Re: Declaration of Private Sector Installation at Four Corners RV Park....Additional information

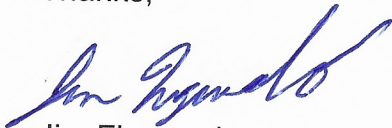

As owner / developer of the Four Corners RV Park Development project, I hereby take responsibility to construct and permanently maintain a private sewer system for which the Metro Government is not and will not become responsible. The obligation I assume will run with the land and be binding on subsequent owners.

The private sewer system will serve Four Corners Development to be built at 4029 LaVergne Couchville Pike ("the Property") in Antioch Tennessee.

The private sewer system will be maintained by the owner and developer and will not charge any fees for its use. The system will be used only by Registered Guest. It will not be used by any surrounding neighbors or other businesses. It will be used by no one for any other reasons or purposes. This is for private use only and not available to the general public at any time.

If further information is needed or for any questions please let me know at the below contact information.

Thanks,

Jim Figuerado
