**BEFORE THE TENNESSEE PUBLIC UTILITY COMMISSION
NASHVILLE, TENNESSEE**

RE:)	
)	
PETITION FOR EXPEDITED REVIEW OF GROWTH CODE DENIAL BY THE NUMBER POOLING ADMINISTRATOR – GALLATIN RATE CENTER)	DOCKET NO. <u>21-00032</u>
)	
)	

**PETITION OF MCIMETRO ACCESS TRANSMISSION SERVICES CORP.
d/b/a VERIZON ACCESS TRANSMISSION SERVICES
FOR EXPEDITED REVIEW OF SOMOS’
DENIAL OF APPLICATION FOR NUMBERING RESOURCES**

MCImetro Access Transmission Services Corp. d/b/a Verizon Access Transmission Services, (Verizon Access) respectfully requests that the Tennessee Public Utility Commission (Commission) review the denial by the Pooling Administrator (Somos) of Verizon Access’ application for a Thousand Block of telephone numbers in the Gallatin, Tennessee rate center, overturn that decision, and order that a Thousand Block be assigned to Verizon Access.

PARTIES

1. Verizon Access is a certificated competitive local exchange company that provides local exchange service and exchange access service in Tennessee. Verizon Access is the successor-in-interest of Intermedia Communications Inc.

2. Somos is an independent non-governmental entity that is responsible for administering and managing the numbering resources in pooling areas. See 47 C.F.R. § 52.20(d).

BACKGROUND AND REQUEST FOR RELIEF

3. A business customer is expanding its location and requested Verizon Access provide 30 consecutive DID telephone numbers in the Gallatin rate center to accommodate the

customer's growth and allow it to assign its teams with a block of numbers. To comply with its existing internal dialing plan, the last four digits of the telephone numbers cannot overlap with existing dialing plan numbers. A copy of the customer's letter explaining the circumstances is attached as Exhibit 1.

4. Because Verizon Access does not have 30 consecutive numbers in its inventory, it applied on February 24, 2021 to Somos for a Thousand Block in the Gallatin rate center. Verizon Access' application (Part 1A) is attached as Exhibit 2.

5. Somos denied Verizon Access' request on the same day it was submitted. The request was denied because Verizon Access did not meet one of the FCC's two criteria that Somos applies, even though Verizon Access does not have the numbering resources needed to satisfy its customer's request. Specifically, the Gallatin rate center's months-to-exhaust calculation was 2.898 months – which meets the FCC's six month criterion. Verizon Access's number utilization of 44.4% was lower than the FCC's 75% criterion. The Months-to-Exhaust Report reflecting these calculations is attached as Exhibit 3. Somos' denial of Verizon Access's application is attached as Exhibit 4.

6. The FCC has delegated authority to the Commission to address Somos' denial of a request for numbering resources, stating that “[w]e agree ... that a safety valve mechanism should be established, and we delegate authority to state commissions to hear claims that a safety valve should be applied when the . . . Pooling Administrator denies a specific request for numbering resources.”¹ Moreover, the FCC has determined that “a carrier should be able to get additional numbering resources when there is a verifiable need due to the carrier's inability to

¹ *Numbering Resource Optimization*, Third Report and Order and Second Order on Reconsideration in CC Docket No. 96-98 and CC Docket No. 99-200, FCC 01-362, CC Docket No. 99-200, CC Docket No. 96-98, CC Docket No. 95-116, ¶ 61(2001).

satisfy a specific customer request.” Specifically, states “may grant requests for customers seeking contiguous blocks of numbers.”²

7. Somos’ denial of sufficient numbering resources to Verizon Access to meet its customer’s request is inconsistent with the FCC’s position that “[u]nder no circumstances should consumers be precluded from receiving telecommunications services of their choice from providers of their choice for want of numbering resources.”³ By refusing to grant numbering resources sufficient to meet the needs of Verizon Access’s customer, Somos is preventing this customer from obtaining the service it wants from the carrier of its choice.

8. Verizon Access’ request for a Thousand Block to meet its customer’s request fits squarely within the framework established by the FCC for “safety valve” requests that the Commission is authorized to grant. Verizon Access respectfully requests that the Commission direct Somos to assign a Thousand Block for the Gallatin rate center so that Verizon Access can satisfy its customer’s request.

WHEREFORE, Verizon Access respectfully requests that the Commission review Somos’ decision to deny Verizon Access’s request for additional numbering resources, overturn that decision, and direct Somos to assign Verizon Access a Thousand Block in the Gallatin rate center.

² *Id.* ¶ 64.

³ *Numbering Resource Optimization*, Second Report and Order and Order on Reconsideration in CC Docket No. 96-98 and CC Docket No. 99-200, and Second Further Notice of Proposed Rulemaking in CC Docket No. 99-200, FCC 00-429, CC Docket No. 99-200, CC Docket No. 96-98, ¶ 61 (2000).

Respectfully submitted on March 8, 2021.

February 23, 2021

To Whom It May Concern,

B. Riley Financial in Los Angeles, CA continues to expand through acquisition of synergistic companies. We are embarking on a strategic plan that will centralize our enterprise telephony services. This effort will eliminate multiple hosted and on-premise phone systems and services across the country bringing the entire enterprise onto a single platform. The core of the employees currently use a four-digit dial plan with custom, in-house built applications engineered to take advantage of that dialplan. To successfully implement this project, we will require a 30 contiguous range of DID numbers where the NNNN does not overlap with numbers already in our current dialplan. The physical address for these numbers will be 100 Public Square, Gallatin, Tennessee 37066.

To accomplish this project, B. Riley Financial has placed an order with Verizon Business for local telecommunications services for 30 contiguous numbers to be put in service by April 1, 2021. If Verizon is not able to acquire these 30 contiguous numbers for B. Riley Financial, it will impact our ability to implement our desired dial plan and adversely affect our ability to consolidate the enterprise onto a single phone system and to provide a predictable and consistent phone service to our employees across the company.

The addition of 30 contiguous DID numbers will contribute to the simplicity of administrative support, ease of use for our users, and cost savings to the corporation.

Rate Center^{vi}: **GALLATIN**

1.3 Dates:

Date of Application^{vii}:
02/24/2021

Requested Effective Date^{viii}:
03/27/2021

Requested Expedited Treatment? (See Section 8.6) Yes **X** No

Expedited Explanation:

☒ By selecting this checkbox, I acknowledge that I am requesting the earliest possible effective date the Administrator can grant. Please note that this only applies to a reduction in the Administrator's processing time, however the request will still be processed in the order received.

1.4 Type of Service Provider Requesting the Thousands-Block :

- a) Type of Service Provider : **CAP OR CLEC** (LEC, IXC, CMRS, Other)
- b) Primary Type of Service Blocks to be used for : **Wireline**
- c) Thousands-Block(s) (NXX-X) assignment preference (Optional) **615-989-5**
- d) Thousands-Block(s) (NXX-X) that are undesirable for this assignment , if any
- e) If requesting a code for LRN purposes, indicate which block(s) you will be keeping (the remainder of the blocks will be given to the pool)

1.5 Type of Request:

Initial block for rate center : Yes If Yes, attach evidence of authorization and proof of capability to provide service within 60 days.

Growth block for rate center : Yes **X** If Yes, attach months to exhaust worksheet

☐ By selecting this checkbox, I acknowledge that I am willing to accept a block in **red** and explicitly understand that the underlying CO code may not yet be activated in the PSTN and loaded in the NPAC on the block effective date.

Type of change (Mark all that apply)

- ☐ OCN: Intra-company^{ix} ☐ Switching Id ☐ Part 1B
- ☐ OCN: Inter-company^x ☐ Effective Date

Change block : Yes If Yes, list NPA-NXX-X

1.6 Block Return :

- a) Is this block Contaminated: Yes No
- b) If Yes how many TNs are NOT available for assignment :
- c) Have all new Intra SP ports been completed in the NPAC: Yes No

d) Has this block been protected from further assignment: Yes _____ No _____

Disconnect block : Yes _____ If Yes, list NPA-NXX-X _____

Remarks:

I hereby certify that the above information requesting a Thousands-Block (NPA-NXX-X) is true and accurate to the best of my knowledge and that this application has been prepared in accordance with the Thousands-Block and Central Office Code Administration Guidelines (TBCOCAG) available on the ATIS web site (www.atis.org/inc) or by contacting inc@atis.org as of the date of this application.

Title

02/24/2021

Date

Instructions for filling out each Section of the Part 1A form:

Section 1.1 Contact information requires that Service Providers (SP) supply under "Block Applicant" the company name, company headquarters address, a contact within the company, an address where the contact person may be reached, in addition to the correct phone, fax, and e-mail address. The Pooling Administrator (PA) section also requires the SP to fill in the PA's name, address, phone, fax and e-mail.

Section 1.2 Service Providers (SP) who need a Thousands-Block (NPA-NXX-X) assignment or for a Location Routing Number (LRN) are required to fill in this section. If needed for an LRN, a Part 1 Central Office Code (NPA-NXX) Application needs to also be submitted to the Pooling Administrator (PA). The SP should supply the Numbering Plan Area (NPA); the Local Access Transport Area (LATA), which is a three-digit number that can be found in the Telcordia Technologies, Inc. dba iconectiv (iconectiv®) LERG™ Routing Guide^{xi}. The Operating Company Number (OCN) assigned to the SP and the OCN of its parent company. An OCN is a four-character alphanumeric NECA-assigned Company Code or a four-character alphanumeric identifier assigned by the iconectiv Telecom Routing Administration (TRA). In addition, the number of Thousands-Blocks requested should be supplied. The Switch Identification (Switching Entity/POI). Explanations of these terms may be found in the footnotes.

Section 1.3 The date the Service Provider (SP) completes the application should be entered in this section, as well as the Effective Date of the requested Thousands-Block.

Section 1.4 Service Providers (SP) should indicate their type, e.g., local exchange carrier, competitive local exchange carrier, interexchange carrier, CMRS or VoIP. Also indicate the primary type of business in which the Numbering Resource is to be used. SPs may indicate their preference for a particular Thousands-Block, e.g., 321-9XXX, or indicate any Thousands-Blocks that may be undesirable, e.g., 321-6XXX.

Section 1.5 Service Providers (SP) indicate the type of request. Initial requests are for first applications for Thousands-Blocks in a Rate Center, Growth applications are for additional Thousands-Blocks in a Rate Center in which the Applicant already has Numbering Resources, and provide the required evidence as ordered by the FCC.

Section 1.6 Service Providers (SP) shall indicate the updated/current information in regards to contaminated Telephone Numbers (TN) on the Thousands-Block they are

returning to the Industry Inventory Pool. Thousands-Blocks with over 10% contamination (101 TNs or more) shall not be returned to the Industry Inventory Pool except when a SP is exiting the market or is exchanging a Thousands-Block that was identified as being over 10% contaminated. If the Thousands-Block being returned is over 10% contaminated, the Pooling Administrator (PA) shall seek a new Thousands-Block Holder. If question c and/or d have a response of No, the request for return shall be denied.

The Thousands-Block applicant certifies veracity of this form by signing their name, and providing their title and date.

Footnotes:

ⁱIdentify the type of change(s) in Section 1.5.

ⁱⁱThe Pool Administrator (PA) is available to assist in completing these forms.

ⁱⁱⁱA Part 1 Central Office (CO) Code (NPA-NXX) Application shall also need to be submitted to the Pooling Administrator (PA).

^{iv}Operating Company Number (OCN) assignments must uniquely identify the applicant. Relative to Central Office (CO) Code (NPA-NXX) assignments, NECA-assigned Company Codes may be used as OCNs. Companies with no prior CO Code or Company Code assignments should contact NECA (800 524-1020) to be assigned a Company Code(s). Since multiple OCNs and/or Company Codes may be associated with a given company, companies with prior assignments should direct questions regarding appropriate OCN usage to TRA (732-699-6700).

^vThis is an eleven-character descriptor of the Switching Entity/Point Of Interconnection (POI) provided by the owning entity for the purpose of routing calls. This is the 11 character CLLITM Code of the Switching Entity/POI.

^{vi}Rate Center name shall be a tariffed Rate Center.

^{vii}Acknowledgment and indication of disposition of this application shall be provided to applicant within seven calendar days from the date of receipt of this application. An incomplete form may result in delays in processing this request.

^{viii}Please ensure that the Central Office (CO) Code (NPA-NXX) of the LRN to be associated with this Thousands-Block(s) is/will be active in the PSTN prior to the effective date of the Thousands-Block(s).

^{ix}Select if you are the current Thousands-Block Holder.

^xSelect if you are not the current Thousands-Block Holder.

^{xi}iconectiv[®], Telcordia[®], and Common Language[®] are registered trademarks and CLCITM, CLLITM, LERGTM Routing Guide and TPMTM Data Source are trademarks and the Intellectual Property of Telcordia Technologies, Inc. dba as iconectiv.

Explanation: _____

¹A copy of this worksheet is required to be submitted to the Pooling Administrator (PA) when requesting additional Numbering Resources in a rate center. For auditing purposes, the applicant shall retain a copy of this document.

²List all Numbering Resources allocated to the OCN for the requested Rate Center, including newly acquired Central Office (CO) Codes (NPA-NXX) and Thousands-Blocks (NPA-NXX-X). This information is available from the Total Numbering Resources in PAS and shall automatically populate on this form in PAS. When an exception exists, the Applicant shall adjust the auto-populated list and shall provide an explanation of the adjustment in the Explanation field.

³The total quantity of numbers available for assignment from the Numbering Resources allocated to the OCN for the requested Rate Center, including newly acquired CO Codes (NPA-NXXs) and Thousands-Blocks (NPA-NXX-Xs). When an exception exists, the Applicant shall adjust the auto-populated number as needed and provide an explanation of the adjustment in the Explanation field (e.g., to increase the number of available resources due to pending applications in the same rate center, or for documentation purposes for safety valve waivers).

⁴The total quantity of Numbering Resources allocated to the OCN for the requested Rate Center, including newly acquired CO Codes (NPA-NXXs) and Thousands-Blocks (NPA-NXX-Xs). This information is available from the Total Numbering Resources Report in PAS and shall automatically populate on this form in PAS. When an exception exists, the Applicant shall adjust the auto-populated number as needed and provide an explanation of the adjustment in the Explanation field (e.g., to increase the total number of resources to include pending applications in the same rate center, or for documentation purposes for safety valve waivers).

⁵Quantity of numbers activated in the past 90 days indicates newly acquired Thousands-Blocks (NPA-

NXX-X) and/or Central Office (CO) Codes (NPA-NXX) received from the administrator and shall be reported in increments of 1,000 or 10,000 TNs (e. g.: 2 blocks received=2,000 and 1 code received =10,000).

⁶Net change in Telephone Numbers (TN) no longer available for assignment in each previous month, starting with the most distant month as Month 1, and Month 6 as the current month.

⁷Forecast of Telephone Numbers (TN) needed in each following month, starting with the most recent month as Month 1.

⁸This field is automatically calculated and populated on this form in PAS.

⁹This field is automatically calculated and populated on this form in PAS. To be assigned an additional Thousands-Block (NPA-NXX-X) for growth, "Months to Exhaust" shall be less than or equal to 6 months. (47 CFR § 52.15 (g) (4) (iii)).

¹⁰This field is automatically calculated and populated on this form in PAS. To be assigned an additional Thousands-Block (NPA-NXX-X) for growth, "Utilization" shall be 75% or more (47 CFR § 52.15 (h)). Newly acquired Numbering Resources may be excluded from the Utilization calculation (47 CFR § 52.15 (g)(4)(ii)).
