating Income, in the same manner as accounts 412 and 413 above.
3. Report data for lines 8, 10 and 11 for Natural Gas companies using accounts 401.1, 404.2, 404.3, 407.1 and 407.2
4. Use page 122 for important notes regarding the statement of income for any account thereof.
5. Give concise explanations concerning unsettled rate proceedings where a contingency exists such that refunds of a material amount may need to be made to the utility's customers or which may result in material refund to the utility with respect to power or gas purchases. State for each year affected the gross revenues or costs to which the contingency relates and the tax effects together with an explanation of the major factors which affect the rights of the utility to retain such revenues or recover amounts paid with respect to power or gas purchases.
6. Give concise explanations concerning significant amounts of any refunds made or received during the year resulting from settlement of any rate proceeding affecting revenues received or costs incurred for power or gas purchases, and a summary of the adjustments made to balance sheet, income, and expense accounts.
7. If any notes appearing in the report to stockholders are applicable to the Statement of Income, such notes may be included at page 122.
8. Enter on page 122 a concise explanation of only those changes in accounting methods made during the year which had an effect on net income, including the basis of allocations and apportionments from those used in the preceding year. Also, give the appropriate dollar effect of such changes.
9. Explain in a footnote if the previous year's figures are different from that reported in prior reports.
10. If the columns are insufficient for reporting additional utility departments, supply the appropriate account titles report the information in a footnote to this schedule.

GAS PLANT IN SERVICE (Accounts 101, 102, 103, and 106) — Tennessee

1. Report below the original cost of gas plant in service according to the prescribed accounts.
2. In addition to Account 101, Gas Plant in Service (Classified), this page and the next include Account 102, Gas Plant Plant Purchased or Sold; Account 103, Experimental Gas Plant Unclassified; and Account 106, Completed Construction Not Classified-Gas.
3. Include in column (c) or (d), as appropriate, corrections of additions and retirements for the current or preceding year.
4. Enclose in parentheses credit adjustments of plant accounts to indicate the negative effect of such accounts.
5. Classify Account 106 according to prescribed accounts on an estimated basis if necessary, and include the entries in column (c). Also to be included in column (c) are entries for reversals of tentative distributions of prior year reported in column (b). Likewise, if the respondent has a significant amount of plant retirements which have not been classified to primary accounts at the end of the year, include in column (d) a tentative distribution of such retirements, on an estimated basis, with appropriate contra entry to the account for accumulated depreciation provision. Include also in column (d) reversals of tentative distributions of prior year's unclassified retirements. Attach supplemental statement showing the account distribution of these tentative classifications in columns (c) and (d), including the reversals of the

prior year's tentative account distribution of these amounts. Careful observance of the above instructions and the texts of Accounts 101 and 106 will avoid serious omissions of respondent's reported amount for plant actually in service at end of year.

6. Show in column (f) reclassifications or transfers within utility plant accounts. Include also in column (f) the additions or reductions of primary account classifications arising from distribution of amounts initially recorded in Account 102. In showing the clearance of Account 102, include in column (e) the amounts with respect to accumulated provision for depreciation, acquisition adjustments, etc., and show in column (f) only the offset to the debits or credits to primary account classifications.

7. For Account 399, state the nature and use of plant included in this account and if substantial in amount submit a supplementary statement showing subaccount classification of such plant conforming to the requirements of these pages.

8. For each amount comprising the reported balance and changes in Account 102, state the property purchased or sold, name of vendor or purchaser, and date of transaction. If proposed journal entries have been filed with the Commission as required by the Uniform System of Accounts, give date of such filing.

ACCUMULATED PROVISION FOR DEPRECIATION OF GAS UTILITY PLANT (Account 108) — **Tennessee**

1. Explain in a footnote any important adjustments during year.
2. Explain in a footnote any difference between the amount for book cost of plant retired, line 10, column (c), and that reported for gas plant in service, pages 204-209, column (d), excluding retirements of nondepreciable property.
3. The provisions of Account 108 in the Uniform System of Accounts require that retirements of depreciable plant be recorded when such plant is removed from service. If the respondent has a significant amount of plant retired at year end which has not been recorded and/or classified to the various reserve functional classifications, make preliminary closing entries to tentatively functionalize the book cost of the plant retired. In addition, include all costs included in retirement work in progress at year end in the appropriate functional classifications.
4. Show separately interest credits under a sinking fund or similar method of depreciation accounting.
5. At lines 7 and 14, add rows as necessary to report all data. Additional rows should be numbered in sequence, e.g., 7.01, 7.02, etc.

REVENUES FROM SALES OF GAS

Report separately data requested for each rate schedule, classified between space heating and non-space heating customers and show totals for each revenue account, 480-484 included. Report average number of customers on basis of number of meters. Where meters are added for billing purposes, count one customer for each group of meters so added. Compute averages on basis of 12 figures at the end of each month. For industrial interruptible sales, report data by priority of interruption if not provided by separate rate schedules.

GENERAL INSTRUCTION SHEET

1. This report must be completed in proper form (typed or legibly printed), and must be **filed with the Comptroller of the Treasury on or before April 1, 2019**. **A copy should be retained in your files for future reference**. Failure to file a tax report could result in an audit under T.C.A. 67-5-1320.

2. **ROUND ALL DOLLAR FIGURES TO WHOLE DOLLARS!**

3. **NO SHEET OR SECTION SHOULD BE LEFT BLANK**. If a sheet or section does not apply to your company, indicate by placing the words "**inapplicable**" or "**none**".

INCOMPLETE REPORTS WILL BE RETURNED!

4. Furnish the Comptroller of the Treasury with a **COMPLETE** copy of the **FEDERAL ENERGY REGULATORY COMMISSION REPORT.**

5. The Comptroller of the Treasury requires certain information pertaining to the company's organization, legal status, and operation. **Pages 1 & 1A** should be completed very carefully. If a particular statement or question does not apply to your company, place the words **"inapplicable"** or **"none"** in the appropriate blank(s). **Do not leave any of the statements or questions on Pages 1 & 1A blank unless instructed to do so.**

6. **Page 2** requires the Gross and Net Investment in System and Tennessee plant and property. This property is to be separated as to Distributable and Localized property. Under the heading "Localized," include all other property, plant, and equipment. **Page 2** also requires information pertaining to the average Market Price of Common and Preferred Stock.

7. **Page 2A** requires a listing of equipment leased and/or used by your company. Leased equipment refers to personal property obtained through an operating lease. Used property refers to personal property not under a lease agreement and not owned by you but in your possession.

8. **Page 7 & 7A** require that you give the **Gross Investment & Cash Value** of all Tennessee property, plant, and equipment. You are further required on **Pages 7 & 7A** to break down all Tennessee property, plant, and equipment as to its physical location within the corporate limits or outside corporate limits.

9. **Pages 8 & 8A** require a breakdown of **Gross Investment & Cash Value** of Tennessee property, plant, and equipment as to county, city, and special school district. Complete a separate sheet for each county, city, and special school district where property is located. The **county sheet** should also include property located in the cities and special school districts within that particular county. The **city sheet** should also include properties of special school districts located within that particular city. The **special school district sheet** should include only that property located within that particular school district.

10. **Page 9** requires a listing of all purchases and sales of Tennessee real property **(including telecommunications towers)** occurring during the year 2018.

GAS – IA

GENERAL INSTRUCTION SHEET (continued)

11. **Page 10** requires a listing of all properties receiving tax incentives such as Pilot Agreements (PILOT) or property leased from an Industrial Development Board (IDB). Report each separate agreement subject to these incentives by populating each column with the pertinent data.

12. **Page 11** requires a listing of all real property under construction. This listing will include all real property currently under construction or construction expected to be completed by September 1 of this year. Be sure to include the county and city where located, map reference and property owner, description of improvement, and the construction cost.

13. **NO SHEET OR SECTION SHOULD BE LEFT BLANK.** If a sheet or section does not apply, indicate such in accordance with **Instruction # 5** on previous page.

14. **IT IS IMPERATIVE THAT THE REPORT BE SIGNED. IF NOT, THE REPORT WILL BE RETURNED.**

15. **Any additional information, schedules, etc., provided by your company must be submitted on LETTER SIZE PAPER (8.5" x 11").**

16. Please provide the Office of State Assessed Properties with all documents in which an opinion of value has been determined by an appraiser hired by your company, any employee of your company, a public utilities commission or its equivalent, or any other party whose service was contracted by your company for the **past three years**. The documents should be summary in nature and **do not include** state or local appraisals.

17. In an effort to assure property accountability compliance, please provide the Office of State Assessed Properties with documentation supporting entries on the Ad Valorem Tax Report for the following: **gross investment in Tennessee, and net investment in Tennessee**. In other words, show how the numbers are derived. For companies located one hundred percent (100%) in Tennessee, a reference to the Balance Sheet is sufficient.

Worksheet --- Line 10

Piedmont Natural Gas Company Inc
56-0556998

Keep for Your Records

Before you begin: Read the *Example* before completing this worksheet.
Use this worksheet to figure your credit if:

✓ some of the wages you paid were excluded from state unemployment tax, OR
✓ you paid any state unemployment tax late.

For this worksheet, **do not round your figures**.

Before you can properly fill out this worksheet, you must gather this information:

- Taxable FUTA wages (Form 940, line 7)
- Taxable state unemployment wages
- The experience rates assigned to you by the states where you paid wages
- The amount of state unemployment taxes you paid on time. (*On time* means that you paid the state unemployment taxes by the due date for filing the Form 940.) Include any state unemployment taxes you paid on nonemployees who were treated as employees by your state unemployment agency.
- The amount of state unemployment taxes you paid late. (*Late* means after the due date for filing Form 940.)

1. Maximum allowable credit - Enter Form 940, line 7 (Form 940, line 7 x .054 = line 1). 13,170,789.54 x .054 on line 1 — **1.** 711,222.64

2. Credit for timely state unemployment tax payments - How much did you pay on time? — **2.** 34,489.53

- If line 2 is **equal to** or **more than** line 1, **STOP here**. STOP You have completed the worksheet. Leave Form 940, line 10 blank.
- If line 2 is **less than** line 1, continue this worksheet.

3. Additional credit - Were ALL of your assigned experience rates 5.4% or more?

If yes, enter zero on line 3. Then go to line 4 of this worksheet.

If no, fill out the computations below. List ONLY THOSE STATES for which your assigned experience rate for any part of the calendar year was less than 5.4%.

	State	Computation rate (The difference between 5.4% (.054) and your assigned experience rate (.054 - .XXX (assigned experience rate) = computation rate)		Taxable state unemployment wages at assigned experience rate		Additional Credit
1.	FL	.027	x	14000.00	=	378.00
2.	NC	.0534	x	33186334.74	=	1772150.28
3.	OH	.027	x	57000.00	=	1539.00
4.	SC	.0491	x	2256528.18	=	110795.53
5.	TN	.053	x	1599885.00	=	84793.91

If you need more lines, use another sheet and include those additional credits in the total.

Total 1,969,656.72

Enter the total on line 3.

3. 1,969,656.72

4. Subtotal (line 2 + line 3 = line 4) — **4.** 2,004,146.25

- If line 4 is equal to or more than line 1, **STOP here**. STOP You have completed the worksheet. Leave Form 940, line 10 blank.
- If line 4 is less than line 1, continue this worksheet.

5. Credit for paying state unemployment taxes late:

5a. What is your remaining allowable credit? (Line 1 - line 4 = line 5a) — **5a.**

5b. How much state unemployment tax did you pay late? — **5b.**

5c. Which is smaller, line 5a or line 5b? Enter the smaller number here. — **5c.**

5d. Your allowable credit for paying state unemployment taxes late (line 5c x .90 = line 5d) — **5d.**

6. Your FUTA credit (line 4 + line 5d = line 6) — **6.** 2,004,146.25

- If line 6 is equal to or more than line 1, **STOP here**. STOP You have completed the worksheet. Leave Form 940, line 10 blank.
- If line 6 is less than line 1, continue this worksheet.

7. Your adjustment (line 1 - line 6 = line 7) — Enter line 7 from this worksheet on Form 940, line 10. — **7.**

Do not attach this worksheet to your Form 940. Keep it for your records.

Schedule A (Form 940) 2019

Worksheet --- Line 10

Piedmont Natural Gas Company Inc
56-0556998

Keep for Your Records

Before you begin: Read the *Example* before completing this worksheet.
Use this worksheet to figure your credit if:

✓ some of the wages you paid were excluded from state unemployment tax, OR
✓ you paid any state unemployment tax late.

For this worksheet, **do not round your figures**.

Before you can properly fill out this worksheet, you must gather this information:

- Taxable FUTA wages (Form 940, line 7)
- Taxable state unemployment wages
- The experience rates assigned to you by the states where you paid wages
- The amount of state unemployment taxes you paid on time. (*On time* means that you paid the state unemployment taxes by the due date for filing the Form 940.) Include any state unemployment taxes you paid on nonemployees who were treated as employees by your state unemployment agency.
- The amount of state unemployment taxes you paid late. (*Late* means after the due date for filing Form 940.)

1. Maximum allowable credit - Enter Form 940, line 7 (Form 940, line 7 x .054 = line 1). 13,008,827.73 x .054 on line 1 — **1.** 702,476.70

2. Credit for timely state unemployment tax payments - How much did you pay on time? — **2.** 28,829.22

- If line 2 is **equal to** or **more than** line 1, **STOP here**. STOP You have completed the worksheet. Leave Form 940, line 10 blank.
- If line 2 is **less than** line 1, continue this worksheet.

3. Additional credit - Were ALL of your assigned experience rates 5.4% or more?

If yes, enter zero on line 3. Then go to line 4 of this worksheet.

If no, fill out the computations below. List ONLY THOSE STATES for which your assigned experience rate for any part of the calendar year was less than 5.4%.

	State	Computation rate (The difference between 5.4% (.054) and your assigned experience rate (.054 - .XXX (assigned experience rate) = computation rate)		Taxable state unemployment wages at assigned experience rate		Additional Credit
1.	FL	.027	x	10455.39	=	282.30
2.	KY	.02775 (07/01 - 12/31)	x	21000.00	=	582.75
3.	NC	.053592	x	34060630.01	=	1825377.28
4.	OH	.027	x	148925.87	=	4021.00
5.	SC	.05013	x	2203243.28	=	110448.59

If you need more lines, use another sheet and include those additional credits in the total. **Total** 2,022,907.62

Enter the total on line 3. — **3.** 2,022,907.62

4. Subtotal (line 2 + line 3 = line 4) — **4.** 2,051,736.84

- If line 4 is equal to or more than line 1, **STOP here**. STOP You have completed the worksheet. Leave Form 940, line 10 blank.
- If line 4 is less than line 1, continue this worksheet.

5. Credit for paying state unemployment taxes late:

5a. What is your remaining allowable credit? (Line 1 - line 4 = line 5a) — **5a.**

5b. How much state unemployment tax did you pay late? — **5b.**

5c. Which is smaller, line 5a or line 5b? Enter the smaller number here. — **5c.**

5d. Your allowable credit for paying state unemployment taxes late (line 5c x .90 = line 5d) — **5d.**

6. Your FUTA credit (line 4 + line 5d = line 6) — **6.** 2,051,736.84

- If line 6 is equal to or more than line 1, **STOP here**. STOP You have completed the worksheet. Leave Form 940, line 10 blank.
- If line 6 is less than line 1, continue this worksheet.

7. Your adjustment (line 1 - line 6 = line 7) — Enter line 7 from this worksheet on Form 940, line 10. — **7.**

Do not attach this worksheet to your Form 940. Keep it for your records.

Minimum Filing Requirements

51. Provide monthly plant additions and retirements by account number for the last three (3) fiscal years to include the test period. Please break down plant additions into normal or special projects, as defined below:
    a. Normal construction requirements should be considered to include the needs created through normal system expansion, such as serving residential areas, shopping areas, old home conversions, replacements of tools and work equipment, transportation equipment, etc.
    b. Special construction requirements should be considered to arise from extensive replacement of old facilities which cannot be foreseen, major expansion projects such as industrial parks, system improvements such as change from low pressure to high pressure required because of changing delivery patterns, and changes required by government action such as street improvement and relocation, community and neighborhood development, bridge replacement, etc. These requirements should be considered to be outside the control of the LDC.
    c. For the last three (3) fiscal years, identify any contributions in aid of construction.

Response: See attachment.

2020 Tennessee General Rate Case
Minimum Filing Requirements

52. Break down budgeted plant additions between normal and special projects, using the criteria defined in Item 51 above, for the months between the end of the last fiscal year and the end of the attrition period. Provide sufficient detail of each individual project as to the date of inception and completion, and the proposed methods of financing. Identify those budgeted plant additions that are in process or have already been completed. Basic assumptions underlying budgets should also be submitted including the assumptions for sales volumes.

Response: See attachment. Special projects are defined as all projects in the following categories:

- Government Relocation and Reimbursable
- New Services
- New Business
- Purchased Meters, ERTS and Regulators
- System Infrastructure

53. Identify all special projects from the end of the test period through the attrition period, using the criteria defined in Item 51 above, by work order number and include the estimated cost. Provide a signed authorization for each special project and identify the planned starting and completion dates.

Response: Please see the attachment provided in response to Minimum Filing Requirement No. 52 for the list of all special projects.

The approval process is done electronically. There are no paper signed authorizations for any projects.

The process for approving sales projects up until recently was completed utilizing an electronic system called STARS. This system is used to detail the project description, the main to be run to the new neighborhood where applicable and also the number of new services. From this, project feasibility is established and the project is submitted for review/approval based on the appropriate delegation of authority level. There are anywhere from 1200 -1500 projects submitted for approval each year through this electronic system. STARS has recently been phased out (historical data remains) and a new system (Gas Sales Platform) has gone live for estimating, project feasibility and review/approval.

For most non-sales projects, Piedmont utilizes both the PowerPlan system and Maximo. Most projects go through a rigorous review process during the annual budget cycle that runs from April through November. Electronic documents called Charters are created for proposed work and include detailed project description and estimated cost and then are risk-ranked, discussed and a subset is approved. Those projects are then created directly in Powerplan or submitted through Maximo.

Each of the electronic systems discussed above require the appropriate levels of electronic approval prior to start of construction.

55. Describe the LDC's budgeting process including, but not limited to the following:
    a. How far in advance are operating and construction budgets prepared? On what basis is the total operation and construction budget determined? Explain the "approval process" in budget development.
    b. How many views or updates of the same budget year are made before a final view is adopted?
    c. Are budgets prepared on a monthly, quarterly, or annual basis?
    d. Which individual or department has overall responsibility for budgets/reconciliations?
    e. Once a final budget has been adopted, are budget to actual (reconciliation) comparisons routinely made? How frequently are reconciliations prepared and by whom?
    f. For the last two (2) completed fiscal years, provide copies of all budgets, budget to actual and indicate reasons for the variances.
    g. Comparisons on a total Company, total LDC, and Tennessee only basis.
    h. Provide total LDC and Tennessee Operations budgets and all supporting workpapers for the current fiscal year and next fiscal year.

Response: The budgeting process begins in late-May/early-June for each calendar year and ends with approval from the Board of Directors in February.

The budgets for operation and construction are determined by compliance and safety requirements, current customer needs, future customer growth forecasts and the projected overall ongoing system requirements and resources (including those that result from adding the anticipated new customers as well as the provision of service to existing customers). The operation and construction budgets also incorporate opportunities, as they arise, to improve operating efficiencies.

Program managers identify the work required and program/project managers develop detailed construction budgets on a project and/or work-type basis and in accordance with proper capital accounting treatment. Senior management will work with program and project managers to refine the construction budgets before submission to the Gas Financial Planning and Analysis department.

The operating budget process starts by utilizing the inputs of each budget owner at a responsibility center level. These individual budgets are calculated using the current actual year as a base and making modifications based on projected changes needed to address compliance, safety, customer service, process efficiency improvements, and customer growth as well as increased costs associated with current resources.

At this point, a preliminary operating and capital budget is prepared for the first budget review meeting with senior leadership. Senior leadership reviews the budgets in detail and makes necessary adjustments to properly align the spending with total company goals, objectives and financial requirements. Any changes from this review meeting and similar, subsequent review meetings are incorporated into the budget and an updated version of the budget is prepared for a final review meeting with the senior leadership. After the final senior leadership review and

57. Provide an explanation and calculation of the method used to allocate to Tennessee any portions included in Item 56 above.

Response: Piedmont's longstanding practice has been to allocate joint property between Piedmont's three state jurisdictions (TN, NC and SC) consistently for each month of the fiscal year based on the ratio of direct property net plant balances by jurisdiction as of the end of the prior fiscal year. The joint property allocation factor is broadly used for Piedmont's jurisdictional financial reporting to this Commission.

For fiscal year 2019, 15.80% of Piedmont's 3-state joint property was allocated to Tennessee; this percentage represents Tennessee's actual net plant percentage as of December 31, 2018. See attachment for the calculation.

58. Provide the investment, accumulated depreciation, and deferred FIT on all property that is owned by an affiliate of the LDC, its Parent, Multi-State Utility, or Affiliated Utility Service Company, where applicable, and leased or allocated to the LDC or Multi-state Utility. An operating division of a Multi-State Utility is not an affiliate.

Response: The rate base presented in this rate case does not include any property owned by an affiliate of Piedmont, such as the Utility's Service Company (Duke Energy Business Services "DEBS"), nor does the rate base presented in this rate case include any property leased or allocated to the LDC.

Piedmont is allocated a portion of the depreciation expense associated with DEBS' property according to the allocation methodology set forth in Duke Energy's Cost Allocation Manual. This allocated Depreciation expense is included in account 0921980 on Piedmont's books. In addition, there is a separate charge for return on DEBS assets (PPE, Pension and Inventory) that is charged directly to Piedmont's account 0931008.

Cash Management Guidelines:
Short-Term Investment Guidelines

These guidelines pertain to the short-term liquid asset portfolio of Duke Energy Corp. and its subsidiaries and are intended to provide direction regarding:

- Investment goals and objectives
- Investment authority and responsibility
- Investment parameters
- Eligible securities
- Suitable dealer qualifications
- Compliance

Goals and Objectives

The primary goal of this portfolio is to maintain principal in order that the funds will be available for operations as needed. In order to meet and optimize this goal, Duke Energy's short-term liquid asset portfolio will be managed using the following investment objectives and definitions, in priority order:

1. Protect and Preserve Principal – eliminate or greatly minimize the probability of a loss of principal value.
2. Ensure that investments can be readily converted to cash if necessary, and maintain an adequate allocation of cash equivalent securities.
3. Minimize income tax liability, foreign exchange risk and sovereign risk.
4. Provide a competitive rate of return – obtain the best available return considering the previous objectives of safety, liquidity and risk mitigation, and prevailing market conditions.

Investment Authority and Responsibility

- Authorized short-term investors for DEC and its respective subsidiaries and affiliates, include the following corporate officers: Chief Financial Officer, Treasurer and Assistant Treasurer or authorized agents as designated by one of the aforementioned corporate officers.
- DEC's Corporate Cash Management group is responsible for investing or directing the investment of all cash assets.

Investment Guideline Exceptions

Temporary exceptions to the Investment Parameters and Eligible Securities must be coordinated through Corporate Cash Management and can be made with approval from any two of the following corporate officers:

- Chief Financial Officer
- Treasurer
- Assistant Treasurer(s)

Investment Parameters

- Cash Segmentation – defined by timeframe of when cash may be needed:
  - Daily operating cash- working capital required to meet daily needs of the business
  - Reserve operating cash – known periodic needs; excess liquidity
  - Strategic cash – not needed in the short-term, but with specific future use

Cash Segmentation

	Daily Operating Cash	Reserve Operating Cash	Strategic Cash
Investment Horizon	0 to 30 days	31 to 180 days	> 180 days
Investment Focus	• High liquidity • Late day access	• Occasional access to portion of cash • Potential for higher yield	• Potential for enhanced returns
Cash uses	Daily operating needs	Excess liquidity/bond proceeds, etc.	Cash held and targeted for specific use
Cash flow volatility	High	Medium	Low

- Diversification - Investments shall be diversified by:
  - Limiting investments to avoid over-concentration in securities from a specific issuer, lender or business sector,
  - Limiting investments in securities that have high credit risk,
  - Investing in securities with varying maturities.
- Maximum Maturities - To the extent possible, Duke Energy shall attempt to match its investments with anticipated cash flow requirements. Unless matched to a specific cash flow, Duke Energy will not directly invest in securities maturing more than 180 days from the date of purchase. A maturity, by definition, shall include puts, announced calls or auctions, allowing for the redemption of the investment at a quantifiable price consistent with safety and preservation of capital.
- Credit Quality – All references to credit rating will be using the Standard & Poors and Moody's investment rating services.

Dealer Qualifications for Cash

A list will be maintained of financial institutions and broker/dealers authorized to provide investment services. Dealers must be capable of providing safekeeping services and comprehensive reporting on (at least) a monthly basis.

All investments made by Duke Energy will be held with a financial institution in custody or safekeeping.

Compliance

The investment portfolio will be reviewed by an Assistant Treasurer on a quarterly basis for compliance to these guidelines.

Duke Energy Policy Statement

Corporate Cash Management Policy

Applicability:	Applies to Enterprise
Originator:	Corporate Treasury - Corporate Cash Management
Approval:	Corporate Treasurer
Effective Date:	04/01/2006
Revision Date:	01/01/2017

Statement of Purpose and Philosophy

The purpose of this Policy is to confirm Duke Energy's Cash Management Objectives and to define the responsibilities and the authority within the Corporation for achieving those objectives.

Policy Expectations

This policy applies to the consolidated Corporation, which consists of Duke Energy Corporation and all of its consolidated or controlled subsidiaries and affiliates. Cash is a critical asset of the Corporation. Duke Energy's policy is that all cash assets of the Corporation be properly safeguarded and then managed to maximize value. The Cash Management Guidelines provide detailed parameters for allowed investing activity.

Accountability: Roles and Responsibilities

Duke Energy's Corporate Cash Management Group (Corporate Cash Management) is responsible for achieving Duke Energy's Cash Management objectives which are as follow:

- Provide daily liquidity
- Safeguard cash assets
- Maximize the value of cash assets
- Minimize short-term interest expense
- Maximize short-term interest income
- Provide cost effective banking services

For those entities with non-Duke shareholders, Corporate Cash Management recognizes its fiduciary responsibilities and will optimize the cash assets of those entities using the above objectives. Corporate Cash Management is responsible for executing or directing all cash management activities within the consolidated Corporation.

Cash Management Activities

Cash management activities include:

- Prepare cash forecasts
- Set cash position
- Consolidate cash, where appropriate (taking into consideration legal, regulatory, tax and any other appropriate considerations)
- Manage movement of funds through the money pool arrangement
- Borrow needed funds at attractive rates
- Maximize return on available cash within approved guidelines
- Maintain strong relationships with a broad group of commercial banks
- Open, maintain (including signature card updates), and close all U.S. and Canadian dollar bank accounts or any accounts needed for off-shore entities
- Select banking services and monitor service quality and price
- Execute wire transfer payments and other electronic payments accurately and timely
- Execute certain foreign currency payments
- Arrange other commercial banking services, including escrow agreements

Borrowing for the entire consolidated Corporation is the responsibility of Duke Energy's Treasury Department. Corporate Cash Management will coordinate with other Treasury Department personnel to determine and establish short-term borrowing programs across the consolidated Corporation. Only individuals authorized by the head of Cash Management will be permitted to initiate short-term borrowings. Such authorizations are reflected in the appropriate Delegation of Authority and communicated to appropriate borrowing agents through letters signed by the head of Cash Management. Authorized individuals are authorized to borrow up to the size of the individual borrowing programs.

Investing cash for the entire consolidated Corporation is the responsibility of Duke Energy's Treasury Department. Only authorized individuals may make cash investments on behalf of Duke Energy and its subsidiaries. Authorizations and approved short-term investment products are outlined in the Short-Term Investment Guidelines maintained by Treasury.

Corporate Cash Management is responsible for the consolidation of cash for the consolidated Corporation. Authorizations and requirements for cash consolidation are further defined in the Intercompany Funding Policy.

DOMESTIC AND INTERNATIONAL CASH MANAGEMENT

Corporate Cash Management is responsible for executing all cash management activities within the consolidated Corporation in the US and any international entity, and will work closely with all business units to ensure that Duke Energy's Cash Management Objectives are being achieved while maximizing business unit and corporate earnings.

Bank accounts must be established and modifications (including signature card updates) must be processed through Corporate Cash Management.

Corporate Cash Management (as authorized by appropriate Boards) is responsible for executing all short-term borrowing and cash investing within the consolidated Corporation and processing wire transfers and certain electronic payments, excluding transactions processed first through Accounts Payable.

Minimum Filing Requirements

64. Provide a complete explanation and calculation of how costs (other than salaries and wages) as requested above were allocated to non-utility operations for the test period and for the period from the end of the test period through the attrition period.

Response: The columns labeled "Allocated" in the attachment provided in response to Minimum Filing Requirement No. 63 include the following allocated costs.

Employee benefits: Costs such as Pension, OPEB, 401K Match and Insurance such as Medical, Dental, Long Term Disability, Life and AD&D are accumulated in account 926. These costs are allocated on a monthly basis by recording a credit entry to account 926 and a debit entry to follow labor charges as recorded by general ledger account. At the beginning of each year, an allocation % for employee benefit cost is determined by dividing budgeted benefits by budgeted labor. Each month this rate is multiplied by total labor charges to arrive at the allocated amount of employee benefits by general ledger account.

Incentive Compensation is also allocated on a monthly basis to follow labor charges as recorded by general ledger account.

Stores Costs: The stores cost allocation process is designed to systematically distribute costs of supply chain personnel based on materials and supplies issuances. Supply chain costs are charged to the Stores cost pool account 0163110. This account is credited each month for a fixed percentage of direct material inventory and purchases that were charged to capital projects, O&M and non-regulated accounts for that month. The offsetting debit is recorded to the same account in which the direct material inventory and purchases originated. This rate is adjusted throughout the year to reach a stores balance of approximately 5% of the inventory balance by year end.

Fleet Costs: Fleet costs are allocated on a monthly basis to follow labor charges as recorded by general ledger account.

BEFORE
THE PUBLIC SERVICE COMMISSION OF
SOUTH CAROLINA

DOCKET NO. 2020-7-G

In the Matter Of)) Application of Piedmont Natural Gas Company,) Inc. to Have the Terms of the Natural Gas Rate) Stabilization Act Apply to the Company's Rates) and Charges for Gas Distribution Services)	**NOTICE OF FILING OF QUARTERLY MONITORING REPORT AND PROPOSED RATE CHANGES**

Piedmont Natural Gas Company, Inc. ("Piedmont"), through counsel and pursuant to Sections 58-5-430 and 58-5-440 of the South Carolina Natural Gas Rate Stabilization Act ("Act"), hereby submits (1) its quarterly monitoring report for the twelve-month period ending March 31, 2020, and (2) the required revenue adjustment calculations and proposed changes to its tariff rates necessary to permit Piedmont the opportunity to earn the rate of return on common equity established in its last general rate case as specified in Section 58-5-420(1). Piedmont requests that the Public Service Commission of South Carolina ("Commission") review and accept the attached documents consistent with Sections 58-5-430 and 58-5-440 of the Act and issue an initial order approving the proposed rate changes set forth in this filing on or before October 15, 2020 in conformance with the procedures set forth in Section 58-5-455 of the Act. The justification for these proposed changes is set forth herein.

In support of this filing, Piedmont respectfully shows unto the Commission as follows:

1. Any notices or other communications with respect to this matter should be sent to:

T. Richmond McPherson III
James H. Jeffries IV
McGuireWoods LLP

ELECTRONICALLY FILED - 2020 June 15 1:57 PM - SCPSC - Docket # 2020-7-G - Page 2 of 45

rmchpherson@mcguirewoods.com
jjeffries@mcguirewoods.com
Telephone: (704) 343-2038

2. On April 25, 2005, Piedmont provided notice to the Commission of its election of the application of the terms of the Act to Piedmont's rates and charges for gas distribution services provided within the state of South Carolina. In conjunction with its election and as required by Sections 58-5-410 and 58-5-420, Piedmont requested that the Commission make findings and establish ongoing procedures as required to make prospective adjustments to Piedmont's base rates utilizing the rates, charges, revenues, expenses, capital structure, returns, and other matters established in Piedmont's most recent general rate proceeding in Docket No. 2002-63-G.

3. Consistent with its prior election for application of the Act to its rates and charges, and pursuant to the requirements of Section 58-5-430 of the Act, Piedmont has attached hereto various schedules constituting its quarterly monitoring report to the Commission for the twelve-month period ended March 31, 2020. In conformance with the requirements of Section 58-5-440 of the Act, Piedmont has also included in the schedules, attached hereto, the calculated revenue deficiency resulting from Piedmont's current rates. This revenue adjustment results in a return on common equity under existing rates that is 536 basis points below that approved in Piedmont's last general rate case.

4. The attached schedules reflect the Company's proposed rate increase calculated in conformance with the rate allocation principles approved in Piedmont's last general rate case, needed to return Piedmont's rate of return on common equity to the midpoint of the range specified by Section 58-5-420(1).

ELECTRONICALLY FILED - 2020 June 15 1:57 PM - SCPSC - Docket # 2020-7-G - Page 3 of 45

5. The Schedules attached hereto and incorporated herein by reference consist of the following:

(1) Present Rate Schedules are incorporated herein by reference as filed in Docket No. 2020-66-G effective April 1, 2020;

(2) Present and Proposed Rate Schedules;

(3) Gas Plant at Original Cost;

(4) Depreciation Schedule;

(5) Materials and Supplies;

(6) Cash Working Capital;

(7) Net Operating Income and Return;

(8) Pro Forma Revenues;

(9) Proposed Revenues;

(10) Revenue Reconciliation;

(11) Allocation of Fixed Gas Cost;

(12) WNA Factors.

6. The revenue requirement computation shown on Schedule 7 hereto indicates that a $15,428,794 increase in margin revenues is necessary to permit Piedmont the opportunity to earn a rate of return on equity equal to the approved rate of return on equity adopted in Docket No. 2002-63-G, Piedmont's last general rate case. Furthermore, the computations on Schedule 7 indicate that a $2,982,375 decrease in cost of gas revenues is necessary to align with the current level of annual demand costs that the Company incurs. Lastly, consistent with the Commission's orders Docket Nos. 2018-7-G and 2019-7-G, Piedmont has been refunding to customers through a special decrement ("Special Decrement") excess federal tax collections that were incurred and recorded to a regulatory liability account between January 1, 2018 and October 31, 2018. The

ELECTRONICALLY FILED - 2020 June 15 1:57 PM - SCPSC - Docket # 2020-7-G - Page 4 of 45

total excess federal tax collections ultimately due to customers amounted to $4,237,364, and Special Decrement rates were approved in Docket Nos. 2018-7-G and 2019-7-G designed to fully refund this amount to customers by October 31, 2020. Piedmont currently anticipates that as of October 31, 2020 it will have a remaining regulatory liability balance of approximately $50,000 due to customers. Piedmont proposes to terminate the Special Decrement rate effective with the first billing cycle of November, 2020, and to record to its cost of gas deferred account in November, 2020 a credit (or debit) for the actual remaining regulatory liability balance due customers (or due Company) as of October 31, 2020.

7. Based upon the calculations provided in Schedules 3 through 12, Piedmont proposes the changes to its tariff rates reflected in Schedule 2 hereto.

8. Consistent with the requirements of Sections 58-5-430 and 58-5-455, Piedmont is concurrently serving copies of this filing on the Office of Regulatory Staff, all parties of record to this proceeding and any other interested party that has requested in writing to receive such filings.

WHEREFORE, Piedmont Natural Gas Company, Inc. respectfully requests that the Commission accept and review Piedmont's quarterly monitoring report for the twelve-month period ended March 31, 2020 and issue an Initial Order on or before October 15, 2020 approving Piedmont's proposed rate adjustments, tariff changes and fixed allocation factors effective with the first billing cycle of November, 2020.

1/ *The rates convert 1.26 therms to 1 GGE.*

2/ *Schedule 7 page 1 of 5 in column 6 indicates that Piedmont's proposed total Operating Revenues from the Sale and Transportation of Gas be $156,080,721. The difference between this amount and the Sub-total Proposed Revenue reflected in Column (I) above is due to rounding.*

1/ Schedule 7, Column 6 of this filing indicates that Piedmont's Total Operating Revenue from the Sale and Transportation of Gas should be $156,080,721.
The reconciliation schedule above demonstrates that the rates would yield $156,080,121 in Total Operating Revenue from the Sale and Transportation of Gas (see column (g), which does not include the CNG Tax Decrement). The $600 difference is due to rounding.

2/ The rates in Column (q) above are calculated as the sum of the rate components shown in Columns (a) + (c) + (e) + (h) + (j). The volumetric rates in Column (r) are the same as those in Column (q), but on a per therm basis instead of on a per dekatherm basis.

Re: Docket No. 2006-227-G

Dear Ms. Boyd:

On August 30, 2019, Piedmont Natural Gas Company ("Piedmont") filed its Quarterly Commission Report (as referred to as the GS-1 Report) for the quarter ended June 30, 2019. Since that time, Piedmont has identified the need to correct certain calculations and a date reference contained in that August 30th filing. These corrections are reflected in the enclosed revised Quarterly Commission Report (GS-1 Report) for the quarter ended June 30, 2019.

If you have any questions regarding this matter, you may reach me at the number shown above.

Sincerely,

/s/ Jasmine . Gardner

Re: Docket No. 2006-227-G

Dear Ms. Boyd:

Enclosed is the uarterly Surveillance Report on the North Carolina tilities Commission s Form G.S.-1, for Piedmont Natural Gas Company, Inc. ("Piedmont") for the period ending December 31, 2019.

Due to methodological and timing differences between the data presented in this report and the manner in which Piedmont would otherwise calculate pro forma rate base and income for ratemaking purposes for the relevant period, Piedmont respectfully submits that the information reflected on the attached report should be used for informational purposes only and not for jurisdictional ratemaking purposes.

Thank you for your assistance with this matter. If you have any questions about this filing, you may reach me at the number shown above.

Sincerely,

Re: Docket No. 2006-227-G

Dear Ms. Boyd:

Pursuant to the North Carolina Utilities Commission's ("Commission") January 30, 2020 Order Requiring Electronic Filing of Quarterly Financial and Operational Data in Docket No. M-100, Sub 157, enclosed is the revised quarterly surveillance report, on Commission Form G.S.-1, for Piedmont Natural Gas Company, Inc. ("Piedmont") for the period ending December 31, 2019. Revisions were made to Schedule 4 section "Operating Taxes," which also flows through to other schedules within the filing.

Due to methodological and timing differences between the data presented in this report and the manner in which Piedmont would otherwise calculate pro forma rate base and income for ratemaking purposes for the relevant period, Piedmont respectfully submits that the information reflected on the attached report should be used for informational purposes only and not for jurisdictional ratemaking purposes.

Thank you for your assistance with this matter. If you have any questions about this filing, you may reach me at the number shown above.

Sincerely,

/s/ Jasmine K. Gardner

Re: Docket No. 2006-227-G

Dear Ms. Boyd:

On Wednesday, March 18, 2020, Piedmont Natural Gas Company, Inc. ("Piedmont") submitted an errata filing to correct an error on its regular quarterly report filing. Piedmont subsequently realized that language from its North Carolina filing letter for the same report was inadvertently used in the letter accompanying its South Carolina filing. We apologize for this error and wanted to bring it to the Clerk's attention. The first paragraph of our March 18, 2020 letter should have read as follows:

> "Enclosed is the revised quarterly surveillance report, on Commission Form G.S.-1, for Piedmont Natural Gas Company, Inc. ("Piedmont") for the period ending December 31, 2019. Revisions were made to Schedule 4 section "Operating Taxes," which also flows through to other schedules within the filing."

Thank you for your assistance with this matter and we apologize again for the inappropriate reference to the North Carolina Utilities Commission order in our prior correspondence. If you have any questions about this filing, you may reach me at the number shown above.

Sincerely,

/s/ Jasmine K. Gardner

Re: Docket No. 2006-227-G

Dear Ms. Boyd:

Enclosed is the quarterly surveillance report, on Commission Form G.S.-1, for Piedmont Natural Gas Company, Inc. ("Piedmont") for the period ending March 31, 2020.

Due to methodological and timing differences between the data presented in this report and the manner in which Piedmont would otherwise calculate pro forma rate base and income for ratemaking purposes for the relevant period, Piedmont respectfully submits that the information reflected on the attached report should be used for informational purposes only and not for jurisdictional ratemaking purposes.

Thank you for your assistance with this matter. If you have any questions about this filing, you may reach me at the number shown above.

Sincerely,

/s/ T. Richmond McPherson III

Re: Docket No. G-9, Sub 707

Dear Ms. Campbell:

On April 24, 2017, Piedmont Natural Gas Company, Inc. ("Piedmont") filed a Petition in the above-captioned docket requesting authority to issue and sell up to $1,250,000,000 in the form of securities issuances or borrowings ("Securities") under a Shelf Registration statement and prospectus filed with the Securities Exchange Commission. The Commission granted that authority by Order dated May 5, 2017. Ordering Paragraph No. 4 of that Order requires Piedmont to file a written report with the Commission immediately upon the issuance of any Securities under the Shelf Registration.

Pursuant to the foregoing directive, Piedmont respectfully submits the following information regarding a recent issuance of Securities under the Shelf Registration by Piedmont:

a)	Form of Securities:	Senior Unsecured Notes
b)	Date of Issuance:	May 21, 2020
c)	Principal amount sold:	$400,000,000
d)	Stated interest rate:	3.35%
e)	Offering price:	$397,148,000
f)	Use of the proceeds:	To pay down a portion of our outstanding intercompany short-term debt under our money-pool borrowing arrangement with Duke Energy Corporation and for general corporate purposes.
g)	Issuance expense:	Approximately $1,000,000

The Prospectus Supplement for these Senior Unsecured Notes can be found at:
https://www.sec.gov/Archives/edgar/data/78460/000104746920003126/a2241666z424b5.htm

This link is provided in lieu of the physical copies required by Commission Rule R1-16(a)(7). If the Commission would prefer Piedmont file the actual physical copies of the prospectus supplement, please let us know and we will be happy to oblige.

If you have any questions regarding this filing, you may reach me at the number shown above.

Re: Docket No. M-1, Sub 12PNG

Dear Ms. Campbell:

Pursuant to the North Carolina Utilities Commission's ("Commission") January 30, 2020 *Order Requiring Electronic Filing of Quarterly Financial and Operational Data* in Docket No. M-100, Sub 157, enclosed is the quarterly surveillance report, on Commission Form G.S.-1, for Piedmont Natural Gas Company, Inc. for the period ending December 31, 2019.

Due to methodological and timing differences between the data presented in this report and the manner in which Piedmont would otherwise calculate pro forma rate base and income for ratemaking purposes for the relevant period, Piedmont respectfully submits that the information reflected on the attached report should be used for informational purposes only and not for jurisdictional ratemaking purposes.

Thank you for your assistance with this matter. If you have any questions about this filing, you may reach me at the number shown above.

Sincerely,

Re: Docket No. M-1, Sub 12PNG

Dear Ms. Campbell:

Pursuant to the North Carolina Utilities Commission's ("Commission") January 30, 2020 Order Requiring Electronic Filing of Quarterly Financial and Operational Data in Docket No. M-100, Sub 157, enclosed is the revised quarterly surveillance report, on Commission Form G.S.-1, for Piedmont Natural Gas Company, Inc. ("Piedmont") for the period ending December 31, 2019. Revisions were made to Schedule 4 section "Operating Taxes," which also flows through to other schedules within the filing.

Due to methodological and timing differences between the data presented in this report and the manner in which Piedmont would otherwise calculate pro forma rate base and income for ratemaking purposes for the relevant period, Piedmont respectfully submits that the information reflected on the attached report should be used for informational purposes only and not for jurisdictional ratemaking purposes.

Thank you for your assistance with this matter. If you have any questions about this filing, you may reach me at the number shown above.

Sincerely,

/s/ James H. Jeffries IV

Re: Docket No. M-1, Sub 12PNG

Dear Ms. Campbell:

Pursuant to the North Carolina Utilities Commission's ("Commission") January 30, 2020 Order Requiring Electronic Filing of Quarterly Financial and Operational Data in Docket No. M-100, Sub 157, enclosed is the quarterly surveillance report, on Commission Form G.S.-1, for Piedmont Natural Gas Company, Inc. ("Piedmont") for the period ending March 31, 2020.

Due to methodological and timing differences between the data presented in this report and the manner in which Piedmont would otherwise calculate pro forma rate base and income for ratemaking purposes for the relevant period, Piedmont respectfully submits that the information reflected on the attached report should be used for informational purposes only and not for jurisdictional ratemaking purposes.

Thank you for your assistance with this matter. If you have any questions about this filing, you may reach me at the number shown above.

Sincerely,

/s/ James H. Jeffries IV

Notes:

(1) On January 29, 2013, we entered into an underwriting agreement under our open combined debt and equity shelf registration statement to sell up to 4.6 million shares of our common stock. The offering for 3 million shares was settled on February 4, 2013, and we received net proceeds of $92.6 million from the underwriters at the net price of $30.88, the offering price to the public of $32 per share per the prospectus less an underwriting discount of $1.12 per share. An additional 1 million shares were borrowed by a forward counterparty and sold to the underwriters for resale to the public on February 4, 2013. Under this initial forward sale agreement (FSA), we agreed to sell the additonal 1 million shares at the same price as the direct shares that were settled on February 4, 2013. Up to 0.6 million shares were subject to a 30-day option by the underwriters to purchase these additonal shares at the same price as the direct shares and would be, at Piedmont's option, either issued at the time of purchase and delivered directly to the underwriters or borrowed and delivered to the underwriters by the forward counterparty. The underwriters exercised their option to purchase the additonal 0.6 million shares on February 22, 2013 and Piedmont elected to place these shares under an additonal FSA having substantial similar terms as the original FSA. On December 16, 2013, Piedmont physically settled the FSAs by issuing $1.6 million shares of common stock to the forward counterparty at the net settlement price of $30.88 per share.

(2) In January 2015, Piedmont Natural Gas entered into separate at-the-market (ATM) equity offering sales agreements, in which the Company could issue and sell shares of common stock up to an aggregate sales price of $170.0 million during the period January 7, 2015 and October 31, 2016. In 2015, Piedmont Natural Gas marketed approximately 1.5 million shares of common stock in three separate tranches through its ATM program from March 2015 through September 2015. Under a Forward Sales Agreement that Piedmont executed on March 10, 2015, 612,000 shares were borrowed from third parties and by the forward counterpary, from March 10, 2015 to April 24, 2015, at a weighted average share price of $36.83, net of adjustments. Based on the weighted average share price at the end of the trading period, the initial forward price was $36.28. Under a FSA that we executed with another forward counterparty on June 8, 2015, 795,529 shares were borrowed from third parties and sold by the forward counterparty, from June 10, 2015 to July 30, 2015, at a weighted average share price of $36.42, net of adjustments. Based on the weighted average share price at the end of the trading period, the initial forward price was $35.87. Under a FSA that we executed with a forward counterparty on September 8, 2015, 114,500 shares were borrowed from third parties and sold by the forward counterparty, from September 9, 2015 to September 15, 2015, at a weighted average share price of $36.58, net of adjustments. Based on the weighted average share price at the end of the trading period, the initial forward price was $36.03. Each transaction was issued persuant to a forward sales agreement (FSA) were physically settled in October 2015 for approximately $54.1 million of net proceeds before issuance costs.

(3) In January 2015, Piedmont Natural Gas entered into separate at-the-market (ATM) equity offering sales agreements, in which the Company could issue and sell shares of common stock up to an aggregate sales price of $170.0 million during the period January 7, 2015 and October 31, 2016. In 2016, Piedmont Natural Gas marketed approximately 1.8 million shares of common stock in three separate tranches through its ATM program from January 2016 through June 2016. Each transaction was issued persuant to a forward sales agreement (FSA) and were physically settled in September 2016 for approximately $104.7 million of net proceeds before issuance costs.
